10.10 **FUTURE LAND USE MAP ASSIGNMENT - 2852 BAILEY ROAD -** ORDINANCE 2023-20 ASSIGNING A FUTURE LAND USE MAP CATEGORY OF LOW-DENSITY RESIDENTIAL (LDR) FOR 0.39 ACRES OF LAND LOCATED 2852 BAILEY ROAD; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE. *Synopsis: Requests for Future Land Use Map category of Low Density Residential, totaling 0.39 acres of land, located at 2852 Bailey Road.*

10.11 **ZONING MAP ASSIGNMENT - 2852 BAILEY ROAD -** ORDINANCE 2023-21 ASSIGNING A ZONING CATEGORY OF LOW DENSITY RESIDENTIAL (R-1) FOR 0.39 ACRES OF LAND LOCATED AT 2852 BAILEY ROAD; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE. *Synopsis: Requests Zoning Map Change to Low Density Residential (R-1), for property totaling 0.39 acres of land, located at 2852 Bailey Road.*

11. CITY MANAGER REPORTS

12. CITY ATTORNEY REPORTS

13. CITY CLERK REPORTS

14. MAYOR/COMMISSIONER COMMENTS

15. ADJOURNMENT

- A THREE (3) MINUTE TIME LIMIT MAY BE IMPOSED FOR ALL SPEAKERS (EXCEPT IN A QUASI-JUDICIAL HEARING). A "REQUEST TO SPEAK" FORM IS AVAILABLE ON THE COUNTER AT THE ENTRANCE TO THE COMMISSION CHAMBERS. THE FORM SHOULD BE GIVEN TO THE CITY CLERK UPON COMPLETION.
- THE MAYOR WILL DETERMINE THE ORDER OF THE SPEAKERS AND MAY IMPOSE MORE RESTRICTIVE TIME LIMITS.
- ONE PERSON WILL SPEAK AT A TIME AND ADDRESS COMMENTS TO THE MAYOR, NOT INDIVIDUAL CITY COMMISSION MEMBERS.
- THE CITY COMMISSION MAY ASK QUESTIONS OF SPEAKERS WHO WILL HAVE ONE MINUTE TO RESPOND. ADDITIONAL TIME MAY BE GRANTED AT THE DISCRETION OF THE MAYOR OR BY A MOTION BY THE CITY COMMISSION.
- SPEAKERS MAY FILE COPIES OF THEIR REMARKS WITH THE CITY CLERK WHO WILL MAKE THEM AVAILABLE TO THE COMMISSION.
- MULTI-MEDIA PRESENTATIONS MUST BE SUBMITTED TO THE CITY CLERK NO LATER THAN THE FRIDAY BEFORE THE MEETING.
- FERNANDINA BEACH CITIZENS WILL SPEAK BEFORE NONRESIDENTS AND SPEAKERS WILL LIMIT REMARKS TO THE SPECIFIC SUBJECT MATTER.

- DISCUSSION – DIRECTION - ACTIONS ITEMS MAY BE ACTED UPON BY THE CITY COMMISSION BY EITHER A MOTION AND VOTE IN ACCORDANCE WITH ROBERTS RULES OF ORDER, OR BY A CONSENSUS OF THE CITY COMMISSION.

- PURSUANT TO RESOLUTION 95-32, IF AN ITEM IS NOT ON THE AGENDA IT REQUIRES A FOUR-FIFTHS VOTE OF THE CITY COMMISSION DECLARING THE ITEM AN EMERGENCY BEFORE ACTION CAN BE TAKEN.

- *QUASI-JUDICIAL* - DENOTES THAT THE ITEM MUST BE CONDUCTED AS A QUASI-JUDICIAL HEARING IN ACCORDANCE WITH CITY COMMISSION ESTABLISHED PROCEDURE AND FLORIDA STATUTES. ANY PERSON WISHING TO APPEAL ANY QUASI-JUDICIAL DECISION MADE BY THE COMMISSION WITH RESPECT TO ANY MATTER CONSIDERED AT SUCH MEETING OR HEARING WILL NEED A RECORD OF THE PROCEEDINGS, AND, FOR SUCH PURPOSES, MAY NEED TO ENSURE THAT A VERBATIM RECORD OF THE PROCEEDINGS IS MADE, WHICH RECORD INCLUDES THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS MADE.

- AT THE DISCRETION OF THE MAYOR, A RECESS MAY BE SCHEDULED EVERY NINETY MINUTES.

Persons with disabilities requiring accommodations in order to participate should contact the City Clerk at (904) 310-3115 or TTY/TDD 711 (for the hearing or speech impaired).

Proclamation

WHEREAS, the Children's Tumor Foundation is observing the month of May, 2023, as, "Neurofibromatosis (NF) Awareness Month" to educate the public about this rare genetic disorder which causes tumors to grow on nerves throughout the body; and

WHEREAS, although over two million people world-wide are living with NF and one in every 3,000 births is diagnosed with NF, it is still a relatively unknown condition that affects all people equally, regardless of race, ethnicity or gender; and

WHEREAS, the disorder can affect, the cardiovascular system, brain, bones and skin. It can lead to blindness, deafness, bone abnormalities, disfigurement, learning disabilities, incapacitating pain, and cancer; and

WHEREAS, the Children's Tumor Foundation tirelessly leads numerous efforts to promote and financially sponsor world-class medical research aimed at discovering effective treatments and ultimately, eradicating NF; and

WHEREAS, the Children's Tumor Foundation, through its information resources, youth programs, local chapter activities and national NF Clinic Network, steadfastly foster collaborative partnerships in medical science and industry to accelerate drug research and development, improve access to quality patient healthcare, and provide essential patient and family support.

NOW, THEREFORE, I, Bradley M. Bean, by virtue of the authority vested in me as Mayor of the City of Fernandina Beach, Florida, do hereby proclaim May 2023, as:

"NEUROFIBROMATOSIS AWARENESS MONTH"

and hereby prevail upon all citizens to participate in NF public awareness activities to help promote early diagnosis, proper management and treatment, prevention of complications, and support for research.

IN WITNESS WHEREOF, I, Bradley M. Bean, hereunto set my hand and cause the Official Seal of the City of Fernandina Beach, Florida, to be affixed this 16th day of May, 2023.

Proclamation

WHEREAS, the Congress and President of the United States designated May 15, 2023, as "Peace Officers Memorial Day" and the week in which it falls as "Police Week"; and

WHEREAS, the members of our law enforcement agencies play an essential role in safeguarding the rights and freedoms of the citizens of our country; and

WHEREAS, it is important that all Florida citizens recognize the unique challenges and responsibilities of their Police Department personnel who take a solemn oath to serve the people by protecting life and property, by standing up against violence and disorder, and by shielding the innocent and the weak against oppression or intimidation; and

WHEREAS, Florida Police Departments have properly evolved into professional organizations, utilizing scientific and computerized methods as the basis for effective community-based policing strategies and policy mandates, while embracing diversity and fairness as fundamental organizational principals; and

WHEREAS, in the United States 245 police officers died from an act of violence in 2022 while serving their communities and in 2021 over 60,000 police officers were injured while serving their communities: and

WHEREAS, in 1930 one law enforcement officer died from an act of violence in Fernandina Beach, Chief James Frank Surrency;

WHEREAS, by their faithful and loyal devotion to duty, our local peace officers have established an honorable and enduring legacy of public service which is cherished within our community and woven into the fabric of our history.

NOW, THEREFORE, BE IT RESOLVED, by the City Commission of the City of Fernandina Beach, Florida, that we call upon all Florida police agencies and municipalities to observe Monday, May 15, 2023, as:

"PEACE OFFICERS MEMORIAL DAY"

and the week of May 15, 2023, as:

"POLICE WEEK"

in honor of those peace officers who, through their courageous deeds, have lost their lives or become disabled in the performance of their hallowed duty.

IN WITNESS WHEREOF, I, Bradley M. Bean, by virtue of the authority vested in me as Mayor of the City of Fernandina Beach, Florida, have set my hand to and caused the Official Seal of the City of Fernandina Beach to be affixed this 16th day of May 2023.

COMMISSION ACTION:

Monthly Budget Report

April 2023

Overall: This is the seventh report for the fiscal year 2022/2023 and April represents 58.3% of the budgeted fiscal year. All revenue and various grant revenues have been accrued for the month of April. All recurring expenses have been recorded. Annual maintenance and service contracts have been paid. Finance will monitor expenses and prepare budget amendments to ensure budgeted amounts are not exceeded on a line-by-line basis. Reports comparing current YTD to prior year YTD are also available. Please let the Comptroller know if you wish to see any of these comparative reports.

General Fund: (001)

Total General Fund revenues are 84.7% of the annual budget. This is due to Property Tax and State revenue receipts, as listed in the below table. Year-to-date Property Tax receipts are $17.2 million dollars or 98.6% of the budget. Local Business Taxes are paid annually and recorded in October. Specific revenue sources we are tracking are detailed below.

	22/23 Budget	Apr 23 YTD $	Apr 23 YTD %	Apr 22 YTD $	Apr 22 YTD %
Local Option Gas Tax	435,057	237,780	54.7%	238,514	65.1%
Small County Surtax	2,005,013	1,238,049	61.7%	1,232,936	60.1%
Half Cent Sales Tax	997,954	616,688	61.8%	612,612	64.0%
Franchise Fees	1,400,000	909,698	65.0%	762,945	54.5%
Total FY 22/23 Bud	**4,838,024**				
Total FY 21/22 Actual	5,566,703				
Total FY 21/22 Bud	**4,776,108**				

General Fund expenses are at 44.7% of the budget. Currently the departments over the 58.3% mark are: City Commission, City Clerk, City Manager, and Non-Departmental. This is primarily due to the payments of annual maintenance and consulting contracts.

Special Revenue Funds: (100 - 190)

As was anticipated, Revenues plus Cash Balance Forward exceed Expenditures for all Special Revenue funds except Wastewater and Utility Tax Funds. Impact Fee revenue is a function of payments for connection to City Water and Wastewater services. The FY2022/2023 Utility Tax Fund budget increased the transfer to the General Fund due to a higher reserve balance.

Capital Improvement Funds: (300 - 330)

The Capital Improvement Fund (300), debt service payments were made in October and April on the Fire rescue vehicle and pumper truck. Payments and purchase orders have been issued for beach monitoring and reporting, the Tyler Executime Payroll system, police equipment, street paving and resurfacing, the Atlantic Recreation Center roof, and the Peck Center Repointing Project.

Golf Course: (410)

The transfer from Wastewater Fund to the Golf Fund for the accumulated deficit balance was recorded in October. Membership revenue is $15,565 or 9.4% higher than last April. There is a separate report for each business segment of the Golf Fund included in the Munis Report.

Airport: (420)

Expenses exceed revenues primarily due to the Transient Aircraft Apron Rehabilitation project and the Fire Station. Both projects will be completed this fiscal year.

Sanitation: (440)

Year-to-date revenues exceed expenses. This is due to the timing of Sanitation Services expenses.

Wastewater: (450)

As anticipated in the budget, expenses exceed revenues year-to-date primarily due to the transfers to the Golf Fund and the Marina Fund for the deficit balances. Wastewater Charges revenue is higher this April versus last April by $178,036 or 5.5%.

Water: (460)

Revenues exceed expenses year-to-date. Water Charges revenue is higher this fiscal year versus last fiscal year by $208,052 or 8.6%.

Stormwater: (470)

Expenses exceed revenues for the month. This is due to the timing of annual contractual payments. Revenue for Water Drainage Fees is up 2.7% this April compared to last April.

Marina: (480)

The Marina revenue (excluding Transfers) exceeded expenses for the month. The fuel system repairs are completed, and the Marina began to dispense fuel in December.

Fleet: (510)

Expenses exceed revenues for April due to equipment purchases. This fund is meant to be self-supporting.

Utility Billing and Utility Administration: (520 - 530)

It is anticipated in the budget that Revenues plus Cash Balance Forward exceeds Expenditures in Utility Billing and Utility Administration.

CITY OF FERNANDINA BEACH
MONTHLY MANAGEMENT REPORT
REVENUES AND EXPENDITURES
FISCAL YEAR TO DATE THROUGH APRIL 30, 2023

58.3%

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Discussion
Amelia River Golf Course Lease

ITEM TYPE: Discussion

REQUESTED ACTION: At the pleasure of the Commission.

SYNOPSIS: Amelia River Golf, LLC, leases a parcel of Airport property. Current allowable uses within the lease include a "golf course" and "lodging facility". The leaseholder wishes to amend the lease to include the additional uses of "solar farm" and "aeronautical and non-aeronautical hangars."

FISCAL IMPACT:

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): No additional comments.

Charles George, Interim City Manager 5/12/2023

Katie A Newton

Date: May 12, 2023

Submitted By: Katie Newton, Legal Assistant

COMMISSION ACTION:

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-72
Protected Heritage Tree Designations - Various Locations.

ITEM TYPE: Resolution (w/o fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-72.

SYNOPSIS: The attached Resolution seeks approval for "Protected Heritage Tree" designation to five private and five public trees in accordance with Land Development Code Section 4.05.15 procedures on private property at 202 N. 18TH Street; 1315 Broome Street; 2200 Atlantic Avenue; one tree located on private property in the common areas of Shell Cove subdivision; and five trees located on public land at 304 Division Street; 701 S. 6TH Street; Fernandina Beach Golf Course; 1324 Broome Street; and 13 S. 13TH Street.

FISCAL IMPACT: N/A

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt proposed Resolution 2023-72.

Kelly Gibson, Planning Deputy Director	4/21/2023
Katie Newton, Legal Assistant	4/24/2023
Agnes White, Administrative Services Manager	4/28/2023

Sylvie McCann

Date: April 21, 2023

Submitted By: Sylvie McCann, Administrative Coordinator

COMMISSION ACTION: Adopt

RESOLUTION 2023-72

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, DESIGNATING FOUR (4) TREES LOCATED ON PRIVATE PROPERTY AT 202 N. 18TH STREET, 1315 BROOME STREET, 2200 ATLANTIC AVENUE, AS PROTECTED HERITAGE TREES, ONE (1) TREE LOCATED ON PRIVATE PROPERTY IN THE COMMON AREAS OF SHELL COVE SUBDIVISION AS A PROTECTED HERITAGE TREE, AND FIVE (5) TREES LOCATED ON PUBLIC LAND AT 304 DIVISION STREET, 701 S. 6TH STREET, FERNANDINA BEACH GOLF COURSE, 1324 BROOME STREET, 13 S. 13TH STREET, AS PROTECTED HERITAGE TREES; AUTHORIZING EXECUTION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the private property owners for sites located on 202 N. 18th Street, 1315 Broome Street, 2200 Atlantic Avenue, Shell Cove HOA, and the City of Fernandina Beach, as owner, seek Heritage Tree designation of certain live oaks which have for many years represented community icons for the City; and

WHEREAS, these trees, individually and collectively, meet and exceed the criteria required for heritage tree designation as defined in the Land Development Code, Section 4.05.15; and

WHEREAS, the City and/or property owners had local arborists evaluate the trees to determine that they are in good condition and health at the present time and measure as follows:

1. 202 N. 18th Street – Multi Stem Live Oak – Multi Stem Live Oak – totaling 105” DBH;
2. 1315 Broome Street (West Side) – Live Oak – totaling 39" DBH;
3. 1315 Broome Street (East Side) – Live Oak – totaling 36" DBH;
4. 2200 Atlantic Avenue – Live Oak – totaling 59” DBH;
5. Shell Cove Subdivision (near retention pond) – Multi Trunk Live Oak – totaling 80” DBH;
6. 304 Division (ROW) – Live Oak - totaling 52" Diameter Breast Height (DBH);
7. 701 S.6th Street (ROW) – Live Oak – totaling 71" DBH;
8. Fernandina Beach Golf Course (West Side of Club House) – Live Oak – totaling 81” DBH;
9. 1324 Broome Street (ROW) – Live Oak – totaling 44” DBH; and
10. 13 S. 13th Street (ROW) – Live Oak – totaling 56” DBH;

WHEREAS, it is estimated that these trees will continue to provide public benefits through storm water management, energy savings, a reduction of carbon dioxide, and improved air quality.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The designation of "Heritage Tree" to the aforementioned trees is hereby granted by the City of Fernandina Beach. See attached Exhibit A.

SECTION 2. This Resolution shall be effective immediately upon passage.

ADOPTED this 16th day of May, 2023.

CITY OF FERNANDINA BEACH **Dave Neville**
Department of Planning & Conservation Urban Forester

On January 31, 2023, using a rubber mallet and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) on the corner of N 18th St and Broome St. The tree is growing on private property. This tree is a multi-stem tree with two main trunks. The first trunk has a diameter of 70 inches at breast height and the other 35 inches at breast height. The larger trunk then splits at 5 feet into several large leaders that span the canopy. The tree canopy is approximately 40 feet high and 55 feet wide and appears in very good health. Using the rubber mallet, hollowness was detected on one leader but the leader had been cut in the past and presents no danger of branch failure now. No visible cavities were seen in the tree or signs of decay. The trunk flare had no hollowness detected with a probing rod. Weight reduction pruning will help with this tree since it has such a large canopy spread. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

On February 28, 2023, using a rubber mallet, metal porbe, and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) at 1315 Broome St. The tree is growing on private property and is one of two trees in the front yard. This tree is on the west side of the two trees. This tree has a main trunk that splits into two large stems at 15 feet. The crotch has a nice "U" shape showing that there is no included bark. The trunk has a diameter of 39 inches at breast height. The tree canopy is approximately 40 feet high and 35 feet wide and appears in very good health. Using the rubber mallet, hollowness was not detected. No visible cavities were seen in the tree or signs of decay. The trunk flare had a great spread with anchor roots on all sides when inspected using a probing rod. This tree has been pruned over the past to keep it off nearby power lines which accounts for its narrow canopy spread. The health of this tree appears good by its leaf coverage and color. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

Location of the Tree: 2200 Atlantic Ave. Fernandina Beach, FL 32034

Diameter of trunk at 4.5 feet above ground: 16' 1½" (193½ inches) = 5' ~ diameter

Species/ Common Name: Quercus virginiana, Live Oak

Why is this tree special? Generations have strolled the main road, Atlantic Avenue, stopping when catching a glimpse of this magnificent specimen of live oak. There is no doubt the families of the Egmont Plantation were instrumental in the area of its planting. The species of birds that use this tree for nesting, foraging and community are numerous. I cannot express in words the joy ↓

On April 21, 2023, using a rubber mallet, a probing rod, and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) in the front yard at 2200 Atlantic Ave. The tree is 59 inches diameter at breast height. The tree spreads at 15 feet into a large canopy with multiple main leaders spreading across the front yard. The tree canopy is approximately 50 feet high and 80 feet wide and appears in good health. The leaves are lighter in color than they should be and the owners stated they will contact a local company and give the tree the necessary nutrients for better health. Using the rubber mallet, no hollowness was detected. No signs of decay were seen from the ground level. Anchor roots were detected on all sides using the probing rod. The canopy of this tree is thin but with the future application of nutrients, leave coverage will better. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

Department of Planning & Conservation Urban Forester

On March 22, 2022, using a rubber mallet and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) growing in the common area near the retention pond in the Shell Cove neighborhood. The tree has a diameter of 32 and 48 inch multi trunk at breast height. This tree trunk grows about 3 feet up then splits to two main leaders. The 32 inch diameter lead grows closer to the ground while the 48 inch lead grows straight up and splits again at about 9 feet. The tree canopy is approximately 30 feet high and 40 feet wide and appears in moderate health. The canopy appears to be thin in coverage. A girdling root is at the trunk flare. A metal cable is embedded into the trunk at 3 feet high. Using the rubber mallet, no hollowness was discovered at the sounding level. A cavity is on the lower lead, but the decay doesn't appear to have spread too far. The trunk flare had no hollowness detected when using a probe. The tree is located near a retention pond. Care should be taken when applying herbicide to the pond for pond weeds. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

Date: 03/28/2023
To: Dave Neville, City Arborist
From: Daphne Forehand, City Resident
Subject: Heritage Tree Nomination: 304 Division Street (in the City ROW)

Mr. Neville,

As a resident of 831 Division Street. I am writing to express my enthusiastic support for the nomination of a magnificent live oak tree located in the City's right-of-way at 304 Division Street for designation as a Heritage Tree. This remarkable tree is truly one of a kind and represents some of the last remaining substantial canopy cover in this area of the city.

What makes this tree so special is its enormous size, with a diameter of 52 inches, and the fact that its branches extend across the road, providing a breathtaking sight for anyone passing by. The tree also serves as a vital habitat for a wide variety of bird species and mammals, including squirrels, rats, and opossums.

Not only does this tree provide much-needed habitat, but it also provides substantial shade cover, protecting a large area of land from the sun's harmful rays. It's truly amazing to see the difference this tree makes, both for the environment and for the people who live in the area.

In addition to its ecological importance, this live oak tree is a beautiful and awe-inspiring sight to behold. It has stood the test of time and has undoubtedly witnessed countless changes in the surrounding landscape. Providing a Heritage Tree designation for this tree would not only honor its rich history but also ensure that future generations can enjoy and appreciate its beauty for years to come.

In conclusion, I strongly urge you to support the nomination of this live oak tree for Heritage Tree designation. It's a true treasure and deserves to be recognized as such.

Sincerely,

Daphne M. Forehand

CITY OF FERNANDINA BEACH **Dave Neville**
Department of Planning & Conservation Urban Forester

On March 28, 2023, using a rubber mallet, a probing rod, and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) on the corner of Division St and Cedar St at 304 Division St. The tree is growing in the right of way. The tree is 52 inches diameter at breast height. The tree spreads at 15 feet into a large canopy extending over Division St. The tree canopy is approximately 50 feet high and 75 feet wide and appears in very good health. Using the rubber mallet, no hollowness was detected. No signs of decay were seen from the ground level. Anchor roots were detected on all sides using the probing rod. The canopy of this tree is moderate with good leaf size but lighter than normal healthy color of green. This maybe due to the time of year during this assessment. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

CITY OF FERNANDINA BEACH **Dave Neville**
Department of Planning & Conservation Urban Forester

On January 31, 2023, using a rubber mallet and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) in front of 701 S 6th St. The tree is growing in the right of way. The tree is 71 inches diameter at breast height. The tree forks at 15 feet into two large leaders and has a slight lean towards the road. The tree canopy is approximately 50 feet high and 75 feet wide and appears in very good health. Using the rubber mallet, no hollowness was detected. No visible cavities were seen in the tree or signs of decay. The trunk flare had no hollowness detected with a probing rod. This tree will need to be pruned to keep it at a height to protect it from larger vehicles and trucks as they drive under it as well as to keep it from the power lines to the north of this tree. Two palms are growing at its base and should be removed while they are small to eliminate competition for sunlight. Concrete can be seen at its base on the 6th St side. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

SOUNDING – HOLLOW ON LARGE SIDE NEAR CIVIC HOUSE BUT IS JUST BARK SEPARATING OFF

PROBE – GOOD ROOT GROWTH

45 FT TALL x 70 FT WIDE

NEEDS TO BE PRUNED!

NEEDS TO BE CLEANED AND PALM REMOVED AT CROTCH

CITY OF FERNANDINA BEACH **Dave Neville**
Department of Planning & Conservation Urban Forester

On February 8, 2023, using a rubber mallet and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) growing in the city golf course found at 2800 Bill Melton Rd on the west side of the club house. The tree has a diameter of 81 inches at breast height. This tree has several main leaders at about 5 feet with a nice branch structure extending from those leaders. The tree canopy is approximately 45 feet high and 70 feet wide and appears in good health. Using the rubber mallet, hollowness was discovered at the sounding level. This hollowness is from bark sloughing off on two main stems with small holes from birds or insects getting between the bark and the hardwood. A cavity is located on the west side on a main leader at about 15 feet from an old pruning wound. Care should be taken when using herbicides to treat broadleaf weeds on the golf course that could be absorbed by the roots and harm the tree. Using a probe, the root crown appeared intact all around the tree as roots were detected on all sides. The canopy appeared healthy and vibrant. This tree should have the watersprouts removed to encourage proper growth. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

Nominating a tree provides recognition of a tree's intrinsic worth and value to the community.

CITY OF FERNANDINA BEACH **Dave Neville**
Department of Planning & Conservation Urban Forester

On February 28, 2023, using a rubber mallet, metal probing rod, and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) at 1324 Broome St. The tree is growing in the right of way. This tree is on the southeast corner of the intersection with N 13th St. This tree has a main trunk that splits into two large stems at 6 feet with a large limb growing south parallel to the ground. There is no included bark. The trunk has a diameter of 44 inches at breast height. The tree canopy is approximately 50 feet high and 60 feet wide and appears in very good health. Using the rubber mallet, hollowness was detected on the large limb running south. No visible cavities were seen in the tree or signs of decay. The trunk flare had a great spread with anchor roots on all sides when inspected using a probing rod. The health of this tree appears good by its leaf coverage and color. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

On March 15, 2023, using a rubber mallet, a probing rod, and DBH tape, I performed a Basic Level 2 Assessment on the health and structure of a Live Oak (Quercus virginiana) in front of 13 S 13th St. The tree is growing in the right of way. The tree is 56 inches diameter at breast height. The tree forks at 15 feet into two large leaders and the branches into several large branches. The tree canopy is approximately 60 feet high and 60 feet wide and appears in very good health. Using the rubber mallet, no hollowness was detected. A small cavity is at 20 feet on the east side of the large lead that grows straight up. This cavity is from an old pruning wound made by branch removal. No other signs of decay was seen from the ground level. Anchor roots were detected on all sides using the probing rod. The canopy of this tree is good with good leaf size. There has been recent construction 20 feet from this tree of a new home. Proper tree protection has been installed during construction. During this assessment, this tree was determined to be structurally sound and healthy and should be considered for designation as a City of Fernandina Beach Heritage Tree.

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-73
Award of Florida Department of State Division of Historic Resources Grant

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-73.

SYNOPSIS: The restoration and repair of Peck Center is a recent funding priority of the City as evidenced by: 1) budgeted funding of Peck Center of $1,625,000 in FY 2021/2022; 2) successful pursuit of $500,000 in FDOS grant funds in FY 2021; and 3) the selection of Peck Center repair and restoration as a Legislative Priority in December 2021 via Resolution 2021-181. Consistent with this effort, the City submitted a second grant application, now awarded as Grant # 23.s.aa.900.118, to the Florida Department of State for Peck Center repair and restoration, which has resulted in a grant award of $876,500 in grant funds with a matching fund requirement of $188,250, for a total project cost of $1,064,750.00.

This Resolution accepts Grant #23.s.aa.900.118. Projects funded through Grant # 23.2.11.900.118 are in the City's FY 2022/2023 budget.

FISCAL IMPACT: Projects funded through Grant # 23.2.11.900.118 are budgeted in the City's FY 2022/2023 budget in the Capital Improvements Fund Peck Center Improvements account, 3007220. 56300 Project #23060.

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt proposed Resolution 2023-73.

Date: April 14, 2023

Submitted By: Lorelei Jacobs, Grants Administrator

COMMISSION ACTION: Adopt

RESOLUTION 2023-73

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, ACCEPTING FLORIDA DEPARTMENT OF STATE DIVISION OF HISTORIC RESOURCES AFRICAN AMERICAN CULTURAL HERITAGE GRANT FUNDS OF $865,500 WITH A $188,250 MATCHING FUND REQUIREMENT FOR PECK GYM CENTER ROOF AND PECK ADMIN FLOORING REPLACEMENT; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the restoration and repair of Peck Center is a recent funding priority of the City as evidenced by: 1.) budgeted funding of Peck Center of $1,625,000 in FY 2021/2022; 2.) successful pursuit of $500,000 in FDOS grant funds in FY 2021; and 3.) the selection of Peck Center repair and restoration as a Legislative Priority in December 2021 via Resolution 2021-181; and

WHEREAS, in 2022/2023, the City submitted a grant application for Peck repair and restoration work to the Florida Department of State, Division of Historic Resources, African American Cultural Heritage Grant ("AACH Grant") for $876,500 in grant funds with a matching fund requirement of $188,250, for a total project cost of $1,064,750.00; and

WHEREAS, the City has been awarded the above-mentioned grant as Grant # 23.s.aa.900.118 to complete Peck Center repairs utilizing methods and materials that meet the national Historic Preservation standards, ensuring the lasting resiliency and beauty of Peck Center; and

WHEREAS, acceptance of this grant will provide funding to complete the final needed repairs of Peck Center, which is the replacement of the Peck gym roof system and the replacement of Peck administration common area flooring; and

WHEREAS, The projects funded through Grant #23.s.aa.900.118 are included in the FY 2022/2023 City budget in the Capital Improvements Fund Peck Center Improvements account, 3007220 56300 Project #23060.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The City Commission hereby accepts FDOS Grant Award #23.s.aa.900.118 to complete Peck Center repairs.

SECTION 2. The City Clerk and Interim City Manager, upon review of the City Attorney, are hereby authorized to execute all documentation required to implement the grant-funded project.

SECTION 3. This Resolution shall become effective immediately upon passage.

ADOPTED this 16th day of May, 2023.

GRANT AWARD AGREEMENT BETWEEN
THE STATE OF FLORIDA, DEPARTMENT OF STATE
AND
City of Fernandina Beach
GSPXME95JAG9
23.s.aa.900.118

This Agreement is by and between the State of Florida, Department of State, hereinafter referred to as the "Department," and the City of Fernandina Beach hereinafter referred to as the "Grantee."

The Grantee has been awarded an African-American Historical and Cultural Grant by the Department, grant number 23.s.aa.900.118 for the Project "Historic Peck Center Restoration Final Phase," in the amount of $876,500 ("Grant Award Amount"). The Department enters into this Agreement and has the authority to administer this grant in accordance with Section 152 of the 2021-2022 General Appropriations Act and Section 197 of the 2022-23 General Appropriations Act.

Funding for this grant is provided by the federal Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program established by the American Rescue Plan, Pub. L. No. 117-2 (ARPA), as authorized by the Department of the Treasury. Federal funds disbursed under this program may only be used in compliance with ARPA, Treasury's regulations implementing the Act, applicable provisions of 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and all other applicable federal statutes, regulations, and executive orders. For additional information about the SLFRF program, see the Assistance Listing in SAM.gov under assistance listing number (formerly known as CFDA number) 21.027.

In consideration of the mutual covenants and promises contained herein, the parties agree as follows:

1. **Grant Purpose**. This grant shall be used exclusively for the "**Historic Peck Center Restoration Final Phase**," the public purpose for which these funds were appropriated.

   a. The Grantee shall perform the following **Scope of Work**:

Grant funds will be used to facilitate the restoration of the historic Peck Center, formerly Peck High School, in Fernandina Beach, Florida. Work items will include the refinishing/replacement of flooring and roof replacement. Grant funds will also be used for professional architectural/engineering services.

All tasks associated with the Project shall meet the requirements set forth in this agreement.

   b. The Grantee agrees to provide the following **Deliverables** and **Performance Measures** related to the Scope of Work for payments to be awarded.

#	Payment Type	Deliverable Description	Documentation	Payment Amount

1	Fixed Price	Provide one (1) copy of the draft contract with a professional architectural/engineering consultant; one (1) copy of the project timeline to the Department for review and approval; one (1) copy of the Certificate of Completion for participation in the Grants Management Webinar demonstrating a 100/100 score on the AACH Grants Management Quiz; one (1) copy of the SAM.gov entity information form. Totals				**$876,500**

c. The Grantee has provided an Estimated Project Budget based upon reasonable expenditures projected to accomplish the Grantee's Scope of Work and Deliverables outlined in the Agreement. The Budget provides details of how grant and match funds will be spent. All expenditures shall be in accordance with this budget (which is incorporated as part of this Agreement and entitled Attachment A) and must be incurred during the term of this Agreement, as stated in Section 2 of this Agreement.

d. Should grant expenditures vary from the budgeted grant amount for any line item in Attachment A (Estimated Project Budget) by more than 20%, the Grantee shall be required to submit a proposal for revision of the Estimated Project Budget with a written explanation for the reason(s) for deviation(s) from the original Estimated Project Budget to the Division for review and written approval.

2. **Length of Agreement.** This Agreement shall begin on July 1, 2021, and shall end June 30, 2023, unless terminated in accordance with the provisions of Section 33 of this Agreement. Contract extensions will not be granted unless Grantee is able to provide substantial written justification and the Department approves such extension. The Grantee's written request for such extension must be submitted to the Department no later than thirty (30) days prior to the termination date of this Agreement and no amendment will be valid until a written amendment is signed by both parties as required in Section 7 and Section 15 of this Agreement.

3. **Contract Administration.** The parties are legally bound by the requirements of this Agreement. Each party's contract manager, named below, will be responsible for monitoring its performance under this Agreement, and will be the official contact for each party. Any notice(s) or other communications in regard to this agreement shall be directed to or delivered to the other party's contract manager by utilizing the information below. Any change in the contact information below shall be submitted in writing to the contract manager within 10 days of the change.

For the Department :
Theo Smith
Florida Department of State
R.A. Gray Building
500 South Bronough Street
Tallahassee, FL 32399

Phone: 850.245.6310
Email: Theo.Smith@dos.myflorida.com

For the Grantee:
Contact: Lorelei Jacobs
Address: 204 Ash Street Fernandina Beach Florida 32034
Phone: 904.310.3104
Email: ljacobs@fbfl.org

4. **Grant Payments.** All grant payments are requested online via https://dosgrants.com/ by submitting a payment request with documentation that the deliverable has been completed. The total grant award shall not exceed the Grant Award Amount, which shall be paid by the Department in consideration for the Grantee's minimum performance as set forth by the terms and conditions of this Agreement. Grant payment requests are not considered complete for purposes of payment until review of the deliverables for compliance with the terms and conditions of this Agreement by the appropriate Department staff is complete and approval of the deliverable given. The grant payment schedule is outlined below:

   a. All payments will be made in the amounts identified with the Deliverables in Section 1 of this agreement.
   b. All payments will be made in accordance with the completion of those Deliverables.

5. **Electronic Payments**. The Grantee can choose to use electronic funds transfer (EFT) to receive grant payments. All grantees wishing to receive their award through electronic funds transfer must submit a Direct Deposit Authorization form to the Florida Department of Financial Services (DFS). If EFT has already been set up for the organization, the Grantee does not need to submit another authorization form unless the organization has changed bank accounts. The authorization form is accessible at https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/vendors/vendor-relations/dfs-a1-26e-direct-deposit-vendors.pdf?sfvrsn=eff728cf_16 where information pertaining to payment status is also available.

6. **Florida Substitute Form W-9.** A completed Substitute Form W-9 issued by DFS is required from any entity that receives a payment from the State of Florida that may be subject to 1099 reporting. DFS must have the correct Taxpayer Identification Number (TIN) and other related information in order to report accurate tax information to the Internal Revenue Service (IRS). To register or access a Florida Substitute Form W-9 visit http://www.flvendor.myfloridacfo.com/. **A copy of the Grantee's Florida Substitute Form W-9 must be submitted to the Department, as required, in advance of or with the executed Agreement.**

7. **Amendment to Agreement.** Either party may request modification of the provisions of this Agreement by contacting the Department to request an Amendment to the Contract. **Changes which are agreed upon shall be valid only when in writing, signed by each of the parties, and attached to the original of this Agreement**. If changes are implemented without the Department's written approval, the organization is subject to noncompliance, and the grant award is subject to reduction, partial, or complete refund to the State of Florida and termination of this agreement.

8. **Financial Consequences**. The Department shall apply the following financial consequences for failure to perform the minimum level of services required by this Agreement in accordance with Sections 215.971 and 287.058, *Florida Statutes*.

   a. Payments will be withheld for failure to complete services as identified in the Scope of Work and Deliverables, provide documentation that the deliverable has been completed, or demonstrate the appropriate use of state or federal funds.
   b. If the Grantee has spent less than the Grant Award Amount in state or federal funds to complete the Scope of Work, the final payment will be reduced by an amount equal to the difference between spent state or federal dollars and the Grant Award Amount.
   c. The Division may reduce individual payments by 10% if the completed deliverable is not consistent with any applicable historic preservation standards as outlined in the Secretary of the Interior's Standards and Guidelines for Archaeology and Historic Preservation available online at https://www.nps.gov/subjects/historicpreservation/standards.htm or applicable industry standards.

   The Department shall reduce total grant funding for the Project in direct proportion to any required match contributions not met by the end of the grant period. This reduction shall be calculated by dividing the actual match amount by the required match amount indicated in the Agreement and multiplying the product by the Grant Award Amount indicated in the Agreement. Pursuant to Section 17, Grantee shall refund to the Department any excess funds paid out prior to a reduction of total grant funding.

9. Additional Special Conditions.

a) For all projects involving **development activities**, the following special conditions apply:

i. All project work shall be completed under the supervision of a licensed architect or licensed contractor.

ii. All project work affecting a Historic Property must be in compliance with the **Secretary of the Interior's Standards and Guidelines for Archaeology and Historic Preservation** available online at: https://www.nps.gov/subjects/historicpreservation/standards.htm.

iii. The Grantee shall provide photographic documentation of the Project activity. Guidelines regarding the photographic documentation are available online at https://dos.myflorida.com/historical/grants/special-category-grants/

iv. Architectural Services

A. All projects shall require contracting for architectural/engineering services.
B. The Grantee may request a waiver of this requirement from the Department if they believe that the architectural/engineering services are not needed for the Project. The Department shall make a recommendation to the Grantee after review of the proposed work.

v. Architectural Documents and Construction Contracts

The Grantee shall submit the architectural services contract to the Department for review and approval prior to final execution. In addition, pursuant to *Section 267.031(5)(i), Florida Statutes*, the Grantee shall submit architectural planning documents to the Department for review and approval at the following stages of development:

A. Upon completion of **schematic design**;
B. Upon completion of **design development and outline specifications**; and
C. Upon completion of **100% construction documents and project manual**, prior to execution of the construction contract.

vi. For the construction phase of the Project, in addition to the review submissions indicated above, a copy of the construction contract must be submitted to the Department for review and approval prior to final execution. Department review and approval of said contracts shall not be construed as acceptance by or imposition upon the Department of any financial liability in connection with said contracts.

vii. For projects involving ground disturbance (examples include: historic building or structure relocation, grading and site work, installation of sewer and water lines, subgrade foundation repairs or damp proofing, construction of new foundations and installation of landscape materials), the Grantee shall ensure that the following requirements are included in all contracts for architectural and engineering services:

A. Ground disturbance around historic buildings or elsewhere on the site shall be minimized, thus reducing the possibility of damage to or destruction of significant archaeological resources.

B. If an archaeological investigation of the Project site has not been completed, the architect or engineer shall contact the Department for assistance in determining the actions necessary to evaluate the potential for adverse effects of the ground disturbing activities on significant archaeological resources.

C. Significant archaeological resources shall be protected and preserved in place whenever possible. Heavy machinery shall not be allowed in areas where significant archaeological resources may be disturbed or damaged.

D. When preservation of significant archaeological resources in place is not feasible, a mitigation plan shall be developed in consultation with and approved by the Division of Historical Resources, Bureau of Historic Preservation's Compliance Review Section (contact information available online at www.flheritage.com). The mitigation plan shall be implemented under the

direction of an archaeologist meeting the *Secretary of the Interiors' Professional Qualification Standards for Archaeology*.

E. Documentation of archaeological investigation and required mitigation actions shall be submitted to the Compliance Review Section for review and approval. This documentation shall conform to the *Secretary of the Interior's Standards for Archaeological Documentation*, and the reporting standards of the Compliance Review Section set forth in *Chapter 1A-46, Florida Administrative Code.*

b) For all projects involving **survey activities**, the following special conditions apply:

i. The Grantee shall submit survey contracts to the Department for review and approval prior to execution.

ii. A 1A-32 permit must be obtained from the Division of Historical Resources, Bureau of Archaeological Research prior to the beginning of fieldwork conducted in state lands and a copy submitted to the Department, if applicable.

iii. For historical structure and archaeological surveys, the Grantee shall follow the historic structure and archaeological survey guidelines as outlined in the documents found online at https://dos.myflorida.com/historical/grants/small-matching-grants/. The survey report shall conform to *Chapter 1A-46, Florida Administrative Code*.

c) Federal Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program Grant Subrecipients must comply with the Federa Special Conditions contained in Attachment C.

10. Credit Line(s) to Acknowledge Grant Funding. Pursuant to Section 286.25, *Florida Statutes*, in publicizing, advertising, or describing the sponsorship of the program the Grantee shall include the following statement:

a. "This project is sponsored in part by the Department of State and the State of Florida." Any variation in this language must receive prior approval in writing by the Department.
b. All site-specific projects must include a Project identification sign, with the aforementioned language, that must be placed on site. The cost of preparation and erection of the Project identification sign are allowable project costs. Routine maintenance costs of Project signs are not allowable project costs. A photograph of the aforementioned sign must be submitted to the Department as soon as it is erected.

11. Encumbrance of Funds. The Grantee shall execute a binding contract for at least a part of the Scope of Work within six (6) months from the date of execution of this Agreement, except as allowed below.

a. Extension of Encumbrance Deadline: The encumbrance deadline indicated above may be extended by written approval of the Department. To be eligible for this extension, the Grantee must demonstrate to the Department that encumbrance of grant funding and the required match by binding contract(s) is achievable by the end of the requested extended encumbrance period. The Grantee's written request for extension of the encumbrance deadline must be submitted to the Department no later than fifteen (15) days prior to the encumbrance deadline indicated above.

b. Encumbrance Deadline Exception: For projects not involving contract services the Grantee and the Department shall consult on a case-by-case basis to develop an acceptable encumbrance schedule.

12. Grant Reporting Requirements. The Grantee must submit the following reports to the Department. All reports shall document the completion of any deliverables/tasks, expenses and activities that occurred during that reporting period. All reports on grant progress will be submitted online via https://dosgrants.com/. If the Grant Period end date set forth in Section 2 is extended in accordance with the requirements of Section 7 and Section 15 of this Agreement, additional quarterly progress reports shall be submitted until the expiration of the Grant Period.

a. **First Project Progress Report** is due by July 15, 2022, for the period April 1 - June 30, 2022.

b. **Second Project Progress Report** is due by October 15, 2022, for the period July 1 September 30, 2022.

c. **Third Project Progress Report** is due by January 15, 2023, for the period October 1 - December 31, 2022.

d. **Fourth Project Progress Report** is due by April 15, 2023 for the period ending January 1 - March 31, 2023.

e. **Fifth Project Progress Report** is due by July 15, 2023, for the period ending April 1 - June 30, 2023.

f. **Final Report.** The Grantee must submit a Final Report to the Division within one month of the Grant Period End Dateset forth in Section 2 above. All final reports must document the completion of all deliverables/tasks, expenses and activities that occurred by the Grant Period End Date. The Grantee may expend funds only for allowable costs resulting from obligations incurred during the specified agreement period. Expenditures of state or federal financial assistance must be in compliance with the laws, rules, and regulations applicable to expenditures of state and federal funds, including, but not limited to, this Agreement, the *Reference Guide for State Expenditures*, and 2 CFR Part 200.

13. Matching Funds. Grantee is not required to provide matching funds if the Grant Award Amount is equal to or less than $500,000. *However*, if the Grant Award Amount is greater than $500,000, Grantee is required to provide a 50% match of the amount above $500,000. The Grantee is responsible for any matching funds included in the budget in Attachment A, whether required or voluntary. The Grantee must submit documentation that the match requirements of this Agreement have been met and provide to the Department documentation evidencing expenses incurred to comply with this requirement.

14. Grant Completion Deadline. The grant completion deadline is the end date of this Agreement set forth in Section 2 above. The Grant Completion Deadline is the date when all grant and any required matching funds have been paid out or incurred in accordance with the work described in the Scope of Work, detailed in the Estimated Project Budget. If the Grantee finds it necessary to request an extension of the Grant Completion Deadline, an Amendment to the Agreement must be executed as per Section 7, and the stipulations in Section 15 must be met.

15. Extension of the Grant Completion Deadline. An extension of the completion date must be requested at least thirty (30) days prior to the end of the Grant Period and may not exceed six (6) months, unless the Grantee can clearly demonstrate extenuating circumstances: *provided, however,* that under no circumstances may this Agreement be extended beyond the period of performance for use of SLFRF funds, as set forth by the Department of the Treasury. An extenuating circumstance is one that is beyond the control of the Grantee, and one that prevents timely completion of the Project such as a natural disaster, death or serious illness of the individual responsible for the completion of the Project, litigation related to the Project, or failure of the contractor or architect to provide the services for which they were contracted to provide. An extenuating circumstance does not include failure to read or understand the administrative requirements of a grant or failure to raise sufficient matching funds. Changes to the original completion deadline shall be valid only when requested in writing, approved by the Department, and an Amendment to the Agreement has been executed by both parties and attached to the original of this Agreement. The Grantee must provide documentation that a portion of the grant funds and match contributions are encumbered and demonstrate to the satisfaction of the Department that project work is progressing at a rate such that completion is achievable within the extended Grant Period.

16. Non-allowable Grant Expenditures. The Grantee agrees to expend all grant funds received under this agreement solely for the purposes for which they were authorized and appropriated. Expenditures (grant and match) shall be in compliance with applicable federal and state statutes, regulations, the program guidelines, and this agreement. The following categories of expenditures are non-allowable for expenditure of grant funds and as contributions to required match:

a) Expenditures for work not included in the Scope of Work of the executed Grant Award Agreement;
b) Costs of goods and services not procured in accordance with procurement procedures set forth in the Grant Award Agreement and 2 CFR Part 200;
c) Expenses incurred or obligated prior to or after the Grant Period, as indicated in the Grant Award Agreement;
d) Expenditures of state or federal financial assistance not in compliance with the laws, rules, and regulations applicable to expenditures of state and federal funds as outlined in the Department of Financial Services' Reference Guide for State Expenditures (revised 11/1/2019) and 2 CFR Part 200.
e) Expenses associated with lobbying or attempting to influence Federal, State or local legislation, the judicial branch or any state agency;
f) For project activities directed at a Historic Property, expenditures for work not consistent with the applicable historic Preservation Standards as outlined in the Secretary of the Interior's Guidelines available at www.nps.gov/tps/standards/treatment-guidelines-2017.pdf, standards available at http://www.nps.gov/tps/standards.htm and nps.gov/history/local-law/arch_stnds_0.htm or applicable industry standards;

g) Costs for projects having as their primary purpose the fulfillment of Federal or State regulatory requirements, including costs of consultation and mitigation measures required under Section 106 of the National Historic Preservation Act of 1966, as amended, or under Section 267.031, F.S.;
h) Projects directed at activities or Real Properties that are restricted to private or exclusive participation or access, which shall include restricting access on the basis of sex, race, color, religion, national origin, disability, age, pregnancy, handicap or marital status;
i) Entertainment, food, beverages, plaques, awards or gifts;
j) Costs not documented in accordance with the provisions of the Grant Award Agreement;
k) Indirect costs including Grantee overhead, management expenses, general operating costs and other costs that are not readily identifiable as expenditures for the materials and services required to complete the work identified in the Scope of Work in the Grant Award Agreement. Examples of indirect costs include: rent/mortgage, utilities, janitorial services, insurance, accounting, internet service, monthly expenses associated to security systems, non-grant related administrative and clerical staffing, marketing and fundraising activities;
l) Administrative and project management expenditures such as expenditures that are directly attributable to management of the grant-assisted Project and meeting the reporting and associated requirements of the Grant Award Agreement;
m) Grantee operational support (i.e., organization salaries not directly related to grant activities; travel expenditures; per diem; or supplies);
n) Insurance costs (Exception: costs for builder's risk, workers' compensation and contractor's liability insurance);
o) Capital improvements to the interior of Religious Properties (Exception: repairs to elements of the structural system. Examples include: foundation repairs, repairs to columns, load bearing wall framing, roof framing, masonry repairs, window and exterior door repairs and restoration practices associated with the building envelope);
p) Accessibility improvements for Religious Properties;
q) Parking facilities, sidewalks, walkways, and trails that are the entire scope of work; landscaping; fabrication or design of exhibits; or commercial projects (coffee shops, cafés, and gifts shops as part of the facility are allowable);
r) Furniture and equipment unnecessary to furnish and operate a new or improved facility as part of a Fixed Capital Outlay project. Specific prior approval must be granted by the Department for all expenditures for furniture and equipment;
s) Costs associated with attending or hosting conferences, summits, workshops or presentations (Exception: municipal or county required public meetings necessary for completion of the grant assisted project);
t) Travel expenditures, including those of personnel responsible for items of work approved by the Department, administrative personnel, contracted or subcontracted employees, either for purposes of work on-site or research off-site; and
u) Tuition waivers, fees, and other non-grant related costs associated with employing students for grant projects.

17. **Unobligated and Unearned Funds and Allowable Costs.** In accordance with Section 215.971, *Florida Statutes*, the Grantee shall refund to the State of Florida any balance of unobligated funds which has been advanced or paid to the Grantee. In addition, funds paid in excess of the amount to which the recipient is entitled under the terms and conditions of the agreement must be refunded to the state agency. Further, the recipient may expend funds only for allowable costs resulting from obligations incurred during the specified agreement period. Expenditures of state or federal financial assistance must be in compliance with the laws, rules, and regulations applicable to expenditures of state and federal funds, including, but not limited to, the *Reference Guide for State Expenditures* and 2 CFR Part 200.

18. **Repayment**. All refunds or repayments to be made to the Department under this Agreement are to be made payable to the order of the "Department of State" and mailed directly to the following address: Florida Department of State, Attention: African-American Cultural and Historical Grant Program, Department of State, 500 South Bronough Street Tallahassee, FL 32399. In accordance with Section 215.34(2), *Florida Statutes*, if a check or other draft is returned to the Department for collection, Grantee shall pay to the Department a service fee of $15.00 or five percent (5%) of the face amount of the returned check or draft, whichever is greater.

19. **Single Audit Act.** The Grantee is required to complete a Single Audit Act certification form through the Department of State grants management system at https://dosgrants.com/. Each grantee, other than a grantee that is a State agency, shall submit to an audit pursuant to 2 CFR 200, Subpart F - Audit Requirements, and Section 215.97, *Florida Statutes*. See Attachment B for additional information regarding this requirement.

20. **Retention of Accounting Records**. Financial records, supporting documents, statistical records, and all other records including electronic storage media pertinent to the Project shall be retained for a period of five (5) years after the close out of the grant. If any litigation or audit is initiated, or claim made, before the expiration of the five-year period, the records shall be retained until the litigation, audit, or claim has been resolved.

21. **Obligation to Provide State Access to Grant Records.** The Grantee must make all grant records of expenditures, copies of reports, books, and related documentation available to the Department or a duly authorized representative of the State of Florida for inspection at reasonable times for the purpose of making audits, examinations, excerpts, and transcripts.

22. **Obligation to Provide Public Access to Grant Records.** The Department reserves the right to unilaterally cancel this Agreement in the event that the Grantee refuses public access to all documents or other materials made or received by the Grantee that are subject to the provisions of Chapter 119, *Florida Statutes*, known as the *Florida Public Records Act*. The Grantee must immediately contact the Department 's Contract Manager for assistance if it receives a public records request related to this Agreement.

23. **Restrictive Covenants**. The Grantee and the Property Owner(s), if different, shall execute and file Restrictive Covenants with the Clerk of the Circuit Court in the county where the property is located, prior to initial release of final payment. The Restrictive Covenants shall include at a minimum the following provisions:

    a. The Restrictive Covenants shall run with the title of the property, shall encumber the property and shall be binding upon the Grantee and the Property Owner(s), if different, and their successors in interest for ten (10) years from the date of the recordation of the Restrictive Covenants for projects involving improvements to Real Property.

    b. The Grantee and Property Owner(s) shall permit the Department to inspect the property at all reasonable times to determine whether the Grantee and Property Owner(s) are in compliance with the terms of the Restrictive Covenants.

    c. In the case of Historic Properties, the Grantee and Property Owner(s) shall maintain the property in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties.

    d. In the case of Cultural Facilities, the Grantee and Property Owner(s) shall maintain the property as a building which is be used primarily for the programming, production, presentation, exhibition or any combination of the above functions of any of the cultural disciplines defined in Section 265.283(7), Florida Statute. These disciplines include, but are not limited to music, dance, theatre, creative writing, literature, architecture, painting, sculpture, folk arts, photography, crafts, media arts, visual arts, programs of museums, and other such allied, major art forms.

    e. The Grantee and Property Owner(s) agree that no modifications will be made to the property, other than routine repairs and maintenance, without advance review and approval of the plans and specifications by the Department.

    f. The Restrictive Covenants shall contain the following amortization schedule of the repayment of grant funds, should the Grantee or Property Owner(s) or their successors in interest violate the Restrictive Covenants.

        i. Amortization Schedule for projects involving improvements to Real Property:
        If the violation occurs within the first five (5) years of the effective date of these covenants, the Department shall be entitled to return of the entire grant amount. If the violation occurs after the first five (5) years, the Department shall be entitled to return of the entire grant amount, less 10% for each year past the first five (5).

    g. Other provisions as agreed upon by the Department and the Grantee.

24. **Noncompliance with Grant Requirements.** Any Grantee that has not submitted required reports or satisfied other administrative requirements for this grant or other grants from any other Florida Department of State (DOS) Division will be in noncompliance status and subject to the DOS Grants Compliance Procedure. Grant compliance issues must be resolved before a grant award agreement may be executed, and before grant payments for any DOS grant may be released.

25. **Accounting Requirements.** The Grantee must maintain an accounting system that provides a complete record of the use of all grant funds as follows:

    a. The accounting system must be able to specifically identify and provide audit trails that trace the receipt, maintenance, and expenditure of state funds;

b. Accounting records must adequately identify the sources and application of funds for all grant activities and must classify and identify grant funds by using the same budget categories that were approved in the grant application. If Grantee's accounting system accumulates data in a different format than the one in the grant application, subsidiary records must document and reconcile the amounts shown in the Grantee's accounting records to those amounts reported to the Department.

c. An interest-bearing checking account or accounts in a state or federally chartered institution may be used for revenues and expenses described in the Scope of Work and detailed in the Estimated Project Budget.

d. The name of the account(s) must include the grant award number;

e. The Grantee's accounting records must have effective control over and accountability for all funds, property, and other assets; and

f. Accounting records must be supported by source documentation and be in sufficient detail to allow for a proper pre-audit and post-audit (such as invoices, bills, and canceled checks).

26. Availability of Funds. The State of Florida's performance and obligation to pay under this Agreement are contingent upon an annual appropriation by the Florida Legislature, or the United States Congress in the case of a federally funded grant. In the event that the state or federal funds upon which this Agreement is dependent are withdrawn, this Agreement will be automatically terminated and the Department shall have no further liability to the Grantee, beyond those amounts already released prior to the termination date. Such termination will not affect the responsibility of the Grantee under this Agreement as to those funds previously distributed. In the event of a state revenue shortfall, the total grant may be reduced accordingly.

27. Independent Contractor Status of Grantee. The Grantee, if not a state agency, agrees that its officers, agents and employees, in performance of this Agreement, shall act in the capacity of independent contractors and not as officers, agents, or employees of the state. The Grantee is not entitled to accrue any benefits of state employment, including retirement benefits and any other rights or privileges connected with employment by the State of Florida.

28. Grantee's Subcontractors. The Grantee shall be responsible for all work performed and all expenses incurred in connection with this Agreement. The Grantee may subcontract, as necessary, to perform the services and to provide commodities required by this Agreement. The Department shall not be liable to any subcontractor(s) for any expenses or liabilities incurred under the Grantee's subcontract(s), and the Grantee shall be solely liable to its subcontractor(s) for all expenses and liabilities incurred under its subcontract(s). The Grantee must take the necessary steps to ensure that each of its subcontractors will be deemed to be "independent contractors" and will not be considered or permitted to be agents, servants, joint ventures, or partners of the Department.

29. Liability. The Department will not assume any liability for the acts, omissions to act, or negligence of, the Grantee, its agents, servants, or employees; nor may the Grantee exclude liability for its own acts, omissions to act, or negligence, to the Department.

a. The Grantee shall be responsible for claims of any nature, including but not limited to injury, death, and property damage arising out of activities related to this Agreement by the Grantee, its agents, servants, employees, and subcontractors. The Grantee, other than a Grantee which is the State or the State's agencies or subdivisions, as defined in Section 768.28, *Florida Statutes*, shall indemnify and hold the Department harmless from any and all claims of any nature and shall investigate all such claims at its own expense. If the Grantee is governed by Section 768.28, *Florida Statutes*, it shall only be obligated in accordance with that Section.
b. Neither the state nor any agency or subdivision of the state waives any defense of sovereign immunity, or increases the limits of its liability, by entering into this Agreement.
c. The Department shall not be liable for attorney fees, interest, late charges or service fees, or cost of collection related to this Agreement.
d. The Grantee shall be responsible for all work performed and all expenses incurred in connection with the Project. The Grantee may subcontract as necessary to perform the services set forth in this Agreement, including entering into subcontracts with vendors for services and commodities; and provided that it is understood by the Grantee that the Department shall not be liable to the subcontractor for any expenses or liabilities incurred under the subcontract and that the Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under the subcontract.

30. Strict Compliance with Laws. The Grantee shall perform all acts required by this Agreement in strict conformity with all applicable laws

and regulations of the local, state and federal law.

31. **No Discrimination.** The Grantee may not discriminate against any employee employed under this Agreement, or against any applicant for employment because of race, color, religion, gender, national origin, age, pregnancy, disability or marital status. The Grantee shall insert a similar provision in all of its subcontracts for services under this Agreement.

32. **Breach of Agreement.** The Department will demand the return of grant funds already received, will withhold subsequent payments, and/or will terminate this agreement if the Grantee improperly expends and manages grant funds, fails to prepare, preserve or surrender records required by this Agreement, or otherwise violates this Agreement.

33. **Termination of Agreement.**

    a. Termination by the Department. The Department will terminate or end this Agreement if the Grantee fails to fulfill its obligations herein. In such event, the Department will provide the Grantee a notice of its violation by letter, and shall give the Grantee fifteen (15) calendar days from the date of receipt to cure its violation. If the violation is not cured within the stated period, the Department will terminate this Agreement. The notice of violation letter shall be delivered to the Grantee's Contract Manager, personally, or mailed to his/her specified address by a method that provides proof of receipt. In the event that the Department terminates this Agreement, the Grantee will be compensated for any work completed in accordance with this Agreement, prior to the notification of termination, if the Department deems this reasonable under the circumstances. Grant funds previously advanced and not expended on work completed in accordance with this Agreement shall be returned to the Department, with interest, within thirty (30) days after termination of this Agreement. The Department does not waive any of its rights to additional damages, if grant funds are returned under this Section.

    b. Termination for convenience. The Department or the Grantee may terminate the grant in whole or in part when both parties agree that the continuation of the Project would not produce beneficial results commensurate with the further expenditure of funds. The two parties will agree upon the termination conditions, including the effective date, and in the case of partial terminations, the portion to be terminated.

    c. Termination by Grantee. The Grantee may unilaterally cancel the grant at any time prior to the first payment on the grant although the Department must be notified in writing prior to cancellation. After the initial payment, the Project may be terminated, modified, or amended by the Grantee only by mutual agreement of the Grantee and the Department. Request for termination prior to completion must fully detail the reasons for the action and the proposed disposition of the uncompleted work.

34. **Preservation of Remedies.** No delay or omission to exercise any right, power, or remedy accruing to either party upon breach or violation by either party under this Agreement, shall impair any such right, power or remedy of either party; nor shall such delay or omission be construed as a waiver of any such breach or default, or any similar breach or default.

35. **Non-Assignment of Agreement.** The Grantee may not assign, sublicense nor otherwise transfer its rights, duties or obligations under this Agreement without the prior written consent of the Department, which consent shall not unreasonably be withheld. The agreement transferee must demonstrate compliance with the requirements of the Project. If the Department approves a transfer of the Grantee's obligations, the Grantee shall remain liable for all work performed and all expenses incurred in connection with this Agreement. In the event the Legislature transfers the rights, duties, and obligations of the Department to another governmental entity pursuant to Section 20.06, *Florida Statutes*, or otherwise, the rights, duties, and obligations under this Agreement shall be transferred to the successor governmental agency as if it was the original party to this Agreement.

36. **Required Procurement Procedures for Obtaining Goods and Services.**

    a. The Grantee shall provide maximum open competition when procuring goods and services related to the grant-assisted project. Procurement documentation supporting maximum open competition must be submitted to the Department for review and approval prior to execution of project contracts.

    b. Grantee's procurement standards must be consistent with 2 C.F.R. §§ 200.317 – 200.327, as applicable. All procurement

transactions for goods or services must be conducted in a manner providing full and open competition, consistent with the standards outlined in 2 C.F.R. §200.320, which allows for non-competitive procurements only in circumstances where at least one of the four applicable conditions provided are met; *provided, however*, that 2 C.F.R. §200.320(c)(4) is not applicable to SLFRF program awards.

37. **Conflicts of Interest.** The Grantee hereby certifies that it is cognizant of the prohibition of conflicts of interest described in Sections 112.311 through 112.326, *Florida Statutes*, and affirms that it will not enter into or maintain a business or other relationship with any employee of the Department of State that would violate those provisions. The Grantee further agrees to seek authorization from the General Counsel for the Department of State prior to entering into any business or other relationship with a Department of State Employee to avoid a potential violation of those statutes.

38. **Binding of Successors.** This Agreement shall bind the successors, assigns and legal representatives of the Grantee and of any legal entity that succeeds to the obligations of the Department of State.

39. **No Employment of Unauthorized Aliens.** The employment of unauthorized aliens by the Grantee is considered a violation of Section 274A (a) of the Immigration and Nationality Act. If the Grantee knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement.

40. **Severability.** If any term or provision of the Agreement is found to be illegal and unenforceable, the remainder will remain in full force and effect, and such term or provision shall be deemed stricken.

41. **Americans with Disabilities Act.** All programs and facilities related to this Agreement must meet the standards of Sections 553.501-553.513, *Florida Statutes*, and the Americans with Disabilities Act of 1990 as amended (42 U.S.C. 12101,*et seq*.), which is incorporated herein by reference.

42. **Governing Law.** This Agreement shall be construed, performed, and enforced in all respects in accordance with the laws and rules of Florida. Venue or location for any legal action arising under this Agreement will be in Leon County, Florida.

43. Entire Agreement. The entire Agreement of the parties consists of the following documents:

a. This Agreement
b. Estimated Project Budget (Attachment A)
c. Single Audit Act Requirements and Exhibit I (Attachment B)
d. Federal Special Conditions (Attachment C)
e. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions (Attachment D)

In acknowledgment of this grant, provided from funds appropriated in the Florida FY2021-22 General Appropriation Act, the Florida FY2022-23 General Appropriation Act and the federal Coronavirus State Fiscal Recovery Fund (Public Law 117-2), I hereby certify that I have read this entire Agreement, and will comply with all of its requirements.

