FERNANDINA BEACH, FL 32034**

- 1. CALL TO ORDER / ROLL CALL / DETERMINATION OF QUORUM**
- 2. PLEDGE OF ALLEGIANCE**
- 3. APPROVAL OF MEETING MINUTES**
 - 3.1 Approval of Minutes from the Regular Meeting of March 18, 2026.
- 4. OLD BUSINESS**
- 5. NEW BUSINESS**
 - 5.1 **BOA 2026-0002 - ERIC CORBETT, 409 STANLEY DRIVE**
Variance request from LDC Section 1.03.05 Construction or Demolition of Structures on Combined Lots, to subdivide a 100' X 203' lot into two parcels measuring 100' X 100' and 100' X 103'. (*Quasi-Judicial*)
- 6. BOARD BUSINESS**
- 7. STAFF REPORT**
- 8. PUBLIC COMMENT**
- 9. ADJOURNMENT**

NEXT BOA REGULAR MEETING IS SCHEDULED FOR JUNE 17, 2026.

All members of the public are invited to be present and be heard. Persons with disabilities requiring accommodations in order to participate in this program or activity should contact (904) 310-3115 or through the Florida Relay Services at 711 at least 24 hours in advance to request such accommodations.

All interested parties may appear at said meeting and be heard as to the advisability of any action, which may be considered with respect to such matter. For information regarding this matter, please contact the Planning Department (904) 310-3135.

**MINUTES
BOARD OF ADJUSTMENT
REGULAR MEETING
MARCH 18, 2026
5:00 PM
CITY HALL COMMISSION CHAMBERS
204 ASH STREET
FERNANDINA BEACH, FL 32034**

1. CALL TO ORDER: 5:00

ROLL CALL / DETERMINATION OF QUORUM

Member Johnny Miller Vice Chair Len Kreger (Vice-Chair)
Member Barry Hertslet Chair Steven Papke (Chair)
Member Fred Johnson

ABSENT

Member Frank Miller (Alt 1)

OTHERS PRESENT

Mia Sadler, Planner II Glenn Akramoff, Deputy City Manager
Teresa Prince, City Attorney Mackennah Tarmey, Recording Secretary

2. PLEDGE OF ALLEGIANCE

3. APPROVAL OF MEETING MINUTES

3.1 Approval of Minutes for the Regular Meeting of February 18, 2026.

ACTION TAKEN: A motion was made by Member Hertslet, seconded by Member Johnny Miller, to approve the Minutes for the Regular Meeting of October 15, 2025, as presented.

Vote upon passage of the motion was taken by voice vote, and being all ayes, carried.

The applicant for Item 5.1 was delayed and while waiting for his arrival, Board Members discussed some Board Business.

Member Kreger addressed Ms. Prince and inquired about the status of the "Tringali" properties case. Ms. Prince provided an update and stated that 70.51 Statute notices were mailed and explained that Florida Statutes for mediation hearing. She then provided updates regarding some senate bills that would directly impact the City such as the requirements of criteria to be provided for any denials of reviews of site plans, plats, and rezoning. She touched on third party reviewer bill that passed which will require that the City will have to submit a RFP to establish a preferred vendor list for third-party/Private Provider reviewers for reference. She also confirmed that fixes to SB 180 did not pass. Further discussion from the Board Members ensued regarding legislative updates.

The meeting was in recess at 5:15 p.m. and reconvened at 5:31 p.m.

DRAFT

Ms. Tarmey administered the oath for those who wished to give testimony. No Board Members disclosed any ex-parte communications aside from Vice-Chair Kreger who had communication with Staff about BOA 2026-0001.

Ms. Prince explained the quasi-judicial hearing procedures and appeal process.

4. OLD BUSINESS

5. NEW BUSINESS

5.1 BOA 2026-0001 - HENRY HEYWARD BURNET IV & VIRGINIA Y. BURNET, 104 N. WOLFF STREET

Variance request from LDC Section 5.01.10 Fences and Walls, Table 5.01.10(A) Maximum Height of Fences and Walls, to replace the existing 6-foot chainlink fence with a 4-foot black chainlink fence in the front yard (approximately 150 feet) and 8-foot black chainlink fence along the remaining southern side rear yard of the property (approximately 200 feet) which is adjacent to Egans Creek Park. (*Quasi-Judicial*)

Ms. Mia Sadler, Planner II, introduced the case and presented the Staff Report Analysis. The applicant is looking for a variance from 5.01.10(a) Fences and Walls in order to limit visitors to the park from entering onto his private property. She provided a site survey, explained the timeline of the permitting inquiry, and spoke of the 6 criteria.

Member Kreger, asked about 8ft fences and that almost all buffers require 6ft fences. He noted that he walked the property and invoked that 8ft fences in the city are rare, and voiced opposition to this variance request.

Mr. Heyward Burnet, owner of the property at 104 N Wolff Street, explained that he has had people using his dock, people picnicking and in a more serious case, had intruders in the middle of night come onto the property, and had run in with law enforcement.

Member Johnson asked how close to the water will the fence be installed. Mr. Burnet said that it would be at the waterline.

Ms. Sadler interjected and said that 12 ft fences are allowed in recreation and conservation zones.

Member Johnson asked why there would be 4ft fencing and 8ft fencing. Ms. Sadler explained that according to the LDC code the maximum allowable height is 4ft for the first 25ft of the property.

Member Kreger went further into discussion with Mr. Burnet about the need to go higher than 6ft for fencing.

Member Johnny Miller confirmed with Mr. Burnet that no foliage would be remove or disturbed.

Public Hearing was closed.

