CITY COMMISSION AGENDA ITEM

City of Fernandina Beach

SUBJECT: Resolution 2018-27
Authorization to Defend - Allen v. COFB

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2018-27

SYNOPSIS: Section 31 of the City Charter requires that the prosecution and defense of litigation involving the City, by the City Attorney, be authorized by the City Commission. This Resolution authorizes the City Attorney to work with City claims administrator, Preferred Governmental Claim Solutions (PGCS), appear on behalf of if necessary, and defend the City in the matter of Maria Allen and Mike Allen v. City of Fernandina Beach.

This is a trip and fall case that occurred during Dickens on Centre when Maria Allen alleges she fell on an extension cord taped to the sidewalk. City denies any liability in this case, and the cord was not placed on the sidewalk by the City or approved by the City. The extension cord was reportedly on the sidewalk in front of the Island Art Association which is why they are also named in the lawsuit.

FISCAL IMPACT: The City carries general liability insurance and will pay a \$5,000 deductible to have the insurance company (PGIT) provide defense for the City. The \$5,000 deductible will be paid from the Deposit Account for Property Casualty Premiums Account # 631 22631.

City of Fernandina Beach

SUBJECT: Resolution 2018-29
Agreement Approval - Fernandina Beach Main Street, Inc.

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2018-29

SYNOPSIS: The Florida Main Street Program is a public-private effort, and has been created to assist Florida communities in developing efforts to revitalize and emphasize their downtown "Main Street" areas. The Florida Main Street program is part of the national Main Street program established by the National Trust for Historic Preservation. The program focuses on economic development within the context of historic preservation. The goal of the program is to have an economically healthy downtown long-term that builds a positive image for the community, creates job opportunities, saves tax dollars, preserves the community's historic resources, and helps to control sprawl. The City of Fernandina Beach became a designated Main Street community on August 19, 2015.

In 2015, the City pledged to contribute \$40,000 a year for the initial three year term of the program. The City Commission held a Workshop on February 13, 2018, to discuss continuing its support of Fernandina Beach Main Street. The City Commission unanimously agreed to support the program for another three years.

This agreement formalizes the partnership between the City and Fernandina Beach Main Street, Inc. for an additional three years.

FISCAL IMPACT: The three-year commitment will continue to help fund the director position and operating expenses (\$40,000 each year for three years, contingent upon additional funds being raised). Funds are available in the City Commission budget in the Professional Services account, 0011100 53100.

CITY ATTORNEY COMMENTS: No additional comments.

Catalog Discount Exclusions

School Health Corporation may offer special discounts to organizations meeting specific criteria. These discounts recognize existing or anticipated annual purchase volume and are intended for customers seeking a mutually beneficial relationship.

Historically, we have provided all our customers with common list prices. Thus, your discount will be based upon the same list price offered in our catalogs, websites, and other marketing publications.

Certain products are excluded from our blanket discounts due to various reasons including but not limited to manufacturer restrictions, special pricing already in place (sales or promotions), unknown shipping costs (due to weight or size variances), etc.

The following items in the 2017 School Nurse, Sports Health, EnableMart and all other Catalogs are excluded from a catalog discount:

- Medical Recordkeeping Software and other software products
- Injury tracking software
- Prescription (Rx) products
- Customized Kits
- Products denoted by Exclusive icon
- Gatorade products & Gatorade Performance Series products
- EnableMart Software
- Braille Paper
- Current "Special Promotion" items already offered at a discounted priced. School Health runs sales throughout the year. Our catalogs contain numerous promotions denoted by the Special Offer icon. Also, look for seasonal savings offered in our spring and Back-to-School flyers.

The following **capital equipment products** are excluded from your standard catalog discount. These items may require special setup, in-service education, and may have varying freight costs due to weight. Please call us for special discounts on these products. In some cases, the discount on these items may be greater than your standard discount:

- Furniture items and Appliances listed
- Vision and Hearing screening equipment
- Automated External Defibrillators (AED's)
- Braille Embossers

To receive a detailed list of catalog discount exclusions by product number (SKU), or if you have any questions regarding this bid, please call us at (866)323-5465 or email bids@schoolhealth.com. If you require additional information or questions about placing orders from this bid, contact the Customer Care Department: (866)323-5465, fax (800)235-1305, or email orders@schoolhealth.com.

A. Questions and Responses:

1. I understand in the contract it states “The City reserves the right to accept and award item by item, and/or by group, or in the aggregate.” How have you typically awarded these bids? Do you plan to award by line item, group, or all-or-none? The prior bid was awarded to four (4) vendors based on lowest pricing while complying with item specifications and bid requirements.
2. Due to the volatility of the pharmaceutical market, would pharmaceutical increases be accepted at any time within the contracted term (where necessary) so long as they are presented with manufacturer documentation that supports these increases? If these increases are not agreed upon, will the vendor be able to have those items removed from the contract with no prejudice against the vendor? The pricing agreement is for the annual budget period, Oct 1, 2017 – Sep 30, 2018. Consideration will be given for pharmaceutical price increases with no prejudice.
3. Are we to only use the new item list that was provided in the issued Addendum on 12/08/17 and disregard filling out the original item list known as “Attachment A”? You may disregard the original “Attachment A”.
4. There are two new items to the new item list – Triage Kit – and it is listed there twice. Is this the same item? Triage Kit is listed twice, but the description of each one is different.
5. How many catalogs are we to submit with our bid proposal? Since the bid asks for one original and three copies of our submission, I wasn’t sure if we were to submit just one catalog or four catalogs. One catalog will be sufficient.
6. Are we able to provide alternatives to the BT Item #'s and/or QM Item #'s? Yes
7. Is it possible to have this bid extended until the end of next week? The bid opening date remains Monday, December 18, 2017 at 10:00am.

THE E-VERIFY PROGRAM FOR EMPLOYMENT VERIFICATION MEMORANDUM OF UNDERSTANDING

ARTICLE I

PURPOSE AND AUTHORITY

This Memorandum of Understanding (MOU) sets forth the points of agreement between the Department of Homeland Security (DHS) and **Bound Tree Medical** (Employer) regarding the Employer's participation in the Employment Eligibility Verification Program (E-Verify). This MOU explains certain features of the E-Verify program and enumerates specific responsibilities of DHS, the Social Security Administration (SSA), and the Employer. E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of the Employment Eligibility Verification Form (Form I-9). For covered government contractors, E-Verify is used to verify the employment eligibility of all newly hired employees and all existing employees assigned to Federal contracts.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). Authority for use of the E-Verify program by Federal contractors and subcontractors covered by the terms of Subpart 22.18, "Employment Eligibility Verification", of the Federal Acquisition Regulation (FAR) (hereinafter referred to in this MOU as a "Federal contractor") to verify the employment eligibility of certain employees working on Federal contracts is also found in Subpart 22.18 and in Executive Order 12989, as amended.

ARTICLE II

FUNCTIONS TO BE PERFORMED

A. RESPONSIBILITIES OF SSA

1. SSA agrees to provide the Employer with available information that allows the Employer to confirm the accuracy of Social Security Numbers provided by all employees verified under this MOU and the employment authorization of U.S. citizens.
2. SSA agrees to provide to the Employer appropriate assistance with operational problems that may arise during the Employer's participation in the E-Verify program. SSA agrees to provide the Employer with names, titles, addresses, and telephone numbers of SSA representatives to be contacted during the E-Verify process.
3. SSA agrees to safeguard the information provided by the Employer through the E-Verify program procedures, and to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security Numbers and for evaluation of the E-Verify program or such other persons or entities who may be authorized by SSA as governed by the Privacy Act (5 U.S.C. § 552a), the Social Security Act (42 U.S.C. 1306(a)), and SSA regulations (20 CFR Part 401).

E-VERIFY IS A SERVICE OF DHS

Company ID Number: 193018

4. SSA agrees to provide a means of automated verification that is designed (in conjunction with DHS's automated system if necessary) to provide confirmation or tentative nonconfirmation of U.S. citizens' employment eligibility within 3 Federal Government work days of the initial inquiry.

5. SSA agrees to provide a means of secondary verification (including updating SSA records as may be necessary) for employees who contest SSA tentative nonconfirmations that is designed to provide final confirmation or nonconfirmation of U.S. citizens' employment eligibility and accuracy of SSA records for both citizens and aliens within 10 Federal Government work days of the date of referral to SSA, unless SSA determines that more than 10 days may be necessary. In such cases, SSA will provide additional verification instructions.

B. RESPONSIBILITIES OF DHS

1. After SSA verifies the accuracy of SSA records for aliens through E-Verify, DHS agrees to provide the Employer access to selected data from DHS's database to enable the Employer to conduct, to the extent authorized by this MOU:

- Automated verification checks on alien employees by electronic means, and
- Photo verification checks (when available) on employees.

2. DHS agrees to provide to the Employer appropriate assistance with operational problems that may arise during the Employer's participation in the E-Verify program. DHS agrees to provide the Employer names, titles, addresses, and telephone numbers of DHS representatives to be contacted during the E-Verify process.

3. DHS agrees to provide to the Employer a manual (the E-Verify User Manual) containing instructions on E-Verify policies, procedures and requirements for both SSA and DHS, including restrictions on the use of E-Verify. DHS agrees to provide training materials on E-Verify.

4. DHS agrees to provide to the Employer a notice, which indicates the Employer's participation in the E-Verify program. DHS also agrees to provide to the Employer anti-discrimination notices issued by the Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC), Civil Rights Division, U.S. Department of Justice.

5. DHS agrees to issue the Employer a user identification number and password that permits the Employer to verify information provided by alien employees with DHS's database.

6. DHS agrees to safeguard the information provided to DHS by the Employer, and to limit access to such information to individuals responsible for the verification of alien employment eligibility and for evaluation of the E-Verify program, or to such other persons or entities as may be authorized by applicable law. Information will be used only to verify the accuracy of Social Security Numbers and employment eligibility, to enforce the Immigration and Nationality Act (INA) and Federal criminal laws, and to administer Federal contracting requirements.

7. DHS agrees to provide a means of automated verification that is designed (in conjunction with SSA verification procedures) to provide confirmation or tentative

E-VERIFY IS A SERVICE OF DHS

Company ID Number: 193018

nonconfirmation of employees' employment eligibility within 3 Federal Government work days of the initial inquiry.

8. DHS agrees to provide a means of secondary verification (including updating DHS records as may be necessary) for employees who contest DHS tentative nonconfirmations and photo non-match tentative nonconfirmations that is designed to provide final confirmation or nonconfirmation of the employees' employment eligibility within 10 Federal Government work days of the date of referral to DHS, unless DHS determines that more than 10 days may be necessary. In such cases, DHS will provide additional verification instructions.

C. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system.

2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted regarding E-Verify.

3. The Employer agrees to become familiar with and comply with the most recent version of the E-Verify User Manual.

4. The Employer agrees that any Employer Representative who will perform employment verification queries will complete the E-Verify Tutorial before that individual initiates any queries.