ATTACHMENT B

FEDERAL AND STATE OF FLORIDA SINGLE AUDIT ACT REQUIREMENTS

AUDIT REQUIREMENTS

The administration of resources awarded by the Department of State to the Grantee may be subject to audits and/or monitoring by the Department of State as described in this Addendum to the Grant Award Agreement.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR 200, Subpart F - Audit Requirements, and section 215.97, Florida Statutes (F.S.), as revised (see AUDITS below), monitoring procedures may include, but not be limited to, on-site visits by Department of State staff, limited scope audits as defined by 2 CFR §200.425, or other procedures. By entering into this agreement, the recipient agrees to comply and cooperate with any monitoring procedures or processes deemed appropriate by the Department of State. In the event the Department of State determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by Department of State staff to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

Part I: Federally Funded

This part is applicable if the recipient is a state or local government or a nonprofit organization as defined in 2 CFR §200.90, §200.64, and §200.70.

1. A recipient that expends $750,000 or more in federal awards in its fiscal year must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements. EXHIBIT 1 to this agreement lists the federal resources awarded through the Department of State by this agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of State. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR §§200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR §200.514 will meet the requirements of this Part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR §§200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other than federal entities).

The Internet web addresses listed below will assist recipients in locating documents referenced in the text of this agreement and the interpretation of compliance issues.

U.S. Government Printing Office *www.ecfr.gov*

Part II: State Funded

This part is applicable if the recipient is a nonstate entity as defined by section 215.97(2), F.S.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a state single or project-specific audit for such fiscal year in accordance with section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this agreement lists the state financial assistance awarded through the Department of State by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of State, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for federal program matching requirements.

2. For the audit requirements addressed in Part II, paragraph 1, the recipient shall ensure that the audit complies with the requirements of section 215.97(8), F.S. This includes submission of a financial reporting package as defined by section 215.97(2), F.S., and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal years ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of section 215.97, F.S., is not required. If the recipient expends less than $750,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of section 215.97, F.S., the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than state entities).

The Internet web addresses listed below will assist recipients in locating documents referenced in the text of this agreement and the interpretation of compliance issues.

State of Florida Department of Financial Services (Chief Financial Officer)
http://www.myfloridacfo.com/

State of Florida Legislature (Statutes, Legislation relating to the Florida Single Audit Act) http://www.leg.state.fl.us/

Part III: Report Submission

1. Copies of reporting packages for audits conducted in accordance with 2 CFR 200, Subpart F - Audit Requirements, and required by Part I of this agreement shall be submitted, when required by 2 CFR §200.512, by or on behalf of the recipient directly to each of the following:

   A. The Department of State through the https://dosgrants.com/ grants management system.

   B. The Federal Audit Clearinghouse (FAC) as provided in 2 CFR §200.36 and §200.512.

      The FAC's website provides a data entry system and required forms for submitting the single audit reporting package. Updates to the location of the FAC and data entry system may be found at the OMB website.

2. Copies of financial reporting packages required by Part II of this agreement shall be submitted by or on behalf of the recipient directly to each of the following:

   A. The Department of State through the https://dosgrants.com/ grants management system.

   B. The Auditor General's Office at the following address:

      Auditor General
      Local Government Audits/342
      Claude Pepper Building, Room 401

111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (https://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Any reports, management letters, or other information required to be submitted to the Department of State pursuant to this agreement shall be submitted timely in accordance with 2 CFR §200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

4. Recipients, when submitting financial reporting packages to the Department of State for audits done in accordance with 2 CFR 200, Subpart F - Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, should indicate the date that the reporting package was delivered to the recipient in correspondence accompanying the reporting package.

Part IV: Record Retention

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award(s) and this agreement for a period of five years from the date the audit report is issued, and shall allow the Department of State, or its designee, the CFO, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of State, or its designee, the CFO, or Auditor General upon request for a period of at least three years from the date the audit report is issued, unless extended in writing by the Department of State.

EXHIBIT 1

FEDERAL RESOURCES AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Department of the Treasury, Coronavirus State and Local Fiscal Recovery Funds, Assistance Listing number (formerly known as CFDA number) 21.027. $876,500

COMPLIANCE REQUIREMENTS APPLICABLE TO THE FEDERAL RESOURCES AWARDED PURSUANT TO THIS AGREEMENT ARE AS FOLLOWS:

As contained in 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 31 CFR Part 35, Subpart A – Coronavirus State and Local Fiscal Recovery Funds.

STATE RESOURCES AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Not applicable.

COMPLIANCE REQUIREMENTS APPLICABLE TO STATE RESOURCES AWARDED PURSUANT TO THIS AGREEMENT ARE AS FOLLOWS:

Not applicable.

ATTACHMENT C

FEDERAL SPECIAL CONDITIONS

In addition to the terms and conditions contained in this agreement and the program guidelines generally applicable to grants awarded by the Department, African-American Cultural and Historical Grants, as federal pass-through grants, are also subject to additional federal requirements for use of SLFRF funds. The SLFRF awards are generally subject to the requirements set forth in the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR Part 200 (the "Uniform Guidance"). In all instances, Applicant Organizations should review the Uniform Guidance requirements applicable to your organization's use of SLFRF funds, and SLFRF-funded projects.

The following sections provide a general summary of compliance responsibilities under applicable federal statutes and regulations, including the Uniform Guidance, as described in the 2020 OMB Compliance Supplement Part 3. Compliance Requirements (issued August 18, 2020). Note that the descriptions below are only general summaries and all recipients and subrecipients of SLFRF funds are advised to carefully review the Uniform Guidance requirements and any additional regulatory and statutory requirements applicable to the program.

Grantee, as a subrecipient of federal funds, should ensure they remain in compliance with all SLFRF Award Terms and Conditions.

1. **Allowable Costs/Cost Principles.** As outlined in the Uniform Guidance at 2 CFR Part 200, Subpart E regarding Cost Principles, allowable costs are based on the premise that a recipient is responsible for the effective administration of Federal awards, application of sound management practices, and administration of Federal funds in a manner consistent with the program objectives and terms and conditions of the award. As such, the Department will implement robust internal controls and effective monitoring of subrecipients to ensure compliance with the Cost Principles, which are important for building trust and accountability. SLFRF Funds may be, but are not required to be, used along with other funding sources for a given project. Note that SLFRF Funds may not be used for a non-Federal cost share or match where prohibited by other Federal programs, e.g., funds may not be used for the State share for Medicaid.

2. **Cash Management.** SLFRF payments made to recipients are not subject to the requirements of the Cash Management Improvement Act and Treasury's implementing regulations at 31 CFR part 205 or 2 CFR 200.305(b)(8)-(9). As such, recipients can place funds in interest-bearing accounts, do not need to remit interest to Treasury, and are not limited to using that interest for eligible uses under the SLFRF award.

3. **Equipment and Real Property Management.** Any purchase of equipment or real property with SLFRF funds (as approved by the Department) must be consistent with the Uniform Guidance at 2 CFR Part 200, Subpart D. Equipment and real property acquired under this program must be used for the originally authorized purpose. Consistent with 2 CFR 200.311 and 2 CFR 200.313, any equipment or real property acquired using SLFRF funds shall vest in the non-Federal entity. Any acquisition and maintenance of equipment or real property must also be in compliance with relevant laws and regulations.

4. **Period of Performance.** All SLFRF funds remain subject to statutory requirements that they must be used for costs incurred by the recipient during the period that begins on March 3, 2021, and ends on December 31, 2024, and that award funds for the financial obligations incurred by December 31, 2024 must be expended by December 31, 2026. Any funds not used must be returned to Treasury.

5. **Procurement, Suspension & Debarment.** Recipients are responsible for ensuring that any procurement using SLFRF funds, or payments under procurement contracts using such funds are consistent with the procurement standards set forth in the Uniform Guidance at 2 CFR 200.317 through 2 CFR 200.327, as applicable. The Uniform Guidance establishes in 2 CFR 200.319 that all procurement transactions for property or services must be conducted in a manner providing full and open competition, consistent with standards outlined in 2 CFR 200.320, which allows for non-competitive procurements only in circumstances where at least one of the conditions below is true: the item is below the micro-purchase threshold; the item is only available from a single source; the public exigency or emergency will not permit a delay from publicizing a competitive solicitation; or after solicitation of a number of sources, competition is determined inadequate. Recipients must have and use documented procurement procedures that are consistent with the standards outlined in 2 CFR 200.317 through 2 CFR 200.320. The Uniform Guidance requires an infrastructure for competitive

bidding and contractor oversight, including maintaining written standards of conduct and prohibitions on dealing with suspended or debarred parties. Your organization must ensure adherence to all applicable local, State, and federal procurement laws and regulations.

6. **Program Income.** Generally, program income includes, but is not limited to, income from fees for services performed, the use or rental or real or personal property acquired under Federal awards and principal and interest on loans made with Federal award funds. Program income does not include interest earned on advances of Federal funds, rebates, credits, discounts, or interest on rebates, credits, or discounts. Recipients of SLFRF funds should calculate, document, and record the organization's program income. Additional controls that your organization should implement include written policies that explicitly identify appropriate allocation methods, accounting standards and principles, compliance monitoring checks for program income calculations, and records. The Uniform Guidance outlines the requirements that pertain to program income at 2 CFR 200.307. Treasury intends to provide additional guidance regarding program income and the application of 2 CFR 200.307(e)(1), including with respect to lending programs.

7. **Reporting.** All recipients of federal funds must complete financial, performance, and compliance reporting. Expenditures may be reported on a cash or accrual basis, as long as the methodology is disclosed and consistently applied. Reporting must be consistent with the definition of expenditures pursuant to 2 CFR 200.1. Your organization should appropriately maintain accounting records for compiling and reporting accurate, compliant financial data, in accordance with appropriate accounting standards and principles. In addition, where appropriate, your organization needs to establish controls to ensure completion and timely submission of all mandatory performance and/or compliance reporting to the Department, for use in its required reporting to Treasury.

8. **SAM.gov Requirements.** All eligible recipients are also required to have an active registration with the System for Award Management (SAM) (https://www.sam.gov). To ensure timely receipt of funding, Treasury has stated that Non-entitlement Units of Government (NEUs) who have not previously registered with SAM.gov may do so after receipt of the award, but before the submission of mandatory reporting.

9. **Recordkeeping Requirements.** Generally, your organization must maintain records and financial documents for five years after all funds have been expended or returned to Treasury. Treasury may request transfer of records of long-term value at the end of such period. Wherever practicable, such records should be collected, transmitted, and stored in open and machine-readable formats. Your organization must agree to provide or make available such records to Treasury upon request, and to any authorized oversight body, including but not limited to the Government Accountability Office ("GAO"), Treasury's Office of Inspector General ("OIG"), and the Pandemic Relief Accountability Committee ("PRAC").

10. **Single Audit Requirements.** Recipients and subrecipients that expend more than $750,000 in Federal awards during their fiscal year will be subject to an audit under the Single Audit Act and its implementing regulation at 2 CFR Part 200, Subpart F regarding audit requirements. Recipients and subrecipients may also refer to the Office of Management and Budget (OMB) Compliance Supplements for audits of federal funds and related guidance and the Federal Audit Clearinghouse to see examples and single audit submissions.

11. **Civil Rights Compliance**. Recipients of Federal financial assistance from the Treasury are required to meet legal requirements relating to nondiscrimination and nondiscriminatory use of Federal funds. Those requirements include ensuring that entities receiving Federal financial assistance from the Treasury do not deny benefits or services, or otherwise discriminate on the basis of race, color, national origin (including limited English proficiency), disability, age, or sex (including sexual orientation and gender identity), in accordance with the following authorities: Title VI of the Civil Rights Act of 1964 (Title VI) Public Law 88-352, 42 U.S.C. 2000d-1 et seq., and the Department's implementing regulations, 31 CFR part 22; Section 504 of the Rehabilitation Act of 1973 (Section 504), Public Law 93-112, as amended by Public Law 93-516, 29 U.S.C. 794; Title IX of the Education Amendments of 1972 (Title IX), 20 U.S.C. 1681 et seq., and the Department's implementing regulations, 31 CFR part 28; Age Discrimination Act of 1975, Public Law 94-135, 42 U.S.C. 6101 et seq., and the Department implementing regulations at 31 CFR part 23. In order to carry out its enforcement responsibilities under Title VI of the Civil Rights Act, Treasury will collect and review information from recipients to ascertain their compliance with the applicable requirements before and after providing financial assistance. Treasury's implementing regulations, 31 CFR part 22, and the Department of Justice (DOJ) regulations, Coordination of Non-discrimination in Federally Assisted Programs, 28 CFR part 42, provide for the collection of data and information from recipients (see 28 CFR 42.406). Treasury may request that recipients submit data for post-award compliance reviews, including information such as a narrative describing their Title VI compliance status.

12. **General Federal Regulations.** Recipients shall comply with the regulations listed in 2 CFR 200, 48 CFR 31, and 40 U.S.C. 1101*et sequence.*

13. **Rights to Patents and Inventions Made Under a Contract or Agreement.** Rights to inventions made under this assistance agreement are subject to federal patent and licensing regulations, which are codified at Title 37 CFR Part 401 and Title 35 U.S.C. 200 through 212.

14. **Compliance with the Trafficking Victims Protection Act of 2000 (2 CFR Part 175).** Recipients, their employees, subrecipients under this award, and subrecipients' employees may not:

    i. Engage in severe forms of trafficking in persons during the period of time that the award is in effect;
    ii. Procure a commercial sex act during the period of time that the award is in effect; or
    iii. Use forced labor in the performance of the award or subawards under the award.

15. **Whistleblower Protection.** Recipients shall comply with U.S.C. §4712, Enhancement of Recipient and Subrecipient Employee Whistleblower Protection. This requirement applies to all awards issued after July 1, 2013 and effective December 14, 2016 has been permanently extended (Public Law (P.L.) 114-261).

    i. This award, related subawards, and related contracts over the simplified acquisition threshold and all employees working on this award, related subawards, and related contracts over the simplified acquisition threshold are subject to the whistleblower rights and remedies in the pilot program on award recipient employee whistleblower protections established at 41 U.S.C. 4712 by section 828 of the National Defense Authorization Act for Fiscal Year 2013 (P.L. 112-239).

    ii. Recipients, their subrecipients, and their contractors awarded contracts over the simplified acquisition threshold related to this award, shall inform their employees in writing, in the predominant language of the workforce, of the employee whistleblower rights and protections under 41 U.S.C. 4712.

    iii. The Recipient shall insert this clause, including this paragraph C, in all subawards and in contracts over the simplified acquisition threshold related to this award; best efforts should be made to include this clause, including this paragraph C in any subawards and contracts awarded prior to the effective date of this provision.

16. **Notification of Termination (2 CFR § 200.340).** In accordance with 2 CFR § 200.340, in the event that the Agreement is terminated prior to the end of the period of performance due to the Recipient's or subcontractor's material failure to comply with Federal statutes, regulations or the terms and conditions of this Agreement or the Federal award, the termination shall be reported to the Office of Management and Budget (OMB)-designated integrity and performance system, accessible through System for Award Management (SAM) currently the Federal Awardee Performance and Integrity Information System (FAPIIS). The Non-Federal Entity will notify the Recipient of the termination and the Federal requirement to report the termination in FAPIIS. See 2 CFR § 200.340 for the requirements of the notice and the Recipient's rights upon termination and following termination.

17. **Additional Lobbying Requirements.**

    i. The Recipient certifies that no funds provided under this Agreement have been used or will be used to engage in the lobbying of the Federal Government or in litigation against the United States unless authorized under existing law.

    ii. The Lobbying Disclosure Act of 1995, as amended (2 U.S.C. §1601*et seq.*), prohibits any organization described in Section 501(c)(4) of the Internal Revenue Code, from receiving federal funds through an award, grant (and/or subgrant) or loan unless such organization warrants that it does not, and will not engage in lobbying activities prohibited by the Act as a special condition of such an award, grant (and/or subgrant), or loan. This restriction does not apply to loans made pursuant to approved revolving loan programs or to contracts awarded using proper procurement procedures.

    iii. Pursuant to 2 CFR §200.450 and 2 CFR §200.454(e), the Recipient is hereby prohibited from using funds provided by this

Agreement for membership dues to any entity or organization engaged in lobbying activities.

18. **Compliance with Assurances.** Recipients shall comply with any and all applicable assurances made by the Department or the Recipient to the Federal Government during the Grant application process.

19. **Federal Reporting Requirements (FFATA).** Grant Recipients awarded a new Federal grant greater than or equal to $30,000 awarded on or after October 1, 2015, are subject to the FFATA the Federal Funding Accountability and Transparency Act ("FFATA") of 2006. The FFATA legislation requires that information on federal awards (federal financial assistance and expenditures) be made available to the public via a single, searchable website, which is www.USASpending.gov. The Grantee agrees to provide the information necessary, within one (1) month of execution, for the Department to comply with this requirement.

20. **2 CFR Part 200 Appendix 2 – Contract Provisions for Non-Federal Entity Contracts Under Federal Awards**In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

    i. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

    ii. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

    iii. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

    iv. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

    The Davis-Bacon Act requirements do not apply to projects funded solely with award funds from the SLFRF. Recipients may be otherwise subject to the requirements of the Davis-Bacon Act, when SLFRF award funds are used on a construction project in conjunction with funds from another federal program that requires enforcement of the Davis-Bacon Act.

    v. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of

a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

vi. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

vii. Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended - Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

viii. Debarment and Suspension (Executive Orders 12549 and 12689) - A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

ix. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352) - Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

x. Procurement of Recovered Materials. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

xi. Prohibition on Certain Telecommunications and video surveillance services or equipment. Recipients and subrecipients are prohibited from obligating or expending loan or grant funds to:

   A. Procure or obtain;
   B. Extend or renew a contract to procure or obtain; or
   C. Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).
      1. For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

2. Telecommunications or video surveillance services provided by such entities or using such equipment.
3. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

D. In implementing the prohibition under Public Law 115-232, section 889, subsection (f), paragraph (1), heads of executive agencies administering loan, grant, or subsidy programs shall prioritize available funding and technical support to assist affected businesses, institutions and organizations as is reasonably necessary for those affected entities to transition from covered communications equipment and services, to procure replacement equipment and services, and to ensure that communications service to users and customers is sustained.

E. See Public Law 115-232, section 889 for additional information.

F. See also 2 CFR § 200.471.

xii. Domestic Preferences for Procurements.

A. As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award.

B. For purposes of this section:

1. "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

ATTACHMENT D

CERTIFICATION REGARDING
DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION
LOWER TIER COVERED TRANSACTIONS

This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 45 CFR 1183.35, Participants' responsibilities. The regulations were published as Part VII of the May 26, 1988 Federal Register (pages 19160-19211). Copies of the regulations may be obtained by contacting the person to which this proposal is submitted.

(BEFORE COMPLETING CERTIFICATION, READ ATTACHED INSTRUCTIONS)

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

_____
Name and Title of Authorized Representative

_____

Signature Date

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-74
Grant Application - Florida Department of State, Division of Historical Resources

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-74.

SYNOPSIS: This Resolution seeks to authorize the application for a Special Category Grant from the Florida Department of State in the amount of $500,000 to help fund the repair of the 67-foot-tall historic Amelia Island Lighthouse. The Lighthouse has masonry deterioration from age and weathering. Moisture is penetrating the structure, which will continue to create degeneration unless preservation efforts occur. Because the Amelia Lighthouse is listed on the National Register of Historic Places, repairs to the building must meet or exceed National Historic Preservation Guidelines, making the project ideal for funding through the Florida Department of State, Division of Historic Resources, Special Category grant.

The City has received a structural assessment report for the Amelia Island Lighthouse which defines work which should be accomplished in a phased approach. This Resolution authorizes the application to the Florida Department of State for Phase 2 Lighthouse repairs, which are estimated at $625,000. If selected for funding, the grant would award up to $500,000 and have a $125,000 matching fund requirement. This Resolution further authorizes a second grant application to the Florida Lighthouse Association for $125,000, to, if awarded, provide the $125,000 matching fund requirement of the Special Category Grant.

FISCAL IMPACT: The total project cost of $625,000 will be included in the Capital Improvements Fund, Recreation Improvements account, 3007200 56300 in the City's FY2023/2024 Budget**.**

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt Resolution 2023-74.

Jeremiah Glisson, Operations Director	4/22/2023
Kelly Gibson, Planning Deputy Director	5/1/2023
Catherine Vorrasi, Parks and Recreation Director	5/4/2023
Agnes White, Administrative Services Manager	5/4/2023
Charles George, Interim City Manager	5/4/2023
Pauline Testagrose, Comptroller	5/4/2023
Tammi E. Bach, City Attorney	5/5/2023

Lorelei Jacobs

Date: April 20, 2023

Submitted By: Lorelei Jacobs, Grants Administrator

COMMISSION ACTION: Adopt

RESOLUTION 2023-74

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, AUTHORIZING THE SUBMITTAL OF A FLORIDA DEPARTMENT OF STATE, DIVISION OF HISTORIC RESOURCES, SPECIAL CATEGORY GRANT APPLICATION FOR $500,000 TOWARD THE COST OF REPAIRING THE AMELIA ISLAND LIGHTHOUSE, A BUILDING LISTED ON THE NATIONAL REGISTER OF HISTORIC PLACES; AUTHORIZING THE SUBMITTAL OF A FLORIDA LIGHTHOUSE ASSOCIATION GRANT FOR $125,000 TOWARD THE COST OF REPAIRING THE AMELIA ISLAND LIGHTHOUSE; AUTHORIZING EXECUTION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the 67-foot-tall Amelia Island Lighthouse, built in 1839, stands at the highest point on Amelia Island, is the oldest operational lighthouse in the State of Florida, and is the westernmost lighthouse on the East Coast of the United States; and

WHEREAS, in FY 2001/2002, ownership of the Amelia Lighthouse was transferred to the City of Fernandina Beach with terms that stipulated that the City would maintain the property; and in 2003, the Amelia Island Lighthouse was listed in the National Register of Historic Places to ensure protection of the structure for future generations, and

WHEREAS, the City staff, in conjunction with an engineering structural assessment, has identified a phased maintenance plan for the repairs and preservation of the Amelia Island Lighthouse; and

WHEREAS, the State FY 2024/2025 Florida Department of State, Division of Historic Resources, Special Category Grant could, if awarded, provide $500,000 in grant funding for preservation efforts; and

WHEREAS, the City of Fernandina Beach is requesting authorization to submit a FY 2024/2025 Historic Preservation Special Category Grant application to the Florida Department of State, Division of Historical Resources for $500,000 to be used for necessary repairs to the Amelia Island Lighthouse with an additional $125,000 in matching funds required by the project; and

WHEREAS, the Florida Lighthouse Association has grant funds available that could be applied for to offset or satisfy the City's $125,000 matching fund requirement of the FY 2024/2025 Historic Preservation Special Category Grant application.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The City Commission of the City of Fernandina Beach authorizes the submittal of a FY 2024/2025 Historic Preservation Special Category Grant application to the Florida Department of State for $625,000, of which $500,000 will be grant funds and $125,000 will be City matching funds to be used for repair of the Amelia Island Lighthouse.

SECTION 2. The City Commission of the City of Fernandina Beach authorizes the submittal of a grant application to the Florida Lighthouse Association for up to $125,000 to provide supplemental matching funds required by the 2024/2025 Historic Preservation Special Category Grant.

SECTION 3. Funds for the grant and matching funds cost of the project will be budgeted in, the Capital Improvements Fund, Recreation Improvements account, 3007200 56300 in the City's FY2023/2024 Budget.

SECTION 4. If awarded Historic Preservation Special Category Grant funds and/or Florida Lighthouse Association grant(s) for Amelia Island Lighthouse repairs, the Interim City Manager and the City Clerk are hereby authorized to execute all documentation required to implement the grant(s), upon review and approval of the City Attorney.

SECTION 5. This Resolution shall take effect immediately upon passage.

ADOPTED this 16th day of May, 2023.

Re: **Report for Structural & Enclosure Condition Assessment**
Historic Amelia Island Lighthouse
215 O'Hagan Lane, Fernandina Beach, Florida
Walker Consultants Project No. 15-002681.00

Dear Mr. Glisson:

Walker Consultants is pleased to submit for your review this report summarizing our structural and enclosure condition assessment of the Amelia Island Lighthouse.

Introduction

The 67-foot-tall historic Amelia Island Lighthouse, which stands at the highest point on Amelia Island, along the northern Atlantic shore of Florida, was originally constructed from bricks re-used from the Cumberland Island (GA) Lighthouse in 1839. The building comprises mass (multi-wythe) brick masonry walls, which range from four feet thick at the base to two feet thick at the top, and which are encased by an exterior, white-painted mortar finish. The lighthouse is the oldest operational lighthouse in the State of Florida and is the westernmost lighthouse on the East Coast of the United States. It is classified as one of "Florida's Historic Lighthouses" and is listed on the National Historic Register. On-site personnel reported that the brick masonry at the top 8 feet of the structure was rebuilt in early 1881; at that time, a new watch room, cast iron stairway, and lantern were also installed.

Photo 1: *Overview, from ground level, of the Amelia Island historic lighthouse, in Fernandina Beach, Florida.*

Because the lighthouse is listed on the National Historic Register, any repair project would be subject to applicable sections of the *Secretary of the Interior's Standards for the Treatment of Historic Properties ("Standards")* with Guidelines for Preserving, Rehabilitating, Restoring & Reconstructing Historic Buildings, as documented by the U.S. Department of the Interior National Park Service Technical Preservation Services. These

Standards apply to all grants-in-aid projects assisted through the Historic Preservation Fund (which are authorized by the National Historic Preservation Act). The treatment Standards, developed in 1992, were most recently revised in 2017. Please note that the requirements of the standards may vary depending upon the finalized selections for the scope of work and treatment approach selected, as described in the Discussion section of this report.

Walker has also referenced the United States Department of the Interior, National Park Service, National Register of Historic Places (NRHP) Multiple Property Documentation Form prepared for "Florida's Historic Lighthouses", dated 2003, and the *Historic Lighthouse Preservation Handbook ("Handbook")* throughout this report, where applicable to the structural and enclosure conditions of the historic Amelia Island lighthouse.

During our assessment, Walker obtained brick, mortar, and stucco material samples from the subject building for laboratory analysis and incorporation of the test results into project record documentation. Testing included ASTM C67 compressive strength testing on brick units, as well as ASTM C1324 petrographic mortar analysis to determine material composition of both the brick mortar and exterior "stucco" samples. Material test reports, as provided by American Engineering Testing, are attached to this report as Appendix B, and are discussed herein.

Executive Summary

The Amelia Island Lighthouse consists of a mass, multi-wythe masonry structure, set on top of masonry below-grade foundations. Although 184 years have passed since original construction, the structure has been maintained in overall fair to good condition. Walker generally observed various indications of stucco and brick masonry distress at exterior walls, which are considered consistent with similar historic structures within the Atlantic coastal environment. Based on our observations, the lighthouse is considered safe to use and continue to serve as a historic landmark for local visitors. However, Walker recommends that local operations and maintenance personnel continue to monitor the existing structure for signs or symptoms of worsening defects or deterioration, as brittle, historic materials of this type may be more susceptible to damage during prolonged or catastrophic weather events (such as hurricanes, high winds, or floods).

Typically, masonry deterioration on historic buildings of this type will occur due to a combination of structural and environmental factors, including settlement, differential movement, material aging, exposure to moisture, wind and storm events, and coastal salt water infiltration. Cracks in the stucco and erosion of the mortar joints allow moisture infiltration, which exacerbates brick and mortar deterioration throughout the assemblies. Continued masonry deterioration can impact the overall water resistance of the lighthouse exterior wall and, if left uncorrected, will continue to compromise the integrity of the structure.

THE HISTORIC BRICK LIGHTHOUSES OF FLORIDA POSSESS POTENTIAL SIGNIFICANCE IN THE AREAS OF ARCHITECTURE, COMMERCE, ENGINEERING, EXPLORATION/SETTLEMENT, INVENTION, MARITIME HISTORY, MILITARY, POLITICS/GOVERNMENT, AND TRANSPORTATION UNDER NRHP CRITERIA A AND C.

Excerpt from NRHP "Florida's Historic Lighthouses" Description

Material Test Results

Testing in accordance with ASTM C67, *Standard Test Method for Sampling and Testing Brick and Structural Clay Tile,* indicated that the average brick masonry unit strength was approximately **11,000 psi**; however, the two samples with the lowest strength measured 6,590 and 7,760 psi, well above the minimum ASTM standard of 3,000 psi.

Mortar test results, in accordance with ASTM C1324, *Standard Test Method for Examination and Analysis of Hardened Masonry Mortar,* indicated that the selected sample collected from interior brick masonry joints (classified as mortar sample #8 from Walker's field specimens) was a relatively soft and well consolidated "**lime mortar**", consisting of 1 part hydrated lime to 3 parts locally sourced "beach" sand, which is consistent with the age and construction of the lighthouse.

The exterior cladding layer of the lighthouse consisted of a total of ¾-inch thick material, which appeared similar in composition to a stucco or mortar and was analyzed in accordance with ASTM C1324, *Standard Test Method for Examination and Analysis of Hardened Masonry Mortar.* According to material analysis results, the existing cladding material approximately dated to post-1950's era composition. Cladding material test results indicated a composite section of two distinct material applications, which included an outermost, well consolidated, and air-entrained mixture of Portland cement, slag cement, and a naturally occurring sand. The laboratory indicated that evidence of hand-tooled stucco application (i.e. evidence of notched trowel use or other voids) was not observed within the reviewed sample; therefore, a machine application (i.e. spray-application) of the material could not be ruled out. The exterior cladding material also included up to four thin external applications of coating materials, which included a lime parge coat, a red-colored primer, and a white-colored exterior paint. Walker notes that lighthouses of this age and type were often coated with a lime wash or stucco cladding to protect the enclosed brick masonry wall construction; however, the exact age and installation methods for the existing cladding (or any associated extensive repairs, replacement, or re-coating) were unknown. Walker also notes that as our cladding sample was taken from the base of the lighthouse (near ground level), it is likely that the thickness of the outermost cladding layer varies depending on location on the building.

Photo 2: *Exterior cladding sample collected by Walker and sent for material petrographic analysis.*

It was noted that the existing stucco was likely not original, which also corresponded with laboratory petrographic and visual analysis, which dated the exterior cladding material to a "post-1950's"-era composition. Rehabilitation projects completed on similar, historic lighthouses have required the removal of exterior cladding materials determined to consist of shotcrete, although Walker notes that shotcrete typically consists of a mixture of both fine and course aggregates, as well as a mix ratio of 1 part cement to 4 parts aggregate (depending on dry-mix or wet-mix method), and the analyzed exterior cladding sample included volumetric proportions of 1 part cement (with 0.2 additional slag cement) to 3 parts sand. Due to their similar compositions, both shotcrete and stucco materials can be spray-applied to exterior walls. Additional petrographic or microscopic analysis may provide further

information on the material characteristics of the cladding sample to further inform a historic treatment approach, if requested by the Client or the State.

Select, additional material samples were collected and are being stored by Walker in the event that additional testing verification is requested or required by the Client or State as a part of future repair project efforts.

Historic Treatment Approach

Walker's recommendations will adhere to the recommended preservation, rehabilitation, and restoration project practices, as described in the referenced *Standards*, as well as similar preservation treatments described in the *Handbook,* which specifically outlines recommended procedures for historic lighthouse masonry structures of this type. Walker recommends prioritization of the following repair items related to planning a recommended preservation project program at the Amelia Island Lighthouse:

- Interior Brick Masonry Cleaning & Existing Coating Stripping
- Granite Stair Repairs & Consolidation Treatment
- Exterior Stucco Repairs & Mineral Silicate Coating Application
- Selective Cladding Repairs at Exterior Corroded Cast Iron Connections
- Interior Brick Masonry Re-pointing & Selective Brick Replacement
- Interior Brick Masonry Consolidation Treatment

A historic preservation project scope of work will typically include an intensive restoration pre-construction mock-up and contractor repair demonstration process, to be reviewed by the State and directed/documented by the Designer of Record, including:

  - Contractor demonstrations of brick masonry replacement, mortar joint re-pointing, stucco repair, and masonry cleaning methods, to ensure that actual means and methods are employed to minimize damage to all historic material substrates;
  - Multiple Contractor mock-ups of new stucco and masonry/granite coating and consolidant application, to allow for review of final finish and color selection, and to ensure final watertightness of the complete coating and consolidant systems.

Opinion of Probable Repair Costs

Walker's opinion of probable cost for the recommended, 4-year phased preservation project is shown below.

- Year 1 - Limited Interior Masonry Preservation & Repairs: $131,250
- Year 2 - Exterior Lighthouse Cladding Preservation, Selective Repairs & Coating: $625,000
- Year 3 – Comprehensive Interior Masonry Re-pointing: $625,000
- Year 4 – Selective Interior Masonry Repairs & Consolidant Application: $625,000

A detailed description, including breakdown of probable project repair costs and other allowances (including consultant fees) is presented in the attached, detailed Appendix A table.

Observations

Brick Masonry and Mortar

Walker observed brick deterioration, including flaking and spalling, of the interior face of exposed brick units. The worst brick and mortar conditions were at the bottom of the lighthouse, progressively becoming less deteriorated moving up the tower. Efflorescence was noted in numerous locations which is indicative of continuous moisture intrusion in the brick wall assembly and may also indicate some degree of "rising damp" occurring at the base of the structure. A significant crack in the brick and mortar was observed within the weight box located at the top of the spiral stairs, which may be attributable to differential movement. Brick samples from this area were obtained and tested. The results of the brick testing are provided in Appendix B.

Photo 3: *Typical condition of an original lime mortar joint, with some mortar erosion visible, observed at interior wall.*

Deterioration of the outer ½-inch layer of mortar was observed throughout the interior. The most deteriorated brick mortar was the consistency of sand and was easily able to be scraped out of the joints by hand. The results of the mortar testing are provided in Appendix B.

Mortar repairs were observed in select locations, containing what appeared to be a more solid, or firmer, mortar than that the existing surrounding mortars. These materials were more than likely installed during the previous restoration projects that have been completed on the structure, although exact ages of observed repair mortars were not verified through laboratory testing as it was determined to not be relevant for a preservation or restoration program.

Photo 4, 5 and 6 (Left to Right): *Typical spalled brick condition and efflorescence near base of lighthouse interior; previously repointed mortar joint with newer mortar material; vertical crack within weight box at interior masonry wall.*

Interior Paint

The interior masonry walls of the lighthouse were covered in white paint, which was mostly delaminated and/or severely deteriorated. Approximately 50% of the interior brick walls were missing paint, as the existing material appears to have peeled off the brick surfaces over the years. The paint that remained on the walls was not adhered to the masonry substrate in most areas and was typically able to be removed by hand. The condition of the brick where the paint remained intact was not observed; although Walker was able to note several locations where water, efflorescence or rust stains had penetrated through the existing paint material.

Photo 7: *Interior view of painted brick masonry surfaces, looking up the lighthouse staircase.*

Photo 8: *Up-close view of deteriorated, previously existing masonry coating at interior wall surface, with rust staining present.*

Exterior Stucco and Coatings

Widespread cracks within the exterior stucco were observed on all sides of the lighthouse from the ground level. Cracks typically extended from window corners or from the base of the lighthouse. Step cracks, potentially in line with the brick structure behind it, were also observed. A sample of the exterior stucco was obtained and sent to a lab for materials testing. The results of the stucco testing are provided in Appendix B.

The white coating (exterior finish) of the exterior stucco was in a deteriorated condition. The coating was peeling and eroded or weathered throughout the observed exterior wall surfaces.

Wood Windows and Finishes

The wood-framed window units, which reportedly replaced previously existing metal units as a part of the 2004 restoration, were in good condition. Also included within the previous restoration project, louvres were installed beneath all but one of the windows and always remain open to provide ventilation. The windows cannot be opened as they have been sealed shut.

The window openings interior sills and soffits were clad in lock-and-groove wood paneling. The window sills were observed to be sagging, indicating the supporting framing structure within is likely damaged or deteriorated due to long-term moisture exposure. Moisture and corrosion stains were observed on the surface of the window sills. The interior wall surface at each window well was clad in stucco, which was in good condition.

Clockwise from Far Left

Photo 9: *Up-close view of existing stucco crack width, measuring 1/8-inch.*

Photos 10 and 11: *Two examples of widespread exterior stucco cracks and surface (coating) deterioration, which emanate from window corners.*

Photo 12 (Inset): *Up-close view of deteriorated stucco coating (white surface layer of material).*

Photo 13: *Interior view of wood-framed window assembly, with stucco jamb separations visible at each side.*

Granite Stairs

The spiral stairs of the lighthouse were made of solid granite sections set into the brick walls and were integrally constructed with and supported on a central "column" in the center of the spiral. These were reportedly the original stairs, and they were in fair condition, with noted edge deterioration and/or erosion present.

Previous mortar or epoxy repairs appeared to have been made to the underside of the stairs, between each step; however, although some patch materials appeared unsightly, these repairs were typically observed to be bonded to the substrate and were in fair condition. Misalignment of the center support (granite central bearing "column") was also observed; although, no significant cracks or spalls were observed. The spiral stairs had a wooden railing fastened to the brick walls by wood blocking, both of which were in poor condition. Supplemental metal connections had been installed between wood railing sections in some locations.

Clockwise from Top Left -

Photo 15: *Granite stair, viewed from the underside, with previous repair patches and spalled/missing material.*

Photo 16: *Up-close view of granite stair tread surfaces with surface deterioration.*

Cast Iron

The exterior of the rotation and lantern rooms, as well as the gallery railings, walking surface and support brackets, were comprised of painted cast iron, which was in good condition. The cast iron was fully encapsulated by a paint/coating system, which was in good condition. Small, isolated areas of corrosion stains could be observed at cast iron connection points near the top of the exterior wall (highly visible on bright white stucco surfaces).

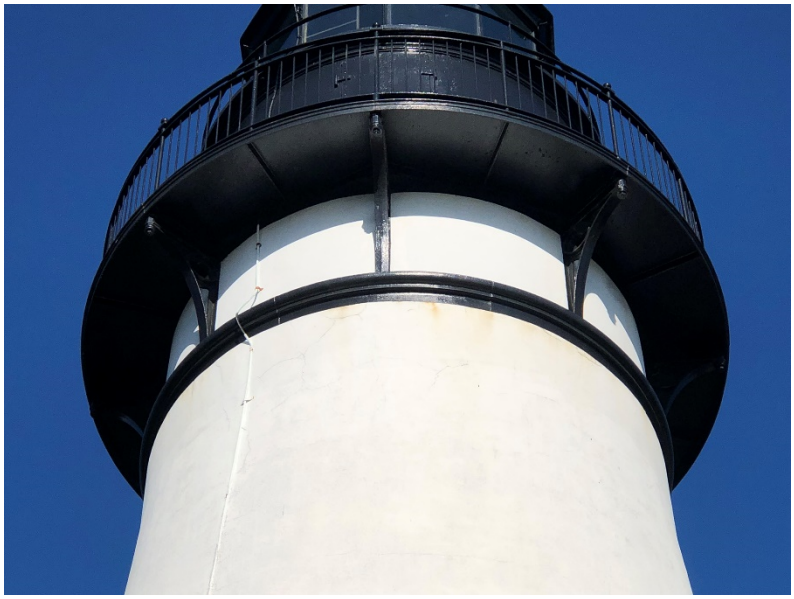

Photo 17 (Left): *View of cast iron elements crowning the historic lighthouse structure. Minor, isolated corrosion stains were observed at the top, near cast iron structural supports.*

Photo 18 (Right): *Overview of coated cast iron elements, including the walking deck and railings.*

A DISTINCTIVE TYPE OF ARCHITECTURE DEVELOPED DURING A DEFINED PERIOD OF HISTORY, BRICK LIGHTHOUSES EMPLOY AN UNUSUAL METHOD OF CONSTRUCTION INTENDED FOR A SPECIFIC PURPOSE.

Discussion & Recommendations

Historic Lighthouse Treatment Approach

Walker understands that the Amelia Island Lighthouse is listed on the National Register of Historic Places. The principles documented within the *Standards* apply as regulations to each of the four distinct historic treatment approaches for all projects on historic properties planning to submit for federal grant-in-aid funding and are summarized below. The choice of an appropriate treatment may depend on a variety of factors, including a property's historic significance, physical condition, proposed use, and intended interpretation.

- ***Preservation*** – defined as the process of applying measures necessary to sustain the existing form, integrity, and materials of a historic property. Work typically includes **stabilization** and focuses on **on-going maintenance** and **repairs** to existing, historic materials, rather than extensive replacement and new construction. Preservation may be considered as a treatment when the properties distinctive materials, features, and spaces are essentially intact and thus convey the historic significance without extensive repair or replacement; when depiction at a particular period is not appropriate; and when a continuing or new use does not require additions or extensive alterations.
- ***Rehabilitation*** – defined as the process of making possible a compatible use for a property through **repair, alterations, and additions** while **preserving** those portions or features which convey its historical, cultural, or architectural values.
- ***Restoration*** – defined as the process of accurately depicting the form, features, and character of a property as it appeared **at a particular period** by means of the **removal of features from other periods** in its history and reconstruction of missing features from the restoration period.

Photo 19: *Historic photo of the Amelia Island Lighthouse, courtesy of Chris Belcher.*

- ***Reconstruction*** – defined as the process of depicting, by means of **new construction**, the form, features, and detailing of a non-surviving site, landscape, building, structure, or object for the purpose of replicating its appearance at a specific period of time and in its historic location.
- ***Monitoring*** – *although not specifically included within the Standards as a Treatment approach*, monitoring of historic lighthouses and significant structures of this type is always recommended in the event that a proposed construction project needs to be delayed or deferred for any reason. Monitoring may include additional visual assessments at regular intervals, as well as other measures to determine and quantify the extent of progressing deterioration or worsening damage to the structure or historic features of the property.

Walker's recommendations have been developed in conjunction with the following key priorities for the subject property, as related to implementation of a selected treatment strategy, and in accordance with the principles as described within the lighthouse-specific *Handbook*:

- Identification and documentation of character-defining features
- Visual observation and determination of conditions
- Prioritization of maintenance and repairs
- Development of a historic treatment approach for an upcoming maintenance project, including monitoring plan
- Determination of quantities of existing materials for an upcoming maintenance project

Brick Masonry and Mortar

The Amelia Island lighthouse consists of varying thickness of multi-wythe, or "mass", brick masonry wall assemblies which comprise the primary structure of the building, including an interior wall and exterior wall, which appeared to be connected by various perpendicular wall assemblies. The overall mass wall thickness decreases moving up the height of the lighthouse structure.

Water infiltration through the exterior "stucco", brick and mortar joints combined with non-breathable coating has caused deterioration of the brick masonry and mortar. Non-breathable coatings applied to the masonry will trap moisture and humidity within the mass wall assembly (including at exterior cladding) surfaces leading to further deterioration of the masonry wall assembly.

Photo 20: *View, from interior, of exterior wall (at right) and interior wall (at left), connected by perpendicular brick masonry wall (at center).*

The existing mass masonry lighthouse was constructed in 1839, in a period when masonry wall evaporative drying was expected to occur naturally and slowly over time. Each of the typical mass wall components represent typical building materials of the period, including wood-framed windows which were restored in 2004, and numerous wythes of fired clay brick masonry, which would typically absorb and allow moisture evaporation to both the exterior and interior. Walker noted that the historic lighthouse structure is not conditioned and environmental thermal cycles and relative humidity extremes throughout the year in the coastal Florida climate can directly influence the behavior of the moisture absorption and evaporation cycles of the masonry wall as well as impact the performance of the coating finish materials.

Interior paint finishes appeared to include an extensively deteriorated and delaminated white coating material (identified as BASF Acryl 60 according to previous project documentation). Typically, damaged or deteriorated coating materials should be removed only to the next sound layer, using the least invasive or gentlest means possible (such as hand removal or hand scraping) before recoating. It is not typically recommended to remove any

coating that is firmly adhering to, and thus protecting, masonry surfaces. However, based on the observed conditions at interior brick masonry walls, complete removal of the non-breathable, existing deteriorated interior coating materials is recommended.

Extensive repointing and selective brick replacement (to address areas of cracked or spalled brick masonry units) are typically required to address deteriorated masonry wall conditions. Based on observed conditions, Walker recommends 100% repointing at lighthouse interior masonry wall surfaces and selective replacement of damaged or deteriorated brick masonry units. Deteriorated mortar should be removed by hand, when possible, to avoid damage to the brick masonry. Mechanical removal of existing mortar may be permitted in certain cases where an intensive mock-up and construction practice approval process is directed and documented by the designer of record. Based on our observations, repointing of all interior masonry mortar joints will likely be required, after completion of removal of the existing coating. Repointing at the historic lighthouse should be performed using lime-based mortar selected to match the existing mortar properties and suitable for historic projects of this type. Modern repointing mortars, which contain Portland cement, should be avoided, and removed, where existing.

THE LIGHT-HOUSE OF FERNANDINA, EXCEPTIONALLY SITUATED, A MILE FROM THE SEA, ON A STEEP EMINENCE WITH A MOST PICTURESQUE GROVE OF ANCIENT OAKS...

Excerpt from NRHP "Florida's Historic Lighthouses" Description

Exterior Stucco and Coatings

Exterior stucco finishes at the lighthouse were measured at 3/4-inch thick, were directly applied to the brick masonry structure, and included isolated cracks, with measured widths ranging from hundredths of an inch to 1/8th of an inch in width. Walker notes that only cracks accessible from ground level were able to be measured. An unknown type of white, exterior coating material was applied directly to the stucco exterior surfaces, which included widespread evidence of continuous weathering.

The outermost layers of the existing exterior stucco material consisted, according to the results of our material testing analysis, of a lime parge coat, a red-colored primer, and a white-colored paint.

Typically, the exterior stucco plaster used on coastal structures of this type is considered nonstructural and is intended to serve as a sacrificial, protective outer coating, to protect the internal masonry structure. Direct-applied stucco cladding of this type consists of a three-layer mortar and sand barrier that bonds to the masonry to prevent water from penetrating to the brick masonry layer. Stucco is typically made up of an aggregate (such as sand, crushed shells, or stone) and a binder (such as lime, gypsum, or natural and manmade cements). Traditionally, frequent re-application of lime mortar washes (lime, water, and sand, applied as a coating), whitewashes (lime and water only), or other types of exterior-grade coatings, was common on coastal lighthouses. According to the *Handbook*, the earliest stuccoes used on lighthouse exteriors often featured lime as a binder. By the middle of the 19th century stucco included imported natural cement. Gray Portland cement stucco (harder and denser than earlier stuccoes) appeared in the 1880s, and white Portland cement was introduced in the early 20th century.

In accordance with the best practices indicated in the *Handbook*, Walker does not recommend stucco removal, as it is understood that the lighthouse historically featured a stucco finish. Areas of delaminated stucco should be verified by sounding, and both cracks and delaminated stucco areas should be repaired by removing the select areas of damaged materials, keying in new patch material, and patching with new stucco material that mimics the original material in strength, composition, color, and texture. Generally, it is preferred to avoid complete removal of sound stucco, provide selective patches, where required, and to avoid using new stucco material which is stronger or denser than the historic material. Cracks should not be "routed and sealed" as with more modern assemblies, as this type of repair would be highly visible and would weather differently than the surrounding materials. Sealants at cracks, where existing, should be removed, and the underlying substrate patched. Each layer of the stucco should be patched separately as shown in the excerpted *Handbook* diagram.

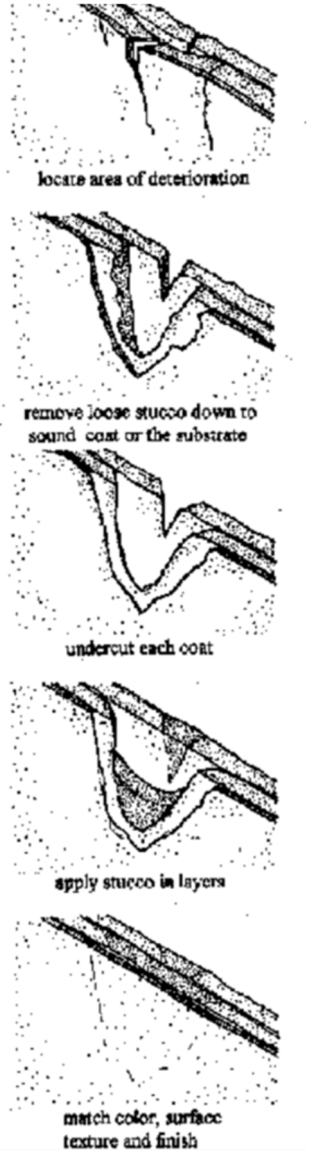

Photo 22. *Excerpted Stucco repair diagram showing crack repair technique, from NPS Drawing, included within the Historic Lighthouse Preservation Handbook, page 22.*

Exterior cladding removal (whether stucco or shotcrete) may prove extremely difficult and labor-intensive and cause damage to the underlying masonry, due to the combination of the well-adhered external materials and the brittle nature of the embedded brick masonry structure with comparatively softer lime mortar

joints. Mechanical removal of the select areas of deteriorated exterior cladding material will require slow and methodical processes to ensure preservation of the embedded materials. Re-application of a direct-applied, three-coat stucco finish system with a breathable mineral silicate coating would be performed after the Project Team ensures that the masonry structure is fully stabilized, repaired, and repointed, as necessary.

New coatings applied to both brick masonry and stucco masonry surfaces should provide adequate permeability to allow for moisture evaporation and should allow the existing masonry material to "breathe". Walker typically recommends mineral silicate coatings for this application; these products provide the dual benefits of permeability and integrally (both mechanically and chemically) bonding to the brick or stucco masonry substrate. Mineral silicate coatings provide both resistance to severe coastal environmental exposures and high-performance water repellency, lasting 20 years or more when proper installation procedures are followed. Additionally, the Client may wish to consider either leaving all restored interior brick finishes fully exposed or applying a breathable, water repellent sealer and brick masonry consolidant product. Masonry sealer/consolidant technology is typically breathable and durable (when selected from applicable manufacturers) and will protect the masonry surfaces without altering the appearance. All masonry surface treatments specified as a part of a preservation or restoration project scope of work should mandate minimum Contractor mock-up requirements for Design Team, Client, and State review.

Wood Windows and Finishes

Wood-framed windows and glazing panes were generally in good condition. Tongue and groove wood window sill & soffit finishes were generally in poor condition, and deteriorated wood framing was observed.

Walker recommends selective replacement any deteriorated or damaged interior finishes, and re-painting of existing finished areas, as a part of any proposed preservation project. Selective replacement may include portions of the wood sill, soffit, and railing components.

Walker also noted several electrical components, including light fixtures, junction boxes, and outlets, which were deteriorated and corroded and should be replaced as a part of an overall preservation project; however, a comprehensive review of existing lighting, mechanical or electrical systems was considered outside the scope of our assessment.

Granite Stairs

Granite stair treads included varying degrees of stone material deterioration and/or erosion on all exposed stone surfaces (top, sides, and undersides), and mortar joints between stairs ranged in condition from good (sound) to poor (debonded or delaminated).

Deteriorated, spalled, or cracked stone surfaces should be repaired with specialty stone epoxies and repair mortars selected to match the existing granite properties and restore the stone step profiles. Walker also recommends application of a stone consolidant on the existing stair surfaces, to preserve and protect the intact natural stone materials and to provide additional durability and water repellency to prevent continued water-related deterioration.

Cast Iron

Painted cast iron components at the lighthouse were generally in good condition, and extensive re-painting was performed most recently as a part of the 2004 restoration.

Walker notes that any cast iron components that are exposed to contact with masonry may experience accelerated deterioration and resultant corrosion due to moisture or salt water (chloride) infiltration within the masonry assembly. Typically, rust streaks will be visible on the masonry surfaces below the deteriorated components. Masonry repairs, in locations where cast iron structural framing tie-ins occur, should accommodate both fully re-coating and re-pointing the mortar joints in these areas, providing high-performance finishes on the cast iron, and installing a sealant joint to accommodate incidental movement of these elements.

Conclusions

It is our opinion that the existing, Amelia Island lighthouse is considered safe to use and access in its current and continuous function as a historic local landmark, which typically accommodates relatively low levels of visitors throughout the year and operations personnel access for maintenance and monitoring. The structure is exhibiting typical evidence of masonry deterioration and material weathering, which require a combination of repairs and ordinary maintenance, and which are consistent with the building's proximity to the Atlantic coastal environment and Florida climate exposure.

Walker did not observe any unsafe conditions, such as overhead debris hazards or out-of-plane building movement, at the time of our assessment; however, we recommend that continued, active monitoring be continued by on-site personnel, to ensure that any exacerbated defects or deficiencies are observed and addressed immediately, to protect human health and safety and to ensure longevity of the landmark.

Consistent with the standard of care for this type of structure, an engineering condition assessment should be conducted, at a minimum, every five years, to review and monitor the condition of the historic masonry lighthouse. However, Walker also notes that, due to the nature of this type of multi-wythe wall construction, a façade inspection is not considered a guarantee that all unsafe conditions will be identified.

Walker also recommends budgeting for an exterior preservation project within the next two to three years, to provide overall durability of the historic fabric of the existing lighthouse and, where present, to repair identified deficiencies or defects identified within this report. Walker recommends consideration of a single project approach, due to the specialized nature of this unique, historic preservation project. The Client should consider the following contributing factors to overall project cost:

- Several critical design factors will directly impact both cost and schedule for an exterior wall repair project, including both material product selection and availability, Client-permitted contractor schedule, access, and site logistics, and total quantity of materials ordered. Walker's estimated cost information is informed by recently completed projects performed on similarly complex historic structures.
- The project will most likely require a specialty historic restoration contractor to install enclosed, pipe-frame scaffolding at the lighthouse interior and exterior for various durations, dependent upon project phasing.

Walker recommends prioritization of the following repairs as a part of a comprehensive, phased preservation project program at the Amelia Island Lighthouse:

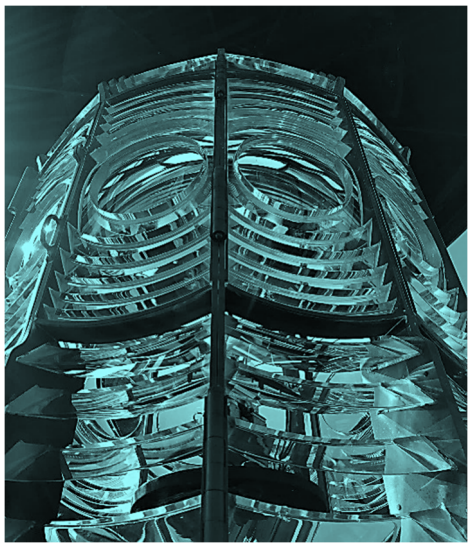
- Interior Brick Masonry Cleaning & Existing Coating Stripping
- Granite Stair Repairs & Consolidation Treatment
- Exterior Stucco Repairs & Mineral Silicate Coating Application
- Selective Cladding Repairs at Corroded Cast Iron Exterior Connections
- Interior Brick Masonry Re-pointing & Selective Brick Replacement
- Interior Brick Masonry Consolidation Treatment

The above identified scope of work will need to be incorporated into complete construction documents, including technical specifications and repair drawings, prepared by a qualified design team approved the Client and applicable State review board. Construction documents should include historic material test reports, building elevation and plan drawings, as well as repair details for project-specific conditions. Technical specifications should incorporate consideration of the applicable *Standards* referenced herein, as well as specific Contractor mock-up requirements for all phases of the work (repointing, brick replacement, consolidant and coating application, etc.).

Closing

The Amelia Island Lighthouse is the oldest, operational lighthouse in the State of Florida and is the westernmost lighthouse on the east coast of the United States. Walker is proud to present the City of Fernandina Beach with the observations and recommendations presented in this report and would be pleased to be given the opportunity to continue to work to preserve the legacy of this Florida landmark.

This report contains the professional observations and opinions of Walker Consultants within a reasonable degree of engineering certainty based on the conditions visually observed as of the date of our site visit, the information available in the public domain, the information made available at the time of our evaluation, our education, training, and experience with similar projects. The information presented in this report represents a summary of results of our limited visual investigation to date. Should additional information become available, we request that it be brought to our attention as soon as possible so that we may fully address it, if related to the content of this report.



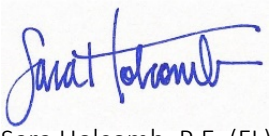


Photo 23. *Light at the top of the structure includes a third order Fresnel Lens fabricated in Paris, which is reportedly visible for up to 15 miles, according to the historic plaque at the site.*

Further information is necessary to develop the scope of a historic preservation project, in accordance with the applicable historic *Standards*, as described in this preliminary letter report. This report was created for the exclusive use of the Client and may not be assigned without written consent from Walker Consultants. Use of this report by others shall be at their own risk.

Walker Consultants appreciates the opportunity to continue to assist the City of Fernandina Beach and the preservation team at the Amelia Island Lighthouse and be a part of future preservation efforts. If there are any questions regarding the findings, recommendations, and/or opinion of probable costs outlined in this report, please do not hesitate to contact us.

Sincerely,

WALKER CONSULTANTS

Appendix B – Historic Material Test Reports

Limitations

This report contains the professional opinions of Walker Consultants based on the conditions observed as of the date of our site visit and documents made available to us by Client's Name (Client). This report is believed to be accurate within the limitations of the stated methods for obtaining information.

We have provided our opinion of probable costs from visual observations, limited testing, and field survey work. The opinion of probable repair costs is based on available information at the time of our assessment and from our experience with similar projects. There is no warranty to the accuracy of such cost opinions as compared to bids or actual costs. This condition appraisal and the recommendations therein are to be used by Client with additional fiscal and technical judgment.

It should be noted that our recommendations are conceptual in nature and do not represent changes to the original design intent of the structure. As a result, this report does not provide specific repair details or methods, construction contract documents, material specifications, or details to develop the construction cost from a contractor.

Based on the agreed scope of services, the assessment was based on certain assumptions made on the existing conditions. Some of these assumptions cannot be verified without expanding the scope of services or performing more invasive procedures on the structure. More detailed and invasive testing may be provided by Walker Consultants as an additional service upon written request from Client.

The recommended repair concepts outlined represents current generally accepted technology. This report does not provide any kind of guarantee or warranty on our findings and recommendations. Our assessment was based on and limited to the agreed scope of work. We do not intend to suggest or imply that our observation has discovered or disclosed latent conditions or has considered all possible improvement or repair concepts.

A review of the facility for Building Code compliance and compliance with the Americans with Disabilities Act (ADA) requirements was not part of the scope of this project. However, it should be noted that whenever significant repair, rehabilitation or restoration is undertaken in an existing structure, ADA design requirements may become applicable if there are currently unmet ADA requirements.

Similarly, we have not reviewed or evaluated the presence of, or the subsequent mitigation of, hazardous materials including, but not limited to, asbestos and PCB.

This report was created for the use of Client and may not be assigned without written consent from Walker Consultants. Use of this report by others is at their own risk. Failure to make repairs recommended in this report in a timely manner using appropriate measures for safety of workers and persons using the facility could increase the risks to users of the facility. Client assumes all liability for personal injury and property damage caused by current conditions in the facility or by construction, means, methods and safety measures implemented during facility repairs. Client shall indemnify or hold Walker Consultants harmless from liability and expense including reasonable attorney's fees, incurred by Walker Consultants as a result of Client's failure to implement repairs or to conduct repairs in a safe and prudent manner.

Appendix A: Opinion of Probable Costs

Repair Item	Estimated Repair Quantity	Unit	Estimated Unit Price	Total
Year 1: Limited Interior Masonry Preservation & Repairs				
Masonry Cleaning & Paint Stripping (Interior Walls Only)	3,000	SF	$ 25.00	$ 75,000.00
			Construction Subtotal Year 1	**$ 75,000.00**
			Contractor General Conditions/Mobilization (~20%)*	$ 15,000.00
			Project Contingency (~15%)	$ 11,250.00
			Consultant Design, Bidding & Construction Administration Fees**	$ 30,000.00
			Total Estimated Year 1 Project Cost	**$ 131,250.00**
Year 2: Exterior Lighthouse Cladding Preservation, Selective Repairs & Coating				
Exterior Stucco Patch Repairs, Cleaning & Mineral Coat Application	1	LS	$ 400,000.00	$ 400,000.00
Granite Stair Tread Consolidation	1,500	SF	$ 20.00	$ 30,000.00
			Construction Subtotal Year 2	**$ 430,000.00**
			Contractor General Conditions/Mobilization (~20%)*	$ 86,000.00
			Project Contingency (~15%)	$ 64,500.00
			Consultant Design, Bidding & Construction Administration Fees**	$ 44,500.00
			Total Estimated Year 2 Project Cost	**$ 625,000.00**
Year 3: Comprehensive Interior Masonry Re-pointing				
100% Masonry Joint Re-Pointing	3000	SF	$ 140.00	$ 420,000.00
			Construction Subtotal Year 3	**$ 420,000.00**
			Contractor General Conditions/Mobilization (~20%)*	$ 84,000.00
			Project Contingency (~15%)	$ 63,000.00
			Consultant Design, Bidding & Construction Administration Fees**	$ 58,000.00
			Total Estimated Year 3 Project Cost	**$ 625,000.00**
Year 4: Selective Interior Masonry Repairs & Consolidant Application				
Application of Breathable Brick Masonry Consolidant (Clear, Interior Walls Only)	3000	SF	$ 20.00	$ 60,000.00
Selective Brick Masonry Replacement	1,500	SF	$ 250.00	$ 375,000.00
			Construction Subtotal Year 4	**$ 435,000.00**
			Contractor General Conditions/Mobilization (~20%)*	$ 87,000.00
			Project Contingency (~15%)	$ 65,250.00
			Consultant Design, Bidding & Construction Administration Fees**	$ 37,750.00
			Total Estimated Year 4 Project Cost	**$ 625,000.00**

Please note that for estimating purposes, all numbers in the above table have been rounded to the nearest $1,000.

* Project phased breakdown includes “Contractor General Conditions and Mobilization”, estimated at 20% of the project contract total. This line item is intended to capture miscellaneous and currently unknown costs associated with construction escalation (increases in labor or materials), inflation, contractor access – such as custom scaffolding - and mobilization logistics (which may vary for each project and year based on site conditions, safety regulations, weather, and other client-mandated requirements). These numbers do not include estimates for

performance and payment bonds or taxes. *If engaged for design services, Walker can assist in providing annual cost estimate updates each year, based on Client-approved project phasing and State-approved funding requirements.*

** Walker has provided fee estimates for our design and project management services associated with a 4-year phased preservation project approach. Walker will develop a proposal for each project year and provide a more accurate fee once the scope has been identified in each project year. Our Year 1 fee estimate includes initial development of lighthouse elevation and plan drawings and front end specifications to be adapted for all four year's projects. Each project's consultant fee estimate represents the development of construction documents suitable for submission to the State to secure grant funding for each phase of the work, bidding assistance, and construction project management, including critical mock-up and submittal reviews, and periodic site visits to inspect the work, ensuring compliance with applicable historic standards throughout the projects.

