

**AGENDA
YOUTH ADVISORY COMMITTEE
REGULAR MEETING
MARCH 4, 2022
4:30 PM
CITY HALL COMMISSION CHAMBERS
204 ASH STREET
FERNANDINA BEACH, FL 32034**

- 1. CALL TO ORDER**
- 2. PLEDGE OF ALLEGIANCE**
- 3. ROLL CALL**
- 4. APPROVAL OF MINUTES**
 - 4.1 January 7, 2022.
 - 4.2 February 4, 2022.
- 5. PUBLIC COMMENT REGARDING ITEMS NOT ON THE AGENDA**
- 6. OLD BUSINESS**
 - 6.1 Block Party.
- 7. NEW BUSINESS**
 - 7.1 Parks and Recreation Survey
 - 7.2 Instagram Takeover Day.
- 8. COMMITTEE MEMBER REPORTS/COMMENTS**
- 9. NEXT MEETING DATE**
 - 9.1 April 1, 2022.
- 10. ADJOURNMENT**

All members of the public are invited to be present and be heard. Persons with disabilities requiring accommodations in order to participate in this program or activity should contact the City Clerk at (904) 310-3115 or TTY/TDD 711 (for the hearing or speech impaired). All interested parties may appear at said meeting and be heard as to the advisability of any action, which may be considered with respect to such matter. For information regarding this matter, please contact the Digital Communication Specialist: (904) 310-3289.

Youth Advisory Committee Regular Meeting

January 7th, 2022

Members Boston, Bryant, Johns, Rogers, Valentine, and Lasserre present

Member Lilly: resigned ☹️

-Member Bryant's slide for YAC presentation: YAC and Student Government; goes into further depth about what YAC is about etc.

-Member Valentine's slide for YAC presentation: Mental Health/ Hope Squad

-Member Rogers slide for YAC presentation: Diversity – should we focus primarily on local or national governments?

Member Lasserre and Member Johns will include their slide during the workshop on Jan. 28

Instagram takeover city Instagram page!

-Planning a date for a workshop. January 28 2022?

Next meeting: February 4, 2022

Absent: Ella Johns

Present: Olivia Rogers, Eliza Valentine, Maddox Bryant, Andrew Lasserre, Ty Boston

Item 6.1: Discussion with Former Mayor Arlene Filkoff

- History as a school teacher; feels strongly about students being involved in local government.
- Served on Parks and Rec Committee, Public Arts Committee, and as the Mayor of Fernandina Beach.
- Running for office is a lot more than just politics.
- Use your advantage of having the ear of the Commission.
- Decisions the Commission makes now impact your future.
- Important to have diversity represented on the committee.
- Mayor Filkoff happy to come and workshop with the group four priorities they would like to see accomplished during their term.
- Suggestion from the audience: speaking at Commission meetings

Item 7.1: Presentation to Fernandina Beach Middle School.

- Principal from FBMS suggested an informal Block Party rather than a formal assembly.
- Conversations will happen more organically.
- Principal recommended after school so parents can come: discussion on it making more sense to have it during school so more students will attend.
- Chair Boston will confirm date and time.
- Chair Boston creating business cards with contact information.
- Staff reminded group they have to be cognizant of Sunshine Laws.

Item 8.1: Central Park Playground Equipment

- Equipment purchased for Simmons Road playground was used to replace the big jungle gym at Central Park.
- Item on the February 8 Parks and Rec regular meeting.

Next Agenda:

- Effectiveness/Date interpretation of surveys.
- Block Party.
- Instagram Takeover Day.

A scenic view of a park. In the foreground, a paved path leads towards a gazebo. To the left of the path is a large palm tree and a bench. To the right is a wooden fence overlooking a body of water. The sky is blue with some clouds.

Introduction

The 2015 Parks and Recreation Master Plan addressed the Parks and Recreation and Open Space Element in six sections: (1) an overview of existing conditions, (2) the existing parks and recreation system, (3) a needs and priorities assessment, (4) the long-range Parks and Recreation vision, (5) implementation of the plan, (6) and the Comprehensive Plan goals, objectives and policies as they relate to the Recreation and Open Space Element. The following plan attempts to update these elements to further meet the recreation and open space needs of our community.

Executive Summary

Overview of Existing Conditions

Included in the following assessment and plan are more current statements of existing conditions in the City of Fernandina Beach as they relate to recreation and open space. Historical information in the 2015 Master Plan has been updated to include how the city's parkland was historically created and how its historic platting continues to impact the city's ability or inability to provide parkland for recreation in the future. Major industries were also updated to reflect current conditions, and how tourism and the growth

of Nassau County has affected the usage of recreational offerings within the community over the last five years. Population growth estimates changed, visitor and non-city populations impacting Parks and Recreation offerings were identified, the seasonal population was included as required by state statute. Surprising demographic, economic, and age profiles for Fernandina Beach from the recent 2020 U.S. Census have been included. All of these

elements will likely heavily impact the future services and offerings of the Parks and Recreation department in the next five to ten years.

The Existing Parks and Recreation System

An assessment of the city's parks and facilities was conducted by members of the Parks and Recreation Advisory Committee utilizing online forms which assessed parks and recreation facilities for the key elements of access, comfort, and ADA compliance, as suggested by the National Recreation and Parks Association. The assessment form also included questions concerning maintenance and safety. A photo inventory of park amenities and facilities was also created to document future changes in the city's parks and recreation system and provide documentation for insurance purposes. A current listing of the programs of the Parks and Recreation department has also been provided.

Existing Park Amenities Assessment

The following assessment is dedicated to the documentation of existing conditions of park amenities within the city limits of Fernandina Beach. It has been compiled utilizing recommendations from the National Recreation and Parks Association, the American Disabilities Act, and Florida statutes.

Park Name

Short answer text

Needs and Priorities Assessment

Utilizing the citizen survey questions of the 2015 Parks and Recreation Master Plan, and its additional focus questions, an updated online survey was conducted to encourage the community to participate in a needs and priority assessment. The committee received responses from 1,200 respondents in the community. 935 were verified to be city residents, 243 were non-resident respondents, and 22 had no

address for residency verification. Outreach included the use of websites, social media, video, business cards, utility bill inserts, signage, and readily available paper surveys.

Survey Summary of Responses

Of all of the city's parks, open spaces, and facilities residents visited the most, *in order of importance*, survey respondents relayed that they utilized the beaches (821), Egan's Creek Greenway (643), and the waterfront (610) the most for their recreation. When asked what they liked about their parks, *in order of importance*, they enjoyed their easy access to the city's parks and facilities with convenient, nearby locations (227). Almost as important to them was their ability to enjoy nature and enjoy the natural state of their parks (221). To a lesser extent, they enjoyed their parks' cleanliness, but thought they were well-maintained, and enjoyed the open space that allowed for walking or hiking. However, they emphatically disliked the trash and litter left behind by others (99), and some residents expressed a concern that it was becoming increasingly more difficult to park (60) at their chosen location of recreation. To some, restrooms that were in need of updating, closed, or were not clean were of concern (48). Some city pickleball players requested more prime court time (22), and some found that their access to pool facilities was limited by work schedules or competing aquatic classes. In general, residents seemed to be split on whether they would support additional taxes, fees, or a bond to fund future recreational improvements (yes:464), (no:405). 106 wanted no additional money spent and 35 wanted better money management. The largest capital improvement request was for safe bike and walking trails (45).

The Long-Range Parks and Recreation Vision

From the citizen survey, the city's 2020 U.S. Census demographic profile, a duplication of services assessment, and the need for the department to develop new revenue streams, certain themes emerged. (1) Citizens enjoyed easy access to the natural environment of the park system, the beaches, trails and nature, and waterfront. (2) The purchase of additional equipment, new buildings or facilities requires large amounts of capital investment with continued maintenance costs. (3) The structural facilities often compete with private entities offering the same recreation services.

To satisfy the expressed needs of the community, the department should be encouraged to pursue programs that further promote the enjoyment of nature and the outdoors (which are also less costly to construct and maintain). Further promotion of more outdoor sports and games by age demographic (adult and 65+) such as chess, checkers, and backgammon would encourage more social cohesion in a transient population. The provision of more aquatic and court space, solely for city residents, may be warranted if usage numbers reflect a need. In utilizing the city's newly acquired conservation lands, new opportunities for low cost, passive recreation may meet city residents continued demands for more trails and views of nature.

To fund future improvements, the public's desire for additional fees may be utilized along with moving toward a for-profit, digital, educational, historical or nature-based tour system of the city's parklands which targets the tourist population. Other for-profit streams of revenue could also substantially assist with budgetary shortfalls to maintain affordability for residents living at or below the Poverty Level. Offering

partial Impact fee funding to other agencies to construct future shared facilities may be advantageous in leveraging the future declining amount of Impact Fee funds produced from development.

Implementation of the Plan

Many of the strategies recommended in the Action Plan were focused on generating sustainable funding for the existing parks and recreation system and promoting efficiency. Strategies included gaining grant funding through the National Recreation and Parks Association. Strategies for monitoring the usage of visitors and non-resident populations were suggested to provide fee pricing platforms and evidence of need to the Amelia Island Conference Center & Visitors Bureau for future funding. Other topics included building social cohesion, meeting demographic needs, and ways in which the department could continue to support the City's environmental and resiliency efforts. Plan details can be found in Section 5: Implementation Plan.

Section 1: Overview of Existing Conditions

1.01 Updated Historical Changes and Outside Forces

History Affecting Recreation Planning:

The Old Town of Fernandina Beach, a historically significant site, was officially established and platted by the Spanish in 1811. Subsequently occupied and reoccupied by three Old-World European countries, its historical plat remains an integral part of Old Town's planning culture with recreation centered on a historically platted San Carlos Plaza and Bosque Bello Cemetery. In 1857, with the southward expansion of the city necessitated by the construction of a rail line to Cedar Key, the city's bustling waterfront and small residential lot sizes were drawn out by the Florida Railroad with little regard for recreational needs. Historic Fernandina Beach remains largely defined by its historic platting of 1811 and 1857. However, outside of the city's historically platted areas, it has adopted larger lot sizes for housing, included subdivisions, and has set aside areas for commercial and industrial development and recreation. However, with large sections of the city lacking platted recreation land due to historical platting from the 1800's, the city continues to face challenges in the future in meeting an accessibility standard of providing a park within ½ mile of every residence.

Changes in Open Space and Conservation Land:

In an attempt to save environmentally sensitive lands and the need to substantially decrease flood insurance rates, the city has made considerable progress in purchasing land and rezoning residential land to conservation. With almost all of the recreation zoned land in the city dedicated to active use, these lands offer opportunities for passive recreation in the future. Additional open space has also been created to promote resiliency with the enactment of ordinances requiring areas to be set aside for stormwater management. An increased pervious surface requirement for residential and commercial development has also created additional open space through the adoption of recent Land Development Code amendments.

Years 2019-2021 Conservation Land Acquired

Changes in Economic Development:

The 2015 Master Plan historically attributed the major economic development of the City of Fernandina Beach to the Port of Fernandina. Today, according to the Nassau County Economic Development Board (NCEDB), many industries in the city far surpass the employment numbers of the Port of Fernandina.

According to the Nassau County Economic Development Board, major employers on Amelia Island include WestRock, Rayonier Advanced Materials, Baptist Medical Center, senior living and care centers, the Omni Plantation, the Ritz Carlton, and various local, governmental agencies. The NCEDB is further attempting to diversify the area's economy in the future with higher paying jobs in the technology sector. (NCEDB: <https://www.nassauflorida.com/business-resources/major-employers/>)

Major Employers

Nassau County School District	1,596
Nassau County Government	435
Federal Aviation Administration	550
City of Fernandina Beach	212
Agriculture	
Rayonier	164

Changes in Tourism and Expendable Income:

Despite all of the city's major economic drivers, tourism and rising household income levels in the city have likely been the most instrumental in changing the nature and number of recreational opportunities privately offered within the City of Fernandina Beach in the past five years. Paddle boarding, fishing charters, kayaking adventures, multiple types of yoga classes, fitness classes, surfing lessons, and tours are among a few of the offerings to have arrived with the rise of tourism and more expendable income (Appendix A).