A. The Employer agrees that all Employer representatives will take the refresher tutorials initiated by the E-Verify program as a condition of continued use of E-Verify, including any tutorials for Federal contractors if the Employer is a Federal contractor.

B. Failure to complete a refresher tutorial will prevent the Employer from continued use of the program.

5. The Employer agrees to comply with current Form I-9 procedures, with two exceptions:

- If an employee presents a "List B" identity document, the Employer agrees to only accept "List B" documents that contain a photo. (List B documents identified in 8 C.F.R. § 274a.2(b)(1)(B)) can be presented during the Form I-9 process to establish identity.) If an employee objects to the photo requirement for religious reasons, the Employer should contact E-Verify at 888-464-4218.
- If an employee presents a DHS Form I-551 (Permanent Resident Card) or Form I-766 (Employment Authorization Document) to complete the Form I-9, the Employer agrees to make a photocopy of the document and to retain the photocopy with the employee's Form I-9. The employer will use the photocopy to verify the photo and to assist DHS with its review of photo non-matches that are contested by employees. Note that employees retain the right to present any List A, or List B and List C, documentation to complete the Form I-9. DHS may in the future designate other documents that activate the photo screening tool.

E-VERIFY IS A SERVICE OF DHS

Company ID Number: 193018

6. The Employer understands that participation in E-Verify does not exempt the Employer from the responsibility to complete, retain, and make available for inspection Forms I-9 that relate to its employees, or from other requirements of applicable regulations or laws, including the obligation to comply with the antidiscrimination requirements of section 274B of the INA with respect to Form I-9 procedures, except for the following modified requirements applicable by reason of the Employer's participation in E-Verify: (1) identity documents must have photos, as described in paragraph 5 above; (2) a rebuttable presumption is established that the Employer has not violated section 274A(a)(1)(A) of the Immigration and Nationality Act (INA) with respect to the hiring of any individual if it obtains confirmation of the identity and employment eligibility of the individual in compliance with the terms and conditions of E-Verify; (3) the Employer must notify DHS if it continues to employ any employee after receiving a final nonconfirmation, and is subject to a civil money penalty between \$550 and \$1,100 for each failure to notify DHS of continued employment following a final nonconfirmation; (4) the Employer is subject to a rebuttable presumption that it has knowingly employed an unauthorized alien in violation of section 274A(a)(1)(A) if the Employer continues to employ an employee after receiving a final nonconfirmation; and (5) no person or entity participating in E-Verify is civilly or criminally liable under any law for any action taken in good faith based on information provided through the confirmation system. DHS reserves the right to conduct Form I-9 compliance inspections during the course of E-Verify, as well as to conduct any other enforcement activity authorized by law.

7. The Employer agrees to initiate E-Verify verification procedures for new employees within 3 Employer business days after each employee has been hired (but after both sections 1 and 2 of the Form I-9 have been completed), and to complete as many (but only as many) steps of the E-Verify process as are necessary according to the E-Verify User Manual. The Employer is prohibited from initiating verification procedures before the employee has been hired and the Form I-9 completed. If the automated system to be queried is temporarily unavailable, the 3-day time period is extended until it is again operational in order to accommodate the Employer's attempting, in good faith, to make inquiries during the period of unavailability. In all cases, the Employer must use the SSA verification procedures first, and use DHS verification procedures and photo screening tool only after the SSA verification response has been given. Employers may initiate verification by notating the Form I-9 in circumstances where the employee has applied for a Social Security Number (SSN) from the SSA and is waiting to receive the SSN, provided that the Employer performs an E-Verify employment verification query using the employee's SSN as soon as the SSN becomes available.

8. The Employer agrees not to use E-Verify procedures for pre-employment screening of job applicants, in support of any unlawful employment practice, or for any other use not authorized by this MOU. Employers must use E-Verify for all new employees, unless an Employer is a Federal contractor that qualifies for the exceptions described in Article II.D.1.c. Except as provided in Article II.D, the Employer will not verify selectively and will not verify employees hired before the effective date of this MOU. The Employer understands that if the Employer uses E-Verify procedures for any purpose other than as authorized by this MOU, the Employer may be subject to appropriate legal action and termination of its access to SSA and DHS information pursuant to this MOU.

9. The Employer agrees to follow appropriate procedures (see Article III. below) regarding tentative nonconfirmations, including notifying employees of the finding, providing written referral instructions to employees, allowing employees to contest the finding, and not taking

Company ID Number: 193018

adverse action against employees if they choose to contest the finding. Further, when employees contest a tentative nonconfirmation based upon a photo non-match, the Employer is required to take affirmative steps (see Article III.B. below) to contact DHS with information necessary to resolve the challenge.

10. The Employer agrees not to take any adverse action against an employee based upon the employee's perceived employment eligibility status while SSA or DHS is processing the verification request unless the Employer obtains knowledge (as defined in 8 C.F.R. § 274a.1(l)) that the employee is not work authorized. The Employer understands that an initial inability of the SSA or DHS automated verification system to verify work authorization, a tentative nonconfirmation, a case in continuance (indicating the need for additional time for the government to resolve a case), or the finding of a photo non-match, does not establish, and should not be interpreted as evidence, that the employee is not work authorized. In any of the cases listed above, the employee must be provided a full and fair opportunity to contest the finding, and if he or she does so, the employee may not be terminated or suffer any adverse employment consequences based upon the employee's perceived employment eligibility status (including denying, reducing, or extending work hours, delaying or preventing training, requiring an employee to work in poorer conditions, refusing to assign the employee to a Federal contract or other assignment, or otherwise subjecting an employee to any assumption that he or she is unauthorized to work) until and unless secondary verification by SSA or DHS has been completed and a final nonconfirmation has been issued. If the employee does not choose to contest a tentative nonconfirmation or a photo non-match or if a secondary verification is completed and a final nonconfirmation is issued, then the Employer can find the employee is not work authorized and terminate the employee's employment. Employers or employees with questions about a final nonconfirmation may call E-Verify at 1-888-464-4218 or OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

11. The Employer agrees to comply with Title VII of the Civil Rights Act of 1964 and section 274B of the INA by not discriminating unlawfully against any individual in hiring, firing, or recruitment or referral practices because of his or her national origin or, in the case of a protected individual as defined in section 274B(a)(3) of the INA, because of his or her citizenship status. The Employer understands that such illegal practices can include selective verification or use of E-Verify except as provided in part D below, or discharging or refusing to hire employees because they appear or sound "foreign" or have received tentative nonconfirmations. The Employer further understands that any violation of the unfair immigration-related employment practices provisions in section 274B of the INA could subject the Employer to civil penalties, back pay awards, and other sanctions, and violations of Title VII could subject the Employer to back pay awards, compensatory and punitive damages. Violations of either section 274B of the INA or Title VII may also lead to the termination of its participation in E-Verify. If the Employer has any questions relating to the anti-discrimination provision, it should contact OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

12. The Employer agrees to record the case verification number on the employee's Form I-9 or to print the screen containing the case verification number and attach it to the employee's Form I-9.

13. The Employer agrees that it will use the information it receives from SSA or DHS pursuant to E-Verify and this MOU only to confirm the employment eligibility of employees as

Company ID Number: 193018

authorized by this MOU. The Employer agrees that it will safeguard this information, and means of access to it (such as PINS and passwords) to ensure that it is not used for any other purpose and as necessary to protect its confidentiality, including ensuring that it is not disseminated to any person other than employees of the Employer who are authorized to perform the Employer's responsibilities under this MOU, except for such dissemination as may be authorized in advance by SSA or DHS for legitimate purposes.

14. The Employer acknowledges that the information which it receives from SSA is governed by the Privacy Act (5 U.S.C. § 552a(i)(1) and (3)) and the Social Security Act (42 U.S.C. 1306(a)), and that any person who obtains this information under false pretenses or uses it for any purpose other than as provided for in this MOU may be subject to criminal penalties.

15. The Employer agrees to cooperate with DHS and SSA in their compliance monitoring and evaluation of E-Verify, including by permitting DHS and SSA, upon reasonable notice, to review Forms I-9 and other employment records and to interview it and its employees regarding the Employer's use of E-Verify, and to respond in a timely and accurate manner to DHS requests for information relating to their participation in E-Verify.

D. RESPONSIBILITIES OF FEDERAL CONTRACTORS

1. The Employer understands that if it is a Federal contractor subject to the employment verification terms in Subpart 22.18 of the FAR it must verify the employment eligibility of any "employee assigned to the contract" (as defined in FAR 22.1801) in addition to verifying the employment eligibility of all other employees required to be verified under the FAR. Once an employee has been verified through E-Verify by the Employer, the Employer may not reverify the employee through E-Verify.

a. Federal contractors not enrolled at the time of contract award: An Employer that is not enrolled in E-Verify as a Federal contractor at the time of a contract award must enroll as a Federal contractor in the E-Verify program within 30 calendar days of contract award and, within 90 days of enrollment, begin to use E-Verify to initiate verification of employment eligibility of new hires of the Employer who are working in the United States, whether or not assigned to the contract. Once the Employer begins verifying new hires, such verification of new hires must be initiated within 3 business days after the date of hire. Once enrolled in E-Verify as a Federal contractor, the Employer must initiate verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

b. Federal contractors already enrolled at the time of a contract award: Employers enrolled in E-Verify as a Federal contractor for 90 days or more at the time of a contract award must use E-Verify to initiate verification of employment eligibility for new hires of the Employer who are working in the United States, whether or not assigned to the contract, within 3 business days after the date of hire. If the Employer is enrolled in E-Verify as a Federal contractor for 90 calendar days or less at the time of contract award, the Employer must, within 90 days of enrollment, begin to use E-Verify to initiate verification of new hires of the contractor who are working in the United States, whether or not assigned to the contract. Such verification of new hires must be initiated within 3 business days after the date of hire. An Employer enrolled as a Federal contractor in E-Verify must initiate verification of each employee assigned to the

E-VERIFY IS A SERVICE OF DHS

Company ID Number: 193018

contract within 90 calendar days after date of contract award or within 30 days after assignment to the contract, whichever is later.

c. Institutions of higher education, State, local and tribal governments and sureties: Federal contractors that are institutions of higher education (as defined at 20 U.S.C. 1001(a)), State or local governments, governments of Federally recognized Indian tribes, or sureties performing under a takeover agreement entered into with a Federal agency pursuant to a performance bond may choose to only verify new and existing employees assigned to the Federal contract. Such Federal contractors may, however, elect to verify all new hires, and/or all existing employees hired after November 6, 1986. The provisions of Article II.D, paragraphs 1.a and 1.b of this MOU providing timeframes for initiating employment verification of employees assigned to a contract apply to such institutions of higher education, State, local and tribal governments, and sureties.

d. Verification of all employees: Upon enrollment, Employers who are Federal contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986, instead of verifying only those employees assigned to a covered Federal contract. After enrollment, Employers must elect to do so only in the manner designated by DHS and initiate E-Verify verification of all existing employees within 180 days after the election.

e. Form I-9 procedures for Federal contractors: The Employer may use a previously completed Form I-9 as the basis for initiating E-Verify verification of an employee assigned to a contract as long as that Form I-9 is complete (including the SSN), complies with Article II.C.5, the employee's work authorization has not expired, and the Employer has reviewed the information reflected in the Form I-9 either in person or in communications with the employee to ensure that the employee's stated basis in section 1 of the Form I-9 for work authorization has not changed (including, but not limited to, a lawful permanent resident alien having become a naturalized U.S. citizen). If the Employer is unable to determine that the Form I-9 complies with Article II.C.5, if the employee's basis for work authorization as attested in section 1 has expired or changed, or if the Form I-9 contains no SSN or is otherwise incomplete, the Employer shall complete a new I-9 consistent with Article II.C.5, or update the previous I-9 to provide the necessary information. If section 1 of the Form I-9 is otherwise valid and up-to-date and the form otherwise complies with Article II.C.5, but reflects documentation (such as a U.S. passport or Form I-551) that expired subsequent to completion of the Form I-9, the Employer shall not require the production of additional documentation, or use the photo screening tool described in Article II.C.5, subject to any additional or superseding instructions that may be provided on this subject in the E-Verify User Manual. Nothing in this section shall be construed to require a second verification using E-Verify of any assigned employee who has previously been verified as a newly hired employee under this MOU, or to authorize verification of any existing employee by any Employer that is not a Federal contractor.