Appendix B: Historic Material Test Reports

REPORT OF MORTAR AND STUCCO ANALYSIS

Project:
Amelia Island Lighthouse Consulting
Walker Project No.: 15-002681.00

Reported To:
Walker Consultants
10375 Park Meadows Drive, Suite 425
Lone Tree, CO 80124

Attn: Sara Holcomb
AET Project No.: P-0020522 **Date:** March 20, 2023

INTRODUCTION

This report presents the results of laboratory work performed by our firm on one of nine mortar samples and one exterior cladding (stucco) sample submitted by you on February 17, 2023. The mortar and stucco samples were reportedly procured from the lighthouse on Amelia Island, Florida. Information obtained online indicates the lighthouse was established in its current location circa 1838 and has undergone several alterations since its inception. The age of the mortar and stucco samples is unknown to us and is in question. The scope of our work was confined to performing petrographic and chemical analysis on the mortar sample #8 and the exterior cladding sample, per ASTM C1324 "Examination and Analysis of Hardened Masonry Mortar" to document the condition, composition, and proportions of the mortar and stucco sample; and if possible, provide comments on their age, depth of carbonation, and cement morphology. Three paint samples and four brick samples were also received for analysis and their results are reported separately.

CONCLUSIONS

Based on our observations and testing, we believe:

1. The following table outlines the volumetric proportions of ingredients documented in the submitted samples:

Sample ID	Portland Cement	Slag Cement	Sand
Exterior Cladding	1	0.2	3.0

Sample ID	Hydrated Lime	Sand
Mortar Sample #8	1	3.0

550 Cleveland Avenue North | Saint Paul, MN 55114
Phone (651) 659-9001 | (800) 972-6364 | Fax (651) 659-1379 | teamAET.com | AA/EEO
This document shall not be reproduced, except in full, without written approval from American Engineering Testing, Inc.

2. Mortar sample #8 was composed of a fairly well consolidated mixture of hydrated lime and a naturally occurring sand. The mortar paste was soft (Mohs ≈ 2.5) and ranged from pale yellowish brown to dark yellowish orange in coloration (Munsell® 10YR 6/2 to 10YR 6/6). The lime observed in the mortar consisted of fine sand to silt-sized agglomerations that appeared bright white in hand sample. The binder was fully carbonated and contained many autogenous shrinkage microcracks – typical of those that form during the drying and curing of lime-based materials. The mortar was not air entrained.

3. The exterior cladding sample was a composite section of two distinct stucco applications, and our analysis was focused on the outermost/exterior stucco layer. The analyzed layer was composed of a well consolidated mixture of portland cement, slag cement, and a naturally occurring sand. The stucco paste was soft (Mohs ≈ 2.5) and ranged from similar to yellowish gray to light olive gray (Munsell® 5Y 8/1 to 5Y 6/1). Several sand to pebble-sized paste nodules or agglomerations were documented throughout the stucco binder which contained abundant residual cement particles. The stucco was air entrained and contained an estimated 4 to 6% air void content. The binder was carbonated through a depth of 4 mm (5/32") to 5 mm (3/16") from the outer surface and exhibited partial carbonation throughout the remainder of the thickness. The exterior surface of the stucco was coated with up to four thin (< 1 mm each) applications of material which appeared to be: a lime parge coat, a red-colored primer, and white-colored paint. The underlying stucco layer contained portland cement and abundant carbonate fines and was consistent with masonry cement composition.

4. The fine aggregate in mortar sample #8 was a natural quartz and feldspar sand. The sand within the mortar was very uniformly graded with a very consistent particle size throughout the mortar. The individual grains were mostly sub-angular to sub-round with a few angular particles also observed. The mortar fine aggregate was consistent with a locally sourced 'beach sand'.

5. The fine aggregate in the stucco was a naturally occurring quartz and carbonate sand. The sand within the stucco was well graded, with a wide range of particle sized present. The individual grains were mostly sub-angular to sub-round with a few angular particles also observed.

SAMPLE IDENTIFICATION

Sample Type: Hardened Masonry Mortar

Sample ID	Sample Size
Mortar Sample #1	Powder ~ 14 grams
Mortar Sample #2	Powder ~ 29 grams
Mortar Sample #3	Powder ~ 36 grams
Mortar Sample #4	Powder ~ 30 grams
Mortar Sample #5	Powder ~ 19 grams
Mortar Sample #6	Several Fragments ~ 190 grams
Mortar Sample #7	Powder ~ 177 grams

Sample ID	Sample Size
Mortar Sample #8	Several Fragments ~ 170 grams
Stair Mortar Sample	Several Fragments ~ 100 grams

Sample Type: Hardened Stucco Section

Sample ID	Length	Width	Height
Exterior Cladding	64 mm (2-1/2")	64 mm (2-1/2")	25 mm (1")

DISCUSSION

The composition of the analyzed mortar sample was consistent with originating from historic masonry construction and was likely from the original construction. According to the U.S. National Archives[1], "Stucco was applied to the exterior walls about 1890", however, the submitted stucco sample composition was not consistent with masonry construction of that time. The residual portland cement clinker within the stucco binder was much finer than would be expected of portland cement of that age. Portland cement did not realize widespread use in the United States until around the 1880s. Early portland cements were coarsely ground, resulting in fine to coarse sand-sized clinker particles. The clinker particles observed within the stucco were consistent with a more recent (late 20th century) portland cement and reached up to 175 microns in diameter. The techniques and equipment required to grind portland cement to the size observed in the stucco would not have been available in 1890. The presence of slag cement within the binder is also suggestive of non-historic construction. Additionally, the analyzed stucco overlaid a separate stucco placement that contained a masonry cement binder. Masonry cement mortars were not implemented until the late 1920s. Furthermore, the depth of carbonation is shallower than would be expected of a stucco placed in the late 19th century. No alterations to the stucco exterior of the lighthouse during the 20th century were documented within the referenced National Register document.

TEST PROCEDURES

Laboratory testing was performed on February 20, 2023, and subsequent dates. Our procedures were as follows:

1.0 Chemistry

Chemical Analysis was performed following procedures in ASTM C1324-latest revision, Standard Test Method for Examination and Analysis of Hardened Masonry Mortar. The test method is used for providing the proportion of the components in some masonry mortars. The petrographic findings suggest this method is applicable for this sample to provide the raw data that is used for estimating the mortar composition.

Dry Loss and Loss on ignition data at 105°, 550° and 950°C was measured following ASTM C1324-10, "Standard Test Method for Examination and Analysis of Hardened Masonry Mortar," Section 9.5. Insoluble residue was determined following ASTM C1324 Section 9.4. Siliceous aggregate content was calculated from the insoluble residue. Silicon and calcium content was measured, when applicable, according to ASTM C1324, "Standard Test Method for Examination and Analysis of Hardened Masonry Mortar." Slag is not a component of proportion based mortars and is not addressed in ASTM C1324. Slag content is estimated using the raw chemistry determinations.

2.0 Petrography

Petrographic observations were performed in accordance with Standard Operating Procedure 24 LAB 005, "Examination and Analysis of Hardened Masonry Mortar," ASTM C1324 - Section 8 Petrographic Examination. The hand sample was viewed under an Olympus SZX12 stereo-zoom microscope with magnification up to 100x. Thin section analysis was performed in accordance with Standard Operating Procedure 24 LAB 012, "Preparation of Thin Sections for Petrographic Analysis, AET Method". The samples are first epoxy-impregnated, highly polished, then epoxied to a glass slide. The excess sample is cut from the glass and the slide is polished until the material reaches 25 microns or less in thickness. The resulting sample is reviewed under a Nikon E600 petrographic microscope at magnifications up to 600x. Thin section analysis is used to identify various cementitious and non-cementitious portions of the mortar.

REMARKS

The remaining portions of the sample will be retained for a period of sixty days from the date of this report. Unless further instructions are received by that time, the samples may be discarded. The services for this project have been conducted in a manner consistent with that level of care and skill exercised by members of the profession currently practicing in this area under similar budget and time constraints. The results relate only to the sample analyzed. No warranty, expressed or implied, is made.

We appreciate the opportunity to have been of service to you on this project. If you have any questions regarding the information presented in this report or if we can be of additional assistance, please contact us.

CHEMICAL RESULTS

Chemical results and calculations are below. Table IA reports the measured chemical composition of the mortar sample following ASTM C 1324. Table IIA reports the calculated values. The calculated volumetric ratio of portland cement to slag cement to sand is presented in Table IIIA.

Table IA: Measured Composition of Mortar Sample

Client ID	Exterior Cladding
Loss @ 105 ° C	4.63
Loss @ 550 ° C	2.37
Loss @ 950 ° C	5.24
% Soluble Silica	5.42
% Insoluble Residue	65.2

Table IIA: Calculated Composition of Mortar Sample

Client ID	Exterior Cladding
Siliceous Sand %	65.2
Portland Cement %	25.7
Slag Cement %	2.0

Table IIIA: Calculated Volumetric Composition of Mortar Sample

Client ID	Exterior Cladding
Portland Cement content	1
Slag Cement content	0.2
Sand content	3.0
Portland Cement to Slag Cement to Sand	1 : 0.2 : 3.0

Chemical results and calculations are below. Table IB reports the measured chemical composition of the mortar sample following ASTM C 1324. Table IIB reports the calculated values. The calculated volumetric ratio of hydrated lime to sand is presented in Table IIIB.

Table IB: Measured Composition of Mortar Sample

Client ID	Mortar Sample #8
Loss @ 105 ° C	4.43
Loss @ 550 ° C	1.17
Loss @ 950 ° C	7.99
% Soluble Silica	0.63
% Calcium Oxide	
% Insoluble Residue	78.4

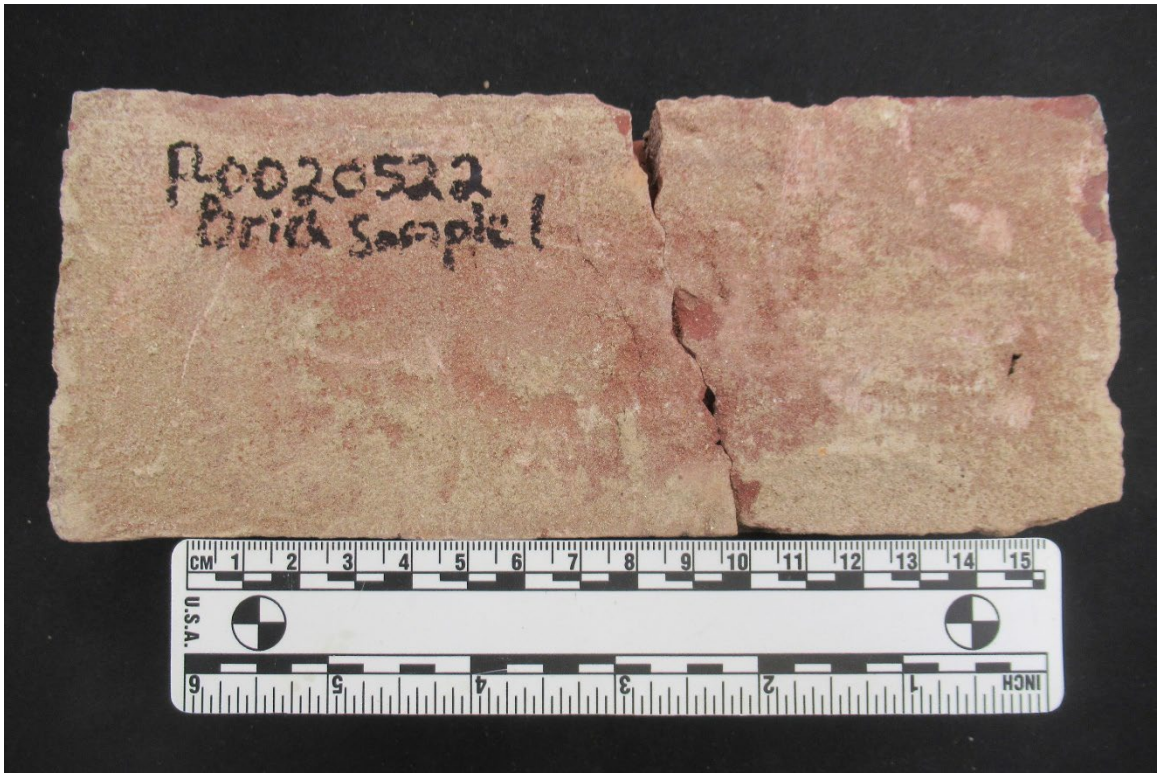

Table IIB: Calculated Composition of Mortar Sample

Client ID	Mortar Sample #8
Siliceous Sand %	78.4
Hydrated Lime %	12.9

Table IIIB: Calculated Volumetric Composition of Mortar Sample

I. INTRODUCTION

The Department of State, Division of Historical Resources, provides State and Federal funds for historic preservation. The purpose of this program is to provide funding to assist major local, regional and state-wide efforts to preserve significant historic and archaeological resources, to assist major archaeological excavations or research projects and assist in the development and fabrication of major museum exhibits that will promote knowledge and appreciation of the history of Florida. The program does not fund operational support for historic preservation organizations. This program provides historic preservation grants on a competitive basis. The Legislature and Governor determine the amount appropriated annually for the program, and funding for all eligible applications is not guaranteed. These guidelines are supported under section 267.0617, Florida Statutes, and incorporated by reference into Rule 1A-39.001, Florida Administrative Code, and they detail the policies and requirements for the application and administration of the Special Category program grants.

II. TIMELINE

March	Announcement of application availability on Division website and via email.
April 1 – June 1	Application submission period. Division staff assistance and consultation available to applicants.
June 1	Applications due. Applications must be submitted on the DOS Grants System at dosgrants.com on or before this date.
June – September	Application review period and review meeting.
July 1 (Year of Appropriation)	Notification of Grant Award and grant details forms available.
September 30	Encumbrance of Funds deadline. Grantee must demonstrate the execution of a binding contract for at least a part of the scope of work.
October 31	First Project Progress Reports due for Special Category projects (Reporting Period: July – September, year 1). Reports must be submitted on the DOS Grants System at dosgrants.com.

January 31	Second Project Progress Reports due for Special Category projects (Reporting Period: October – December, year 1). Reports must be submitted on the DOS Grants System at dosgrants.com.
April 30	Third Project Progress Reports due for Special Category projects (Reporting Period: January – March, year 1). Reports must be submitted on the DOS Grants System at dosgrants.com.
July 31	Fourth Project Progress Reports due for Special Category projects (Reporting Period: April – June, year 1). Reports must be submitted on the DOS Grants System at dosgrants.com.
October 31	Fifth Project Progress Reports due for Special Category projects (Reporting Period: July – September, year 2). Reports must be submitted on the DOS Grants System at dosgrants.com.
January 31	Sixth Project Progress Reports due for Special Category projects (Reporting Period: October – December, year 2). Reports must be submitted on the DOS Grants System at dosgrants.com.
April 30	Seventh Project Progress Reports due for Special Category projects (Reporting Period: January – March, year 2). Reports must be submitted on the DOS Grants System at dosgrants.com.
May 30	Extension request deadline. An extension of the completion date must be requested at least thirty (30) days prior to the end of the grant period.
June 30 (Year 2)	Project Expiration Date. All grant and local matching funds must be expended by this date.
July 31	Final Reports due for Special Category projects (Reporting Period: April – June, year 2). Reports must be submitted on the DOS Grants System at dosgrants.com.

III. PROGRAM DESCRIPTION

1. The Division grants state funds to assist historic preservation activities authorized by Section 267.0617, F.S.

2. State funds consist of funds which have been appropriated by the Florida Legislature, made available from dedicated sources or contributed from any other public or private source.

3. State funds shall be used for historic preservation work approved by the Division and consistent with the applicable Preservation Standards of the Secretary of the Interior and Chapter 267 of the Florida Statutes.

4. To be eligible to apply to the Division for grant funding, an Applicant Organization must be a public entity governed by a county, municipality, school district, community college, college, university, or an agency of state government; or a Non-profit Organization. For Museum Exhibit projects, Applicant Organizations must be a governmental or non-profit Florida history museum established permanently in Florida, promoting and encouraging knowledge and appreciation of Florida history through the collection, presentation, exhibition, and interpretation of artifacts and other historical items related to Florida. The mission of the museum must relate directly to the history of Florida.

5. State-funded Development activities for historic Religious Properties shall be limited to building exterior envelope and structural elements of the building, excluding accessibility upgrades. State-funded Development activities for historic cemeteries shall be limited to work on stabilizing, cleaning and repairing historic gravemarkers and other funerary items, repairing historic fences or structures within the cemetery and installing minimal security lighting.

IV. ELIGIBILITY

All Applicant Organizations must meet the following requirements. **All** documentation must be provided by the application deadline.

1. Must **NOT** have multiple active Special Category projects under contract at one time. Special Category projects have a grant period of 24 months. Unless an Applicant Organization has a smaller project that will be completed in a single year, new applications should be submitted every other year. Subject to Legislative appropriation, Special Category recommendations approved by the Secretary of State will be funded top-down until the appropriation is depleted. Any Applicant Organization on the ranked list that has not completed a previously-funded Special Category project by July 1 of the year for which funds are appropriated will be passed over and the funds will be allocated to the next Applicant Organization on the list without an active Special Category project under contract. A previously funded project is considered complete when it has reached 100% completion as supported by contractor documentation, and the Division has received complete documentation to request a final grant payment.
2. **Must** have the required legal status.
3. Agree to comply with all application requirements:
    a) Complete the approved Scope of Work within the Grant Period;

b) Make activities and Historic Properties that are the subject of the Project open and accessible to all members of the public (see V.B. Accessibility and Non-Discrimination);
c) Match the grant amount requested, dollar for dollar, unless exempted from the full match requirement (see V.C. Request Amount and VI. Match Requirements); and
d) Include only allowable expenses in the Project Budget (see VII. Allowable Expenses and VIII. Non-Allowable Expenses);
e) Agree to comply with all legal and financial requirements as set forth in these Guidelines.

4. Agree to comply with all grant administration requirements, if funded:
   a) Provide all information needed for the Grant Award Agreement;
   b) Request approval for any changes to the Scope of Work and Project Budget of the awarded grant;
   c) Submit timely and accurate reports;
   d) Maintain complete and accurate grant records and if multiple grants from the Division are open at the same time, treat each grant as a separate, distinguishable Project;
   e) Comply with the requirements of the Florida Single Audit Act (Section 215.97, (Florida Statutes) and any applicable federal audit requirements pursuant to 2 CFR 200 Subpart F-Audit Requirements; and
   f) Credit the State of Florida and Division of Historical Resources for funding.
5. Must **NOT** be in non-compliance status with any previously awarded Department grant.
6. Must **NOT** owe the Department funds at the time of application in connection with a previous grant received from any division of the Department, for which the Applicant Organization has been notified of the Department's determination that a refund of grant funds is required.
7. Have satisfied the administrative requirements of previous grants received from the Division or other divisions of the Department, including grants that may be open at the time of application, and be in compliance with all permits issued to the Applicant Organization and/or the proposed project directors and managers by the Bureau of Archaeological Research.
8. Have ownership of the property for which grant funding is requested or have the written concurrence of the Property Owner. Except for projects involving acquisition or site-specific archaeological investigation, the owner must be a public entity or a Non-profit Organization. For the purposes of this program, an eligible Applicant Organization may lease state-owned land or building(s) or both.
9. For Acquisition and Development projects directed at Real Property, if funded, the Grantee (and the Property Owner, if not the Grantee) **must** file a Restrictive Covenant on the property with the Clerk of Court for ten (10) years for Development and twenty (20) for Acquisition prior to final release of grant funds and close-out of the project.
10. For Development projects involving improvements to properties other than Real Property (e.g., an aircraft, locomotive, trolley or marine vessel) and for Museum Exhibit projects, the Grantee (and the Property Owner, if not the Grantee) **must** execute and notarize a Preservation Agreement prior to release of funds. The Preservation Agreement shall require the Grantee and the Property Owner(s) to maintain the improvements or exhibit for a period of ten (10) years for Development projects and five (5) years for Museum Exhibit projects.
11. If the property is leased, **the lease agreement must be dated, signed, and submitted** at the time of the application submission, with the required Owner Concurrence Letter attachment to the application.
12. **Must** have appropriate **matching** funds and documentation at time of application submission.
13. Must complete an online application form at http://www.dosgrants.com by the application deadline.
14. The proposed Project **must** be consistent with the Special Category project type under which it is submitted and with the purpose of this grant program.

15. All grant funding provided by the Special Category Grant Program must be utilized in accordance with the standards, as applicable to the specific project type, contained in the Secretary of the Interior's Standards and Guidelines for Archaeology and Historic Preservation, effective September 29, 1983, https://www.flrules.org/Gateway/reference.asp?No=Ref-08164, which are incorporated by reference, and include:
    a) The Secretary of the Interior's Standards for the Treatment of Historic Properties;
    b) The Secretary of the Interior's Standards for Archaeological Documentation;
    c) The Secretary of the Interior's Standards for Historical Documentation;
    d) The Secretary of the Interior's Standards for Architectural and Engineering Documentation; and
    e) The Secretary of the Interior's Standards for Preservation Planning.
16. Project oversight of museum exhibit projects funded by the Special Category Grant Program must be provided by a historian or archaeologist meeting the Secretary of the Interior's Professional Qualifications Standards for History or Archeology, which are set forth in the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation incorporated in paragraph 1A-39.001(7)(c), F.A.C.

A. Application Restrictions

1. An Applicant Organization may only submit one (1) Special Category grant application under a single application deadline for a particular application cycle. State agencies, county or city governments~~,~~ or universities may submit single applications from more than one division or department under a single application cycle provided that those divisions or departments are separate and distinct budgetary units and provided that applications do not address the same facility, Project or site.
2. Applicant Organizations with projects funded with Federal funding or by the Legislature outside of the review of the Florida Historical Commission or Secretary of State are not eligible to receive Special Category grant support for the same Scope of Work activities from the Division within the same fiscal year in which Federal or Legislative funding is appropriated.
3. Historic Preservation projects do not fund Cultural Facility projects.
4. No organization may receive more than $1.5 million in historic preservation Special Category grant funding from the Division during a consecutive 5 state fiscal year period.
5. State-funded Development activities for historic Religious Properties shall be limited to building exterior envelope and structural elements of the building, excluding accessibility upgrades. State-funded Development activities for historic cemeteries shall be limited to work on stabilizing, cleaning and repairing historic gravemarkers and other funerary items, repairing historic fences or structures within the cemetery and installing minimal security lighting.
6. For Museum Exhibit projects, Organizations must be a governmental or non-profit Florida history museum established permanently in Florida, promoting and encouraging knowledge and appreciation of Florida history through the collection, presentation, exhibition and interpretation of artifacts and other historical items related to Florida. The mission of the museum must relate directly to the history of Florida.
7. Preparation of National Historic Landmark designation nominations shall not be allowable for Special Category grant funding.

B. Legal Status

To meet the legal status requirement, an Applicant Organization must be either a public entity or an active Florida nonprofit, tax exempt corporation as of the application deadline in accordance with section 267.0617(2), Florida Statutes.

C. Public Entity

A Florida local government, entity of state government, school district, community college, college or university. Private schools, private community colleges, private colleges and private universities are not public entities and must be nonprofit and tax exempt to meet the legal status requirement.

D. Nonprofit, Tax Exempt

1. A Florida organization that is incorporated as an active nonprofit Florida corporation, in accordance with Chapter 617, Florida Statutes. For nonprofit organizations outside of Florida, the nonprofit organization must be designated as tax exempt as defined in section 501(c)(3) or 501(c)(4) of the Internal Revenue Code of 1954, as amended. Staff will verify status in Guidestar at https://www.guidestar.org/.

2. The Division will verify that the applicant is registered, and in "active" status, with the Division of Corporations as of the application deadline. If the applicant is not registered and in "active" status with Corporations by the application deadline, the application will be deemed ineligible.

3. For more information on corporate status, visit http://www.sunbiz.org or call the Division of Corporations, profit and nonprofit information line at (850) 245-6052. To verify corporate status, you can review your corporate record online through the sunbiz.org document search tool.

4. For more information about tax exempt status, see Exemption Requirements - Section 501(c)(3) Organizations on the Internal Revenue Service website (https://www.irs.gov/).

E. Required Documentation

1. All applicants must provide a Unique Entity Identifier (UEI) number. This is an identification number required for doing business with the Federal Government. If you do not already have a UEI number, your organization can request a one at https://sam.gov
2. All applicants must provide a copy of the Substitute W-9 with the grant application. This can be found at https://flvendor.myfloridacfo.com/.

V. APPLICATION REQUIREMENTS

A. Grant Period

All proposed activity must take place within a 24-month Grant Period.

1. The grant period **start date** is July 1 of the state fiscal year in which requested grant funding is appropriated by the Florida Legislature.
2. The grant period **end date** is June 30 of the state fiscal year following the fiscal year in which requested grant funding is appropriated by the Florida Legislature, unless an end date extension is approved by the Division and a written contract extension is executed by both parties prior to the original end date of the Grant Award Agreement.

B. Accessibility and Non-Discrimination

The Division is committed to making the knowledge of history accessible to everyone, including:

- persons with disabilities;
- older adults;
- culturally and economically underserved populations; and
- minorities.

Organizations seeking support for activities are required to be open and accessible to all members of the public, consistent with all applicable state and federal laws. Organizations shall not discriminate on the basis of sex, race, color, national origin, religion, disability, age, pregnancy, handicap or marital status.

The Americans with Disabilities Act (ADA) prohibits discrimination against individuals with disabilities in employment, state and local government services, public accommodations, transportation and telecommunication. The ADA extends the requirements under Section 504 of the Rehabilitation Act of 1973, as amended, to all activities of state and local governments and places of public accommodations operated by private entities, including places of public display. The 504 Self Evaluation Workbook which can be used as a reference, and downloadable Disability Symbols can be found at http://dos.myflorida.com/cultural/info-and-opportunities/resources-by-topic/accessibility/.

C. Special Category Grant Types and Request Amount

1. Special Category Grants may provide a maximum grant award amount of $500,000. There is no minimum request amount.

2. Special Category Grant project types:

    a) Development projects with the mission of Preservation, Restoration, Rehabilitation or Reconstruction of historic properties regularly open to the public, and site-specific planning required for these activities such as structural or condition assessment reports. Development

activities on historic Religious Properties shall be limited to building exterior envelope and structural elements of the building, excluding accessibility upgrades. State-funded Development activities for historic cemeteries shall be limited to work on stabilizing, cleaning and repairing historic gravemarkers and other funerary items, repairing historic fences or structures within the cemetery, and installing minimal security lighting;

b) Archaeological Research projects, for all phases of terrestrial and underwater fieldwork, analyses of findings and write-up, or to conduct collection research at established federal, state or public institutions;

c) Museum Exhibit projects to aid Florida history museums in exhibit work, including research of exhibit content, exhibit design, fabrication and installation. Exhibits must be permanently affixed to the building. For Museum Exhibit projects, Organizations must be a governmental or non-profit Florida history museum established permanently in Florida, promoting and encouraging knowledge and appreciation of Florida history through the collection, presentation, exhibition, and interpretation of artifacts and other historical items related to Florida. The mission of the museum must relate directly to the history of Florida. Project oversight of museum exhibit projects funded by the Special Category Grant Program must be provided by a historian meeting the Secretary of the Interior's Professional Qualifications Standards for History, which are set forth in the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation incorporated in paragraph 1A-39.001(7)(c), F.A.C; and

d) Acquisition of a single Historic Property or archaeological site, or group of Historic Properties or archaeological sites, in which all the resources have the same owner. For archaeological sites, an exception to the single owner provision may be made if the archaeological site extends on land that is contiguous, but owned by different property owners.

VI. MATCH

A. Match Requirements

1. All Applicant Organizations **must** provide one dollar in cash or In-kind Contributions (donated goods, property, or services) for every dollar requested from the Division, unless exempted as described below. This is called Match. The total Project Budget includes Match (cash and In-kind Contributions) plus the request amount. All Match contributions, whether cash or In-kind Contributions, must be consistent with the Scope of Work and must be essential to the implementation of the project.

2. Twenty-five percent (25%) of the total required Match must be cash-on-hand which must be documented at the time of application and reconfirmed and expended during the Grant Period.

3. No more than seventy-five percent (75%) of the total required Match may be non-monetary In-kind Contributions.

B. Match Reductions

Applicant Organizations can request a match reduction to twenty-five (25%) of the Grant Award amount in the following circumstances:

1. Projects located in REDI areas: The Rural Economic Development Initiative (REDI) recognizes rural or economically distressed counties and communities designated pursuant to sections 288.0656 and 288.06561, Florida Statutes, as REDI qualified. The REDI program is administered by the Florida Department of Economic Opportunity. You can find more information and a list of economically distressed counties and communities at http://www.floridajobs.org/business-growth-and-partnerships/rural-and-economic-development-initiative/rural-definition.

   In recognition of the REDI designation, Applicant Organizations with projects located in REDI communities may request a reduction to the match requirements, UNLESS the grant applicants are state agencies, state colleges, or state universities.

Summary of Match Requirements	**Required Match**
Projects not located in REDI qualified counties or communities	1:1
Projects located in REDI qualified counties or communities	25%
State agencies, state colleges or state universities. **Organizations that are state agencies, state colleges or state universities must meet the full match requirement (1:1), regardless of project location.**	1:1

C. Cash Match

1. Cash-on-Hand (Liquid Assets): At least 25% of the total required Match amount must be cash-on-hand of the Applicant Organization at the time of the application, documented by bank statement(s), budget report(s), and/or bank letters showing sufficient restricted funds or a municipal or county resolution*. Cash-on-hand may exceed 25% of the total match, but may never be less than 25% of the total match.

   ***Municipalities and counties (public entities)** must submit an executed copy of an approved resolution by a city or county commission with the application materials. The resolution **must** include the dollar amount dedicated and available to the project if the grant is awarded and the date the funds will be available. The submitted resolution **must be dated and signed by an authorizing official**. Funding, as indicated by the resolution, must be made available within 90 days of the start of the Grant Period.

2. Additional cash Match above the minimum 25% cash-on-hand may be anticipated at the time of application, but must be fully documented in the application and received and expended by the end of the Grant Period. The Match can be documented in the application as bank statement(s), budget report(s), and/or bank letters showing sufficient restricted funds or a municipal or county resolution, as well as irrevocable pledges of funds. The pledges must be from named donors, as documented by signed and dated letters, and must be auditable. Anonymous pledges shall not be accepted as match contributions.

D. In-kind Contributions (Donated Goods, Property, and Services) Match

1. Documented In-kind Contributions: No more than 75% of the total required Match may be In-kind Contributions. In-kind Contributions must be documented and itemized as irrevocable non-monetary pledge letters, letters of intent and/or invoices for future in-kind goods, property and/or services at the time of application, and the goods, property, and/or services must be received and utilized by the end of the Grant Period. In-kind Contributions from named donors must be documented by signed and dated letters, which must be auditable. Anonymous pledges shall not be accepted as match contributions.

2. The value of volunteer services may be calculated using the federal minimum wage or state minimum wage (whichever is higher), or professionals skilled in the service provided (such as a supplier donating construction materials services or an electrician providing pro bono work). For information on the current federal minimum wage, see the Wage and Hour Division of the US Department of Labor at https://www.dol.gov/whd/minimumwage.htm.

3. The value of all professionally skilled services used as In-kind Contributions must be documented in writing by the volunteer. The value of donated goods and property must also be documented. Records of such documentation must be available upon request.

4. The value of donated property will be accepted as a contribution to the required match, with the following conditions:

    a) The donated property must be the Historic Property or archaeological site that is the subject of the project for which grant funds are requested.

    b) Donation of the property must take place during the 2-year Grant Period beginning on July 1 of the year of appropriation.

    c) Only the value of the historic building and its footprint or the portion of the property occupied by the archaeological site is eligible for contribution to the required match. This value must be based on a complete appraisal prepared by a Florida State Certified General Real Estate Appraiser.

    d) Legal fees, taxes and other costs associated with the donation are not eligible match contributions.

E. Restrictions on Matching Funds

1. Funds that are for general operating expenses will not be acceptable as match.
2. Revenue from funding requested but not yet approved through local or state government appropriation processes will not be acceptable as match.
3. Revenue from grants that have not yet been awarded will not be acceptable as match.
4. Anticipated proceeds from fundraising activities will not be acceptable as match.
5. Fundraising costs will not be acceptable as match.
6. Legal fees or taxes will not be acceptable as match.
7. Matching funds will be designated only to the Scope of Work presented in this application and may not be used for other previous, current or future Division or Department of State grants.
8. Expenditures made prior to and following the Grant Period may not be used as match.
9. Loans may not be used as match. Equity may not be used as match.
10. State of Florida grant funds may not be used as match for this program.

F. Documenting Match

1. Organizations must have all Match complete and confirmed at the time of application and, if funded, must reconfirm Match at the time of Grant Award Agreement execution.

2. Documentation of matching funds can include:

    a. Bank statement(s), budget report(s) that specifically identify match contribution to the project, and/or bank letters confirming cash-on-hand;
    b. A resolution showing funds dedicated to the Scope of Work (limited to public entities);
    c. Letters of intent to provide salaries/payroll expenditures of in-house staff as cash match, including a pay rate justification. This letter should include the number of hours to be donated and the rate at which they are donated;
    d. Grant award letters from third parties (non-State);
    e. Copies of irrevocable pledge letters; and
    f. Letters of intent or invoices for future in-kind goods, property and/or services.

VII. ALLOWABLE EXPENSES

1. Allowable expenses must be:

    a) not excluded by these Guidelines and approved by the Division;

    b) necessary and reasonable for the performance of the Scope of Work;

    c) specifically and clearly detailed in the Project Budget;

    d) incurred or paid within the 2-year Grant Period beginning on July 1 of the year or appropriation; and

    e) related to the selected project type, as described in Section V.C.2.

2. Only allowable expenses may be included in the Project Budget.

3. Administrative and project management expenditures such as expenditures that are directly attributable to management of the grant-assisted Project and meeting the reporting and associated requirements of the Grant Award Agreement are allowable expenses, provided that, in the aggregate, they do not exceed 5% of the grant award amount, whether allocated to grant expenditures, match contributions~~,~~ or both.

4. Expenditures shall be in compliance with the state guidelines for allowable project costs as outlined in the **Department of Financial Services' Reference Guide for State Expenditures** (revised 11/1/2019), which are incorporated by reference and are available online at https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

VIII. NON-ALLOWABLE EXPENSES

The following categories of expenditures are non-allowable for expenditure of grant funds and as contributions to required match. This is not intended to be an exhaustive list, and the Division may evaluate the allowability of all expenditures (grant or match) in accordance with applicable Federal and State statutes, regulations, these guidelines or the terms and conditions of the Grant Award Agreement. Non-allowable expenses will not be considered part of the Grant Award Agreement and cannot be incorporated or encompassed within any other allowable category. In the event that the Division identifies such, the Grantee must return any disbursed grant funds associated with non-allowable expenses and could lose eligibility for future grants.

a) Expenditures for work not included in the Scope of Work of the executed Grant Award Agreement;
b) Costs of goods and services not procured in accordance with procurement procedures set forth in the Grant Award Agreement;
c) Costs not consistent with the grant project type as described in section V.C.2. of the program guidelines and as selected in the application;
d) Expenses incurred or obligated prior to or after the Grant Period, as indicated in the Grant Award Agreement;
e) Expenses associated with lobbying or attempting to influence Federal, State or local legislation, the judicial branch or any state agency;
f) Expenditures for work not consistent with the applicable historic preservation standards as outlined in the Secretary of the Interior's Guidelines available at www.nps.gov/tps/standards/treatment-guidelines-2017.pdf, standards available at http://www.nps.gov/tps/standards.htm and nps.gov/history/local-law/arch_stnds_0.htm or applicable industry standards;
g) Costs for projects having as their primary purpose the fulfillment of Federal or State historic preservation regulatory requirements, including costs of consultation and mitigation measures required under Section 106 of the *National Historic Preservation Act of 1966*, as amended, or under Section 267.031, F.S.;
h) Projects directed at activities or Historic Properties that are restricted to private or exclusive participation or access, which shall include restricting access on the basis of sex, race, color, religion, national origin, disability, age, pregnancy, handicap or marital status;
i) Entertainment, food, beverages, plaques, awards or gifts;
j) Costs or value of donations or In-kind Contributions not documented in accordance with the provisions of the Grant Award Agreement;

k) Indirect costs including Grantee overhead, management expenses, general operating costs and other costs that are not readily identifiable as expenditures for the materials and services required to complete the work identified in the Scope of Work in the Grant Award Agreement. Examples of indirect costs include: rent/mortgage, utilities, janitorial services, insurance, accounting, internet service, monthly expenses associated to security systems, non-grant related administrative and clerical staffing, marketing and fundraising activities;
l) Administrative and project management expenditures such as expenditures that are directly attributable to management of the grant-assisted Project and meeting the reporting and associated requirements of the Grant Award Agreement, whether grant expenditures or match contributions, which in aggregate exceed 5% of the grant award amount;
m) Grantee operational support (i.e., organization salaries not directly related to grant activities; travel expenditures; per diem; or supplies);
n) Insurance costs (Exception: costs for builder's risk, workers' compensation and contractor's liability insurance);
o) Capital improvements to non-historic properties or non-historic additions to a Historic Property (Exception: pre-approved items of work for Museum Exhibit projects);
p) Capital improvements to the interior of Religious Properties (Exception: repairs to elements of the structural system. Examples include: foundation repairs, repairs to columns, load bearing wall framing, roof framing, masonry repairs, window and exterior door repairs and restoration practices associated with the building envelope);
q) Accessibility improvements for Religious Properties;
r) Vehicular circulation (drives/driveways) within the property or from the property to surrounding streets and parking (Exception: provision of code-required handicapped parking pad(s));
s) Sidewalks, paths, walkways, landscape features and accessories, planting, irrigation systems and site lighting (Exceptions: historic walkways; sidewalk required to link the code-required handicapped parking pad(s) to the accessible entry; historic retaining walls/planting/sodding required to halt documented erosion; pruning, removal or relocation of trees posing an immediate threat to the historic or archaeological resource; and limited site lighting required for security, all if approved by the Division);
t) Fences and gates (Exception: restoration or in-kind replacement of damaged or missing historic fences, gates or sections of these);
u) Furniture, including but not limited to: desks, tables, seating, rugs and mats, artwork and decorations, window treatments, case goods (including cabinets, countertops, or bookshelves) with no historic precedent, systems' furniture, movable partitions and acoustical treatments and components, unless specific prior approval has been granted by the Division (Exception: museum display units necessary for approved Museum Exhibit projects)
v) Equipment (a) including but not limited to portable sound systems, specialty fixtures and equipment, visual display units, appliances, computers, cameras, printers, scanners, projection systems, portable light fixtures, and total stations unless specific prior approval has been granted by the Division (b) If special equipment is required for completion of the Project, it shall be rented for the grant term unless it can be shown that acquiring the equipment is cheaper than renting the equipment and approval has been provided by the Division as part of the documentation presented at the time of application. If the value of special equipment is to be used as a match contribution, the value of the match contribution shall be limited to the cost of rental for the Grant Period at the market rate for such rental in the region;
w) Supplies that will not be consumed in use during the duration of this project;

x) Costs associated with attending or hosting conferences, summits, workshops or presentations including facility rental fees (Exception: municipal or county required public meetings necessary for completion of the grant-assisted project);
y) Travel expenditures, including those of personnel responsible for items of work approved by the Division, administrative personnel, contracted or subcontracted employees, either for purposes of work on-site or research off-site; and
z) Tuition waivers, fees, and other non-grant related costs associated with employing students for grant projects.

IX. REVIEW CRITERIA AND SCORING

1. Applications that have not been determined ineligible by the Division and have not been withdrawn by the Applicant Organization shall be reviewed by the members of the Florida Historical Commission. The review will be based on the following ten (10) criteria.

Criteria 1: Site or the Proposed Project

Historic significance, meaning the relative importance of the property or site in connection with prehistory or historical events, developments or personalities. This may also refer to the relative importance of the information that forms the basis of the proposed exhibit.	up to 10 points
Need for the proposed project or activity, as it relates to the preservation of the history of Florida and/or its historical and archaeological resources. This may also refer to the need to update the out-dated information and/or design of a museum exhibit.	up to 10 points
Appropriateness of the proposed project scope of work, budget, and timeline in relation to the property, site, resources, collections or information that forms the basis of the proposed project.	up to 10 points

Criteria 2: Organization Administration

Administrative capability, as demonstrated in the application, including staffing, facilities and organization resources adequate to complete the proposed project and meet the administrative requirements of the grant. Applicant administrative experience with previous or open grants awarded by the Division, other divisions of the Department of State, and other granting entities.	up to 10 points
Financial resources adequate to meet grant match requirements and/or, as applicable, to carry project costs as necessary pending receipt of disbursements of grant funds or to cover project costs exceeding grant funds awarded.	up to 10 points

Consideration for and availability of professional and technical services required to carry out the proposed project, either within the Applicant Organization or as consultants/vendors.	up to 10 points

Criteria 3: Public Benefit

Compatibility with statewide historic preservation priorities established by the Division in the solicitation notice. These priorities are subject to change depending on regional or statewide concerns (e.g., disasters such as fire, flooding or hurricane damage). Further information about these priorities is is specified by the Division in the yearly solicitation notice.	up to 10 points
Educational potential or demonstration of value for enhancing the public awareness of Florida history, Florida historic sites and properties, the objectives of historic preservation and the application of historic preservation.	up to 10 points
Anticipated economic benefits, including direct impact on the local economy and the stimulation of additional private sector interest and investment in historic preservation projects.	up to 10 points
Public use or other public good, including benefit to underrepresented communities, resulting from the proposed project.	up to 10 points

2. The total possible number of points the Commission can award to an application is 100. The Commission's evaluation will be based on the information contained in the application, required attachments and support materials submitted with the application. The Commission's individual scores will be averaged to determine a final score for each application.

3. Applications must receive a minimum average score of **80 or higher** to be *recommended* for funding. Applications receiving an average score of 80 or higher will be recommended to the Secretary of State for review and approval and subsequent forwarding to the Florida Legislature for funding consideration.

4. Applications with a tied average score will be ranked by application submission number order (lowest to highest).

A. Review Process

1. Division staff will conduct a technical review to determine eligibility and prepare a staff content review report. Eligible applications will then be submitted to the Florida Historical Commission who serve as the grant review panel.
2. The Florida Historical Commission will evaluate each application on the review criteria and assign a score. Applications are ranked according to the average of scores assigned for each application.

3. The Florida Historical Commission approves the ranked list for submission to the Secretary of State.
4. The Division forwards the ranked list to the Secretary of State.
5. The Secretary of State reviews and approves the ranked list and submits it to the Legislature for funding consideration.

B. Staff Review

1. The technical review of applications verifies:

    a) That the Applicant Organization has the correct **legal status** (public entity or nonprofit, tax-exempt, Florida Corporation). Note that for Development projects, the Property Owner (if not the Applicant Organization) must be a Non-profit Organization, state college or university~~,~~ or agency of government.
    b) That the Applicant Organization, if not the owner, has the permission of the Property Owner to conduct the proposed Project on the owner's property and the owner is in concurrence with the application and is a public entity or a Non-profit Organization, except for projects involving acquisition or site-specific archaeological investigation.
        i. For Acquisition and Development projects directed at Real Property, if funded, the Grantee (and the Property Owner, if not the Grantee) **must** file a Restrictive Covenant on the property with the Clerk of Court for ten (10) years for Development and twenty (20) for Acquisition prior to final release of grant funds and close-out of the project.
        ii. For Development projects involving improvements to properties other than Real Property (e.g., an aircraft, locomotive, trolley or marine vessel) and for Museum Exhibit projects, the Grantee (and the Property Owner, if not the Grantee) **must** execute and notarize a Preservation Agreement prior to release of any grant funds. The Preservation Agreement shall require the Grantee and the Property Owner(s) to maintain the improvements or exhibit for a period of ten (10) years for Development projects and five (5) years for Museum Exhibit projects.
    c) That the proposed Project is consistent with selected project type and the purpose of the Special Category grant program.
    d) That the Project Budget does not include non-allowable expenses.
    e) That appropriate **matching** funds ratio has been identified and documentation has been provided.
    f) All supporting documentation has been provided.

2. **Only documents that are provided in response to requests for clarification from staff will be considered after the application deadline.** If necessary, a request for information will be sent with a certain response deadline. Such requests will be made in writing to the Applicant Organization via the DOS Grants System online using the contact information provided in the application. These requests are to clarify the information already submitted in the application. Responses received after the established deadline will not be accepted and the application will be presented to the Florida Historical Commission by Division staff as submitted, along with staff recommendations on how to address the outstanding issues. Clarifications will become an official part of the application.

C. Information Provided to the Florida Historical Commission

1. The Division shall make available online electronic copies of the eligible applications (along with their

support materials) to the Florida Historical Commission in sufficient time for its members to review all applications prior to the Florida Historical Commission convening a public meeting for the purpose of considering the applications for funding. Ineligible applications will not be reviewed by the Florida Historical Commission or discussed at the public meeting.

2. The Division shall also make available to the Florida Historical Commission a staff content review report on each eligible application that provides an assessment of the information provided in the grant application. The staff content review report will include:

   a) A synopsis of the proposed Scope of Work;

   b) An assessment of compliance of the proposed project with any applicable Preservation Standards;

   c) Relevant concerns or issues with the application, including Applicant Organization responses to requests for information.

   d) An assessment of the proposed Scope of Work and its appropriateness in regards to the property, site, resources, or collections that forms the basis of the proposed project, personnel and timeframe;

   e) An assessment of the proposed estimated budget including eligibility of claimed match contributions, with recommendations for any grant funding level adjustments that may be justified by the findings of the staff technical review. Examples of the need for such adjustment would be a recommendation to delete work related to non-allowable expenses, work not consistent with the applicable Preservation Standards or to reduce the grant award in an amount commensurate with inadequately documented or non-allowable match contributions; and

   f) Other information regarding the Applicant Organization and its compliance with previous Division grants, if relevant.

D. Florida Historical Commission Review of Applications

1. Members of the Florida Historical Commission serve as the grant review panel for the Special Category program. All Commission members must comply with the Standards of Conduct for Public Officers and Employees of Agencies as set forth in section 112.313 Florida Statutes~~,~~ and voting conflict of interest laws as set forth in sections 112.3143 and 286.012 Florida Statutes.

2. Commissioners independently evaluate each application based on the review criteria detailed in these guidelines and are required to follow the Division's scoring instructions. After each panel member has evaluated the applications, there will be a public panel meeting to review, discuss~~,~~ and score the applications.

3. Panel meetings are a public process and anyone can participate by attending in person or via online webinar. Participation instructions will be posted on the Florida Administrative Register (FAR) as a notice, on the Division's website and in the online grant system. The Division strongly encourages applicants to participate in the grant panel meeting, however it is not required. Participating in the panel process can be very helpful for those that intend to apply for future grants.

4. The Division Director, or the Director's designee, will serve as the panel Chair. Chairs do not vote on applications being reviewed. At the public meeting, the Florida Historical Commission shall score each eligible application reviewed for each of the aforementioned criteria. For each criterion the minimum score is zero and maximum score ten. As per the results of their review, discussion in the public meeting and scoring, the Commission members shall recommend, for each application, funding levels and any revisions of Scope of Work necessary to ensure compliance with these Guidelines. After all Florida Historical Commission members have finalized scoring of all applications, the Commissioners' scores will be averaged to create a priority ranking list. This ranking list will include all applications reviewed during the public meetings.

5. A typical Commission meeting will include the following:

   a) Call to Order;
   b) Introduction of Panelists and Staff;
   c) Panel Instructions from the Chair (including purpose of and conduct of the meeting);
   d) Technical Discussion of applications. For each application:
      i. The Chair will announce the application number and applicant name;
      ii. Division staff will present the results of the staff content review for each application;
      iii. Applicant representatives (no more than 2) may come forward to answer questions from the panel regarding the proposed project and application (NOTE: presentations are not allowed); and
      iv. Panelists can update scores and written comments in the DOS Grants System online following discussion of each application;
   e) Application Scoring
      i. Time is allotted for panel to submit final scores and comments after conclusion of review for all eligible applications;
      ii. DOS Grants System averages scores for each project to produce a funding list, ranked in order of total average score, highest to lowest; and
      iii. Ranked funding list is read into the record and applications with a tied average score will be ranked by application submission number order (lowest to highest);
   f) Adoption of Recommended Funding List
      i. Panel Chair will request discussion and a vote on the approval and recommendation of the ranked funding list to the Secretary of State;
   g) Public Comment; and
   h) Adjournment.

E. Funding Process

1. Following the public meeting, the Division shall prepare a final priority list of all recommended applications with an associated level of funding for each, for review and approval by the Secretary of State. The Secretary may approve the list as submitted by the Florida Historical Commission. The approved list will be posted on the Division's webpage.

2. The Secretary of State will provide the Legislature with an approved list, ranked in order of total average score, with funding recommendations for all projects that received a total average score of 80

and above. The Legislature may use this list to make funding decisions.

3. Applications recommended for funding by the Florida Historical Commission and approved by the Secretary of State are not guaranteed funds. Funding for state Special Category Grants is contingent on an annual appropriation by the Florida Legislature and, in addition, is subject to veto by the Governor.

4. Grant funds shall be awarded in accordance with the final ranking list of the applications considered for grant assistance in a given funding cycle, unless otherwise provided by the Legislature. Special Category funds shall not be provided for projects which were not applied for, reviewed and recommended in accordance with procedures outlined in these Guidelines, unless otherwise provided by the Legislature.

5. Following legislative appropriation, any applicant on the ranked list that has not completed a previously-funded Special Category grant project by July 1 of the year for which funds are appropriated will be passed over and the funds will be allocated to the next grantee on the list without an active Special Category grant project under contract.

6. If reallocation of grant funds becomes necessary due to completion of a project at less than anticipated cost or project cancellation during the Grant Period the Division will proceed as follows:

    a) The Director may increase the grant award amount for projects funded in the same grant cycle that received only a portion of the recommended funding amount; and
    b) If the funds available for reallocation exceed the amount needed to accomplish the objective of paragraph (a) above, after funding the projects in paragraph (a), the Director may allocate remaining additional funds to new grant awards in rank order at the recommended funding level for projects reviewed and scored in the same grant cycle but not funded because of insufficient funding.
    c) Any funds remaining in any grant allocation as a result of completion of a project at less than anticipated cost or project withdrawal or cancellation that are not reallocated in accordance with paragraph (a) or (b) above shall revert to the funding source from which the grant funds were appropriated.
    d) If additional grant funds become available during the grant year, the Director may increase grant awards, award new grants for applications reviewed by the Florida Historical Commission during the normal review processes or establish a special process for awarding such additional funds.

X. HOW TO APPLY

1. Applications must be submitted on the DOS Grants website at dosgrants.com.

2. All application information submitted to the Division is open for public inspection and subject to the Public Records Law (Chapter 119, Florida Statutes).

A. Application Form

1. The application form must be completed using the Division's online grant application and submitted online **by 5:00 pm ET** on the application deadline. Deadlines and a link to the application form are posted on the Division's website at https://dos.myflorida.com/historical/grants/.

2. At any time prior to the Special Category review and ranking public meetings, an Applicant Organization may opt to remove an application from further consideration for funding. Those applications will be labeled withdrawn and will not be discussed in the public meetings.

B. Support Materials

Support materials must be uploaded into the online grant application system. Attachments and support materials will not be accepted by any other method including email and fax, excluding Letters of Support.

C. Required Materials

Support materials are required documentation of eligibility. The required support materials for the Special Category program are:

1. Documentation of Non-profit Status (for Non-profit Organizations only): In-state corporate entities must provide documentation of their active status as a Florida non-profit corporation with the Division of Corporations, Florida Department of State, which can be obtained at: http://www.sunbiz.org by searching the corporate name. Out-of-state corporate entities must include documentation from the Internal Revenue Service confirming that they are exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code.

2. Substitute W9 form: Applicant Organizations must submit a copy of their Substitute W9 form (SW9), which can be obtained at the Department of Financial Services (DFS) Substitute W-9 website https://flvendor.myfloridacfo.com.

3. Documentation of Confirmed Match: An Applicant Organization shall provide current documentation of all match and this must meet the minimum match requirements outlined in these Guidelines. At a minimum, 25% of the match must be evidenced to be in the form of cash.

4. Letters of Support, Endorsement or Resolutions: If available at the time of application submission, he Applicant Organization shall provide a list that includes the following information for each letter of support, endorsement or resolution included in the application: name of author, type of communication (letter, petition, resolution, etc.) and organization represented (if applicable). All letters shall be scanned together and uploaded as a single file. Additional letters may be submitted directly to the Division but must be received one month prior to the public meeting where the Florida Historical Commission will review and score applications.

5. Photographs: All Applicant Organizations shall provide digital images as specified in the application instructions. For Acquisition and Development projects, minimum requirements include current photographs of all exterior elevations, principal interior spaces~~,~~, significant architectural features, and the context the resource(s) exists within, if available, also provide

historic photographs of the property.

6. Representative Image: A single representative image of the property or project to be used in the application review meeting shall be submitted by the Applicant Organization. The image should convey the theme or purpose of the proposed project, and the property or site should be represented in its current condition.

7. Proposed Project Team Support Documents: The Applicant Organization shall provide the curricula vitae/resumes of the proposed project team as listed in the application.

8. Architectural/Design Documents (for Development and Museum Exhibit projects only): If completed, the Applicant Organization shall provide architectural project schematics, construction documents, conditions reports or exhibit design documents.

9. Appraisal and Purchase Documents (for Acquisition projects only): In this attachment the Applicant Organization must include an appraisal(s), purchase agreement, title/owner search, certified land survey and archaeological survey report, if applicable. For Acquisition projects the maximum grant share shall not exceed the value of the property as determined by a complete appraisal prepared by a Florida State Certified General Real Estate Appraiser. If the appraisal exceeds $500,000, a second appraisal must be obtained. In such case, the grant award shall not exceed the average of the two appraisals. Only the purchase of the Historic Property or archaeological site is eligible for grant funding. All closing costs are the responsibility of the Grantee. In addition to the supporting documents required for all applications, the application must include the following:
    a. A copy of the complete appraisal prepared by a Florida State Certified General Real Estate Appraiser. Two appraisals are required if the first appraisal exceeds $500,000;
    b. A copy of a title search;
    c. A copy of an executed option or purchase agreement;
    d. A copy of the certified land survey; and
    e. If applicable, a copy of the archaeological survey report substantiating the significance of the archaeological site proposed for acquisition.

10. Archaeological Supporting Documents (for Archaeological Research projects only): Copies of previous archaeological site reports or surveys of the property that is the subject of the proposed project, or reports of previous analyses of the material projected to be researched, shall be submitted. Curricula vitae for principal investigator and other key personnel, if known, must also be provided. If principal investigator has not yet been selected, a list of tasks or projected responsibilities must be submitted in place of the curriculum vitae.

11. Exhibit Supporting Documents (for Museum Exhibit projects only): The Application Organization shall include curricula vitae for all key project research and exhibit development personnel, if known. In the same manner, if objects are to be loaned from other institutions or individuals for exhibit, letters of confirmation from lending institutions must be provided.

12. Documentation of Need: An Applicant Organization should use this attachment to explain and document the need for the proposed project or activity, as it relates to the preservation of the

history of Florida and/or its historical and archaeological resources, including any immediate threats to the historical property/ies, historic resources or materials, archaeological sites or historical information that is the subject of the proposed project.

13. Local Protection (for site specific projects only): Copies of any documents that provide local protection of the project site, if any currently exist, must be provided. This may include local protection ordinances, preservation or conservation agreements, protective or restrictive covenants, or maintenance agreements.

14. Owner Concurrence Letter (for site-specific projects only): Each Applicant Organization shall provide a letter that documents that the Applicant Organization has the permission of the owner of record (if the Property Owner is not the applicant) to conduct the proposed project on the owner's property and that the owner is in concurrence with this application for grant funding. Note that, for Development projects, the owner must be a Non-profit Organization, state college or university or agency of government. If the property for which grant funding is requested is leased by the Applicant Organization, the lease agreement must be dated, signed and submitted at the time of the application submission, with the required Owner Concurrence Letter attachment to the application.

15. Optional Materials: An Applicant Organization may use this attachment to present additional documents not specifically requested by the Division that support the application. Such materials may include copies of National Register nominations, conditions assessments, newspaper articles or other documents that reflect the historical significance of the resource, highlight its historic characteristics, its public use or so on.

D. Restrictive Covenants

For Special Category Grant projects involving acquisition of or improvement to Real Property, the Grantee and the Property Owner(s) shall execute and file Restrictive Covenants with the Clerk of the Circuit Court in the county where the property is located, prior to final release of grant funds and close-out of the project. This Restrictive Covenants form is available on the Division's website http://www.dos.myflorida.com/historical/grants/special-category-grants/ and at the Department grants online system http://www.dosgrants.com.

1. The Restrictive Covenant shall include the following provisions:

   a) The Restrictive Covenants shall run with the title of the property, shall encumber the property and shall be binding upon the Grantee and the Property Owner(s), if different, and their successors in interest for ten (10) years from the date of the recordation of the Restrictive Covenants for projects involving improvements to Real Property and for twenty (20) years for acquisition projects.

   b) The Grantee and Property Owner(s) shall permit the Division to inspect the property at all reasonable times to determine whether the Grantee and Property Owner(s) are in compliance with the terms of the Restrictive Covenants.

   c) The Grantee and Property Owner(s) shall maintain the property in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties.

d) The Grantee and Property Owner(s) agree that no modifications will be made to the property, other than routine repairs and maintenance, without advance review and approval of the plans and specifications by the Division.

e) The Restrictive Covenants shall contain the following amortization schedule of the repayment of grant funds, should the Grantee or Property Owner(s) or their successors in interest violate the Restrictive Covenants.

i. Amortization Schedule for projects involving improvements to Real Property:
If the violation occurs within the first five (5) years of the effective date of these covenants, the Department shall be entitled to return of the entire grant amount. If the violation occurs after the first five (5) years, the Department shall be entitled to return of the entire grant amount, less 10% for each year past the first five (5).

ii. Amortization Schedule for Acquisition projects:
If the violation occurs within the first ten (10) years of the effective date of these covenants, the Department shall be entitled to return of the entire grant amount. If the violation occurs after the first ten (10) years, the Department shall be entitled to return of the entire grant amount, less 5% for each year past the first ten (10).

f) Other provisions as agreed upon by the Division and the Grantee.

E. Preservation Agreement

1. For Special Category Grant Development projects involving improvements to properties other than Real Property (e.g., an aircraft, locomotive, trolley or marine vessel) and Museum Exhibit projects, the Grantee shall execute and notarize a Preservation Agreement. The Document shall be executed and notarized prior to final release of grant funds and close-out of the project. The Preservation Agreement for these types of projects shall require the Grantee and the Property Owner(s) to the follow the terms for ten (10) years for Development projects and five (5) years for Museum Exhibit projects. The Preservation Agreement form is incorporated by reference and is available on the Division's web site http://www.dos.myflorida.com/historical/grants/special-category-grants/ and at the Department grants online system http://www.dosgrants.com.

2. The Preservation Agreement shall include the following provisions:

a) The Grantee shall assume the cost of the continued maintenance and repair of the exhibit or of the property so as to preserve the architectural or historical integrity of the same.

b) The Grantee agrees that no visual or structural alterations will be made to the exhibit or the property without prior written permission of the Division.

c) The Division, its agents and designees shall have the right to inspect the exhibit or property at all reasonable times in order to ascertain whether or not the conditions of this agreement are being

observed.

d) The Preservation Agreement shall contain requirements for the repayment of grant funds, should the Grantee or Property Owners or their successors in interest violate the Preservation Agreement.

e) Other provisions as agreed upon by the Division and the Grantee.

XI. GRANT AWARD AGREEMENT

1. All grant awards which have been approved in accordance with these Guidelines and authorized by the Legislature and Governor shall be formalized through a Grant Award Agreement by which the Grantee enters into a contract with the State of Florida for the transparent management of grant funds. The Grant Award Agreement is specific to the type of project being assisted.

2. For all funded Projects, any changes to the Scope of Work and Project Budget submitted with the application must be reviewed and approved by the Division prior to execution of a Grant Award Agreement.

3. Project work may not be initiated prior to the Effective Date of the Grant Award Agreement, unless:

   a) The Division may authorize initiation of project work prior to the Effective Date of the Grant Award Agreement if damage to, or loss of the property would likely otherwise occur. Such authorization must be secured prior to the initiation of work and shall apply only to work to be undertaken during the period after legislative appropriation for funding is made.

      i. The Grantee must request such authorization in writing and must document the imminent threat to the property by submission of a letter or report from a licensed architect, structural engineer, specialty engineer or geomorphologist, as applicable, clearly describing the conditions constituting the threat.

      ii. The Division shall review the documentation provided by the Grantee and make a determination regarding justification for requested authorization. The written determination of the Division shall be final. Any authorization granted for work initiated prior to the Effective Date of the Grant Award Agreement shall apply only to that work addressing the conditions contributing to the identified threat to the property. All proposed corrective measures shall meet applicable Preservation Standards.

   b) Division authorization for initiation of project work prior to the Effective Date of the Grant Award Agreement shall impose no liability on the Division if anticipated grant funds are not appropriated by the Legislature and approved by the Governor. All such work shall be undertaken solely at the Applicant Organization’s risk.
   c) Division authorization does not entail disbursement of any payment prior to the Effective Date of the Grant Award Agreement. Grantee shall use matching funds to carry out approved work prior to the Effective Date.

4. Grant Encumbrance Period and Expenditure Period:

   a) Encumbrance Period for Projects Requiring Contractual Services:

      i. During the encumbrance period, but not later than the end date of the encumbrance period as outlined in the Grant Award Agreement, the Grantee shall execute all required contracts for all or part of the work to be accomplished with grant funds. Projects for which no encumbrance is accomplished by the established deadline may be cancelled by the Division and the grant funds may be reallocated in accordance with these Guidelines.

      ii. Exception: The encumbrance period for a Special Category Grant project can be extended by written approval of the Division if requested in writing as indicated below and if the Grantee demonstrates to the satisfaction of the Division that partial encumbrance of grant funding and the required match by binding contract(s) is achievable by the end of the requested extended encumbrance period. The Grantee's written request for extension of the encumbrance deadline must be submitted to the Division as outlined in the Grant Award Agreement.

      iii. For projects not involving contract services, but to be conducted by Grantee's internal staff, the Grantee and the Division shall consult on a case-by-case basis to develop an acceptable encumbrance schedule.

   b) Expenditure Period:

      i. Grant funds and required match resources must be expended as outlined in the Grant Award Agreement and properly documented as required by the Division.

      ii. Grant funds shall not be used for project expenditures that are incurred after the expenditure period end date, which is the termination date of the Grant Award Agreement.

      iii. The Division may extend the expenditure period by not more than 180 days. Time extensions will be considered on a case-by-case basis and will be valid only if a contract amendment is executed by both parties, as outlined in the Grant Award Agreement. The Grantee must request the extension in writing, provide documentation that all grant funds and match contributions are encumbered and demonstrate to the satisfaction of the Division that project work is progressing at a rate such that completion is achievable within the extended expenditure period.

   c) The Grantee's written request for extension shall be submitted to the Division no later than thirty (30) days prior to the termination date of the Grant Award Agreement.