Amelia Island Growth in Tourism

Year	2000	2013	2015	2017	2019
Staying in paid accommodations	359,121	519,400	618,200	666,300	688,700
Total Visitors to Amelia Island	755,400	1,092,500	1,297,900	1,402,900	1,458,100

Growth in City Household Income

	2010	2015	2019	April 1, 2020 Census
Median Household Income	45,954	52,448	63,942	63,942
(2019 Dollars)	49,568	56,573	63,942	63,942
Mean Household Income	69,100	71,415	94,644	
(2019 Dollars)	74,534	77,031	94,644	

Source: Census.gov, American Community Survey, and Census.gov, 2020 Census

With the recent construction and expansion of the Nassau Council on Aging on Island Walk Drive, more recreational options have also been given to the city's older, less active population. Nassau County's investment in this facility negated a city need for the construction of a Senior Center as proposed in the 2015 Parks and Recreation Master Plan.

The 2015 plan also advocated greater visitation to Main Beach Park with an Avenue of Flags. This need was met by tourism and expendable income with the addition of a larger hotel and an additional popular eatery. The scarcity of parking at this site provides further evidence of its increased usage and popularity.

Changes in revenue:

Another historic change to note concerning revenue sources dedicated to recreation is the community's desire to increase funding for Parks and Recreation amenities. The 2015 Parks and Recreation Master Plan recommended an increase in the city's Parks and Recreation Impact Fee. In January of 2019 the City Commission of Fernandina Beach followed the 2015 recommendation. The Commission increased the city Parks and Recreation Impact Fees by 58%, allowing growth to further absorb the cost of new recreational amenities (Appendix B).

Changes in population estimates and growth projections:

In 2015, the Master Plan's residential population projections for Fernandina Beach were obtained from the University of Florida's Bureau of Economic and Business Research (BEBR). The city's anticipated population was estimated to be 13,337 in 2020. The recent April 1, 2020 U. S. Census Bureau reports the population of Fernandina Beach as 13,052, adding 1,565 people to its population since its last census count of 11,487 in 2010. The University of Florida (BEBR) anticipates the city's largest amount of future permanent population growth to occur between 2020 and 2030.

February 4, 2020 City of Fernandina Beach Small Area Population Estimates and Projections

Year	2018	2020	2025	2030	2040	2045
Population Estimates	12,761	13,523	14,357	15,480	15,658	15,816
Estimated Population						
Added Per Year		752	834	1,123	178	158

Source: University of Florida Bureau of Economic and Business Research

Changes in Seasonal Population Estimates and Projections:

Florida Statute 163.3177 (1) Required and optional elements of comprehensive plan; studies and surveys

"3. The comprehensive plan shall be based upon permanent and seasonal population estimates and projections, which shall either be those published by the Office of Economic and Demographic Research or generated by the local government based upon a professionally acceptable methodology . . ."

Florida Statute 163.3164 (42) defines the term “seasonal population”. “Seasonal population” means part-time inhabitants who use, or may be expected to use, public facilities or services, but are not residents and **includes tourists, migrant farmworkers, and other short-term and long-term visitors.**

The city’s previous 2015 Parks and Recreation Master Plan’s seasonal population numbers were obtained from a Nassau County Growth Management Department affordable housing study. For the purpose of planning for recreation and open space for seasonal populations, the updated, extensive volume of tourism data collected by the Amelia Island Conference Center and Visitors Bureau (AICCVB) was utilized (Appendix C).

The Amelia Island Conference Center and Visitors Bureau estimates that the seasonal population almost doubles the city’s population, between 8,951 and 10,506 nightly visitors, during the city’s summer season. Estimates of future growth of the industry on Amelia Island and in the City of Fernandina Beach are dependent upon many factors. However, due to the island’s finite land mass, making future predictions of the city’s seasonal lodging population will likely become easier to predict in the near future.

Historical Growth Trend of Amelia Island Tourism

Year	Number of Visitors	Percent Change
FY 2011	432,100	-
FY 2012	459,600	+6.4
FY 2013	504,300	+9.7
FY 2014	566,600	+12.4
FY 2015	608,700	+7.4
FY 2016	639,400	+5.0
FY 2017	652,100	+2.0
FY 2018	684,800	+5.0
FY 2019	692,100	+1.1
FY 2020	566,300	-18.2
YFYTD 2021 (Sep.-Aug.)	608,800	+7.5

“From FY 2011 to FY 2019, commercial lodging visitation to the destination (Amelia Island) grew by +60.2% or an average of +7.5% per year.” Source: Research Data Services, Inc., Tampa, FL

Changes in Park and Facility Usage:

The Amelia Island Conference Center and Visitors Bureau (AICCVB) also identifies population sectors which may tend to utilize parks and recreation facilities beyond hotel visitations. Verified through the services of Research Data Services, **an estimated 1.3 million daytrips to Amelia Island were also recorded over the past 12 months (July 2020 to July 2021).** Of this day-time, non-resident population, one segment frequently utilizes the city’s recreation services. Non-residents from the nearby unincorporated portions of Nassau County who lack recreation services and facilities find city recreation services amenable (historical usage data, Appendix D).

Unless the unincorporated areas of Nassau County construct their own recreation facilities and services, pressure from the unincorporated sections of Nassau County to utilize the city’s recreation lands and services will likely increase as the population of Nassau County continues to grow. *At the projected rapid growth rate of 6,000 to 9,000 residents every 5 years, at a minimum, Nassau County will add a population the size of Fernandina Beach to its population every 10 years.* See the table below.

Increases in Nassau County Population Growth Projections

	2020 Census	2025	2030	2035	2040	2045
Nassau County	90,352	99,151	107,454	114,621	121,087	126,888
Population Increase		8,799	8,303	7,167	6,466	5,801
% Increase		9.74%	8.37%	6.67%	5.64%	4.79%

Source: State of Florida Office of Economic and Demographic Research

Comparison of Growth Trends

Though the City of Fernandina Beach maintains free public access to its parklands and maintains minimal fees for facility usage, it is important to note, **in general, the city's nearby, growing population of non-city residents are financially equipped to pay for city and county recreational amenities.** *The 2020 Census data maintains that half of the population of Nassau County has a household income of more than \$69,943 per year with 9% of its population living at the Poverty Level. In contrast, half of the households of Fernandina Beach subsist on less than \$63,942 per year per household with 12.5% living at the Poverty Level.* Despite a larger number of non-city households possessing higher median household incomes, nearby unincorporated Nassau County residents continue to utilize the recreation facilities and services of Fernandina Beach rather than fund their own services.

Comparison of Median Household Incomes

	2010	2015	2019
Nassau County	\$60,729	\$54,116	\$69,943
City of Fernandina Beach	\$45,954	\$52,448	\$63,942

Source: Census.gov, reported in 2019 Dollars

"The median household income divides the income distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median." Source: Census.gov

Changes in the Population Rate of Turnover:

Recent demographic information from the most recent 2020 U. S. Census suggests that the City of Fernandina Beach has experienced a significant turnover in population between 2015 and 2020. Due to the nature of the city's burgeoning, transient, seasonal population, and the recent findings of the growth of a significant population over the age of 65, **community cohesion will likely become more difficult to maintain.** Residential properties will likely continue to turn over due to the age of the population or due to the demand for seasonal use. Over the last four years, a fairly consistent estimated average number of listings and sales has occurred at the rate of 1,049 homes per year (Appendix E). The 2020 U.S. Census counts 5,631 total households in the City of Fernandina Beach.

Estimate of Yearly Home Sales Trend

Estimated Home Sales Per Year	Year 2017	Year 2018	Year 2019	Year 2020
Total Zip Code 32034	1,596	1,824	2,228	1,968
City of Fernandina Beach	880	1,005	1,228	1,085

Parks and Recreation's role in encouraging social cohesion has been assistive in the past, however it will likely become **more critical in the future** if the city is to maintain a core sense of community, or the "small town feel", for which it is noted.

1.02 Demographics

Much has changed in the city's demographic profile since the adoption of the 2015 Parks and Recreation Master Plan. Fernandina's population segments which changed significantly are the age groups of 65 and older and the size of the city's African American population. **From 2010 to 2020, the City's 65+ age group grew 72%.** Over ten years it grew from 20% of the population to 34.4%. (This age group's participation in the 2021 Parks and Recreation Citizen Survey was 40% of the survey's total respondents.) However, over the last ten years a **34% decline has occurred in the city's African American population.** And despite the continued increases in the city's Median Household Income, **12.5% of the City's residents are presently reported as living below the Poverty Level.**

Demographic Profile of the City of Fernandina Beach

	Year 2000 *	Year 2010 *	Year 2019-2020
Social Characteristics			
Average Household Size, persons	2.28	2.3	2.14
Median Age (years)	43	43.1	56.9

(<http://censusviewer.com/city/FL/Fernandina%20Beach>)

A Dramatic Shift

Due to a dramatic shift in the demographic profile of the city's residents toward an older population, **the department will likely need to reevaluate its future recreational services and programming to meet the needs of an aging population.** Finding recreational programming to promote social cohesion within this older community, due to an anticipated regular turnover of housing due to age and seasonal population changes, will likely require more outreach to neighborhoods, community organizations, and church groups.

It is important to note that the total population of Fernandina Beach only grew by 1,156 residents from 2010 to 2020. However, between 2010 and 2020, the population of individuals 65 and older grew disproportionately by 2,193 residents. The population of 65 and older was 2,297 in Year 2020. The 2020 Census now records 4,490 residents age 65 and older residing in the City of Fernandina Beach. More collaboration with the Council on Aging will likely need to occur in offering future services and programs for this newly arrived, growing segment of the city's population.

2020 U.S. Census: Demographics by Age

Age Group	Number	%
Under 5 years old	444	3.4
5 years to 18 years	1,096	8.4
18 to 65 years	7,022	53.8
65 years and over	4,490	34.4

U. S. Census Data: From Year 2010 to 2020 the city's total resident population grew by 1,156 residents, yet the population of age 65 and older grew by 2,193 people.

Another Significant Shift in Demographics

Year 2020 census data confirms a significant loss of the city's African American population. **A 15.9% population in Year 2010 diminished to 10.5% of the city's total population.** With a significant loss within the African American community, an attempt was made to locate data on the age profiles within this community. No data could be reasonably found or compiled on age profiles within the city limits. Without this data, recreational programming to meet **the needs of the community in the future will likely need to include a more systematic, informal outreach on the part of the department to promote inclusion.**

African American Decline in Population

Year	Total City Population	African American Community	Gain or Loss
2000	10,549	1,709*	-
2010	11,487	1,826*	117
2020	13,052	1,370	-456

*2015 Parks and Recreation Master Plan

Sources: 2020 U. S Census, Census.gov, DATA USA (<https://datausa.io/profile/geo/fernandina-beach-fl/>)

Comparison of Population Segments

The consistent decline in households with young and school-age children should also be noted. Future active recreation resources and programming supplied to residents below the age of 18 may require a more targeted approach to ensure that funding is allocated efficiently to solely meet the needs of a small and declining population of youth.

The City may also find it more cost-effective to further urge Nassau County's Parks and Recreation department to prioritize the needs of this population in the very near future. Tourism may also play a role in continuing to require an investment in the seasonal population of youth.

Percentages of Young and School Age Children

Section 2: Existing Parks and Recreation System

2.01 Existing Parkland: Level of Service

Over the years the amount of parkland allocated to residents of states, counties, and municipalities has traditionally been viewed as a measure of quality of life for its citizens. The higher the number of acres of parkland, the higher the quality of life. Parkland has also become highly valued in municipalities in providing a sanctuary from traffic congestion, asphalt, and concrete. Research has shown that parkland lowers temperature levels which prevent heat islands. Not only do parks provide space for outdoor activity and exercise, they have also been shown to reduce crime and raise property values.

Presently the 2015 Parks and Recreation Master Plan utilizes a minimum standard of 12 acres of parkland per 1,000 residents. No minimum standards have been recommended by the National Recreation and Parks Association (NRPA). The NRPA allows communities to determine their desired quality of life with the amount of parkland they wish to offer their residents. **Utilized as a quality-of-life indicator, Fernandina Beach is well placed with an estimated 26.73 acres per 1,000 residents (seasonal population included) (Appendix F).**

The 2021 National Recreation and Parks Association Averages of Parkland Per 1,000 Residents

Source: <https://www.nrpa.org/publications-research/research-papers/agency-performance-review/>

To offer some perspective on the variation between municipalities: New York City offers 2.83 acres per 1,000 residents (2015), Jacksonville, Florida offers 75.3 acres per 1,000 residents (2020), New Orleans offers 71.1 acres per 1,000 residents (2020), Miami Beach requires 4 acres per 1,000 residents (2017 Master Plan).