2. The Employer understands that if it is a Federal contractor, its compliance with this MOU is a performance requirement under the terms of the Federal contract or subcontract, and the Employer consents to the release of information relating to compliance with its verification responsibilities under this MOU to contracting officers or other officials authorized to review the Employer's compliance with Federal contracting requirements.

ARTICLE III

REFERRAL OF INDIVIDUALS TO SSA AND DHS

A. REFERRAL TO SSA

1. If the Employer receives a tentative nonconfirmation issued by SSA, the Employer must print the tentative nonconfirmation notice as directed by the automated system and provide it to the employee so that the employee may determine whether he or she will contest the tentative nonconfirmation.
2. The Employer will refer employees to SSA field offices only as directed by the automated system based on a tentative nonconfirmation, and only after the Employer records the case verification number, reviews the input to detect any transaction errors, and determines that the employee contests the tentative nonconfirmation. The Employer will transmit the Social Security Number to SSA for verification again if this review indicates a need to do so. The Employer will determine whether the employee contests the tentative nonconfirmation as soon as possible after the Employer receives it.
3. If the employee contests an SSA tentative nonconfirmation, the Employer will provide the employee with a system-generated referral letter and instruct the employee to visit an SSA office within 8 Federal Government work days. SSA will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary. The Employer agrees to check the E-Verify system regularly for case updates.
4. The Employer agrees not to ask the employee to obtain a printout from the Social Security Number database (the Numident) or other written verification of the Social Security Number from the SSA.

B. REFERRAL TO DHS

1. If the Employer receives a tentative nonconfirmation issued by DHS, the Employer must print the tentative nonconfirmation notice as directed by the automated system and provide it to the employee so that the employee may determine whether he or she will contest the tentative nonconfirmation.
2. If the Employer finds a photo non-match for an employee who provides a document for which the automated system has transmitted a photo, the employer must print the photo non-match tentative nonconfirmation notice as directed by the automated system and provide it to the employee so that the employee may determine whether he or she will contest the finding.
3. The Employer agrees to refer individuals to DHS only when the employee chooses to contest a tentative nonconfirmation received from DHS automated verification process or when the Employer issues a tentative nonconfirmation based upon a photo non-match. The Employer will determine whether the employee contests the tentative nonconfirmation as soon as possible

Company ID Number: 193018

after the Employer receives it.

4. If the employee contests a tentative nonconfirmation issued by DHS, the Employer will provide the employee with a referral letter and instruct the employee to contact DHS through its toll-free hotline (as found on the referral letter) within 8 Federal Government work days.

5. If the employee contests a tentative nonconfirmation based upon a photo non-match, the Employer will provide the employee with a referral letter to DHS. DHS will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary. The Employer agrees to check the E-Verify system regularly for case updates.

6. The Employer agrees that if an employee contests a tentative nonconfirmation based upon a photo non-match, the Employer will send a copy of the employee's Form I-551 or Form I-766 to DHS for review by:

- Scanning and uploading the document, or
- Sending a photocopy of the document by an express mail account (furnished and paid for by DHS).

7. The Employer understands that if it cannot determine whether there is a photo match/non-match, the Employer is required to forward the employee's documentation to DHS by scanning and uploading, or by sending the document as described in the preceding paragraph, and resolving the case as specified by the Immigration Services Verifier at DHS who will determine the photo match or non-match.

ARTICLE IV

SERVICE PROVISIONS

SSA and DHS will not charge the Employer for verification services performed under this MOU. The Employer is responsible for providing equipment needed to make inquiries. To access the E-Verify System, an Employer will need a personal computer with Internet access.

ARTICLE V

PARTIES

A. This MOU is effective upon the signature of all parties, and shall continue in effect for as long as the SSA and DHS conduct the E-Verify program unless modified in writing by the mutual consent of all parties, or terminated by any party upon 30 days prior written notice to the others. Any and all system enhancements to the E-Verify program by DHS or SSA, including but not limited to the E-Verify checking against additional data sources and instituting new verification procedures, will be covered under this MOU and will not cause the need for a supplemental MOU that outlines these changes. DHS agrees to train employers on all changes made to E-Verify through the use of mandatory refresher tutorials and updates to the E-Verify User Manual. Even without changes to E-Verify, DHS reserves the right to require employers to take

E-VERIFY IS A SERVICE OF DHS

Company ID Number: 193018

mandatory refresher tutorials. An Employer that is a Federal contractor may terminate this MOU when the Federal contract that requires its participation in E-Verify is terminated or completed. In such a circumstance, the Federal contractor must provide written notice to DHS. If an Employer that is a Federal contractor fails to provide such notice, that Employer will remain a participant in the E-Verify program, will remain bound by the terms of this MOU that apply to non-Federal contractor participants, and will be required to use the E-Verify procedures to verify the employment eligibility of all newly hired employees.

B. Notwithstanding Article V, part A of this MOU, DHS may terminate this MOU if deemed necessary because of the requirements of law or policy, or upon a determination by SSA or DHS that there has been a breach of system integrity or security by the Employer, or a failure on the part of the Employer to comply with established procedures or legal requirements. The Employer understands that if it is a Federal contractor, termination of this MOU by any party for any reason may negatively affect its performance of its contractual responsibilities.

C. Some or all SSA and DHS responsibilities under this MOU may be performed by contractor(s), and SSA and DHS may adjust verification responsibilities between each other as they may determine necessary. By separate agreement with DHS, SSA has agreed to perform its responsibilities as described in this MOU.

D. Nothing in this MOU is intended, or should be construed, to create any right or benefit, substantive or procedural, enforceable at law by any third party against the United States, its agencies, officers, or employees, or against the Employer, its agents, officers, or employees.

E. VAWD Certified State and Nationally Licensed

Several of Bound Tree's Distribution Centers have received VAWD (Verified - Accredited Wholesale Distributors) accreditation from the National Association of Boards of Pharmacy (NABP). VAWD accreditation is achieved after a criteria compliance review that includes a rigorous evaluation of operating policies and procedures, licensure verification, survey of facility and operations, background checks and screening through the NABP Clearinghouse. Our accreditation demonstrates that we are in compliance with state and federal laws and that our prescription drugs are distributed safely and securely.

For a complete listing of VAWD-Accredited Facilities, please visit:
www.nabp.net/programs/accreditation/vawd/vawd-accredited-facilities

Compliant with DSCSA Requirements

Under the Drug Supply Chain Security Act (DSCSA), entities in the supply chain including manufacturers, wholesale distributors, and dispensers have responsibilities to meet the requirements of the DSCSA. As of May 1, 2015 all wholesalers are required by law, under the DSCSA, to provide transaction information, transaction history and transaction statements for the pharmaceuticals that they supply.

Bound Tree is compliant with these FDA standards which helps improve patient protection by preventing the distribution of substandard or ineffective drugs and while providing our customers with the product and transaction information they need to be in compliance with the FDA standards.

Under the DSCSA you are responsible for knowing that your prescription drug wholesale distributor is an authorized trading partner who holds a valid state or federal license. Bound Tree Medical is licensed federally and in all 50 states. Purchasing from a licensed and VAWD accredited distributor like Bound Tree Medical makes great strides to ensure none of your purchases will ever be counterfeit, contaminated, improperly stored and transported, ineffective, and/or unsafe.

Wholesaler Distributor licenses can be searched online:
www.fda.gov/Drugs/DrugSafety/DrugIntegrityandSupplyChainSecurity/ucm281446.htm

Controlled Substance Ordering System (CSOS)

Class II Controlled Substances can be ordered through our secure electronic Controlled Substances Ordering System (CSOS) without the supporting paper DEA Form 222! The DEA's CSOS program is the only allowance for electronic ordering of Class II controlled substances. To participate in CSOS, the DEA registrant must first acquire a CSOS digital certificate from the DEA. Once the certificate is received, Class II orders can be placed through our secured website: e222.boundtree.com

For more information about CSOS please visit: www.deaecom.gov

Bound Tree will continue to accept paper 222 forms for those who wish to utilize that method for ordering.

800.533.0523 | www.boundtree.com

Bound Tree Medical is committed to compliance with these federal and state regulations for the benefit of our customers, their communities and their patients. These efforts protect our customers by helping to ensure that they are also compliant with federal and state regulations and practicing safe and effective patient care. With Bound Tree Medical, EMS providers know that they will receive pharmaceuticals through a secure and reliable distribution process.

Pharmaceutical Price Increase

It is Bound Tree's intent not to increase pricing on pharmaceutical products for the initial contract term. However, manufacturers have recently been significantly increasing prices on pharmaceutical products due to market conditions and the associated costs to comply with federal legislations. In the event such price increases occur after the bid award, Bound Tree will notify you of such increases and provide adequate documentation from the manufacturer to demonstrate evidence of increase. The new pricing will then go into effect based on a notification period provided. If the customer does not accept the increase, Bound Tree reserves the right to remove the product(s) from the contract or find an alternative product at no additional cost to Bound Tree.

Bound Tree Medical has experienced a significant surge in orders for personal protective equipment (PPE) due to the outbreak of Ebola and we are working closely with our suppliers to keep up with the increased demand. To further this effort and ensure that we do not over-allocate products based upon excess order quantities, PPE products will no longer be eligible for return. Additionally, all open PO's for PPE products will not be cancellable after placement. This policy update is effective October 22, 2014. We will revisit this update when the Ebola crisis has subsided and alert you to any additional changes.