A. Reporting Requirements

1. As required by the Grant Award Agreement, Grantees shall submit periodic progress reports to the Division. Progress reports, along with any supporting or required information that documents project status, shall be submitted via the Department grants online system and meet the established deadlines indicated in the Grant Award Agreement. A progress report describes the progress of the project during the last reporting period including:

a) The progress and status of each Scope of Work activity;

b) The progress and status of the deliverables;

c) Status of executing subcontracts and encumbrance of funds;

d) Any variations from project timeline, budget and deliverables, with a description of reasons for variance; and

e) For grants receiving federal funding, the number of hours of employment for the project to date. This must include project management hours, consultant hours, and any other project work hours.

2. Progress reports shall be accompanied by support materials that can effectively document the current status of project work as related to the Scope of Work. Photographs shall be captioned with property name, date of photograph, and description of feature and work described. For photographic submissions, Grantee may follow the suggested format established by the Division and available for consult at the Division's web page http://www.dos.myflorida.com/historical/grants/special-category-grants/.

3. The Grantee shall submit a final progress report within thirty (30) days following the Expiration Date of the grant. An exception to this is the establishment of a specific final progress submission date when a grant extension is agreed upon and a contract amendment is executed by the Grantee and the Division.

4. The Grantee shall provide information and documentation to the Division to assist in identifying non-state entity Grantees that are required to comply with the Florida Single Audit Act, Sections 215.97(2)(a) and 215.97(8)(a), F.S., and federal audit guidelines. Single Audit information and related documentation provided by the Grantee shall be be submitted to the Division via dosgrants.com and shall be reviewed by the Department's Office of Inspector General.

B. Retention of Records

The Grantee shall retain financial records, supporting documents, statistical records and all other records including electronic storage media pertinent to the Project for a period of five (5) years after the close out of the grant. If any litigation or audit is initiated, or claim made, before the expiration of the five-year period, the records shall be retained until the litigation, audit or claim has been resolved.

C. Grant Withdrawal or Cancellation

In the event an Applicant Organization is unable to complete the Scope of Work specified in the executed Grant Award Agreement, the Division should be informed as soon as possible. All pre-approved grant and match expenditures shall be documented and a final progress report must be submitted along with expenditure logs and schedule of values evidencing the percentage of completion. Any unaccounted advanced funds shall be returned to the Division.

XII. GRANT FORMS

The following forms must be used in the administration of all grants in these guidelines and are hereby incorporated by reference and available from the Division at http://dos.myflorida.com/historical/grants/:

#	Title	Form #	Effective Date
1.	Special Category Grant Application	DHR002	Xx/xxxx
2.	Grant Award Agreement	GAA001	Xx/xxxx
3.	Progress and Final Report	DHR003	07/2022
4.	Preservation Agreement	DHR007	5/2018
5.	Restrictive Covenants	DHR008	5/2017

XIII. DEFINITIONS

A. "Acquisition" means fee simple purchase of Real Property.

B. "Applicant Organization" means a public entity governed by a county, municipality, school district, community college, college, university or an agency of state government; or a Non-profit Organization.

C. "Department" means the Department of State.

D. "Development" means architectural and other planning and construction required to facilitate the Preservation, Rehabilitation or Restoration of a Historic Property, or the Reconstruction of such property that no longer exists for which there is sufficient historical documentation available to accurately replicate the property.

E. "Director" means the Director of the Division of Historical Resources.

F. "Division" means Division of Historical Resources of the Department. The Division's mailing address is 500 South Bronough Street, Tallahassee, Florida 32399-0250. Its telephone number is 850.245.6333.

G. "Effective Date" means July 1 of the state fiscal year in which requested grant funding is appropriated by the Florida Legislature. Neither grant funds nor match contributions may be expended before this date except as allowed in the Guidelines.

H. "Encumbrance" means commitment of grant funds and match by binding contract.

I. "Expenditure" means the outlay of cash or the amount due and owing after receipt of goods or services included in the Scope of Work.

J. "Expiration Date" means the date by which all grant funds and match must be expended.

K. "Florida Historical Commission" means the advisory body created pursuant to Section 267.0612, F.S., to assist the Director of the Division of Historical Resources in carrying out the purposes, duties and

responsibilities of the Division.

L. “Florida Master Site File” means the list maintained by the Division of all recorded historical and archaeological sites and properties in the State of Florida.

M. “Florida Single Audit Act” means the uniform state audit requirements for state financial assistance provided by state agencies to non-state entities as codified in Section 215.97, F.S.

N. “Grant Award Agreement” means the legal instrument which binds the Grantee and the Division to the terms, conditions and limitations of the Division’s grants programs.

O. “Grantee” means the organization or governmental entity to which a grant is awarded, which has entered into a Grant Award Agreement with the Division and which is responsible and accountable both for the use of the funds provided and for the performance of the grant-assisted project.

P. “Grant Period” means the period between Effective Date and Expiration Date of the Grant Award Agreement during which time expenditure of all grant funds and all contributions to match must be made.

Q. “Historic District” means a geographically definable area, urban or rural, possessing a significant concentration, linkage or continuity of sites, buildings, structures or objects united by past events or aesthetically by plan or physical development. A district may also comprise individual elements separated geographically but linked by association or history.

R. “Historic Property” means any prehistoric or historic site, district, building, object or other real or personal property of historical, architectural or archaeological value and folklife resources. These properties or resources may include, but are not limited to, monuments, memorials, Indian habitations, ceremonial sites, abandoned settlements, sunken or abandoned ships, engineering works, treasure trove, artifacts or other objects with intrinsic historical or archaeological value, or any part thereof, relating to the history, government and culture of Florida.

S. “In-kind Contribution” means a non-monetary contribution of equipment, services, property or labor provided by the Grantee, or a third party, and consistent with the Scope of Work and must be essential to the implementation of the Project.

T. “Match” means cash, In-kind Contributions or donated materials, which must be made by the Grantee in order to receive the grant award. All match contributions, whether cash, In-kind Contributions or donated materials, must be consistent with the Scope of Work and must be essential to the implementation of the project.

U. “National Register of Historic Places” means the list of districts, sites, buildings, structures and objects significant in American history, architecture, archaeology, engineering and culture, authorized by the National Historic Preservation Act of 1966, as amended, and administered by the U.S. Department of the Interior, National Park Service. The list of Properties on the National Register of Historic Places in Florida is available from the Division.

V. "Non-profit Organization" means a corporate entity which is registered pursuant to Chapter 617, F.S., as a Florida non-profit corporation with the Division of Corporations, Florida Department of State. Grantees other than government entities must maintain active non-profit status with the Division of Corporations during the Grant Period. For Non-profit organizations outside of Florida, the Non-profit organization must be registered under 501(c)(3) by the U.S. Department of the Treasury, Internal Revenue Service.

W. "Planning" means research, testing, analysis and design required for implementation of a Project.

a. Planning for a Development project may include historical research, development of a historic structure report, condition assessment, survey, hazardous materials survey and abatement plan, rehabilitation feasibility study and construction documents (plans and specifications).

b. Planning for an Archaeological project may include research, predictive modeling and remote sensing applications, as necessary for development of a research design for the project.

c. Planning for a Museum Exhibit project may include historical research, conceptual and design documents and specifications.

X. "Preservation" means the act or process of applying measures necessary to sustain the existing form, integrity and materials of a Historic Property. Work, including preliminary measures to protect and stabilize the property, generally focuses upon the ongoing maintenance and repair of historic materials and features rather than extensive replacement and new construction. New exterior additions are not within the scope of this treatment; however, the limited and sensitive upgrading of mechanical, electrical and plumbing systems and other code-required work (including accessibility and life safety requirements) to make properties functional is appropriate within a preservation project.

Y. "Preservation Agreement" means the notarized legal instrument by which a Grantee and Property Owner commit to maintenance and repair of a property other than Real Property or a museum exhibit improved with Special Category grant assistance so as to preserve the architectural or historical integrity of the same. This legal instrument is applicable only to those Museum Exhibit projects and Development projects for which recordation of Restrictive Covenants is not possible or required (see X.E. Preservation Agreement). Properties other than Real Property include but are not limited to: locomotives, railcars, marine vessels, aircraft and other movable objects. The term of the Preservation Agreement for Special Category grants is ten (10) years for Development projects and five (5) years for Museum Exhibit projects, from the date of execution. The Preservation Agreement must be executed and submitted to the Division prior to any release of grant funding.

Z. "Preservation Standards" means the following standards promulgated by the National Park Service, United States Department of the Interior, and the Division for the types of projects indicated:

a. For projects involving individual historic buildings, the Secretary of the Interior's Standards for the Treatment of Historic Properties;

b. For projects where archaeological work is necessary due to the movement of soil associated to work on a Historic Property, the Secretary of the Interior's Standards for Archaeological Documentation;

c. For projects involving historical research, the Secretary of the Interior's Standards for Historical Documentation;

d. For projects involving documentation of a historic structure, the Secretary of the Interior's Standards for Architectural and Engineering Documentation; and

e. The National Park Service and Division standards referenced in paragraphs (a) through (d) above are available from the Division.

AA. "Project" means the undertaking that encompasses a set of tasks or activities defined by the Scope of Work and budget included in the grant application and formalized in the Grant Award Agreement. The Project must begin on the grant Effective Date and end on, or before, the grant Expiration Date. A Project may be a part of a larger effort undertaken in a series of distinct phases, which may have begun before the Grant Period and which may extend beyond the Grant Period but will be treated as a specific and measurable distinct project during the Grant Period and shall be documented as such by the Applicant Organization.

BB. "Project Budget" means the budget and project description included in the grant application. The Project Budget must succinctly describe all major elements of project work, the estimated cost of each and clearly allocate requested grant funding and match contributions to each.

CC. "Property Owner" means the owner(s) of land or building(s) or both, and of all improvements made with grant funds.

DD. "Real Property" means all land, structures, firmly attached and integrated equipment (e.g., light fixtures or a well pump) and anything growing on the land, as opposed to personal property (movable assets).

EE. "Reconstruction" means depicting, by means of new construction, the form, features, and detailing of a non-surviving site, landscape, building, structure or object for the purpose of replicating its appearance at a specific period of time and in its historic location and for which there is sufficient historical documentation available to accurately replicate the property.

FF. "Rehabilitation" means making possible a compatible use for a property through repair, alterations and additions while preserving those portions or features which convey its historical, cultural or architectural values.

GG. "Religious Property" means any Real Property and associated improvements owned by a religious institution (examples include churches, schools, meeting halls and parish houses) and any Real Property, regardless of ownership, that is used as a place of worship.

HH. "Restoration" means accurately depicting the form, features and character of a property as it appeared at a particular period of time by means of the removal of features from other periods in its history and reconstruction of missing features from the restoration period. The limited and sensitive upgrading of mechanical, electrical and plumbing systems and other code-required work to make properties functional is appropriate within a restoration project.

II. "Restrictive Covenant" means the legal instrument by which a Grantee and Property Owner commit to maintenance and preservation of the historic integrity of a property acquired or improved with Special Category grant assistance. This legal instrument is recorded at the appropriate county clerk's office in the county in which the property is located and is binding on the current and subsequent owners from the date on which the instrument is recorded. The Restrictive Covenants must be recorded and submitted to the Division for Development and Acquisition projects involving Real Property prior to any release of Special Category Grant funding.

JJ. "Rural Economic Development Initiative" means the program and designation administered by the Department of Economic Opportunity as established by Section 288.0656 of the *Florida Statutes.*

KK. "Scope of Work" means the work specified in the Grant Award Agreement or in an approved amendment thereto, as being authorized by the Division for expenditure of grant funds and for contribution to the required match.

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-75
Memorandum of Understanding - Northeast Florida Public Employees, Local 630, Laborers' International Union of North America, AFL-CIO-CLC.

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-75.

SYNOPSIS: The Labor Agreement between the City of Fernandina Beach (hereinafter "City") and the Northeast Florida Public Employees, Local 630, Laborers International Union of North America, AFL-CIO-CLC (hereinafter "Union") for the period October 1, 2021 through September 30, 2024 was approved by Resolution 2021-204 and amended by Resolution 2022-34.

Article 13 - Wages, provides for a reopener of the Article if the December 2022 Consumer Price Index for All Urban Consumers (CPI-U),South Region, exceeds 3.75%. The CPI-U, South Region, was 7.0% in December 2022.

The City and Union propose a five percent (5%) Cost of Living increase, effective Monday, October 2, 2023, to all eligible bargaining unit members. Merit increases are removed from the Agreement and will not be provided for Fiscal Year 2023-24. Additionally, the minimum and maximum Pay Ranges in the Classified Service Pay Scale will also be adjusted by the five percent Cost of Living increase, effective October 2, 2023.

FISCAL IMPACT: The City and Union's proposed five percent (5%) Cost of Living increase, effective Monday, October 2, 2023, will cost $205,622 in the FY2023/2024 Budget.

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt proposed Resolution 2023-75.

Denise Matson, Human Resources Director	4/21/2023
Katie Newton, Legal Assistant	5/3/2023
Agnes White, Administrative Services Manager	5/4/2023
Charles George, Interim City Manager	5/4/2023
Tammi E. Bach, City Attorney	5/5/2023

Date: April 11, 2023

Submitted By: Denise Matson, Human Resources Director

COMMISSION ACTION: Adopt

RESOLUTION 2023-75

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, APPROVING A MEMORANDUM OF UNDERSTANDING TO AMEND THE AGREEMENT WITH THE NORTHEAST FLORIDA PUBLIC EMPLOYEES, LOCAL 30, LABORERS' INTERNATIONAL UNION OF NORTH AMERICA, AFL-CIO-CLC; AUTHORIZING EXECUTION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Fernandina Beach (hereinafter "the City"), and the Northeast Florida Public Employees, Local 630, Laborers' International Union of North America, AFL-CIO-CLC (hereinafter "Local 630"), entered into a negotiated three-year Collective Bargaining Agreement for the period October 1, 2021 through September 30, 2024 (Resolution 2021-204); and

WHEREAS, the Memorandum of Understanding (MOU), attached hereto as Exhibit A, between the City and Local 630, amends Article 13 – Wages of the Agreement concerning Cost-of-Living increases; and

WHEREAS, the City and Local 630 accept the terms of this MOU.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The City Commission hereby approves the Memorandum of Understanding to the Collective Bargaining Agreement between the City of Fernandina Beach and the Northeast Florida Public Employees, Local 630, Laborers' International Union of North America, AFL-CIO-CLC, attached hereto as Exhibit A.

SECTION 2. The City Clerk and the Interim City Manager are hereby authorized to execute the Memorandum of Understanding, upon review and approval of the City Attorney.

SECTION 3. This Resolution shall become effective immediately upon passage.

ADOPTED this 16th day of May, 2023.

City of Fernandina Beach **Mr. Mark Foxworth**

City Manager mfoxworth@fbfl.org

TO: Ronnie Burris, Representative
Northeast Florida Public Employees, Local 630, LiUNA

FROM: Mark Foxworth, Interim City Manager

DATE: March 27, 2023

RE: Memorandum of Understanding

BETWEEN THE CITY OF FERNANDINA BEACH (hereinafter "City") AND NORTHEAST FLORIDA PUBLIC EMPLOYEES, LOCAL 630, LABORERS INTERNATIONAL UNION OF NORTH AMERICA, AFL-CIO (hereinafter "Union"), entered into on March, 27, 2023:

With reference to collective bargaining between the City and the Union, the City and the Union mutually agree as follows:

- Article 13.04 – Wages, provides for a reopener of the Article if the December 2022 Consumer Price Index for All Urban Consumers (CPI-U), South Region, exceeds 3.75%.
- The CPI-U, South Region, was 7.0% in December 2022.
- The City and the Union propose a five percent (5%) Cost of Living increase on Monday, October 2, 2023, to all eligible bargaining unit members.
- Pay ranges (minimum and maximum) in the Classified Service Pay Scale will also be adjusted by the 5% Cost of Living increase effective October 2, 2023.

The above proposed increases are for the period October 2, 2023 through September 30, 2024.

The parties agree that this Memorandum of Understanding shall be in effect until both parties have ratified a new Agreement and accept the above-stated terms to the Agreement as mutually agreeable. Article 13 – Wages is amended as follows with new language <u>underlined</u> and removed language ~~stricken~~:

ARTICLE 13 – WAGES

13.01 Effective October 1, 2021, all bargaining unit members shall receive a 5% cost of living increase, pursuant to the Memorandum of Understanding agreed to by the Union and the City on October 12, 2021.

13.03 Bargaining unit members may not exceed the top of their respective pay range. ~~All increases are contingent upon receiving at least a "Meets Expectations" evaluation for the most recent performance review.~~

13.04 ~~Effective on the first full pay period in October 2022 and October 2023, employees shall be advanced in pay according to a merit system outlined below. Annual appraisals will be completed on the General Employee Performance Evaluation form and will be rated as follows:~~

- ~~5 – Outstanding~~
- ~~4 – Exceeds Expectations~~
- ~~3 – Meets Expectations~~
- ~~2 – Improvement Needed~~

~~An overall rating for the entire review is then assigned based on a four (4) point system:~~

- ~~A rating of 4 indicates the employee's performance is exemplary and far exceeds the rating criteria.~~
- ~~A rating of 3 indicates the employee's performance is above average and exceeds the rating criteria.~~
- ~~A rating of 2 indicates the employee's performance meets the rating criteria and is average or satisfactory~~
- ~~A rating of 1 indicates the employee's performance does not meet the standards of the rating criteria and needs improvement or is unsatisfactory.~~

~~Annual merit increases will be based on the Overall Rating as follows:~~

- ~~A Rating of 4 = 4% + Cost of Living Increase*~~
- ~~A Rating of 3 = 2% + Cost of Living Increase*~~
- ~~A Rating of 2 = Cost of Living Increase Only*~~
- ~~A Rating of 1 = No Increase~~

~~* The Cost-of-Living increase for October 2022 will be based on the December 2021 Consumer Price Index for All Urban Consumers (CPI-U), South Region, with a minimum of 1.50% and a maximum of 2.50%.~~ The Cost-of-Living increase for October 2023 will be based on the December 2022 Consumer Price Index for All Urban Consumers (CPI-U), South Region, with a minimum of 1.50% and a maximum of 2.50%. Should the CPI-U exceed 3.75%, the City and the Union agree to re-open this Article for negotiation.

Effective October 2, 2023, all bargaining unit members shall receive a 5% cost of living increase. Pay ranges (minimum and maximum) in the Classified Service Pay Scale will also be adjusted by the 5% Cost of Living increase effective October 2, 2023.

13.05 An employee who receives an overall rating of "1" on the performance evaluation will be placed on a 90-day performance improvement plan (PIP). The employee will acknowledge his understanding of the PIP on the Performance Evaluation form. Following completion of the 90-day PIP, the employee will be further evaluated, and appropriate action taken.

13.06 Pay grade adjustments in the Pay and Classification Plan do not constitute a promotion.

City of Fernandina Beach **Mr. Mark Foxworth**

City Manager mfoxworth@fbfl.org

13.07 Newly hired employees will receive a probationary evaluation upon completion of 180 days of service. No probationary increase will be provided at the conclusion of the probationary period.

IN WITNESS WHEREOF, the parties hereto have caused this Memorandum of Understanding to be signed with their respective names by their respective representatives thereon to duly authorize.

City of Fernandina Beach **Mr. Dale L. Martin**

Office of the City Manager dmartin@fbfl.org

January 31, 2022

TO: Ronnie Burris, Representative, Northeast Florida Public Employees, Local 630, LiUNA

FROM: Dale L. Martin, City Manager

RE: Memorandum of Understanding

BETWEEN THE CITY OF FERNANDINA BEACH (hereinafter "City") AND NORTHEAST FLORIDA PUBLIC EMPLOYEES, LOCAL 630, LABORERS INTERNATIONAL UNION OF NORTH AMERICA, AFL-CIO (hereinafter "Union"), entered into on January 31, 2022,

With reference to collective bargaining between the City and the Union, the City and the Union mutually agree as follows:

- Article 13.04 – Wages, provides for a reopener of the Article if the December 2021 Consumer Price Index for All Urban Consumers (CPI-U), South Region, exceeds 3.75%.

- The CPI-U, South Region, was 7.4% in December 2021.

- The City and the Union propose a three percent (3%) Across-the-Board increase on the first full pay period of April 2022, to all eligible bargaining unit members.

- The City and the Union propose a four percent (4%) Cost of Living increase (instead of the contractual 2.5% maximum), on the first full pay period of October 2022, to all eligible bargaining unit members.

The above proposed increases are for the period April 1, 2022 through September 30, 2023. Increases for Fiscal Year 2023-24 are subject to a re-opener of Article 13.04 for negotiation, should the December 2022 Consumer Price Index for All Urban Consumers (CPI-U), South Region, exceed 3.75%.

The parties agree that this Memorandum of Understanding shall be in effect until both parties have ratified a new Agreement and accept the above-stated terms to the Agreement as mutually agreeable.

IN WITNESS WHEREOF, the parties hereto have caused this Memorandum of Understanding to be signed with their respective names by their respective representatives thereon to duly authorize.

PREAMBLE

This AGREEMENT, entered into December 3, 2021, between the CITY OF FERNANDINA BEACH, hereinafter referred to as the "City" (or the Employer") and the Northeast Florida Public Employees, Local 630, Laborers' International Union of North America, AFL-CIO-CLC, hereinafter referred to as the "Union".

It is the intent and purpose of this Agreement to assure a sound and mutually beneficial working and economic relationship between the parties hereto; to provide an orderly and peaceful means of resolving any misunderstandings or differences which may arise; and, to set forth herein basic and full agreement between the parties concerning rates of pay, wages, hours of employment, and other terms and conditions of employment. There are, and shall be, no individual arrangements contrary to the terms herein provided. It is understood that the City is engaged in furnishing essential public services which vitally affect the health, safety, comfort, and general well-being of the public, and both parties hereto recognize the need for continuous and reliable service to the public.

ARTICLE 1 – NON-DISCRIMINATION

1.01 Nothing in this contract shall prevent compliance with applicable governmental laws or lawful regulations including laws prohibiting discrimination based on race, creed, religion, color, national origin, gender, political affiliation, age, or disability.

1.02 The parties agree not to interfere with the right of any employee covered by this contract to become a member of the Union, withdraw from membership in the Union, or refrain from becoming a member in the Union. There shall be no discrimination against any employee covered by this contract by reason of Union membership or activity, or lack of union membership or activity.

1.03 All references in this contract to employees of the male gender are used for convenience only and shall be construed to include all employees.

ARTICLE 2 – UNION RECOGNITION

2.01 Pursuant to and in accordance with all applicable provisions of Chapter 447, Florida Statutes, and in accordance with the Public Employees Relations Commission Certification Number 2012, dated September 30, 2021, the City of Fernandina Beach (City) recognizes the Northeast Florida Public Employees, Local 630, Laborers International Union of North

America, AFL-CIO-CLC (Union) as the exclusive collective bargaining representative of the public employees described in Section 2.02 below.

2.02 List of all included positions: All full-time, non-exempt employees in the following classifications:

Accounting Clerk, Administrative Specialist, Building Inspector I, Building Inspector II, Building Inspector III. Chief Plant Operator, Code Enforcement Officer, Customer Service Specialist, Electrician/HVAC Technician, Engineer I, Evidence & Property Custodian, Fire Inspector, Foreman, Heavy Equipment Operator, Heavy Equipment Operator I-Stormwater, Heavy Equipment Operator II-Stormwater, Help Desk Specialist, Information Technology Technician, Lead Operator, maintenance Assistant, Maintenance Tech-Facilities, Maintenance Tech I, Maintenance Tech II, Maintenance Tech III, Maintenance Worker, Master Mechanic, Master Mechanic Senior, Mechanic, Meter Reader, Permit Specialist, Planning Technician, Plans Examiner, Plant Operator, Police Service Aide, Purchasing Agent, Records Coordinator, Recreation Aide, Recreation Coordinator, Recreation Leader, Sign Technician, Senior Building Inspector, Senior Electrician/HVAC Technician, Senior Permit Specialist, Senior Maintenance Worker, Senior Plans Examiner, Staff Assistant, Stormwater Operator I, Stormwater Operator II, Utility Billing Specialist, Warehouse Technician, Water Collector, Water Fitness Instructor, Water Locator, Water Tech I, Water Tech II, Wastewater Plant Operator Trainee, Wastewater Systems Technician I and Wastewater Systems Technician II.

2.03 The Business Manager of the Union, or his Alternate, will be the official spokesperson for the Union in any matter between the Union and the City. Any alternate designated by the Business Manager shall be designated in writing and include the period covered by such designation.

2.04 Employees of the bargaining unit shall have the right to join the Union, to engage in lawful concerted activities for the purpose of collective bargaining or other mutual aid and protection, and to express or communicate any view, grievance, complaint, or opinion, within the bounds of good taste related to the conditions or compensation of public employment or its betterment, all free from any restraint, coercion, discrimination, or reprisal. There shall be no restraint, discrimination, intimidation, or reprisal against any employee because of that employee's membership or lack of membership in the Union or by virtue of his holding office or not holding office in the Union. This provision shall be applied to all employees of the City and the Union.

ARTICLE 3 – SECURITY AND DUES CHECK OFF

3.01 A copy of this Agreement shall be provided to all members of the bargaining unit in the following manner:

a. The City agrees to have an electronic version with any amendments, Memorandum of Agreements and Memorandum of Understandings available for reference by bargaining unit employees.

b. The City agrees to provide all persons hired into a job classification represented by the Union a copy of the current Agreement.

3.02 Upon receipt of a written authorization from an employee covered by this Agreement, the City will deduct from the employee's pay the amount owed to the Union for dues and uniform assessments. It is understood that this provision will provide for at least twenty-six (26) deductions per year. The City will remit all sums to the Union within forty (40) days from the date of the deduction. The City's remittance will be deemed correct if the Union does not give written notice to the City within two (2) calendar weeks after a remittance has been received, of its belief, with reason(s), that the remittance is incorrect. The Union shall notify the City in writing thirty (30) days prior to any change in its regular dues structure.

3.03 The Union will indemnify, defend, and hold the City harmless against any claim made and against any suit instituted against the City on account of any deduction for Union dues or uniform assessments.

3.04 An employee may revoke his authorization for deduction of dues or uniform assessments, provided the employee gives written notice to the Union and the City's Human Resources Department. Dues revocation will be processed through the Union.

3.05 No deduction shall be made from the pay of any employee for any payroll period in which the employee's net earnings for that payroll period are less than the amount of dues to be checked off. Net earnings shall mean net after required deductions of federal taxes, social security, pension, and insurance benefits. Dues will be reinstated automatically once earnings exceed the amount of dues to be checked off.

3.06 All references to days shall refer to calendar days unless otherwise specified.

ARTICLE 4 – MANAGEMENT RIGHTS

4.01 The Union agrees that the City has and will continue to retain, whether exercised or not, the sole right to operate and manage its affairs in all respects; and the powers of authority which the City has not officially abridged, delegated, or modified by the express provisions of the Agreement are retained by the City. The rights of the City, through its management officials, shall include, but shall not be limited to, the right to determine the organization of the City government; to determine the purpose of each of its constituent departments; to exercise control and discretion over the organization and efficiency of operations of the City, including the right to assign work and overtime; to hire, examine, classify, promote, train, transfer, assign, and schedule employees in positions of the City; to suspend, demote, discharge, or take other disciplinary action against employees for proper cause; to increase, reduce, change, modify or alter the composition and size of the work force, including the right to relieve employees from duties because of lack of work, funds, or other legitimate reasons; to determine the location, methods, means, and personnel by which operations are to be conducted, including the right to determine whether goods or services are to be made or purchased; to establish, modify, combine or abolish job classifications; to change or eliminate existing methods, equipment or facilities; and to establish, implement and maintain an effective internal security program.

4.02 The City has the sole authority to determine the purpose and mission of the City, to prepare and submit budgets to be adopted by the City Commission, and to expend monies appropriated by the City Commission, as it shall deem desirable.

4.03 Those inherent managerial functions, prerogatives, and policy-making rights which the City has not expressly modified or restricted by a specific provision of this Agreement are not in any way, directly or indirectly, subject to the grievance procedure contained herein.

4.04 If it is determined that civil emergency conditions exist, including, but not limited to, riots, civil disorders, hurricane conditions, or similar catastrophes, the provisions of this Agreement may be suspended by the City Manager during the time of the declared emergency, provided that the wage rates and monetary fringe benefits shall not be suspended.

ARTICLE 5 – UNION STEWARDS AND REPRESENTATION

5.01 The City recognizes and shall work directly with the Union Business Manager or Union stewards pursuant to Section 2.03 of this Agreement on all matters relating to grievances and interpretation of this Agreement.

5.02 Employees covered by this Agreement will be represented by six (6) stewards designated by the Union. Union stewards shall be active employees and members of the bargaining

unit. The Union will also name a chief steward in addition to the five (5) other stewards. The Chief steward can handle issues at any work location as needed; in addition, he will also act as a second primary contract for the Union (in addition to the Union Business Manager).

5.03 A written list of the Union stewards shall be furnished to the City's Human Resources Department prior to the effective date of their assuming duties of office. The Union shall notify the Human Resources Department promptly of any changes in Union stewards.

5.04 Officials of the Union, as designated in Section 2.03 of this Agreement may, with proper authorization, be admitted to the property of the City. Union officials shall be able to speak to employees before or after regular working hours or during the lunch period of said employees on City property in areas mutually agreed upon by the Union and the City.

5.05 Union representatives, while on City property and functioning as stewards, are subject to the same rules of the City as all other public employees, except as specifically provided in this Agreement.

5.06 Active solicitation by the Union of grievances and the collection of Union monies shall not be engaged on the City's property.

5.07 No employee shall function as a Union steward while on leave of absence without the mutual consent of the Union and the City.

5.08 When it becomes necessary for a Union steward to enter a work area other than his own for the purpose of conducting Union business authorized by the Agreement, he will secure permission for his presence from the Manager or designee of that work area and notify the Manager or designee of the general nature of his business. Such permission shall not be unreasonably withheld.

ARTICLE 6 – UNION BUSINESS/PROHIBITION OF STRIKES

6.01 It is understood and agreed that employees functioning as Union stewards have productive work to perform and will not leave their jobs during work hours except after properly requesting and receiving authorization from their Department Director only after stating what official Union business is to be performed. Such Union business shall not be unreasonably withheld.

6.02 During the term of this Agreement, the City will provide up to two (2) days without loss of pay for LiUNA steward training for no more than six (6) Union stewards.

6.02 The City and the Union agree to meet and confer on matters of interest upon the written request of either party. The written request shall state the nature of the matters to be discussed and the reason(s) for requesting the meeting. Discussion shall be limited to matters set forth in the request or other subjects mutually agreed to, but it is understood that these meeting shall not be used to renegotiate this Agreement. Union representatives shall receive their regular pay for attending special meetings, provided that the meeting takes place during the representative's normal workday.

6.02 Strikes Prohibited: No public employee or employee organization may participate in a strike against a City by instigating or supporting, in any manner, a strike. Any violation of this section shall subject the violator to the penalties provided in Chapter 447.507 of the Florida Statutes or any amendments thereto. It is further agreed, and in consideration of this Agreement, that the City shall not, partially, or wholly lock out any employees for the duration of this Agreement. Lockouts shall be the denying of employee access to work to pressure the employees and/or the Union to accept the City's offered terms of employment. The City has the right to discipline any employee who violates the provisions of Section 6.01.

ARTICLE 7 – BULLETIN BOARDS/ELECTRONIC COMMUNICATION

7.01 The City shall provide the Union with suitable bulletin board space and the Union agrees to use the space provided only for Union business, to include:

Notice of Union Meetings
Reports of Union Committees
Union Elections
Rulings and Policies of the Union
Notice of Recreational and Social Affairs
Official Grievance Documents and Related Attachments
Copies of MOA's or MOU's
Job Descriptions
Policies of the City

7.02 The Union agrees the space will not contain controversial or political material, such as taking sides on issues or supporting a particular candidate for public office.

7.03 The Union agrees to provide the City Human Resources Director copies of all materials or notices prior to posting on the bulletin board.

ARTICLE 8 – HOURS OF DUTY AND OVERTIME

8.01 Duty Time:

a. The normal work cycle shall be forty (40) hours in a seven (7) day period. The seven (7) day period shall begin on Sunday, 12:01 a.m., and end on Saturday midnight.

b. The normal workday shall consist of eight (8) consecutive hours unless employee agreement is received for a split shift, exclusive of the lunch period, or in the case of other departments where ten (10) or twelve (12) hour workdays are scheduled. The day for shift workers shall begin at 7:00 a.m. and end at 7:00 a.m. the following day. Establishment of shift days, beginning times and rotation are the responsibility of management. Any changes in these shift parameters will be discussed with the shift employees prior to implementing any changes.

c. Employees may, at times, be required to work an alternate workweek. The City will make every effort to give employees forty-eight (48) hours advance notice, unless otherwise agreed to by the affected employee.

d. The City agrees to keep work in excess of established schedules at a minimum and to permit such work only when it is necessary to meet City operational requirements. The City agrees to schedule workers no more than sixteen (16) hours consecutively with an eight (8) hour rest period between shifts.

8.02 Employees will be allowed one (1) break period, not to exceed fifteen (15) minutes, in any consecutive four (4) hour period. The City shall designate when these occur. Employees are not permitted to leave the work site during the break period. Paid breaks will not be combined with any other breaks or meal periods or at the beginning or end of the work period. Break time will begin when the employee stops work and end when the employee returns to work. In the event a rest period cannot be granted because of an emergency, the supervisor may delay or cancel the rest period. Said rest period shall not be carried over to any other shift or day.

8.03 Overtime:

a. All time authorized and worked in excess of the work cycle described in Section 8.01(a) above, shall be compensated at the rate of one and one-half (1 ½) times the regular pay of the employee or granted Compensatory "Comp" time in accordance with the Fair Labor Standards Act (FLSA) and this Article. Holiday, Vacation and PTO will count toward hours worked for overtime calculation.

b. Overtime will not be worked without the prior approval of the Department Director or his designee.

c. In the event an employee is called back to work after completing his work shift, he shall be paid for all time worked, but not less than three (3) hours at his appropriate overtime rate of pay.

d. The City will make every effort to assign overtime in a fair and equitable manner. Each Division will develop an overtime roster for assignment of overtime if necessary and rotate qualified employees on an equal basis. However, qualifications to perform the job will be taken into consideration in assigning overtime. In the event of mandatory overtime, assignments will be made as follows:
    1. Volunteers
    2. Mandatory assignment will include all Union personnel of all Departments as necessary.

8.04 Comp Time:

An employee may elect to take compensatory leave time in lieu of over-time pay, if mutually agreed upon by the employee and the department Director or his/her designee, up to a maximum accumulation of eighty (80) hours. The accumulated compensatory hours may be carried over from year to year but shall not exceed forty (40) hours in total at any time.

All hours in excess of the maximum shall be in the form of pay. An employee who wishes to take compensatory leave time shall submit a leave request with reasonable notice. Approval or denial of the request will be made by the department Director or designee based on the operational or fiscal impact of the request.

An employee separating from the City on a voluntary or involuntary basis shall receive a lump sum payment for any accumulated compensatory time.

An employee shall be allowed to sell back forty (40) hours of compensatory time at the employee's regular hourly rate of pay once per year. Compensatory time sell-back shall not be pensionable.

8.05 Should an emergency be declared by the City Manager, employees that are directed to not report to work shall be compensated at one-half of their regular rate. Employees that are required to remain on duty shall be compensated at their regular pay. During hazardous conditions, as determined by the City Manager, or in the absence thereof his/her designee, employees shall be compensated at double their regular rate.

ARTICLE 9 – ON-CALL STATUS

9.01 In the event of an emergency such as, but not limited to, hurricanes, man-made disasters, etc., employees must be ready to be called to work in an urgent situation during off-duty time. Any employee who is required to remain on an emergency stand-by basis and in telephone contact shall be compensated at the rate of time and one-half (1½) of the base rate of pay for a minimum of three (3) hours per twenty-four (24) hour period. Any employee who is required to remain on-site during an emergency beyond his/her normally scheduled hours will be compensated at the rate of time and one-half (1 ½) of the base rate of pay for a minimum of three (3) hours. Failure to comply may be considered insubordination and may be subject to disciplinary action.

9.02 Employees who accept after hours work must report within one (1) hour of receipt of the call. Employees who fail, after accepting after hours work to respond within one (1) hour of receipt of the call may be subject to disciplinary action.

9.03 Certain employees are required as a matter of public safety as determined by the city to be placed in an on-call status. The city will not restrict the movement of employees who are required to remain in this status; however, employees on an on-call status must respond to any calls made to them within thirty (30) minutes of receipt of the call in a city provided vehicle.

9.04 Employees will be compensated for remaining in an on-call status in the following manner:

a. An employee placed in an on-call status will be paid for three (3) hours at the rate of time and one-half (1½) the base rate of pay each day for the week in which the employee is on-call. The three (3) hours will cover the first call-in each day. If the first call-in takes longer than three (3) hours, then the total hours will be paid at the overtime rate.

b. The employee shall be guaranteed not less than one (1) hours pay at the rate of time and one-half (1½) of their base rate of pay for each call-in after first call in for that on call 24-hour period. All time worked when on-call shall be paid at the rate of time and one-half (1½) the base rate of pay.

ARTICLE 10 – PROMOTIONAL VACANCIES

10.01 The City will post position vacancies in the bargaining unit within 30 working days after the position becomes vacant. If the City deems it necessary to change, alter or not fill a position, the Union will be informed within ten (10) working days.

10.02 The City agrees to post vacancies within the bargaining unit for a minimum of seven (7) calendar days. An employee interested in a job vacancy will complete an application and submit to the Human Resources Department. Any applicant or City employee may request to be considered for the vacant position provided:

a. The employee had no disciplinary action in the previous twelve (12) months. Informal counseling and verbal warnings will not be counted for purposes of this Article.

b. A new employee has completed 90-days of continuous employment.

10.03 All employees who meet the minimum qualifications for the position, as advertised, will be referred for consideration. Vacancies will be filled by selecting the best qualified candidate based upon prior experience directly or indirectly related to the job, education and formal training, performance history, required licenses and certificates, including all State certifications/licenses, seniority, and the interview.

10.04 In the event a qualified City employee and a qualified non-City employee are competing for the same position and the ability to perform the job is substantially equal, the City employee shall be given preference.

10.05 The provisions of this Article shall not apply to classifications when promotion is based upon obtaining a higher-level certification and/or license from a regulatory agency (Example: Plant Operators, Maintenance Technicians, Stormwater Operator, Wastewater Systems Tech, etc.). Provisions of this section shall also not apply whenever a position is being upgraded in classification and is already occupied by a City employee.

10.06 Any employee who is promoted to a classification having a higher pay grade than his current pay grade shall receive an increase of 5% above his regular rate or to the minimum rate of the new classification, whichever is greater. Promotions resulting in a change in pay grade of three or more pay grades shall result in an increase of 10% or to the minimum rate of the new classification, whichever is greater. Promotional increases may be exceeded at the time of promotion for employees who have key skills and have demonstrated outstanding performance.

An employee who elects to be demoted to a lower classification having a lower pay grade than his current pay grade shall receive a decrease of 5% below his regular rate. Demotions resulting in a change in pay grade of three or more pay grades shall result in a decrease of 10% below his regular rate. If the 5% or 10% demotion rate still exceeds the maximum of the new classification, the employee will be moved to the maximum rate.

10.07 Promoted employees shall not be placed on probation in their new classification unless they have not completed their initial 180-day probationary period as a new-hire.

10.08 Promotion increases shall not affect annual performance increase eligibility.

ARTICLE 11 – PROBATIONARY PERIOD, SENIORITY, LAYOFF

11.01 Initial Probationary Period: The probationary period for each newly hired employee in the bargaining unit shall be 180 days continuous service following the date of hire. An interruption for authorized leave of absence shall not constitute a break in continuous service, but any time on leave without pay shall not be credited as time in service and will be added to the 180-day probationary status. An employee terminated during the probationary period does not have the right to grieve the termination under the grievance procedures.

11.02 Seniority

a. Probationary employees do not acquire seniority with the City until they have successfully completed the probationary period. Upon completion, the employee's seniority date will commence with the employee's date of hire, if hired as a full-time employee, or date made regular status, if converted from seasonal or part-time status.

b. City seniority is defined as an employee's continuous length of service with the City, commencing with last date of hire. When more than one (1) employee is hired on the same day, City seniority will be assigned in alphabetical order by last name.

c. An employee's seniority will be broken when continuous service with the City is interrupted by resignation, discharge for cause, failure to return from an authorized leave of absence, lay-off for more than six (6) months, failure to respond to a recall within ten (10) working days, or retirement.

11.03 Layoff

a. In the event of a lay-off for lack of funds or lack of work, employees will be given thirty (30) days written notice and will be laid off in inverse order of hire of the Union covered employees in the affected department. All part-time employees shall be laid off before any full-time employees within the same department that is being affected by the layoff. Employees shall be laid off by job classification with regard to seniority from least senior to most senior. The decision concerning which employee(s) are to be laid off within the affected job class shall be based upon the affected employee(s) ability to perform the remaining work available, past performance, and seniority. If all factors are equal, seniority in position shall take precedence in determining the order of the layoff with less senior employees in the position subject to lay off first.

b. In the event laid off employees are recalled to work, recalls shall be in reverse order of lay-off.

c. Notice of recall shall be sent to the former employee's last address by Certified Mail. All recalls must be responded to within ten (10) working days of receipt. Failure to respond will result in loss of seniority and recall rights.

ARTICLE 12 – DISCIPLINE/GRIEVANCE PROCEDURE

12.01 Discipline

a. An employee may be disciplined only for just cause. The employee and the Union shall be notified of a proposed action (excluding oral warnings) within ten (10) working days of the date of the incident giving rise to the charges. If extenuating circumstances exist, the Department Director will inform the Union Business Manager or designee there will be a delay in the discipline process.

b. When an employee is questioned by management and the employee reasonably believes that the questioning may lead to disciplinary action against him, the employee has the right to request that a union representative be present at the meeting. The City will accommodate an employee's request for a union representative when a dismissal notice is being issued that may cause that employee to consider possible resignation. When an employee requests union representation pursuant to this Section, and a union representative is not immediately available, the City will agree to postpone the meeting for no longer than five (5) days in order for the employee to obtain union representation.

b. Disciplinary actions involving discharge, demotion, or suspension with loss of pay, shall be subject to the Grievance procedure set forth in this Agreement.

12.02 Grievance Procedures

a. It is the policy of the City to encourage discussion on an informal basis between a supervisor and employee concerning complaints. Such discussion should be held with a view to reaching an understanding that will resolve the matter in a manner satisfactory to the employee, without need for recourse to the formal grievance procedure. An employee's complaint will be presented and handled promptly and should be resolved at the lowest level of supervision consistent with the authority of supervisor. Nothing in this Article or elsewhere in this Agreement shall be construed to permit the Union to process a grievance (1) on behalf of any employee without his consent, or (2) with respect to any matter which is the subject of a grievance, appeal, administrative action before a governmental board or agency, or court proceeding brought by an individual employee or group of employees, or by the Union.

b. A "grievance" shall consist of disputes about interpretations and/or applications of particular clauses of this Agreement, and about alleged violations of this Agreement, including formal written discipline. All references to the term "working day" when used in this procedure, shall mean calendar days Monday through Friday, excluding holidays.

c. Nothing in this Agreement shall be construed to prevent any employee from presenting his own grievance to the City, in person or by legal counsel, and having such grievances adjusted without the intervention of the bargaining agent, if the adjustment is not inconsistent with the terms of the Agreement, and if the bargaining agent or his designee has been given reasonable opportunity to be present at any meeting called for the resolution of such grievance.

d. Grievances shall be presented and adjusted in the following manner:

Step 1 - Department Director Level – If an employee initiates his grievance at this step, the grievance will be reduced to writing on a mutually agreed upon form, setting forth the facts of the complaint and the Article/Section violated, within five (5) working days after receipt. If a response is not provided within the time allotted, the grievance may be submitted to the Human Resources Director for action by the City Manager.

Step 2 - City Manager Level – If the grievance is not resolved at Step 1, the employee may submit the grievance in writing through the Human Resources Director to the City Manager within five (5) working days after receipt of the reply at Step 1. The City Manager will have ten (10) working days to respond, in writing, to the grievance.

Step 3 - Arbitration Level – If the grievance is not resolved at Step 2, the Union may request arbitration within ten (10) business days after receipt of the response at Step 2 by submitting a request in writing to the Human Resources Director outlining the specific provision(s) of this Agreement at issue. If the grievance is not appealed for arbitration within the time limits, the decision of the City Manager shall be final and binding upon the aggrieved employee and/or the Union.

A City representative and the Union Business Manager will meet within five (5) working days of receipt of the request for arbitration to jointly apply to the Federal Mediation and Conciliation Service for a panel of seven (7) arbitrators. Within ten (10) working days of receipt of said panel, the Union Business Manager and the City Representative will meet to select an arbitrator. Both the Union and the City shall have the right to

strike three (3) names from the panel. Lot chance will determine who shall strike a name out first.

The arbitrator shall issue his decision no later than thirty (30) days from the date of the closing of the hearings unless a later date is mutually agreed to by the Union and the City. The decision shall be in writing and shall set forth the arbitrator's opinion and conclusions on the issue(s) submitted. The arbitrator shall limit his decision strictly to the application and interpretation of the specific provisions of this Agreement as requested by the Union and the City.

The decision of the arbitrator, if made in accordance with his jurisdiction and authority under this Agreement, shall be final and binding on the Union, the City, and employees in the bargaining unit. In reaching his decision, the arbitrator will use the preponderance of evidence standard of proof.

The arbitrator may fashion an appropriate remedy where he finds a violation of this Agreement, but no liability, monetary or otherwise shall accrue against the City or the Union. With respect to grievances involving termination of employment, the arbitrator shall not modify the City's disciplinary action unless he finds the City's action to be arbitrary or capricious.

The fees and expenses of the arbitrator shall be borne equally by both parties. Any party desiring a transcript shall bear the cost of it.

e. Failure to initiate a grievance within the time limit specified shall be determined a waiver of the grievance right. Failure at any Step of this procedure to submit the grievance to the next Step within the specified time limit shall be deemed to be acceptance of the decision at that Step. Failure at any Step of this procedure to communicate the decision on a grievance within the specified time limit shall permit the employee or the Union where appropriate, to proceed to the next Step of the grievance process.

ARTICLE 13 – WAGES

13.01 Effective October 1, 2021, all bargaining unit members shall receive a 5% cost of living increase, pursuant to the Memorandum of Understanding agreed to by the Union and the City on October 12, 2021.

13.03 Bargaining unit members may not exceed the top of their respective pay range. All increases are contingent upon receiving at least a "Meets Expectations" evaluation for the most recent performance review.

13.04 Effective on the first full pay period in October 2022 and October 2023, employees shall be advanced in pay according to a merit system outlined below. Annual appraisals will be completed on the General Employee Performance Evaluation form and will be rated as follows:

- 5 – Outstanding
- 4 – Exceeds Expectations
- 3 – Meets Expectations
- 2 – Improvement Needed

An overall rating for the entire review is then assigned based on a four (4) point system:

- A rating of 4 indicates the employee's performance is exemplary and far exceeds the rating criteria.
- A rating of 3 indicates the employee's performance is above average and exceeds the rating criteria.
- A rating of 2 indicates the employee's performance meets the rating criteria and is average or satisfactory
- A rating of 1 indicates the employee's performance does not meet the standards of the rating criteria and needs improvement or is unsatisfactory.

Annual merit increases will be based on the Overall Rating as follows:

- A Rating of 4 = 4% + Cost of Living Increase*
- A Rating of 3 = 2% + Cost of Living Increase*
- A Rating of 2 = Cost of Living Increase Only*
- A Rating of 1 = No Increase

* The Cost-of-Living increase for October 2022 will be based on the December 2021 Consumer Price Index for All Urban Consumers (CPI-U), South Region, with a minimum of 1.50% and a maximum of 2.50%. The Cost-of-Living increase for October 2023 will be based on the December 2022 Consumer Price Index for All Urban Consumers (CPI-U), South Region, with a minimum of 1.50% and a maximum of 2.50%. Should the CPI-U exceed 3.75%, the City and the Union agree to re-open this Article for negotiation.

13.05 An employee who receives an overall rating of "1" on the performance evaluation will be placed on a 90-day performance improvement plan (PIP). The employee will acknowledge his understanding of the PIP on the Performance Evaluation form. Following completion of the 90-day PIP, the employee will be further evaluated, and appropriate action taken.

13.06 Pay grade adjustments in the Pay and Classification Plan do not constitute a promotion.

13.07 Newly hired employees will receive a probationary evaluation upon completion of 180 days of service. No probationary increase will be provided at the conclusion of the probationary period.

ARTICLE 14 – VACATION/SICK LEAVE/PAID TIME OFF (PTO)

14.01 Vacation:

a. For employees hired prior to October 1, 2004 and elected the vacation and sick leave plan, vacation shall be accrued as follows:

Years of Service	Length of Vacation
Less than 1 year	5 days (40 hours)
1 year, but less than 5 years	10 days (80 hours)
5 years, but less than 15 years	15 days (120 hours)
15 or more years	20 days (160 hours)

b. Management will approve vacation based on a first-come, first served basis. In the event of a conflict, seniority rules. Leave requests shall be submitted no earlier than six (6) months in advance and with reasonable notice before the requested leave would commence unless extenuating circumstances arise. The employee will be provided a valid reason for any denied vacation time.

c. Employees shall not be charged vacation leave for a holiday.

d. Absence due to sickness that is more than sick leave accrued may be charged to vacation leave upon the request of the employee.

e. Unused vacation leave shall be paid to the employee upon termination from City employment at the regular rate of pay received immediately prior to termination.

14.02 Sick Leave:

a. For employees hired prior to October 1, 2004 and elected the vacation and sick leave plan, four (4.0) hours of sick leave will be accrued bi-weekly.

b. Employees may accrue a maximum of 1200 hours of sick leave.

c. To be eligible to use sick leave, the employee shall call in at least fifteen (15) minutes prior to the start of the employee's shift, unless extenuating circumstances prohibit.

d. Sick leave may be used for an illness or injury of the employee or a member of the employee's immediate family, provided a doctor's statement is received stating that it was necessary for the employee to be absent to care for the family member, if requested by the employee's supervisor. Members of the employee's immediate

family include the employee's parent or step-parent, spouse or child (to include foster children).

e. The City, at its discretion, may require an employee to present a doctor's certificate stating that the employee was unable to work to support the sick leave taken. Failure to provide a certificate, if requested, will result in the employee being charged absence without leave and result in loss of pay for the time missed.

f. Employees shall have the option to sell back to the City twelve (12) hours sick leave the last pay period prior to the Christmas Holiday provided the employee has used less than twenty-four hours during the fiscal year.

14.03 Paid Time Off (PTO)

a. For employees hired after October 1, 2004 or employees that elected PTO instead of the vacation and sick plan, PTO shall be accrued as follows:

Years of Service	Length of PTO
Less than 1 year	15 days (120 hours)
1 Year, but less than 5 years	20 days (160 hours)
5 years, but less than 10 years	25 days (200 hours)
10 years, but less than 15 years	28 days (224 hours)
15 or more years	32 days (256 hours)

b. Effective October 1, 2022, employees will be allowed to carry forward unused PTO to a maximum of 900 hours. Effective October 1, 2023, employees will be allowed to carry forward unused PTO to a maximum of 600 hours.

c. Management will approve PTO based on a first-come, first served basis. In the event of a conflict, seniority rules. Leave requests shall be submitted no earlier than six (6) months in advance and with reasonable notice before the requested leave would commence unless extenuating circumstances arise. The employee will be provided a valid reason for any denied PTO time.

d. Employees shall not be charged PTO leave for a holiday.

e. Employees who opted into the PTO plan when initially offered in 2004 may have accrued sick leave time kept in a separate bank. Employees will be allowed to use this sick leave time with a doctor's statement. Employees will be allowed to use time from this bank for illness or injury for their spouse or children provided they reside in the same household, and they present a doctor's statement stating their presence is needed.

f. Up to forty (40) hours of PTO will be paid out upon voluntary separation or retirement with the City.

ARTICLE 15 – LEAVE OF ABSENCE AND OTHER FORMS OF LEAVE

15.01 Family & Medical Leave (FMLA): The City and the Union agree to observe the requirements of the Family Medical Leave Act. Eligible employees may take up to twelve (12) work weeks of leave in a rolling 12-month period for one or more of the following reasons:

- The birth of a son or daughter or placement of a son or daughter with the employee for adoption or foster care;
- To care for a spouse, son, daughter, or parent who has a serious health condition;
- For a serious health condition that makes the employee unable to perform the essential functions of his or her job; or
- For any qualifying exigency arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active duty status.

Employees shall notify the Human Resources Department 30 days in advance when the need for leave is foreseeable. When the need for leave is foreseeable less than 30 days in advance or is unforeseeable, employees must provide notice as soon as possible and practicable under the circumstances. Human Resources will provide written notice to the employee after notification received of approval/denial of leave.

Employees may use accrued PTO, Sick or Vacation leave for FMLA; otherwise, it will be unpaid.

15.02 Military Leave: Both parties hereto agree to comply with the Uniformed Services Employment and Reemployment Rights Act (USERRA) and Florida law regarding military leave.

15.03 Bereavement Leave: The City shall grant up to five (5) days of paid bereavement leave due to the death of an immediate family member. Immediate family is defined as the employee's parent or stepparent, spouse, or child (to include foster children).

Up to three days of paid bereavement leave will be provided due to the death of the employee's parent-in-law, child's spouse, sibling, grandparents, or grandchildren. Special consideration will also be given to any other person whose association with the employee was similar to any of the above relationships.

One day of bereavement leave may be granted due to the death of any other family member not included above who is related by blood or marriage in order that the employee may attend funeral services.

15.04 Jury Duty: An employee summoned to jury duty or subpoenaed or summoned to appear in court as a witness in connection with the performance of duties with the City will be granted administrative leave with pay. If released by the court prior to the end of the employee's normally scheduled workday, the employee is expected to return to work.

Eligibility for administrative leave requires the employee to deposit with the Finance Department any monetary payment received for jury duty or court appearance.

15.05 Personal Leave of Absence (Non-FMLA): All requests for a leave of absence (Non-FMLA) shall be in writing and approved by the Department Director and City Manager. Employee shall not engage in any outside employment during an authorized personal leave of absence unless approved in advance by the City Manager. It is understood and agreed that all leaves of absence shall be without pay and will not exceed thirty (30) calendar days per year.

ARTICLE 16 – HOLIDAYS

16.01 The following holidays are designated as paid holidays:
New Year's Day
Martin Luther King, Jr. Day
Good Friday
Memorial Day
Juneteenth
Independence Day
Labor Day
Veterans Day
Thanksgiving Day
Friday following Thanksgiving Day
Christmas Eve
Christmas Day

Whenever any paid holiday listed above occurs on a Saturday, the preceding business day shall be considered as a holiday. When any paid holiday occurs on Sunday, the following business day shall be considered as a holiday. Some bargaining unit positions may observe the holiday on the day of the week it occurs, rather than the day prior or next day (e.g., Plant Operators).

16.02 Employee shall receive their regular rate of pay for each designated holiday for the regular scheduled workday (e.g., 8, 10 or 12 hours).

16.03 Employees required to work on a holiday will receive the holiday pay in Section 16.02 above plus a rate of one and one-half (1 ½) times their base rate of pay for all hours worked that day.

16.04 In computing overtime, holidays shall be counted as days worked; however, if a holiday falls on an employee's regular day off, then the holiday shall not be counted as time worked.

16.05 In order to be paid for a holiday, an employee must work or be in a pre-approved paid leave status (PTO, sick, vacation, FMLA) the scheduled workday before and after the holiday. Upon furnishing a doctor's excuse for a minimal notice PTO leave, the PTO may be approved at the discretion of the Department Director.

ARTICLE 17 – EMPLOYEE BENEFITS

17.01 Medical Insurance: The City shall provide individual basic medical insurance for employees. Employees hired prior to October 1, 2013 shall contribute forty-five percent (45%) of the cost of insurance for dependent coverage. Employees hired on or after October 1, 2013 shall contribute fifty percent (50%) of the cost of insurance for dependent coverage for the period of this Agreement.

17.02 Life Insurance: The City agrees to provide term life insurance coverage for employees at no cost to the employee. The benefit provided shall be one times the employee's annual salary, rounded to the nearest thousand and recalculated annually.

17.03 Pension Plan: The City provides for a defined benefit pension plan, The General Employees' Pension Plan, with a six-year vesting period. Both the City and the employees contribute to the fund. The City agrees to maintain a defined benefit pension plan as it now exists. Any change to the plan that requires an increase in the employee contribution shall be mutually agreed upon by the employees, the City, and the General Employees' Pension Board.

17.04 Employee Assistance Program: The City agrees to provide an Employee Assistance Program at no cost to the employees. Through the Employee Assistance Program, the City provides confidential access to professional counseling services for assistance in confronting certain personal issues. More information about this program may be found in the City's Personnel Policy Manual or by contacting the Human Resources Department.

ARTICLE 18 – EDUCATIONAL ASSISTANCE

18.01 The City may make educational assistance available to regular full-time employees who have completed 180 calendar days of service. While educational assistance is expected to enhance performance and abilities, the City cannot guarantee that participation in formal education will result in advancement, a different job assignment or pay increases.

18.02 The Union agrees that the City's Personnel Policy Manual will cover the educational assistance program under this Article.

18.03 Employees approved for educational assistance must agree to remain with the City for a period of two (2) years from the date of completion of each educational assistance received. Failure to complete the service requirement obligates the employee to repay the City on a pro-rated basis ($1/24^{th}$ credit is given for each month of service following completion of the educational assistance program). This provision does not obligate the City to employ an employee for any set duration.

ARTICLE 19 – UNIFORMS

19.01 An annual uniform allowance of three-hundred dollars ($300) will be provided to employees required to wear uniforms, excluding Maintenance Department employees who perform automotive maintenance duties as their primary job function. The automotive maintenance employees will be provided a uniform service, as determined by the City in lieu of the $300 uniform allowance. Uniform allowances will be issued in two installments each fiscal year: $150 in the first full pay period of October and $150 in the first full pay period of April. Uniform purchases may include shirts, slacks, shorts (if wearing of shorts is not a safety issue), hats, jackets, and rain gear, and must have the City emblem if feasible. Employees receiving the uniform allowance will be required to be in uniform when on duty. Uniforms will not be worn while in an off-duty status except while traveling to and from work.

19.02 The employee will provide for the cleaning and repair of uniforms. Upon leaving City employment, all uniform shirts will be returned.

19.03 The City will appropriate two hundred dollars ($200) per administrative employee each fiscal year as a clothing allowance. Clothing allowances will be issued in two installments each fiscal year: $100 in within the first full pay period of October and $100 in the first full pay period of April.

ARTICLE 20 – SAFETY & HEALTH

20.01 Both the City and the Union agree to make a concerted effort to conform and comply with applicable laws as to safety and health.

20.02 The City and the Union will cooperate in the continuous objective of eliminating safety and health hazards due to unsafe working conditions. No employee shall be required to perform work where there is imminent danger to life and/or limb.

20.03 Employees covered by the Agreement shall comply with all safety rules and regulations established by the City.

20.04 Should an employee believe that unsafe working conditions exist in any work area, the employee, shall, as soon as possible, report the condition to his immediate managerial supervisor. The supervisor shall investigate the report and respond to the employee in writing with his findings within five (5) working days. Should the employee disagree with the supervisor's response, the employee may report condition to his Department Director.

20.05 In compliance with established safety practices and laws, the City agrees to provide personal protective equipment, safety wearing apparel and other necessary equipment required to protect employees from injury or disease. Safety apparel shall include safety boots, safety glasses, gloves, hard hats, ear protection, and chaps.

20.06 The City agrees to provide a three-hundred-dollar ($300) safety shoe allowance to employees required to wear safety shoes in the performance of their duties. The safety shoe allowance will be paid each fiscal year during the contract period. Safety shoes must meet ASTM F2412 and ASTM F2413 standards.

20.07 The City agrees to subsidize up to one-hundred-fifty dollars ($150) each fiscal year during the contract period towards the purchase of prescription safety glasses. Safety glasses must meet ANSI Standard #Z87.1 and have side shields. The employee must wear side shields on safety glasses while on duty. Employees are required to submit their purchase receipt to Finance for reimbursement.

20.08 Failure of employees to wear appropriate personal protective equipment for the job being performed will be considered willful neglect, subject to discipline. Employees who fail to follow established safety regulations, fail to use all personal protective equipment provided by the City, and/or fail to work in a safe manner, shall constitute just cause for discipline, up to and including termination.

20.09 The City shall maintain a workplace safety program in accordance with the City's Personnel Policy Manual. The Union shall have representation on the Safety Committee.

20.10 The City agrees to provide first aid kits that are accessible to employees. The City also agrees to provide transportation to medical facilities if an employee is injured on the job and requires such transportation.

20.11 The City agrees to provide Bloodborne Pathogen Training to employees. The City agrees to provide Hepatitis B vaccinations at no cost for employees in at-risk positions, if the employee desires.

ARTICLE 21 – WORKERS COMPENSATION

21.01 Workers' compensation benefits will be provided in accordance with the Workers' Compensation Law, Chapter 440, Florida Statutes, to an employee who is disabled because of an on-the-job injury arising out of, and in the course of, activities related to his employment.

21.02 An employee who sustains an injury resulting in disability which is compensable under the Worker's Compensation Law shall be carried in full pay status for a period not exceeding seven (7) days. Under no circumstances shall the employee receive more than one-hundred percent (100%) of regular earnings while on Workers Compensation leave. Such pay will be contingent upon written confirmation of inability to work from the Workers Compensation physician treating the employee.

21.03 If the employee is unable to resume work at the end of the seven (7) day period, Workers' Compensation payments will commence. The employee may elect to use his PTO, or sick and vacation time to make up the difference between the Worker's Compensation payment and his base salary. If the employee desires to use accrued leave to supplement Worker's Compensation payments, the employee must request the leave in writing to his supervisor. The employee's department will report the hours used to payroll on a bi-weekly basis. If a holiday occurs during the employee's absence, and accrued leave is being used, the supplement for the holiday shall be charged to holiday pay.

21.04 Employees will continue to accrue PTO, or sick and vacation leave while on Workers Compensation, for up to twelve (12) weeks. If the employee is not able to return to duty (or light duty if available) after twelve (12) weeks, no further leave accrual will occur, and the employee's pay will revert exclusively to Workers Compensation payments.

