Draft: Duplication of Recreation Services Assessment

Florida Statute 163.3177 (6)(e) "In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements: . . . (e) A recreation and open space element indicating a comprehensive system of **public and private sites for recreation**, including, but not limited to, natural reservations, parks and playgrounds, parkways, beaches and public access to beaches, open spaces, waterways, and other recreational facilities."

In the 2015 Master Plan the consultant noted that Fernandina Beach was duplicating services that were already offered in the community. An attempt was made by the Parks and Recreation Advisory Committee to determine if any of the City's recreational services were duplications. The following information was collected in the form of a spreadsheet and accompanying graphs.

About the graphs: The draft listings of recreational activities from various organizations and private entities in the community were included if they provided recreational services (located after the graph material). The graphs' bars depict an *estimated* number of "opportunities" for each recreational activity at various facilities, businesses, or organizations. The number of "opportunities" for each activity offered by the COFB is depicted in the "line" that crosses the bars.