2.03 Existing Parks and Facilities Assessment

Online Evaluation Form & Photo Inventory

The Parks and Recreation Advisory Committee (PRAC) members evaluated the department's existing parks and facilities utilizing online forms. Since the department lacked a detailed listing, or inventory of each park's amenities, members also collected an online photo inventory to record existing amenities. The inventory was also utilized to create the first two pages of each park's assessment to further educate the public on the extensive offerings of the City's Parks and Recreation system (Appendix G).

Existing Park Amenities Assessment

The following assessment is dedicated to the documentation of existing conditions of park amenities within the city limits of Fernandina Beach. It has been compiled utilizing recommendations from the National Recreation and Parks Association, the American Disabilities Act, and Florida statutes.

Park Name *

Short answer text

Contributor Name *

Short answer text

Date of Assessment *

Month, day, year

Parks Photo Inventory/Assessment

This form is to provide photographic documentation of existing equipment, buildings, sports fields and other physical amenities located at a SINGLE park within the city limits of Fernandina Beach, Florida. Contributors are encouraged to provide comments concerning the condition of each amenity, or if the amenity is in need of service. You may add up to 3 photos of the same amenity in each numbered slot. Example: '01 Photo of Feature' may have 3 photos added in the space to show the same amenity from different angles. If you need to enter more than 21 features, submit another form with the same park's name.

Park Name *

Short answer text

Contributor Name *

Short answer text

Date of Visit *

Month, day, year

Each Park and Facility Assessment contained 3 pages:

Page 1 was created as a “quick snapshot” for users and readers which can be utilized to generate interest in visiting the city's parks and recreation facilities. It contains a photo collage and a quick list of amenities for each park/facility. It also serves as a historical inventory of the park's features. Photos not placed in the collage were archived for future reference in a pictorial inventory of the park facility.

Page 3 of each park's assessment was designed to assist staff and the committee members with the task of assessing the level of comfort, access, and ADA compliance as recommended by the National Recreation and Parks Association. Assessment questions also verified the existence of amenities, maintenance assessments of specific park elements, and assessed possible safety issues. The online comment space offered members an opportunity to identify specific items of concern or possibilities for future uses (Appendix G).

Page 2 gives a more detailed summary of each park that describes its present uses, what a visitor may anticipate when visiting, or the availability of the services offered at the park or facility. A map location was also included for easier access.

2021 PRAC Assessment and Action Plan

Egan's Creek Greenway North
Assessment Form Information

Access and Comfort		
AC	ESTIMATE of available parking spaces for all visitors	20 spaces plus roadside on Jasmine
AC	Bicycle Racks Exist	Yes
AC	Water present? Check all that apply.	Fountain exists
AC	Availability of seating? Check all that apply.	Benches, Picnic tables
AC	Existence of Lighting? Check all that apply.	No courts/fields
AC	Is shade available? Check all that apply.	Acceptable tree cover
ADA Compliance		
ADA	Number of handicap parking spaces	4
ADA	Number of handicap ramps	0
ADA	Is a handicap accessible stall present?	Yes
ADA	Handicap access to playground equipment	No playground equipment exists
ADA	Is handicap seating designated at sports fields?	N/A
ADA	Is handicap seating designated at each sports court?	N/A
Maintenance		
M	What is the condition of the park's sign?	Good
M	Condition of handicap parking space signage	Good
M	Condition of Restrooms	Good
M	Condition of Sports Fields	No sports fields
M	Condition of Multipurpose Courts	N/A
M	Condition of Tennis Courts	N/A
M	Condition of Pickleball Courts	No pickleball courts
M	Condition of Soccer Fields	No soccer fields
M	Condition of the Skate Park features	No skate park

Z	Additional Comments	

Summary of Findings of the Parks and Facilities Assessment

Access and Comfort Levels

The National Recreation and Parks Association evaluates parks and facilities on their accessibility, level of comfort, and ADA compliance. In these areas of the assessment, the City's level of achievement was evaluated to be high too good for access and comfort. Few needs in this area were expressed by members of the Parks and Recreation Advisory Committee. Greater comfort would likely be improved with a few additional water fountains for sports courts and fields. Some notations expressed a desire for water bottle fillers. Sidewalks and bicycle racks were widely available in developed parklands. Few parklands were noted by committee members as needing more shade. Good access was also supported by the responses of citizens in the Citizen Survey.

ADA Compliance

The City has continued to strive to provide greater access for the disabled in providing paved ADA parking spaces and ramps within all paved parking areas at parks and facilities throughout the city. Complete ADA compliance is not required for all parks if a similar amenity is offered at another park. Despite this allowance, the city has continued to make progress in upgrading its facilities to supply ADA access. Greater sidewalk access within developed parklands, benches with transfer pad areas, and many picnic tables are now geared toward disabled access. However, natural parks without paved parking face challenges in providing ADA parking.

The department does strive to supply other devices to promote accessibility in these natural park areas. Mobi-mats and beach wheelchairs are offered, and a golf cart is available to access areas such as Egan's Creek Greenway.

Maintenance and Safety

In the areas of maintenance and safety, some notations were made by members for improvements with either the condition of a park's amenities, or items that may be in need of replacement. Any safety items were immediately referred to the department for repair or replacement.

Overall, the members of the committee reported the condition of the City's parks and facilities to be in good condition. Most citizens also confirmed this assessment in giving the City's parks and recreation facilities a good to excellent rating for maintenance.

It is to be noted that some of the items reported as concerns in the online assessment reports, on the third page of each park facility, have already been resolved. However, other concerns, such as further ADA access, worn amenities requiring expensive upgrades may be expressed elsewhere as goals or objectives in the Action Plan located in the Implementation Section or in the Recommended Comprehensive Plan: Goals, Objectives, and Policies Section.

Section 3: Needs and Priorities Assessment

3.01 Duplication of Services Assessment

In a review of the 2015 Parks and Recreation Master Plan, the Parks and Recreation Advisory Committee (PRAC) noted a statement by the consultant concerning the department's possible duplication of recreational services in competition with private entities and other agencies in the community. Noting this concern, and the need to comply with Florida statutes, PRAC also collected recreational activity information from other nonprofit and private sector providers in our community (Appendix A). The following information attempted to evaluate overlapping recreational opportunities offered by the city's Parks and Recreation department, private entities, and the nonprofits located within the city limits and its environs.

Florida Statute 163.3177 (6) (e)

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan **shall include** the following elements:

(e) A recreation and open space element indicating **a comprehensive system of public and private sites for recreation**, including, but not limited to, natural reservations, parks and playgrounds, parkways, beaches and public access to beaches, open spaces, waterways, and other recreational facilities.

Evaluation of Community-wide Recreation Services

The vertical bars in the graphs below depict the estimated number of recreational opportunities offered by all providers for various recreational activities "indicating a comprehensive system of public and private sites for recreation". The recreational opportunities offered by the COFB Parks and Recreation Department are depicted by the blue bar. The Nassau County School system was removed from this evaluation. Members of the committee felt that the school system did not offer recreational activities to the public.

Chart 1

Chart 2

Duplication of Service: Summary of Findings

Lengthy committee discussions provided the following conclusions concerning how to ascertain the unnecessary duplication of a recreational service within the community:

- If department offerings were financially worthwhile to fund an activity's costs, the city should consider keeping the offering despite the duplication of a recreation service offered in the private sector.
- The committee did not have enough data to assess the direct or indirect costs of each city offering to assess a recreational activity's financial viability.
- The committee recommended that the Action Plan request the necessary adequate usage and cost data to evaluate the department's recreational offerings and to further assess any duplication of recreational services that may be occurring in conflict with private entities or other agencies.
- Offerings by the Nassau Council on Aging negates the 2015 Master Plan's recommendation of repurposing the City's Dr. Martin Luther King, Jr Center to create a Senior Center.

See Appendix A for information about each provider and associated recreational offerings.

3.02 Public Outreach

Due to the Covid-19 pandemic, an online or written survey became a critical tool in attempting to assess the recreational needs and priorities of the residents of Fernandina Beach. **The previous 2015 Parks and Recreation survey had produced responses from 624 people, 424 were city residents.** Due to Covid concerns, extraordinary efforts would need to be made to gain survey input from the public since public meetings would likely be limited.

Goal Setting

The Parks and Recreation Advisory Committee set a goal for citizen participation of **29% of the City's households**. Based on the most recent U.S. Census population data (5/17/2021), the City of **Fernandina Beach contained 5,631 households**. With two person households as a general norm in Fernandina, a possible outreach to **1,633 households or 3,266 people could be anticipated**.

Source: <https://surveyanyplace.com/blog/average-survey-response-rate/>

Outreach Devices

To assist in meeting the goal of receiving 1,633 household responses, for two and half months the Parks and Recreation Advisory Committee and City staff utilized several approaches to reach City residents. A link to the online survey was placed on the City's and the Parks and Recreation websites. The link was shared liberally on social media and placed on Parks and Recreation signage. A paper survey was mailed in utility bills (with various links) and copies were placed at Parks and Recreation facilities.

Take the
Parks & Recreation
Survey!

Scan the Code

Or go to
shorturl.at/SDHUW

To further share the link, a QR code and business cards were utilized. A promotional video was shared online.

Outreach Results

After two and a half months, **the outreach produced responses from 1,200 households**. After separating the resident and non-resident responses, **935 City household responses** were able to be utilized for assessing the recreational needs and priorities of City residents.

A participation level of **2,001 City residents** (people) could be estimated when utilizing the City's 2020 Census average of 2.14 residents per household. **243 non-resident households completed the survey** (an estimated 520 people), and 22 households were not able to be identified as resident or non-resident.

3.03 Citizen Survey

To compile the Citizen Survey questions, the committee opted to utilize the questions from the previous 2015 Parks and Recreation Master Plan. In utilizing the same relevant questions, a consistent approach was provided in requesting input from the public. An additional question concerning the cemetery was added to the survey in anticipation of an update to the Bosque Bello Master Plan. The 2021 Citizen Survey questions can be found in Appendix H.

3.04 Citizen Survey Results

Background

All Citizen Survey responses (electronic or paper) were entered into an online Google Form. Despite achieving some uniformity for data collection with online entries, a few open-ended questions in the survey produced many divergent responses on some subjects. All attempts were made to include all responses. However, due to the use of open-ended questions which produced widely divergent responses, responses to open-ended questions were reported in major categories of trends or priorities.

In reporting the results of the survey, a standardized approach was utilized. Each section, at minimum, is depicted with a table displaying the numerical household count to the various responses given to a question, and a corresponding graphic is displayed. **Please note that ALL COUNTS are by HOUSEHOLD.** The response count can be estimated to be higher in utilizing a 2-person household count method. The 2020 U.S. Census reports an average of 2.14 City residents per household.

Questions and Responses to the 2021 Parks and Recreation Citizen Survey

Question 1: Number of people in your household?

Household Size	Count
1	137
2	548
3	97
4	69
5	35
6	9
7	0
8	1
15	1

Sixty-one (61%) of residents reported living in 2 person households.

Question 2: Age range of household members? (Select all that apply.)

Age Profile	Count
0-10	81
10-18	82
18-30	76
30-65	502
65 and above	492

The City's 2020 U.S. Census data was confirmed with a rise in the number of age 65 and above respondents.

And due to the survey's overlap in age group classifications, it should be noted that additional age 65 members in the 30-65 age class could be added to the 65+ age range.

**Question 3: Which City parks, open spaces, or recreation facilities do you visit most often? (Select all that apply.)**

Park Name	Count
Beach Access	793
Egans Creek Greenway	624
Waterfront	591
Main Beach Park	526
Central Park	419
Atlantic Avenue Park	376
Egans Creek Park	362
Bosque Bello	140
Train Depot	132
FB Sports Complex	115
Simmons Park	115
Sunrise Park	101
Pocket Parks	100
MLK Park	79
Peck Gym/Field	75
Lighthouse Park	50
Hickory Street Park	43

Almost 85% of the respondents reported visiting the beaches.

Over half frequented the Greenway, the Waterfront, and Main Beach Park.

It may be important to note that the top two parks frequented the most by residents are open space areas. And the parks that have traditionally received the least amount of past city funding and maintenance are in the top three of the City's most visited parklands.

Question 4: What do you like most about the parks you visit?

As an open-ended question, this question elicited numerous, divergent responses. For the sake of collecting meaningful trends, some responses were categorized. *Ease of Access* contained responses such as convenient, I can walk or ride my bike there, they are near my house, or are close by. *Nature or Natural* contained responses such as their parks were natural, they enjoyed nature, or enjoyed viewing nature. No prompts or specific selections were offered in the survey.