21.05 Failure to return to work upon release by the Workers Compensation physician for a period of three scheduled workdays will be treated as a resignation.

ARTICLE 22 – DRUG & ALCOHOL TESTING

22.01 In the interest of public and employee safety, and the professional image of City government, the City has implemented a drug and alcohol-free workplace policy. The Union agrees to support the City policy and understands that random, reasonable suspicion, and post-accident drug and alcohol testing will be required of employees in the bargaining unit. Any employee who refuses to comply with a legitimate order for testing, who provides false information in connection with a test, or who attempts to falsify test results through tampering, contamination, adulteration, substitutions, or any other means shall immediately be removed from duty, placed on leave without pay status, and terminated from City employment.

The City and Union agree to follow the City's Personnel Policy on Drug Testing.

ARTICLE 23 – SEVERABILITY

23.01 In the event any article, section, or portion of this Agreement is deemed invalid or unenforceable by any court of competent jurisdiction, such decision shall apply only to the specific article, section, or portion thereof specified in the court's decision. Upon request of either party, the parties agree to meet for the purpose of negotiating a substitute for that specific article, section, or portion thereof. All other articles, sections, and portions of this Agreement shall remain valid and enforceable.

ARTICLE 24 – ENTIRE AGREEMENT

24.01 The Parties acknowledge that during negotiations which resulted in this Agreement, each Party had the unlimited right and opportunity to make demands and proposals with respect to any subject or matter not removed by law from the area of collective bargaining, and that the understanding and agreements arrived at by the parties after the exercise of that right and opportunity are set forth in this Agreement.

24.02 Prior Actions: This Agreement supersedes and cancels all prior practices and agreements, whether written or oral; all prior charges, complaints, grievances, discharges, reprimands, and other disciplinary actions; and constitutes the complete and entire Agreement between the parties.

24.03 Except as provided elsewhere, this Agreement shall be effective from October 1, 2021 through September 30, 2024.

ARTICLE 25 – DURATION

25.01 This Agreement shall be in full force and effect as of the 1st day of October 2021 and shall remain in full force and effect through the 30th day of September 2024. This Agreement shall remain in full force and effect during the period of negotiations of any successor agreement.

25.02 In the event the City and the Union fail to secure a successor agreement prior to the expiration date of this Agreement, the parties may mutually agree in writing to extend this Agreement for any period, provided that any such successor agreement will be effective as of the date agreed upon and will not necessarily be retroactive to the expiration date of this Agreement.

25.03 If it is determined that civil emergency conditions exist, including but not limited to, riots, civil disorders, severe weather conditions, or similar catastrophes, the provisions of this Agreement may be suspended by the City Manager during the time of the declared emergency, provided wage rates and monetary fringe benefits shall not be suspended.

WITNESS, or hand and sealed this 21st day of December, 2021, in Fernandina Beach, Florida.

ORDINANCE 2022-35

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, AMENDING THE PAY AND CLASSIFICATION PLAN ESTABLISHED BY ORDINANCE 2022-08 PURSUANT TO CHARTER SECTION 30 AND CODE OF ORDINANCES SECTION 62-247; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Fernandina Beach Charter Section 30 states, in relevant part, "The City Manager fixes the number and compensation of all other officers and employees. The salaries or compensation must be uniform for like services in each grade of the City service, as the same will be graded or classified by the City Manager and approved by the City Commission."; and

WHEREAS, Code of Ordinances Section 62-247 states, in relevant part, "The classification plan shall be that as established by the City Commission each year by ordinance and may be amended by the City Commission from time to time in its discretion, by ordinance, as it may deem necessary to ensure that the plan reflects the current job classification of all positions in the City service."; and

WHEREAS, Senior Manager and Director classifications were excluded from the amendments to the Pay and Classification Plan established by Ordinance 2022-08; and

WHEREAS, through collective bargaining with the Organized Firefighters of Fernandina Beach, Local Union No 2836, International Association of Firefighters AFL-CIO (Resolution #2022-21) and the Coastal Florida Police Benevolent Association (Resolution #2022-84), new compensation plans were negotiated and approved; and

WHEREAS, the City recognizes that the compensation plan is intended to provide all employees with equitable and competitive pay, relative to pay received by other employees performing similar work in other areas of the City's organization and also comparative to rates received by other employees in the labor market from which City employees are recruited; and

WHEREAS, it is in the best interest of the City to amend the existing Classified Service Titles and Pay Grades to reflect the current organizational needs and responsibilities of the City.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA:

SECTION 1. CLASSIFIED SERVICE TITLES AND PAY GRADES. The Classified Service Titles and Pay Grades Plan as shown below are hereby amended.

SECTION 2. CONSOLIDATED PAY PLAN. The Classified Service Pay Scale for Fire Department (Appendix "B"), Police Department (Appendix "C"), and Senior Managers and Directors (Appendix "D"), are hereby repealed in their entirety.

SECTION 3. CONSOLIDATED PAY PLAN. The amended Classified Service Pay Scale for General Employees, Managers and Directors (Appendix "A"), Fire Department (Appendix "B"), and Police Department (Appendix "C"), are hereby adopted for Fiscal Year 2022-2023.

SECTION 4. SEVERABILITY. If any section, subsection, sentence, clause, phrase of this Ordinance, or the particular application thereof, shall be held invalid by any court, administrative agency or other body with appropriate jurisdiction, the remaining sections, subsections, sentences, clauses and phrases under application shall not be affected thereby.

SECTION 5. EFFECTIVE DATE. This Ordinance shall be effective on January 3, 2023 after its second reading, public hearing and final enaction.

ENACTED by the City Commission this 3rd day of January, 2023

NOTICE OF PUBLIC HEARING
CITY COMMISSION
CITY OF FERNANDINA BEACH

NOTICE IS HEREBY GIVEN that a Public Hearing is scheduled for **Tuesday, January 3, 2023, at 6:00 PM** in the City Commission Chambers, 204 Ash Street Fernandina Beach, Florida to consider the following application:

ORDINANCE 2022-35

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, AMENDING THE PAY AND CLASSIFICATION PLAN ESTABLISHED BY ORDINANCE 2022-08 PURSUANT TO CHARTER SECTION 30 AND CODE OF ORDINANCES SECTION 62-247; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

Interested parties may appear at said hearing and be heard as to the advisability of any action, which may be considered. Any persons with disabilities requiring accommodations in order to participate in this program or activity should contact 310-3115, TTY/TDD 711 or through the Florida Relay Service at 1-800-955-8771 at least 24 hours in advance to request such accommodation.

IF ANY PERSON DECIDES TO APPEAL ANY DECISION MADE BY THE BOARD/COMMISSION WITH RESPECT TO ANY MATTER CONSIDERED AT SUCH HEARING, S/HE WILL NEED TO ENSURE THAT A VERBATIM RECORD OF THE PROCEEDINGS IS MADE, WHICH RECORD INCLUDES THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

For information, please contact the Staff of the City Clerk's Office, 204 Ash Street, between the hours of 8:00 AM – 5:00 PM, Monday through Friday, (904) 310-3115.

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-76
Temporary Easement - United States Army Corps of Engineers (USACE) Beach Renourishment

ITEM TYPE: Resolution (w/o fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-76.

SYNOPSIS: The US Army Corps of Engineers is conducting a dredging project for Kings Bay Naval Base. The beach-quality sand recovered in this project will be used to renourish Florida beaches, including Fernandina Beach. In order to complete the project, the USACE needs access to certain areas of Dolphin Street at Fletcher Ave and Ocean Ave to complete work. The City initially granted an easement to the USACE for the temporary use of this area for twelve months beginning in May 2022. This Resolution approves this easement for an additional twelve months beginning May 2023.

FISCAL IMPACT: None.

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt proposed Resolution 2023-76.

Agnes White, Administrative Services Manager	5/1/2023
Charles George, Interim City Manager	5/3/2023
Tammi E. Bach, City Attorney	5/8/2023

Submitted By: Katie Newton, Legal Assistant — Date: May 01, 2023

COMMISSION ACTION: Adopt

RESOLUTION 2023-76

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, APPROVING A TEMPORARY EASEMENT AGREEMENT BETWEEN THE CITY OF FERNANDINA BEACH AND THE UNITED STATES ARMY CORPS OF ENGINEERS FOR BEACH RENOURISHMENT STAGING AND MOBILIZATION; AUTHORIZING EXECUTION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the U.S. Army Corps of Engineers (USACE) will be conducting a project for the United States Navy to dredge the entrance channel of Naval Submarine Base Kings Bay; and

WHEREAS, the U.S. Navy and State of Florida have agreed that all beach-quality sand recovered in the dredging project is to be placed on State of Florida beaches, including beaches within the City of Fernandina Beach; and

WHEREAS, the USACE requests twelve-month temporary work easements at the following publicly-owned beach area for construction access and equipment staging: near the intersection of near the intersection of Dolphin Street and South Fletcher Avenue; and

WHEREAS, the City of Fernandina Beach originally granted the USACE temporary easements to conduct beach renourishment work via Resolution 2022-74; and

WHEREAS, the City wishes to grant easements through May 2024.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, THAT**:**

SECTION 1. The City Commission hereby grants this temporary easement to USACE and directs the City Clerk and Interim City Manager to execute the temporary easement agreement with the USACE upon review and approval of the City Attorney, attached hereto as Exhibit 1.

SECTION 2. This Resolution shall become effective immediately upon passage.

ADOPTED this 16th day of May, 2023.

TEMPORARY EASEMENT AGREEMENT
DOLPHIN STREET AND NORTH FLETCHER AVENUE

THIS EASEMENT AGREEMENT ("Agreement") is made and entered into this 16th day of May, 2023, by and between the City of Fernandina Beach, Florida, a municipal corporation, whose address is 204 Ash Street, Fernandina Beach, FL 32034 ("Grantor"), and United States Army Corps of Engineers, a department of the U.S. Army, Jacksonville District whose address is 701 San Marco Boulevard, Jacksonville, FL 32207-8175 ("Grantee").

RECITALS

WHEREAS, Grantor is the owner of certain real property situated within the municipal limits of the City of Fernandina Beach, Florida ("Grantor's Property"), more particularly described in Exhibit "A", and

WHEREAS, the Grantee desires an unrestricted temporary easement and right-of-way in, over and across Grantor's property for a period of 12 months and for the purpose of a temporary staging area to store equipment, erect and remove temporary structures, and trim, cut and remove obstructions such as vegetation and structures within the easement area; and

WHEREAS, the Grantor is willing to grant to Grantee an unrestricted, temporary easement and right-of-way in, over and across Grantor's property for a period of 12 months beginning November 2023 and for the purpose of a temporary staging area to store equipment, erect and remove temporary structures, and trim, cut and remove obstructions such as vegetation and structures within the easement area and temporary access area for the use and benefit of the Grantee; and

WHEREAS, Grantor is willing and able to grant to Grantee such temporary easement and appurtenant rights as are hereinafter set forth; and

WHEREAS, Grantee desires to accept said easement rights, and is willing to perform the affirmative covenants hereinafter set forth;

NOW, THEREFORE, for and in consideration of the sum of $10.00 the affirmative covenants assumed by Grantee herein, and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged by Grantor, and the affirmative covenants assumed by Grantee herein, the parties agree as follows:

AGREEMENT

1. Recitals; Exhibits. The above recitals and all Exhibits attached to this Agreement are true and correct and are incorporated herein by this reference.

2. Temporary Easement. Grantor hereby grants to Grantee, its successors and assigns, a temporary, non-exclusive easement and right-of-way ("Easement") in, over and across that certain real property situated in the City of Fernandina Beach, Nassau County, Florida, more particularly described on Exhibit "B" attached hereto and incorporated herein by this reference ("Easement Area") for a period not to exceed twelve (12) months, beginning with the date of possession of the land is granted to the United States, its representatives, agents, and contractors as a work area, for use by the United States, its representatives, agents, and contractors as a work area, including the right to move, store and remove equipment and supplies, and erect and remove temporary structures on the land and to perform any other work necessary and incident to the construction of the Naval Submarine Base Kings Bay Entrance Channel Dredging Project, together with the right to trim, cut, fell and remove therefrom all trees, underbrush, obstructions, and any other vegetation, structures, or obstacles within the limits of the right-of-way; reserving, however, to the landowners, their heirs and assigns, all such rights and privileges as may be used without interfering with or abridging the rights and easement hereby acquired; subject, however, to existing easements for public roads and highways, public utilities, railroads and pipelines.

3. Grantor's Representations and Warranties. Grantor hereby represents and warrants to Grantee as follows:

3.1 Ownership. Grantor is the owner in fee simple of the certain parcel of real estate situated in Nassau County, Florida, more particularly described on Exhibit "A" on which Grantee intends to use as a staging area and access area.

3.2 Right to Convey Easement. Grantor warrants and represents that Grantor has the right to convey a permanent Easement in, on, over and across the property, more particularly described on Exhibit "B" and will defend the same easement against the lawful claims of all persons whomsoever.

3.3. Authority. Grantor does hereby fully warrant and represent that the party signing the Agreement on behalf of Grantor has the authority to bind Grantor to the Agreement.

4. Use of Easement Area. Notwithstanding the foregoing grants of easements, Grantor retains the right to use the Easement Area for any lawful purpose other than for a permanent building, structure, foundation, or other use inconsistent with the grants made herein.

5. Binding Effect. The foregoing grants of easements and rights appurtenant thereto, shall be and constitute covenants running with the land, benefitting the public at large and burdening the Easement Area, and shall be binding upon the heirs, successors, and assigns of the parties.

6. Entire Agreement. This Agreement embodies and constitutes the entire understanding between the parties with respect to the matters set forth in this Agreement. All prior or contemporaneous agreements, understandings, representations, and statements, oral or written, are merged into this Agreement. Neither this Agreement nor any provision hereof may be waived, modified, amended, discharged, or terminated except by an instrument in writing signed by the party against which the enforcement of such waiver, modification, amendment, discharge or termination is sought, and then only to the extent set forth in such instrument.

7. Counterparts. This Agreement may be executed in two or more separate counterparts, each of which shall be deemed an original, and all of which, when taken together, shall constitute one and the same instrument.

8. Restoration. In the event of construction, maintenance or repair in the Easement Area by Grantee, Grantee hereby agrees and understands that Grantee is required to restore the ground surface area of the Easement Area by replacing any pre-existing landscaping, fencing, concrete and/or asphalt to as near a preconstruction condition as is practicable in the reasonable judgment of the Grantee.

IN WITNESS WHEREOF, the parties have executed this instrument on the date first above written.

2021

DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS, JACKSONVILLE DISTRICT
701 SAN MARCO BOULEVARD
JACKSONVILLE, FLORIDA 32207-8175

May 2, 2023

Mr. Charles L. George
City Manager
City of Fernandina Beach
204 Ash Street
Fernandina Beach, Florida 32034
Sent via email to cgeorge@fbfl.org

Dear Mr. George:

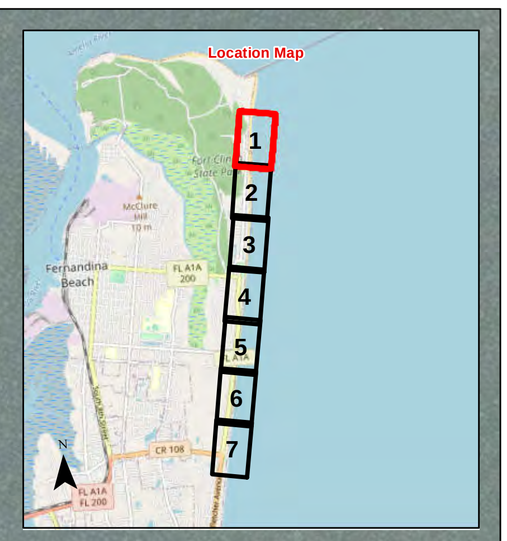
The U.S. Army Corps of Engineers (Corps) will be conducting a project on behalf of the Department of the Navy to dredge the entrance channel of Naval Submarine Base Kings Bay (NSB Kings Bay). As agreed between the Navy and the State of Florida in the Memorandum of Understanding Concerning Dredging of the St. Mary's Inlet Channel dated December 18, 1986, all beach-quality sand recovered from NSB Kings Bay dredging operations are to be placed on State of Florida beaches. Consequently, part of the dredge disposal plan involves placing sand on beaches within the City of Fernandina Beach, Florida, which positively augments the re-nourishment efforts for the Nassau County Shore Protection Project.

In order to conduct the disposal/re-nourishment aspect of the dredging project, the Corps is requesting that the City provide certain temporary real estate interests as described below:

a. A Temporary Work Area Easement for the access areas shown in pink in the enclosed map (Enclosure 1). The term of the easement should begin the date of easement execution and should expire no earlier than May 31, 2024.

b. A Temporary Work Area Easement for the staging areas shown in blue in the enclosed map (Enclosure 1). The term of the easement should begin the date of easement execution and should expire no earlier than May 31, 2024.

The language for the Temporary Work Area Easements is enclosed (Enclosure 2). Please provide the signed easements by May 31, 2023 via email to angela.f.huggins@usace.army.mil. For your convenience, also enclosed is the City Commission of the City of Fernandina Beach's Resolution 2022-74 (Enclosure 3) approving the temporary easements for last year's disposal/beach re-nourishment.



If you have any questions or require additional information, please contact Angela Huggins by email: angela.f.huggins@usace.army.mil or by telephone: 904-232-1939.

Sincerely,

Timothy H. McQuillen
Chief, Real Estate Division

Data Note 1:
This is a sketch of legal descriptions. For reference purposes only.
This is not a boundary survey.

Data Note 2:
The MHW line is approximately 2.4 ft NAVD88 (not shown on this map) while the landward edge of beach fill is at 8.6 ft NAVD88 (fill area is shown). Therefore, the MHW line is seaward of the approximate vegetation line since the landward edge of fill is seaward of the approximate vegetation line, and the MHW line is seaward of the landward edge of fill.

RESOLUTION 2022-74

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, APPROVING TEMPORARY EASEMENT AGREEMENTS BETWEEN THE CITY OF FERNANDINA BEACH AND THE UNITED STATES ARMY CORPS OF ENGINEERS FOR BEACH RENOURISHMENT STAGING AND MOBILIZATION; AUTHORIZING EXECUTION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the U.S. Army Corps of Engineers (USACE) will be conducting a project for the United States Navy to dredge the entrance channel of Naval Submarine Base Kings Bay; and

WHEREAS, the U.S. Navy and State of Florida have agreed that all beach-quality sand recovered in the dredging project is to be placed on State of Florida beaches, including beaches within the City of Fernandina Beach; and

WHEREAS, the USACE requests twelve-month temporary work easements at the following publicly owned beach areas for construction access and equipment staging: near the intersection of Dolphin Street and Ocean Avenue; near the intersection of Dolphin Street and South Fletcher Avenue; and the City owned right of way near the end of Sadler Road/Seaside Park; and

WHEREAS, the City of Fernandina Beach wishes to grant the USACE temporary easements to conduct beach renourishment work.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, THAT**:**

SECTION 1. The City Commission hereby grants these temporary easements to USACE and directs the City Clerk and City Manager to execute temporary easement agreements with the USACE upon review and approval of the City Attorney, attached hereto as Exhibit "1" and Exhibit "2".

SECTION 2. This Resolution shall become effective immediately upon passage.

ADOPTED this 3rd day of May, 2022.

TEMPORARY EASEMENT AGREEMENT
DOLPHIN STREET AND NORTH FLETCHER AVENUE

THIS TEMPORARY EASEMENT AGREEMENT ("Agreement") is made and entered into this 3rd day of May, 2022, by and between the City of Fernandina Beach, Florida, a municipal corporation, whose address is 204 Ash Street, Fernandina Beach, FL 32034 ("Grantor"), and United States Army Corps of Engineers, a department of the U.S. Army, Jacksonville District whose address is 701 San Marco Boulevard, Jacksonville, FL 32207-8175 ("Grantee").

RECITALS

WHEREAS, Grantor is the owner of certain real property situated within the municipal limits of the City of Fernandina Beach, Florida ("Grantor's Property"), more particularly described in Exhibit "A", and

WHEREAS, the Grantee desires an unrestricted temporary easement and right-of-way in, over and across Grantor's property for a period of 12 months beginning in November 2022 and for the purpose of a temporary staging area to store equipment, , erect and remove temporary structures, and trim, cut and remove obstructions such as vegetation and structures within the easement area; and temporary access area.

WHEREAS, the Grantor is willing to grant to Grantee an unrestricted, temporary easement and right-of-way in, over and across Grantor's property for a period of 12 months beginning in November 2022 and for the purpose of a temporary staging area to store equipment, , erect and remove temporary structures, and trim, cut and remove obstructions such as vegetation and structures within the easement area and temporary access area for the use and benefit of the Grantee; and

WHEREAS, Grantor is willing and able to grant to Grantee such temporary easement and appurtenant rights as are hereinafter set forth; and

WHEREAS, Grantee desires to accept said easement rights, and is willing to perform the affirmative covenants hereinafter set forth;

NOW, THEREFORE, for and in consideration of the sum of $10.00 the affirmative covenants assumed by Grantee herein, and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged by Grantor, and the affirmative covenants assumed by Grantee herein, the parties agree as follows:

AGREEMENT

1. Recitals: Exhibits. The above recitals and all Exhibits attached to this Agreement are true and correct and are incorporated herein by this reference.

2. Temporary Easement. Grantor hereby grants to Grantee, its successors and assigns, a temporary, non-exclusive easement and right-of-way ("Easement") in, over and across that certain real property situated in the City of Fernandina Beach, Nassau County, Florida, more particularly described on Exhibit "B" attached hereto and incorporated herein by this reference ("Easement Area") for a period not to exceed twelve (12) months, beginning with the date possession of the land

is granted to the United States, its representatives, agents, and contractors as a work area, including the right to (move, store and remove equipment and supplies, and erect and remove temporary structures on the land and to perform any other work necessary and incident to the construction of the Kings Bay Entrance Channel O&M Project, together with the right to trim, cut, fell and remove therefrom all trees, underbrush, obstructions, and any other vegetation, structures, or obstacles within the limits of the right-of-way; reserving, however, to the landowners, their heirs and assigns, all such rights and privileges as may be used without interfering with or abridging the rights and easement hereby acquired; subject, however, to existing easements for public roads and highways, public utilities, railroads and pipelines.

3. Grantor's Representations and Warranties. Grantor hereby represents and warrants to Grantee as follows:

3.1 Ownership. Grantor is the owner in fee simple of the certain parcel of real estate situated in Nassau County, Florida, more particularly described on Exhibit "A" on which Grantee intends to use as a staging area and access area.

3.2 Right to Convey Easement. Grantor warrants and represents that Grantor has the right to convey a temporary Easement in, on, over and across the property, more particularly described on Exhibit "B" and will defend the same easement against the lawful claims of all persons whomsoever.

3.3. Authority. Grantor does hereby fully warrant and represent that the party signing the Agreement on behalf of Grantor has the authority to bind Grantor to the Agreement.

4. Use of Easement Area. Notwithstanding the foregoing grants of easements, Grantor retains the right to use the Easement Area for any lawful purpose other than for a permanent building, structure, foundation, or other use inconsistent with the grants made herein.

5. Binding Effect. The foregoing grants of easements and rights appurtenant thereto, shall be and constitute covenants running with the land, benefitting the public at large and burdening the Easement Area, and shall be binding upon the heirs, successors, and assigns of the parties.

6. Entire Agreement. This Agreement embodies and constitutes the entire understanding between the parties with respect to the matters set forth in this Agreement. All prior or contemporaneous agreements, understandings, representations, and statements, oral or written, are merged into this Agreement. Neither this Agreement nor any provision hereof may be waived, modified, amended, discharged, or terminated except by an instrument in writing signed by the party against which the enforcement of such waiver, modification, amendment, discharge or termination is sought, and then only to the extent set forth in such instrument.

7. Counterparts. This Agreement may be executed in two or more separate counterparts, each of which shall be deemed an original, and all of which, when taken together, shall constitute one and the same instrument.

8. Restoration. In the event of construction, maintenance or repair in the Easement Area by Grantee, Grantee hereby agrees and understands that Grantee is required to restore the ground surface area of the Easement Area by replacing any pre-existing landscaping, fencing, concrete and/or asphalt to as near a preconstruction condition as is practicable in the reasonable judgment of the Grantee.

IN WITNESS WHEREOF, the parties have executed this instrument on the date first above written.

TEMPORARY EASEMENT AGREEMENT OF THE CITY OWNED RIGHT OF WAY AT THE END OF SADLER ROAD/SEASIDE PARK

THIS TEMPORARY EASEMENT AGREEMENT ("Agreement") is made and entered into this 3rd day of May, 2022, by and between the City of Fernandina Beach, Florida, a municipal corporation, whose address is 204 Ash Street, Fernandina Beach, FL 32034 ("Grantor"), and United States Army Corps of Engineers, a department of the U.S. Army, Jacksonville District whose address is 701 San Marco Boulevard, Jacksonville, FL 32207-8175 ("Grantee").

RECITALS

WHEREAS, Grantor is the owner of certain real property situated within the municipal limits of the City of Fernandina Beach, Florida ("Grantor's Property"), more particularly described in Exhibit "A", and

WHEREAS, the Grantee desires an unrestricted temporary easement and right-of-way in, over and across Grantor's property for a period of 12 months beginning in November 2022 and for the purpose of a temporary staging area to store equipment, , erect and remove temporary structures, and trim, cut and remove obstructions such as vegetation and structures within the easement area; and temporary access area.

WHEREAS, the Grantor is willing to grant to Grantee an unrestricted, temporary easement and right-of-way in, over and across Grantor's property for a period of 12 months beginning in November 2022 and for the purpose of a temporary staging area to store equipment, erect and remove temporary structures, and trim, cut and remove obstructions such as vegetation and structures within the easement area and temporary access area for the use and benefit of the Grantee; and

WHEREAS, Grantor is willing and able to grant to Grantee such temporary easement and appurtenant rights as are hereinafter set forth; and

WHEREAS, Grantee desires to accept said easement rights, and is willing to perform the affirmative covenants hereinafter set forth;

NOW, THEREFORE, for and in consideration of the sum of $10.00 the affirmative covenants assumed by Grantee herein, and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged by Grantor, and the affirmative covenants assumed by Grantee herein, the parties agree as follows:

AGREEMENT

1. Recitals; Exhibits. The above recitals and all Exhibits attached to this Agreement are true and correct and are incorporated herein by this reference.

2. Temporary Easement. Grantor hereby grants to Grantee, its successors and assigns, a temporary, non-exclusive easement and right-of-way ("Easement") in, over and across that certain

real property situated in the City of Fernandina Beach, Nassau County, Florida, more particularly described on Exhibit "B" attached hereto and incorporated herein by this reference ("Easement Area") for a period not to exceed twelve (12) months, beginning with the date possession of the land is granted to the United States, its representatives, agents, and contractors as a work area, including the right to (move, store and remove equipment and supplies, and erect and remove temporary structures on the land and to perform any other work necessary and incident to the construction of the Kings Bay Entrance Channel O&M Project, together with the right to trim, cut, fell and remove therefrom all trees, underbrush, obstructions, and any other vegetation, structures, or obstacles within the limits of the right-of-way; reserving, however, to the landowners, their heirs and assigns, all such rights and privileges as may be used without interfering with or abridging the rights and easement hereby acquired; subject, however, to existing easements for public roads and highways, public utilities, railroads and pipelines.

3. Grantor's Representations and Warranties. Grantor hereby represents and warrants to Grantee as follows:

3.1 Ownership. Grantor is the owner in fee simple of the certain parcel of real estate situated in Nassau County, Florida, more particularly described on Exhibit "A" on which Grantee intends to use as a staging area and access area.

3.2 Right to Convey Easement. Grantor warrants and represents that Grantor has the right to convey a temporary Easement in, on, over and across the property, more particularly described on Exhibit "B" and will defend the same easement against the lawful claims of all persons whomsoever.

3.3. Authority. Grantor does hereby fully warrant and represent that the party signing the Agreement on behalf of Grantor has the authority to bind Grantor to the Agreement.

4. Use of Easement Area. Notwithstanding the foregoing grants of easements, Grantor retains the right to use the Easement Area for any lawful purpose other than for a permanent building, structure, foundation, or other use inconsistent with the grants made herein.

5. Binding Effect. The foregoing grants of easements and rights appurtenant thereto, shall be and constitute covenants running with the land, benefitting the public at large and burdening the Easement Area, and shall be binding upon the heirs, successors, and assigns of the parties.

6. Entire Agreement. This Agreement embodies and constitutes the entire understanding between the parties with respect to the matters set forth in this Agreement. All prior or contemporaneous agreements, understandings, representations, and statements, oral or written, are merged into this Agreement. Neither this Agreement nor any provision hereof may be waived, modified, amended, discharged, or terminated except by an instrument in writing signed by the party against which the enforcement of such waiver, modification, amendment, discharge or termination is sought, and then only to the extent set forth in such instrument.

7. Counterparts. This Agreement may be executed in two or more separate counterparts, each of which shall be deemed an original, and all of which, when taken together, shall constitute one and the same instrument.

8. Restoration. In the event of construction, maintenance or repair in the Easement Area by Grantee, Grantee hereby agrees and understands that Grantee is required to restore the ground surface area of the Easement Area by replacing any pre-existing landscaping, fencing, concrete and/or asphalt to as near a preconstruction condition as is practicable in the reasonable judgment of the Grantee.

IN WITNESS WHEREOF, the parties have executed this instrument on the date first above written.

DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS, JACKSONVILLE DISTRICT
701 SAN MARCO BOULEVARD
JACKSONVILLE, FLORIDA 32207-8175

April 14, 2022

Mr. Dale L. Martin, City Manager
City of Fernandina Beach
204 Ash Street
Fernandina Beach, Florida 32034
Sent via email to dmartin@fbfl.org

Dear Mr. Martin:

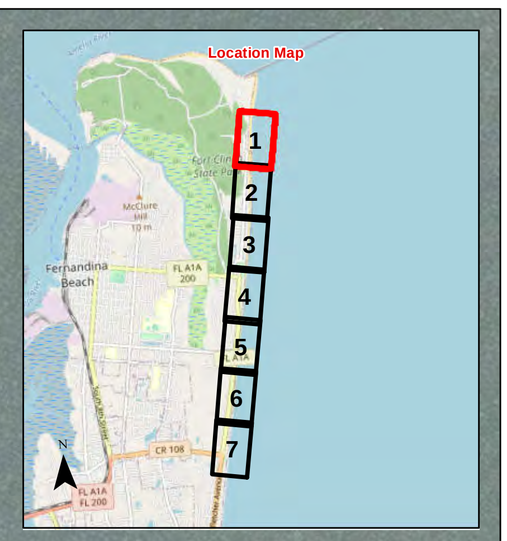
The U.S. Army Corps of Engineers (Corps) will be conducting a project on behalf of the Department of the Navy to dredge the entrance channel of Naval Submarine Base Kings Bay (NSB Kings Bay). As agreed between the Navy and the State of Florida in the Memorandum of Understanding Concerning Dredging of the St. Mary's Inlet Channel dated December 18, 1986, all beach-quality sand recovered from NSB Kings Bay dredging operations are to be placed on State of Florida beaches. Consequently, part of the dredge disposal plan involves placing sand on beaches within the City of Fernandina Beach, Florida, which positively augments the re-nourishment efforts for the Nassau County Shore Protection Project.

In order to conduct the disposal/re-nourishment aspect of the dredging project, the Corps is requesting that the City provide certain temporary real estate interests as described below:

a. A Temporary Work Area Easement for the access areas shown in pink in the enclosed map (Enclosure 1). The term of the easement should begin the date of easement execution and should expire no earlier than May 1, 2023.

b. A Temporary Work Area Easement for the staging areas shown in blue in the enclosed map (Enclosure 1). The term of the easement should begin the date of easement execution and should expire no earlier than May 1, 2023.

The language for the Temporary Work Area Easements is enclosed (Enclosure 2). Please provide the signed easements by May 27, 2022 via email to angela.f.huggins@usace.army.mil. For your convenience, also enclosed is the City Commission of the City of Fernandina Beach's Resolution 2021-98 (Enclosure 3) approving the temporary easements for last year's disposal/beach re-nourishment.



If you have any questions or require additional information, please contact Angela Huggins by email: angela.f.huggins@usace.army.mil or by telephone: 904-232-1939.

Sincerely,

Timothy H. McQuillen

Data Note 2:
The MHW line is approximately 2.4 ft NAVD88 (not shown on this map)
while the landward edge of beach fill is at 8.6 ft NAVD88 (fill area is shown).
Therefore, the MHW line is seaward of the approximate vegetation line since
the landward edge of fill is seaward of the approximate vegetation line, and
the MHW line is seaward of the landward edge of fill.

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-77
(Quasi-judicial) Preliminary Plat/Replat Approval - "Third and Beech"

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-77.

SYNOPSIS: The applicants, Compass Group/Gillette and Associates Inc, Agent for owners, Anthoney J. Tringali Rev. Trust/Josephine Tringali request approval of a preliminary plat/replat for a 12-lot townhome residential subdivision. The Planning Advisory Board (PAB) held a public hearing on December 14, 2022, and issued a recommendation of denial and recommended the application to be heard by the Board of Adjustment (BOA). The Planning Advisory Board (PAB) reconsidered the application at a public hearing held on April 12, 2023, and upheld its original recommendations.

FISCAL IMPACT: Collection of impact fees, permit fees, and recurring utilities for twelve homesites.

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt proposed Resolution 2023-77.

Kelly Gibson, Planning Deputy Director	4/21/2023
Katie Newton, Legal Assistant	4/24/2023
Agnes White, Administrative Services Manager	5/1/2023
Pauline Testagrose, Comptroller	5/2/2023
Charles George, Interim City Manager	5/3/2023
Tammi E. Bach, City Attorney	5/5/2023

Submitted By: Daphne Forehand, Planner I

Date: April 18, 2023

COMMISSION ACTION: Adopt

RESOLUTION 2023-77

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, APPROVING A PRELIMINARY PLAT/REPLAT FOR A SUBDIVISION CALLED "THIRD AND BEECH" TO CREATE A TWELVE (12) LOT TOWNHOME SUBDIVISION; PROVIDING FOR SEVERABILITY; AND AN EFFECTIVE DATE.

WHEREAS, Compass Group Inc. and Gillette and Associates Inc., applied to the City Commission of the City of Fernandina Beach, Florida, for approval of a preliminary plat/replat titled "Third and Beech"; and

WHEREAS, the Beech and Third townhome subdivision, includes reconfiguration of twenty (20) platted lots contained in Block 12 of the 1857 Plat of Fernandina to create of twelve (12) lots; and

WHEREAS, the Technical Review Committee reviewed the preliminary plat for compliance under SPR 2022-0022, and the application is pending issuance of a local development order; and

WHEREAS, staff reviewed the applicant's preliminary plat/replat and found it compliant with the City's 2030 Comprehensive Plan and Land Development Code issuing a recommendation of approval; and

WHEREAS, on December 14, 2022, the Planning Advisory Board reviewed the preliminary plat/ replat and recommended denial, further commenting that the applicant should apply for a variance through the Board of Adjustment to restore the original twenty (20) lots platted lots of record from the 1857 plat; and

WHEREAS, on April 12, 2023, the Planning Advisory Board reaffirmed their December 14, 2022, recommendation.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The City Commission hereby accepts and approves the preliminary plat titled "Beech and Third", attached hereto as Exhibit A.

SECTION 2. This Resolution shall take effect immediately upon passage.

ADOPTED this 16th day of May, 2023.

IMPORTANT NOTES

Pre-Application Meeting

To guide you through the process and ensure that your application is understood and properly processed, youâ€™ll need to meet with a City Planner prior to submitting your application. Completed applications are due 30 days prior to the Planning Advisory Board meeting date.

Please see the Land Development Code (LDC) for detailed information:

- [ ] LDC Text Amendment â€“ see LDC Section 11.01.08.
- [ ] Preliminary Subdivision Plat â€“ see LDC Section 11.01.05.
- [ ] Final Subdivision Plat â€“ LDC Section 11.01.05.
- [ ] Zoning Map Changes â€“ See LDC Section 11.01.07.

The LDC is available for review at

www.fbfl.us/LDC

Application Requirements

- [ ] A complete application filed at least forty-five (45) days before the date of the Planning Advisory Boardâ€™s public hearing;
- [ ] Proof of Ownership (copy of deed or tax statement);
- [ ] A current survey of the property (no older than two years);
- [ ] If applying as an agent, Ownerâ€™s Authorization for Agent Representation form needs to be signed/ notarized and included in application;
- [ ] A detailed letter of intent stating the following:
- [ ] o The consistency of the proposed amendment(s) or action(s) with the Cityâ€™s Comprehensive Plan.
- [ ] o A justification for the proposed amendment(s) or action(s).

SUMMARY OF REQUEST:

The applicant, Compass Group/Gillette and Associates Inc, agent for owners, Anthoney J Tringali Rev. Trust/Josephine Tringali requests approval of a Preliminary Plat/ Replat for a **12-lot townhome** residential subdivision. This requested re-plat is for construction of 12 townhome sites relying on the densities and intensities associated with the established Future Land Use Map (FLUM) and its respective Zoning Districts of Mixed Use (MU-1) and Medium Density Residential (R-2). Both the MU-1 and R-2 zoning districts allow for a range of residential housing types including townhome development.

Common amenities for the new subdivision include its shared driveway, stormwater management system, common mail kiosk, and landscaping to address tree mitigation. Vehicular access to the proposed development will be though the shared driveway that will enter and exit onto Beech Street. Additionally, access surrounds the proposed development on three sides with on-street parking located on S. 3rd S Street, S. 4th Street and Beech Street.

BACKGROUND INFORMATION:

The project site contains 20 originally platted lots of record from Block 12 of the City's 1857 plat map, only eight (8) lots of record remain open and available for new construction under existing conditions. The remaining lots have been combined into four (4) development sites because of prior development. The established development sites contain single family homes and a former commercial structure identified as a beer warehouse on the 1903 Sanborn Maps. Although one structure could qualify for designation in the City's local register of historic places (124 S. 3rd Street), the remaining structures do not fall within the City's Downtown Historic District's period of significance. The property is not covered by overlay regulations that extend to properties within the

Downtown Historic District, and it is not within the Amelia River Waterfront Community Redevelopment Area. Given the structures and remaining vacant lands, **existing conditions permits development and/or redevelop the properties to allow 12 homesites.** This redevelopment scenario would scatter new homes and/or rehabilitated homes on approximately half of City Block 12 onto varied lot widths at 25-foot lots, 50-foot lots, and 75-foot lots.

An Alternative Development Scenario:
The applicant could make an application to restore the originally platted lots of record on Block 12 though action of the Board of Adjustment (BOA) to achieve a development pattern consistent with the original 1857 plat. A scenario which would potentially allow for 20 home sites. A request made under the BOA decision making, if approved, would allow development of either detached single family homes or townhome development.

Under this development scenario there would be no required coordination of infrastructure and multiple curb cuts for driveways. Detached single-family homes and townhomes do not require permits under St. Johns River Water Management District (SRJWMD) and the City's code would only require demonstration that the volume of water expected from the individual lots be retained on the subject property. Further, under this development alternative option review by the Technical Review Committee is not required unless there are common amenities. This scenario does not afford the City an opportunity to address common infrastructure needs in a holistic manner including sidewalks, parking, underground utilities, streetlights, stormwater management, or access.

CONSISTENCY WITH THE COMPREHENSIVE PLAN:

Policy 1.02.06. The City shall assure that specific density assigned to new development and redevelopment is compatible and consistent with established residential development patterns and provides equitable use of the land. Criteria to be considered in allocating density shall include, but not be limited to, the following:
a. Protecting the integrity and stability of established residential areas;
b. Assuring smooth transition in residential densities;
c. Encouraging commercial and residential mixed use development patterns;
d. Recognizing and being sensitive to the character and form of the surrounding neighborhoods;

DEFINITION OF NET DENSITY

Net Density is determined by multiplying the "maximum allowable units per acre" by the "net buildable land area" expressed in acreage. "Net buildable land area" means those contiguous land areas under common ownership proposed for residential development, minus undevelopable environmentally sensitive areas, wetland and wetlands transitional areas[1], floodplains and waters of the state. Lots adjoining an existing right-of-way may calculate half of the width of that right-of-way as part of the "net buildable land area" definition.

[1]Properties with cross jurisdictional wetlands pursuant to 373.414(1)(c), Florida Statutes may calculate wetland and wetland transitional areas as part of the net buildable land area.
The calculation of net density defines the number of permissible dwelling units. It is based on the definition for net density provided in the Comprehensive Plan. Net Density includes terms for calculating the "net buildable land area" and inclusion of ½ of the adjoining public rights-of-way (ROW). The site acreage calculated based on the City's definition of net density can only accommodate a maximum of **12 dwelling units.** The net density calculation of the project site breaks down as follows:

3RD STREET AND BEECH STREET TOWNHOMES PROJECT	**CALCULATED NET DENSITY**
53,143.20 sq. ft. (1.22 acres of land)	sq. ft.

	53,143.20	
Minus 1,256 sq. ft. lands within the Special Flood Hazard Area (SFHA)	- 1,256	sq. ft.
PRIVATE PROPERTY AREA TOTALS:	**51,887**	sq. ft.
Plus half of the adjoining rights-of-way (ROW)		
+ S. 4th Street side 30 ft. x 250 ft. =	7,500	sq. ft.
+ Corner of S. 4th Street and Beech Street is 30 ft. x 30 ft. =	1,500	sq. ft.
+ Corner of S. 3rd Street and Beech Street is 30 ft. x 30 ft. =	1,500	sq. ft.
+ S. 3rd Street side 30 ft. x 225 ft. =	+ 6,750	sq. ft.
ROW AREA TOTALS:	**17,250**	sq. ft.
Total Net Buildable Land Area *(excluding SFHA plus ½ the ROW)*	69,137	sq. ft.
8 dwelling units per acres	/5,445	sq. ft.
TOTAL DWELLING UNITS:	**12.7**	units *(rounded down)*

Policy 1.02.06 (e). Requiring application of low impact development (LID) principles, native and drought tolerant landscaping and urban design principles and practices;
AND
1.06.06 (f). Encouraging connectivity of pedestrian walkways and bicycle paths on and off site.

The proposed development has applied LID principals through the use of pervious pavers as well as providing native drought tolerant landscaping as reflected in the Technical Review Committee submittal. Connectivity of pedestrian walkways have been provided through the addition of sidewalks along South Third and South Fourth Street connecting at Beech Street.

Policy 1.01.02. The approval of all development shall be subject to the availability of adequate levels of service for all facilities and services that are subject to concurrency management requirements.

AND

Policy 1.02.03. The City shall ensure that the location, scale, timing, and design of development is coordinated with the availability of public facilities and services. The City seeks to ensure compact development patterns that integrate neighborhood and commercial activities and promote connectivity through the use of sidewalks, bike lanes and alternative low-speed shared-use vehicle paths in order to achieve a reduction in vehicular trips on arterial roadways. The purpose of this policy is to prevent the proliferation of urban sprawl and to achieve cost effective and energy efficient land development patterns and avoid or eliminate existing patterns that may be described as: described below.

- **a. No Areas of urban development or uses, which are not functionally related to land uses which predominate the adjacent area;**
- **b. No Areas of urban development or uses which fail to maximize the use of existing public facilities;**
- **c. No Areas of urban development or uses which fail to use areas within which public services are currently provided; and**
- **d. No Leapfrog/scattered development or ribbon/strip commercial development patterns.**

The proposed development is consistent with the Comprehensive Plan's direction for compact urban development and serves to maximize the use of existing public facilities. The subject property lies in an area of existing urban development. Water and sewer services are available to serve the site, and this proposed development. No leapfrog development is occurring. The development is accessed by City improved and maintained roadways. To

support reduced vehicle miles traveled, the developer will provide sidewalks along South 3rd and South 4th Street with connection of the sidewalks along Beech Street.

Policy 1.02.05(i). The City's land development code shall include the following Maximum Building Size: Standards shall limit the gross square feet of a single building in order to ensure compatibility with development throughout the City.
AND
Policy 1.02.10. The City shall protect privacy and access to light, air, and open space. The City shall consider regulations such as building placement on a site, building design, and building orientation as one means to achieve this policy.

Standards have been provided in Chapter 4 of the Land Development Code to address the policy direction.

Policy 1.05.04. Existing platted lots of record located in Central Business District, Mixed Use, and Low, Medium, or High Density Residential land use districts shall not be prohibited from the construction of one (1) residential unit due to a non-conforming lot size.

At this time, the applicant has not requested restoration/construction upon the existing platted lots of record that are covered under Comp Plan Policy 1.05.04. The applicant has demonstrated compliance with the referenced Land Development Code standards and Comp Plan Policies. Maximum building size, gross square footage and building placement have been verified through the review of the Technical Review Committee. The proposed lot widths vary in size ranging from 45' to 36.5', meeting the standards/intent provided within LDC 4.02.06 for development of townhomes.

Policy 1.02.05 (j). Maximum Impervious Surface Area: Standards shall limit and mitigate the amount of impervious surface area on any lot in order to protect environmentally sensitive lands, preserve the existing topography, and reduce strain on the stormwater management.

The total proposed impervious surface ratio of 41% meets the minimum standards set forth in LDC 4.02.01(J) and the intent of Comp Plan Policy 1.02.05(j).

Policy 4.01.01. The following level of service standards are hereby adopted and shall be used as the basis for determining the availability of facility capacity and the demand generated by a development.

Facility/Service Area	Level of Service Standard
Wastewater Treatment System	**300 gallons per day per ERU (Equivalent Residential Unit)**
Solid Waste Facilities	**Average Solid Waste Generation Rate: 5.9 pounds per capita per day**
Stormwater Management Facilities	**Policy 4.01.02** *All subdivisions, multifamily, commercial, industrial, city, and institutional projects shall provide for retention of stormwater resulting from project, unless off-site shared facilities are available. For projects within areas designated for "zero discharge," storage shall accommodate a ten (10)-year, twenty-four (24)-hour storm event. For all other areas, retention shall accommodate the greater of: (a) the first one-half (1/2) inch of stormwater within the boundaries of their project, or (b) the first one (1) inch of storm flow from all roofs, sidewalks, paved surfaces, and parking areas (at 100 percent runoff), whether paved or not. The project shall also provide detention for all storm flows. Detention shall prevent peak flows after development*

	from exceeding the peak flow prior to development.
Potable Water Facilities	**Water Allocation Level of Service: 350 gallons per day per ERU (Equivalent Residential Unit)**
Fire-Rescue Services	**240-second travel time to 90% of the incidents (EMS with AED or BLS) & 480-second travel time to 90% of the incidents (ALS Response)**
Police and Law Enforcement Services	**Response Time: 3 minutes or less for emergency calls and 7 minutes or less for non-emergency calls**

The City has five public facilities that have adopted levels of service: Transportation, Water, Sewer, Drainage, and Solid Waste. The City's ability to maintain adopted levels of service for these utilities was confirmed through TRC site plan review process. Given the established Mixed-Use and Medium Density Residential MDR) land use and MU-1 (Mixed-Use) and R-2 (Medium Density Residential) zoning which allows for up to four (8) dwelling units per acre on the subject property, the development potential of the site can result in a maximum of 12 dwelling units.

A concurrency determination for impacts to Nassau County roadways must be assessed under the City's current requirements contained in LDC Section 7.04.05. All proposed developments generating more than 400 Average Daily Trips (ADT) require a traffic concurrency determination from the Northeast Regional Council. Under the proposed development scenario containing 12 dwelling units, Staff estimates that approximately 70 Average Daily Trips (ADT) could be generated by this development; resulting in 6 p.m. peak hour trips[1]. Traffic impacts are likely on only State and Nassau County maintained roadways. Nassau County collects mobility fees for roadway impacts based on their adopted a mobility plan. It is expected that the City will, through its adopted Interlocal agreement with Nassau County, collect mobility fees on their behalf for projects within the City. This would be like the past collection of transportation impact fees which ceased in 2006.

The City owns and operates three potable water treatment facilities which combined can provide 18.2 million gallons per day. Potable water customers on the average consume approximately 5 million gallons per day. The City owns and operates one sanitary sewer treatment facility which has an operation/design capacity to treat 3.5 million gallons of wastewater per day. At the adopted level of service and the proposed development density, the residential units will consume 4,200 gallons of water per day (12 units x 350 gallons per ERC per day).

The City owns and operates one sanitary sewer treatment facility which has an operation/design capacity to treat 3.5 million gallons of wastewater per day. The facility's customers currently generate, on average, 1.9 million gallons per day. At the adopted level of service and the proposed development density, the site will generate 9,660 gallons of wastewater per day (12 units x 2.3 x 350 gallons per ERC per day). The Commercial facilities are calculated by an Equivalent Residential Connection (ERC) standard, which is calculated by the utilities director. The utilities director indicates that plant capacity is available for the site; however, other facilities, such as pipe and lift station capacity, will have to be evaluated, and the developer will have to pay for what improvements are necessary to accommodate any proposed development. These determinations will be made in advance of site plan review and necessary improvements will be required as a part of site plan approval.

[1] ITE Code 230 (Residential Condominium/Townhouse) average PM peak hour trips = 6 (~1 trip/ dwelling unit)

As for solid waste and drainage, the City currently has a contracted services with Waste Management to dispose of solid waste city-wide, therefore the impact is not necessary as part of the preliminary plat/ replat review process. Solid waste receptacles will be provided to individual dwelling units to be maintained on each homesite. Drainage impacts from any new development or redevelopment will be reviewed by the City's Technical Review Committee (TRC). The City requires storm water drainage to be retained on-site and permitting through the St. John's River Water Management District (SJRWMD). Permitting from SJRWMD is a requirement for final approval and receipt of a local development order from the TRC.

All public facilities and services are currently available to the development and each service can maintain or exceed its level of service standards as required by Policies 1.01.02, 1.02.03, and 4.01.01.

Policy 1.02.12. The City shall ensure that the image, function, architecture, and ambiance of the historic downtown further the use and development of downtown as the ceremonial, civic, and cultural center of the City. Toward this end, the City shall preserve and enhance the identity, design, and vitality of the downtown, including the designated Downtown Historic District, Old Town Historic District and the surrounding downtown core.
AND
Policy 3.02.05. The City shall adopt regulations that would discourage demolitions and encourage rehabilitation, reuse and maintenance of existing homes. Regulations adopted for homes in a historic district shall implement the policies of the Historic Preservation Element.
AND
Policy 11.08.01. The City shall encourage protection, preservation, and revitalization of historic, non-designated structures and neighborhoods within Fernandina Beach.
AND
Policy 11.03.10. The City shall pursue strategies and incentives for property owners that will lead to the preservation, as opposed to the demolition, of buildings located in designated historic districts, including but not limited to, utilizing the Historic Preservation Trust Fund to provide financial and educational opportunities for historic property owners.

The property contains four single-family residential homes and associated accessory structures constructed by the Tringali family. The Tringali family played an important role in the development of the modern shrimping industry in Fernandina. Consistent with Comp Plan Policy 11.08.01, The City strongly encourages sensitive restoration of the culturally and historically significant resource located at 124 S. 3rd Street. The circa 1903 frame vernacular home is an example of a typical home in Fernandina during its period of significance. This structure has a significant connection to the maritime heritage of the City and would be potentially eligible for inclusion into the Downtown Fernandina Beach Historic District as a contributing structure to the district. Documentation has not been provided to indicate that rehabilitation or relocation is not feasible.

As previously referenced, the existing structures contained on this lot (and the parcel itself) are not located within Downtown Historic District or the Community Redevelopment Area and as such, are not covered by overlay regulations that extend to properties within those areas. Policy 11.08.01 does extend to these sites as historic, non-designated structures. Staff has repeatedly requested and encouraged adaptive reuse or rehabilitation of the existing structures from the initial conversations with the development team and in formal comments offered by the Technical Review Committee. Further, Staff offered reinforcing verbal comments at the Technical Review Committee meeting. In response, the applicant indicates that they have received interest in the properties, but there are no contracts in place at this time.

Objective 11.06. Community Character – Community character is reflected in lot sizes, site placement, height, architectural features and existing vegetation. The City shall strive to stabilize and preserve neighborhoods and establish urban design standards which protect and promote quality of life in order to prevent teardowns, encourage re-use, infill and new development.
AND
Objective 11.06. The City shall encourage compatible design and planning within and surrounding existing historic districts.
AND
Policy 11.06.01. The City shall ensure that new and infill development adjacent to the Downtown and Old Town historic districts respects and complements the patterns, character, and scale of those historic districts.
AND
Policy 11.06.02. The City shall evaluate the neighborhoods contiguous to the historic districts and evaluate strategies for revitalization of existing structures in these neighborhoods in a manner that is consistent with their original development and also compatible with the adjacent historic districts.

The four extant homes on the site represent the historic building pattern in this area that has served as a transitional zone from the residential character of the neighborhood to the east into the more mixed-use character seen to the west. Re-use of existing properties is encouraged in redevelopment projects as it preserves and strengthens community character, building upon the architectural, historical, and cultural assets of the city. Reuse of existing resources also preserves the embodied energy that went into constructing them and minimizes waste from a sustainability standpoint.

The requested Preliminary Plat/Replat is compatible with the existing development pattern and the characteristics of the surrounding area. The townhomes constructed along South 3rd Street (Harbor View Townhomes) were developed on 25' lots of record with a total of 5 feet between structures. Staff has also encouraged the development team in preliminary discussions to consider variation in housing types and lot sizes. In response the applicant has requested to move forward with the proposed townhome development which is permissible under the existing land use and zoning categories.

Applicable Comprehensive Plan Policies:	Achieved in Proposed Plan?
Definition of Net Density	☑
Growth Management: 1.02.02, 1.02.03, 1.02.05, 1.02.06, 1.02.07,1.02.10, 1.02.12	☑
Redevelopment/Infill Housing near Job Centers: 1.04	☑
Nonconforming Lots: 1.05.04	☑
Community Character: 1.06.04,1.06.06,1.06.09	☑
Medium Density Residential (MDR) Land Use: 1.07.05	☑
Mixed Use (MU) Land Use: 1.07.07	☑

Applicable Comprehensive Plan Policies:	Achieved in Proposed Plan?
Encourage Reuse: 3.02.05	☑
LOS Standards: 4.01.01 and 4.01.02	☑
Private Property Rights: Goal 9	☑
Strategies to Avoid Demolition: 11.03.10	☑
Design and Planning: 11.06.01, 11.06.02	☑
Non-designated Resources: 11.08.01	☑

CONSISTENCY WITH THE LAND DEVELOPMENT CODE:

Table 4.02.01 (J). Design Standards for Lots

Zoning District	Minimum Lot Width (ft.)	Maximum Impervious Surface Ratio for Lots (%) (Note 7)	Maximum Floor Area Ratio for Lots (%) (Note 1)
MU-1	50	60	50
R-2	50 Note 4	60	50

4. Development is permissible on lots which were platted before the effective date of this LDC and have a minimum width of twenty-five (25) feet.

The total proposed impervious surface ratio of 41% meets the minimum standards set forth in LDC 4.02.01(J) and the intent of Comp Plan Policy 1.02.05(j).

LDC 4.02.03(E). and 4.02.06. provides direction for maximum building size, gross square footage of a single building, building placement and orientation through setbacks and maximum impervious surface ratio. Specifically, within the MU-1 and R-2 zoning district setback requirements are as follows:

Table 4.02.03 (E). Standards for Building Heights and Setbacks
(Townhome Standards for setbacks apply. See 4.02.06 Code Reference)

Zoning District	Maximum Building Height (ft.) [1]	Minimum Setback			
		Front (ft.)	Side[2] (ft.)	Rear (ft.)	Corner Lot (side abutting street) (ft.) [3]
MU-1	35	None	None[4]	10	10
R-2	35	25	10% of lot width	20	15

1. A building within 1,000 feet of the Coastal Construction Control Line (CCCL) shall not exceed thirty-five (35) feet in building height.
2. Each side yard setback shall be increased by one-half (½) foot for each one (1) foot, or fraction thereof, of building heights above twenty-five (25) feet.
3. Buildings shall not encroach into the required clear visibility triangle at intersections, as set forth in Section 7.01.08.
4. Where access is provided from an alley or public street to the rear of the principal building, no side yard setback is required. Where such access is not available, one (1) side yard shall be a minimum of ten (10) feet. Any other side yard shall have a minimum side yard setback of zero (0) feet.
5. Manufacturing and/or Assembly – Heavy uses shall be exempt from height regulations.

Staff finds that the proposed project achieves the established standards.

Policy 4.02.06. Townhome Development
Specific Standards for Townhouse Development

A. Townhouse development shall comply with the density of the zoning district in which it is proposed. The additional standards set forth in this section shall apply to all townhouse development.
B. Side yard setback requirements do not apply to interior lot lines.
C. Each townhouse dwelling unit shall have a direct entrance to the outside, and shall not open to a common lobby, hallway, foyer, or other similar space.
D. Where all lots, parcels, and dwelling units are under common ownership, there shall be a management plan to demonstrate unified control and management of common areas and facilities.
E. Where common open space, recreation facilities, or other accessory structures or facilities are proposed, sidewalks or pedestrian paths shall be provided to connect buildings, parking lots, open space, and common areas.

Staff finds that the proposed project achieves the established standards for townhome development.

11.01.03 Requirements for Subdivision Plats (Preliminary and Final)

A. A preliminary subdivision plat shall be required when new streets, water lines, and sewer lines are required; when three or more residential lots are created; and where one nonresidential lot is created or proposed for development. Where new streets, water lines, and sewer lines are not required, the preliminary and final plat may be combined into a single submittal. A preliminary plat provides for a complete review of technical data and preliminary engineering drawings prior to completion of the final plat for recording.

B. In addition to the information required in Section 11.01.03, all applications for preliminary subdivision plat approval shall contain the following information:

1. The name, addresses, telephone number, facsimile number, and email address of the person preparing the plat.
2. The date of preparation and date(s) of any modifications, a north arrow, and a written and graphic scale.
3. The proposed name of the subdivision.
4. Development specifications for the tract: area, proposed number and layout of lots and blocks, location, names, and widths of proposed roadways, consistent with this LDC and the Future Transportation Circulation Map of the Comprehensive Plan.
5. All contiguous properties shall be identified by subdivision title, plat book and page, or, if un-platted, the land shall be so designated, and otherwise identified.
6. Location of land to be dedicated or reserved for public use for rights-of-way, streets, sidewalks, bike trails, pedestrian trails, easements, schools, parks, open spaces, or other public uses. Proposed street names shall be included.
7. Locations of utilities, utility service, connections to existing utility facilities, and easements necessary to provide access to the utility facilities for maintenance or other activity.
8. Location of the nearest available public water supply and wastewater disposal system.
9. A topographic survey, soils report, grading plan, and an erosion control plan.
10. Existing surface water bodies, wetlands, streams, and canals, including the location of the mean high water line for each feature.
11. A preliminary surface drainage plan showing direction of flow and methods of stormwater retention.

12. A floodplain map indicating areas subject to inundation and high groundwater levels up to a 100-year flood classification and establishing a base flood elevation for all proposed lots within the subdivision.
13. A tree survey showing protected trees, proposed replacement trees, if required, and landscaping and buffering.

The proposed development plans fulfill requirements of this LDC Section.

Applicable LDC Policies:	Achieved in Proposed Plan?
LDC Interpretation: 1.05.01 and 1.05.02	☑
Definition of Net Density: 1.07.00	☑
Medium Density Residential (MDR) District: 2.01.05	☑
Mixed Use (MU-1) District: 2.01.09	☑
Town Home Development: 4.02.06	☑

Standards for Access, Parking, Sidewalks: 7.01.01, 7.01.02, 7.01.03, 7.01.04	☑
Drainage and Stormwater Requirements: 7.03.00	☑
Infrastructure Concurrency: 7.04.00	☑
Requirements for Board Applications + Subdivision Plats: 11.01.03, 11.01.05	☑

CONCLUSION:

The requested Preliminary Plat is consistent with the City's Comprehensive Plan and the Land Development Code. The Preliminary Plat and site engineering was submitted for review to the Technical Review Committee (TRC) in August of 2022 (SPR 2022-0022) and is pending issuance of a Local Development Order. Based on the findings of the Technical Review Committee and planning staff's review of the application, staff recommends approval of the Preliminary Plat.

In accordance with subdivision requirements of the Land Development Code, the Preliminary Plat is to be considered by the Planning Advisory Board. Following the recommendation of the Planning Advisory Board (PAB), the Preliminary Plat/Replat will move forward in the form of a resolution to the City Commission. The City Commission will then consider the Preliminary Plat by Resolution at a quasi-judicial hearing.