Board Members engaged into discussions about what the next steps should be. Member Johnson asked about the location of other 8ft fences in the City. Ms. Sadler stated that C-3 and MU-1 and Airport have tall fences.

Margaret Pearson, Planning Manager, gave examples of the 8ft fences that are currently erected around the City.

ACTION TAKEN: A motion was made by Member Kreger, to deny BOA case 2026-0001; that the BOA make the following findings of fact and conclusions of law part of the record; that BOA 2026-0001 as presented does not adequately demonstrate that the request is compliant with the Comprehensive Plan and Land Development Code to warrant approval at this time; AND that BOA 2026-0001 do not meet the following criteria to grant a variance: Special Condition, Special Privilege, Literal Interpretation, Minimum Variance, General Harmony, and Public Interest, specifically does not take away any property rights of the applicant.

DRAFT

The motion died with a lack of a Second.

Member Johnson stated that the 8ft fence should not be seen or disturb the park.

ACTION TAKEN: A motion was made by Member Johnny Miller, seconded by Member Hertslet, to approve BOA case 2026-0001; that the BOA make the following findings of fact and conclusions of law part of the record; AND that BOA 2026-0001 as presented is substantially compliant with the Comprehensive Plan and Land Development Code to warrant approval at this time; AND that BOA 2026-0001 meets the following criteria to grant a variance: Special Condition, Special Privilege, Literal Interpretation, Minimum Variance, General Harmony, and Public Interest.

Vote upon passage of the motion was taken by ayes and nays, as follows:

Member Hertslet	Aye
Member Johnny Miller	Aye
Member Fred Johnson	Aye
Vice-Chair Kreger	Nay
Chair Papke	Aye

Motion carried.

6. BOARD BUSINESS

Ms. Prince confirmed that the conflicted meeting for August 2026 will be changed to August 26, 2026.

It was also confirmed that there would not be a meeting on April 15, 2026, and that the Board would reconvene on May 20, 2026.

7. STAFF REPORT

8. PUBLIC COMMENT

9. ADJOURNMENT: 5:54 PM

BOARD OF ADJUSTMENT STAFF REPORT

BOA 2026-0002

May 20, 2026

Agent/Owner:	Eric Corbett
Property Address:	409 Stanley Drive
Parcel Number:	00-00-31-128A-0005-0000
Requested action:	VARIANCE REQUEST from Land Development Code Section: 1.03.05 Construction or Demolition of Structures on Combined Lots, to subdivide a 100' X 203' lot into two parcels measuring 100' X 100' and 100' X 103'.
Current zoning:	R-1
FLUM land use category:	Low Density Residential
Existing uses on the site:	Vacant

All required application materials have been received. All fees have been paid. All required notices have been made.

Aerial View:

Small scale map:

Zoning:

Street View:

Figure 1 View from corner of Stanley Dr and Highland Dunes Way

Figure 2 View looking west down Highland Dunes Way

Figure 3 View looking west at the subject property

SUMMARY OF REQUEST AND BACKGROUND INFORMATION:

The property in question, located at 409 Stanely Drive, is a 0.47-acre lot upon which a house and pole barn was demolished between August-September of 2025 through permits: DEMR-2025-0063 and DEMR-2025-0064. The property is now vacant and the owner, Mr. Eric Corbett, wishes to divide the lot into two lots for the purpose of development of one single family home and the sale of the other lot to a family member. Shortly after the purchase of this property and subsequent demolitions of the structures, Mr. Corbett came into the Planning and Conservation Department to confirm that the division of the lot into two lots, and that the standards of lot size for the R-1 zoning district could be met. He received verbal confirmation from multiple staff members. In October of 2025, after an application for a Lot Line Adjustment was submitted, the Planning Manager and City Attorney made the interpretation that section 1.03.05 of the Land Development Code applied to this scenario. A meeting was held between Mr. Corbett, the City Attorney, and the Planning and Conservation Department to discuss next steps. At the meeting, it was reaffirmed that 1.03.05 applies to the lot as it states: “on property containing **one or more platted lots** or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the ‘lot of record’”. Staff advised Mr. Corbett to make an application to the Board of Adjustment for relief from this section of the Land Development Code.

Section 1.03.05 of the Land Development Code reads: “1.03.05 CONSTRUCTION OR DEMOLITION OF STRUCTURES ON COMBINED LOTS

A. In order to maintain open space, visual corridors, neighborhood character, property values and visual attractiveness of residential areas, wherever there may exist a single-family detached residential unit or, a duplex structure or any auxiliary building or structure, including but not limited to, swimming pools, or any other improvement which was heretofore constructed on property containing one or more platted lots or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the “lot of record”, and no permit will be issued for the construction of more than one residential dwelling unit on the site. All construction on the building site must comply with all existing zoning and density requirements.

B. The demolition or removal of any residence or structure, whether voluntary or involuntary, does not have the effect of changing the establishment of the building site.