Characteristic	Count
Ease of Access	227
Nature, Natural	221
Clean	155
Well Maintained	83
Open space	61
Walking, Hiking	57
Beautiful/Beauty	51
Beach	48
Pickleball	39
Water, Ocean, River	35
Variety of Parks	30
Quiet	28
Safe	28
Not Crowded	27
Various Equipment	26
Playgrounds	25
Restrooms	24
Available Parking	24
Trails/Paths	23
Pool Activities	20
Views	19
Shade	18
Free	18
Biking & Bike Amenities	15
Skate Park	14
Picnic Areas	12
Benches	11
Tennis	10

Question 5: How would you rate the level of maintenance of the City's parks, recreation facilities, and open spaces?

Rating	Count
Excellent	237
Good	461
Acceptable/Fair	181
Poor	13

Question 6: What do you dislike about the parks you visit, and/or any other parks in the City?

The Parks and Recreation Advisory Committee specifically requested the wording of this question. Generally viewed as a negative question, members felt strongly that they wanted honest responses and genuine reactions to what residents did not appreciate about their parks. Again, as an open question, it elicited various responses. However, some basic trends did emerge. Responses less than 10 were not reported. No suggestions for responses were provided by the survey. Many left no answer to the question.

Disliked Item	Count
Trash in Parks	99
Difficulty Parking	60
Restrooms (need update, dirty, closed)	48
Lack of Regular Maintenance	32
Non-Resident Usage	27
Lack of Shade	23
Too crowded	22
Lack of Pickleball Courts	22
Lack of Bicycle Amenities	17
Need More Tennis Courts	15
Poor Signage	11
Lack of Trails/Paths	11

Question 7: What types of parks and recreation facilities and open spaces are most important to you? Rank them 1-5, with 5 being the most important.

Respondents were given a limited choice of 10 categories which presently exist within the City's recreational offerings. They were asked to rank them by level of importance to them. **Overwhelmingly Beach/beach accesses (617), Trails and bikeways (459), and Maintained green/open spaces (455) dominated the "5" ranking of "most important" to City residents.**

Most Important 5, to Least Important 1	1	2	3	4	5
Athletic fields	195	102	168	112	119
Beach/beach accesses	52	16	54	130	617
Boat/kayak ramps	117	82	172	172	188
Fishing piers	170	103	155	118	167
Maintained green/open spaces	39	48	113	165	455
Multipurpose recreation centers	72	86	199	195	185
Playgrounds	146	87	190	130	176
Sports courts	123	89	168	166	196
Swimming pools and aquatic programs	111	74	160	165	243
Trails and bikeways	51	33	99	199	459

Most Important: 5 Ranking	Count
Beach/beach accesses	617
Trails and bikeways	459
Maintained green/open spaces	455
Swimming pools and aquatic programs	243
Sports courts	196
Boat/kayak ramps	188
Multipurpose recreation centers	185
Playgrounds	176
Fishing piers	167
Athletic fields	119

Question 8: Do you or your family participate in any of the City's recreation programs/activities? Please list:

Without a list of programs **solely managed** by the Parks and Recreation department, some programs listed by respondents were not City programs. Only responses that were solely managed by the City of Fernandina Beach were reported in the information below. Any household responses that were mistakenly made as City programs, but were actually private vendors, were appropriately reported separately below. A total of 151 residents' household responses were able to be reported as utilizing City programs.

The usage of the City's pools, aquatic fitness classes, and swim lessons produced the largest amount of usage of activities and programs solely managed by the department.

City Sponsored: 3rd Party Vendors Programming

Other recreational programs sponsored by the City of Fernandina Beach are offered by private groups, instructors, leagues, individuals, or private entities. *The programming offered by 3rd party vendors constituted 65% of residents' usage of recreational programming.* A total of 280 City households reported utilizing the services of these sponsored groups.

(The Lighthouse Tours are offered by the Coast Guard Auxiliary.)

City Sponsored: Third Party Vendors	Count
Fernandina Beach Picklball Pirates	93
Tennis	71
Amelia Island Youth Soccer Club	31
Amelia Island Boules Club (Petanque)	26
Fernandina Beach Babe Ruth League	11
Fernandina Beach Football Association	11

Florida Trail Hikes	1
North Florida Bike Club	1
Pilates of Amelia	1
RAD	1

Question 10: What do you like most about the City programs/activities in which you participate?

No prompts for responses were offered in the survey question. Residents' responses to the open-ended question mostly indicated that city residents enjoyed having their recreational programming nearby, or it was convenient, and they also appreciated their access to free or affordable programs and activities.

Characteristic	Count
Proximity, Flexible & Convenient	101
Affordable or Free	73
Social (People) Opportunities	47

Not Crowded	8
Inclusive	5
Special Events (Music, Christmas, etc.)	5
Educational	4
Family Oriented	4
Quiet	2

Question 11: What improvements or new programs should be added to the City Parks and Recreation Department?

This question elicited the most diverse responses from any of the questions in the survey. As an open-ended question, **no group of more than 5% of the citizenry requested an agreed upon, single improvement to add to the department.** Though most requests focused on some type of capital improvement (construction and/or replacement), **none emerged as a community-wide request.** A significant number requested continued improvement in the maintenance of the existing parks and facilities, another offered management suggestions such as not adding anything more to the department. Due to the openness of the question, there were many singular responses.

Due to the widely divergent nature of the responses, the **largest types of requests** were depicted in the pie graph below. Data located below the pie graph focused on the top requests for Capital Improvements, New Programs, Age-Related Programming, and Management Suggestions. For a complete, detailed listing of all responses, see Appendix I.

Type of Improvement	Count
Capital Improvements	276
New Programs	95
Improved Maintenance	78
Management Suggestions	67
Age-Related Programming	48
Extended Hours/Services	36

Senior Trips	6
Senior Fitness Classes	5
Top Management Suggestion	
We Have Enough, No More	37
Charge Non-Residents	8

Question 12: How do you find out about the parks and recreation facilities and programs offered by the City?

The largest number of residents discovered the department's facilities and programs by reading the News Leader newspaper (201) and utilizing a "word of mouth" method (171). Both methods were closely followed by the use of online services such as the Parks and Recreation website (128), Facebook (101), and other social media platforms (111).

Off-Line Sources	Count
NewsLeader	201
Word of Mouth	171

Question 14: How could the City improve opportunities for residents of all ages, genders, and abilities to participate in parks and recreation programs and facilities?

Of all of the questions in the survey, this question evoked the least number of responses. Though limited and diverse in nature, most responses focused on finding ways to better communicate the department's offerings to residents. Some specifically focused on more advertising through social media and the newspaper. They also seemed to focus on a need to further meet the needs of specific age groups' needs. Some recommended that the department increase ADA access. Increased mobility and access, such as more walking paths and bike paths, safe bike lanes, adding public transportation, and the inclusion of ramps on beach walkovers were suggested. To further the awareness of offerings, respondents suggested that the department offer Open Houses, a First Month Free program, send newsletters, improve the website and add a calendar of times and activities such as what is available on the YMCA's website. Some thought that a more collaborative approach could be achieved by reaching out to churches, giving out flyers at schools, approaching colleges to have students teach fitness classes, and talking to the YMCA.

Suggested Strategies	Count
More Communication	33
Advertise	31
Pay Attention to Demographics	22
Improve Mobility Access	20
ADA Improvements	13
Keep Affordable for Residents	12
More Parking	9
Extend Hours	8

Section 4: Long Range Parks and Recreation Vision

4.01 Parks and Recreation Vision

*Florida Statute 163.3177 (1) The comprehensive plan shall provide the principles, guidelines, standards, and strategies for **the orderly and balanced future economic, social, physical, environmental, and fiscal development** of the area that reflects community commitments to implement the plan and its elements.*

The following sources of information were utilized to compile the Parks and Recreation department's Vision for 2030:

1. Citizen Survey responses.
2. Data from the City's changing demographic and socioeconomic profile.
3. The presently available resources of the Parks and Recreation department's parklands and facilities.
4. Present fiscal restraints of declining Impact Fee funding.
5. The growing seasonal population and increases in tourism populations.
6. The growth of privately offered opportunities for recreation.
7. The population growth rate of neighboring Nassau County.
8. Present fiscal budgetary restraints which require the development of new revenue streams to construct, replace, and enhance the maintenance of, the City's parks and facilities.

Long Range Parks and Recreation Vision Statement

The Parks and Recreation department of Fernandina Beach will continue to strive to provide convenient access to all recreation services and facilities for all races, disabilities, and socio-economic and demographic segments of the city's population. Age-appropriate programming for newly-arrived demographic groups will further encourage social cohesion to enhance and maintain the City's sense of community. Passive utilization and maintenance of the city's open spaces, conservation lands, and greenways will further meet citizens' desires to be immersed in nature, provide additional bike paths and trails, increase opportunities for greater access, and further promote resiliency in protecting undeveloped lands. Additional revenue sources derived from seasonal populations, tourism, state and local governments, and sponsorships by private businesses will provide additional funding to further promote the fiscal security required for the continued maintenance of the City's recreational programming, and first-class parklands and facilities.

Section 5: Implementation Plan

Two guidelines were utilized to construct the Implementation Plan or Action Plan.

1. **Page 66 of the 2015 Master Plan** suggested that the Parks and Recreation Advisory Committee prioritize proposed improvements to the Parks and Recreation programs and facilities. These prioritized improvements should be derived from a list of criteria which may include:
 - a. The top priority needs of city residents.
 - b. Projects that generate economic, social, and environmental benefit for the City.
 - c. Projects that will encourage or strengthen partnerships with other public/private agencies.
 - d. The utilization of leveraged public funds.
 - e. Projects that create high quality, long-lasting facilities that represent the City's values.
 - f. Programs and facilities that will help the City achieve its ultimate parks and recreation vision.
2. **Florida Statute 263.3177 (1)** The comprehensive plan shall provide the principals, guidelines, standards and strategies for the orderly and balanced **future economic, social, physical, environmental, and fiscal development** of the area that reflects community commitments to implement the plan and its elements. These principles and strategies shall guide future decisions in a consistent manner and shall contain programs and activities to ensure comprehensive plans are implemented.

5.01 Action Plan

* Note: All Comprehensive Plan references for Goals, Objectives, or Policies noted below are related to the Recreation and Open Space Element of the City's Comprehensive Plan.

1. To ensure that Parks and Recreation programs and facilities assist with the City's **future economic development** and **fiscal development**:

The Parks and Recreation Advisory Committee

- a. prior to August 1, 2022, will develop a written criteria of an approval process for all new Parks and Recreation programs and facilities as suggested in the 2015 Master Plan.
- b. will request a proportional share of funding based on usage or need of residents and non-residents from the Nassau County Parks and Recreation department, other agencies or private entities prior to the approval of the construction or replacement of new or existing recreation facilities in the City of Fernandina Beach. (Comprehensive Plan Objective 6.11, Policy 6.02.04, Policy 6.06.8)
- c. shall request an annual report in the month of February of the previous year's seasonal population numbers from the Amelia Island Convention and Visitor's Bureau.
- d. prior to April of 2022, shall recommend hiring a staff member to provide the services necessary to create for-profit revenue streams as recommended by the consultant, PROS Consulting in 2019. "Other communities that have a business development person on staff or contract have experienced a 7:1 return on investment — \$7 in outside revenue for every \$1 spent on salary." <https://fernandinaobserver.com/city-news/whither-parks-and-rec-consultant-suggests-changes/>
- e. shall promote the offering of for-profit digital, educational, historical, or ecological videos and tours with links on signage at the beach or other recreational areas frequented by the seasonal population to provide additional revenue for the maintenance of the City's aging recreational facilities, beach walkovers, and acquisition of parkland and conservation lands. (Comprehensive Plan Objective 06.10.08, Policy 6.06.07)

- f. shall request an annual report in the month of March of all Conservation land acquired by the City in the previous year from the Planning Department for future utilization.
(Comprehensive Plan Objective 6.06, Policy 6.06.03)
- g. shall further promote less costly construction and maintenance costs by encouraging the use of *passive* recreational programming within existing and future parkland while maintaining existing sites for active use if needed.
- h. annually, at the recommendation of staff, the PRAC will incrementally suggest to the City Manager and the City Commission reasonable deadlines for the discontinuation of services for non-resident usage of specific programs or facilities to meet the service needs of residents and to encourage future county investment in city or county facilities.
(Comprehensive Plan Objective 6.02)
- i. shall annually encourage the Amelia Island Conference Center and Tourism Bureau to participate in the construction of recreation programming and facilities for the seasonal population.