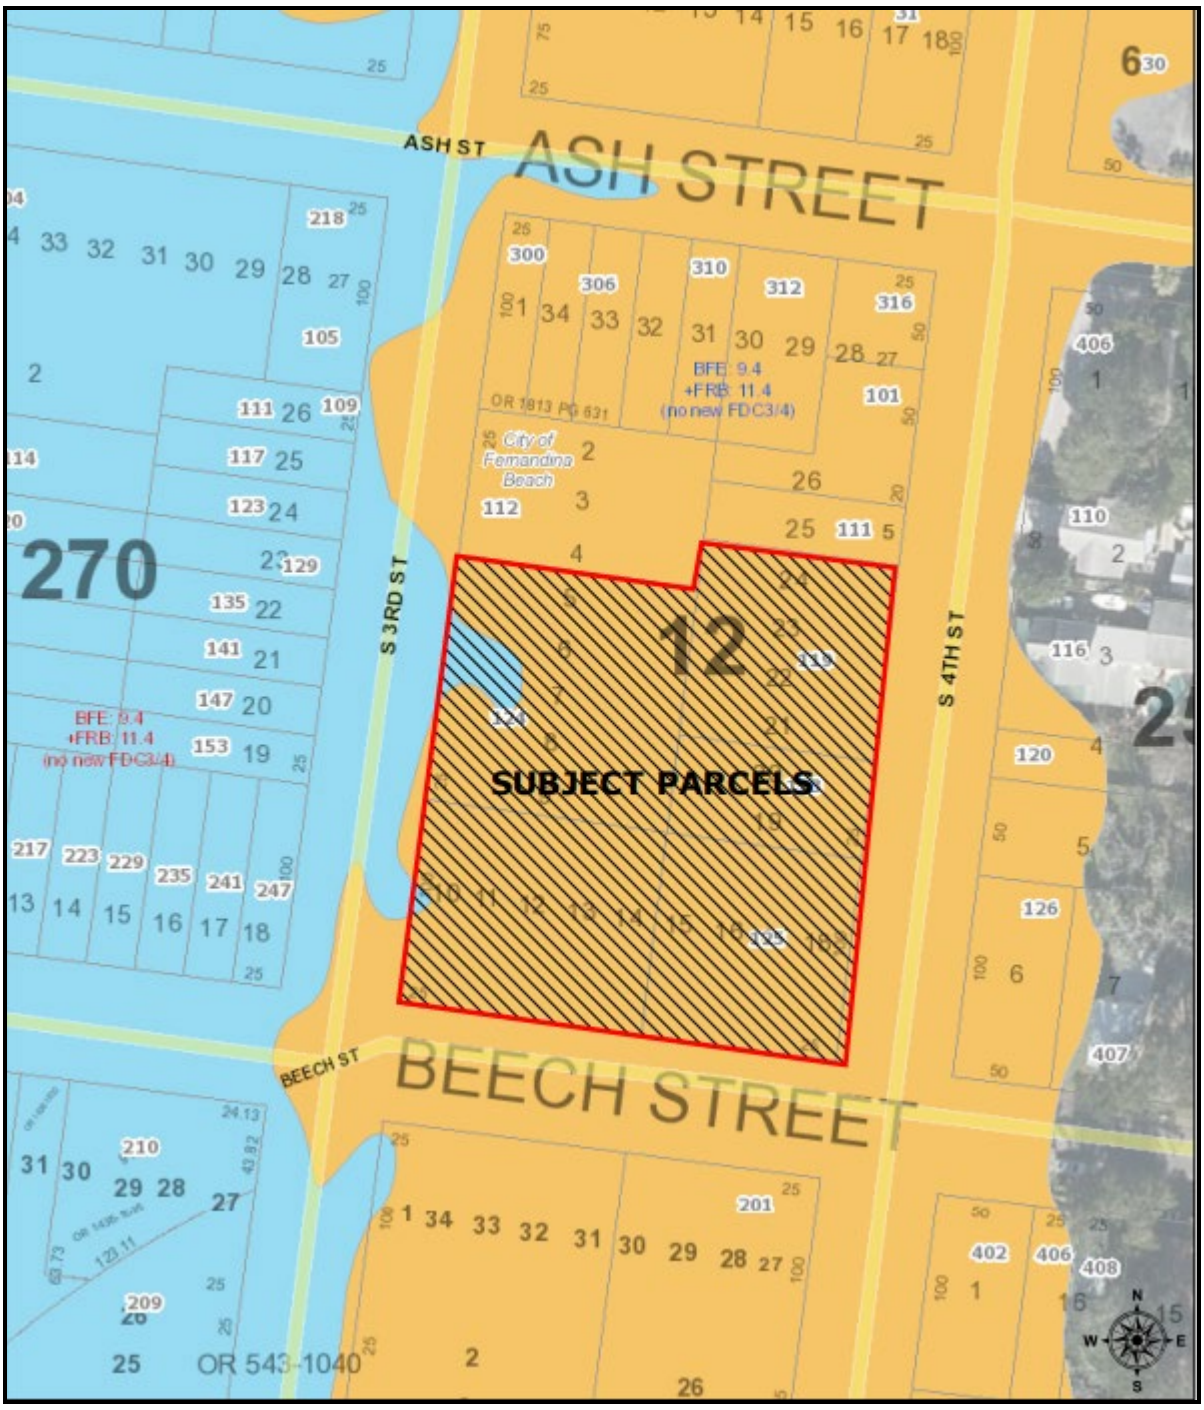
STAFF REPORT
PAB 2022-0026 (Preliminary Plat/ Replat)
Planning Advisory
April 12, 2023

Subdivision terms/process:

A preliminary plat/ replat (also known as a site plan or engineering plan) provides for a complete review of the *technical* data and engineering drawings associated with the construction of roads and installation of utilities and stormwater facilities. The Preliminary Plat is submitted for review and approval. Upon approval, the developer is authorized to move forward with the installation of improvements necessary to support the development (clearing/grading, roads, water, sewer, stormwater, etc.). Once the improvements are completed, inspected, and accepted by the City, the Final Plat/ Re-plat is submitted for review and approval; the developer may then convey lots and vertical construction can begin.

MOTION(S) TO CONSIDER

I move to recommend **(approval or denial)** of PAB case number 2022-0026 to the City Commission requesting that a Preliminary Plat for Island View be **(approved or denied)** and that PAB case 2022-0026, as presented, **(is or is not)** sufficiently compliant with the Comprehensive Plan and Land Development Code to be approved at this time.



Respectfully Submitted by,
Kelly N. Gibson, AICP Planning Director
Daphne Forehand, City Planner

DURABLE POWER OF ATTORNEY
FOR
JOSEPHINE TRINGALI

I, **JOSEPHINE TRINGALI**, of Nassau County, Florida (hereinafter referred to as PRINCIPAL), designate my brother, **ANTHONY TRINGALI,** of Nassau County, Florida, (hereinafter referred to as AGENT), to serve as my agent. In the event that **ANTHONY TRINGALI** is unwilling or unable to act as AGENT for any reason, I appoint my niece, **SANDRA JUBITO,** to act as my agent.

Authority of Agent. I hereby grant to AGENT full power and authority to act for me in any lawful way with respect to the powers enumerated below.

Except as otherwise limited by applicable law or by this durable power of attorney, AGENT has full power and authority to perform, without prior court approval, and may take all necessary actions to exercise, any power herein granted as fully as I might or could do if personally present. This power is not diminished even though AGENT may be acting individually or on behalf of any other person or entity interested in the same matters. All acts done under this power by AGENT shall bind me, my heirs, devisees, and personal representatives. This power is nondelegable. I hereby ratify and confirm that AGENT shall lawfully have, by virtue of this durable power of attorney, the powers herein granted, specifically, the authority to:

1. forgive, request, demand, sue for, recover, collect, receive, and hold all sums of money, debts, dues, commercial paper, checks, drafts, accounts, deposits, legacies, bequests, devises, notes, interests, stock certificates, bonds, dividends, certificates of deposit, annuities, pensions, profit sharing, retirement, social security, insurance, and other contractual benefits and proceeds, intangible and tangible property and property rights and any demands whatsoever, liquidated or unliquidated, that I now or hereafter own or that are due, owing, or payable or belonging to me or in which I may now have or hereafter acquire an interest.

2. have, use, and take all lawful means and equitable and legal remedies and proceedings in my name for the collection and recovery of any property now or hereafter owned by me, and adjust, sell, compromise, and agree for the same, and execute and deliver for me, on my behalf and in my name, all endorsements, releases, receipts, or other sufficient discharges for the same.

3. conduct investment transactions as provided in section 709.2208(2), Florida Statutes; and acquire, purchase, invest, reinvest, exchange, grant options to sell, and sell and convey personal property, tangible or intangible, or interests therein, for such price and on such terms and conditions as AGENT shall deem proper, including, without limitation, stocks, bonds, warrants, debentures, commodities, precious metals, futures, currencies, and investment funds, including common trust funds, in domestic and foreign markets.

4. execute stock powers or similar documents and delegate to a transfer agent or similar person the authority to register any stocks, bonds, or other securities either into or out of my name or my nominee's name.

5. redeem bonds issued by the United States Government or any of its agencies or any other bonds.

6. acquire, purchase, exchange, grant options to sell, and sell and convey any and all of my real estate, lands, tenements, leases, leaseholds or other property in the nature of real estate, or any part or parcel thereof, which I now own or may hereafter acquire, or interests therein, including my homestead real property, at public or private sale, for such price and on such terms and conditions as AGENT shall deem proper, and execute any and all documents necessary to effectuate the same, including but not limited to contracts, deeds, affidavits, bills of sale, assignments, and closing statements; provided, however, that if I am married, AGENT may not convey or dispose of my homestead property without joinder of my spouse or my spouse's legal guardian. (Joinder by my spouse may be accomplished by the exercise of authority in a durable power of attorney executed by my spouse, and either my spouse or I may appoint the other as agents.)

7. maintain, repair, improve, invest, manage, partition, insure, rent, lease, encumber, and in any manner deal with any real or personal property, tangible or intangible, or any interest therein, that I now own or may hereafter acquire, in my name and for my benefit, upon such terms and conditions that AGENT shall deem proper, and execute, acknowledge, and deliver all instruments necessary to effectuate the foregoing.

8. conduct banking transactions as provided in section 709.2208(1), Florida Statutes.

9. borrow from time to time such sums of money upon such terms and conditions as

AGENT shall deem appropriate for, or in relation to, any of the purposes or objects described herein, upon the security of any of my property, whether real or personal or otherwise, and, for such purposes, to give, execute, deliver, and acknowledge mortgages with such power and provisions as AGENT may think proper, and also such notes, bonds, or other instruments as may be necessary or proper in connection therewith; provided, however, that if I am married, AGENT shall not mortgage my homestead property without joinder of my spouse or my spouse's legal guardian. (Joinder by my spouse may be accomplished by the exercise of authority in a durable power of attorney executed by my spouse, and either my spouse or I may appoint the other as agents.)

10. apply for a certificate of title on, and endorse and transfer title to, any automobile, truck, recreational vehicle, off-road vehicle, van, motorcycle, or other motor vehicle, airplane, or vessel, and to represent in such transfer or assignment that the title to said motor vehicle, airplane, or vessel is free and clear of all liens and encumbrances except those specifically set forth in such transfer or assignment.

11. conduct or participate in any lawful business of whatever nature for me and in my name; execute partnership agreements and amendments thereto; incorporate, reorganize, merge, consolidate, recapitalize, sell, liquidate, or dissolve any business; enter into voting trusts and other agreements or subscriptions; elect or employ officers, directors, and agents; carry out the provisions of any agreement for the sale of any business interest or stock therein; exercise voting rights with respect to stock, either in person or proxy; and exercise stock options.

12. transfer any or all assets of mine to any revocable trust created by me as to which trust I am, during my life, a primary income or principal beneficiary.

13. withdraw from any trust, whether revocable or irrevocable, in which I have a current beneficial interest, such amounts of principal or accrued or collected but undistributed income of such trusts as I would be permitted to receive or withdraw, pursuant to any right of receipt or withdrawal contained in such trusts.

14. make, execute, and file any and all declarations, joint or separate returns, waivers, consents, claims, and other instruments or forms (including, without limitation, IRS Form 2848: Power of Attorney) relating to federal, state, municipal, and other taxes or assessments, including income, transfer, property, excise, and other taxes of whatever nature and whether imposed or

required by any domestic or foreign authority, and in connection with any such taxes or assessments due or claimed or believed to be due from me or in respect of any property or rights that I may own or in which I may have any interest.

15. represent me before any office of the Internal Revenue Service, state agency, or any other governmental or municipal body or authority of whatever nature, domestic or foreign, and conduct and transact any case, claim, or other matter whatsoever in connection therewith; receive confidential information regarding tax matters for all periods, whether before or after the execution of this instrument; and make tax elections.

16. have access at any time or times to any safe-deposit box rented by me, wheresoever located, and remove all or any part of the contents thereof, and surrender or relinquish said safe-deposit box, and any institution in which any such safe-deposit box may be located shall not incur any liability to me or my estate as a result of permitting AGENT to exercise this power.

17. exercise any statutory rights or elections, including, but not limited to, any rights or elections in any probate or similar proceeding to which I am or may become entitled.

18. employ as investment counsel, custodians, brokers, accountants, appraisers, attorneys-at-law or other agents such persons, firms, or organizations, including AGENT or AGENT's firm, as deemed necessary or desirable; pay such persons, firms, or organizations such compensation as is deemed reasonable; and determine whether to act on the advice of any such agent without liability for acting or failing to act thereon.

19. authority to access and examine my computer and all my email accounts and/or employ third party computer experts to access and examine my computer to gain access to information I may have on my computer, including the authority to obtain passwords to access information on my computer.

20. to obtain access to my username(s) and password(s)and PINs on any internet based online accounts of any kind, financial or otherwise, that I may have and to perform transactions using on-line internet access banking and other electronic methods of access to any accounts (*i.e. debit cards, ATM cards).* I specifically authorize my agent access to my account usernames, passwords, and/or PINs from the entity holding the account, the ability to reset passwords as

necessary and to otherwise manage my accounts including cancelling, extending contracts, negotiating contracts and resolving disputes involving the online accounts.

21. AGENT is also authorized, if I have initialed the specific act below, to:

Initial:

(J.F) a. make gifts to charitable organizations or to or in trust for my spouse or any descendant of mine in connection with estate, gift, generation-skipping transfer, income, or other tax planning for me or to qualify me for any government assistance program; provided, however, that no gift may be made to AGENT other than for AGENT's health and maintenance or to discharge AGENT's legal obligations.

(J.F) b. consent to any gift, use any gift-splitting provision or tax election, and pay gift taxes, but only if in furtherance of my estate plan or my desire to minimize taxes.

(J.F) c. create one or more inter vivos trusts of which I am an income or principal beneficiary.

(J.F) d. with respect to a trust created by or on behalf of the PRINCIPAL, amend, modify, revoke, or terminate a trust created by me or on my behalf, but only if the trust instrument explicitly provides for amendment, modification, revocation, or termination by the settlor's agent.

(J.F) e. create or change rights of survivorship.

(J.F) f. create or change a beneficiary designation.

(J.F) g. waive the PRINCIPAL's right to be a beneficiary of a joint and survivor annuity, including a survivor benefit under a retirement plan.

(J.F) h. renounce or disclaim any powers of appointment or property passing to me

by testate or intestate succession or by inter vivos transfer.

22. To change bank and/or credit union account titles and /or create new bank accounts so as to place my income from Social Security and/or pensions or other income in one or more automatic deposit accounts in the name of any Trust created for my benefit above and to deal in said accounts as Trustee pursuant to said Trust Agreement.

23. to sign any and all forms and documents necessary to have all of my Social Security and pension benefits automatically deposited in the account or accounts created pursuant to this durable power of attorney.

24. To make, execute and deliver assignments of any right of support I may have against my spouse to any agency of the State if my AGENT deems it necessary for me to obtain government benefits.

25. To enter into transactions which secure caregivers or health care services or advocacy services on my behalf, even if the transaction is with my agent.

26. Without any limitation or regard to the physician/patient privilege and in waiver thereof, to have free access to and receive, inspect, and review without limitation, all medical records, charts, diagnosis and laboratory results, Xrays and MRI results, hospital and physician records, or any other information, and make inquiry of any and all doctors, nurses, surgeons, or any other health care providers, as to any medical condition whenever my said agent may deem same to be advisable, and to authorize, consent, withdraw, withhold or arrange for any health, mental health, medical, surgical, therapeutical or life-prolonging procedures, including the administration of drugs, experimental procedures, or electrical shock therapy; provided that, if, at the time a decision on my behalf is required, it is determined that I have executed a valid Designation of Health Care Surrogate, then such designee shall have priority over my agent for purposes of making any such decision authorized or contemplated by this paragraph and by statute.

27. In addition to the powers enumerated herein, my agent shall have the power and authority to serve as personal representative for all purposes of the Health Insurance Portability And Accountability Act of 1996, Public Law 104-191, 104th Congress; 45CFR 160-164.

28. To sign all contracts, obligations and admission papers for life care facilities, adult congregate living facilities, hospitals, doctors care and, if necessary, nursing home, on my behalf.

29. In the event that I am found to be legally incapacitated by a court of competent jurisdiction, my agent may exercise all of my rights on my behalf that the court has removed, thereby eliminating the need for a guardian to be appointed over my person or my property.

30. To act for me and in my name and right with regard to any annuities and/or policies of insurance including, but not limited to, the right to access account information, to cash in or borrow against a policy held in my name or for which I am a beneficiary, and to redeem or purchase any such policy in my name, and to exercise any right, privilege or option which I may have thereunder or pertaining thereto.

Interpretation and Governing Law. This instrument is to be construed and interpreted as a general durable power of attorney. This instrument is executed and delivered in the State of Florida, and the laws of Florida shall govern all questions as to the validity of this power and the construction of its provisions. However, it is my intention that this power of attorney shall be exercisable in any other state or jurisdiction where I may have any property or interests in property.

Third-Party Reliance. Third parties may rely on the representations of AGENT as to all matters relating to any power granted to AGENT, and no person who may act in reliance on the representations of AGENT shall incur any liability to me or to my estate, beneficiaries, or joint owners as a result of permitting AGENT to exercise any power prior to receipt of a written notice of revocation, suspension, petition to determine my incapacity, partial or complete termination of this power, or my death. Any third party may rely on a duly executed counterpart of this instrument, or a copy certified by AGENT to be a true copy of the original hereof, as fully and completely as if such third party had received the original of this instrument.

Disability of Principal. This durable power of attorney is not terminated by my subsequent incapacity, except as provided in section 709, Florida Statutes, or any successor provision of law.

IN WITNESS WHEREOF, I have set my hand and seal on November 16th, 2011.

ANTHONY J. TRINGALI REVOCABLE TRUST

I, Anthony J. Tringali, as Grantor, hereby create the Anthony J. Tringali Revocable Trust ("the Trust") on March 27, 2017. I am the trustee of this Trust and, in that capacity, I and my successors are collectively referred to in this Trust as the "Trustees."

ARTICLE 1
FAMILY

I am not married and I have no children. I am a citizen of the United States. I have a sister, Josephine Tringali. I have twelve nieces and nephews, Francesca Smith, Margaret Williams, Michael Williams, Phyllis Beaman, Carolyn Burrell, Patricia Saunders, Philip A. Sapp, David W. Sapp, Mary Thompson, Glenda Luckie, Sandra Jubito and Elizabeth Benson. References to "my nieces and nephews" mean my nieces and nephews named above.

ARTICLE 2
TRANSFERS TO TRUST

I hereby hold as Trustee Ten Dollars ($10), which together with any assets later added to this Trust are referred to as the "Trust Estate." Any person may transfer assets to the Trust Estate, if the Trustees agree to accept them. Unless otherwise specified in writing at the time of the transfer, those assets will be held as provided in this Trust. The Trustees accept the responsibility of the Trustees, acknowledge receipt of the current Trust assets, and agree to hold the Trust Estate as set forth in this Trust.

ARTICLE 3
RESERVED RIGHTS

I reserve the following personal rights with respect to the Trust during my lifetime:

- To amend or revoke this Trust;
- To remove a Trustee and to designate a new Trustee;
- To withdraw assets, whether income or principal, from the Trust Estate;
- To require changes in the investments of the Trust Estate, but investments made by me are not subject to review by the Trustees unless my personal rights are suspended under Section 3.2;
- To direct the Trustees to perform any act of administration, whether or not contrary to the terms of the Trust; and
- To direct the Trustees to make distributions during my lifetime to any person named by me.

3.1 By Whom Exercisable. Except as provided below, all rights described above may be exercised only by me personally, from time to time, subject to the following: all exercises of these powers must be evidenced by a written instrument I signed, the existence of which has been communicated to the Trustees, and any amendment of the Trust that contains "testamentary aspects" as defined in Section 736.0403 of the Florida Statutes or a revocation of the Trust must be executed with the formalities of a Will in Florida. These powers, and any other powers conferred by law on a trust grantor, may not be exercised by any guardian who may be appointed for me or by an attorney-in-fact for me, except that my legal guardian may amend (but not revoke) this Trust only to the extent necessary to preserve a tax deduction, exemption, or credit consistent with my beneficial intentions as stated in this Trust. The Trustees are to be held harmless and indemnified from any liability for any of their actions or omissions made in reliance on my actions or instructions under this article.

3.2 Suspension of Rights. My personal rights under this article will be suspended immediately if I become disabled. For these purposes, my disability is determined as follows:

(a) Court Decision. If I am determined to be incapacitated by a court having jurisdiction, my personal rights reserved in this article will be suspended until my legal capacity is restored.

(b) Private Decision. In the absence of a judicial determination, if the next successor Trustees reasonably believe that I am suffering from any mental or physical disability that would affect my judgment concerning management of the Trust, and if they obtain written confirmation of that opinion from my physician, they may give me written notice to that effect. Upon delivery to me of that written notice, my personal rights reserved in this article will be suspended immediately and the named successor Trustees will serve until my legal capacity is determined by a court or until the persons entitled to give such written notice rescind it.

(c) Other Facts. My personal powers will be suspended if the Trustees (or the successor Trustees, if applicable) receive credible and timely evidence that I have disappeared, am unaccountably absent, or am being detained under duress so that I am unable to look after my financial interests.

(d) HIPAA. For purposes of this Section 3.2, I appoint the next successor Trustees as my personal representative under 45 CFR § 164.502(g), a portion of the regulations implementing the Health Insurance Portability and Accountability Act of 1996, as amended ("HIPAA"), to demand, obtain, review, and release to others medical records or other documents protected by the patient-physician privilege, attorney-client privilege, or any similar privilege, including all records subject to, and protected by, HIPAA.

3.3 Homestead Rights. Despite any other provision of this Trust, I reserve the right to reside on any real property owned by the Trust during my lifetime. I will be entitled to claim any available homestead tax exemption for any real property in the Trust, and, for purposes of that exemption, my interest in such property will be deemed an interest in real property and not an interest in personal property. This provision does not restrict the Trustees from selling, leasing, or encumbering that property without my joinder in any deed or other instrument.

ARTICLE 4
PAYMENTS DURING MY LIFETIME

The Trustees shall make the following payments during my lifetime:

4.1 For My Benefit. The Trustees shall pay to me or apply for my benefit (without obligation to any guardian who may be appointed for me) any income and principal that the Trustees in their discretion deem necessary or advisable for my best interests. The Trustees in their discretion also may make payments to one or more trusts in which I am a beneficiary, or may create a separate trust for my benefit.

4.2 Intent. The Trustees are authorized to provide for the finest available support and health care for me, even if this leaves no assets of the Trust remaining for other beneficiaries.

4.3 Gifts. If my personal rights are suspended as provided in Article 3, I authorize the Trustees to make gifts from the Trust Estate during my lifetime for estate planning purposes, or to distribute amounts to my legally appointed guardian or to my attorney-in-fact for those purposes, subject to the following rules:

(a) Recipients. The gifts may be made only to Josephine Tringali or to trusts for her benefit.

(b) Trustee Limited. When a person eligible to receive gifts is serving as Trustee, he or she may not participate in making any distributions to himself or herself, and the remaining Co-Trustees will act alone, if at all; if that person is the sole Trustee, he or she may appoint an Independent Trustee who will have full discretion to make those distributions, if it determines they are appropriate. An Independent Trustee appointed under this Section 4.3(b) will have no other duties. This provision does not apply to gifts made to that person before he or she began serving as Trustee.

ARTICLE 5
DISTRIBUTIONS AFTER MY DEATH

Upon my death and after making provision for the payments under Article 12, the Trustees shall distribute the remaining Trust Estate as follows:

5.1 Gifts Under Will. If my Will makes a gift of a specific asset that is held in this Trust when I die, and if this Trust does not make a specific gift of that asset, the Trustees shall distribute that asset to the beneficiary named in my Will. If my Will gives my residuary probate estate to this Trust, and if my probate estate is insufficient to satisfy any other preresiduary gift under my Will, the Trustees shall satisfy the balance of that gift from the Trust.

5.2 Residuary Trust Estate. The Trustees shall distribute all the remaining Trust Estate to Josephine Tringali, subject to Article 6. If Josephine Tringali fails to survive, her share is to be distributed in equal shares to my nieces and nephews.

ARTICLE 6
TRUST FOR JOSEPHINE TRINGALI

If any share of the Trust Estate would otherwise pass outright to Josephine Tringali ("Josephine"), that share is to be held instead by the Trustees in a separate trust under the following terms and conditions:

6.1 Discretionary Distributions. The Trustees may pay or apply for the benefit of Josephine for her lifetime such amounts from the principal or income, or both, of this trust (up to the entire trust) as the Trustees, in their discretion, deem necessary or advisable for the satisfaction of Josephine's special non-support needs. Any income not distributed will be added annually to principal. As used in this instrument, "special non-support needs" refers to the requisites for maintaining Josephine's good health, safety, and welfare when, in the discretion of the Trustees, those requisites are not being provided by any public agency, office, or department of the state where she lives or of the United States, or are not otherwise being provided by other sources of income available to her. Payment for such special non-support needs can only supplement governmental or private assistance or benefits programs and cannot replace them. Special non-support needs include, but are not limited to, the following list of suggested items: basic living needs for which funds are otherwise unavailable; sophisticated medical or dental or diagnostic work or treatment for which funds are otherwise unavailable, including plastic surgery or other non-necessary medical procedures; private rehabilitative training; dental care; recreation and transportation; differentials in cost between housing and shelter for shared and private rooms in institutional settings; physical modifications or construction of housing for Josephine including modification or adaptation of her existing home or living facilities; supplemental nursing care and similar care that assistance programs may not otherwise provide; telephone and television service; periodic excursions and payments to third parties to accompany Josephine; companions for travel, reading, driving, and cultural experiences; and payments to bring her siblings or others for visitation if the Trustees deem that appropriate and reasonable.

6.2 Trustees' Discretion to Seek Assistance. The Trustees are authorized to seek support and maintenance for Josephine from all available public and private resources. The Trustees shall take into consideration the applicable resources and income limitations of any public assistance program for which Josephine is eligible. In carrying out the provisions of this trust, the Trustees shall be mindful of the probable future needs of Josephine, and not of the remainder beneficiaries.

6.3 Eligibility for Governmental Assistance. No part of the principal of the trust created by this article may be used to supplant or replace public assistance benefits of any county, state, federal, or other governmental agency that has a legal responsibility to serve persons with disabilities that are the same or similar to those which Josephine may be experiencing. For purposes of determining Josephine's public assistance eligibility, no part of the principal or undistributed income of the trust will be considered to be available to her. If the Trustees are requested to use assets of the trust to or on behalf of Josephine to pay for benefits or services which such public assistance is otherwise authorized to provide but for the existence of this trust, or if the Trustees are requested to petition a court or any other administrative agency for the use of trust principal or income for this purpose, the Trustees are authorized to deny that request. The Trustees are authorized, in their discretion, to take whatever administrative or

judicial steps may be necessary to continue the public assistance program eligibility of Josephine, including obtaining instructions from a court of competent jurisdiction ruling that the trust assets are not available to Josephine for eligibility purposes. Further, the Trustees should cooperate with Josephine's conservator, guardian, or legal representative to seek support and maintenance for her from all available sources, including, but not limited to, the Supplemental Security Income Program (SSI); the Old Age Survivor and Disability Insurance Program (OASDI); the Medicaid Program; any additional, similar, or successor programs; and from any private support sources. Any expense of the Trustees, including reasonable attorney's fees, will be charged to the trust as an administrative expense.

6.4 Best Care Available. It is important that Josephine maintain a high level of dignity and that her care be humane. If this trust were to be invaded by creditors, subjected to liens or encumbrances, or cause assistance benefits to be unavailable or terminated, it is likely that the trust principal would be depleted prior to her death, especially if her cost of care is high. In that event, there would be no coverage for emergencies or supplementation to basic needs. The provisions of this article are to be interpreted in light of these concerns and this intent.

6.5 Termination of Trust. If this trust renders Josephine ineligible for any program of public benefit, the Trustees in their discretion may terminate this trust. Upon the death of Josephine, or upon the earlier termination of the trust by the Trustees, the Trustees shall pay any estate and generation-skipping taxes imposed on this separate trust, and distribute all remaining principal and any undistributed income in equal shares to my nieces and nephews.

ARTICLE 7
STANDBY TRUST

If any assets are distributable under this Trust (other than by exercise of a power of appointment) to a person who has not then reached age 21, or who in the judgment of the Trustees is under a disability, the Trustees will hold that person's share in trust for his or her benefit. In determining a person's disability, the Trustees may rely conclusively upon the opinion of a medical doctor retained by them to make such a determination. The Trustees may pay to that person or apply for his or her benefit any income and principal of this separate trust that the Trustees in their discretion deem necessary or advisable for the person's health, education, support, and maintenance. When the person reaches age 21 or when that person's disability, in the judgment of the Trustees, ceases to exist, the Trustees shall distribute the remaining assets of this separate trust to that person. If that person dies before complete distribution of this separate trust, the remaining trust assets are to be distributed, subject to this article:

(a) to that person's descendants, per stirpes; or if none,

(b) to my nieces and nephews in equal shares.

This article is to be effective only and is limited in duration to the extent that it does not result in any violation of any applicable rule against perpetuities or similar law.

ARTICLE 8
SUCCESSOR TRUSTEE

After my death or disability, I appoint David W. Sapp as the successor Trustee of all trusts created by this Trust. If he fails or ceases to serve, I appoint Sandra Jubito to serve as successor Trustee.

ARTICLE 9
PROVISIONS GOVERNING TRUSTEES

The following provisions apply to all Trustees appointed under this Trust, including me while I serve as Trustee:

9.1 Incapacity of Trustee. If my personal rights are suspended as provided in Article 3, I will cease to serve as Trustee while those rights are suspended.

(a) Disability. If any other Trustee becomes disabled (as defined in this Trust), he or she will immediately cease to act as Trustee.

(b) Suspension. For purposes of this Section 9.1, if a Trustee fails to sign a release of relevant medical information necessary to determine his or her capacity, that Trustee will be suspended 30 days after the request for such a release is delivered to him or her by the named successor Trustee, or if none, by the persons then entitled to appoint a successor Trustee.

(c) Reinstatement. If a Trustee who ceases to serve because of a disability, or who is suspended as provided above, thereafter recovers from that disability or consents to the release of relevant medical information, he or she may elect to become a Trustee again by giving written notice to the then serving Trustees, and the last Trustee who undertook to serve will then cease to be a Trustee until another successor Trustee is required.

9.2 Resignation. Any Trustee may resign by giving 30 days' written notice delivered personally or by mail to any then serving Co-Trustee and to me if I am then living and not disabled; otherwise to the next named successor Trustee, or if none, to the persons having power to appoint successor Trustees.

9.3 Power to Name Other Trustees. Whenever a successor Trustee is required and that position is not filled under the terms specified in this Trust, an individual Trustee ceasing to serve (other than a Trustee being removed) may appoint his or her successor, but if none is appointed, a majority of the permissible current income beneficiaries, including the natural or legal guardians of any beneficiaries who are then disabled, shall appoint one or more successor Trustees (any of whom may be one of the persons making the appointment), and may appoint at any time one or more Co-Trustees to serve with a Trustee. The appointment will be by a written document (including a testamentary instrument) delivered to the appointed Trustee and to me, but if I am deceased or disabled, to all other persons specified in this Section 9.3.

9.4 Powers of Successor Trustees. Successor Trustees will have all powers granted to the original Trustees. Unless a Co-Trustee continues to serve, a Trustee ceasing to serve for

any reason has the duties and powers necessary to protect the Trust Estate until it is delivered to a successor Trustee.

9.5 Accountings. Unless waived, accountings must be given to Qualified Beneficiaries at least annually (quarterly if a Corporate Trustee is serving), as provided in Sections 736.0813 and 736.08135 of the Florida Statutes. The written approval by a beneficiary (individually or by representation) of an accounting will be final and binding upon that beneficiary and all persons represented by him or her as to all matters disclosed in that accounting. In any event, if a beneficiary (or his or her representative) fails to object to an accounting within six months of receiving it, that beneficiary's approval is conclusively presumed. A successor Trustee may require the prior Trustee to render a full and final accounting. The Trustee shall provide all other information required under Section 736.0813 of the Florida Statutes, unless waived as permitted in that section, and the limitations on proceedings against the Trustee as specified in Section 736.1008 of the Florida Statutes will apply, despite any other provision of this section.

9.6 Acts by Other Fiduciaries. The Trustees shall take reasonable steps to compel a former Trustee or other person to deliver trust property to the Trustee, but otherwise are not required to question any acts or failures to act of the fiduciary of any other trust or estate, and will not be liable for any prior fiduciary's acts or failures to act. The Trustees can require a beneficiary who requests an examination of another fiduciary's actions or omissions to advance all costs and fees incurred in the examination, and if the beneficiary does not, the Trustees may elect not to proceed or may proceed and offset those costs and fees directly against any payment that would otherwise be made to that beneficiary.

9.7 Court Supervision. I waive compliance by the Trustees with any law requiring bond, registration, qualification, or accounting to any court.

9.8 Compensation. Each Trustee is entitled to be paid reasonable compensation for services rendered in the administration of the Trust. Reasonable compensation for a Corporate Trustee will be its published fee schedule in effect when its services are rendered unless otherwise agreed in writing, and except as follows. Any fees paid to a Corporate Trustee for making principal distributions, for termination of the trust, and upon termination of its services must be based solely on the value of its services rendered, not on the value of the trust principal. During my lifetime the Trustees' fees are to be charged wholly against income (to the extent sufficient), unless directed otherwise by me in writing.

9.9 Indemnity. Any Trustee who ceases to serve for any reason will be entitled to receive (and the continuing Trustees shall make suitable arrangements to provide) reasonable indemnification and security to protect and hold that Trustee harmless from any damage or liability of any nature that may be imposed upon it because of its actions or omissions while serving as Trustee. This protection, however, does not extend to a Trustee's negligent actions or omissions that clearly and demonstrably result in damage or liability. A prior Trustee may enforce these provisions against the current Trustees or against any assets held in the Trust, or if the prior Trustee is an individual, against any beneficiary to the extent of distributions received by that beneficiary. This indemnification right will extend to the estate, personal representatives, legal successors, and assigns of a Trustee.

ARTICLE 10
SURVIVAL PROVISIONS

If any beneficiary is required to survive me or another person to receive a distribution, and if the beneficiary does not survive me or that other person by 90 days, or if that beneficiary cannot be located within one year after my or that other person's death despite reasonable attempts by the Trustees to locate that beneficiary, the beneficiary will be treated as if he or she died before me or that other person.

ARTICLE 11
PROTECTION OF INTERESTS

The interest of any beneficiary under this Trust, in both income or principal, may not be voluntarily or involuntarily anticipated, alienated, or in any other manner assigned by the beneficiary and will not be subject to any legal process, bankruptcy proceedings, or the interference or control of the beneficiary's creditors or others.

ARTICLE 12
PAYMENTS OF EXPENSES AND TAXES

The Trustees are authorized in their discretion to use the principal and income of the Trust as they deem necessary or advisable for the payment of any legally enforceable obligations, costs of my last illness and funeral, and any estate transmission and management expenses incurred in the administration of my estate and this Trust. The Trustees shall pay, directly or to my Personal Representatives, all estate or inheritance taxes in the order and manner prescribed by law. In paying these obligations, expenses, and taxes, the following will apply:

12.1 Method of Payment. The Trustees may rely on a certification by my Personal Representatives as to the amount of those expenses and taxes. The Trustees may make payment directly or to my Personal Representatives, as my Personal Representatives request. The Trustees will be held harmless from any liability in making payments as so directed.

12.2 Excluded Property. If any funds become available to the trustees of any trust, including without limit, life insurance, qualified employee benefit plans, individual retirement accounts, or other property from sources specified in Section 2039 of the Internal Revenue Code, and those funds are not otherwise included in my gross estate for federal estate tax purposes, then none of those funds may be used to pay, directly or indirectly, any debts, taxes, or expenses of mine or my estate.

ARTICLE 13
FIDUCIARY POWERS

I grant to the Trustees full power to deal freely with any property in the Trust. The Trustees may exercise these powers independently and without the approval of any court. No person dealing with the Trustees need inquire into the propriety of any of their actions or into the application of any funds or assets. The Trustees however, shall exercise all powers in a fiduciary capacity in good faith, as a prudent person would using reasonable care, skill, and caution, for the best interest of the beneficiaries of any trust created in this Trust. Without limiting the

generality of the foregoing, the Trustees are given the following discretionary powers in addition to any other powers conferred by law:

13.1 Type of Assets. Except as otherwise provided to the contrary, to hold funds uninvested for such periods as the Trustees deem prudent, and to invest in any assets the Trustees deem advisable even though they are not technically recognized or specifically listed in so-called "legal lists," without responsibility for depreciation or loss on account of those investments, or because those investments are non-productive, as long as the Trustees act in good faith.

13.2 Original Assets. Except as otherwise provided to the contrary, to collect and retain the original assets they receive for as long as they deem best, and to dispose of those assets when they deem advisable, even though such assets, because of their character or lack of diversification, would otherwise be considered improper investments for the Trustees.

13.3 Tangible Personal Property. To receive and hold tangible personal property; to pay or refrain from paying storage and insurance charges for such property; and to permit any beneficiaries to use such property without either the Trustees or beneficiaries incurring any liability for wear, tear, and obsolescence of the property.

13.4 Financial Accounts. To deposit trust money in one or more accounts in regulated financial service institutions, including but not limited to banks, savings institutions, and brokerage houses, and to draw checks, drafts, or other forms of withdrawal, including electronic transfers, from those accounts.

13.5 Specific Securities. To invest in assets, securities, or interests in securities of any nature, whether obtained in domestic or foreign markets, including (without limit) precious metals, and currencies; to invest in mutual or investment funds, including funds for which the Trustees or any affiliate performs services for additional fees, whether as manager, custodian, transfer agent, investment advisor or otherwise, or in securities distributed, underwritten, or issued by the Trustees, their affiliates, or syndicates of which they are a member and I specifically authorize the Trustee to invest in the instruments described in Section 736.0802(5) of the Florida Statutes (including assets other than qualified investment instruments) without notice to or consent from any beneficiary; to trade on credit or margin accounts (whether secured or unsecured); and to pledge assets of the Trust Estate for that purpose.

13.6 Property Transactions. To buy, sell, pledge, exchange, or lease any real or personal property, publicly or privately, for cash or credit, without court approval and upon the terms and conditions that the Trustees deem advisable; to execute deeds, leases, contracts, bills of sale, notes, mortgages, security instruments, and other written instruments; to grant, acquire, or exercise options; to abandon or dispose of any real or personal property in the Trust which has little or no monetary or useful value, after notifying the beneficiaries or their legal representatives; to improve, repair, insure, subdivide and vacate any property; to erect, alter or demolish buildings; to adjust boundaries; and to impose easements, including conservation easements, restrictions, and covenants as the Trustees see fit. An instrument described in this section will be valid and binding for its full term even if it extends beyond the full duration of the Trust.

13.7 Borrow Money. To borrow money from any source (including the Trustees in their nonfiduciary capacity), to guarantee indebtedness, and to secure the loan or guaranty by mortgage or other security interest.

13.8 Maintain Assets. To expend whatever funds they deem proper for the preservation, maintenance, or improvement of assets. The Trustees in their discretion may elect any options or settlements or exercise any rights under all insurance policies that they hold. However, no fiduciary who is the insured of any insurance policy held in the Trust may exercise any rights or have any incidents of ownership with respect to the policy, including the power to change the beneficiary, to surrender or cancel the policy, to assign the policy, to revoke any assignment, to pledge the policy for a loan, or to obtain from the insurer a loan against the surrender value of the policy. All such power is to be exercised solely by the remaining Trustees, if any, or if none, by a special fiduciary appointed for that purpose by a court having jurisdiction.

13.9 Digital Assets and Accounts. As provided in and in furtherance of the Florida Fiduciary Access to Digital Assets Act ("FFADAA"), to access and control communications intended for me, and communicate on my behalf, whether by mail, electronic transmission, telephone, or other means; to access and control all of my accounts involving web-based communications or storage and web-hosted media, including but not limited to emails, messages, blogs, subscriptions, pictures, videos, e-books, audiobooks, memberships in organizations or commercial enterprises, and all forms of social media, whether or not those require a user name and password for access, even to the extent of compelling the provider to reset my information to data of my Agent's choosing, all in keeping with the Electronic Communications Privacy Act of 1986, the Computer Fraud and Abuse Act of 1986, and FFADAA, as those may be amended; and to hold, control, and have access to and the use of any digital asset (as defined in FFADAA) held by any kind of computing or digital storage device or service.

13.10 Insurance. To obtain property, casualty, liability or any other insurance for the Trust, including insurance for the Trustees and their agents against damage or liability arising from administration of the Trust.

13.11 Advisors. To employ and compensate attorneys, accountants, advisors, financial consultants, managers, agents, and assistants (including any individual or entity who provides investment advisory or management services, or who furnishes professional assistance in making investments for the Trust) without liability for any act of those persons, if they are selected and retained with reasonable care. Fees may be paid from the Trust Estate even if the services were rendered in connection with ancillary proceedings. The Trustees may serve in any of these capacities and be compensated separately for their services in each.

13.12 Indirect Distributions. To make distributions, whether of principal or income, to any person under age 21 or to any person the Trustees reasonably believe is disabled according to the terms of this Trust by (i) making distributions directly to that person whether or not that person has a guardian; to the parent, guardian, or spouse of that person; to a custodial account established by the Trustees or others for that person under an applicable Uniform Gift to Minors Act or Uniform Transfers to Minors Act; to any adult who resides in the same household with that person or who is otherwise responsible for the care and well-being of that person; (ii)

managing the amount as a separate fund on that person's behalf, subject to his or her continuing right to withdraw that amount; or (iii) applying any distribution for the benefit of that person in any manner the Trustees deem proper. The receipt of the person to whom payment is made will constitute full discharge of the Trustees with respect to that payment.

13.13 Non-Pro Rata Distribution. To make any division or distribution in money or in kind, or both, without allocating the same kind of property to all shares or distributees, and without regard to the income tax basis of the property. Any division will be binding and conclusive on all parties.

13.14 Nominee. Except as prohibited by law, to hold any assets in the name of a nominee without disclosing the fiduciary relationship; to hold the property unregistered, without affecting its liability; and to hold securities endorsed in blank, in street certificates, at a depository trust company, or in a book entry system.

13.15 Custodian. To employ a custodian or agent ("the Custodian") located anywhere within the United States, at the discretion of the Trustees but at the expense of the Trust, whether or not such Custodian is an affiliate of the Trustees or any person rendering services to the Trust; to register securities in the name of the Custodian or a nominee thereof without designation of fiduciary capacity; and to appoint the Custodian to perform such other ministerial functions as the Trustees may direct. While such securities are in the custody of the Custodian, the Trustees will be under no obligation to inspect or verify such securities nor will the Trustees be responsible for any loss by the Custodian.

13.16 Administer Claims. To contest, compromise, arbitrate, or otherwise adjust claims in favor of or against the Trust, including paying those claims in full; to agree to any rescission or modification of any contract or agreement; and to refrain from instituting any suit or action unless indemnified for reasonable costs and expenses.

13.17 Corporate Rights. To vote and exercise any option, right, or privilege to purchase or to convert bonds, notes, stock (including shares or fractional shares of stock of any Corporate Trustee), securities, or other property; to borrow money for the purpose of exercising any such option, right, or privilege; to delegate those rights to an agent; to enter into voting trusts and other agreements or subscriptions; to participate in any type of liquidation or reorganization of any enterprise; and to write and sell covered call options, puts, calls, straddles, or other methods of buying or selling securities, as well as all related transactions.

13.18 Business Interests. To hold interests in sole proprietorships, general or limited partnerships, joint ventures, business trusts, land trusts, limited liability companies, and other domestic and foreign forms of organizations; and to exercise all rights in connection with such interests as the Trustees deem appropriate, including any powers applicable to a non-admitted transferee of any such interest.

13.19 Self-Dealing. To exercise all their powers even though they may also be acting individually or on behalf of any other person or entity interested in the same matters. The Trustees, however, shall exercise these powers at all times in a fiduciary capacity, primarily in the interest of the beneficiaries of the Trust. Despite any other provision of this Trust, no Trustee

may participate in the decision to make a discretionary distribution that would discharge a legal support obligation of that Trustee. No Trustee who has made a disclaimer, either individually or as a Trustee, may exercise any discretion in determining the recipient of the disclaimed property, except pursuant to an ascertainable standard. All power to make such unlimited distributions, or to determine recipients of disclaimed property, will be exercised solely by the remaining Trustees, if any, or if there are no other Trustees then serving, by the person or persons named to serve as the next successor Trustee, or if there are none, by a special Trustee appointed for that purpose by a court having jurisdiction.

13.20 Elections. If no Personal Representative is serving for my estate, and to the extent permitted by law, to perform in a fiduciary capacity any act and make any and all decisions or elections under state law or the Internal Revenue Code on behalf of me or my estate, including but not limited to, claiming the whole or any part of the expenses of administration as income tax deductions for my estate or this Trust, electing the marital deduction in whole or in part, making allocations of my exemption from the federal generation-skipping transfer tax, adopting alternate values for estate tax purposes, and selecting taxable years and dates of distribution. The Trustees are specifically excused from making equitable adjustments among beneficiaries because of any election.

13.21 Qualified Property. To manage any qualified real property or qualified family-owned business interests so as to avoid imposition of the additional estate tax under Sections 2032A or 2057 of the Internal Revenue Code, and to furnish security for the payment of any additional estate taxes imposed under those sections.

13.22 Expenses. To pay all expenses of administration for the Trust Estate, including all taxes, assessments, compensation of the Trustees and their employees and agents, and reimbursements for expenses advanced (with interest as appropriate).

13.23 Terminate Small Trusts. After my death, to exercise their discretion, without court approval, to refrain from funding or to terminate any trust whenever the value of the principal of that trust would be or is too small to administer economically, and to distribute the remaining principal and all accumulated income of the trust to include the types of distributions described in Section 13.12 to the beneficiaries then entitled to receive income in proportion to their shares of that income (or on a per capita basis if their shares are not fixed) in a manner consistent with the purposes of the Trust. The Trustees shall exercise this power to terminate in their discretion as they deem prudent for the best interest of the qualified beneficiaries at that time. This power cannot be exercised by any beneficiary, either alone or in conjunction with any other Trustee, but must be exercised solely by the other Trustee, or if none, by a special Trustee appointed for that purpose by a court having jurisdiction.

13.24 Allocations to Income and Principal. To treat premiums and discounts on bonds and other obligations for the payment of money in accordance with either generally accepted accounting principles or tax accounting principles and, except as otherwise provided to the contrary, to hold nonproductive assets without allocating any principal to income, despite any laws or rules to the contrary. The Trustees in their discretion may exercise the power described in Section 738.104 of the Florida Statutes to adjust between principal and income, as appropriate, including the allocation of some or all of the net capital gain to the beneficiaries as if it were

fiduciary accounting income. The Trustees in their discretion may treat any discretionary distributions of principal as being paid first from realized capital gains. In addition, the Trustees may convert any income interest into a unitrust interest, or a unitrust interest to an income interest, as they see fit, all as provided in Section 738.1041 of the Florida Statutes, despite any provision of those sections to the contrary.

13.25 Use of Income. Except as otherwise provided in this Trust, and in addition to all other available sources, to exercise their discretion in the use of income from the assets of the Trust to satisfy the liabilities described in this Trust, without accountability to any beneficiary.

13.26 Sever or Join Trusts. To sever any trust on a fractional basis into two or more separate trusts, and to segregate by allocation to a separate account or trust a specific amount from, a portion of, or a specific asset included in any trust. The Trustees may consolidate two or more trusts (including trusts created by different transferors) having substantially the same beneficial terms and conditions into a single trust. The Trustees may take into consideration differences in federal tax attributes and other pertinent factors in administering any separate account or trust, in making applicable tax elections, and in making distributions. A trust created by severance or consolidation will be treated as a separate trust for all purposes from the date on which the severance or consolidation is effective (which may be before the exercise of this power), and will be held on the same beneficial terms and conditions as those before the severance or consolidation. Income earned on a consolidated or severed amount, portion, or specific asset after the consolidation or severance is effective will pass with that amount, portion, or specific asset.

13.27 Consolidated Funds. Unless inconsistent with other provisions of this Trust, to hold two or more trusts or other funds in one or more consolidated funds, in which the separate trusts or funds have undivided interests, except that an accounting must be rendered to each trust showing its undivided interests in those funds.

13.28 Valuations. In making distributions or allocations under the terms of this Trust to be valued as of a particular date, to use asset valuations obtained for a date reasonably close to that particular date (such as a quarterly closing date before or after that date) if, in the Trustees' judgment, obtaining appraisals or other determinations of value on that date would result in unnecessary expense, and if in the Trustees' judgment, the fair market value as determined is substantially the same as on that actual date. This paragraph will not apply if valuation on a specific date is required to preserve a qualification for a tax benefit, including any deduction, credit, or most favorable allocation of an exemption.

13.29 Incorporation. To incorporate any business or venture, and to continue any unincorporated business that the Trustees determine to be not advisable to incorporate.

13.30 Delegation. To delegate periodically among themselves the authority to perform any act of administration of any trust.

13.31 Loans; Advances. To make loans to anyone under commercially reasonable terms, and to make cash advances or loans to beneficiaries, with or without security. The Trustees may retain a lien on future distributions to a beneficiary to repay those loans.

13.32 Election of Benefits. To select a mode of payment under any employee benefit or retirement plan, annuity, or life insurance payable to the trustee, exercise rights under such plan, annuity, or insurance, including exercise of the right to indemnification for expenses and against liabilities, and take appropriate action to collect the proceeds.

13.33 Investment Manager. To employ any investment management service, financial institution, or similar organization to advise the Trustees and to handle all investments of the Trust and to render all accountings of funds held on its behalf under custodial, agency, or other agreements. If the Trustees are individuals, these costs may be paid as an expense of administration in addition to fees and commissions.

13.34 Depreciation. To deduct from all receipts attributable to depreciable property a reasonable allowance for depreciation, computed in accordance with generally accepted accounting principles consistently applied.

13.35 Disclaim Assets or Powers. To disclaim any assets otherwise passing or any fiduciary powers pertaining to any trust created hereunder, by execution of an instrument of disclaimer meeting the requirements of applicable law generally imposed upon individuals executing disclaimers. No notice to or consent of any beneficiary, other interested person, or any court is required for any such disclaimer, and the Trustees are to be held harmless for any decision to make or not make such a disclaimer. No disclaimer by the Trustees, whether as a fiduciary or as an individual, will cause that person to be treated as having predeceased me for purposes of serving as Trustee.

13.36 Related Parties. To enter into any transaction on behalf of the Trust despite the fact that another party to that transaction may be: (i) a business or trust controlled by the Trustees, or of which the Trustees, or any director, officer, or employee of the Corporate Trustees, is also a director, officer, or employee; (ii) an affiliate or business associate of any beneficiary or the Trustees; or (iii) a beneficiary or Trustee under this Trust acting individually, or any relative of such a party.

13.37 Additional Powers for Income-Producing Real Estate. In addition to the other powers set forth above or otherwise conferred by law, the Trustees have the following powers with respect to any income-producing real property which is or may become a part of the Trust Estate:

- To retain and operate the property for as long as they deem advisable;
- To control, direct, and manage the property, determining the manner and extent of their active participation in these operations, and to delegate all or any part of their supervisory power to other persons that they select;
- To hire and discharge employees, fix their compensation, and define their duties;
- To invest funds in other land holdings and to use those funds for all improvements, operations, or other similar purposes;

- Except as otherwise provided with respect to mandatory income distributions, to retain any amount of the net earnings for working capital and other purposes that they deem advisable in conformity with sound and efficient management; and

- To purchase and sell machinery, equipment, and supplies of all kinds as needed for the operation and maintenance of the land holdings.

13.38 Winding Up. On termination of a trust, to exercise the powers appropriate to wind up the administration of that trust and distribute the remaining assets to the persons entitled to them, and to retain a reasonable reserve for the payment of debts, expenses, and taxes.

ARTICLE 14
PERPETUITIES PROVISION

Despite any contrary provisions of this Trust, the share of each beneficiary will vest (in the beneficiary or his or her estate) immediately prior to the expiration of 90 years after my death. To the extent allowed by law, I permit this Trust to be modified nonjudicially under Section 736.0412 of the Florida Statutes or other applicable law.

ARTICLE 15
ADMINISTRATION AND CONSTRUCTION

15.1 Separate Trusts. This Trust may call for the creation of separate trusts under one or more gifts, such as trusts for separate beneficiaries. If so, those trusts are to arise as of the event creating them, e.g., my death or the death of another person, even if those trusts are not immediately funded or their shares not exactly determined, so as to be considered separate trusts as of that event under all provisions of the Internal Revenue Code.

15.2 Rules for Distributions. In making distributions to beneficiaries under this Trust, the Trustees must use the following criteria.

(a) Other Resources. Whenever the Trustees have the authority to decide how much to distribute to or for the benefit of a beneficiary, the Trustees should make decisions taking into account any information readily available to them about the beneficiary's other available income and resources (including any obligations owed to him or her by any person that are reasonably able to be discharged). The Trustees may rely on financial statements or tax returns from the beneficiary. The Trustees can make payments directly to a beneficiary or to other persons for the beneficiary's benefit, but they do not have to make payments to a court appointed guardian.

(b) Trustees' Decision. Absent clear and convincing evidence of bad faith, the Trustees' decisions as to amounts to be distributed will be final.

(c) Standard of Living. Distributions to a beneficiary for health, education, support, or maintenance are to be based on his or her standard of living, determined as of the date of the distribution.

(d) Unequal Distributions. For any trusts having multiple beneficiaries, distributions may be unequal among them due to differences in their resources, age, health, needs, educational inclinations, and talents. The Trustees may make unequal distributions to or for those beneficiaries without making equalizing adjustments among them, unless specifically provided to the contrary in this Trust.

15.3 Funding Gifts. The following rules will apply to funding gifts under this Trust.

(a) Pecuniary Gifts. All pecuniary gifts under this Trust that are paid by an in-kind distribution of assets must use values having an aggregate fair market value at the date or dates of distribution equal to the amount of this gift as finally determined for federal estate tax purposes.

(b) Adjustments. The Trustees shall select one or more dates of allocation or distribution for purposes of satisfying gifts and funding shares or trusts. The Trustees may make allocations before the final determination of federal estate tax, with those allocations being based upon the information then available to the Trustees, and may thereafter adjust properties among the shares or trusts if it is determined that the allocation should have been made differently.

15.4 Accumulated Income. Any income not distributed to the beneficiaries pursuant to either a mandatory direction or a discretionary power is to be incorporated into principal, at such intervals as the Trustees deem convenient.

15.5 Estate Tax on Included Property. If assets of any trust created under this agreement are included in a beneficiary's estate for federal estate tax purposes, the following will apply.

(a) Appointed Assets. If the beneficiary exercises a power of appointment over those assets, the Trustees are authorized to withhold from those assets the amount of estate taxes apportioned to them by applicable law, if the beneficiary does not make provisions for the payment of those taxes from other sources.

(b) Other Assets. If the beneficiary does not have or does not exercise a power of appointment over those assets, the Trustees will pay the estate taxes attributable to those assets. The estate taxes attributable to those assets will be the amount that the beneficiary's estate taxes are increased over the amount those taxes would have been if those assets had not been included in the beneficiary's gross estate.

(c) Certification and Payment. The Trustees may rely upon a written certification by the beneficiary's personal representative of the amount of the estate taxes, and may pay those taxes directly or to the personal representative of the beneficiary's estate. The Trustees will not be held liable for making payments as directed by the beneficiary's personal representative.

15.6 Transactions With Other Entities. The Trustees may buy assets from other estates or trusts, or make loans to them, so that funds will be available to pay claims, taxes, and expenses. The Trustees can make those purchases or loans even if they serve as the fiduciary of

that estate or trust, and on whatever terms and conditions the Trustees think are appropriate, except that the terms of any transaction must be commercially reasonable.

ARTICLE 16
APPLICABLE LAW; TRUST SITUS

All questions regarding the law to be applied or the appropriate situs of any trust will be governed by the terms of this article as follows:

16.1 Validity; Construction. All matters involving the validity, interpretation, construction, and meaning (or effect) of the Trust created under this instrument are to be governed by Florida law, which is currently my domicile.

16.2 Principal Place of Administration. All matters involving the administration of the Trust created under this instrument are to be governed by Florida law, which is currently my domicile and the initial principal place of administration (the "situs") of those trusts. The Trustees may change the principal place of administration of any trust as provided below.

16.3 Determining Situs. The Trustees will have a continuing duty to administer the Trust at a place appropriate to its purposes and its administration. In exercising this duty, the Trustees should consider the factors specified in Section 736.0108 of the Florida Statutes and the impact of a change to a different situs on the following: state and local taxes; compensation of fiduciaries; investment authority; duties, responsibilities, and liabilities of the Trustees; and any other factor appropriate to the new jurisdiction.

16.4 Transferring Situs. The Trustees, acting from time to time and without court approval, may transfer the situs of the Trust to any jurisdiction within the United States, subject to the notice requirements contained in Section 736.0108(6) of the Florida Statutes.

16.5 Substitute Trustees. If the Trustees are unable or unwilling to serve in the new trust situs, the Trustees may: designate substitute Trustees to act with respect to that property in the new situs; delegate to the substitute Trustees any or all of the powers given to the Trustees; elect to act as advisor to the substitute Trustees and receive reasonable compensation for that service; and remove any acting substitute Trustees and appoint another, or reappoint itself, if appropriate, at will.

ARTICLE 17
MISCELLANEOUS PROVISIONS

17.1 Definitions. As used in this Trust, the following terms have the meanings set forth below:

(a) Fiduciaries.

(1) **Corporate Trustee** means a trustee that is a bank, trust company, or other entity authorized to serve as a trustee under the laws of the United States or any state thereof.

(b) Internal Revenue Code Terms.

(1) **Internal Revenue Code** means the federal Internal Revenue Code of 1986, as amended from time to time, or successor provisions of future federal internal revenue laws.

(2) **Gross estate** means gross estate for federal estate tax purposes as defined in Section 2031 of the Internal Revenue Code.

(3) The terms **health, education, support, and maintenance** are intended to set forth an "ascertainable standard," as described in the Internal Revenue Code and its associated Regulations. To the extent not inconsistent with the foregoing, "health" means a beneficiary's physical and mental health, including but not limited to payments for examinations, surgical, dental, or other treatment, medication, counseling, hospitalization, and health insurance premiums; "education" means elementary, secondary, post-secondary, graduate, or professional schooling in an accredited institution, public or private, or attendance at other formal programs in furtherance of the beneficiary's spiritual, athletic, or artistic education, including but not limited to payments for tuition, books, fees, assessments, equipment, tutoring, transportation, and reasonable living expenses.

(4) **Related Person** as to a particular individual is someone who is deemed to be "related or subordinate" to that individual under Section 672(c) of the Internal Revenue Code (as though that individual was a grantor).

(c) Other Terms.

(1) **Residuary Trust Estate** means the Trust Estate (including assets added to the Trust by reason of my death) left after paying all pre-residuary gifts in this Trust and all expenses and charges (other than estate taxes).

(2) An individual who is the genetic child of parents who were not married to each other at his or her birth will be deemed not to be **a descendant** of his or her father unless the father (i) is married to that individual's mother at any time during the period starting at that individual's conception and ending at his or her birth, (ii) marries that individual's mother after that individual's birth, (iii) adopts the individual at any time, or (iv) acknowledges his paternity of the individual in a signed instrument filed with any court or governmental agency or delivered to any fiduciary during that father's lifetime. In all events, a person must have been born or be in gestation at his or her parent's death to be considered a descendant of that parent.

(3) **Qualified Beneficiary** means a living beneficiary who, on the date his or her qualification is determined: (i) is a distributee or permissible distributee (a "distributee") of trust income or principal; (ii) would be a distributee if the interests of the distributees described in (i) above terminated on that date without causing the trust to terminate; or (iii) would be a distributee if the trust terminated in accordance with its terms on that date.

(4) Distributions that are to be made to a person's **descendants, per stirpes**, will be divided into equal shares, so that there will be one share for each living child (if any) of that person and one share for each deceased child who has then living descendants. The

share of each deceased child will be further divided among his or her descendants on a per stirpes basis, by reapplying the preceding rule to that deceased child and his or her descendants as many times as necessary.

(5) **Disabled** or **under a disability** means (i) being under the legal age of majority, (ii) having been adjudicated to be incapacitated, (iii) having been incarcerated for more than thirty consecutive days, (iv) being unaccountably absent for more than thirty days or being detained under duress, or (v) being unable to manage properly personal or financial affairs because of a mental or physical impairment (whether temporary or permanent in nature). A written certificate executed by an individual's attending physician confirming that person's impairment will be sufficient evidence of disability under item (v) above, and all persons may rely conclusively on such a certificate.

(6) The words **will** and **shall** are used interchangeably in this Trust and mean, unless the context clearly indicates otherwise, that the Trustees must take the action indicated; as used in this Trust, the word **may** means that the Trustees have the discretionary authority to take the action but are not automatically required to do so.

17.2 Powers of Appointment. The following provisions relate to all powers of appointment created by me at any time and to any power exercisable by or under this Trust.

(a) A **general power of appointment** granted to a person is one that can be exercised in favor of any one or more of the following: that person or his or her estate, his or her creditors, or the creditors of his or her estate.

(b) A **special power of appointment** is any power that is not a general power; it may be exercisable in favor of a specified class or, if no class is specified, in favor of any person or entity (other than the appointees specified in Section 17.2(a) above.)

(c) A **testamentary power of appointment** (either general or special) is exercisable upon the powerholder's death by his or her Last Will or by a revocable trust agreement established by that person, but only by specific reference to the instrument creating the power. A testamentary power of appointment may not be exercised in favor of the person possessing the power. Unless otherwise indicated, any power under this Trust may be exercised so as to create an interest held in trust.

(d) Unless otherwise limited, a power of appointment extends to all assets in a trust at the exercise of the power, even if added after the creation of the trust.

(e) In determining whether a person has exercised a testamentary power of appointment, the Trustees may rely upon an instrument admitted to probate in any jurisdiction as that person's Last Will, or upon any trust agreement certified to be valid and authentic by sworn statement of the trustee who is serving under that trust agreement. If the Trustees have not received written notice of such an instrument within six months after the powerholder's death, the Trustees may presume that the powerholder failed to exercise that power and will not be liable for acting in accordance with that presumption.

(f) I expressly refrain from exercising any power of appointment that I may possess at my death.

17.3 Lapsed Gifts. If any gift is conditioned on the recipient surviving me or another person and no alternative disposition of that gift is specified, the gift will lapse and become part of the Residuary Trust Estate if the designated recipient does not survive.

17.4 Right to Information. During my lifetime and while I am not disabled, the Trustees shall provide me with any information I request concerning actions taken by the trustees and the operation of the Trust, including a full listing of its assets. Upon my death or disability, the Trustees shall provide such information, upon request, to the person then entitled to appoint successor Trustees as specified in Section 9.3.

17.5 Notices. Any person entitled or required to give notice under this Trust shall exercise that power by a written instrument witnessed by two impartial persons, clearly setting forth the effective date of the action for which notice is being given. The instrument may be executed in counterparts. Notice of my exercise of any power under this Trust need be given only to the affected Trustees.

17.6 Certifications.

(a) From Personal Representatives. For some purposes, the Trustees are authorized to rely on a certificate from my Personal Representatives as to certain facts. That certificate must be in writing and witnessed by two impartial persons, but need not be notarized. It is to be delivered to the Trustees in the same fashion as provided for other notices.

(b) Facts. A certificate signed and acknowledged by the Trustees stating any fact affecting the Trust Estate or the trust agreement will be conclusive evidence of such fact in favor of any transfer agent and any other person dealing in good faith with the Trustees. The Trustees may rely on a certificate signed and acknowledged by any beneficiary stating any fact concerning the Trust beneficiaries, including dates of birth, relationships, or marital status, unless an individual serving as Trustee has actual knowledge that the stated fact is false. Knowledge of all other facts will be determined as provided in Section 736.0104 of the Florida Statutes.