As indicated on the Bound Tree return policy, all returns require an approved RMA number. Items received without an RMA will not receive credit. Please contact Customer Service at 800-533-0523 if you have questions or would like additional information.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I Instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/w9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued).
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
- Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

A. Questions and Responses:

1. I understand in the contract it states "The City reserves the right to accept and award item by item, and/or by group, or in the aggregate." How have you typically awarded these bids? Do you plan to award by line item, group, or all-or-none? The prior bid was awarded to four (4) vendors based on lowest pricing while complying with item specifications and bid requirements.
2. Due to the volatility of the pharmaceutical market, would pharmaceutical increases be accepted at any time within the contracted term (where necessary) so long as they are presented with manufacturer documentation that supports these increases? If these increases are not agreed upon, will the vendor be able to have those items removed from the contract with no prejudice against the vendor? The pricing agreement is for the annual budget period, Oct 1, 2017 – Sep 30, 2018. Consideration will be given for pharmaceutical price increases with no prejudice.
3. Are we to only use the new item list that was provided in the issued Addendum on 12/08/17 and disregard filling out the original item list known as "Attachment A"? You may disregard the original "Attachment A".
4. There are two new items to the new item list – Triage Kit – and it is listed there twice. Is this the same item? Triage Kit is listed twice, but the description of each one is different.
5. How many catalogs are we to submit with our bid proposal? Since the bid asks for one original and three copies of our submission, I wasn't sure if we were to submit just one catalog or four catalogs. One catalog will be sufficient.
6. Are we able to provide alternatives to the BT Item #'s and/or QM Item #'s? Yes
7. Is it possible to have this bid extended until the end of next week? The bid opening date remains Monday, December 18, 2017 at 10:00am.

A. Questions and Responses:

1. I understand in the contract it states “The City reserves the right to accept and award item by item, and/or by group, or in the aggregate.” How have you typically awarded these bids? Do you plan to award by line item, group, or all-or-none? The prior bid was awarded to four (4) vendors based on lowest pricing while complying with item specifications and bid requirements.
2. Due to the volatility of the pharmaceutical market, would pharmaceutical increases be accepted at any time within the contracted term (where necessary) so long as they are presented with manufacturer documentation that supports these increases? If these increases are not agreed upon, will the vendor be able to have those items removed from the contract with no prejudice against the vendor? The pricing agreement is for the annual budget period, Oct 1, 2017 – Sep 30, 2018. Consideration will be given for pharmaceutical price increases with no prejudice.
3. Are we to only use the new item list that was provided in the issued Addendum on 12/08/17 and disregard filling out the original item list known as “Attachment A”? You may disregard the original “Attachment A”.
4. There are two new items to the new item list – Triage Kit – and it is listed there twice. Is this the same item? Triage Kit is listed twice, but the description of each one is different.
5. How many catalogs are we to submit with our bid proposal? Since the bid asks for one original and three copies of our submission, I wasn’t sure if we were to submit just one catalog or four catalogs. One catalog will be sufficient.
6. Are we able to provide alternatives to the BT Item #'s and/or QM Item #'s? Yes
7. Is it possible to have this bid extended until the end of next week? The bid opening date remains Monday, December 18, 2017 at 10:00am.

Site-Loc

Transparent IV Dressing

Site-Loc is a transparent film dressing that may be used to protect a percutaneous I.V. catheter or small wound site. This waterproof dressing provides a breathable barrier for outside contamination like bacteria and viruses and allows for woundsite observation. The breathable film allows moisture, vapor, and oxygen exchange that may help promote asepsis at the wound site.

The Site-Loc Dressing has a unique non-adhesive tab that facilitates application and the notched dressing frame promotes a firm seal around the catheter lumen.

A. Questions and Responses:

1. I understand in the contract it states “The City reserves the right to accept and award item by item, and/or by group, or in the aggregate.” How have you typically awarded these bids? Do you plan to award by line item, group, or all-or-none? The prior bid was awarded to four (4) vendors based on lowest pricing while complying with item specifications and bid requirements.
2. Due to the volatility of the pharmaceutical market, would pharmaceutical increases be accepted at any time within the contracted term (where necessary) so long as they are presented with manufacturer documentation that supports these increases? If these increases are not agreed upon, will the vendor be able to have those items removed from the contract with no prejudice against the vendor? The pricing agreement is for the annual budget period, Oct 1, 2017 – Sep 30, 2018. Consideration will be given for pharmaceutical price increases with no prejudice.
3. Are we to only use the new item list that was provided in the issued Addendum on 12/08/17 and disregard filling out the original item list known as “Attachment A”? You may disregard the original “Attachment A”.
4. There are two new items to the new item list – Triage Kit – and it is listed there twice. Is this the same item? Triage Kit is listed twice, but the description of each one is different.
5. How many catalogs are we to submit with our bid proposal? Since the bid asks for one original and three copies of our submission, I wasn’t sure if we were to submit just one catalog or four catalogs. One catalog will be sufficient.
6. Are we able to provide alternatives to the BT Item #'s and/or QM Item #'s? Yes
7. Is it possible to have this bid extended until the end of next week? The bid opening date remains Monday, December 18, 2017 at 10:00am.

Dear Ms. Weaks:

GENERAL CONDITIONS OF ITB**Page 8, Section 13.**

McKesson does not agree to **Section 13, “Indemnification-General”**, but will agree to the following proposed language:

McKesson agrees that it shall indemnify and hold the City harmless from and against any and all losses, costs, damages, claims, suits and/or liabilities (“**Losses**”) incurred by the City as a result of a third-party claim of bodily injury to the extent such Losses are solely caused by McKesson’s negligence or willful misconduct in the performance of McKesson’s obligations under the Contract with the City. This indemnity does not extend to any Losses arising out of, resulting from or related to the City’s negligence or willful misconduct.

A party’s right to indemnification is conditioned upon the indemnified party satisfying the following requirements: (a) the indemnified party must promptly notify the indemnifying party of any claim for which indemnification will be sought; (b) the indemnified party must give the indemnifying party control of the defense against the claim (including the right to select counsel and settle or compromise such claim, but the indemnifying party must not agree to a consent decree or similar order binding the indemnified party or to any settlement that specifically apportions fault or liability to the indemnified party without the indemnified party’s prior written consent); and (c) the indemnified party must reasonably cooperate with the indemnifying party’s defense against the claim.

EXHIBIT “C” – DRUG-FREE WORKPLACE CERTIFICATION**Page 26, Sections 4 & 5**

McKesson does not agree with items #4 or #5 of the “**Drug-Free Workplace Certification**” and requests their removal in entirety. In reference to item #5, McKesson does offer the opportunity for drug rehabilitation but cannot require the employee to complete.

In addition to the City’s General Conditions, McKesson requests the addition of the following language:

LIMITATION OF LIABILITY:

In no event will McKesson be liable to the City under, in connection with, or related to this solicitation for any indirect, incidental, special, punitive, or consequential damages whether or not MCKESSON is advised of the possibilities of those damages whether based on breach of contract, warranty, tort, product liability, or otherwise (including lost profits) from any cause.

WARRANTY

MCKESSON MAKES NO REPRESENTATION OR WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO ANY PRODUCTS OR SERVICES PROVIDED BY MCKESSON INCLUDING THE WARRANTY OF MERCHANTABILITY OR THE FITNESS FOR ANY PARTICULAR USE OR PURPOSE. THE CITY SHALL LOOK TO THE MANUFACTURER OF

PRODUCTS AND THE PROVIDER OF SERVICE FOR ANY WARRANTY THEREON. NO AGENT, EMPLOYEE, OR REPRESENTATIVE OF MCKESSON HAS ANY AUTHORITY TO MAKE ANY AFFIRMATION, REPRESENTATION, OR WARRANTY CONCERNING PRODUCTS OR SERVICES NOT SET FORTH IN THE CUSTOMER CONTRACT.

Please note the following Operational Clarifications:

- 1) In reference to the “Qualifications” section on Page 2 of the bid, McKesson would like to note that it does not have a Business License specific to Richmond, VA where it’s home office is located. Qualification information is detailed in “Exhibit 4.”
- 2) In reference to the catalog & percentage discount request on Page 3 of the bid, McKesson would like to clarify that it does not publish a “hard-copy” catalog or price list. If awarded, McKesson would work with the City to provide competitive pricing on an as-needed basis for any item not listed out in the bid.
- 3) In reference to the backorder notification verbiage on Page 3 of the bid, McKesson would like to note that backorder information is available through SupplyManagerSM or Customer Service at the time of order placement.
- 4) In reference to the expiration date guidelines on Page 3 of the bid, McKesson would like to note that it does not guarantee the shelf life of the products offered in the proposal; however, our policy is that we request a minimum shelf life of at least six months from our manufacturers and we typically ship product with a minimum 3-month dating from our ship date.
- 5) In reference to the reporting requirement on Page 4 of the bid, McKesson believes that the City’s use of SupplyManagerSM, (our web-based ordering platform) will fulfill this requirement. Many reports are available through SupplyManagerSM and this allows the City to also customize the report to fit their unique needs. The reports are accessed using the Reports Tab and many can be exported to Microsoft[®] Excel.
- 6) In reference to the request to include search results from the EPLS System on Page 11 of the bid, McKesson would like to note that the EPLS System is no longer in existence as it was replaced by the System for Award Management (SAM) on November 2, 2012. McKesson is registered with SAM and is not suspended or debarred.

ITB 17-25 Medical Supplies and Equipment

ADDENDUM No. 1

The City will receive sealed bids at the location stated below not later than **10:00am, Monday, December 18, 2017.**

The following changes are applicable to the original ITB documents and specifications of ITB #17-25. A. Questions and Responses:

1. I understand in the contract it states “The City reserves the right to accept and award item by item, and/or by group, or in the aggregate.” How have you typically awarded these bids? Do you plan to award by line item, group, or all-or-none? The prior bid was awarded to four (4) vendors based on lowest pricing while complying with item specifications and bid requirements.
2. Due to the volatility of the pharmaceutical market, would pharmaceutical increases be accepted at any time within the contracted term (where necessary) so long as they are presented with manufacturer documentation that supports these increases? If these increases are not agreed upon, will the vendor be able to have those items removed from the contract with no prejudice against the vendor? The pricing agreement is for the annual budget period, Oct 1, 2017 – Sep 30, 2018. Consideration will be given for pharmaceutical price increases with no prejudice.
3. Are we to only use the new item list that was provided in the issued Addendum on 12/08/17 and disregard filling out the original item list known as “Attachment A”? You may disregard the original “Attachment A”.
4. There are two new items to the new item list – Triage Kit – and it is listed there twice. Is this the same item? Triage Kit is listed twice, but the description of each one is different.
5. How many catalogs are we to submit with our bid proposal? Since the bid asks for one original and three copies of our submission, I wasn’t sure if we were to submit just one catalog or four catalogs. One catalog will be sufficient.
6. Are we able to provide alternatives to the BT Item #'s and/or QM Item #'s? Yes
7. Is it possible to have this bid extended until the end of next week? The bid opening date remains Monday, December 18, 2017 at 10:00am.