Parks and Recreation Staff

- a. will begin the process of certification with the National Recreation and Parks Association in December of 2022 which assists with cost controls and provides grant funding opportunities.
- b. shall further promote future *passive* recreational programming within existing and future parkland due to its less costly construction and maintenance costs.
- c. shall provide annually to PRAC, in the month of July, a list of services or facilities utilized by non-residents which could be discontinued for non-resident users due to City resident needs for service.
- d. prior to January 1, 2023, shall provide usage numbers for all recreational services by residency in utilizing a variety of methods for data collection at each usage center. These methods may include (depending on the site):
 - i. Further utilization of card scanners.
 - ii. Installation of counting devices such as beacons or geofencing.
 - iii. Other electronic or manual devices that may also provide sources of revenue.
- e. prior to June 1, 2022, shall provide “cost center” data for recreational parks, services, and facilities which includes:
 - i. Maintenance costs
 - ii. Utility costs
 - iii. Personnel costs
 - iv. Anticipated capital costs or capital investment
 - v. And other general costs associated with the generally accepted accounting of costs.
- f. annually, in the month of March, shall recommend parkland, facility, field, court, and sports fees to assist with the maintenance and capital costs of City recreational offerings.
- g. annually, in the month of June, shall notify PRAC and the City Manager of any under-utilized facility space that may be offered for lease to an outside agency or private entity for recreational use.
- h. will continue to pursue private companies offering reimbursement for fitness and wellness classes to various demographic segments of the population.

2. To ensure that Parks and Recreation programs and facilities assist with the **future social development** of the City's residents:

The Parks and Recreation Advisory Committee

- a. shall annually, in the month of February evaluate the department's programming to ensure community-wide needs are met.
- b. shall annually, in the month of April, maintain and update the City's Parkland Acreage Level of Service which reflects the quality of life desired by the community.

The Parks and Recreation Staff

- a. shall develop recreational programs which promote social cohesion and inclusion utilizing data from the Citizen Survey, usage numbers, and census data.
 - b. shall encourage a growing older population and other age groups to socially interact with the introduction of outdoor games or activities such as:
 - i. chess, checkers, or backgammon in the park.
 - ii. lawn game tournaments such as corn hole, horse shoes, lawn darts, or other social lawn games.
 - iii. "Meet and Greet" opportunities.
 - iv. weekly planned invitational "theme walks", post them in the newspaper and online, such as: I have been to Spain, I have grandchildren, I came from New York, I have more than one dog, etc.
 - v. introduce a "City Newcomers Club" to acquaint newcomers to the city's many recreational activities, parks and amenities.
 - c. shall further develop recreational programs and support the construction of recreation facilities based on future requests for services from the City Commission and the Parks and Recreation Advisory Committee.
 - d. shall support and maintain a determined level of service for parkland acreage that reflects the quality of life desired by the community.
3. To ensure that Parks and Recreation programs and facilities assist with the most efficient **physical development** of recreational facilities:

The Parks and Recreation Advisory Committee

- a. annually, in the month of January, shall request a list of capital improvements to be included in the 5-year Capital Improvement Plan (Comprehensive Plan Policy 6.03.2).
- b. prior to June 1, 2021, shall propose to the City Manager and City Commission that a City-wide bicycle, golf cart, or an alternative mode of transportation study be completed to provide **citizen-requested** safe bike lanes, more walkability, and easier access within the city limits (Comprehensive Plan Objective 6.03.09, Policy 6.04.01, Policy 6.04.03).
- c. shall promote the construction of multipurpose courts (rather than specific use courts) to meet the future diverse needs of court usage when new sport court construction is warranted.

The Parks and Recreation Staff

- a. prior to August 1, 2022, the Parks and Recreation staff shall adopt a suggested future consolidation of services and facilities management plan.
- b. shall promote the construction of multipurpose courts (rather than specific use courts) to meet the future diverse needs of court usage when new sport court construction is warranted.

- c. shall monthly report any expenditure or anticipated expenditure to the Parks and Recreation Advisory Committee over the amount of \$70,000.
- 4. To ensure that Parks and Recreation programs and facilities protect and maintain the City's **environmental** assets:
 - a. The Parks and Recreation department shall plant shade trees adjacent to existing shade structures to lower future maintenance costs and shade structure replacement costs.
 - b. The PRAC and staff shall continue to further prevent the creation of heat islands in the City by maintaining the City's tree canopy and further encourage the planting of trees.
 - c. The PRAC and staff shall promote and encourage the use of pervious surfaces, rain gardens, or other water containment and filtration devices in the construction or replacement of a recreation facility to protect ground water sources which provide sources of safe drinking water.
 - d. The PRAC and staff shall encourage the investment in, and acquisition of, conservation lands for resiliency, flood protection, wildlife habitat, and passive recreational use to enhance the quality of life of the City's citizenry (Comprehensive Plan Objective 6.06, Policy 6.06.03).

Section 6: Recommended Comprehensive Plan Goals, Objectives and Strategies

Due to the changing needs and priorities of the citizens of Fernandina Beach, this section of the Assessment Plan was compiled to update language in the Comprehensive Plan to reflect changing trends in the field of recreation, and the needs and priorities of City residents. Language changes were noted with strike-throughs and underlined additions to reflect these changes.

Goal 6: Recreation & Open Space Element

Recreation & Open Space Element Highlights

1. Engage in Parks, Recreation and Open Space Master Planning;
2. Maintain an inventory of parks, recreation and open space. ~~based on the Statewide Comprehensive Outdoor Recreation Plan (SCORP);~~
3. Establish equitable distribution of parks to ensure equal access to recreational facilities;
4. Utilize green building standards/sustainable practices for new construction/renovation;
5. Utilize sustainable materials and low-impact development practices in park construction;
6. Plant native landscaping and employ xeriscaping in parks to reduce irrigation, fertilizer and pesticide use;
7. Coordinate to ensure that fleet of vehicles and maintenance equipment is sustainable and energy efficient;
8. Emphasize pedestrian and bicycle access to parks and recreation areas;
9. Identify how open spaces are to be utilized;
10. Identify and map lands for potential acquisition as park or open space;
11. ~~Develop recreational boating needs assessment and assessment of waterways networks;~~ Implement recreational programming which meets the needs and priorities of City residents.
12. ~~Identify shoreline and waterway accesses as part of the overall park and recreational facilities;~~ Continue to develop cost saving and revenue producing strategies to enhance the quality of recreation services in the City.
13. Continue to provide a variety of community services available to the public and continue community outreach and involvement to promote social cohesion; and

14. Address specific resources such as Egan's Creek Greenway and Bosque Bello Cemetery.

OBJECTIVE 6.01.

PARKS, RECREATION, AND OPEN SPACE MASTER PLANNING

The City shall plan for a coordinated parks and recreation system that takes into account access to and availability of parks and recreation facilities and open space areas, the impact of parks and recreation facilities on ecological systems, community education opportunities, and community health.

Policy 6.01.01.

Utilize the City's most currently amended Parks and Recreation Master Plan and the 2021 Parks and Recreation Assessment and Action Plan as a guide for decision-making and planning. The Parks and Recreation Master Plan, prepared by Barth and Associates, dated April 2015 and the 2021 Parks and Recreation Assessment and Action Plan, as may be amended from time to time, is are incorporated by reference into the Comprehensive Plan.

Policy 6.01.02.

The City shall implement the five key elements of the Parks and Recreation Master Plan:

- a. First class parks, recreation and open space facilities and venues,
- b. Improved multi-modal connectivity among facilities and venues,
- c. Equitable access to facilities and venues,
- d. Improved communication regarding parks and recreation offerings, and
- e. Improved design standards and maintenance.

Policy 6.01.03.

Implement the ~~Master Plan~~ City's Assessment and Action Plan, as may be amended from time to time, for existing and future City facilities, which seeks to transform the City's major parks and recreation facilities into first class venues that serve the needs and priorities of the entire community.

Policy 6.01.04.

~~Implement the Master Plan's neighborhood-serving park concept, which seeks to improve access to commonly utilized recreation elements. When feasible, the City shall provide parkland the following for residents within a ½ mile radius from their home to further improve accessibility: shaded playground, multi-purpose open space, sport court, trails, and optional small pavilions and restrooms.~~

Policy 6.01.05.

Update the Parks and Recreation Assessment and Action Plan every five years to track progress ~~to~~ of the five key elements as referenced in Policy 6.02.02 to and make sure ensure that the parks, recreation, and open space system is responsive to community needs.

OBJECTIVE 6.02.**AVAILABILITY OF PARKS, RECREATION FACILITIES, AND OPEN SPACE**

The City shall ensure the availability of parks and recreation facilities and open space.

Policy 6.02.01.

The City shall maintain an inventory of parks and recreation facilities and open space, the identification of recreational facilities available in each park, the size of the facility, and the primary agency responsible for the facility.

Policy 6.02.02.

The City shall encourage applicants for development approvals, including but not limited to PUD development, to provide recreational facilities and/or open space beyond the minimum standards. ~~by providing for incentives to be included in the Land Development Code.~~ Such minimum standards may include level of service standards or open space percentage or acreage requirements.

Policy 6.02.03.

The City shall add proposed parks, recreation and open space projects, based on the ~~Parks, Recreation and Open Space Master Plan~~ 2021 Assessment and Action Plan to the City's Capital Improvements Plan.

Policy 6.02.04.

The City shall pursue available grant or other funding sources on an annual basis for the acquisition and development of park and recreational areas, including but not limited to, federal, ~~and state, and county~~ funding sources.

Policy 6.02.05.

The City shall on an annual basis, develop, evaluate and maintain existing parks and recreation facilities to meet the needs of the area served, considering the functional capacity of the parks and recreation facilities and the specific requirements of the population served, using the ~~Parks and Recreation Master Plan~~ 2021 Parks and Recreation Assessment and Action Plan as a basis for evaluation.

Policy 6.02.06.

The City shall maintain a level of service of ~~12~~ 26 acres of parkland per 1000 residents, which includes its seasonal population, as noted in the 2021 Parks and Recreation Assessment and Action Plan.

Policy 6.02.07.

Access level of service of a ½ mile radius per citizen shall be used for neighborhood-serving parks.

Policy 6.02.08.

The National Recreation and Parks Association guidelines shall be utilized ~~used as a benchmark as and guidance~~ for evaluating existing and future facilities and venues, but shall not be interpreted as level of service standards.

OBJECTIVE 6.03.**PARKS AND RECREATION FACILITY MANAGEMENT**

The City shall continue to improve and maintain the existing park and recreation facilities inventory.

Policy 6.03.01.

The City shall maintain and support a Parks and Recreation Department for City recreation planning and management.

Policy 6.03.02.

The City shall, on an annual basis, review existing parks, recreation facilities and open space and establish a schedule and procedure for improving any deficiencies, including but not limited to undergoing renovations of existing facilities or constructing new facilities.

Policy 6.03.03.

The City shall have a no net loss policy for recreation ~~facilities~~ lands.

Policy 6.03.04.

The City shall not convert, abandon, trade, or sell any park or open space, or portion of park or open space in addition to the limitations established in the City Charter for transfer, sale, or lease of recreation facilities. Open space may be converted to a park, in accordance with Policy 6.05.02, and if ~~the open space levels level~~ of service as established in the ~~Parks, Recreation and Open Space Master Plan~~ 2021 Parks and Recreation Assessment Plan is being met or exceeded.

Policy 6.03.05.

New parks and recreation facilities, and major renovations of existing facilities, shall be constructed in accordance with Florida statutory requirements that municipal buildings are constructed to meet the minimum requirements of a green rating system.

Policy 6.03.06.

The City shall utilize native plants and xeriscaping techniques when landscaping is added or updated in parks, recreation facilities, and open spaces.

Policy 6.03.07.

The City shall utilize low-impact development strategies to reduce stormwater runoff from parks and recreation facilities.

Policy 6.03.08.

Where feasible, the City shall seek to reduce the amount of pesticides and fertilizer in maintaining parks, recreation and open space landscapes.

Policy 6.03.09.

The City shall ensure that the parks and recreation fleet utilizes energy efficient vehicles when possible.

OBJECTIVE 6.04.**ACCESS TO RECREATIONAL AREAS**

The City shall ensure the availability of vehicular, pedestrian, and bicycle access to public recreational areas.