(c) Copy. Any person may rely on a copy of this instrument (in whole or in part) certified to be a true copy by me; by any person specifically named as a Trustee (or successor Trustee); by any Corporate Trustee whether or not specifically named; or, if there are none of the above, by any then serving Trustee.

17.7 Adopted Children. A legally adopted child (and any descendants of that child) will be regarded as a descendant of the adopting parent only if the petition for adoption was filed with the court before the child's eighteenth birthday.

17.8 Infant in Gestation. For all purposes of this Trust, an infant in gestation who is later born alive will be deemed to be in being during the period of gestation for the purpose of qualifying the infant, after it is born, as a beneficiary of this Trust.

17.9 Gender and Number. Reference in this Trust to any gender includes either masculine or feminine, as appropriate, and reference to any number includes both singular and plural where the context permits or requires.

17.10 Headings. Use of descriptive titles for articles and paragraphs is for the purpose of convenience only and is not intended to restrict the application of those provisions.

17.11 Further Instruments. I agree to execute such further instruments as may be necessary to vest the Trustees with full legal title to the property transferred to this Trust.

17.12 Acknowledgments. Acknowledgments of this trust agreement and matters affecting the administration of the Trust may be given for purposes of recording such instruments, but the absence of an acknowledgment does not affect the validity of those instruments.

17.13 Binding Effect. This trust agreement extends to and is binding upon my Personal Representatives, successors, and assigns, and upon the Trustees.

Executed as of the effective date written above.

GRANTOR and TRUSTEE

Anthony J. Tringali

Anthony J. Tringali

This instrument was signed, sealed, published, and declared by the Grantor as his Trust Agreement in our joint presence, and at his request we have signed our names as attesting witnesses in his presence and in the presence of each other on the date first written above.

QUIT-CLAIM DEED

THIS QUIT-CLAIM DEED is made as of April 3, 2017, between **Anthony J. Tringali**, a a single individual, conveying non-homestead property, whose mailing address is 124 3rd Street S, Fernandina Beach, FL 32034, herein the "Grantor," and **Anthony J. Tringali, trustee of the Anthoney J. Tringali Revocable Trust dated March 27, 2017, and successor trustees**, herein the "Grantee," whose mailing address is 124 3rd Street S, Fernandina Beach, FL 32034. (As used herein, the terms Grantor and Grantee shall include, where the context permits or requires, singular or plural, heirs, personal representatives, successors, or assigns.)

WITNESSETH, that the Grantor, in consideration of One and no/100 Dollars ($1.00), and other valuable consideration paid by the Grantee, receipt and sufficiency of which are hereby acknowledged, does hereby remise, release and quit-claim unto the Grantee forever all of the Grantor's right, title and interest in and to those certain properties in Nassau County, Florida, described as follows:

Parcel #1: ID#: 00-00-31-1800-0012-0210; Address: 119 4th ST S, Fernandina Beach

Lot 21, Lot 22, Lot 23 and Lot 24 of Block 12, City of Fernandina Beach, (formerly Fernandina) Florida, according to Plat thereof in Public Records of Nassau County, Florida.

Parcet #2: ID#00-00-31-1800-0012-0190; Address: 123 4th St S, Fernandina Beach

Lot 19 and Lot 20 of Block 12, City of Fernandina Beach, (formerly Fernandina) Florida, according to Plat thereof in Public Records of Nassau County, Florida.

This conveyance is subject to ad valorem taxes levied or which may become a lien subsequent to December 31 of the calendar year next preceding the date hereof, covenants, easements and restrictions of record; however, this reference shall not operate to reimpose same.

The foregoing legal description was provided to the preparer without the benefit of a survey or a title commitment and the preparer accepts no liability or responsibility whatsoever for any inaccuracies or improprieties contained therein or relating thereto.

TO HAVE AND TO HOLD the same, together with the hereditaments and appurtenances thereunto belonging or in anywise appertaining, and all the estate, right, title, interest, lien, equity and claim whatsoever of the Grantor, either in law or equity, unto the Grantee.

IN WITNESS WHEREOF, this deed has been executed as of the date first above written.

QUIT-CLAIM DEED

THIS QUIT-CLAIM DEED is made as of March 27, 2017, between **Anthony J. Tringali**, a a single individual, conveying homestead property, whose mailing address is 124 3rd Street S, Fernandina Beach, FL 32034, herein the "Grantor," and **Anthony J. Tringali, trustee of the Anthoney J. Tringali Revocable Trust dated March 27, 2017, and successor trustees**, herein the "Grantee," whose mailing address is 124 3rd Street S, Fernandina Beach, FL 32034. (As used herein, the terms Grantor and Grantee shall include, where the context permits or requires, singular or plural, heirs, personal representatives, successors, or assigns.)

WITNESSETH, that the Grantor, in consideration of One and no/100 Dollars ($1.00), and other valuable consideration paid by the Grantee, receipt and sufficiency of which are hereby acknowledged, does hereby remise, release and quit-claim unto the Grantee forever all of the Grantor's right, title and interest in and to those certain properties in Nassau County, Florida, described as follows:

Parcel ID#: 00-00-31-1800-0012-0050

Address: 124 3RD ST S, FERNANDINA BEACH, FL 32034

All those certain lots or parcels of land situate, lying and being in the City of Fernandina Beach, County of Nassau and State of Florida and known and described on the official plat of said City (as lithographed and issued by the Florida Railroad Company in 1857, and enlarged, revised and reissued by The Florida Town Improvement Company in 1887 and 1901) as: All of Lots numbered Five (5), Six (6), Seven (7), Eight (8), and Nine (9), in Block numbered Twelve (12) of said City of Fernandina, Nassau County, Florida.

NOTE TO CLERK AND REVENUE DEPARTMENT: THIS CONVEYANCE IS A TRANSFER TO A TRUSTEE REPRESENTING NO CHANGE IN BENEFICIAL OWNERSHIP; THEREFORE, MINIMUM DOCUMENTARY STAMP TAXES ARE BEING PAID HEREON PURSUANT TO SECTION 12B-4.013(28)(i), FLORIDA ADMINISTRATIVE CODE.

This conveyance is subject to ad valorem taxes levied or which may become a lien subsequent to December 31 of the calendar year next preceding the date hereof, covenants, easements and restrictions of record; however, this reference shall not operate to reimpose same.

The Grantor hereby certifies that under the terms of Anthoney J. Tringali Revocable Trust dated March 27, 2017, and successor trustees, Anthony J. Tringali has retained and is entitled to the beneficial use and possession of all property transferred to the Trust, including any homestead property as to which Grantor shall have the benefit of any and all exemptions permitted at law, such interest being hereby declared to be "equitable title to real estate" as that term is used in the Florida Statutes and the Florida State Constitution.

The foregoing legal description was provided to the preparer without the benefit of a survey or a title commitment and the preparer accepts no liability or responsibility whatsoever for any inaccuracies or improprieties contained therein or relating thereto.

TO HAVE AND TO HOLD the same, together with the hereditaments and appurtenances thereunto belonging or in anywise appertaining, and all the estate, right, title, interest, lien, equity and claim whatsoever of the Grantor, either in law or equity, unto the Grantee.

WARRANTY DEED

THIS INDENTURE, Made this **25th** day of **August, 1999**, between **JOSEPHINE TRINGALI**, a single person, party of the first part, and **JOSEPHINE TRINGALI, a single person, and ANTHONY J. TRINGALI, a single person, as Joint Tenants with Right of Survivorship**, whose address is 125 South 4th Street, Fernandina Beach, FL 32034, parties of the second part.

WITNESSETH: That the said party of the first part, for and in consideration of the sum of LOVE AND AFFECTION, to her in hand paid by the said parties of the second part, the receipt whereof is hereby acknowledged, has granted, bargained and sold to the said parties of the second part, their heirs and assigns forever, the following described land, situate, lying and being in the County of NASSAU, State of Florida, to wit:

All of those certain lots, pieces or parcels of land situate, lying and being in the City of Fernandina Beach (formerly Fernandina, Florida), as shown on and designated on the official map or plat of said City (as lithographed and issued by the Florida Railroad Company in 1857, and revised, enlarged and reissued by the Florida Town Improvement Company in 1887 and 1901) as:

LOTS numbered FIFTEEN (15), SIXTEEN (16), SEVENTEEN (17) and EIGHTEEN (18) in BLOCK numbered TWELVE (12); which said lots front one hundred (100) feet on Beech Street, which bounds them on the South, from whence they extend back, at right angles North to a depth of one hundred (100) feet, being bounded on the East by South Fourth Street and being the same identical lands heretofore conveyed by C. C. Stephens and Mabel Stephens, his wife, to Richard D. Lovell, Jr. and Grace S. Lovell, husband and wife, by deed dated April 4th, 1951 and recorded in Deed Book 180 at pages 371 and 372, in and among the public records of Nassau County, Florida.

SUBJECT to all Covenants, Restrictions, Easements, and Reservations of record, if any, **AND** to taxes accruing subsequent to December 31, 1998.

PARCEL NO: 00 00 31 1800 0012 0150

And the said party of the first part does hereby fully warrant the title to said land, and will defend the same against the lawful claims of all persons whomsoever.

IN WITNESS WHEREOF, the said party of the first part has hereunto set her hand and seal the day and year first above written.

4) Bearings shown hereon are based on as assumed bearing of S07°28'00"W. The bearing reference line is indicated as thus (BR).
5) The property shown hereon lies within flood zone "X & AE(9)" as per F.E.M.A. Flood Insurance Rate Map, Panel "12089C 0237 G", Dated "08/02/2017". Flood Zone information listed above and shown on this survey is provided as a courtesy and is approximate at best. All data should be verified by Nassau County Building Department for accuracy. We assume no liability for its accuracy. Flood Zone information is not covered by the certification hereon and is not required to be shown per Chapter 5J-17, Florida Administrative Code, pursuant to Section 472.027, Florida Statutes.
6) Site Benchmark is as shown hereon.
7) Elevations shown hereon refer to North American Vertical Datum of 1988. (N.A.V.D. '88)
8) The Reference Benchmark is a nail & disc in the East face of a utility pole at the Northwest corner of 4th Street and Beech Street. (Elevation = 12.85' (NAVD88)

SITE LOCATION MAP

NOT FOR CONSTRUCTION

SITE / GEOMETRY NOTES

1. ALL WORK SHALL BE PERFORMED IN A SAFE MANNER. ALL SAFETY RULES AND GUIDELINES OF O.S.H.A. SHALL BE FOLLOWED. THE CONTRACTOR SHALL BE WHOLLY RESPONSIBLE FOR ANY INJURIES OF HIS EMPLOYEES, AND ANY DAMAGE TO PRIVATE PROPERTY OR PERSONS DURING THE COURSE OF THIS PROJECT. ALL COSTS ASSOCIATED WITH COMPLYING WITH REGULATIONS AND THE FLORIDA TRENCH SAFETY ACT MUST BE INCLUDED IN THE CONTRACTOR'S PRICE FOR PERFORMING THE WORK.

2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR VISITING THE JOB SITE PRIOR TO PREPARING THE BID FOR THE PURPOSE OF FAMILIARIZING HIMSELF WITH THE NATURE AND THE EXTENT OF THE WORK AND LOCAL CONDITIONS, EITHER SURFACE OR SUBSURFACE, WHICH MAY AFFECT THE WORK TO BE PERFORMED, AND THE EQUIPMENT, LABOR AND MATERIALS REQUIRED. FAILURE TO DO SO WILL NOT RELIEVE THE CONTRACTOR OF COMPLETE PERFORMANCE UNDER THIS CONTRACT. THE CONTRACTOR IS URGED TO TAKE COLOR PHOTOGRAPHS ALONG THE ROUTE OF THIS PROJECT TO RECORD EXISTING CONDITIONS PRIOR TO CONSTRUCTION, AND TO AID IN RESOLVING POSSIBLE FUTURE COMPLAINTS THAT MAY OCCUR DUE TO CONSTRUCTION OF THE PROJECT. ALL COSTS ASSOCIATED WITH PRELIMINARY INVESTIGATION SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.

3. ALL IMPROVEMENTS SHOWN ARE TO BE WARRANTED BY THE CONTRACTOR TO THE DEVELOPER.

4. ELEVATIONS ARE BASED ON NAVD DATUM OF 1988.

5. TOPOGRAPHIC AND BOUNDARY INFORMATION WAS PROVIDED BY: MANZIE & DRAKE LAND SURVEYING (904-491-5700).

6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ALL NECESSARY BUILDING, RIGHT-OF-WAY PERMITS NOT PROVIDED AND INSURANCE REQUIRED FOR THE PROJECT.

7. THE CONTRACTOR SHALL COORDINATE THE WORK WITHIN COUNTY OR STATE RIGHT-OF-WAY WITH THE PROPER AGENCIES FOR MAINTENANCE OF TRAFFIC AND METHOD OF CONSTRUCTION & REPAIR.

8. THE CONTRACTOR SHALL ADVISE THE OWNER'S AUTHORIZED REPRESENTATIVE OF PLANNED WORK SCEDULE. THE CONTRACTOR SHALL COORDINATE THEIR CONSTRUCTION WITH ALL OTHER CONTRACTORS. IN THE EVENT OF ANY CONFLICT WHATSOEVER, THE CONTRACTOR SHALL NOTIFY THE ENGINEER OF RECORD, AND THE OWNER PRIOR TO PROCEEDING WITH CONSTRUCTION.

9. "AS-BUILT" DRAWINGS - AS-BUILTS ARE REQUIRED TO BE SIGNED AND SEALED BY A FLORIDA REGISTERED LAND SURVEYOR. THEREFORE, IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO CONTRACT WITH A LAND SURVEYOR REGISTERED IN THE STATE OF FLORIDA FOR THE PREPARATION, FIELD LOCATIONS, CERTIFICATION, AND SUBMITTAL OF AS-BUILT DRAWINGS.

10. "AS-BUILT" RECORD DATA AND INFORMATION SHALL BE MAINTAINED BY THE CONTRACTOR. RECORD DRAWINGS SHALL BE SUPPLIED TO THE ENGINEER.

11. THE CONTRACTOR IS RESPONSIBLE FOR PROTECTION OF ALL SURVEY AND PROPERTY MONUMENTS. IF A MONUMENT IS DISTURBED, THE CONTRACTOR SHALL CONTRACT WITH THE SURVEYOR OF RECORD FOR REINSTALLATION OF THE MONUMENT.

12. ALL DEBRIS RESULTING FROM ALL ACTIVITIES SHALL BE DISPOSED OF OFF-SITE BY CONTRACTOR ON A DAILY BASIS.

13. ALL EXCESS SUITABLE AND UNSUITABLE MATERIALS SHALL BE REMOVED FROM THE SITE BY THE CONTRACTOR UNLESS DIRECTED OTHERWISE BY THE ENGINEER.

14. ALL EXISTING TREES LISTED TO REMAIN SHALL BE PRESERVED AND PROTECTED.

15. THE LOCATION OF ALL EXISTING UTILITIES, STRUCTURES, AND IMPROVEMENTS ON THE DRAWINGS ARE BASED ON LIMITED INFORMATION AND MAY NOT HAVE BEEN FIELD VERIFIED. THE LOCATIONS ARE APPROXIMATE. THE CONTRACTOR SHALL NOTIFY RESPECTIVE UTILITY OWNERS AND FIELD VERIFY LOCATIONS OF EXISTING UTILITIES AND OTHER IMPROVEMENTS PRIOR TO COMMENCING ANY CONSTRUCTION. IF THE LOCATIONS SHOWN ARE CONTRARY TO ACTUAL FIELD LOCATIONS, THE CONTRACTOR SHALL NOTIFY THE OWNER AND ENGINEER OF THE DISCREPANCY. THE DISCREPANCY SHOULD BE RESOLVED PRIOR TO COMMENCING CONSTRUCTION. THE CONTRACTOR SHALL EXERCISE EXTREME CAUTION WHEN WORKING IN AREAS NEAR EXISTING UTILITY IMPROVEMENTS AND SHALL BE RESPONSIBLE FOR REPAIRS OR PAYMENTS FOR ALL DAMAGE MADE TO EXISTING UTILITIES OR OTHER IMPROVEMENTS. PRIOR TO COMMENCEMENT OF ANY CONSTRUCTION, THE CONTRACTOR SHALL VERIFY ALL GRADES, INVERTS, AND TYPE OF MATERIAL OF EXISTING UTILITIES TO WHICH THEY SHALL CONNECT.

16. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS TO THE ENGINEER ON ALL MATERIALS, FOR REVIEW AND APPROVAL, PRIOR TO PURCHASE OR CONSTRUCTION OF ANY UTILITY OR STRUCTURE.

17A. UNSUITABLE MATERIALS UNDER WATER, SEWER, OR STORM PIPE AND/OR STRUCTURES SHALL BE REMOVED AND REPLACED WITH SELECTED BACKFILL COMPACTED TO 98% OF IT'S MAXIMUM DENSITY AS DETERMINED BY THE MODIFIED PROCTOR TEST (ASTM D1557).

17B. ALL FINISH FLOORS SHOWN ON THE PLANS ARE MINIMUM ELEVATIONS

18. GRADES SHOWN ON PLANS ARE EDGE OF PAVEMENT FINISHED GRADES UNLESS OTHERWISE NOTED.

19. SHOULD THE SURFACE OR SUBSURFACE CONDITIONS VARY FROM WHAT IS SHOWN ON THE PLANS, THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER.

20. ALL AREAS DISTURBED DURING CONSTRUCTION SHALL BE SEEDED AND MULCHED UNLESS OTHERWISE SPECIFICALLY STATED. ALL DISTURBED AREAS WITHIN THE NASSAU COUNTY RIGHT OF WAY SHALL BE COVERED WITH BERMUDA SOD.

21. THE CONTRACTOR IS RESPONSIBLE FOR THE CONTROL OF SEDIMENT-LADEN RUNOFF RESULTING FROM STORM EVENTS DURING THE CONSTRUCTION PHASE. EROSION CONTROL FACILITIES SHOULD BE INSTALLED EARLY DURING THE CONSTRUCTION PERIOD SO AS TO PREVENT THE TRANSPORT OF SEDIMENT INTO SURFACE WATERS. RE-VEGETATION AND STABILIZATION OF DISTURBED AREAS SHOULD BE ACCOMPLISHED IMMEDIATELY TO REDUCE THE POTENTIAL FOR FURTHER SOIL EROSION.

22. ANY DISCREPANCIES ON THE DRAWINGS SHALL BE BROUGHT TO THE ATTENTION OF THE ENGINEER AND CITY BEFORE COMMENCING WORK.

SITE / GEOMETRY NOTES CONT.

23. MINIMUM COVER OVER PIPES SHALL BE 36" UNLESS OTHERWISE INDICATED.

24. ALL UNDERGROUND UTILITY COMPANIES SHALL BE CONTACTED AT LEAST 48 HOURS PRIOR TO COMMENCING CONSTRUCTION.

25. BACKFILL MATERIAL SHALL BE COMPACTED TO 100% (2%) UNDER EXISTING AND PROPOSED ROADWAYS.

26. NO FIELD CHANGES OR DEVIATIONS FROM DESIGN TO BE MADE WITHOUT PRIOR APPROVAL OF THE ENGINEER.

27. STATIONING REFERS TO THE CENTERLINE OF THE ROADWAY EXCEPT AS NOTED ON PLANS. WHERE PAVEMENT SPLITS, THE STATIONING FOLLOWS THE INSIDE EDGE OF PAVEMENT UNTIL ROADWAY TRANSITIONS BACK TO THE TYPICAL ROADWAY SECTION

28. ALL CONSTRUCTION, MATERIAL, AND WORKMANSHIP ARE TO BE IN ACCORDANCE WITH CITY OF F.B. AND NASSAU COUNTY STANDARDS.

WATER NOTES

1. ALL WATER & SEWER CONSTRUCTION SHALL BE ACCOMPLISHED BY AN UNDERGROUND UTILITY CONTRACTOR LICENSED UNDER THE PROVISIONS OF CHAPTER 489 FLORIDA STATUTES.

2. WHEN DEWATERING CAPACITY REQUIRES A PERMIT (CUP), IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO OBTAIN THE PERMIT THROUGH THE ST. JOHNS RIVER WATER MANAGEMENT DISTRICT.

3. WATER MAINS CROSSING SANITARY HAZARDS SHALL BE LAID TO PROVIDE A MINIMUM VERTICAL DISTANCE OF 18 INCHES BETWEEN THE OUTSIDE OF THE WATER MAIN AND THE OUTSIDE OF THE SEWER MAIN. WHERE WATER AND SEWER MAINS CROSS WITH BETWEEN 18 INCHES AND 6 INCHES OF VERTICAL CLEARANCE, A 20 FOOT SECTION OF C900 (DR18) WATER QUALITY PIPE SHALL BE CENTERED ON THE POINT OF THE CROSSING. THE CONTRACTOR SHALL FIELD VERIFY THE VERTICAL SEPARATION. THE MINIMUM SEPARATION BETWEEN WATER AND SEWER PIPES IS TO BE 6 INCHES OUTSIDE DIAMETER TO OUTSIDE DIAMETER.

4. ALL PIPE LENGTHS ARE APPROXIMATE DIMENSIONS, ALL DRAINAGE STRUCTURES SHALL BE CONSTRUCTED TO CONFORM WITH TYPICAL SECTIONS AND DETAILS AS SHOWN ON THE MISCELLANEOUS DETAILS SHEET AND IN ACCORDANCE WITH THE SPECIFICATIONS.

5. ALL UNDERGROUND UTILITIES MUST BE INSTALLED PRIOR TO PREPARATION OF SUBGRADE FOR PAVEMENT.

6. CONTACT ANDRE DESILET, CITY OF FERNANDINA BEACH UTILITY DIRECTOR, AT 904-310-3431 PRIOR TO ANY UTILITY TIE-IN.

FIRE NOTES

1. WHERE UNDERGROUND WATER MAINS AND HYDRANTS ARE TO BE PROVIDED, THEY SHALL BE INSTALLED, COMPLETED, AND IN SERVICE PRIOR TO COMMENCING CONSTRUCTION WORK ON ANY STRUCTURE. (NFPA 1, 16.4.3.1.3, 2009 EDITION)

2. HYDRANTS SHALL HAVE CLEARANCES OF SEVEN AND ONE HALF FEET (7 FT-6 IN.) IN FRONT OF AND TO THE SIDES OF THE FIRE HYDRANT, WITH A FOUR FOOT CLEARANCE TO THE REAR OF THE HYDRANT. (NFPA 1, 18.3.4.1, 2009)

3. NEW FIRE HYDRANT(S) SHALL BE INSTALLED NOT MORE THAN 7 FEET 6 INCHES AWAY FROM CURB OR BERM OF THE ROADWAY.

B

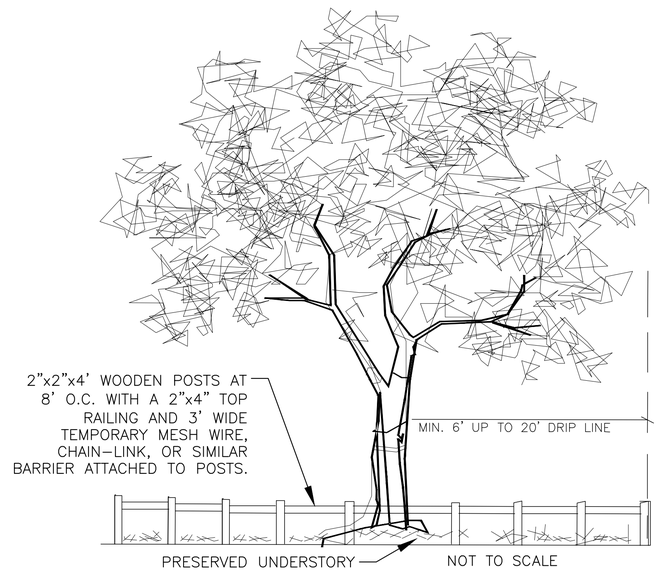
BARRIER TO BE PLACED AROUND TREE SHALL BE PLACED AROUND TREE PROTECTION ZONE AND BE CONSISTENT WITH SPECIFICATIONS DEFINED IN SECTION 4.05.14(E) OF THE CITY OF FERNANDINA BEACH LAND DEVELOPMENT CODE.



UNLESS NOTED OTHERWISE, THE TREE PROTECTION ZONE IS AT MINIMUM A CIRCULAR ZONE AROUND THE TREE TRUNK OF A RADIUS:

1) 6 FEET, IF THE DRIP LINE OF THE TREE IS LESS THAN 6 FEET FROM THE TRUNK OF THE TREE.

2) 6–20 FEET ENCOMPASSING THE FULL DRIP LINE OF THE TREE, IF THE DRIP LINE OF THE TREE IS BETWEEN 6 AND 20 FEET FROM THE TRUNK OF THE TREE.

3) 20 FEET, IF THE DRIP LINE OF THE TREE IS GREATER THAN 20 FEET FROM THE TRUNK OF THE TREE. 3" MULCH LAYER SHALL BE APPLIED TO THE REMAINING AREA BETWEEN THE TREE PROTECTION ZONE AND DRIP LINE.

ALL DEVELOPMENT ACTIVITIES, EXCEPT THOSE SPECIFICALLY PERMITTED BY SECTION 4.05.14(F)(4) OF THE CITY OF FERNANDINA BEACH LAND DEVELOPMENT CODE, SHALL BE PROHIBITED WITHIN THE TREE PROTECTION ZONE, INCLUDING ANY CONSTRUCTION OF BUILDINGS, STRUCTURES, PAVING SURFACES, STORMWATER RETENTION OR DETENTION PONDS, AND TEMPORARY CONSTRUCTION ACTIVITIES, INCLUDING ALL DIGGING, STORAGE OF CONSTRUCTION MATERIAL, AND PARKING OF CONSTRUCTION VEHICLES.

ACCEPTABLE FILL MATERIALS: STORMTECH SC-160LP CHAMBER SYSTEMS

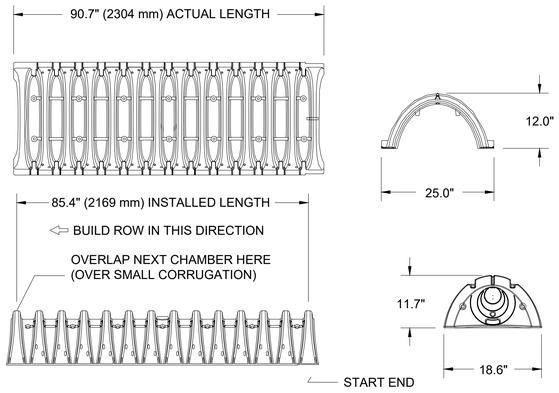
	MATERIAL LOCATION	DESCRIPTION	AASHTO MATERIAL CLASSIFICATIONS	COMPACTION / DENSITY REQUIREMENT
D	**FINAL FILL:** FILL MATERIAL FOR LAYER 'D' STARTS FROM THE TOP OF THE 'C' LAYER TO THE BOTTOM OF FLEXIBLE PAVEMENT OR UNPAVED FINISHED GRADE ABOVE. NOTE THAT PAVEMENT SUBBASE MAY BE PART OF THE 'D' LAYER	ANY SOIL/ROCK MATERIALS, NATIVE SOILS, OR PER ENGINEER'S PLANS. CHECK PLANS FOR PAVEMENT SUBGRADE REQUIREMENTS. (PAVER SYSTEM)	N/A	PREPARE PER SITE DESIGN ENGINEER'S PLANS. PAVED INSTALLATIONS MAY HAVE STRINGENT MATERIAL AND PREPARATION REQUIREMENTS.
C	**INITIAL FILL:** FILL MATERIAL FOR LAYER 'C' STARTS FROM THE TOP OF THE EMBEDMENT STONE ('B' LAYER) TO 18" (450 mm) ABOVE THE TOP OF THE CHAMBER. NOTE THAT PAVEMENT SUBBASE MAY BE A PART OF THE 'C' LAYER.	GRANULAR WELL-GRADED SOIL/AGGREGATE MIXTURES, <35% FINES OR PROCESSED AGGREGATE. MOST PAVEMENT SUBBASE MATERIALS CAN BE USED IN LIEU OF THIS LAYER. UTILIZE 6" LIMEROCK	AASHTO M145[1] A-1, A-2-4, A-3 OR AASHTO M43[1] 3, 357, 4, 467, 5, 56, 57, 6, 67, 68, 7, 78, 8, 89, 9, 10	BEGIN COMPACTIONS AFTER 12" (300 mm) OF MATERIAL OVER THE CHAMBERS IS REACHED. COMPACT ADDITIONAL LAYERS IN 6" (150 mm) MAX LIFTS TO A MIN. 95% PROCTOR DENSITY FOR WELL GRADED MATERIAL AND 95% RELATIVE DENSITY FOR PROCESSED AGGREGATE MATERIALS. ROLLER GROSS VEHICLE WEIGHT NOT TO EXCEED 12,000 lbs (53 kN). DYNAMIC FORCE NOT TO EXCEED 20,000 lbs (89 kN).
B	**EMBEDMENT STONE:** FILL SURROUNDING THE CHAMBERS FROM THE FOUNDATION STONE ('A' LAYER) TO THE 'C' LAYER ABOVE.	CLEAN, CRUSHED, ANGULAR STONE	AASHTO M43[1] 3, 357, 4, 467, 5, 56, 57	NO COMPACTION REQUIRED.
A	**FOUNDATION STONE:** FILL BELOW CHAMBERS FROM THE SUBGRADE UP TO THE FOOT (BOTTOM) OF THE CHAMBER.	CLEAN, CRUSHED, ANGULAR STONE	AASHTO M43[1] 3, 357, 4, 467, 5, 56, 57	PLATE COMPACT OR ROLL TO ACHIEVE A FLAT SURFACE.[2,3]

PLEASE NOTE:
1. THE LISTED AASHTO DESIGNATIONS ARE FOR GRADATIONS ONLY. THE STONE MUST ALSO BE CLEAN, CRUSHED, ANGULAR. FOR EXAMPLE, A SPECIFICATION FOR #4 STONE WOULD STATE: "CLEAN, CRUSHED, ANGULAR NO. 4 (AASHTO M43) STONE".
2. STORMTECH COMPACTION REQUIREMENTS ARE MET FOR 'A' LOCATION MATERIALS WHEN PLACED AND COMPACTED IN 6" (150 mm) (MAX) LIFTS USING TWO FULL COVERAGES WITH A VIBRATORY COMPACTOR.
3. WHERE INFILTRATION SURFACES MAY BE COMPROMISED BY COMPACTION, FOR STANDARD DESIGN LOAD CONDITIONS, A FLAT SURFACE MAY BE ACHIEVED BY RAKING OR DRAGGING WITHOUT COMPACTION EQUIPMENT. FOR SPECIAL LOAD DESIGNS, CONTACT STORMTECH FOR COMPACTION REQUIREMENTS.

INFILTRATION GALLERY CROSS SECTION

NOTES:

1.SC-160LP CHAMBERS SHALL CONFORM TO THE REQUIREMENTS OF ASTM F2418 "STANDARD SPECIFICATION FOR POLYPROPYLENE (PP) CORRUGATED WALL STORMWATER COLLECTION CHAMBERS", OR ASTM F2922 "STANDARD SPECIFICATION FOR POLYETHYLENE (PE) CORRUGATED WALL STORMWATER COLLECTION CHAMBERS".



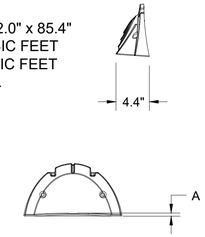
2.SC-160LP CHAMBERS SHALL BE DESIGNED IN ACCORDANCE WITH ASTM F2787 "STANDARD PRACTICE FOR STRUCTURAL DESIGN OF THERMOPLASTIC CORRUGATED WALL STORMWATER COLLECTION CHAMBERS".

3."ACCEPTABLE FILL MATERIALS" TABLE ABOVE PROVIDES MATERIAL LOCATIONS, DESCRIPTIONS, GRADATIONS, AND COMPACTION REQUIREMENTS FOR FOUNDATION, EMBEDMENT, AND FILL MATERIALS.

4.THE SITE DESIGN ENGINEER IS RESPONSIBLE FOR ASSESSING THE BEARING RESISTANCE (ALLOWABLE BEARING CAPACITY) OF THE SUBGRADE SOILS AND THE DEPTH OF FOUNDATION STONE WITH CONSIDERATION FOR THE RANGE OF EXPECTED SOIL MOISTURE CONDITIONS.

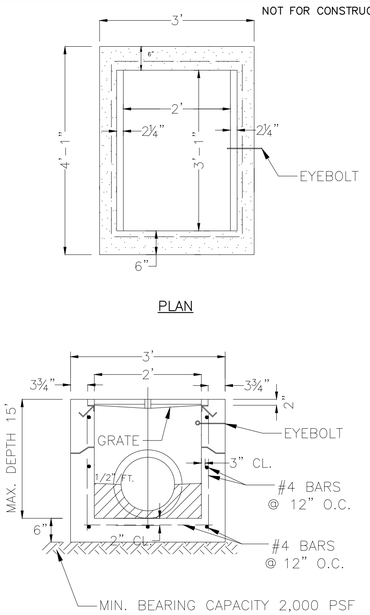
5.PERIMETER STONE MUST BE EXTENDED HORIZONTALLY TO THE EXCAVATION WALL FOR BOTH VERTICAL AND SLOPED EXCAVATION WALLS.

6.ONCE LAYER 'C' IS PLACED, ANY SOIL/MATERIAL CAN BE PLACED IN LAYER 'D' UP TO THE FINISHED GRADE. MOST PAVEMENT SUBBASE SOILS CAN BE USED TO REPLACE THE MATERIAL REQUIREMENTS OF LAYER 'C' OR 'D' AT THE SITE DESIGN ENGINEER'S DISCRETION.



NOMINAL CHAMBER SPECIFICATIONS

SIZE (W x H x INSTALLED LENGTH) :	25.0" x 12.0" x 85.4"
CHAMBER STORAGE:	6.85 CUBIC FEET
MINIMUM INSTALLED STORAGE:	16.0 CUBIC FEET
WEIGHT:	24.0 LBS.



PART #	STUB	A
SC160IEPP08	8"	0.96"

ALL STUBS ARE PLACED AT BOTTOM OF END CAP SUCH THAT THE OUTSIDE DIAMETER OF THE STUB IS FLUSH WITH THE BOTTOM OF THE END CAP. FOR ADDITIONAL INFORMATION CONTACT STORMTECH AT 1-888-892-2694.

NOTE: ALL DIMENSIONS ARE NOMINAL

FROM: Tammi E. Bach, City Attorney

DATE: February 14, 2023

RE: Application for Preliminary Plat (known as "Tringali Property")
Parcel Nos: 000031180000120150; 000031180000120100; 000031180000120050; 000031180000120210; and 000031180000120190

I have reviewed application materials, engineered plans, emails and agent authorizations submitted for the preliminary plat application for the above-referenced parcel identification numbers in the City of Fernandina Beach. I have concluded that this application is incomplete due to: 1) For parcel ID# 000031180000120150, the absence of a notarized statement authorizing a representative to act as an agent of the property owner (Josephine Tringali) with regard to a preliminary plat application (*see* Section 11.01.03(A)(4) of the Land Development Code), and 2) For parcel ID#'s 000031180000120100, 000031180000120050, 000031180000120210 and 000031180000120190, absence of notarized statement(s) of property owner(s) [Anthony J. Tringali Revocable Trust (the "Trust") dated March 27, 2017 and successor trustees].

All of the parcel ID numbers referenced in this memorandum are included in the preliminary plat application and site plan submitted first to the City of Fernandina Beach Planning and Conservation Department in August 2022. These parcels include the parcel owned by Josephine Tringali (ID# 000031180000120150). The Technical Review Committee did not approve the site plan or preliminary plat in September 2022 but provided comments to Gillette & Associates who provided engineering guidance on the project for the property owners. No development order has been issued by the City for the above-referenced parcels. The City's Planning and Conservation Department had received a notarized statement showing Gillette & Associates as the agent in September 2022. The Planning Advisory Board considered the preliminary plat application on December 14, 2022 and recommended denial to the City Commission. In January 2023, as the City staff and Compass Group, Inc. (representing to staff that they were now the agent for property owners) prepared for the City Commission to hear the preliminary plat application on February 7, 2023, I requested that Compass Group, Inc. provide the City with some proof that the Trustee of the Trust indeed had authority to bind the property owner(s) before the City Commission heard the preliminary plat application request. Up to the 6:00PM start time for the City Commission regular meeting on February 7, 2023, I waited with Mr. Ron Flick for the presumed last notarized statement authorizing Mr. Flick and Compass Group to represent the property owners in front of the City Commission for presentation of evidence and testimony under oath in the quasi-judicial hearing. This presumed last notarized statement needed for the hearing to proceed was not received. I explained to Mayor Bradley Bean that this preliminary plat could not be heard by the City Commission without all property owner(s) providing notarized

statements authorizing Compass Group, Inc. to represent their interests at this hearing. The applicant did not provide any written notice of withdrawal of the application for preliminary plat. I suggested that the preliminary plat be "pulled" from the agenda or otherwise not heard by the City Commission because of the lack of agent authorizations. Therefore, it is my opinion that the preliminary plat application is incomplete in accordance with Section 11.01.03 of the Land Development Code ("LDC"). It is further my opinion that the recommendation made by the Planning Advisory Board on December 14, 2022 is null and void because it was based on an incomplete preliminary plat application without sufficient agent authorizations from the property owners. *See* Section 11.01.03(A)(4) LDC.

Pursuant to Section 11.03.01(A)(3) of the LDC, the applicant will have 30 days from the date of this memorandum (delivered via email to addressees above), until March 17, 2023, to provide a complete application for preliminary plat including notarized agent authorizations sufficient to prove that Josephine Tringali and the Trust, as property owners, have authorized Compass Group, Inc. or another agent to present a complete and sufficient preliminary plat application to the City's Planning and Conservation Department to be considered by the Technical Review Committee and Planning Advisory Board. If the City does not receive a complete and sufficient preliminary plat application by March 17, 2023, the application will be deemed withdrawn and would have to be submitted with a new application fee to the Planning and Conservation Department. *See* Section 11.03.01(A)(4) of the LDC. A "withdrawn" application under 11.03.01(A)(4) of the LDC does not have the same meaning as "withdrawn" under Section 11.03.06 of the LDC. Put simply, if a complete and sufficient application is not submitted on or before March 17, 2023 for preliminary plat, it can be submitted at any time in the future with the payment of a new application fee and new process starting as of the date of submittal.

*******All documents referred to in this memorandum including application, agent authorizations, emails, plans, etc. are public records and available for copying and inspection by contacting the Planning and Conservation Department, City Clerk's Office or City Attorney's Office.***

APPROVED

MINUTES - AMENDED
PLANNING ADVISORY BOARD
REGULAR MEETING
DECEMBER 14, 2022
5:00 PM
CITY HALL COMMISSION CHAMBERS

1. CALL TO ORDER 5:00 PM

ROLL CALL / DETERMINATION OF QUORUM
MEMBERS PRESENT:

Victoria Robas (Chair)	Peter Stevenson
Barbara Gingher (Departed 6:27)	John Boylan
Richard Doster	

MEMBERS ABSENT:
Mark Bennett

OTHERS PRESENT:

Kelly Gibson, Planning & Conservation Director	Tammi Bach, City Attorney
Daphne Forehand, City Planner	Sylvie McCann, Recording Secretary

2. PLEDGE OF ALLEGIANCE

3. APPROVAL OF MEETING MINUTES

3.1 Approval of Minutes from the Regular Meeting of October 12, 2022.

Member Stevenson noted an error on Page 2, item 3.1 to correct his name to Stevenson instead of Peterson. Chair Robas asked that in the Public Hearing section, Mr. Stauffer's address be corrected for consistency.

ACTION TAKEN: A motion was made by Member Stevenson, seconded by Member Boylan approve the Minutes with the noted amendments.

Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.

4. OLD BUSINESS

No old business was presented.

Chair Robas addressed the audience and spoke of the resurgence of Covid19, the resignation of Vice-Chair Minshew, and that Member Gingher will depart the meeting at 6:30 p.m. Chair Robas noted her appreciation for the audience's participation in providing a voice to the Board and emphasized the PAB members' volunteer role. Lastly, she corrected the date of the next PAB meeting date which should be January 11, 2023.

5. NEW BUSINESS

5.1 **PAB 2022-0026 - PRELIMINARY PLAT** - FOR PROPERTIES LOCATED AT 124 SOUTH 3RD STREET, 119 SOUTH 4TH STREET, 123 SOUTH 4TH STREET + 125 SOUTH 4TH STREET FOR A 12-LOT TOWNHOME DEVELOPMENT.

Ms. Gibson presented the case with a short introductory summary of her professional experience with the City. She then presented the case and recommended approval.

Tammi Bach, City attorney, explained her supporting role to the Board.

Ron Flick, 961687 Gateway Blvd, was present along with Asa Gillette, Engineer, agent for the Tringali Family and Trust, and welcomed any questions.

Michael Spino, Chair of the Historic District Council, he also noted that James Pozzetta, architect was also present. He asked that the Board take all of the appropriate step to save the property located at 124 S. 3rd Street. He also spoke of the history behind the Tringali house. He suggested that should the City Commission decide to approve this request, a list of recommendations should be attached to the approval. He listed such recommendation as follow: photographic documentation of the building before demolition, harmonious design with scale and elevation of neighboring community, fill to be minimize to be in keeping of the character of the neighborhood, foundation is off grade frame or simulated off grade frame construction, porch to be located in the front of house, designed in scale and proportion that related to the character of the neighborhood, that the applicants work closely with the Preservation Planner, and finally he addressed view corridor and tree planting in order to establish a canopy.

Public Hearing was opened.

Len Kreger, 1313 Hickory Street, current Vice-Mayor, spoke about this request should be moved to the Board of Adjustment since he believes that this current request is not compliant with the Comprehensive Plan.

Robert Erickson, 30 S. 3rd Street, voiced support for the request. He explained his position.

Joan Corey, 408 Beech Street, spoke about the location of utilities according to the LDC requirements. She also spoke of the proposed width of lots and the LDC requirements.

Taina Christner, 406 Beech Street, spoke against this request and that it should be presented to the Board of Adjustment, not to the Planning Advisory Board. Ms. Christner read the portion of LDC addressing that code. She then spoke of the lot width in LDC and emphasized on the character of the neighborhood.

David Colson 111 S. 4th Street, spoke against this request. He also mentioned that he agreed with comments from Ms. Christner. He voiced concerned about the flow of water and the character of the neighborhood.

Grace Cascone, 116 S. 4th Street, spoke against the request and about the water flow and drainage.

Joyce Tuten, 2120 Beech Street, spoke against the request and agreed with previous comments. She spoke of the LDC sections 1.03.05 and 1.03.03 regarding lots of record. She spoke of flood risk.

John Clare and Christine Shub, 901 Atlantic Avenue, spoke of flood risk and drainage.

Kim Wolford, 1315 Broome, thanked the Board for their service and poke against the request. She noted that having been a resident in multiple historic districts across the U.S and having seen this scenario many times with a negative outcome. She also mentioned that the developers' records and violations of the LDC.

Julie Ferreira, 501 Date Street, spoke against the project, and asked the Board why LDC Section 1.03.05 was not provided to the Board within the agenda packet. She also mentioned that this project, if approved, could have a domino effect and setting a precedent.

Eugenia Manderfield, 708 N. 15th Street, spoke against the project, and that there is a need to reinforce our Land Development Code.

Jack Imber 1003 Broome Street, spoke against the project, spoke about the environmental impact summary or lack thereof.

At this time, 6:27 PM, Member Gingher departed.

Mary Colson, 111 S. 4th Street, spoke against the project, and spoke of the built pattern and density.

Chair Robas read a letter dated November 26, 2022, from Marian Phillips, resident of the City at 724 S. 6th Street.

Public Hearing was closed.

Chair Robas called a 10-minute pause at 6:33 PM and reconvened at 6:45 PM.

Chair Robas provided her comments regarding the request and spoke of the LDC and Comprehensive Plan sections addressing some issues with the Staff Report regarding lots of records and noted that she found that there are, by definition, only 5 building lots of records. She then noted that in her opinion, this request should be sent to the Board of Adjustment in order to acquire a variance to secure the release of all lots.

Member Doster asked Ms. Bach how applications have been considered in the past regarding LDC Section 1.03.05. He then asked Mr. Flick his insight regarding Chair Spino's comments. Mr. Flick offered clarification regarding design and drainage and water flow. Member Doster then said that he would not be in favor of this project because of not really knowing what would be built and its impact on the character of the neighborhood.

Member Stevenson spoke of one of the Vision statements regarding the Preservation of Character.

Chair Robas asked Staff why the applicant did not submit a request to the Board of Adjustment instead of the Planning Advisory Board. Ms. Gibson explained. Chair Robas reiterated her doubt about this request not going to the BOA for a variance first.

Member Boylan voiced his agreement with comments from other members.

ACTION TAKEN: A motion was made by Member Stevenson, seconded by Member Boylan to recommend denial of PAB case 2022-0026 to the City Commission; AND that PAB case 2022-0026 as presented is not sufficiently compliant with the Comprehensive Plan and Land Development Code and applicable Florida Statutes to be approved at this time, and that it is recommended that PAB case 2022-0026 be referred to the Board of Adjustment (BOA).

Vote upon passage of the motion was taken by voice vote, and being all ayes, carried.

MINUTES
PLANNING ADVISORY BOARD
REGULAR MEETING APRIL 12, 2023
5:00 PM
CITY HALL COMMISSION CHAMBERS

1. CALL TO ORDER / ROLL CALL / DETERMINATION OF QUORUM

MEMBERS PRESENT:

Victoria Robas (Chair)
John Boylan
Barbara Gingher
Nick Gillette
Peter Stevenson (Vice-Chair)
Mark Bennett
Richard Doster

MEMBERS ABSENT:
None

OTHERS PRESENT:
Kelly Gibson, Planning & Conservation Deputy Director
Tammi Bach, City Attorney
Taylor Hartmann, Recording Secretary

2. PLEDGE OF ALLEGIANCE

3. APPROVAL OF MEETING MINUTES

3.1 Approval of Minutes from the Regular Meeting of March 8, 2023.

ACTION TAKEN: A motion was made by Member Stevenson seconded by Member Gingher to approve PAB Minutes from March 8th, 2023, as presented.

Vote upon passage of the motion was taken by voice vote, and being all ayes, carried.

Chair Robas proposed a change in the order of the cases by reviewing item 5.4 as the second item of the New Business.

4. OLD BUSINESS

4.1 PAB 2022-0026 - PRELIMINARY PLAT/REPLAT - TRINGALI PROPERTIES
FOR PROPERTIES LOCATED AT 119, 123, & 125 S. 4TH STREET + 124 S 3RD STREET + LOTS 10-14 Block 12 S 3RD STREET TO CREATE A 12-LOT TOWNHOME DEVELOPMENT

Member Bennett asked why this case is being heard a second time. Ms. Bach explained that the case is being presented a second time because the original application was deemed incomplete. Chair Robas asked for the City Commission to issue a ruling with clear direction on the ability to hear this case again and if LDC Section 1.03.05(C) really applies to this case.

Ms. Gibson clarified that this case would move to the City Commission as a quasi-judicial hearing, with the PAB approved recommendation of Denial from the PAB during its December 2022 regular meeting and direction on future application.

Public Hearing was opened and then closed with no parties wishing to speak.

ACTION TAKEN: After some Board discussion, Chair Robas stated that the Board's December 2022 recommendation of Denial the City Commission stands.

5. NEW BUSINESS

5.1 PAB 2023-0038 - CITY OF FERNANDINA BEACH, VACATION OF RIGHT OF WAY FOR POMPANO ST

VACATION OF AN APPROXIMATELY 142 FEET BY 50 FEET SECTION OF UNIMPROVED POMPANO STREET TO IMPROVE AND EXPAND THE EXISTING SKATE PARK AT MAIN BEACH

Chair Robas asked if the discussion could also include the Dolphin Avenue right-of-way located north of the parcel in the current case. Ms. Bach explained that it is best to wait for Staff to perform a staff report analysis before the Board makes a decision on a different property as this is a very specific process.

Catherine Vorrasi, Park & Recreation Director, explained the reason behind the request, the reason being the support of a possible expansion of the skate park with the help of fundraising scheduled events.

Ms. Forehand presented the case and recommended approval.

Chair Robas asked if a preliminary plan of the expansion was available. Ms. Forehand noted that there were no plans yet but Ms. Vorrasi indicated where the expansion would take place on the map.

Member Stevenson asked about the possibility to assess discussion about Dolphin Avenue.

Catherine Vorrasi, Parks & Recreation Director, commented that to her knowledge no request to consider vacation of the Dolphin right-of-way has recently presented or discussed.

ACTION TAKEN: A motion was made by Member Gillette seconded by Member Doster to recommend approval of PAB case 2023-0038 to the City Commission as per the Staff recommendation; AND that PAB case 2023-0038 as presented is sufficiently compliant with the Comprehensive Plan and Land Development Code and applicable Florida Statutes to be approved at this time.

Vote upon passage of the motion was taken by Ayes and Nays, and being as follows:

Member Boylan	**Aye**
Member Bennett	**Aye**
Member Doster	**Aye**
Member Gingher	**Aye**
Member Gillette	**Aye**
Vice-Chair Stevenson	**Nay**
Chair Robas	**Aye**

Motion carried.

At this point Case 5.4 PAB 2023-0040 was presented first.

5.2 PAB CASE 2023-0041 - COMPREHENSIVE PLAN TEXT AMENDMENTS -

TO SUPPORT COMMERCIAL DEVELOPMENT AND REDEVELOPMENT OPPORTUNITIES TO ALLOW REASONABLE REINVESTMENT IN EXISTING COMMERCIAL PROPERTIES BY SPECIFICALLY MODIFING THE FUTURE LAND USE ELEMENT POLICY 1.08.05 (STANDARDS FOR DESTINATION ACTIVITY CENTERS OR CONVERSION OF EXISTING CONVENTIONAL SUBURBAN SHOPPING CENTERS) AND MODIFYING OR STRIKING THE MULTIMODAL TRANSPORTATION ELEMENT POLICIES 2.13.06 (REQUIRED PLACEMENT

OF PARKING), 2.13.08 (VISUAL SCREENING OF PARKING), 2.13.11 (REQUIREMENTS FOR PERVIOUS PARKING MATERIALS).

Ms. Gibson presented PAB case 2023-0041 and 2023-0039 contiguously and explained the amendments to all policies and LDC code sections, and recommended approval.

ACTION TAKEN: A motion was made by Member Gillette, seconded by Member Bennett to recommend approval of PAB case 2023-0041 Comprehensive Plan Text Amendments to the City Commission; AND that PAB case 2023-0041 as presented is sufficiently compliant with the Comprehensive Plan and Land Development Code and applicable Florida Statutes to be approved at this time.

Vote upon passage of the motion was taken by Ayes and Nays, and being all ayes, carried.

5.3 PAB CASE 2023-0039 - LAND DEVELOPMENT CODE TEXT AMENDMENTS - TO SUPPORT COMMERCIAL DEVELOPMENT AND REDEVELOPMENT OPPORTUNITIES TO ALLOW REASONABLE REINVESTMENT IN EXISTING COMMERCIAL PROPERTIES BY SPECIFICALLY ADDING DEFINITIONS IN SECTION 1.07.00 (ACRONYMS AND DEFINITIONS) FOR ADAPTIVE REUSE, DEVELOPMENT AND DEVELOPMENT ACTIVITY, INFILL DEVELOPMENT, REDEVELOPMENT, AND GREENFIELD DEVELOPMENT, TO AMEND SECTION 6.04.01 STANDARDS FOR LARGE SCALE COMMERCIAL DEVELOPMENT SPECIFICALLY CHANGING POLICIES FOR MAXIMUM GROSS FLOOR AREA, CREATING ALLOWANCE FOR EXPANSION OF NON-CONFORMING STRUCTURES, PARKING MATERIALS, LOADING DOCKS, TO AMEND SECTION 7.01.04(C)(2) PARKING LOT DESIGN REQUIREMENTS, PARKING MATERIALS; TO AMEND SECTION 7.01.06 LOADING SPACE STANDARDS AND DESIGN TO ADD CRITERIA FOR REDEVELOPMENT PROJECTS, MODIFYING SECTION 10.01.02 TO ALLOW REASONABLE EXPANSION OF NON- CONFORMING COMMERCIAL DEVELOPMENT.

Ms. Gibson presented PAB case 2023-0041 and 2023-0039 contiguously, explained the amendments to all policy, and LDC code sections and recommended approval.

Member Gillette asked about Section 1.07.00. Ms. Gibson expanded on the adaptive reuse definition and redevelopment definition.

Vice-Chair Stevenson asked about LDC Chapter 7 and asked who sets parking requirements. Ms. Gibson noted that these are set locally. Members discussed the impact of these amendments on parking expansion requirements for adaptive reuse and their redesign.

Asa Gillette, Gillette & Associates, 24 S. 2nd Street, spoke about his experience dealing with pervious material and the cost of the improvement while not really creating a positive change to the percolating aspect, especially with re-designing of parking lots. With members discussing parking issues further, Ms. Gibson suggested that Parking Standards could be addressed at a later date, with the last parking standards review having been done back in 2011.

Ms. Gibson explained that the Board would vote on both the LDC and Comprehensive Plan mirrored components which would be presented to the City Commission for consideration for 1st Reading. Upon approval, the Comprehensive Plan amendments would be routed to the State for approval, and once approved by the State routed back to the City Commission for 2nd Reading.

Chair Robas asked how we currently meet the impervious requirements. Ms. Gibson provided the information.

Public Hearing was opened.

Julie Ferreira, 501 Date Street, spoke of needed visual in regard to size of structures vs its requirements for parking. She also spoke of vegetative berms and loading docks distance to residential areas.

Betsie Huben, 4615 Philip Manor Place, also spoke of needing visual and of pervious material requirements.

Janet Ancrun, 1901 Island Walk Way, spoke on behalf of Council on Aging, and inquired about the impact of an approval of these changes regarding their upcoming pavilion project.

Tim Everley, 1901 Island Walk Way, spoke on behalf of the Council on Aging, also spoke of the impact of these changes on their upcoming project.

Member Gillette spoke of the current punitive pervious code for redevelopment.

Ms. Bach offered the Board members a different perspective by separating the different types of development and spoke of 3 categories: adaptive reuse, redevelopment and new development.

Kim Wolford, 1315 Broome Street, spoke of the purpose of making this change.

Mike Hertzberg, 1 Sleiman Parkway, Jacksonville, spoke of existing commercial development maintenance and the restrictive requirements for re-development.

Chair Robas inquired about the possibility for a tenant to double their footprint by acquiring an adjacent space and then exceeding the maximum square footage. Some Member opined that 60,000 sqft should be the maximum allowed footprint vs the proposed 55,000 sqft.

Jack Imber, 1003 Broome Street asked about the impact of this change on the Waterfront Development and opined that these code changes are premature considering the current economy.

Chair Robas voiced concern regarding the loading docks and the impact of noise close to a residential area. Ms. Gibson explained the current requirements of 40 feet to a property line.

Julie Ferreira, 501 Date Street, spoke of the Board's decision impacting the future.

At this point, the Board moved to item 6.

ACTION TAKEN: A motion was made by Member Gillette, seconded by Member Bennett to recommend approval of PAB case 2023-0039 Land Development Code Text Amendments to the City Commission; AND that PAB case 2023-0039 as presented is sufficiently compliant with the Comprehensive Plan and Land Development Code and applicable Florida Statutes to be approved at this time.

Vote upon passage of the motion was taken by Ayes and Nays, and being all ayes, carried.

5.4 PAB CASE 2023-0040 - LAND DEVELOPMENT CODE TEXT AMENDMENTS - TO MODIFY 10.02.02 (A) REQUIRED FINDINGS FOR GRANT OF A VARIANCE TO REMOVE THE CRITERIA FOR SPECIAL PRIVILEGE AND TO ALLOW A VARIANCE TO BE APPROVED WITH A SUPERMAJORITY OF THE CRITERIA BEING MET.

This case was presented after item 5.1.

Chair Robas suggested that this case be continued to the June 14, 2023 meeting so this topic can be discussed during a Joint Meeting on April 27, 2023 with all of the PAB, HDC and BOA members.

ACTION TAKEN: A motion was made by Member Stevenson seconded by Member Bennett to continue the PAB case 2023-0040 to the PAB regular meeting of June 14th, 2023.

Vote upon passage of the motion was taken by Ayes and Nays, and being all ayes, carried.

At this point Item 5.2 case PAB 2023-0041 was presented.

6. BOARD BUSINESS

6.1 Reminder of HDC/PAB Joint Special Meeting on Wednesday, April 26, 2023 at 5pm.

Chair Robas suggested that the PAB meet with the BOA in a Joint Meeting to discuss item PAB case 2023-0040, possibly May 17th or May 24th at 5:00 p.m. at the Chambers.

7. STAFF REPORT

8. PUBLIC COMMENT

Joan Corey, 408 Beech Street, asked about the Tringali property. It was explained that the Board's recommendation from December 2022 stands and is moved to the CC commission for consideration at their regular meeting of May 16th, 2023.

Tina Christner, 406 Beech Street, spoke of the trust between government and citizens regarding the change to the variance criteria.

Ms. Bach clarified that the change request for PAB case 2023-0040 regarding the removal of a variance criteria was initiated from the Board of Adjustment, not by Staff.

Ms. Gibson also clarified that all the Land Development Case Text amendments synopsis were available through each staff report and throughout the materials within the agenda packet.

Len Kreger, 1313 Hickory Street, emphasized the super majority change was important.

9. ADJOURNMENT 7:10 PM

Sylvie McCann, Recording Secretary Victoria Robas, Chair

NOTICE OF PUBLIC HEARING
PLANNING ADVISORY BOARD
CITY OF FERNANDINA BEACH

NOTICE IS HEREBY GIVEN that a Public Hearing is scheduled for **Wednesday, April 12, 2023, at 5:00 p.m.** in the City Commission Chambers, 204 Ash Street Fernandina Beach, Florida to consider the following:

VACATION OF RIGHT OF WAY (ROW)

PAB CASE 2023-0038: ***CITY OF FERNANDINA BEACH*** REQUESTS A VACATION OF ROW FOR APPROXIMATELY 142 FT BY 50 FT SECTION OF UNIMPROVED POMPANO STREET.

LAND DEVELOPMENT CODE TEXT AMENDMENT

PAB CASE 2023-0039: ***CITY OF FERNANDINA BEACH*** REQUESTS LAND DEVELOPMENT CODE TEXT AMENDMENTS TO SUPPORT COMMERCIAL DEVELOPMENT AND REDEVELOPMENT OPPORTUNITIES TO ALLOW REASONABLE REINVESTMENT IN EXISTING COMMERCIAL PROPERTIES BY SPECIFICALLY ADDING DEFINITIONS IN SECTION 1.07.00 (ACRONYMS AND DEFINITIONS) FOR ADAPTIVE REUSE, DEVELOPMENT AND DEVELOPMENT ACTIVITY, INFILL DEVELOPMENT, REDEVELOPMENT, AND GREENFIELD DEVELOPMENT, TO AMEND SECTION 6.04.01 STANDARDS FOR LARGE SCALE COMMERCIAL DEVELOPMENT SPECIFICALLY CHANGING POLICIES FOR MAXIMUM GROSS FLOOR AREA, CREATING ALLOWANCE FOR EXPANSION OF NON-CONFORMING STRUCTURES, PARKING MATERIALS, LOADING DOCKS, TO AMEND SECTION 7.01.04(C)(2) PARKING LOT DESIGN REQUIREMENTS, PARKING MATERIALS; TO AMEND SECTION 7.01.06 LOADING SPACE STANDARDS AND DESIGN TO ADD CRITERIA FOR REDEVELOPMENT PROJECTS, MODIFYING SECTION 10.01.02 TO ALLOW REASONABLE EXPANSION OF NON-CONFORMING COMMERCIAL DEVELOPMENT.

LAND DEVELOPMENT CODE TEXT AMENDMENT

PAB CASE 2023-0040: ***CITY OF FERNANDINA BEACH*** REQUESTS LAND DEVELOPMENT CODE TEXT AMENDMENTS TO MODIFY 10.02.02(A) REQUIRED FINDINGS FOR GRANT OF A VARIANCE TO REMOVE THE CRITERIA FOR SPECIAL PRIVILEGE AND TO ALLOW A VARIANCE TO BE APPROVED WITH A SUPERMAJORITY OF THE CRITERIA BEING MET.

COMPREHENSIVE PLAN TEXT AMENDMENT

PAB CASE 2023-0041: ***CITY OF FERNANDINA BEACH*** REQUESTS COMPREHENSIVE PLAN TEXT AMENDMENTS TO SUPPORT COMMERCIAL DEVELOPMENT AND REDEVELOPMENT OPPORTUNITIES TO ALLOW REASONABLE REINVESTMENT IN EXISTING COMMERCIAL PROPERTIES BY SPECIFICALLY MODIFYING THE FUTURE LAND USE ELEMENT POLICY 1.08.05 (STANDARDS FOR DESTINATION ACTIVITY CENTERS OR CONVERSION OF EXISTING CONVENTIONAL SUBURBAN SHOPPING CENTERS) AND MODIFYING OR STRIKING THE MULTIMODAL TRANSPORTATION ELEMENT POLICIES 2.13.06 (REQUIRED PLACEMENT OF PARKING), 2.13.08 (VISUAL SCREENING OF PARKING), 2.13.11(REQUIREMENTS FOR PERVIOUS PARKING MATERIALS).

Interested parties may appear at said hearing and be heard as to the advisability of any action, which may be considered. Any persons with disabilities requiring accommodations in order to participate in this program or activity should contact 310-3100, TTY 711, (TTY number for all City offices) or through the Florida Relay Service at 711 at least 24 hours in advance to request such accommodation. The PAB serves as a recommending committee. Every application is submitted to the City Commission for final decision making.

Copies of the applications may be inspected in the office of the Planning Department, City Hall, 204 Ash Street, between the hours of 8:00 AM – 5:00 PM, Monday through Friday. To make an appointment with a planner, please call 904-310-3480.

Request to Intervene

PRELIMINARY PLAT/REPLAT APPROVAL - "THIRD AND BEECH" TOWNHOME SUBDIVISION

RESOLUTION 2023-23 APPROVING A PRELIMINARY PLAT/REPLAT TO CREATE A TWELVE-LOT TOWNHOME SUBDIVISION CALLED “THIRD AND BEECH”; AUTHORIZING EXECUTION AND PROVIDING FOR AN EFFECTIVE DATE.