CITY COMMISSION AGENDA ITEM

City of Fernandina Beach

SUBJECT: Ordinance 2018-01
Land Development Code Amendment - Variances

ITEM TYPE: Ordinance (w/o fiscal impact)

REQUESTED ACTION: Consider Ordinance 2018-01 at Second Reading.

SYNOPSIS: Following the direction provided by the City Commission at its Regular Meeting on September 14, 2017, staff worked to prepare an application which directs variance requests for lot combination within the defined Job Opportunity areas to be heard by the City Commission (PAB 2017-13). The Planning Advisory Board (PAB) recommended denial of the amendment. On November 8, 2017, Ordinance 2017-24 failed at First Reading and concurrently the City Commission directed that staff generate a new text amendment to have all variance requests pertaining to both lot combination and the filling of wetlands heard by the City Commission. As directed, staff initiated the current draft Land Development Code (LDC) amendment.

The PAB considered the request at its Regular Meeting on January 10, 2018, and issued a unanimous recommendation of denial. In keeping with the staff recommendation, the PAB cited that the Board of Adjustment (BOA) or Historic District Council (HDC) are the most appropriate bodies to hear and consider any variance requests. Further, the board directed that no wetlands variance applications should be taken under review as it would violate provisions of the Comprehensive Plan (policy 5.08.04) and referenced in LDC Section 10.02.01(C)(2).

Staff finds that the BOA and HDC are boards which are well versed in making determinations of hardship under the guidance of the City's criteria for granting a variance. Changes, such as those under consideration, not only serve to undermine prior efforts of remove subjective decision making procedures through the LDC re-write in 2006, but it also erodes the arduous work provided by volunteer bodies serving the City to improve processes which are equitably applied. Respectfully, staff recommends denial of the proposed amendments to remove variance review authority from the BOA.

This Ordinance was amended and approved by the City Commission at First Reading on February 6, 2018.

FISCAL IMPACT: None

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission reject proposed Ordinance 2018-01 at Second Reading.

BACKGROUND AND HISTORY:

2012

Staff initiated LDC Text amendments to provide clarification on the standards for review and approval of a variance by the Board of Adjustment or the Historic District Council. As part of the process for consideration of the LDC Amendments, the Planning Advisory Board added proposed limitations on the granting of a variance which included LDC Section 10.02.01 (C)(8). The City Commission approved the LDC amendments in January 2013 under Ordinance 2012-28.

2013

Working in concert with Nassau County Economic Development Board, Nassau County Growth Management, and the Fernandina Beach – Yulee Chamber of Commerce, the City initiated a Comprehensive Plan amendment to include a new element for Economic Development. Within the new element (Goal 12) contains an Objective (12.05) regarding Land Use and Infrastructure Expansion. Within Objective 12.05 is policy statement 12.05.01 which identifies the City's Job Opportunity Areas within its jurisdiction by description and in map form. The City defines a "Job Opportunity Area" as "A geographical area or areas within the City that are established as or are emerging job-generating areas where necessary infrastructure exists sufficient to support conscious investments which promote job creation." **EXHIBIT A** is the map contained within the Comprehensive Plan to identify the City's Job Opportunity Areas.

2014

Staff identified a significant conflict between the City's Comprehensive Plan Objective 12.05 regarding Job Opportunity Areas and the limitations found within LDC Section 4.02.02 when coupled with LDC Section 10.02.01(C)(8). Together, these LDC Sections work to create a development pattern which is not consistent with this historic built pattern and character of commercial properties along North and South Fletcher and does not allow a property any avenue for recourse to deviate from the limitation of a 100 foot lot width. In recognition of this conflict, staff initiated an application to allow for lot combinations in excess of 100 feet for properties within the City's identified Job Opportunity Areas.

The requested action was reviewed under a staff initiated application in 2014. The Planning Advisory Board acknowledged that the restriction from the granting of a variance was intended to restrict residential lot combinations and issued a recommendation of approval at its regular meeting on September 10, 2014 in order to correct the conflicting language and to be consistent with the goals of the economic development element of the Comprehensive Plan. The requested amendments passed at the City Commission at 1st reading, but failed to get support from the City Commission at 2nd reading of the ordinance on November 18, 2014.

2016

A privately initiated application was prepared and submitted to the Planning Advisory Board for consideration (PAB 2016-06). The applicant's requested action consistent with the staff proposed amendments in 2014. The requested amendments were to provide an exemption for properties located within the City's defined Job Opportunity Areas as described in the Economic Development Element of the Comprehensive Plan.

The Planning Advisory Board considered this application at its regular meeting on March 9, 2016 and issued a recommendation of approval. This time, the proposed amendment failed the 1st Reading before the City Commission in a hearing held on April 19, 2016, despite an attempt to limit the allowance to only the west side of North or South Fletcher.

2017 (PRIVATELY INITIATED)

A privately initiated application was prepared and submitted to the Planning Advisory Board for consideration (PAB 2017-08). The proposed amendment requested to allow the Board of Adjustment to

PAB 2018-02
Commission Directed LDC Request

consider a variance request exceeding the maximum 100 foot lot width for only those properties which are: located on the west side of North or South Fletcher; and contain a General Commercial (GC) Future Land Use Map category; and have a Community Commercial (C-1) Zoning Designation; and are within one of the City's Job Opportunity Areas as defined in the Comprehensive Plan Objective 12.05. The City Commission took final action to approve the applicant's request at 2nd reading on September 14, 2017 and at the same time directed that planning staff draft an amendment to LDC Section 10.02.01 to required that any variances sought to deviated from lot combination requirements along North and South Fletcher Avenue be reviewed by the City Commission, instead of the Board of Adjustment.

2017/2018 (CITY INITIATED)

Following the direction provided by the City Commission at its regular meeting on September 14, 2017, staff worked to prepare an application which directs variance requests for lot combination within the defined Job Opportunity areas to be heard by the City Commission (PAB 2017-13). The Planning Advisory Board recommended denial of the changes directed by the City Commission to remove variance consideration for the listed item by the Board of Adjustment (BOA). On November 8, 2017, the ordinance failed at 1st reading and concurrently the City Commission directed that staff generate a new text amendment to have all variance requests pertaining to both lot combination and the filling of wetlands heard by the City Commission. As directed, staff initiated the current draft amendment under a separate PAB Case 2018-02.

Staff continues to recommend that the most appropriate body to review and consider variance requests is the Board of Adjustment, with exception to those in the Historic District or CRA. The BOA is an appointed board whose members serve at the pleasure of the City Commission. This board conducts quasi-judicial proceedings to review variance requests and issue determinations of hardship as its sole responsibility. The BOA does not conduct in any legislative or political decision making and serves to provide an independent body of peers within the community.

In 2006, the City finalized a major revision to its Land Development Code. One of the primary objectives of the code revision effort was to remove procedures which previously created an environment of political and subjective decision making. In its place are specific and defined criteria by which land development activities can be approved as consistent with the community's values and standards. Property owners who find themselves with a specific hardship for their proposed development are afforded an opportunity to be heard by the BOA or the Historic District Council (HDC). The BOA and HDC are boards which are well versed in making determinations of hardship under the guidance of the City's criteria for granting a variance. Changes such as those under consideration not only serves to undermine the efforts of remove subjective decision making procedures, but it erodes the arduous work provided by prior volunteer bodies serving the City to improve processes which are equitably applied. Respectfully, staff recommends denial of the proposed amendments to remove variance review authority from the BOA.

2.2 PAB 2017-11 LAKESIDE RESERVE PRELIMINARY PLAT

Ms. Gibson first noted that the staff report was provided along with the application materials as part of the record. She then explained that this property was located off of Amelia Road just south of Simmons Road, east of the new assisted living facility site, and that this project was for the construction of 29 new single family homes. She also noted that this property will have shared entry and amenities with the Aspire site. Ms. Gibson then noted that this was consistent with the City's Comprehensive Plan and the Land Development Code and recommended approval of case 2017-11.

Chair Bennett asked if that area of Simmons Road will be opened. Ms. Gibson mentioned that there will be a trail late spring of next year.

Nick Gillette, Gillette & Associates, 20 S. 4th Street, added that there will be a connection between Phase I and Phase II; Phase I being the Aspire living commercial facility and Phase II being this residential project. He then mentioned that the connected access would only allow access from Phase II to Phase I with a gated connection; and that the commercial element won't be able to go onto Amelia Road but that Amelia Road will be able to go to the Parkway through the commercial element. He mentioned that there will be a gate from Amelia Road to make it private and secured.

Public Hearing was then opened.

Lauree Hemke, 751 Barrington Drive, representing her husband along with their neighborhood's HOA. She expressed that they have had concerns about this property especially about the zoning density which was approved. She also mentioned that they raised concerns about the Aspire property regarding the initial constructions issues with tree removal and the wetlands. She mentioned that they contacted the City, the County and St. John's Water Management, and that only St. John's addressed the issues with the contractor. She also mentioned the issues regarding the draining of the lake into the right-of-way which impacted their neighborhood's retention pond which in turn was damaged and also the dumping of trees. She noted that the damages to the retention pond were paid for along with some of the removal fees for the trees. She commented that St. John's requested that she contact the City and the County about repairs regarding the drainage issues on Amelia Road and Amelia Parkway. She added that she wrote and called both offices and had yet to receive a call back from either. In addition, Mrs. Hemke voiced some concerns about the buffer. She mentioned that the information given by City Staff differed in three separate inquiries. She also commented that she was told by a City employee that since the property was located both in the County's and City's jurisdiction, that different building codes could be used. She also commented about the noise. She then noted that although they are willing to continue working with the County, the City and St. John's Water Management and the Aspire Development, she feels the relationship is disingenuous and that there are trust issues with written documents of the current proposal.

Michael Waskew, 3105 Aja Court, located in the Barrington subdivision, thanked Mrs. Hemke for her comments. He then commented on the contractor's actions regarding draining water into their subdivision's pond and wetlands which destroyed some growth to their pond. Mr. Waskew commented that this Board has the responsibility of making sure approved projects are overseen and managed properly. He then addressed concerns with the buffer and the building of the cul-de-sac right next to the buffer line and the impact on drainage and tree preservation. Mr. Waskew asked about the existing house on lot 29 and parcel D shown on the plat and what was planned for that parcel.

Ms. Gibson addressed the comments about the buffer and stated that there are no buffer requirements between the Barrington subdivision and the new subdivision so any buffer is acceptable.

Mary Libby, 616 Spanish Way East, commented that the main reason she purchased her property was for the views of the pond and wooded areas surrounding it along with all the wildlife and she then commented that she was pretty distraught by the changes and removal of the buffer and the impact on the maritime forest.

Chair Bennett then commented that most concerns brought forth were really for the Aspire project which was not the case currently being presented except for the questions regarding lot 29 and the existing house.