Policy 6.04.01.

The City will provide vehicle parking, ADA-compliant parking, bicycle racks, sidewalks, bike paths, and barrier-free access at City-owned parks and recreational facilities.

Policy 6.04.02.

Sidewalks, bicycle paths, multipurpose trails, and/or dedication of lands per such shall be required in redevelopment and new developments to provide safe access to parks, recreation facilities, open space, waterways and shorelines.

Policy 6.04.03.

The City shall ensure sidewalk, crosswalks, bicycle path and/or multipurpose trail access throughout the City to the most-utilized and venue based recreational facilities.

Policy 6.04.04.

All future City owned parks and recreational facilities, including beaches and waterways, shall have direct access on a public street, right of way, or easement.

Policy 6.04.05.

The City shall not vacate necessary existing rights-of-way, easements, walkways, and other properties available for public access to parks and recreation facilities or open space.

Policy 6.04.06.

The City shall seek assistance from volunteers in the City in efforts to promote and maintain City recreation facilities.

Policy 6.04.07.

The City shall ensure that Americans with Disabilities Act (ADA) access and ADA recreation opportunities are available at City parks and recreation facilities and venues.

Policy 6.04.08.

Neighborhood-serving Parks shall be prioritized for placement in areas underserved by recreation facilities and shall be prioritized in capital improvement planning when matching funding from other entities may be obtained. Adding additional ~~neighborhood-serving~~ park components to existing facilities shall be secondary after underserved recreational areas are addressed.

OBJECTIVE 6.05. OPEN SPACE

Open spaces shall be protected within urbanized areas for their aesthetic, health, environmental, and economic benefits. The City shall continue to maintain standards in its land development regulations for the provision and maintenance of open space in the community, including in private developments and publicly owned lands.

Policy 6.05.01.

The City shall continue to include conservation areas on the FLUM.

Policy 6.05.02

The City shall determine uses for publicly-owned open space areas, and shall evaluate the presence of environmentally sensitive lands within an open space. If it is determined that open space has environmentally sensitive lands, the City shall limit activities to passive recreation where it is determined that such activities will not endanger the public health, safety, welfare or environment.

Policy 6.05.03.

Privately-owned open space, such as those within subdivisions or PUD developments, which consists of a conservation future land use or contains environmentally sensitive lands, shall be protected through the acquisition of conservation easements.

Policy 6.05.04.

In order to protect environmentally sensitive coastal dunes and promote public safety, no additional areas, or expansion of existing areas, allocated to parking or driving on the public beach shall be permitted.

OBJECTIVE 6.06.**LAND ACQUISITION**

The City shall maintain a program to continually evaluate the potential purchase of land for parks, recreation, conservation, and open space needs, and shall identify and map potential land for acquisition as recreation or open space.

Policy 6.06.01.

The City shall use City-owned floodplains, conservation lands or environmentally sensitive lands, and other similar areas for passive recreational land, provided that the City determines that passive recreational use of these sites would not endanger the public health, safety, welfare, or environment.

Policy 6.06.02.

The City will give high priority to acquisition of lands in the CHHA and in or adjacent to jurisdictional wetlands for passive recreational purposes, provided that that the City determines that recreational use of these sites would not endanger the public health, safety, welfare or environment.

Policy 6.06.03.

The City will give priority to acquisition of lands that provide access to parks, recreation or open space areas.

Policy 6.06.04.

Whenever possible, new recreational sites should be established with active and passive uses to provide both recreational facilities and to ensure preservation or conservation of environmentally sensitive lands. The City shall identify those recreational sites containing environmentally sensitive lands and limit those

portions to passive use recreation only; where it is determined that passive recreational use of these lands would not endanger the public health, safety, welfare, or environment.

Policy 6.06.05.

The City shall add proposed land acquisition projects, based on ~~the Parks, Recreation and Open Space Master Plan~~ the Parks and Recreation Assessment and Action Plan, to the City's Capital Improvements Plan.

Policy 6.06.06.

The City shall seek public and private support for the acquisition, development, operation, and maintenance of parks, recreational facilities and open space areas.

Policy 6.06.07.

The City shall continue to use ad valorem taxes and impact fees to fund the acquisition of parks and recreation facilities. Impact fees shall be reevaluated based on implementation of the Master Plan and any subsequent updates to the Master Plan. Use of other funding mechanisms, shall also be utilized, if feasible.

Policy 6.06.08.

When Impact Fees are not available, acquisition of additional parkland, construction of new facilities, and/or the improvement of access to parks, recreation, and open space areas directly serving new developments shall be funded by new developments in order to maintain level of service standards.

OBJECTIVE 6.07.

BOATING AND WATERWAYS

~~The City shall include boating and waterways in parks and recreation planning efforts by 2017, in conjunction with the Parks and Recreation Master Plan.~~

~~Policy 6.07.01.~~

~~The City shall conduct an assessment of waterways networks, including boating, kayak and canoe trail ways, and other water transportation options.~~

~~Policy 6.07.02.~~

~~The City shall conduct an assessment of existing boating and fishing facilities, including boat ramps, boat repair, fishing piers, and kayak and canoe launches.~~

~~Policy 6.07.03.~~

~~The City shall conduct a boating needs assessment including motorized and non-motorized boating needs, including access points, parking, and other related facilities.~~

~~Policy 6.07.04.~~

~~The City shall adopt level of service standards for boating and fishing facilities, such as boat ramps, kayak and canoe launches, fishing piers, and public access points.~~

Policy ~~6.07.05.~~ 6.07.01

The City shall have a no net loss policy for public access to waterways and shorelines, whereby one type of access point is not removed without providing for replacement of that type of access point.

OBJECTIVE 6.08.

PARKS AND RECREATION COMMUNITY SERVICES

The City shall continue to provide community services through the Parks and Recreation Department.

Policy 6.08.01.

The City shall continue to offer youth recreational opportunities throughout the school year and during the summer when City residents require this service.

Policy 6.08.02.

The City shall continue to offer adult recreational opportunities including classes, leagues, and tournaments.

Policy 6.08.03.

The City shall continue to offer senior services including recreational opportunities and outings.

Policy 6.08.04.

The City shall continue to offer community events and provide educational programming that highlights the importance of health and fitness.

OBJECTIVE 6.09.

BOSQUE BELLO CEMETERY

The City shall protect Bosque Bello Cemetery as a reminder of the community's heritage, and shall maintain the cemetery in a dignified manner while ensuring community safety.

Policy 6.09.01.

The City shall have a cemetery master plan created providing for the long-term viability and care of Bosque Bello, assigning priority to areas in most need of preservation or care. Such plan shall include, but not be limited to:

- a. evaluation of condition and typologies of existing markers, monuments, enclosures and walls;
- b. provisions for the maintenance and treatment of historic markers and walls;
- c. evaluation of existing vegetation, tree canopy, and landscaping;

- d. maintenance, preservation and enhancement of landscaping and the tree canopy in the cemetery;
- e. evaluation of cemetery infrastructure, including structures, site furnishings, irrigation and water, circulation and access, and security; and
- f. provision of recommendations for future maintenance and use of the cemetery.

Policy 6.09.02.

The City shall protect the historic integrity of Bosque Bello cemetery through preservation of the historic section of the cemetery and through protection and maintenance of the vegetation and tree canopy.

Policy 6.09.03.

The City shall make all efforts to provide proper documentation of all markers and maintain records regarding markers and their condition.

Policy 6.09.04.

The City shall incorporate planning for the cemetery into any disaster planning efforts and post-disaster redevelopment strategies.

Policy 6.09.05.

The City shall seek specialized cemetery maintenance training, particularly training related to maintenance of historic cemeteries, for all City staff involved in cemetery operations.

Policy 6.09.06.

The City shall utilize appropriate and proper maintenance techniques for historic cemeteries.

Policy 6.09.07.

The City shall monitor the edges of the cemetery which are adjacent to wetlands for any erosion or damage and take appropriate action should such erosion pose a threat to burial sites.

Policy 6.09.08.

The City shall partner with local and regional organizations to provide volunteer assistance in care and maintenance of the cemetery, including but not limited to, documentation efforts, preservation efforts, and fundraising opportunities.

Policy 6.09.09.

The City shall coordinate with the adjacent mill operator to ensure that industrial uses and operations do not encroach or interfere with the long-term protection of the cemetery.

Policy 6.09.10.

The City shall continue operation of the Cemetery Fund, which dedicates plot sale funds to a Perpetual Fund and to ongoing cemetery operations.

OBJECTIVE 6.10.

EGANS CREEK GREENWAY

The City shall protect Egan's Creek Greenway for its value as a recreational asset, for its significance as an outstanding natural resource, and for its role in providing wildlife habitat.

Policy 6.10.01.

The Parks and Recreation Department shall ensure a management plan is created and updated for the Egan's Creek Greenway including at a minimum ensuring that it is addressed separately in the parks and recreation master planning process.

Policy 6.10.02.

The City shall continue to designate the Greenway as conservation land in the zoning and FLUM series maps.

Policy 6.10.03.

The City shall continue to coordinate with the Florida Department of Transportation (FDOT) on the plan for the restoration of the marshland between Atlantic Avenue and Jasmine Street, Area I. The City shall coordinate with FDOT regarding any impacts of this project on the hydrology south of Jasmine St., Area II, and evaluate the necessity of any restoration plan needs in that area.

Policy 6.10.04.

The City shall continue to encourage the use of the Greenway for walking, biking, and bird watching.

Policy 6.10.05.

The City shall continue to encourage the use of the Greenway as part of the Great Florida Birding Trail and seek inclusion in the Greenway and Trails Network.

Policy 6.10.06.

The City shall continue to conduct ongoing annual plant and animal surveys in order to ascertain any changes in the plant and animal communities of the Greenway.

Policy 6.10.07.

The City shall monitor and control invasive exotic flora and fauna within the Greenway.

Policy 6.10.08.

The City shall continue to provide community-based education about the values of natural spaces, wetlands, endangered and threatened species, invasive species, and human impacts on ecosystems through the use of graphics, tours, online information distribution, and at the Nature Center.

OBJECTIVE 6.11.**INTERGOVERNMENTAL COORDINATION**

The City shall seek to increase intergovernmental coordination regarding parks, recreation, and open space.

Policy 6.11.01.

The City will establish and maintain formal and informal agreements to share facility and program resources with Nassau County, the Nassau County School Board, the state and federal governments, private nonprofit organizations, and others.

Policy 6.11.02.

The City will continue to work with the Nassau County School Board to ensure that new public-school buildings located within the city limits, whenever possible, are co-located adjacent to existing or proposed parks, recreation facilities, open space, and any trail or path system that will connect such facilities to other services such as the library or other community centers.

Policy 6.11.03.

The City will maximize the potential for the collocation and joint uses of public facilities, including the use of public school facilities and the Nassau Council on Aging for recreational, cultural and civic purposes in accordance with the policies in this element.

Appendix B: 2019 Impact Fee Increase

1/15/2019 City Commission Minutes

9.2 SECOND READING OF ORDINANCE 2018-44 CODE AMENDMENT - IMPACT FEES:
 City Attorney Bach read ORDINANCE 2018-44 by title only, which was as follows: "AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, UPDATING ORDINANCE 2005-2 AND 2015-26 AND AMENDING THE CODE OF ORDINANCES CHAPTER 2, ARTICLE VII, FINANCE, DIVISION 3, POLICE, FIRE, PARKS AND RECREATION AND PUBLIC FACILITIES IMPACT FEES AND TRUST FUNDS BY RESTATING APPROVAL OF A REASONABLE METHODOLOGY AND ANALYSIS FOR THE DETERMINATION OF THE IMPACT OF NEW DEVELOPMENT ON THE NEED FOR AND COST FOR SERVICES; REPEALING SECTION 2-451 IN ITS ENTIRETY AND ADOPTING A NEW SECTION 2-451, LEGISLATIVE FINDINGS; REPEALING SECTION 2-457 IN ITS ENTIRETY AND ADOPTING A NEW SECTION 2-457; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE." According to the agenda support documents Ordinance 2018-44 amends Chapter 2 of the City Code pertaining to Impact Fees. Repeals and adopts new Sections 2-451 and 2-457 of the City Code pertaining to Impact Fees.

Sec. 2-457. - Computation of the amount of impact fees.