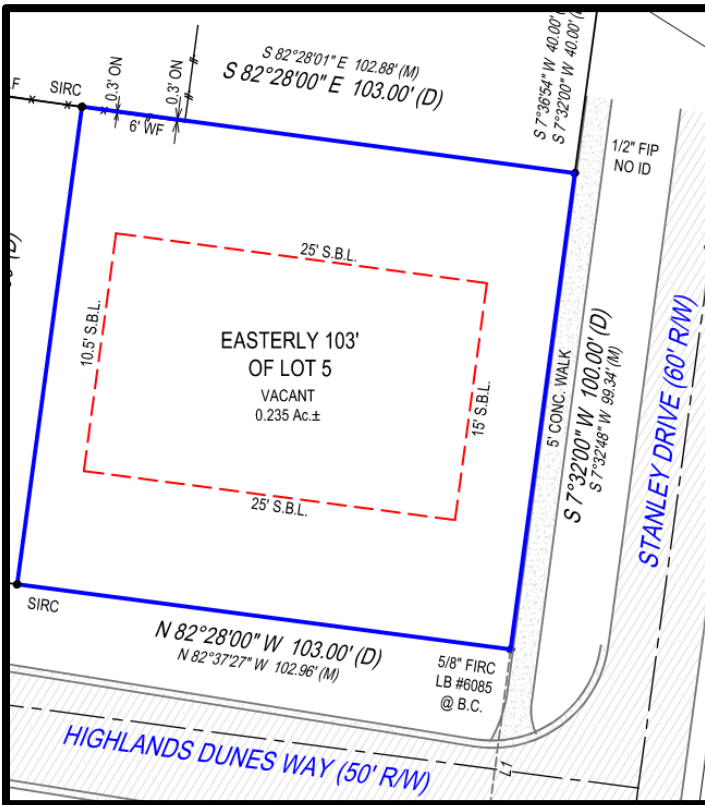

C. A change from the foregoing provisions for the purpose of establishing building sites, or separation of building sites requires supermajority approval by the Board of Adjustment in accordance with the variance approval process contained in Section 10.02.00 in a quasi-judicial hearing at which all interested persons will be afforded an opportunity to be heard.”

The existing lot is 100 ft wide on the boundary with Stanley Dr and 203 ft long along the boundary if Highland Dunes Way. The two potential lots would meet the requirements for the R-1 zoning district. To subdivide the property into two lots, compliant with the lot size requirements laid out in the site design standards in Land Development Code, a variance must be granted by the BOA.

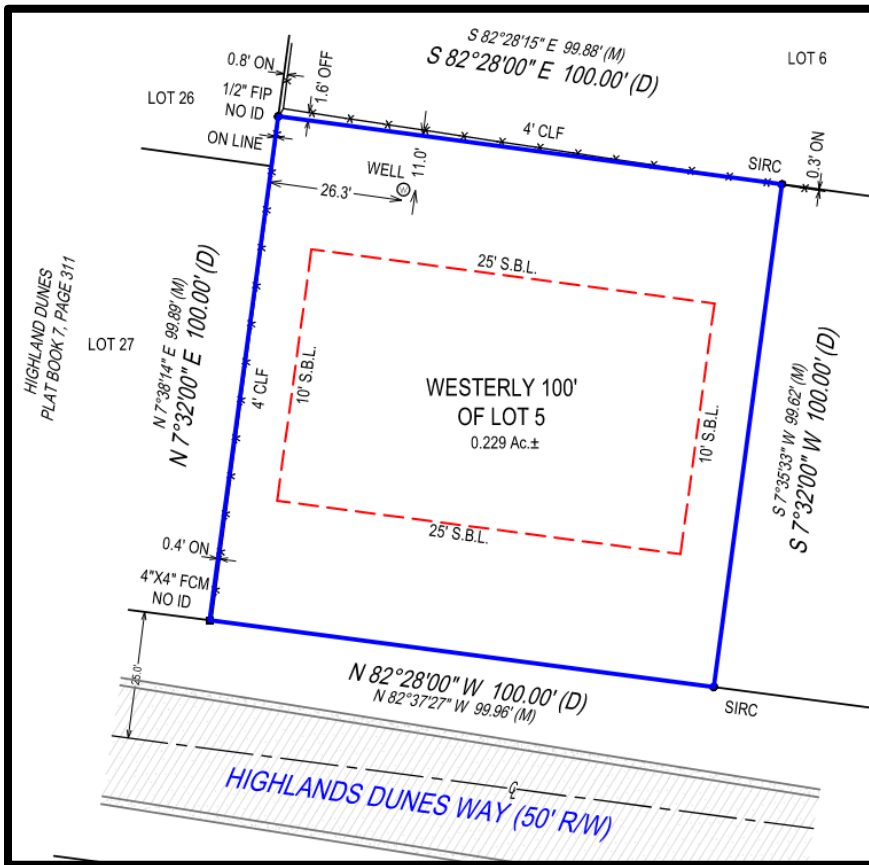

Survey of existing Lot 5:

Survey of "Easterly 103' Lot 5":

Survey of “Westerly 100’ of Lot 5”:

APPLICABLE POLICY GUIDANCE:

CITY OF FERNANDINA BEACH LAND DEVELOPMENT CODE:

Staff’s review of this application finds it is not subject to any of the twelve limitations of Section 10.02.01 and can therefore be considered by the Board of Adjustment. The following analysis of the six criteria for granting a variance is reviewed for compliance with the Land Development Code.

CITY OF FERNANDINA BEACH COMPREHENSIVE PLAN:

The following Comprehensive Plan Goals, Objectives, and Policies are applicable in this case:

- Policy 1.02.05- The City’s land development code shall include the following: (D): Subdivision of land: Land development regulations shall provide for the division of land and the design of plated development projects.
- Policy 1.02.07 - The City shall implement the Fernandina Beach Comprehensive Plan in a manner that acknowledges private property rights.
- Policy 1.02.10 - The City shall protect privacy and access to light, air, and open space. The City shall consider regulations such as building placement on a site, building design, and building orientation as one means to achieve this policy.
- Objective 1.06: COMMUNITY CHARACTER: Community character is reflected in lot sizes, house sizes, site placement, height, architectural features and existing vegetation. The City shall strive to stabilize and preserve neighborhoods and establish urban design standards which protect and promote quality of life, in order to prevent teardowns, encourage re-use, infill and new development.