Carol Miller, 677 King George Way, residing in Isle the May just like Mrs. Libby who commented previously, voiced that change is to be expected but asked if there were plans to replace trees that have been removed. She also asked about the cottages' relationship with the retirement community.

Ms. Gibson answered that there is a replanting program and strategy for the areas of Aspire Amelia and the cottages sites and a PDF file is available for review. She further explained that the current application being reviewed is within a residential low medium zoning district and would be adjoining the Barrington subdivision which is in a R1 residential district and that in that area there are no buffer requirement between the two. She also mentioned that the property located in the City's jurisdiction and the development site for the structures tied to Aspire were regulated by the City and a portion of the storm water pond is located in the Nassau County jurisdiction and that there was a joint effort with Nassau County, the City, the St. Johns Water Management, the developers, and the engineers to make sure that everything was consistent with both regulations and created a restoration and revegetation plan for the storm water ponds to be created around that facility.

Member Morrison asked about the buffer requirement being handled on the C2 side.

Katrina Robinson-Wheeler, 701 S. 13th Street, asked about a different case and would speak at a later time.

Lauree Hemke, 751 Barrington Drive, commented about a lack of communication regarding the buffer issue. She also mentioned that after meeting with Staff on several occasions she was disturbed to hear that Staff expressed that she was looking forward to see the area being developed which Ms. Hemke interpreted as Staff recruiting development as opposed to what the citizens want. She then commented on the relationship and communication level between the City and Isle the Mai versus the Barrington subdivision and the involvement of the Aspire developer in addressing similar issues.

Public Hearing was then closed.

Nick Gillette, Gillette & Associates, first complimented Staff for their work and the City asked them to replant the entire buffer and replant more vegetation that was there originally. He also mentioned that there would be a pond created and trees planting would separate it from the Barrington pond. He talked about storm water codes being in place and also mentioned that there would be a transitional area between the buffer and the cul-de-sac and noted that Staff asked them to do some replanting in that area and that tree replacement will be done according to City code. He mentioned that ditches would be piped for drainage along Amelia Road to avoid impact to the Barrington subdivision. Mr. Gillette mentioned that the house on lot 29 is slated to be put on the market and that tract D would be a pond.

Member Peterson asked about tree replacement and an estimated count. Mr. Gillette answered that this was under review now and he estimated the count to be about 40 to 50 trees.

Bruce Jazinsky, Broker, explained that there were currently no plans to subdivide lot 29 and that the house located on site was currently occupied and would be put on the market.

Member Morrison commented that he sympathized with the neighboring residents and felt that with time the process would improve.

Member Schaffer asked that all parties continue to be aware of tree preservation during the construction stage.

A motion was made by Member Morrison, seconded by Member Beal, to recommend approval of PAB case 2017-11 to the City Commission requesting that a Preliminary Plat for Phase II of the Aspire at Amelia complex be approved and that PAB case 2017-11, as presented, is sufficiently compliant with the Comprehensive Plan and Land Development Code to be approved at this time. Vote upon passage of the motion was taken by ayes and nays being all ayes, carried.

2.3 PAB 2017-12 PLANNED UNIT DEVELOPMENT (PUD) REQUEST FOR HICKORY RIDGE

Ms. Gibson first noted that the staff report was provided along with the application materials as part of the record. Ms. Gibson presented the case according to the staff report analysis. Ms. Gibson then noted that this was consistent with the City's Comprehensive Plan and the Land Development Code and recommended approval of case PAB 2017-12.

Member Morrison asked for the meaning of the term "work force housing". Ms. Gibson mentioned that this wasn't defined by state statute but that the Comprehensive Plan did define terms for "affordable housing" such as Low, Medium, and Very Low.

Nick Gillette, Gillette & Associates, 20 S. 4th Street, addressed Member Schaffer's concern regarding tree preservation. He commented on "affordable housing" which is defined as rentals and that this project is for sales of properties. He then explained the positive value of this project as potential buyers would be located in the middle of the island close to 3 schools and could work downtown. He also mentioned that with smaller lots and low infrastructure cost, using existing roads, and higher tree retention, this project was more exciting than the traditional subdivision.

Member Beal asked about the open area being natural or park like. Mr. Gillette mentioned that the tree loss would be less than 10% with grading between trees. The water drainage would be piped into an inlet. He also commented on the limited footprint of the main structure being 1100SF and a detached garage being 280SF, with a maximum total footprint of approximately 1400SF.

Member Lewis voiced some concerns regarding the final product's resale value and asked if a deed restriction was planned. Mr. Gillette mentioned that there would be no deed restriction on resale valuation.

Member Peterson asked about water drainage on Fir Street since that area floods. Mr. Gillette explained that the connection would be done through the inlet and the pipe system on Fir Street. He also explained that the ponds that would be created should solve the current flooding issues experienced in the Fir Street and S. 12th Street area.

Member Morrison asked Staff about the "work force" concept and if this played in the decision to be granted for this case. Ms. Gibson answered that there are no obligations and no special conditions granted to this project to target specific demographics. Member Morrison commented on the homes backing out to the street. Mr. Gillette noted that the wide right of way will give them the ability to landscape and increase planting.

Member Schaffer asked for the width of the lots and Mr. Gillette answered that they were 36 feet wide.

Public Hearing was then opened.

Lynn Williams, 1899 S. Fletcher Avenue, commented that the project being labelled as affordable housing aimed at the work force was not being realistic because older buyer and retirees would show a lot of interest in this product.

Betsy Huben, 4615 Philips Manor Place, mentioned that she is on the Nassau County Advisory Committee considering affordable housing. She noted that her 2 daughters and her son were considered work force and voiced a concern about not nailing down the definition of affordable housing. She asked about the location of the garage on the property that runs along S. 13th Street since she purchased 5 properties on S. 13th Street between Fir Street and Gum Street and had concerns about front view of her properties facing the garages.

Thomas Morris, residing on 12th & Fir Street, voiced that this was a good project but that an effort should be made for making the island affordable to all. He also mentioned his concerns about drainage for this project and asked that proper drainage be installed.

Crystal Mack, 1232 Hickory Street, asked about the location of the entrances and exits and the price range. She also commented that adding 41 new homes would create traffic and congestion.

Katrina Robinson-Wheeler, 701 S. 13th Street, had concerns about drainage. She also asked about entrances and exits which would increase traffic. She asked if this project would be gated, and also spoke about tree removal and buffers. She then commented on affordable housing and its costs, timeframe of the development with its noise and construction.

Rick Wheeler, 701 S. 13th Street, asked about the size of the homes and the buffers.

Steve Buser, 1216 Fir Street, asked about design control such as limitation to one or two stories and if there would be a HOA. He also commented about the drainage issue in the area.

Nick Gillette, 20 S. 4th Street, commented that this project offered a maximum building footprint along with a 40% open space. He also addressed the garage size and carport element. He then commented on the term affordable housing and its threshold and possible available financial opportunities. Mr. Gillette addressed the accesses and traffic concerns and noted that there would be 2 alley ways with 2 connections that would be road connections both at 13th Street, and that some driveways will be off of Fir Street, Hickory Street and S. 13th Street. He also explained the drainage system on S. 13th Street. Mr. Gillette did confirm that there would be an HOA with restrictions and that only 1 or 2 stories design would be allowed. He mentioned that 25FT height would be the design standard with a maximum of 30FT high. He added that sidewalks would be installed outside the perimeter of the project and that typical home would be 26FT wide with a maximum depth of 50FT. He also mentioned that duplexes would be located in areas where duplexes already exist and would mirror the same size as the single family with two being attached. He then talked about the estimated timeframe with the horizontal aspect starting on the 1st or 2nd quarter of 2018 and 1st building product in the 3rd quarter of 2018. He ended by addressing the location of the buffers.

Member Peterson voiced his support for the project.

Member Morrison noted that Nick Gillette and Staff should be commented for the approach taken in regards to attention to the neighborhood, open spaces and tree preservation.

Member Lewis voiced her support for this project.

Member Peterson commented that Gillette & Associates have been very accessible and helpful with any questions during the process.

Member Schaffer asked about the maintained area under the HOA's responsibility and the potential HOA fees. Mr. Gillette answered that due to the small amount of common area the fees should be fairly low probably under \$100 per month.

A motion was made by Member Morrison, seconded by Member Peterson, to recommend approval of PAB case 2017-12 to the City Commission requesting that a zoning change to allow a Planned Unit Development overlay be approved and that PAB case 2017-12, as presented, is sufficiently compliant with the Comprehensive Plan and Land Development Code to be approved at this time. Vote upon passage of the motion was taken by ayes and nays being all ayes, carried.

2.4 PAB 2017-13 LAND DEVELOPMENT CODE TEXT AMENDMENT (VARIANCES)

Ms. Gibson presented the City initiated text amendment to address a Commission directed code amendment to bring to the Commission the right of approval for granting a variance for lot combination within the Ocean Avenue, North Fletcher, South Fletcher areas within the Job Opportunity Areas. She noted that at the mid-September meeting Staff moved forward with presenting the Planning Board a code amendment that would shift the reviewing body from the BOA to the City Commission for reviewing variances seeking to combine lots in excess of 100FT within commercially zoned properties along North and South Fletcher and look at the criteria for the granting of a variance and the hardship criteria tied to the granting of the variance and if appropriate, render an approval.

Member Bennett commented that he doesn't think this is a good idea as he felt it would politicize the decisions. Member Morrison and Member Beal concurred and commented to this had already been attempted on a few occasions and rejected by the City Commission.

Public Hearing was then opened.

Lynn Williams, 1899 S. Fletcher Avenue, commented and agreed that the City Commission having the authority to approve variances in the Job Opportunity Area will politicize the decisions.

Public Hearing was then closed.

A motion was made by Member Morrison, seconded by Member Beal, to recommend to the City Commission that the City Commission gives the Board of Adjustment the authority to hear variances within the Job Opportunity Area. Vote upon passage of the motion was taken by ayes and nays being all ayes, carried.

3. Board Business –

Chair Bennett welcomed new voting member John Boylan.

4. Staff Report**4.1 9TH STREET CORRIDOR STUDY FOR CONTEXT SENSITIVE COMPLETE STREET –**
Staff briefing of the Transportation Planning Organization (TPO) funding the 9th Street corridor study.

Ms. Gibson explained that this is a follow up to the 8th Street efforts to do Land Use and Zoning Amendments that was completed last October and for 9th Street to be used as a parallel corridor to direct pedestrian and bike improvements, this in a safer manner than using 8th Street. She explained that she worked with Nassau County and was successful in finding a funding source for a corridor study for 9th Street. She added that the study would be for 9th Street from Lime Street to Atlantic Avenue with outreach efforts and community input efforts tied to the work done by the consultant; this being started beginning of the New Year. She also talked about securing community advocates within the area along with users as they would be instrumental in pushing out information during outreach events.