- (a) The amount of impact fees due may be determined by the following fee schedules, or in accordance with subsection (b), herein:

Type of Development	Residential Development per Ft ² of Heated Area	Nonresidential Development per Ft ² of Floor Area
Fire protection	\$0.273 0.360	\$0.273 0.360
Police protection	0.136 0.264	0.136 0.264
Parks and recreation	1.830 2.885	0.000
Public facilities	0.371 0.443	0.371 0.443
Total	2.610 3.952	0.780 1.068

Ordinance Vote Count

"Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried."

Appendix C: Tourism and Seasonal Population Data

The State of Florida suggests that seasonal population data be obtained from the State's Office of Economic and Demographic Research or another professional source. The Office of Economic and Demographic Research could not provide seasonal population data for the City of Fernandina Beach.

07/30/2021 Seasonal Population Data from the Amelia Island Convention & Visitors Bureau

Re: Level of Service for Park Acreage

From: **Gil Langley** <glangley@ameliaisland.com>

Date: Fri, Jul 30, 2021 at 6:02 PM

Subject: Estimated

To: Faith Ross

The number provided by different firms varies in large part to different protocols. Given that, the best figures we can come up with on a average daily basis is between 8,951 and 10,506. That number will change based on monthly demand caused by seasonality. Summer occupancy can run in the 85% range, whereas January will run 55%. I have included monthly occupancy rates for lodging and VBO. Where possible, **the data is FB only.**

For calendar year 2021, Arrivalist can provide granular info. For example, they show 1,032 Adult trips to "points of Interest". 32% of those were day trippers. Downtown FB has received 257,182 trips, Main Beach has had 30,125, and Atlantic Beach 16,423. The average length of stay is 2.5 days. I'm not sure if this is helpful, but available if needed.

I'm going out on a limb, but averages can be misleading. Given a population of FB at around 13,000, during the summer – excluding day trippers – I feel confident that the total of overnight guest comes close to the permanent resident population (Lodging, Vacation Rental, and friends and relatives). Other seasons are significantly less.

Feel free to call with questions. Have a good weekend.

TO: Faith Ross
FROM: Gil Langley
DATE: July 30, 2021
SUBJECT: Travel Patterns

We have compiled information from a variety of sources to provide our best answers. I'll source each for your conversations related to validity. Last year's numbers are an anomaly and can be discarded. Any comparisons we need to make will use FY2019 as a baseline.

Lodging & Day Trippers

According to Downs & St. Germain Research, there were 688,700 travelers staying in paid accommodations (Hotels/Resorts/VRBO/B & B). Visitors staying with Friends & Family totaled 239,300 and daytrippers totalled 530,000. Together they total 769,300 visitors per year – over 80,000 people more than lodging guests.

Using other research data (Arrivalist and Research Data) provides much higher numbers. The Arrivalist data, which tracks visitation using information from cell phones, documents some 1,043,594 day trips for the period of October 2020 through June 2021. (Arrivalist excludes those who live in a 25 mile radius. It does not track party size, but rather the number of phones visiting the destination. An SUV with 6 passengers counts as six trip visits.) Research Data Service provides estimates using intercept studies and estimates 1,343,600 day-tripper have visited Amelia Island over the past 12 months (or an average of 3,680 people per day). Please note that some of the difference between these two calculations is likely to be people working on the Island but living elsewhere.

In Fernandina Beach, until May there were 893 rooms in select service hotels and B&B offerings. Occupancy in 2019 ran at 73.4%. Based on an average travel party size at 2.1, the total number of visitors who paid lodging over a 12 month period was 684,484 or 1,875 per night.

With the opening of Marriott properties and the ongoing construction of the Holiday Inn Express in the fall, these 336 rooms bring the total rooms to 1,229 in Fernandina Beach. Using the same research numbers, with the new inventory, paid lodging guests expected in the next 12 months totals 691,145 or 1,893 per night.

Vacation Rentals

We have engaged a new research partner KeyData, which measures Vacation Rental performance. Based on their information there are 820 listings online, including 317 listings on Airbnb; 471 listings VRBO; and 32 listings on both. Using the normal capacity of each unit (3 bedroom sleeps 6 for example) generates the number of “pillows” as the metric. As a new data source, this inventory has yet to be de-duplicated (i.e. listed on both VRBO and AirB&B). Using a figure of 25% for duplicates provides a nightly the resultant performance is as follows:

Average Occupancy 2021: 66%

Projected Nights Rented in 2021: 148,153 (820 listings x 365 x Occ less duplicates)

Projected Pillows Rented in 2021: 896,328 (4,961 pillows x 365 x Occ less duplicates)

Projected visitor per night: 2455

904.277.4369

2021 Occupancy of OTAs in City of Fernandina Beach By Month

The bedroom types are:

The unit types are:

12 Studios 36 one bedroom 459 two bedroom 255 three bedroom 38 four bedroom 13 five bedroom 5 six bedroom	210 houses 74 townhouses 522 Condos
---	---

These figures are for Fernandina Beach only. The total number of units in unincorporated Amelia Island is 922 with a capacity of 5,044 visitors per night. Using the same 25% for duplicates provides a nightly capacity 3,783. With a 66% occupancy rate, on any given night 2,496 people are staying in rentals outside of Fernandina Beach city limits.

This does not include units not online. The island wide number of visitors staying in vacation rentals is 4,951 on any given night.

Appendix D: Historical Nonresident Use of Facilities

Formal reporting of the use of some of the City's facilities and programming did occur in 2019. In 2018 a consultant, PROS Consulting, was hired to assess the organizational needs of the department.

Other Program and Facility Usage Not Reported

- Please note that youth sports such as Amelia Island Soccer, various baseball leagues, and other organized sports for youth were not included in the report since they were offered by third party groups. These activities are generally reported to be supported by an unknown number of non-residents.
- Numbers for court sports usage such as tennis and pickleball were also not reported. No information could be found or reported from outside sources for the City's court sport usage.

Appendix E: Residential Listings 2017 through 2020

The Property Appraiser's Office was not able to supply an actual historical number of home sales for the City of Fernandina Beach at this time.

Presently, Realtor.com data reports that homes in the 32034 Zip Code presently sell, on average, within 51 days.

The Zip Code of 32034 also contains homes from the unincorporated portion of Nassau County.

US Census: 32034 Zip Code Separation

The 2020 U.S. Census Data reports the 32034 Zip Code as containing 10,217 households of which 5,631 households are reported in the City of Fernandina Beach. The remaining Yulee, CDP portion of the Zip Code area of 32034 is reported as 4,586 households.

The City of Fernandina Beach comprises roughly 55% of the households within the 32034 Zip Code.

Roughly 1,049 homes per year in Fernandina Beach have been listed and likely sold each year in the last 4 years.

Recent Sales Data

As of 10/29/2021 Zillow reported 168 home sales in the 32034 Zip Code in the last 30 days. At 55% of sales, 92 City homes transferred ownership in the last 30 days.

Appendix F: Parkland Acreage Level of Service

American Planning Association

Making Great Communities Happen

May/June 2016

1. What is an acceptable standard for the Parkland Acreage Level of Service?

Alternatives for Determining Parks and Recreation Level of Service by David Barth, PhD, aicpSource: http://www.barthassoc.com/wp-content/uploads/2017/01/Barth-PAS-Memo-5_16.pdf

*"In contrast, parks and recreation system planning has historically been more art than science. Unlike other elements of the public realm, **there are no nationally accepted standards for determining ideal levels of service for parks, indoor recreation centers, athletic fields, trails, and other recreation facilities.** The last set of national guidelines published by the National Recreation and Park Association (NRPA) in 1996 encourages communities to develop their own LOS standards rather than rely on any national standards: "A standard for parks and recreation cannot be universal, nor can one city be compared with another even though they are similar in many respects" (Mertes and Hall 1996, 59). **Each city or county must determine the appropriate LOS required to meet the specific needs of its residents.**"*

2. Which types of lands are to be counted in determining the Parkland Acreage Level of Service?

*"What should be counted in an Acreage LOS?" **Unfortunately, there is no standard answer.** Some communities include public golf courses and beaches, while others include publicly accessible lakes and wetlands. Some cities and counties also include public parkland owned by other agencies, such as state parks and national forests. Some communities also count private recreation areas, owned and managed by homeowner's associations, because these areas help meet residents' local recreation needs. Because the primary purpose of Acreage LOS is to measure and monitor a community's supply of parkland, **it is recommended that communities count only developable, publicly accessible parkland within their jurisdiction. Undevelopable lands such as conservation areas, wetlands, water bodies, golf courses, and beaches cannot help a community meet its needs for parks, playgrounds, athletic fields, open play space, recreation centers, and other basic parks and recreation facilities.** Privately owned parkland is not open to the public, and could be sold or redeveloped. Public parkland owned by another jurisdiction (such as county-owned parks within a municipality) is already counted by that jurisdiction for its own LOS, and should not be included in a community's acreage calculation."*

Method used to calculate the City's Parkland Acreage Level of Service:

- a. Land that met the City's definition of parkland.
- b. Though not recommended, the City's beaches were included since 85% of the City's residents report utilizing the beaches for their recreation (open play space).
- c. Any additional lands which contained a picnic table such as the Greenway (Conservation land), Seaside Park and North Beach Park (which are considered to be beach accesses).
- d. As suggested above by the author, the golf course was not included and is not managed by the Parks and Recreation department.
- e. Acreage amounts were obtained from the online records of the Property Appraiser's website.

Atlantic Recreation Center Park

Containing multiple amenities, Atlantic Recreation Center Park is a mixture of an aquatic center and a neighborhood park. Featuring a pool with a separate Kiddie Pool, two play-grounds, a baseball field and an indoor fitness center, it makes it easy to understand why this facility is well utilized by all. Picnic tables with plenty of shade provide viewing areas of the pool and Pirates Playground. Aquatic fitness classes, Life Guard training, lane swimming, scuba lessons, and open swims make the facility a bustling place. Located near the beach, the park's roadside, open green space and auditorium often serve as venues for special events. Parking is also available for entering the trail to Egan's Creek Greenway.

Walking & Jogging

Bosque Bello Cemetery

Located close to the north end of the island, Bosque Bello Cemetery has kept the memories of past islanders alive for over 200 years. It also provides a final resting place for many islanders today. Established in 1798 by the Spanish, its parklike setting displays interesting historical markers of soldiers from the Civil War, African American and white. From bouts of Yellow Fever, fallen military heroes of several military campaigns, prominent town officials, to Babyland, the cemetery documents the memories of the island's inhabitants.

Known for its old growth oak trees, it lives up to its name as the "beautiful woods". On any given morning joggers or walkers can be found amongst the tree-covered paths, trails, and sandy grass-covered roads. If you would like more information about the inhabitants of Bosque Bello Cemetery, visit the Friends of Bosque Bello website. If you would like more information about the cemetery, contact the Parks and Recreation department at (904) 310-3350.

Central Park

This busy park, ideally located between the downtown and the beach, provides a variety of recreation opportunities for people of all ages to enjoy. As the center of much activity, Central Park boasts tennis, pickleball, and petanque courts, as well as sports fields for baseball and football. Many of the courts and fields are lit for nighttime play. The shaded playground area attracts many parents and children, and the open space areas host a variety of community events throughout the year. A Veterans Memorial with bench seating offers a place for respectful reflection in honor of those who gave their lives for our country. A nearby Heroes Grove provides recognition of extraordinary, past city volunteer service. The pavilion and picnic area play host to many parties, family gatherings, and special events.

Egan's Creek Park

Close to the beach, and situated on one of the wider sections of Egan's Creek, this park has almost too many amenities to count. There will be something to entertain every family member at this popular park. Enjoy scenic views of the creek's wildlife with special viewing equipment, a fishing pier, or from your kayak. A meditation labyrinth can provide some calm, or an energetic work out can be had on the shaded, outdoor fitness equipment. Small children can get their own workout on the playground equipment with plenty of green space to just throw a ball. The family dog also gets attention with a dog waste station and a well-used, concrete walking path. A picnic pavilion offers an opportunity for large, outdoor family gatherings, or birthday parties.

City Welcome Sign

Sign Ground Lighting

Shaded Parking

Eighth Street East Pocket Park

The busy intersection of South 8th Street and Lime Street is generally not a peaceful place. However, workers can often be found parked in their vehicles under the low hanging branches of this tiny park's shade trees, eating their lunches while watching the traffic go by. But the park's most significant use is providing space for the city's Welcome sign. It also offers a place to hang banners that give notice of upcoming special events in the city.