- Policy 1.06.06. - While providing other housing forms and types at appropriate locations in order to diversify housing choice, the City shall maintain and enhance its existing conventional, single-family neighborhoods as essential and valuable to providing stable housing in the city and in their support of nearby mixed-use, commercial, office and retail activity centers.
- Policy 1.07.04. - Low Density Residential (LDR)
 - a. Areas delineated on the FLUM for low density residential development shall accommodate permanent residential development and shall be comprised of single-family detached homes on individual lots.
 - d. The low-density residential designation is established to:
 1. Protect the quality and character of existing low density single-family neighborhoods.
 2. Preserve open space.
 3. Prevent encroachment by commercial uses, including hotels, motels, bed and breakfast units, resort rentals, or other forms of transient accommodations, and incompatible non-residential uses.
 4. Encourage densities that are compatible with existing and anticipated future developments.
 5. Promote compatibility with natural features of the land; and,
 6. Minimize the burden on existing and projected supportive public services and facilities within the area.
- Goal 9: Pursuant to Section 163.3177(6)(i), Florida Statutes the following rights will be considered in local decision making:
 1. The right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.
 2. The right of a property owner to use, maintain, develop, and improve his or her property for personal use or for the use of any other person, subject to state law and local ordinances

ANALYSIS:

For an application for a variance to be approved or approved with conditions, the BOA shall make a positive finding regarding each of the following provisions:

Consistent with Criteria? All questions must be answered in the affirmative in order for staff to recommend approval of a variance. Negative answers must be addressed in the findings.

Criteria	Applicant Response	Staff Analysis	Meets Criteria
<u>1. Special Conditions</u> <i>Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district. Special</i>	Shortly after purchasing the property, but prior to our application to demolish the existing home and pole barn, I met with the city planner and discussed my plans to demolish those structures and split the lot into two buildable lots – one for me to build on and the other for my brother to build on – and was given verbal permission to proceed. That verbal permission was then confirmed in an email exchange that followed the in-person meeting at the city	Yes. The property is located on the corner of Stanley Drive and Highland Dunes Way. The property is part of a 1950 plat, Forest Hills, in which most lot sizes were greater than 200 ft in depth, which is uncommon for more recently platted lots. The lot directly to the south, was developed into a road to access a 2007 development, Highland Dunes. The lot sizes within the newer development, with R-1	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes

<p>conditions or circumstances do not result from actions of the applicant and are not based on a desire to reduce development costs.</p>	<p>hall offices. The lot that is currently 203 feet by 100 feet will be split to create one lot that is 103 feet by 100 feet that will face Stanley Drive (as the previous home did) an additional lot of 100 feet by 100 feet that will face Highland Dunes Way. The special condition is the previous construction and current existence of the roadway “Highland Dunes Way” that was done 202-25 years ago, but long after the creation of the original Forest Hills subdivision plat in the 1950s. This roadway provides the access needed to create two lots where only one existed before.</p>	<p>zoning, are smaller with dimensions widths of 75 by roughly 100.</p>	
<p>2. Special Privilege Granting the variance does not confer upon the applicant a special privilege that is denied by the Land Development Code to other lands, structures, or buildings in the same zoning district.</p>	<p>If there were similar circumstances on a different lot I would think the variance would be provided there as well.</p>	<p>Yes. Any property owner in the City of Fernandina Beach may apply to the Board of Adjustment for a variance as long as the request does not contain any of the limitations of Section 10.02.01. Similar cases in which property owners have requested to divide a lot that previously were developed as a single family home have been directed to the Board of Adjustment.</p>	<p><input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p>
<p>3. Literal Interpretation Literal interpretation of the provisions of the Land Development Code would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district.</p>	<p>The adjoining Highland Dunes subdivision has a minimum 75-foot lot width.</p> <p>I should note that the Land Development Code 1.03.05 to me seems to be poorly written. The title of the Code reads “Construction or Demolition of Structures on Combined Lots”. It is this code that I was told I am violating and therefore need to request a variance to obtain relief from. At my first reading of the code, I simply thought that the code did not apply to me since I do not own a “combined lot” and the lot exists today the same way it has existed since it was originally platted – LOT 5 FOREST HILLS. But in the body of the code, it references creating a “lot of record” when “one or more lots” have been built on. This phrase “one or more lots” I think was intended to be written as “more than one lot”. If it were written that way it would align perfectly with the title of the code that references “combined lots”. Also the term “one or more lots” is duplicitous</p>	<p>Yes. The literal interpretation of the LDC would deprive the applicant of rights commonly enjoyed by other properties in this zoning district. Owners of residentially zoned properties in the R-1 zoning district are permitted to create lots with 75 feet of width per LDC Table 4.02.01(J). The requested lots have width of 100 and 103 feet with 100 feet of depth each. R-1 density allows for 4 dwelling units per acre. With each lot being 0.229 acres, plus inclusion of the right-of-way, the proposed lots would meet the requirements of the zoning district.</p>	<p><input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p>