Member Lewis commented of a similar study done where she used to live and thought it was great. Ms. Gibson explained that she will provide the consultant data and resources in the form of lists of people who need to be kept in loop and ones that were contacted initially which would help the process since the consultant would be doing the heavy lifting. She also noted that meetings will be located locally at the Peck Center and that this process should start in January 2018. Member Peterson commented that this is a touchy subject for residents of that area, he asked that as many residents of 9th Street be informed of the project ahead of time. Ms. Gibson then mentioned that she would initiate mail outs and welcomed any input in order to make sure that as many people are informed.

Chair Bennett asked that Mr. Peterson clarifies what was the “touchy subject” about. Member Peterson explained he has received phone calls and that rumors were circulating about plans to make 9th Street more commercial.

A discussions ensued about the new buildings erected recently and Ms. Gibson mentioned that currently there were no design requirements for 8th Street except for the pedestrian landscape area and driveway access, nor are there any design requirements for 9th Street. She also mentioned that the recent zoning change has had no impact on these recent projects since these would have been allowed before the change.

Member Schaffer asked about setbacks for property zoned mixed use and if they were similar to C3. Ms. Gibson said they were very much like C3 except when fronting 8th Street and when abutting R2 zoning. Then she also mentioned that the height goes from 45FT to 35FT.

Member Beal asked about the usage for the property where BuyGo is located. Ms. Gibson noted that this is a C3 zoned property not mixed use.

Chair Bennett asked if there should be a design council for the 8th Street and 9th Street corridor. Member Morrison commented that he felt that this was not a good idea.

Ms. Gibson announced that since November 8th is Election Day, the next PAB meeting would be held on Tuesday, November 7th, 2017. City Attorney Bach also mentioned that she would not be present at the November meeting.

8. Adjournment - There being no further business to come before the Planning Advisory Board, the meeting was adjourned 7:06 pm.

Secretary

Mark Bennett, Chair

The City Commission of the City of Fernandina Beach, Florida, met in a Regular Meeting on Tuesday, November 8, 2017 at 6:00 pm in the City Commission Chambers. Present were Mayor Robin Lentz presiding, Vice Mayor Kreger, Commissioners John A. Miller, Tim Poynter, and Roy G. Smith. Also present were City Clerk Caroline Best, City Manager Dale L. Martin, and City Attorney Tammi Bach.

Mayor Lentz called the meeting to order and led the Pledge of Allegiance to the Flag. The invocation was then given by Baptist Medical Center Nassau Senior Chaplain Reverend James Tippins.

4.1 PROCLAMATION - NATIONAL AMERICAN INDIAN HERITAGE MONTH: Mayor Lentz read the Proclamation in full proclaiming the month of November, 2017, as “National American Indian Heritage Month”. Dr. Nadine D'Ardenne, American Indian Representative, was present to accept the Proclamation. Dr. D'Ardenne offered her thanks and noted being finally at a place in this country where it is known what native America Indians have experienced.

4.2 PROCLAMATION - TREES FOR AMERICA'S TROOPS, INC.: Mayor Lentz read the Proclamation in full recognizing Trees for America's Troops, Inc. for providing United States military servicemen and servicewomen on deployment with decorated Christmas trees and essential items to help them overcome the drudgery and hardships of faraway duty. Trees for America's Troops, Inc. President Ms. Judi Brown-Mixon and Mr. Brown were in attendance to accept the proclamation and spoke to her great-nephew, Kelly Mixon, who graduated from Fernandina Beach High School, attended FL State and decided to follow in his Father's military footsteps only to be slain in the line of duty days before his 24th birthday. Dedicated community support with ongoing fundraisers makes for successful, well received donations to the troops in honor of Mr. Mixon's sacrifice.

4.3 PROCLAMATION - PÉTANQUE AMELIA ISLAND OPEN: Mayor Lentz read the Proclamation in full recognizing the 8th Annual Pétanque Amelia Island Open and the tournament's founder, Mr. Philippe Boets, the Official Ambassador of the Pétanque Amelia Island Open. Mr. Boets was in attendance to accept the proclamation and shared the credit for the help and assistance noting “sometimes the best captains are on shore”.

5. PUBLIC COMMENT REGARDING ITEMS NOT ON THE AGENDA OR ITEMS ON THE CONSENT AGENDA:

WETLANDS: Mr. Lynn Williams, 1899 S. Fletcher Avenue, as a member of the Board of Adjustment (BOA), although not speaking for the BOA, is in support of changing the rules somewhat however filling wetlands cannot be considered for a variance. Showing a presentation which included language from the Comprehensive Plan that clearly states wetlands cannot be filled and the state of Florida law concurs and deems any structure built on wetlands can be razed if in violation. A suggestion would be to offer workshops on variances and making the law clear in an effort to avoid legal issues and costs.

ELECTION RESULT OBSERVATION: Mr. Leslie Rohde, 645 King George Lane, is a marketer whose job is to understand what people want. Mr. Rohde most recently worked on

prospective candidate Mr. Medardo Monzon's unsuccessful campaign. Observations from this year's election included a 50% increase in mail in votes with a 30% voter turnout resulting in the defeat in Group 2 of the longest sitting Commissioner losing to a relatively unknown newcomer. In Group 3 there were three candidates with the most moderate candidate finishing at the bottom with two controversial candidates vying in a runoff to be determined on December 12th. The seemingly much ignored marina and questionable airport terminal building construction may be two reasons for the vote results. The two tenured commission member's departures will be marred by two widely held perceptions, one the failure to restore the marina and two, a "dereliction of duty" to go forward with the airport terminal building construction contrary to public opposition. Mr. Rohde offered his assistance to the remaining commission members as the same "perceived crimes" may surface next year and be their unseating.

7.3 RESOLUTION 2017-176 APPROVING AMENDMENTS TO THE GOLF COURSE AND AIRPORT FUNDS IN FISCAL YEAR 2017/2018 FOR TWO PROJECTS CARRIED OVER FROM FISCAL YEAR 2016/2017: According to the agenda support documents Resolution 2017-176 approves a transfer of \$35,600 to the Golf Repairs/Maintenance Grounds

account from the Golf Reserve account and a transfer of \$202,850 to the Airport Repairs/Maintenance Building and Grounds account from the Airport Reserve account. **A motion was made by Commissioner Miller, seconded by Commissioner Poynter to approve Resolution 2017-176.** Mr. C.N. Corbett, 106 N. 15th Street, asked if the \$202,000 was coming out of the airport fund and how much money would be left over. City Manager Martin believed the money to be coming from the insurance proceeds of \$80,000 and \$24,000 from the airport enterprise fund and the additional \$100,000 will transfer from the airport reserve account leaving approximately \$200,000. Finance Comptroller Patti Clifford commented the project was slated to be finished by the end of the last fiscal year leaving reserves higher than anticipated and is just being carried forward into this year leaving the same amount of reserves. **Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**

7.4 RESOLUTION 2017-177 AUTHORIZING A GRANT AGREEMENT WITH FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION (FDEP) TO ACCEPT \$500,000 AWARD FOR NORTH FLETCHER DRAINAGE IMPROVEMENTS – NORTH DOWNTOWN DRAINAGE IMPROVEMENTS – AREA 5: According to the agenda support documents Resolution 2017-177 authorizes the City to enter into Agreement No. LP45011 with FDEP in the amount of \$500,000 for the North Fletcher Drainage Basin Project. Vice Mayor Kreger commented this grant is from the state of Florida and is non matching following the \$900,000 from last year along with a \$271,000 cost share from St. John's River Water Management District, this funding has significantly reduced the stormwater problem, an issue all the candidates support. **A motion was made by Vice Mayor Kreger, seconded by Commissioner Poynter to approve Resolution 2017-177. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**

7.5 RESOLUTION 2017-178 AUTHORIZING A COST-SHARE AGREEMENT WITH ST. JOHNS RIVER WATER MANAGEMENT DISTRICT (SJRWMD) TO ACCEPT \$251,283 TO UPGRADE EXISTING DRAINAGE IN AREA 1 (NORTH 15TH STREET AREA): According to the agenda support documents Resolution 2017-178 authorizes the City to enter into a cost-share agreement with SJRWMD to accept an award of \$251,283 for the construction improvements to the Area 1 drainage system. **A motion was made by Vice Mayor Kreger, seconded by Commissioner Poynter to approve Resolution 2017-178. 7.6 RESOLUTION 2017-179 REQUESTING AN EASEMENT TO BE GRANTED FROM THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION (FDEP) FOR THE AREA BY FT. CLINCH STATE PARK PROPERTY FOR MAINTENANCE OF EXISTING DRAINAGE DITCH: According to the agenda support documents Resolution 2017-179 authorizes the City to request a maintenance easement along the existing ditch from the FDEP. Stormwater Manager Andre Desilet noted in 2014 this easement was originally requested as part of the N. Fletcher drainage improvements using the \$900,000 state grant. There were some obstacles regarding permitting through the FDEP and stormwater was rerouted to the south. During the recent hurricane there was significant flooding on the north end, the only drainage is an abandoned mosquito control ditch that crosses Ft. Clinch State Park property however the ditch is not maintained by the park. The current proposal offers to acquire the ditch, lower the

maintenance impact, and alleviate concerns raised during the original easement process. Vice Mayor Kreger interjected a cost share was requested from SJRWD and Stormwater Manager Desilet crafted a local mitigation strategy and once it is identified it will be done. **A motion was made by Vice Mayor Kreger, seconded by Commissioner Smith to approve Resolution 2017-179. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**

Corbett, 106 N. 15th Street, inquired as to where the money would be borrowed from and how it would be repaid. City Manager Dale Martin explained the City will borrow \$1 million dollars and preparations are taking place to go out for bid. Finance Comptroller Patti Clifford explained this is a reimbursement resolution, not the resolution that will be presented when the debt is issued. The advertisement for the bid will be placed in Friday's newspaper to borrow \$1 million dollars and \$450,000 refinancing, which is included in the budget. The current resolution is to spend the money now and repay (the City) with the proceeds from the borrowed money. **Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**

7.8 RESOLUTION 2017-181 APPROVING TASK ORDER #2017-02 WITH OLSEN ASSOCIATES, INC. 7.11 RESOLUTION 2017-184 APPROVING THE CONSTRUCTION AND FINANCIAL AGREEMENT WITH EIGHT FLAGS AVIATION, LLC FOR FINANCIAL CONTRIBUTION TOWARD DESIGN AND CONSTRUCTION OF THE AIRPORT TERMINAL; AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND EXECUTE A PUBLIC RAMP APRON MANAGEMENT AGREEMENT; APPROVING CHANGE ORDER 1 WITH F&G CONSTRUCTION: According to the agenda support documents Resolution 2017-184 approves the Construction and Financial agreement between Eight Flags Aviation, LLC and the City of Fernandina Beach. Authorizes the City Manager to negotiate and execute a public ramp apron management agreement with Eight Flags Aviation, LLC and authorizes the City Manager to execute Change Order 1 with F&G Construction, not to exceed the original award amount, for the addition of a nose and tail section to the Airport Terminal.