Eighth Street East Pocket Park

Assessment Form Information

Access and Comfort

AC	ESTIMATE of available parking spaces for all visitors	Grass parking
AC	Bicycle Racks Exist	No
AC	Water present? Check all that apply.	No fountain

Eighth Street West Pocket Park

1129 S. 8th Street

Amenities:

City Safety Signage

Shade

Sidewalks

Well maintained grass area

Eighth Street West Pocket Park

Offering plenty of green space, this 1.3-acre pocket of land is a green oasis amidst the commercial and retail businesses at the busy intersection of South 8th Street and West Lime Street. Signage giving city employee safety information reminds citizens that city worker safety is a priority. And with the additional planting of several new trees, more greenery has been added to its landscape. Since no bicycle lanes exist on the adjacent S. 8th Street corridor, recreational and neighborhood cyclists have frequently been observed riding its streetside sidewalk to reach Clinch Drive to the south of the park. In the future, this shaded green area has the potential to offer a much needed connecting bicycle path from Clinch Drive to South 7th Street for a much safer and easier cycling route to downtown.

Eighth Street West Pocket Park

Egan's Creek Greenway North

Egan's Creek Greenway, located on the northern end of the island, opened in 2000 as an undeveloped park for conservation and passive recreational use. Funding for the land acquisition was provided by the Florida Communities Trust and the City of Fernandina Beach. Managed by the City's Parks and Recreation Department, the park consists of over 300 acres of protected lands with a variety of natural wildlife and vegetation. The northern end of Egan's Creek, which runs from Jasmine Street to Atlantic Avenue, offers grass covered trails ideal for walking and biking. A nature pavilion and picnic area are located at the Atlantic Avenue entrance along with benches, a boardwalk, education kiosks and an ADA compliant viewing platform. A restroom is available at the Nature Pavilion.

Wildlife Viewing

Egan's Creek Greenway South

The southern expanse of Egan's Creek Greenway, located between Jasmine Street and Sadler Road, features a grass-covered network of trails suitable for walking and bicycling. Visitors enjoy a more forested, freshwater ecosystem than the Greenway's northern counterpart. Its environment exhibits a variety of natural wildlife and vegetation. Alligators, marsh rabbits, snakes, bobcats, and many bird species may be enjoyed from a distance on its boardwalk or trails. Benches and interpretative displays are located throughout this section of the Greenway. Enter or exit from Jasmine Street or from the raised boardwalk at the Sadler Road trailhead. Parking may be found at each trail head. However, restrooms are not available in this more isolated section of the creek's Greenway.

Lighthouse Park

The Amelia Island Lighthouse was built in 1838 and is Florida's oldest lighthouse. It is the only one from the Territorial Period that has survived without major rebuilding. The City of Fernandina Beach received possession of the lighthouse from the U.S. Coast Guard in 2001. The Coast Guard, with the help of the Coast Guard Auxiliary volunteers, maintains the function of the beacon. The City of Fernandina Beach preserves the monument, recognizing its importance as one of the island's most visible and beloved historic sites. The lighthouse is available for tours by contacting the Atlantic Recreation Center at (904) 310-3350, ext. #1.

Main Beach Park (Wolf Park)

Located at the intersection of Atlantic and Fletcher Avenues toward the north end of the island, Main Beach Park is the most well-known beachfront park in the City of Fernandina Beach. Adjacent to hotels, restaurants, shopping, and a Putt-Putt golf course, Main Beach Park has a variety of recreational amenities available to both residents and visitors. Ample parking provides easy access to the beach as well as good ADA access with a Mobi-Mat semi-permanently installed at the boardwalk access ramp and three beach wheelchairs, and a floating beach wheelchair available for rent. The Park also offers two sand volleyball courts, picnic shelters, a playground, a multipurpose court, a skate park, restrooms, outdoor showers and a large grassy park area behind its scenic, wooden dune walkway. Electrical outlets and water are available for special events. For beach wheelchair rentals or special event information, call (904) 310-3350.

Dr. Martin Luther King, Jr. Center and Park

1200 Elm Street

Amenities:

Auditorium

Baseball Field (Lighted)

Bench Seating

Bicycle Racks

Bleachers

Concessions Building

Horseshoe Pits

Kiddie Pool

Multipurpose Court (Lighted)

Offices

Picnic Pavilions

Playgrounds

Pool

Restrooms

Shade Structures

Water Fountain

Dr. Martin Luther King, Jr. Center and Park (Elm Park)

Between Elm Street and Fir Street, this almost 5-acre park manages to contain many amenities. It is the home of the Charles L. Albert, Jr. Baseball Field, two pools, a multipurpose/basketball court, a shaded area of playground equipment, an administrative building with an auditorium, and many shaded picnic shelters. Yet despite the number of recreational amenities and equipment found in this park, there is still a green open space for impromptu field sports when needed. Shaded bleachers offer views of the baseball field and its players, and a concession building with a water fountain gives fans needed food and drink when needed. Many picnics create good memories in this park.

Dr. Martin Luther King, Jr. Center and Park

Assessment Form Information

Access and Comfort

AC	ESTIMATE of available parking spaces for all visitors	25

Amenities:

ADA Access

ADA Picnic Tables

Benches

Bike Rack

Parking

Pavilions

Picnic Tables

Temporary Restroom

Wooden Walkway

North Beach Park

North Beach Park is best described as an informational, nature access to the beach. There is much to learn with many posters along the meandering boardwalk. There are also many opportunities to stop along the ramp and look for turtles who live in the dunes. Two covered alcoves with picnic tables make for scenic picnicking atop the dunes. There is one handicap parking space, and the long ramp is wheelchair accessible to the top of the dune. North Beach Park is peaceful. With parking limited to 20 vehicles, it retains the feel of a private beach which overlooks beautiful dunes.

North Beach Park

The Peck Center not only houses city offices, an auditorium, a gym, fitness center, Children's Services, but it is landmark of historic significant. As an African American high school during segregation, it stands as a reminder of the city's past. Inside its great hallway entrance are framed informational pieces of its history and its people. The park's green outdoor space acts as a gathering place for special events during the year with a picnic shelter offering some shade. Richo Field offers baseball at the south end of the park and soccer goals dot the park's landscape. Newly planted trees can be seen around the entrance to the fitness center and gym.

Newspaper Boxes

Picnic Table

Street Parking

Pocket Park on Centre Street

The Pocket Park on Centre is a popular gathering place in the Downtown Central Business District. With a coffee shop next door, a newspaper box, and plenty of bench seating, it summons shoppers and locals alike into its tree-shaded seating by the street. Its inner benches offer shade early in the morning or in the evening. Its handy dog waste station and hand sanitation station also beckons the dog walkers. Cyclists from various parts of the island can be found resting in this shaded park in the mornings. The picnic table makes an outdoor breakfast or lunch possible with food and drink from nearby establishments.

Picnic Pavilions (3)

Restrooms

Well-vegetated Dunes

Seaside Park

This very popular oceanside park, located at the east end of Sadler Road, is surrounded by hotels, a beach rental shop, restaurants, a bar, and an ice cream store. At the end of the street, beach parking is permitted on the stretch of sand in front of the park during specific hours at different seasons of the year. However, amidst all of this bustling activity, the park retains its unspoiled character. Its dunes and vegetation are well protected with a network of walkways which connect permanent shade structures and picnic pavilions. There is easy viewing from the shelters with bench seating. Outdoor showers are located on the connecting beach walkway and at the restroom area. Educational signage can be viewed from the walkways, and a state water quality notification sign can be seen at the entrance of the dune walkover. Bench seating inside the pavilions offers shaded views of the beach, while other pavilions offer picnic tables.

Grass Parking

Open Green Space

Picnic Table

Playground Equipment

Scenic View of Egan's Creek

Sunrise Park

Sunrise Park is a hidden gem with a gorgeous, peaceful waterfront view. One could sit and daydream while taking in the beauty of Egan's Creek. There is a stand of trees that supplies a lot of shade with a few relaxing benches and picnic tables offering seating. The playground equipment is suited to younger children with its simple design and size. However, older children would enjoy the large, open, grassy area for kicking a soccer ball or playing games that appreciate large open spaces.

Train Depot Welcome Center Park

Located in the heart of Fernandina's downtown Historic District and business district, this attractive park gets high marks for comfort. Visitors enjoy ample shade and excellent views of the city marina. Though it may be small, it offers a great deal of shaded bench seating and educational signage. To entertain park goers, the site offers an active butterfly garden with signage, historical markers, historic statuary, and a shaded train viewing area on its west side. The water fountain with a dog bowl is popular along with the expansive, well-maintained restrooms with a baby changing station. The Park also houses the Visitor Bureau's Welcome Center in the historic depot building.

Comments

Z	Additional Comments	Can't see the sign well from the parkway, it's in the shade. There is no fountain at the baseball field, but there is an ADA compliant fountain at the soccer fields. Needs a water bottle filler. Soccer picnic tables are not ADA accessible. Bleachers provide additional seating. Need to fix the potholes at the entrance, need an indoor meeting space, more parking and pest control.
---	---------------------	---

Appendix H: 2021 Parks and Recreation Citizen Survey Questions

The survey questions utilized below were also used in 2015 to reach residents and gain information concerning their needs from the department, and what they considered priorities going forward in the future. In anticipation of a need to also update the Bosque Bello Cemetery, an additional question was added at the end of the survey to gain insight into how the cemetery was utilized.

The following survey questions were placed in a digital online format by the City's Office of Information and Technology. Though the content is the same, the online survey and the paper survey on the next page offered more limited choices for answers. All responses, whether paper or online, were all entered into the Google Form survey data base.

4/13/2021 Parks and Recreation Advisory Committee Approved Survey Questions

1. Please enter:
 Name _____
 Home address _____
 Email Address _____
 Number of people in your household _____
 Ages of household members _____
2. Which City parks, open spaces, or recreation facilities do you visit most often?

3. What do you like most about the parks that you visit?

4. How would you rate the level of maintenance of the City's parks, recreation facilities, and open spaces?
 Circle one.
 Excellent Good Acceptable Fair Poor
5. What do you dislike about the parks you visit, and/or any other parks in the City?

6. What types of parks and recreation facilities, and open spaces are most important to you? Rank them 1 through 5, with 5 being the most important.
 - a. Trails and bikeways _____
 - b. Maintained green/open space _____
 - c. Swimming pools and aquatic programs _____
 - d. Playgrounds _____
 - e. Boat/kayak ramps _____
 - f. Fishing piers _____
 - g. Multi-purpose recreation centers _____
 - h. Sports courts _____
 - i. Athletic fields _____
 - j. Beach and beach access _____
 - k. Other _____
7. Do you or your family participate in any of the City's recreation programs/activities? Please list:

8. Do you participate in recreation programs/activities offered by other recreation providers i.e., YMCA, Council on Aging, Boys and Girls Club, Workout facilities...? Please list:

9. What do you like most about the City programs/activities you participate in?

10. What improvements or new programs should be added to the City Parks and Recreation Department?

11. How do you find out about the parks and recreation facilities and programs offered by the City?

12. How could the City communicate to residents about parks and recreation opportunities more effectively?

(Survey Questions Continued)

13. How could the City improve opportunities for residents of all ages, genders and abilities to participate in parks and recreation programs and facilities? _____
14. Would you support additional fees, a bond issue, or tax increases to pay for improvements to the City's parks, recreation, and open space system? Which is your preference? _____
15. Do the presently available hours and days of operation of the City's facilities and programs meet you and your family's needs? If not, please explain. _____
16. Are there any parks and recreations facilities or programs that you believe are not used or not needed? _____
17. Do you visit Bosque Bello Cemetery? If so, why? _____

One Page, Paper, Front and Back, Citizen Survey Questions for the Utility Bill: Page 1

The paper survey displayed the questions with choices as written in the online Google Forms survey.

Due to the need to enter responses by hand if paper surveys were returned, every effort was made to encourage respondents to enter their responses into the online survey Google Form. To encourage online use a QR Code was added and a shorter URL name for the survey's weblink was also added.

COFB Parks and Recreation Survey

Please take the time to complete the following survey. The Parks and Recreation Advisory Committee is conducting an assessment of the city's Parks and Recreation services and facilities. Your answers will shape their Action Plan for future recreation services.

You may open the survey with the QR Code or use shorturl.at/sDHUW to complete it online.

Or mail the survey back to the Utility Department in the envelope with your bill. Thank you for your input!

1. First and Last Name _____

2. Home Address _____

3. Email Address _____

4. Number of people in your household? _____

5. Age range of household members? (Circle all that apply.)