	in that it would include ALL non-zero lot circumstances so if it really meant that, it would be unnecessary to say it at all as it would apply to all circumstances.		
4. Minimum Variance <i>The variance requested is the minimum variance needed that will make possible the reasonable use of the land, structure, or building.</i>	The variance request is to split the single lot into only two lots. The two created lots will be 100 and 103 feet wide respectively and are still much wider than the minimum 75 feet required in R-1 zoning and the lot widths that currently exist throughout the adjoining Highland Dunes subdivision. It should be noted that the two homes are expected to be smaller in footprint than the previous home and pole barn, creating less impervious area and minimal trees to be removed.	Yes. The variance requested is to split the lot into two parcels. The applicant is not requesting a variance from any other element of the LDC. Based on the interpretation of this element of the code, the property owner was required to apply for a variance to fulfill the request.	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes
5. General Harmony <i>Granting the variance will be in harmony with the general intent and purpose of the Land Development Code and Comprehensive Plan.</i>	Most lots in the previously existing Forest Hills subdivision are 100 feet wide and with varying depths that are up to 200 feet. Lots in the newer Highland Dunes subdivision are 75 feet wide with depths that vary from 75 feet to 110 feet. The two lots created will be approximately 100 feet by 100 feet creating a natural transition between the two subdivisions.	Yes. The splitting of the large lot into two would create lot sizes that are similar to the lot sizes in the Forest Hills plat and the Highland Dunes plat. This would create a gradual transition between the neighborhoods as that road serves as the entrance to the Highland Dunes subdivision. Further, the proposed lot sizes would meet the City's requirements for lot sizes in the R-1 zoning district.	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes
6. Public Interest <i>Granting the variance is compatible with surrounding properties, will not cause injury to the area involved, or otherwise be detrimental to the public health, safety, welfare or environment.</i>	The proposed lots would be compatible with other properties along Stanley Drive and Highland Dunes Way that contain varying lot widths that are both greater than and lesser than the width of the proposed lots, therefore, the granting of the variance would not cause any injury to the area, or otherwise be detrimental to the public health, safety, welfare or environment. .	Yes. Granting the variance will not infringe on public interest as the former structure and accessory structure had larger footprints than the footprints that would be available on the proposed lot. The Forest Hills plat allows for a variety of setback widths based on lot size. The appropriate setback for the lot size will be applied to the newly created lots, if approved.	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes

FINAL ANALYSIS AND RECOMMENDATION:

In conclusion, staff recommends approval of the requested variance to allow Lot 5 of the Forest Hills subdivision to be split into two lots that meet the requirements for lot size for lots in the R-1 zoning district.

The variance requested is consistent/inconsistent with the criteria for granting a variance as follows:

	Consistent	Inconsistent
1. Special Conditions	X	
2. Special Privilege	X	
3. Literal Interpretations	X	
4. Minimum Variance	X	
5. General Harmony	X	
6. Public Interest	X	

Staff finds that the requested action, as presented, **DOES meet** the six criteria for granting a variance, therefore staff recommends **APPROVAL**.

STAFF RECOMMENDED MOTION AND FINDINGS FOR BOARD CONSIDERATION:

I move to approve/deny BOA case number 2026-0002;

AND I move that the BOA make the following findings of fact and conclusions of law part of the record:

That BOA case 2026-0002 as presented, does/does not adequately demonstrate that the request is compliant with the Comprehensive Plan and Land Development Code to warrant approval at this time;

AND that BOA case number 2026-0002 does/does not meet the following criteria for granting a variance:

1. Special conditions do/do not exist that are peculiar to the land.
2. The granting the variance would not/would confer a special privilege to the applicant as the LDC allows for any property owner to apply for a variance.
3. A literal interpretation of the code would/would not deprive the applicant of the right to the reasonable use of their property, a right commonly enjoyed by others. Reasonable use of the property is limited in terms of privacy and safety.
4. The variance requested is/is not a minimum variance needed to make possible reasonable use of the land.
5. The granting of the variance would/would not be in harmony with the general intent of the Comprehensive Plan or the Land Development Code.

6. The variance would/would not be compatible with surrounding properties.

Board of Adjustment (BOA)

BOARD OF ADJUSTMENT (BOA)

USE THIS FORM TO Apply for a variance to obtain relief from the design standards of this Land Development Code (LDC) where otherwise hardship would occur. A person who is adversely affected by any administrative decision may appeal such decision to the BOA.

Fees	Residential Properties \$1,500
------	--------------------------------

IMPORTANT NOTES

Application Requirements	A complete application filed at least forty-five (42) days before the date of the Board of Adjustment's public hearing;; A current signed, sealed, scaled survey of the property (no older than two years from date of application);, Proof of ownership (copy of deed or tax statement), A detailed letter stating the reasons for the request;; Materials as needed to illustrate the nature of the request, including but not limited to, site plans, architectural drawings, photographs, etc. (Site plans must be dimensioned and to scale).
--------------------------	---

Pre-Application Meeting

To guide you through the process and ensure that your application is understood and properly processed, you must meet with the applicable planner prior to submitting your application. Completed Board applications are **due forty-two (42) days prior** to the meeting date. Cases in the historic districts or Community Redevelopment Area are heard by the Historic District Council, please use the HDC Variance Application. Cases in all other areas of the City are heard by the Board of Adjustment.

Please see the Land Development Code	Procedures for Variances – LDC Section 10.02.04., Expiration of Variance Approval – LDC Section 10.02.04(C)., Appeals on
--------------------------------------	--

(LDC) for detailed information:

a Variance – LDC Section 10.02.04(D)., Appeals of Administrative Action – LDC 11.07.00

The LDC is available for review at

www.fbfl.us/LDC

Appeals

Any person aggrieved by any decision of the BOA regarding a variance may present to a court of record a petition, duly verified, setting forth that the decision is illegal, in whole or in part, specifying the grounds of the illegality. The petition shall be presented to the court within thirty (30) days after the filing of the decision at the office of the Board; otherwise, the decision of the Board shall be final.