Airport Manager Mr. Nathan Coyle gave a presentation outlining the airport terminal project. Beginning with the timeline of the Fixed Base Operator (FBO) selection through the airport terminal facility background including the committee selections, the Corsair terminal building design approved by the City Commission via Resolution 2017-10 and the notice to proceed in the amount of \$4.395M, awarding the bid to F&G Construction. At the time of bid award the nose, tail, generator and a few other costs deemed not necessary resulted in a cost reduction to \$4.09M. The project funding includes; Federal Aviation Administration (FAA) \$356,355, FDOT \$1,644,797.50, and Florida Department of Economic Opportunity (FDEO) \$819,590 (second phase eligible when first phase is fully drawn). Passero & Associates Project Manager Mr. Mike Cornell stated he anticipates a thirty day turnaround upon completion of phase one, airport fund balance \$751,028, airport bond financing \$1M (not yet in place) and Eight Flags Aviation \$337,500. Eight Flags Aviation is the FBO and as of 2015 has a twenty year lease with two five year renewals at a ground lease rate of \$.20 per square foot. The City maintains a non-exclusive public parking apron cost sharing with the FBO who manages the apron. There is a provision to develop a separate construction and financial agreement for Eight Flags Aviation's contribution to the terminal building project in exchange for rent credits. Commissioner Smith clarified the \$337,500 from Eight Flags Aviation is a repayment loan through rent credits.

Commissioner Miller questioned if there was a disagreement regarding apron usage who would mediate. Mr. Coyle responded it would still maintain its status as a public apron and the FBO would manage it for the City. Eight Flags Aviation had submitted capital projects to provide future contributions at 0% interest loans to the cities. Financial projections are currently estimates as information changes, repayment could be within a six year window with a 50/50 rent credit. The new terminal building will have an office rental rate of \$10 per square foot;

Eight Flags Aviation has requested a favorable and equitable lease rate with the City providing temporary (trailer) space by March 1 for \$2000 per month until the terminal building is completed. City Attorney Bach clarified the new FBO will not be selling fuel or providing services until April 1 or later.

Commissioner Smith asked about a completion date and if there was a liquidator clause damage in the contract. Mr. Coyle responded that although the contract notes substantial completion as of April 1, 2018 current construction and ordering could delay completion until July 2018. Mr. Mike Cornell stated April 1 is the contracted date but due to conflict with the current FBO the target completion date will likely not be met.

Mr. Coyle explained a piece that needs to be completed in the leasehold is due to a drainage improvement issue and the location of the facility. Mr. Coyle further surmised the revenue stream may change moving forward and gave current estimates and noted there is a current change order for the nose and tail for City Commission approval.

Mr. Brian Echard, 5007 First Coast Highway, owner of Eight Flags Aviation, explained up to \$500,000 is going to be building improvements. Vice Mayor Kreger clarified the \$500,000 is real property owned by the City. Mr. Coyle further expounded there is a Corsair replica to be hung from the ceiling and finish upgrades that will remain with the facility.

Commissioner Smith mentioned that along with having a finance background as well as being a taxpayer is disappointed because it is taxpayer money being spent as federal grants come from federal taxes. There is also disappointment with the contractor's overhead and profit at 4.56% is crazy, the numbers work out evenly which does not make sense. Commissioner Smith also asked for a definition of PBC. Mr. Cornell explained PBC is a batten system that was an option proposed by F&G Construction; PBC is a better seaming metal, less expensive, lasts as long and has been around since the 1960's. Commissioner Smith asked why PBC was not originally included. Mr. Cornell noted he is not the designer but the project manager.

Mr. C.N. Corbett, N. 15th Street asked how much money would come from Eight Flags Aviation/Mr. Echard. Airport Manager Coyle responded the total loan is for \$337,500 at 0% interest. City Attorney Bach clarified all of the money is not coming from Eight Flags Aviation up front, as there are phases. The first phase will be the \$337,500 and if the change order is approved it will contribute directly to the airport terminal buildings nose and tail purchase and installation. In the future the city is expecting grant monies for fuel farm upgrades, ramp apron improvement, bulk hangar construction and other improvements that Eight Flags Aviation will put money towards in rent credits.

Mr. Sean McGill, 650 Airport Road, current FBO owner (McGill Aviation) complimented Airport Manager Nathan Coyle as a great person and a pleasure to work with at the airport. Clarifying a line in the agreement which states Eight Flags Aviation is not obligated to do the projects it does obligate the City to work exclusively with Eight Flags Aviation on those projects, with a ten year non-compete clause and reimbursement for cancellation. As a one sided document it is interesting that Eight Flags Aviation was obligated to contribute a nose and tail that had not been designed as yet in the request for proposal. Vice Mayor Kreger stated the nose and tail were included in the design and is an integral part of the terminal and are needed. Commissioner Miller agreed, reiterating the building was approved by the Commission and it

would be a bad idea to remove the nose and tail. City Attorney Bach provided clarification that Eight Flags Aviation will not be able to walk away from their financial obligation. **A motion was made by Commissioner Poynter, seconded by Commissioner Miller to approve Resolution 2017-184.** Commissioner Smith further stated his displeasure for the airport terminal design; specifically the nose and tail sections. **Vote upon passage of the motion was taken by ayes and nays as follows:**

Vice Mayor Kreger:	Aye
Commissioner Miller:	Aye
Commissioner Poynter:	Aye
Commissioner Smith:	Nay
Mayor Lentz:	Aye

Motion carried.

8.1 ORDINANCE 2017-24 AMENDING THE LAND DEVELOPMENT CODE (LDC) SECTION 10.02.01 (B) AND (C)(8) LIMITATIONS ON THE GRANTING OF A VARIANCE: According to the agenda support documents Ordinance 2017-24 amends the Land Development Code specific to variances. City Attorney Bach read Ordinance 2017-24 by title only, which was as follows: “AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OFFERNANDINA BEACH, FLORIDA, AMENDING THE LAND DEVELOPMENT CODE (LDC) SECTION 10.02.01 (B) AND (C)(8) LIMITATIONS ON THE GRANTING OF A VARIANCE; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.” City Attorney Bach explained this is a proposed LDC amendment that would have lot combination variances appear before the City Commission for a quasi-judicial hearing instead of the Board of Adjustment.

Mr. Lynn Williams, 1899 S. Fletcher Avenue, a member of the BOA, explained many with whom he has talked are opposed to taking this kind of responsibility away from the BOA and putting it into a totally political group such as the City Commission. Among those opposing this are the five members that each of the City Commissioners appointed to the Planning Advisory Board (PAB) and they voted unanimously against what the City Commission is now proposing to do. Mr. Williams believes this is a bad idea and encouraged the City Commissioners to read the fourteen page document prepared by City Attorney Bach which speaks to the responsibilities associated with the proposed changes. **A motion was made by Commissioner Miller, seconded by Vice Mayor Kreger to approve Ordinance 2017-24 with the following amendments; the City Commission has secondary oversight on BOA decisions regarding filling wetlands and lot combination and the variance application fee shall be increased from \$650 to \$2000.** City Attorney Bach stated these conditions make things really complicated; the BOA historically, here and across the state of Florida, is really a board that holds quasi-judicial hearings and considers variance requests. To have the BOA now make *recommendations* changes the BOA’s role, which the City Commission can do but now other areas will have to be addressed in the Land Development Code. After additional discussion among the City Commissioners, **City Attorney Bach recommended the motion be changed to state the following: “create an ordinance from this and take it back to the Planning Advisory Board with those changes.”** City Attorney Bach advised it is a mistake to remove

the option of a variance from the Comprehensive Plan as it represents a taking under the eyes of the law and may serve as a cause for property owners to file Bert Harris Jr. law suits against the City. **Vote upon passage of the motion was taken by ayes and nays as follows:**

Commissioner Miller:	Aye
Vice Mayor Kreger:	Aye
Commissioner Poynter:	Nay
Commissioner Smith:	Aye
Mayor Lentz:	Nay

Motion carried.

8.2 Quasi-judicial – FIRST READING OF ORDINANCE 2017-25 CHANGING THE CITY’S ZONING MAP TO ASSIGN A PLANNED UNIT DEVELOPMENT OVERLAY FOR A PARCEL TOTALING 5.10 ACRES OF LAND LOCATED ON S. 13TH STREET BETWEEN HICKORY STREET AND FIR STREET: City Attorney Bach read Ordinance 2017-25 by title only, which was as follows: “AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, CHANGING THE CITY’S ZONING MAP TO ASSIGN A PLANNED UNIT DEVELOPMENT OVERLAY FOR A PARCEL TOTALING 5.10 ACRES OF LAND LOCATED ON S. 13TH STREET BETWEEN HICKORY STREET AND FIR STREET; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.” According to the agenda support documents Ordinance 2017-25 approves a Planned Unit Development (PUD) overlay to approximately 5.10 acres located on S. 13th Street between Hickory Street and Fir Street.

City Attorney Bach explained the quasi-judicial process; the three minute speaking time limit will not be observed during the quasi-judicial hearing, staff will give a presentation and/or introduce evidence into the record, the applicant will then give a presentation and/or introduce evidence into the record. Any affected parties who wish to speak, including the applicant and staff, will take an oath. City Attorney Bach asked the City Commissioners whether any ex-parte communication occurred between themselves and the applicant; Vice Mayor Kreger stated he had a conversation with the applicant related to affordable housing, Commissioner Smith stated Mr. Mock phoned him at home to talk about the project, Commissioner Smith noted Mr. Mock told him (Commissioner Smith) that Vice Mayor Kreger desired affordable housing be included in the development, Mayor Lentz stated she was contacted by Mr. Gillette who asked if she had any questions about the project and noted they did not have an in-depth conversation, Commissioner Poynter stated Mr. Mock left him a phone message but he did not get back to him, Commissioner Miller stated both Mr. Mock and Mr. Gillette met with him (Commissioner Miller) who told the applicants he’d seen the property and supports the project. City Attorney Bach then administered the oath.

Community Development Department Senior Planner Kelly Gibson provided a presentation stating the proposed development meets the requirements of the Land Development Code. Staff recommends approval.

Mr. Nick Gillette, 20 South 4th Street, owner/developer, noted this is a 5.1 acre parcel of which

approximately two acres will be open space. Affordable housing is a product he and his partners are looking into providing.

Mr. Lynn Williams, 1899 South Fletcher Avenue, stated this is a good project. It is interesting however that every one of the City Commissioners was contacted by the developer to discuss the merits of this project which speaks to his comments from earlier this evening related to the political-ness that accompanies being a City Commissioner. Mr. Williams also noted the likelihood of this development having true affordable housing is remote. Vice Mayor Kreger stated he had discussions with the developer regarding delivering a product with real Housing Urban Development (HUD) price points. The quasi-judicial hearing was closed at this time. **A motion was made by Commissioner Poynter, seconded by Commissioner Miller to approve Ordinance 2017-25. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**