Limitations on the Grant of a Variance

1. A variance shall not be granted which authorizes a use that is not permissible in the zoning district in which the property subject to the variance is located., 2. A variance shall not be granted which authorizes any use or standard that is prohibited by the City's Comprehensive Plan., 3. No nonconforming use of adjacent lands, structures, or buildings in the same zoning district, and no permitted use of land, structures, or buildings in other zoning districts, shall be considered g, 4. A variance shall not change the requirements for concurrency., 5. A variance shall not be granted to permit the use of a single media peonia for the construction of a dwelling unit., 6. A variance shall not be granted if the evidence submitted by an applicant is solely a demonstration of financial hardship or economic considerations., 7. A variance shall not be granted for procedure or process components of this Land Development Code., 8. A variance shall not be granted to deviate from LDC section 4.02.02 to combine two (2) or more lots which would result in a lot width greater than 100 feet for lots or parcels that abut Ocean Ave, 9. A variance will not be granted which authorizes the filling of wetlands prohibited by Land Development Code Section 3.03.03(A), 10. No variance shall be granted to exceed the maximum building height of 35 feet for a building on any lot within 800 feet of the mean highwater line of the Atlantic Ocean under LDC Section 4.02.03(D), 11. A variance shall not be granted for any residential or residential mixed-use structure to exceed the maximum building height requirements contained in Table 4.02.03(E)., 12. A variance shall not be granted to exceed the minimum side yard setbacks listed in Table 4.02.03(E) for any building within 800 feet of the mean high-water mark of the Atlantic Ocean.

PROJECT INFORMATION

Variance Requested from LDC Section(s)	Divide a lot that is 100x203 into two lots - one 100x100 and one 100x103
Summary of Request (more detailed information to be provided in required letter of intent)	Requesting a variance on LDC 1.03.05

REQUIRED FINDINGS FOR A GRANT OF A VARIANCE

In order for an application for a variance to be approved or approved with conditions, the BOA must make a positive finding with regard to each of the provisions below. The applicant has the burden of proof of demonstrating that the application for a variance complies with each of the requirements. Please explain in detail how your case meets the following requirements:

1. Special Conditions: Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or	Shortly after purchasing the property, but prior to our application to demolish the existing home and pole barn, I met with the city planner and discussed my plans to demolish those structures and split the lot into two buildable lots – one for me to build on and the other for my brother to build on – and was given verbal permission to proceed. That verbal permission was then confirmed in an email exchange that followed the in-person meeting at the city hall offices. The lot that is currently 203 feet by 100 feet will be split to create one lot that is 103 feet by 100 feet that will face Stanley Drive (as the previous
---	---

buildings in the same zoning district. Special conditions or circumstances do not result from actions of the applicant and are not based on a desire to reduce development costs.

home did) and an additional lot of 100 feet by 100 feet that will face Highland Dunes Way. The special condition is the previous construction and current existence of the roadway "Highland Dunes Way" that was done 20-25 years ago, but long after the creation of the original Forest Hills subdivision plat in the 1950s. This roadway provides the access needed to create two lots where only one existed before.

2. Special Privilege: Granting the variance does not confer upon the applicant a special privilege that is denied by the Land Development Code to other lands, structures, or buildings in the same zoning district.

If there were a similar circumstance on a different lot I would think the variance would be provided there as well.

3. Literal Interpretation: Literal interpretation of the provisions of the Land Development Code would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district.

The adjoining Highland Dunes subdivision has a minimum 75 foot lot width.

I should note that the Land Development Code 1.03.05 to me seems to be poorly written. The title of the Code reads "Construction or Demolition of Structures on Combined Lots". It is this code that I was told I am violating and therefore need to request a variance to obtain relief from. At my first reading of the code I simply thought that the code did not apply to me since I do not own a "combined lot" and the lot exists today the same way it has existed since it was originally platted – LOT 5 FOREST HILLS. But in the body of the code, it references creating a "lot of record" when "one or more lots" have been built on. This phrase "one or more lots" I think was intended to be written as "more than one lot". If it were written that way it would align perfectly with the title of the code that references "combined lots". Also the term "one or more lots" is duplicitous in that it would include ALL non-zero lot circumstances so if it really meant that, it would be unnecessary to say it at all as it would apply to all circumstances.

4. Minimum Variance: The variance requested is the minimum variance needed that will make possible the

The variance request is to split the single lot into only two lots. The two created lots will be 100 and 103 feet wide respectively and are still much wider than the minimum 75 feet required in R-1 zoning and the lot widths that currently exist throughout the adjoining Highland Dunes subdivision.

reasonable use of the land, structure, or building.	It should be noted that the two homes are expected to be smaller in footprint than the previous home and pole barn, creating less impervious area and minimal trees to be removed.
5. General Harmony: Granting the variance will be in harmony with the general intent and purpose of the Land Development Code and Comprehensive Plan.	Most lots in the previously existing Forest Hills subdivision are 100 feet wide and with varying depths that are up to 200 feet. Lots in the newer Highland Dunes subdivision are 75 feet wide with depths that vary from 75 feet to 110 feet. The two lots created will be approximately 100 feet by 100 feet creating a natural transition between the two subdivisions.
6. Public Interest: Granting the variance is compatible with surrounding properties, will not cause injury to the area involved, or otherwise be detrimental to the public health, safety, welfare or environment.	The proposed lots would be compatible with other properties along Stanley Drive and Highland Dunes Way that contain varying lot widths that are both greater than and lesser than the width of the proposed lots, therefore, the granting of the variance would not cause any injury to the area, or otherwise be detrimental to the public health, safety, welfare or environment.

RE: Letter of Intent – 409 Stanley Drive, Fernandina Beach, FL 32034

To Whom It May Concern:

I am requesting your review and approval for me to split my lot at 409 Stanley Drive into two lots. The lot is currently 100 feet by 203 feet and it is located at the corner of Stanley Drive and Highland Dunes Way. The lot currently faces Stanley Drive. I would like to split the lot into two lots that face Highland Dunes Way. The easterly lot will be 103 feet wide by 100 feet deep and the westerly lot will be 100 feet wide by 100 feet deep.

Thank you in advance for your consideration and I will await further direction from the City after you've reviewed my request.

Sincerely,

Eric T Corbett

SURVEYOR'S NOTES:
FENCES EXIST, OWNERSHIP NOT DETERMINED.
DETBACK INFORMATION SHOWN ON PLAT, NOT VERIFIED.

- GENERAL SURVEYORS NOTES:**
- The Legal Description used to perform this survey was supplied by others. This survey does not determine nor imply ownership of the lands or any fences shown hereon. Unless the Title Commitment Number and Date is referenced on this survey, an examination of the abstract of title was NOT performed by the signing surveyor to determine which instruments, if any, are affecting this property.
 - The purpose of this survey is to establish the boundary of the lands described by the legal description provided and to depict the visible improvements thereon for a pending financial transaction. Underground footings, utilities, or other service lines, including roof eave overhangs were not located as part of this survey. Unless specifically stated otherwise the purpose and intent of this survey is not for any construction activities or future planning.
 - If there is a septic tank or drain field shown on this survey, the location depicted hereon was either shown to the surveyor by a third party or it was estimated by visual above ground inspection. No excavation was performed to determine its location.
 - This survey is exclusively for a pending financial transaction and only to be used by the parties to whom it is certified.
 - Alterations to this survey map and report by other than the signing surveyor are prohibited.
 - Dimensions are in feet and decimals thereof.
 - Any FEMA flood zone data contained on this survey is for informational purposes only. Research to obtain said data was performed at www.fema.gov and may not reflect the most recent information.
 - Unless otherwise noted "SIRC" indicates a Set Iron Rebar with a Cap stamped LB#8291, a minimum half inch in diameter and eighteen inches long.
 - If you are reading this survey in an electronic format, the information contained on this document is only valid if this document is electronically signed as specified in Chapter 5J17.052 (3) of the Florida Administrative Code and Florida Statute 472.025. The Electronic Signature File related to this document is prominently displayed on the invoice for this survey which is sent under separate cover. Manually signed and sealed logs of all survey signature files are kept in the office of the performing surveyor.
 - The symbols reflected in the legend and on this survey may have been enlarged or reduced for clarity. The symbols have been plotted at the approximate center of the field location and may not represent the actual shape or size of the feature.
 - Points of Interest (POI's) are select above-ground improvements, which may appear in conflict with boundary, building setback or easement lines, as defined by the parameters of this survey. These POI's may not represent all items of interest to the viewer. There may be additional POI's which are not shown or called-out as POI's, or which are otherwise unknown to the surveyor.
 - Utilities shown on the subject property may or may not indicate the existence of recorded or unrecorded utility easements.
 - The information contained on this survey has been performed exclusively by and is the sole responsibility of Exacta Land Surveyors, LLC. Additional logos or references to third party firms are for informational purposes only.
 - Pursuant to F.S. 558.0035, an individual employee or agent may not be held individually liable for negligence.
 - Due to varying construction standards, building dimensions are approximate and are not intended to be used for new construction or planning.

Manually signed and sealed logs of all survey signature files are kept in the office of the performing surveyor.
 - The symbols reflected in the legend and on this survey may have been enlarged or reduced for clarity. The symbols have been plotted at the approximate center of the field location and may not represent the actual shape or size of the feature.
 - Points of Interest (POI's) are select above-ground improvements, which may appear in conflict with boundary, building setback or easement lines, as defined by the parameters of this survey. These POI's may not represent all items of interest to the viewer. There may be additional POI's which are not shown or called-out as POI's, or which are otherwise unknown to the surveyor.
 - Utilities shown on the subject property may or may not indicate the existence of recorded or unrecorded utility easements.
 - The information contained on this survey has been performed exclusively by and is the sole responsibility of Exacta Land Surveyors, LLC. Additional logos or references to third party firms are for informational purposes only.
 - Pursuant to F.S. 558.0035, an individual employee or agent may not be held individually liable for negligence.
 - Due to varying construction standards, building dimensions are approximate and are not intended to be used for new construction or planning.

SURVEYORS CERTIFICATE

I hereby certify that this Survey of the lands described hereon was made under my direct supervision, and to the best of my knowledge and belief is a true and accurate representation of said lands and meets the Standards of Practice set forth in Chapter 5J-17.050 through 5J-17.053, Florida Administrative Code, pursuant to section 472.027, Florida Statutes. This survey is not valid without the signature and original raised seal of a Florida licensed surveyor and mapper, except when the electronic signature and seal of a Florida licensed surveyor and mapper is affixed hereto.

LENDER:

TITLE COMPANY:

COMMITMENT DATE: NOT REVIEWED **CLIENT FILE NO:**

LEGAL DESCRIPTION:
THE WESTERLY 100.0 FEET OF LOT 5, FOREST HILLS SUBDIVISION SECTION ONE, ACCORDING TO THE PLAT THEREOF RECORDED IN PLAT BOOK 2, PAGE 76, OF THE PUBLIC RECORDS OF NASSAU COUNTY, FLORIDA.

FLOOD ZONE INFORMATION:
BY PERFORMING A SEARCH WITH THE LOCAL GOVERNING MUNICIPALITY OR WWW.FEMA.GOV, THE PROPERTY APPEARS TO BE LOCATED IN ZONE X. THIS PROPERTY WAS FOUND IN CITY OF FERNANDINA BEACH, COMMUNITY NUMBER 120172, PANEL NUMBER 0237 DATED 8/2/2017.

- GENERAL SURVEYORS NOTES:**
- The Legal Description used to perform this survey was supplied by others. This survey does not determine nor imply ownership of the lands or any fences shown hereon. Unless the Title Commitment Number and Date is referenced on this survey, an examination of the abstract of title was NOT performed by the signing surveyor to determine which instruments, if any, are affecting this property.
 - The purpose of this survey is to establish the boundary of the lands described by the legal description provided and to depict the visible improvements thereon for a pending financial transaction. Underground footings, utilities, or other service lines, including roof eave overhangs were not located as part of this survey. Unless specifically stated otherwise the purpose and intent of this survey is not for any construction activities or future planning.
 - If there is a septic tank or drain field shown on this survey, the location depicted hereon was either shown to the surveyor by a third party or it was estimated by visual above ground inspection. No excavation was performed to determine its location.
 - This survey is exclusively for a pending financial transaction and only to be used by the parties to whom it is certified.
 - Alterations to this survey map and report by other than the signing surveyor are prohibited.
 - Dimensions are in feet and decimals thereof.
 - Any FEMA flood zone data contained on this survey is for informational purposes only. Research to obtain said data was performed at www.fema.gov and may not reflect the most recent information.
 - Unless otherwise noted "SIRC" indicates a Set Iron Rebar with a Cap stamped LB#8291, a minimum half inch in diameter and eighteen inches long.
 - If you are reading this survey in an electronic format, the information contained on this document is only valid if this document is electronically signed as specified in Chapter 5J17.062 (3) of the Florida Administrative Code and Florida Statute 472.025. The Electronic Signature File related to this document is prominently displayed on the invoice for this survey which is sent under separate cover. Manually signed and sealed logs of all survey signature files are kept in the office of the performing surveyor.
 - The symbols reflected in the legend and on this survey may have been enlarged or reduced for clarity. The symbols have been plotted at the approximate center of the field location and may not represent the actual shape or size of the feature.
 - Points of Interest (POI's) are select above-ground improvements, which may appear in conflict with boundary, building setback or easement lines, as defined by the parameters of this survey. These POI's may not represent all items of interest to the viewer. There may be additional POI's which are not shown or called-out as POI's, or which are otherwise unknown to the surveyor.
 - Utilities shown on the subject property may or may not indicate the existence of recorded or unrecorded utility easements.
 - The information contained on this survey has been performed exclusively by and is the sole responsibility of Exacta Land Surveyors, LLC. Additional logos or references to third party firms are for informational purposes only.
 - Pursuant to F.S. 558.0035, an individual employee or agent may not be held individually liable for negligence.
 - Due to varying construction standards, building dimensions are approximate and are not intended to be used for new construction or planning.

Tree Health Assessment

TRNO	Descrip	Dbh	Species	Status	Comment
1	18" Palm	18	Sabal	1	
2	40" Oak	40	LO	1	
3	49" Oak	49	LO	3	minor damage @ 8 feet - leans away from #2 and toward lot
4	5" Oak	5	Holly	3	Out of Bounds - multiple top and leans toward Highland Dunes.
5	18" Palm	18	Sabal	1	Out of Bounds
6	6" Oak	6	Ligus	4	Not a tree - Ligustrum - has splits and a poor top
7	10" Oak	10	LAU	1	
8	17" Oak	17	LAU	3	Out of Bounds - decline in the tree and a dead top.
9	23" Twin Oak	23	LAU	3	Out of Bounds - forked at 2 feet
10	13"Oak	13	LAU	3	leans from competition behind it and toward where house will be.
11	29" Oak	29	LAU	4	Out of Bounds - forked at 6 feet with a poor codominant connection.
12	12" Oak	12	LAU	3	Out of Bounds - bowed over toward the Highland Dunes Way.
13	9" Oak	9	LAU	3	Out of Bounds - bowed over toward the Highland Dunes Way.
14	18" Oak	18	LAU	1	Out of Bounds
15	5" Oak	5	LAU	2	Out of Bounds - understory tree - shaded and leans
16	18" Mag	18	MAG	1	Out of Bounds
17	8" Oak	8	CAM	4	invasive species and poor tree
18	17" Pine	17	SL	3	mechanical damage at the base - tree is on the line
19	18" Oak	18	LAU	2	Out of Bounds - forked at 6 feet and leans slightly
20	11" Twin Oak	11	CAM	3	invasive species
21	6" Oak	6	LAU	2	small and crooked
22	8" Oak	8	Orn	4	Splits in the side and dead wood. Very near #23.
23	54" Oak	54	LO	2	some dead wood and a fork with two large sections at 7 feet.
24	26" Pine	26	SL	1	
25	5" Oak	8	Ligus	1	
26	9" Oak	9	Orn	3	some sort of fruit tree - dead wood and some decay.
27	21" Oak	21	PCN	2	leans slightly in the direction of where the house pad will be.
28	25" Crepe	25	Crepe	1	
29	6" Oak	6	Ligus	3	not a tree - Ligustrum - on the fence and leans toward the lot.

Status definition

1= no apparent defect

2= slight defect

3= defective but can keep

4= severe defect - recommend removal

5= hazardous defect or dead - remove