Affected Parties: Taina Christner, 406 Beech Street, Fernandina Beach, FL

Taina Christner lives diagonally across the street to the proposed 3rd and 4th Street Townhome subdivision, and she is more adversely affected than the community at-large. The proposed townhome subdivision would:

- Decrease property values of existing homeowners.
- Increase traffic on Beech Street with the addition of a driveway for the subdivision on Beech Street
- Increase storm runoff and flooding possibilities during floods.
- Drastically change the character of a historic district street neighborhood
- Remove canopy trees that provide protection

Placing a townhome subdivision on single family home neighborhood directly violates the intent of the Comprehensive Plan section 1.02.06

1.02.06. The City shall assure that specific density assigned to new development and redevelopment is compatible and consistent with established residential development patterns and provides equitable use of the land. Criteria to be considered in allocating density shall include, but not be limited to, the following:

a. Protecting the integrity and stability of established residential areas;

b. Assuring smooth transition in residential densities;

c. Encouraging commercial and residential mixed use development patterns;

d. Recognizing and being sensitive to the character and form of the surrounding neighborhoods;

The City Attorney has stated in e-mail and in meetings that if you deny the application regarding the Tringali property or send it to the Board of Adjustment, the developer and the property owner will have a valid claim under the Equal Protection Clause. Ms. Christner’s expert witness, Professor Bradford R. Clark disagrees, as revealed by the caselaw discussed in his attached memorandum. Also, Prof. Clark feels that if the Commission were to approve this proposal without sending it to the Board of

Adjustment, it would establish an extremely bad precedent that could require the City to approve all future requests to subdivide residential property within the City to build townhome developments without limit.

Memorandum

To: The Fernandina City Commission

From: Bradford R. Clark, 312 Ash Street

Re: Equal Protection Issues re Resolution 2023-23 ("Third and Beech" Townhome Proposal)

Date: Feb. 3, 2023

I live at 312 Ash Street, around the corner from the proposed townhome development and my neighbors, Merry and David Coalson (111 S. 4th Street) and Taina Christner (406 Beech Street). I split my time between Fernandina Beach and Washington, DC, and have spent the majority of my time in Fernandina since 2021. I have been a professor of law at George Washington University Law School since 1993, where I have taught Constitutional Law, Civil Procedure, and Federal Courts. Before becoming a law professor, I served as a law clerk to Judge Robert Bork on the U.S. Court of Appeals for the D.C. Circuit, and subsequently as a law clerk to Justice Antonin Scalia on the Supreme Court. From 2003-10, I served as a Special Master appointed by the Supreme Court of the United States to help resolve an original action between States and the Court adopted all of my recommendations. *See* Alabama et al. v. North Carolina, 560 U.S. 330 (2006). A copy of my CV is attached.

Like my neighbors, I am concerned about the proposal to bypass the Board of Adjustment and approve replacing four homes on S. 4th Street with a townhome development that would change the character of the neighborhood. I urge you to reject the application or send the matter to the Board of Adjustment as unanimously recommended by the Planning Advisory Board. This memorandum addresses the Equal Protection issue raised by the City Attorney. In my opinion, if you deny the application regarding the Tringali property or send it to the Board of Adjustment, the developer and the property owner will not have a valid claim under the Equal Protection Clause, as revealed by the caselaw discussed below. On the other hand, if the Commission were to approve this proposal without sending it to the Board of Adjustment, it would establish an extremely bad precedent that could require the City to approve all future requests to subdivide residential property within the City to build townhome developments.

Let me begin with what the City Attorney, Ms. Bach, said at the Jan. 3, 2023 Commission meeting. (https://fernandinabeachfl.new.swagit.com/videos/196083) First, she reported that she and the City staff looked at how the City treated other property owners in the past. She stated that "what we found was that in every single occasion where there was a subdivision that was requested, and there were underlying lots of record and existing buildings—this is for over twenty years—we have sent them through the platting process, which is exactly what we're doing with the Tringali property." The City Attorney was mistaken, as the material presented by Taina Christner (406 Beech Street) shows that since 2016 the City has sent several subdivision requests by other similarly situated property owners to the Board of Adjustment. (See the Appendix to

Taina Christner's Request to Intervene for details.) Pre-2016 records are not available online, but presumably they would reveal additional examples.

Second, the City Attorney raised an Equal Protection issue that she said would arise if the Tringali application were rejected or sent to the Board of Adjustment. Here is what she said on Jan. 3, 2023:

> In land use law, if you treat similarly situated property owners differently, and make the developers of the Tringali property, for example, go for a variance when we have not done that before for over 20 years of similarly situated property owners, I would put the City at risk by telling you to send the developers for the Tringali property to the Board of Adjustment. That's what we risk, an Equal Protection federal lawsuit that says that we treated them differently. I've confirmed that tonight. I will send you caselaw, Dr. Ross. The Supreme Court of the United States in 2019 addressed this very issue, and that is our exposure. My job is to try to not get the City sued and if there is a dispute where somebody's going to sue to take the path of least resistance, the least risky to the City. So that is why I gave my advice.

I agree with the principle Ms. Bach stated—that similarly situated property owners should be treated the same—but denying the request to subdivide the Tringali property would not violate this principle for two reasons. First, as just noted, the City has previously sent similarly situated property owners seeking to subdivide property within the City to the Board of Adjustment. Second, all of the examples allowing subdivision without going to the Board of Adjustment provided by the City Attorney (in an e-mail dated Nov. 20, 2022 in response to a records request) involved annexation and subdivision of property that had been outside of the City. Accordingly, these properties are not "similarly situated" to the Tringali property, which has been located in the City for well over a century.

The relevant Equal Protection principles were set forth and applied in *Campbell v. Rainbow City*, 434 F.3d 1306 (11th Cir. 2006). There, developers sued alleging an Equal Protection violation because the city denied their application for a variance to build a high-density apartment building on property zoned for lower-density. The developers pointed to several other developments approved by the city, but the court held that these projects were not sufficiently similar to the proposed development, and thus found that there was no Equal Protection violation. The court stated the law as follows:

> To prevail on this traditional type of equal protection claim, basically a selective enforcement claim, that the City's Ordinance was applied to them, and not [to] other developments, Plaintiffs must show (1) that they were treated differently from other similarly situated individuals, and (2) that Defendant unequally applied a

> facially neutral ordinance for the purpose of discriminating against Plaintiffs.

Id. at 1314. Importantly, the Court stressed that "in order for any development to be similarly situated to Plaintiffs' proposed project, it must be *prima facie* identical in all relevant respects." *Id.* The Plaintiffs pointed to several other developments, including a credit union, a medical office, and lower-density apartment buildings, but the court found that none of these examples were sufficiently identical to the project proposed by the current developers. In addition, the court stated that, in order to advance their claim, "Plaintiffs would need to provide a record of what the [previous] developer had brought before the Planning Commission when it was granted tentative approval" in order to show that there could be no rational basis for distinguishing the two projects. *Id.* at 1315. Because the projects were not "identical in all relevant respects," the court dismissed the claim.[1]

Under this precedent, the Tringali property developers could bring a successful Equal Protection claim only if they could prove that the City had previously approved the subdivision of residential property to build a substantially identical townhome development (in terms of size, density, and surrounding neighborhood) as proposed for the Tringali property. None of the examples of previous subdivisions provided by the City Attorney involved projects identical in all relevant respects to the proposed townhomes on S. 4th Street, and all of the examples she provided involved annexations. The townhomes recently constructed on S. 3rd and S. 2nd Streets are not comparable (let alone identical) to the proposed development because they were built on property not zoned residential and that had never had houses on the land (historically, it had been a lumber yard). Thus, under the Eleventh Circuit's *Campbell* decision, the Tringali developers and property owners would not have a valid Equal Protection claim if the City denied subdivision of the property to build townhomes.

At the Jan. 3, 2023 City Commission meeting, Ms. Bach said that she could send Dr. Ross caselaw to support her position on Equal Protection, and said that "[t]he Supreme Court of the United States in 2019 addressed this very issue." I contacted the City Attorney's office to request copies of this caselaw. In response, Katie Newton, the City Attorney's Legal Assistant, provided me with two lower court decisions. When I inquired again about the U.S. Supreme Court case cited by Ms. Bach, Ms. Newton replied that the Supreme Court had actually declined to hear the case in question. None of the cases cited by the City Attorney's office supports an Equal Protection claim in this case. When the Supreme Court denies certiorari to hear a case, it is not a decision on the merits and has no precedential effect. In any event, the Florida decision that the Supreme Court declined to review actually *denied* a property owner's Equal Protection claim because the county

[1] The Eleventh Circuit recently applied the *Campbell* framework to reject an Equal Protection claim by a property owner who sought to replace a traditional beach-front mansion with a larger mid-century modern mansion because the plaintiff could not show that he was treated differently than similarly situated property owners. *See* Burns v. Town of Palm Beach, 999 F.3d 1317, 1352 (11th Cir. 2021). Similarly, the United States District Court for the Middle District of Florida applied the *Campbell* framework to reject an Equal Protection challenge to a county's delay or denial of a property owner's applications for various permits. As in *Campbell*, the court stressed that the plaintiff had to show that he was treated differently than similarly situated comparators, and that to be considered similarly situated, comparators must be *prima facie* identical in all relevant respects. *See Dibbs v. Hillsborough County, Florida*, 67 F.Supp.3d 1340, 1354-55 (M.D. Fl. 2014).

had a rational basis for the government's land use decision. *See* Pinellas County v. Richman Group of Florida, 253 So. 3d 662 (2017 Fla. App.), *cert. denied* 2019 U.S. LEXIS 2208.

The two other decisions I received from Ms. Newton in support of the City Attorney's position are distinguishable from the Tringali proposal. In the first case *Bodnar v. Town of Jupiter Inlet Colony*, 321 So. 3d 774 (2021 Fla. App.), the court dismissed the property owners' Equal Protection claim because they failed to demonstrate that the town acted with a discriminatory purpose. In the second case, *City National Bank of Florida v. City of Tampa*, 67 So. 3d 293 (2011 Fla. App.), the owners alleged that their project was singled out and treated differently from other similarly situated properties with no rational basis. The court allowed the Equal Protection claim to proceed in this case because the zoning administrator—for the first time ever—interpreted the city ordinances to require *two* 25-foot front-yard setbacks rather than one such setback. In over 10,000 previous similar situations, the city had interpreted the ordinances for a corner property like the one at issue to require only *one* setback of 25 feet. This case is clearly distinguishable from the Tringali case because the City of Fernandina is not creating a new rule for one property. Other subdivision requests have been sent to the Board of Adjustment when seeking subdivision so sending the Tringali proposal would not be unique.

While I applaud the City Attorney's goal of shielding the City from legal liability, her opinion in this case is unsupported by the facts and the law. Indeed, if the City Commission were to approve the Tringali townhome proposal without sending it to the Board of Adjustment, it would set an extremely bad precedent that could require the City to allow all other similarly situated property owners in the City to subdivide their properties for the purpose of building identical townhome developments. By one estimate, there are approximately 1000 properties within the City limits with underlying lots of record that could potentially be redeveloped into townhomes if this project is approved by the Commission. If even a fraction of these properties were redeveloped into townhomes, it would fundamentally change the character of the City of Fernandina Beach to the detriment of all City residents.

MINUTES

APPROVED

I. Call to Order

Chairman Bennett called the meeting to order at 5:42 pm.

II. Roll Call/Determination of Quorum

Board Members Present

Mark Bennett, Chair
David Beal
William A. Conger
Lupita McClenning (was detained)
Paul Condit, Vice-Chair
Richard Bradford
J. Peter Wilking

Board Members Absent

Marilyn Williamson
Shaun Woleshin

Others Present

Debra Braga, City Attorney
Jeffrey Salter, Community Development Department Director
Catherine Hartley, City Planner
Kevin Sullivan, City Planner
Jessica Williams, Recording Secretary

III. Discussion on Land Development Code

Final review of the Land Development Code

Ms. Julie Ferreira, 501 Date Street, inquired how the board would handle things that were already talked about but people may have questions about what was already decided upon. Chairman Bennett explained that some of this stuff has been discussed for almost a year and a half. He stated that to now open it all up again was not productive. There was a brief discussion about this.

Ms. Hartley explained that City staff and the City Attorney went through the final draft and their notes and made changes that had come out of all the public meetings. She stated that they drafted some new language and clarified that the underlined things are suggested changes that Ms. Easley did not do. She explained that the things that were stricken were things that staff thought should be taken out. She suggested going through each policy and coming to some consensus to send to the City Commission. There was some discussion about how to proceed.

Ms. Hartley read from the matrix 1.03.03 and explained that staff suggested this because the City was about to adopt a Comprehensive Plan amendment that says you can put a single-family house on an existing lot of record. Member Conger questioned where the Comprehensive Plan amendment came from. Ms. Hartley replied the board voted on that in September and it went to the Department of Community Affairs (DCA). She stated that it was now back from DCA and was going to the City Commission for second reading on February 7th. *The consensus of the board was to accept this change.*

Ms. Hartley read from the matrix 1.03.04 and pointed out that the new zoning district (RLM) was added per the board's request. *The consensus of the board was to accept this change.*

Ms. Hartley read the proposed 1.03.05 language that was drafted by the City Attorney. She clarified that this zoning and land use restriction is on the property and someone built a house, and now the City doesn't want the property owner to try to maximize their profit and increase density across the board by tearing down their house and putting up two houses. There was some discussion of building site and the proposed language of 1.03.05 (A), (B), and (C). Chairman Bennett suggested including this language with land use and then it is quite clear. He commented that the intent of the board was to allow single buildings, but where lots have been combined and single improvements put on them to keep it that way. Member Conger noted that entrepreneurs would purchase existing building on a lot and then they'll split it in order to build two houses. He questioned if this effectively puts up a barrier to activity like that. Ms. Hartley replied correct. She pointed out that "vacant" could be added to the text amendment. She explained that the purpose of the Comprehensive Plan amendment was to provide a band-aid solution to the density that doesn't make any sense. She stated that it reserves the property owner's right to build a single-family house on their vacant lot even though the land use control was imposed on them. After some discussion about this, Member Conger inquired about people splitting lots. Ms. Hartley replied later in the draft it talks about lot splits and lot line adjustments. She stated that it could be done administratively if they meet certain criteria. She explained that once this was done staff can send a letter to the County tax office to tell them what the City's policy is. There was some discussion about this and the proposed 1.03.05.

Mr. Jeffrey Tomassetti, 406 Ash Street, explained that when he read the language it wasn't limited to a house that is built in the middle of the two lots. He presented an example of two 50 by 100 lots and one is vacant and the other one has a house on it. He explained that if he had a fence around the perimeter and reading the language merely putting a fence around the perimeter of the two lots combines them into one building site. He stated that he thought this was a very dangerous precedence, because there could be two vacant 50 by 100 lots that someone has put a fence around the perimeter. He commented that this would be affecting people that think that they have a land bank of a house site. He explained that he thought the intent was when the primary structure is over the lot line. He stated that he would like to see this rewritten. City Attorney Braga explained that the case that went to court was exactly the situation where there was a fence over the lot line and it was upheld that it was still the building site. She stated that it was considered part of the building site and therefore it was deemed to be one building site. She pointed out that (C) allows that if it is deemed that there is a hardship they can come before the City Commission for an Ordinance and the City Commission can undo it. After some discussion about the proposed language, Member Conger inquired if it had to be done by Ordinance. City Attorney Braga replied that it could go to the Board of Adjustment (BOA), because that is still a quasi-judicial public hearing. Member Conger suggested that it should require application to the BOA. Chairman Bennett inquired about enforcement on this. Ms. Hartley replied most cases are when people are demolishing a structure and wanting to build two. She stated that it would be regulated with the demolition permit. Member Beal explained that he didn't think a fence should be included. *The consensus of the board was to accept the proposed 1.03.05, but to remove fences and remove ordinance from (C) and replace it with the Board of Adjustment.*

Ms. Hartley read 1.05.01(E) from the City Attorney's memo and clarified that if it is not permitted then it is prohibited. Member Beal inquired if there needed to be a provision for remedy. City Attorney Braga stated that the remedy would be to draft an amendment to the Land Development Code that would deal whatever it was that they were suggesting. Ms. Hartley commented that it would be a text amendment to the code. After some discussion about the proposed language,

Member Wilking suggested wording that if a particular application is not addressed a text amendment can be administered through the Planning Department. City Attorney Braga stated that it could be "modification to this code may be requested to address the specific item." Ms. Hartley pointed out that the Planning Department has an application and a fee set for text amendments to the Comprehensive Plan and the Land Development Code. Chairman Bennett inquired if this would be one of the things for the City Manager to ok. Ms. Hartley replied no and explained that it would be just like doing a text amendment to the Comprehensive Plan.

Mr. Jeffrey Tomassetti commented that the land use and development of the City operates under Federal laws, State laws, the Comprehensive Plan, and the Land Development Code and things mentioned in these are also permitted things. City Attorney Braga noted that the Florida Department of Transportation (FDOT) green book was going to be incorporated, the Florida Department of Environmental Protection (FDEP) manual, etc. would be incorporated so that kind of specific things would not be disallowed. She suggested the addition of "or incorporated references". *The consensus of the board was to accept the proposed language with the addition.*

Ms. Hartley read the revised definition of Certificate of Appropriateness from the City Attorney's memo. After a brief discussion about this definition, Mr. Mike Harrison, 820 Someruelus Street, commented that the language appears to allow the City Manager to issue a Certificate of Appropriateness without reference to the Historic District Council (HDC). City Attorney Braga clarified that is staff approval, which was what the City has now. She explained that there are certain items that staff approves. *The consensus of the board was to accept this change.*

Ms. Hartley referred to the matrix and pointed out that she added a new definition for kitchenette. She noted that people still want to have some kind of garage apartment or guesthouse so by having a limited kitchen facility takes away some of the possibility of it being used as a rental unit, but still allows a relative or helper of the household to have some independence on site. Chairman Bennett stated that he thought for hotel/motel the board suggested language reflecting no kitchens. Member Bradford commented that he thought it was limited to microwaves. Chairman Bennett stated that he thought the definition of kitchenette was fine. *The consensus of the board was to accept this definition.*

Ms. Hartley read "building height is the vertical distance from finished grade to the highest point on the structure." Chairman Bennett referred to the minimum floor elevation and commented that going down to the beach where they are 14 feet above the ground on stilts then all of a sudden the City was going to start measuring there up 35 feet, which is not the way it is done today. Mr. Sullivan explained that staff was going to put the wording directly from the Ordinance #2005-15. He referred to page 115 grade, finished and read this definition to the board. Member Conger commented that grade, finished still allows fill to be put in on a lot. He expressed his concern with this. Ms. Hartley explained that in a flood plain they can't do that. Member Conger stated that he didn't think this was prohibitive enough about a builder being able to do anything that he wants. Mr. Sullivan pointed out that the permitting process has tightened up since then. He explained that his note and the Building Official's consensus was that they'll keep an eye on the amount fill. Member Conger questioned if that was part of Technical Review. Mr. Sullivan replied Technical Review, Site Plan Review, and keeping a better eye on clear and fill permits. Ms. Hartley explained that fill is part of the building permit and they would not be able to get a grade and fill permit without a building permit. After some further discussion about this, City Attorney Braga noted a "finished grade" definition and there was also "grade, finished". Ms. Hartley stated that it should be "grade, finished". She pointed out that "finished grade" would be removed. Member Conger questioned if there were restrictions in place on how much you can fill. Ms. Hartley replied there is no Ordinance that says you can only put

one truckload of dirt on your lot, because it depends for every lot site. She explained that for flood prone areas they have to elevate their structure and that is addressed. There was some discussion to clarify this.

Member Conger questioned where 35 feet begins (ground level or at the first level above the pilings). Ms. Hartley replied if they are elevating the house it begins at the ground level. There was some further discussion about the definition of building height and what constitutes an exterior wall to include verbiage about load bearing. Chairman Bennett explained that he had a note that there would be additional language added. He commented that the PAB has the responsibility to get this right. He pointed out that this draft does not incorporate all the changes that the PAB spent months going over. Ms. Hartley explained that not everything the PAB agreed to was a consensus of the City Commission. *The majority of the board agreed to add language for load bearing or pilings to the definition.*

Ms. Hartley read the definition of public beach access as shown on the matrix. After a brief discussion, *the consensus of the board was to accept this definition.*

Ms. Hartley read from the matrix that for table 2.00.00 to remove X from RLM under LDR and clarified that you can't have a zoning with a density higher than the land use. After a brief discussion, *the consensus of the board was to accept this change.*

Ms. Hartley read the proposed change to 2.01.03 as shown on the matrix. She clarified that staff recommended removing "single-family attached homes may be allowed through the PUD process", because if they meet the density on a unified development site why do they have to have a PUD to have two family structures. After a review of this change, *the consensus of the board was to accept removing the sentence.*

Ms. Hartley referred to revised table 2.03.02 and pointed out the changes. She explained that some were things that were talked about at the last hearing as things that weren't added in from the old code. She stated that some things were things that were consistent with the land use. Chairman Bennett inquired which were not in the old code. Ms. Hartley explained that automotive rental agency and bakery plant were stricken out in I-2 because they are inconsistent with the Comprehensive Plan. Chairman Bennett pointed out that bed and breakfast used to be in R-3 was permissible subject to supplemental standards, but was now out. Ms. Hartley corrected this to be a scratch out for R-2 and an "S" under R-3. Ms. Joan Cory questioned where I-1 and I-2 were. Ms. Hartley pointed out on the map where I-1 and I-2 would be and explained that I-1 would include Smurfit-Stone Container Corporation, Rayonier, and the Airport. There was a review and discussion about what was shown on the map.

Ms. Joan Cory noted that the definitions of I-1 and I-2 are going to have to be changed and the intent of the district is going to have to be changed from what it currently says. She commented that it is an all purpose district with I-1 and when it comes to IW waterfront there is no place that says I-2 uses on the waterfront shall be water dependent and water related. She explained that was what the old IW said in the Comprehensive Plan. She stated that it wasn't demonstrated to her that changing the waterfront to I-2 was in compliance with the Comprehensive Plan. Ms. Hartley explained that the way the code currently reads is that anything that is adjacent to the water is water related. Ms. Cory pointed out that the Comprehensive Plan says industrial waterfront provides industrial activities that require waterfront locations. She stated that it allows other uses if they are directly related to the port functions. She explained that the intent of the Comprehensive Plan and Land Development Code is to reserve the waterfront for water dependent and water related uses. She commented that the new I-2 is

really throwing away the chance of maintaining a working waterfront. There was some discussion about the issues raised about the waterfront.

Ms. Hartley clarified that she attempted to amend the table under I-2 to reflect the uses that would be Port or Marina related. Member Wilking inquired if the City loses a category in the whole mix of things. Ms. Hartley replied yes. She noted Ms. Cory's point of mixing together heavy industrial with heavy commercial, but that does make it consistent with the Comprehensive Plan. She explained that if you recognize that across the United States industrial is a declining economic base then you at least have some kind of commercial option for the industrial land. Member Wilking expressed his concern that with I-1 there is a lot of gray area (Smurfit, Rayonier, and the Airport) and one thing that sticks out is the adding of the lodging accommodations. He explained that this basically tells all the City's heavy industry that if they want to make another Hilton or Ritz that could be stamped approved. He questioned if that was what the PAB wanted to do. Chairman Bennett stated that he didn't know that the City needed that third designation just for those two areas. He noted that industrial is a declining use. He inquired about have a zoning category for those two very large industrial use properties.

Mr. Lovick Sudduth, 9 Marsh Hawk, pointed out that the Gillman Paper site in St. Marys had been sold and that property would be made primarily into residential, marinas, etc. He stated that under the City's light industrial they would not be able to do anything that would make sense on that large of a site. He commented that they would have to rezone that property for a multitude of uses.

Member Conger commented that looking at the color map and I-2 and reading the definition of I-2 it doesn't seem to be equitable to the vision of the Waterfront Committee. Ms. Hartley explained that the PAB would be hearing a series of land use and zoning changes next month to address exactly what Member Conger was referring to. She stated that right now there are three separate industrial zoning districts and they were compressed into two districts.

Mr. Shannon O'Conner, 2440 Lynndale Road, explained that their property is one of the largest ILW zonings now in the City. He stated that this came to issue back in the late 1970's where their property was zoned IM and then down zoned to ILW. He commented that he thought the waterfront was going to have to be separate with possibly the mills separate and then the other ILW now would have to be separate as well. He stated that this is trying to lump a multitude of different uses into smaller areas, which may not be applicable. He agreed that the mills do not need to be in ILW. He commented that one of his big tenants is leaving to go to Gurney Illinois. He explained that this is going in another circle back to where they were in the late 1970's. Ms. Hartley pointed out that the way the Comprehensive Plan is worded one land use industrial designation is waterfront type stuff for the Port and Marina and everything else is industrial. She stated that she had to rework this to fit the Comprehensive Plan. There was some further discussion about this table and whether to stay with three districts and do a Comprehensive Plan amendment or to condense down to two districts to be consistent with the Comprehensive Plan.

Mr. Steve Colwell, 1708 Ruskin Lane, explained that he sat on the Waterfront Taskforce for a year and he believed that their recommendation was I-2/C-3 for the waterfront. Ms. Hartley stated that the City is constrained by the Comprehensive Plan in adding residential there. She explained that she worked something out with the State to allow for density transfer, but the board would hear that next month.

Ms. Cory inquired if the City has been out of compliance all these years by having M-1, ILW, and IW as industrial zones. Ms. Hartley replied the City has had non-conforming uses across the board, but that was true for every land use. She commented that basically 60% of island was non-conforming to

the Comprehensive Plan. Ms. Cory questioned if the waterfront was left IW, change ILW to I-1, and change M-1 to I-2 relating to the same Comprehensive Plan why would that be a problem. Ms. Hartley explained that when the City adopts new Land Development Regulations they have to be consistent with the Comprehensive Plan. After a brief discussion about the process that has been followed, Member Wilking noted that nothing is perfect in every zone. He inquired in terms of what has to be done to fit the Comprehensive Plan was I-1 and I-2 a good solution right now or would it cause bigger problems down the road. Ms. Hartley explained that the text in the table provided to the board fits the text of the Comprehensive Plan. She stated that she was not saying it was going to match what is on the ground. Member Wilking inquired if this was the best that could be done now given all the variables. Ms. Hartley replied yes. She explained that this could be adopted now and do a land use study to fix the land use to match what is on the ground later. She stated that at least there would be two consistent policies and that may be the best that can be done. Member Wilking expressed his concern about the time it has taken to get to this point and noted that there is a point that if it can't be done then it has to go back to the drawing board.

Mr. Chuck Hall, 315 Calhoun Street, explained that in his mind I-2 was the light gray area along the waterfront. He stated that looking through the matrix for I-2 everything seems to be fairly acceptable. He commented that he assumed that the big issue was with I-1, because it seems to include almost everything. Member Conger expressed his opinion that I-2 doesn't fit the area on the map whatsoever other than a couple of shrimp boats. He commented that looking forward to waterfront development that would have recreational, shops, and restaurants to make it into a viable waterfront for the people. Chairman Bennett pointed out that the other thing is there are a number of items that have been added and deleted in this table. Ms. Hartley read that industrial uses include manufacturing, assembling and distribution activities, warehousing and storage, general commercial, and other similar land uses (from Comprehensive Plan). She explained that she had to fix the table to match this language. There was some further discussion about I-1 and I-2 zoning districts.

Member Conger pointed out that the definition of I-2 does not match up with what is down there and what he thought people want to be down there. Ms. Hartley noted that the plan said C-3 and pointed out that someone would have to apply to have it changed to C-3. She explained that C-3 allows for mixed-use residential/commercial/marina. Chairman Bennett inquired about the CRA area. Ms. Hartley replied not all of it. Chairman Bennett suggested looking at this subject at a later date. There was an extensive deliberation about how to proceed noting that the draft LDC has to be in compliance with the Comprehensive Plan.

Ms. Julie Ferreira commented that the Planning Department and the PAB needs to be thinking about what is going to happen in the future. She stated that this is the moment to think ahead and not just rubber stamp something because it is going to meet the Comprehensive Plan. Member Condit agreed with Ms. Ferreira and expressed his concern about lodging. He commented that there are also other issues. Member Beal inquired about proper procedure. He questioned if this is adopted in compliance with the Comprehensive Plan and then change the Comprehensive Plan and this or make a statement now by not accepting this. Chairman Bennett noted that some of these uses would be compatible with the items the board talked about for the Airport and lodging facility, but they are certainly not compatible with some of these other areas. Member Bradford inquired about the criteria to change the Comprehensive Plan. Ms. Hartley explained that the City would have to show if we are going to change the uses in each land use that it meets what is on the ground. She stated that the City would have to do a land use study. Member Bradford questioned if there are certain windows of opportunity to do this. Ms. Hartley replied twice per calendar year to do a large-scale amendment to the Comprehensive Plan. She pointed out that the City has one more chance in 2006. Member Wilking explained that he saw I-1 and I-2 as a whole separate issue. He agreed with Ms. Ferreira that

these are huge areas and if we permit just about anything in the Smurfit and Rayonier zones that the City has to be extremely careful, because once it is given to them you can't take it away. Ms. Hartley clarified that this should be a two step process, because she didn't want to throw away all the work that has been done just because Smurfit might close their doors in 5-years and the City would get a hotel. She stated that this draft could be adopted as is, recognize that there is a problem, do a text amendment to the Comprehensive Plan, and then go back and amend the code. Chairman Bennett disagreed and commented that the City rushed through to get the land use done and now the City still has not solved the problems and has created more problems. He questioned why adopt something that doesn't work. He agreed that the Land Development Regulations that the City has now may not work, but they have been working for a long time. He expressed his opinion that they can work until some of these issues are worked through. He stated that the City needed to control these two properties for future planning. There was some further discussion about how to proceed.

Mr. Bill Moore, 5457 Marsh View Lane, noted that the staff made a recommendation regarding how to make the zoning consistent with the Comprehensive Plan. He stated that ought to have great weight. He noted the concerns about the two large tracts of land with the mills that might be redeveloped sometime in the future. He commented that those sites are not suitable for the fear that has been expressed of a big resort, because it allows commercial uses and some lodging, but it doesn't allow for any housing or a lot of mixed uses. He explained that he didn't think what staff recommended would allow any huge door to open for people to take advantage of what you've created.

Mr. Mike Spicer, 1505 Lake Park Drive, stated that the course to change the Comprehensive Plan first makes the most sense to him and seems to be in line with what the citizens feel too.

The board took a brief recess at this time.

A motion was made by Member Conger, seconded by Member Beal, to seat alternate Member McClenning. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.

Ms. Hartley explained that the ILW uses under the current code and allowable uses under Industrial Manufacturing (IM). She pointed out basically the City already has a light industrial and heavy industrial manufacturing mixed use anyway. She suggested that the board figure out whether or not to allow for lodging under I-1 and then move on. After some discussion about this, Chairman Bennett requested direction from the City Attorney. City Attorney Braga stated that if the industrial areas are the ones that everyone is uncomfortable with then just table that section and move onto the rest. She explained that then it could be readdressed at a different meeting. **A motion was made by Member Conger, seconded by Member Bradford, to table industrial until another meeting. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**

Ms. Hartley referred to the City Attorney's memorandum #4 and read this into the record. City Attorney Braga explained that this addresses the issue that was brought up earlier. She stated that it would name the specific manuals that would be referenced. *The consensus of the board was to accept this revision.*

Ms. Ferreira commented that she looked at some houses along the beach and it seemed to her that at a certain minimum grade above sea level shouldn't houses and dwellings be required to be built on stilts with knock away walls. Ms. Hartley explained that the Coastal High Hazard Area is not defined by a flood zone, but defined by A1A (a transportation route). She stated that it doesn't make sense to

require structures that are at 65 feet elevation to elevate on stilts. She explained that staff was proposing that it just be in special flood areas. City Attorney Braga noted that Ms. Ferreira was referring to the next page of the memorandum #5. She questioned if the reference to the coastal high hazard should be removed. Ms. Hartley replies yes and explained that it should say "special flood zone". City Attorney Braga noted that "special flood hazard" was defined on page 1-14. Chairman Bennett requested clarification because at one point the Coastal High Hazard had nothing to do with the flood map, but now it was back. Ms. Hartley clarified that staff wanted to delete all of the section that talks about Coastal High Hazard area, except for policy 3.01.05(A) (1) and that would be moved under "Special Flood Zone". Ms. Ferreira inquired what it does to planning if the City removes all references to Coastal High Hazard Zones and the City is concerned about the density in the Coastal High Hazard Zones in the future. Ms. Hartley explained that this language talks about elevating structures not density. She stated that what Ms. Ferreira was talking about is a Comprehensive Planning issue not a structural building issue. She stated that she wanted to delete this entire section of Coastal High Hazard area in the code, but it was staying in the Comprehensive Plan and that is what is going to control density. She explained that this section that talks about Coastal High Hazard area talks about elevating structures and it doesn't make any sense, because one doesn't have anything to do with the other. Chairman Bennett inquired if there was language in other areas about breakaway walls. Ms. Hartley replied yes and explained that it was already in the Special Flood. Chairman Bennett questioned about for no fill permitted for structural support. Member McClenning replied that was in 3.01.04. Ms. Hartley pointed out that (C) talks about breakaway walls and elevated buildings. Chairman Bennett commented that he was apprehensive about deleting a whole section without knowing where these items may be found in other areas. Mr. Sullivan referred to page 3-4 and read that in the 100 year flood plain solid foundation perimeter walls be used to elevate a structure opening sufficient to facilitate the unimpeded movements of flood water shall be provided. Ms. Hartley explained that the fill policy was in 3.03.01(A). There was some further discussion about removing this section. *The consensus of the board was to accept items #4 and #5 as presented in the City Attorney's memo.*

Ms. Hartley referred to 3.02.02 in the matrix and read the proposed changes. Chairman Bennett inquired if there was discussion at the last meeting to include their language for the list. Ms. Hartley replied that was basically what she did. Chairman Bennett commented that the original language talks about the County Construction Control Line. Ms. Hartley replied that was a typo and explained that the Coastal Construction Control Line (CCCL) is established by the Department of Environmental Protection (DEP). Member Conger questioned why remove the 1,000 feet. Ms. Hartley replied because the line is already set. She stated that anything seaward of the CCCL is Coastal Protection Zone (CPZ). Member Conger commented that there were problems with people building 45-foot buildings near the beaches and it was a good deterrent for that. Ms. Hartley pointed out that 800-feet from the high waterline you are still only allowed to be 35 feet. After some discussion about this, Mr. Sullivan suggested changing the 800-feet from the high water mark to the CCCL for no building higher than 35 feet. Mr. Jeffrey Tomassetti stated that the mean high water mark is definable. He explained that surveyors do it all the time and the applicant has to get it. He expressed his opinion that it should be kept as it is. There was some discussion about the mean high water line.

Mr. John Proctor, 731 Tarpon Avenue, explained that he owns a property that there was a question about the 800 feet from the mean high water mark and within the last few weeks the surveyor determined the distance from the mean high water mark. He commented that it cost him a little more money, but the mark was no mystery to the surveyor. He noted that the mark was an average over a period. He expressed his opinion that there is nothing wrong with the reference to the mean high water mark.

Ms. Joan Cory, 408 Beech Street, questioned if the proposal was to get rid of the Coastal Upland Protection Zone (CUPZ). Ms. Hartley replied correct. Ms. Cory commented that the CUPZ appears to be in the Comprehensive Plan. She explained that if this 1,000 feet is thrown out landward from the CCCL it is taking away a lot of protection for the secondary dunes and its vegetation. She stated that it appeared to be in conflict with the Comprehensive Plan. Ms. Hartley explained that the problem was that the way the code was worded it exempted everybody from that provision, because if they had any kind of utility or infrastructure they were exempt. She pointed out that the beach is 95% built out. She stated that the language could be put back in, but everyone would be exempt all over again. There was some further discussion about this.

Ms. Patricia Borns, 314 New Street, commented that it in the history of Daytona Beach its beachfront started out mostly with homes like Fernandina Beach, but now hotels have replaced them all. She stated that it might not be bad to leave it in because there is going to be another wave of development eventually on the waterfront. Ms. Hartley stated that it is not on the waterfront or oceanfront. She explained that the three hotels that the board talked about last week the one that would be affected by this policy is the piece of property that already has a building on it. She stated that the Kuitems case was beyond the CCCL and the other one on Sadler was beyond that area. Member Wilking suggesting going with staff's recommendation. Member Condit agreed. Member Beal agreed.

Ms. Ferreira noted that staff's proposal concedes jurisdiction to proper permitting agencies. She explained that she had a hard time giving away home rule and going to St. Johns River Water Management District, DEP, etc. that are becoming more politicized. She stated that she would like to see some concession given to home rule that the City could make decisions for itself without turning it over to permitting agencies. Member McClenning pointed out that it is required. She provided clarification of what staff's recommendation was. There was some discussion about this proposed change. *The consensus of the board was to accept this revision to 3.02.02.* Member Conger pointed out a lettering correction on the matrix.

Ms. Hartley read 3.03.03 from the matrix and clarified that this is what the City currently practices. Chairman Bennett inquired if the City didn't want someone to mitigate a property, but the permitting agency approved the mitigation where would that put the City. Ms. Hartley pointed out that the board voted on one a month ago and allowed it to be altered. She explained that there are some properties out there that are entirely wetlands. She stated that to not allow them to build anything on their property means the City needs to pay them fair market value for that property. City Attorney Braga clarified that it would be a taking issue if they can get a permit from another agency and the City won't allow them to build anything. After some discussion about this, Ms. Joan Altman, 212 Estrada Street, suggested putting a clause in if it could have an affect on a neighborhood. She related an example of an area that each had ¼ acre of wetland in an undeveloped area and each individual was allowed to fill the area. She commented that you are losing something environmentally sound that is very important to the rest of the area. She questioned how to determine what is large enough to be allowed to be filled and what isn't. Ms. Hartley replied the Army Corps determines that. Ms. Altman stated that the Army Corps, St. Johns, and the other agencies allow a certain amount of these decisions to be made by the City. She explained that small wetlands are very important to the survival of the community. She provided some further comments about having a stronger home rule to not allow them to fill wetlands. There was some deliberation about 3.03.03 regarding filling wetlands.

Member Wilking questioned if all the other agencies approves a permit, but the City disapproves it what ground does the City have to defend that disapproval. City Attorney Braga stated that she

thought the City would have legal issues. She explained that the City doesn't have the staff to make those kinds of determinations. Ms. Altman stated that she thought there should be a limit to the size or the amount in a certain area. She commented that there is a lot of undeveloped land like that because it is wet. Chairman Bennett stated that he thought the City should have some input to that. Ms. Hartley stated that if the board goes that route then it should say no fill and then it would have to be fought out in court. City Attorney Braga pointed out that there are situations where it could be an isolated wetland that doesn't contribute to the overall, because it is not draining anywhere. She commented that she was sure there were some areas like Ms. Altman mentioned that are very valuable, but the City does not have the expertise in-house to look at this and make an intelligent determination. There was some further deliberation about 3.03.03 regarding filling wetlands noting that there needs to be a defensible standard for this.

Member Conger suggested language that: "unless the following three conditions are met: 1) concurrency with surrounding neighborhood 2) approval by the City 3) DEP, Corps of Engineers, and/or St. Johns River Water Management District". Ms. Hartley questioned what the City's standards for approval were. Member Conger stated that staff would have to come up with that. There was some further discussion about wetlands and a suggestion was made to reinstate an Environmental Advisory Board for cases like this. There was a brief discussion about where to stop this meeting and the consensus was to stop before going into Chapter 4.

Member Wilking commented that the City can set up all the boards it wants, but if a property owner has permits to fill or do some construction on a wetland from St. Johns, DEP, Corps of Engineers and then the City says no it seems like a futile effort. He stated that the property owner would file a case against the City for taking property. He explained that it doesn't seem like the City would have a whole lot of defensible position in that realm. Member Condit agreed with Member Wilking and noted that the City was not in a position with expertise to make a decision on this. He commented that he hated to defer the whole thing and would like to have an opportunity to have a look at them. Chairman Bennett explained that if there were an Environmental Board and before they turn it down there would be some justifiable data or evidence that would go along with the application.

Mr. Tomassetti questioned if there was a way to send the City's recommendation to these other bodies and then still let them decide. Member Bradford commented that a lot of times it is subject to approval by the agency. Mr. Tomassetti suggested that the board could request the agency consider their concerns. There was some discussion about this suggestion.

City Attorney Braga referred to language in (C) (3) on page 3-13 and explained that this is a requirement that the developer submit this information. She stated that the City would have to get its own consultant to review it and then it could be brought here for a permit that would be passed on. There was some further discussion about this subject noting that the City doesn't have the expertise for this. There was also discussion about the City having a consultant to review the information submitted by the applicant.

City Attorney Braga questioned the difference between someone having to go to St. Johns versus DEP. Mr. Sullivan replied that it depends on where it is. Ms. Altman stated that she thought the agencies would cooperate with the City and could copy the City on every permit that is asked for. Ms. Hartley pointed out that it is available online. She stated that staff could come back to the board with some criteria.

There was some discussion about the next meeting to review Chapters 4, 5, and 6 noting that the members were to review all the materials presented by the staff prior to the meeting.

Mr. Harrison inquired if the changes recommended at the December meeting were incorporated into the revised draft. Ms. Hartley replied that they are either in the draft or the matrix. There was a brief discussion about this. Member Conger requested staff to notify members when information is available for review prior to the next meeting.

Ms. Hartley referred to the February meeting and explained that staff decided because of the size of the agenda to split it up into two meetings in February. She clarified that the first meeting would be February 8th and the second would be February 22nd. There was a brief discussion about the upcoming meetings.

IV. Adjournment

There being no further business to come before the Planning Advisory Board, the meeting was adjourned at 9:21 p.m.

Mark Bennett, Chairman

Paul Condit, Vice Chair

1.03.00 APPLICABILITY

1.03.01 Generally

A. Except as specifically provided, the provisions of this LDC shall apply to all development in the City.
B. The use of any parcel of land, or any structure, or any combination thereof, within the corporate limits of the City shall be in conformance with the requirements of the LDC.
C. Principal uses, accessory uses, buildings, and structures that are not identified as permissible are prohibited. To be identified as permissible, such uses, buildings, and structures shall be included in this LDC or interpreted as included as provided for in Section 1.05.00 and Chapter 2.
D. A change of use shall conform to the standards, criteria, requirements, and procedures of this LDC.
E. Where a local development order or permit that was lawfully issued prior to the effective date of this LDC expires or is otherwise invalidated any further development on the site subject to the local development order or permit shall conform to the standards, criteria, requirements, and procedures of this LDC.

1.03.02 Exemptions

The situations described in (A) and (B) below are exempt from the provisions of this LDC.

A. The provisions of this LDC and any amendments thereto shall not affect the validity of any valid and effective local development order or permit that was issued prior to the effective date of this LDC under the following situations:
    1. The development activity authorized by the local development order or permit was commenced prior to the effective date of this LDC, and such activity continues without interruption (except because of war or natural disaster) until the development is complete;
    2. The development activity authorized by the local development order or permit will be commenced after the effective date of this LDC but within six (6) months of the issuance of a valid building permit which was issued prior to the effective date of this LDC; or
    3. The development activity authorized by the local development order is proceeding in accordance with the time limits contained in the local development order.
B. The provisions of this LDC and any amendments thereto shall not affect work required for public facilities and services within the public right-of-way, as further described below:
    1. Work required for the installation of facilities for the distribution or transmission of gas, water, sewer, electricity, cable, telephone, or telecommunications services;
    2. Work required for the purpose of inspecting, repairing, or replacing any existing water or sewer lines, mains, or pipes; and
    3. Work required for the purpose of inspecting, repairing, or replacing cables, power lines, utility poles, utility tunnels, or the like.

1.03.03 Lots of Record

A. One dwelling unit may be constructed on a substandard, platted lot of record in a residential or mixed-use zoning district.

1.03.04 Demolition of Structures on Substandard Lots

A. Applicability. Except as may be provided hereinafter to the contrary, in connection with replats, subdivisions, specific regulations, and specifically described lots or parcels of land, all buildings or structures located in the R-1, R-2, RLM, and R-3 zoning districts shall be constructed or erected upon a building site containing at least one (1) platted lot. Such building site shall have a minimum street frontage of fifty (50) feet.

B. Building site requirements. Wherever there may exist a single-family residence(s), duplex building(s), or any lawful accessory building(s) or structure(s) which was heretofore constructed on property containing one (1) or more substandard platted lots or portions thereof, such substandard lot or lots shall thereafter constitute only one (1) building site. No permit shall be issued for the construction of more than one (1) single-family residence. Such structures shall include, but not be limited to, swimming pools, tennis courts, walls, fences, or other at-grade or aboveground improvements.

C. Removal of buildings. If a single-family residence or duplex building which exists on more than one (1) substandard lot is voluntarily demolished or removed, no permit shall be issued for the construction of more than one (1) building on the building site.

1.03.05 Construction or Demolition of Structures on Combined Lots

A. In order to maintain open space, visual corridors, neighborhood character, property values and visual attractiveness of residential areas, wherever there may exist a single-family detached residential unit or, a duplex structure or any auxiliary building or structure, including but not limited to, swimming pools, or any other improvement which was heretofore constructed on property containing one or more platted lots or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the "lot of record", and no permit will be issued for the construction of more than one residential dwelling unit on the site. All construction on the building site must comply with all existing zoning and density requirements.

B. The demolition or removal of any residence or structure, whether voluntary or involuntary, does not have the effect of changing the establishment of the building site.

C. A change from the foregoing provisions for the purpose of establishing building sites, or separation of building sites requires supermajority approval by the Board of Adjustment in accordance with the variance approval process contained in Section 10.02.00 in a quasi-judicial hearing at which all interested persons will be afforded an opportunity to be heard.

1.04.00 CITY MANAGER

The City Manager is the chief administrative official of the City. For the purposes of this LDC, the City Manager administers, interprets, and implements the standards, criteria, and procedures of this LDC. The City Manager may delegate such responsibilities to City staff. Throughout this LDC, the term "City Manager" is used to indicate the person responsible for specified actions, except where specified actions are reserved or specifically delegated to another position. In all instances, "City Manager" means the "City Manager or designee."

Subject: RE: LDC Question PAB case #9821 (Tringali Property)

The staff report for this application on the 11/09 PAB agenda has an explanation, please see link below to PAB agenda. In addition, the City Planning Dept. has interpreted applications for subdividing and platting the same way as the Tringali plat application since before 2006. The past practices of the City provide a type of precedence under the 14th Amendment of the US Constitution (Equal Protection) requiring the City to be consistent in applying the LDC. Therefore, without changes to the LDC, staff cannot just begin now to apply Section 1.03.05 of the LDC to every property where a structure exists. When an applicant wishes to create a subdivision of land and a plat, they are not seeking to restore the historical underlying lots of record for purposes of creating building sites; therefore, Section 1.03.05 of the LDC does not apply.

If the City interprets the LDC to mean that anytime a structure exists on property, regardless of property size in acreage (i.e. remember, net density allowances must be considered, too), that the one existing structure becomes the sole allowable building site for that property for all time into the future, the City would be applying the LDC in a manner inconsistent with the Comprehensive Plan (i.e. FLUM, net density allowances). We cannot, without code changes to the LDC and the Comp Plan, begin now to apply this strict interpretation of Section 1.03.05 of the LDC to all properties with existing structures. City staff does apply Section 1.03.05 of the LDC to all applications requesting to restore the historical underlying lots of record for the purpose of building on those historical underlying lots of record which follows the variance process. There have been many subdivisions in the City that began with a plat application and subdividing land that had existing structures that were demolished prior to platting. Section 1.03.05 was not applied to these other subdivisions in the City. Examples include: 2022 Island View on Bailey Road - 2 existing homesites -on site through annexation, demo in January 2022; 2017 River Bend on Amelia Island Parkway - 1-3 homesites - demo prior to annexation 1940- 1953 timeframe of construction based on historic aerials; and 2017 (Phase II) and 2014 (Phase I) Dunes of Amelia - 1 homesite with ancillary structures -demo prior to annexation. If the City Commission wishes to move in the policy direction of restricting growth and property development by strictly applying Section 1.03.05 of the LDC, there will have to be changes to the LDC and Comp Plan before the City staff can interpret and apply Section 1.03.05 to apply to ANY residential property with existing structure(s). Without codified policy changes, the City will face legal challenges, including but not limited to, Bert Harris Act claims, 14th Amendment violation claims, administrative challenges and appeals. Development in the City, as you know, is governed by the Comprehensive Plan which includes the Future Land Use Element and the Property Rights Element that cannot be ignored by staff.

Let me know if you have questions.

INTERNAL USE ONLY

All the City Attorney examples Below are cases since 2016 that clearly involve replats and that went to the **Board of Adjustment** for determination.

Fredrick & Deborah Lewis Property Location: 704 S. 12th Street Parcel Number: 00-00-31-1800-0232-03B0. This is not a reversion to the original lots of record.

> "The applicant is seeking a variance in order to restore two platted lots of record and two partial lots of record. A single family residence which was constructed in 1983 created the "lot of record" as can be seen on the survey1 below. That single family residence was demolished earlier this year prior to obtaining a building permit. An after the fact building permit has been issued for the demolition. The parcels in this area today, exist in a variety of sizes, ranging anywhere from 50 to 100 feet in width as you can see on the Property Appraiser's Website map2. The Hunnicutt & Associates map from February 14, 19543, further subdivided the official plat of the City of Fernandina Beach (formally City of Fernandina), as lithographed and issued by the Florida Railroad Company in 1857 and enlarged, revised and reissued by the Florida Town improvement Company in 1887 and 1901. This "lot of record" at 100 x 200 is larger than any other lot in the general vicinity. If the variance is granted, two minor subdivisions will have to be administratively processed so that the two partial lots of record can be increased to 50 feet in width to meet today's minimum standards"

Sherri Rinker / Rinker & Kinard Enterprises January 17, 2018 Property Location: 429 S. 5th Street Parcel Number: 00-00-31-1800-0138-009

Underlying lots orient towards Elm Street. The current house which was built in 1945 orients towards 5th Street and was assigned an address of 429 S 5th Street. I wish to have the underlying lots replatted to orient towards 5th Street. This would allow buildable lot on the north side of the property. Homes across 5th street orient towards 5th Street and this will continue the uniformity of the houses on the street.

Requesting to establish two 50' x 100' lotswith an east west orientation facing 5th Street.Existing structure created Lot of Record.

Applicant was trying to reorient and restore historic lots of record to make room for a third lot. This is a replat.

The procedure being used today for this request to replat by the Planning and Conservation Department is to:

1) Send the replat to the Technical Review Board. This occurred and was passed.
2) Send the replat to the Planning Advisory Board. The Planning Advisory Board unanimously rejected this proposal on December 14, 2022 and requested that this request be sent to the Board of Adjustment, in accordance with the city's Land Development Code Section 1.03.05
3) Because the Department of Planning and Conservation is choosing to ignore the advice and request of the Planning Advisory Board, the application is in front of you today.

According to the Land Development Code, this proposal should be sent to the Board of Adjustment.

1.03.05 Construction or Demolition of Structures on Combined Lots

A. In order to maintain open space, visual corridors, neighborhood character, property values and visual attractiveness of residential areas, wherever there may exist a single-family detached residential unit or, a duplex structure or any auxiliary building or structure, including but not limited to, swimming pools, or any other improvement which was heretofore constructed on property containing one or more platted lots or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the "lot of record", and no permit will be issued for the construction of more than one residential dwelling unit on the site. All construction on the building site must comply with all existing zoning and density requirements.

B. The demolition or removal of any residence or structure, whether voluntary or involuntary, does not have the effect of changing the establishment of the building site.

C. A change from the foregoing provisions for the purpose of establishing building sites, or separation of building sites requires supermajority approval by the Board of Adjustment in accordance with the variance approval process contained in Section 10.02.00 in a quasi-judicial hearing at which all interested persons will be afforded an opportunity to be heard

Applicable Law:

Section 1.03.05 of the Land Development Code clearly states the procedure is to have this project reviewed by the Board of Adjustment. The City Attorney says she interprets the law differently, although her interpretation is nowhere to be found in the Land Development Code.

On January 26, 2006, the Planning Advisory Board discussed the final version of section LDC 1.03.05 after it had been drafted. Their intent was very clear that section 1.03.05 was to handle situations exactly like the Tringali replat application.

INTERNAL USE ONLY

From the Approved Minutes of the January 6, 2006 Planning Advisory Board Meeting
"Discussion on Land Development Code"

> Ms. Hartley *(City Planner)* read the proposed 1. 03.05 language that was drafted by the City Attorney.
>
> She clarified that this zoning and land use restriction is on the property and someone built a house, and now the City doesn' t want the property owner to try to maximize their profit and increase density across the board by tearing down their house and putting up two houses.
>
> There was some discussion of building site and the proposed language of 1. 03.05 (A), (B), and (C).
>
> Chairman Bennett suggested including this language with land use and then it is quite clear. He commented that the intent of the board was to allow single buildings, but where lots have been combined and single improvements put on them to keep it that way.
>
> Member Conger noted that entrepreneurs would purchase existing building on a lot and then they' ll split it in order to build two houses.
>
> He questioned if this effectively puts up a barrier to activity like that. Ms. Hartley replied correct.

This is the exact situation of the Tringali Proposed replat on s 4th street. There are currently 3 single family homes, and an entrepreneur wants to maximize profit by tearing down the 3 existing homes and "split it in order to build two houses". The City Planner assured the board in 2006 that the language drafted by then City Attorney Debra Braga was clear and would 'put up a barrier to activity like that'.

If today you do not agree with this law, the solution is not to ignore or flout the law, you need to change it instead.

The City Attorney also says her interpretation of the law has been the practice for the past 20 years, so therefore, we need to follow her procedure. When asked to provide examples of the past 20 years, she provided all annexation examples

From the City Attorney e-mail on November 10, 2022 (via records request)

> There have been many subdivisions in the City that began with a plat application and subdividing land that had existing structures that were demolished prior to platting. Section 1.03.05 was not applied to these other subdivisions in the City. Examples include: 2022 Island View on Bailey Road - 2 existing homesites -on site through annexation, demo in January 2022; 2017 River Bend on Amelia Island Parkway - 1-3 homesites - demo prior to annexation 1940- 1953 timeframe of construction based on historic aerials; and 2017 (Phase II) and 2014 (Phase I) Dunes of Amelia - 1 homesite with ancillary structures -demo prior to annexation. If the City Commission wishes to move in the policy direction of restricting growth and property development by strictly applying Section 1.03.05 of the LDC, there will have to be changes to the LDC and Comp Plan before the City staff can interpret and apply Section 1.03.05 to apply to ANY residential property with existing structure(s). Without codified policy changes, the City will face legal challenges, including but not limited to, Bert Harris Act claims, 14th Amendment violation claims, administrative challenges and appeals. Development in the City, as you know, is governed by the Comprehensive Plan which includes the Future Land Use Element and the Property Rights Element that cannot be ignored by staff.'

INTERNAL USE ONLY

Below are the cases of replats since 2016 we have found that went to the **Planning Advisory Board.** None of these cases involve property already within the City limits or that already had a single-family home on the property.

Planning Advisory Board Replat Cases since 2016

Hickory Ridge Replat

Vacant land

Lakeside Reserve

1 home with Swimming Pool and 6 acres of pasture.

Annexation

Dunes of Amelia II

Annexation

Riverbend

Annexation

Amelia Park – Park Avenue North

Vacant Land (The City approved this property's use under a Planned Unit Development in late 1990's. The PUD was most recently modified in August 2015 under Ordinance 2015-11, to remove a restriction for these sites which required first floor retail fronting Park Avenue. A local development order was issued in August 2016 under Site Plan Review (SPR) 2016-08. Site work has commenced and the property owner is now ready to complete the final plat process)

INTERNAL USE ONLY

Request to Intervene with Adversely Affected Party Status

For Merry Coalson and David Coalson, 111 S 4th Street, Fernandina Beach, FL
c/o Attorney Ralf Brookes Esq.
RalfBrookes@gmail.com

PRELIMINARY PLAT/REPLAT APPROVAL
"THIRD AND BEECH" TOWNHOME SUBDIVISION
RESOLUTION 2023-23
APPROVING A PRELIMINARY PLAT/REPLAT TO CREATE A TWELVE-LOT TOWNHOME SUBDIVISION CALLED "THIRD AND BEECH"; AUTHORIZING EXECUTION AND PROVIDING FOR AN EFFECTIVE DATE.

Dear Fernandina Beach:

Request to Intervene as Adversely Affected Parties for Merry and David Coalson, 111 S 4th Street, Fernandina Beach, FL

Merry Coalson and David Coalson, 111 S 4th Street, Fernandina Beach, FL are immediately adjacent neighbors to the proposed 3rd and 4th Street Townhome subdivision, they are more adversely affected than the community at-large as set forth below due to their adjacent location. They respectfully request additional time before the City Commission to present their testimony, evidence and legal arguments.

<<<<<<<<<<<<<<< Merry Coalson and David Coalson, 111 S 4th Street

The 100th block of s 4th Street, where the Coalson home is located, and where the proposed townhome subdivision is planned, is and always has been a single-family home neighborhood.

The proposed townhome subdivision would adversely affect the Coalsons and the surrounding neighbors because, among other things, it would:

- Increase density
- Increase in development intensity
- Increase traffic and parking needs on our street
- Remove eligible historic contributing structures and tree canopy
- Reduce Parking spaces on adjacent street
- Drastically change the character of a historic district and streetscape
- Lead to the loss of tree canopy and canopy trees that provide protection from harsh sunlight, albedo and provide energy savings and aesthetic benefits to my home
- Increase impervious surface area on the affected property, thereby increasing stormwater and flooding concerns.
- Decrease the desirability of our home by adversely affecting the Coalsons' adjacent single family home and its property value.

The application for a replat subdivision approval is a "development order" under **163.3164 (16)** that must be consistent with the duly adopted Comprehensive Plan[1], including the following policies, with which the Coalsons allege the application is inconsistent:

Policy 1.02.06. The City shall assure that specific density assigned to new development and redevelopment is **compatible and consistent with established residential development patterns** and provides equitable use of the land. Criteria to be considered in allocating density shall include, but not be limited to, the following:

> a. Protecting **the integrity and stability of established residential areas**;…
> d. Recognizing and being **sensitive to the character and form of the surrounding neighborhoods**

---

[1] **Florida Statutes 163.3194 Legal status of comprehensive plan.**
(1)(a) After a comprehensive plan, or element or portion thereof, has been adopted in conformity with this act, **all development** undertaken by, and all actions taken in regard to development orders by, governmental agencies in regard to land covered by such plan or element **shall be consistent with such plan or element as adopted.**

163.3164 Community Planning Act; definitions. As used in this act:
(14) "Development" has the same meaning as in s. 380.04.
(15) "Development order" means any order granting, denying, or granting with conditions an application for a development permit.
(16) "Development permit" includes any building permit, zoning permit, **subdivision approval,** rezoning, certification, special exception, variance, or any other official action of local government having the effect of permitting the development of land.

Objective 11.06. Community Character – Community character is reflected in **lot sizes, site placement**, height, **architectural features and existing vegetation**. The City shall strive to **stabilize and preserve neighborhoods and establish urban design standards** which protect and promote quality of life in order to **prevent teardowns, encourage re-use**, infill and new development.

Policy 11.06.02. The City shall evaluate the **neighborhoods contiguous to the historic districts** and evaluate strategies for **revitalization of existing structures in these neighborhoods** in a manner that is **consistent with their original development** and also **compatible with the adjacent historic districts**.

The subject properties are located between 3rd and 4th Streets, Ash and Beech Streets. These properties are on 5 deeded parcels (00-00-31-1800-0012-0210, 00-00-31-1800-0012-0190, 00-00-31-1800-0012-0050, 00-00-31-1800-0012-0100, 00-00-31-1800-0012-0150) and contain 4 historically significant homes (as designated in the 1980s survey of homes in Fernandina Beach).

The application and development plan you are considering today includes demolition and removal of the 4 historically significant homes. Prior to the applicant's ownership of these properties, they were owned by Mabel Stephens, Vivian Wrye Skipper and Antonio and Carmela Poli. The application the City is considering includes demolition and removal of the 4 homes used as a homestead of an original shrimper family that have been here since:1900, 1940, 1945 and 1953.

Although not within the Historic District Boundaries these homes, they are immediately adjacent to the Historic District and would likely qualify as contributing historic structures based on age and other factors.

In addition to demolishing these homes, it is our understanding that the plan includes raising the elevation of the entire 1.7-acre area by approximately 2.5-3.5 feet and installing concrete/pipes/utilities that would destroy more than half the trees, including many canopy trees. This process would increase the risk of run off from the site, adversely affecting our house next door and other nearby homes.

Another concern that is that this raised block development will adversely impact the adjacent historic district by changing the character of the neighborhood from

historic single-family homes to high-density townhomes out of line with historic usage. The adversely affected homes include four beautiful Historic District homes directly across the street on 4th street, as well as several more beautiful historic district homes on Beech Street.

There is no area in Fernandina Beach where a large, raised block with townhomes is directly across the street from Historic District homes so approval of this novel development will not only impact this neighborhood, but also set a bad precedent for future development of high-density townhomes in and around the Historic District and beyond.

This 12 unit townhome development will be located across from the front yards and porches of historic homes not behind historic homes. This would be unprecedented as far as we know.

The Planning Advisory Board unanimously rejected this proposal on December 14, 2022 and requested that this request be sent to the Board of Adjustment, in accordance with the city's Land Development Code Section 1.03.05. According to clear and express language of section 1.03.05 the Land Development Code, this proposal should be denied outright or sent to the Board of Adjustment under subsection (c) to apply specific criteria and where it would be subject to a super-majority vote of the Board for approval.

> LDC 1.03.05 **Construction or Demolition of Structures on Combined Lots**
>
> "A. In order to maintain open space, visual corridors, neighborhood character, property values and visual attractiveness of residential areas, wherever there may exist a single-family detached residential unit or, a duplex structure or any auxiliary building or structure, including but not limited to, swimming pools, or any other improvement which was heretofore constructed on property containing one or more platted lots or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the "lot of record", and no permit will be issued for the construction of more than one residential dwelling unit on the site. All construction on the building site must comply with all existing zoning and density requirements.
>
> B. The demolition or removal of any residence or structure, whether

voluntary or involuntary, does not have the effect of changing the establishment of the building site.

C. A change from the foregoing provisions for the purpose of establishing building sites, or separation of building sites requires supermajority approval by the Board of Adjustment in accordance with the variance approval process contained in Section 10.02.00 in a quasi-judicial hearing at which all interested persons will be afforded an opportunity to be heard."

Section 1.03.05 of the Land Development Code clearly states the proper procedure is to have this project reviewed by the Board of Adjustment.

The relevant legislative history of LDC 1.03.05 clearly supports denial of the request to approve the townhome project. On January 26, 2006, the Planning Advisory Board discussed the legislative intent of final version of section LDC 1.03.05 after it had been drafted and just before adoption. Their intent was very clear that section 1.03.05 was to handle situations exactly like the current replat application. Here are some highlights from the Approved Minutes of the January 6, 2006 Planning Advisory Board Meeting "Discussion on Land Development Code"

Ms. Hartley (City Planner) read the proposed 1. 03.05 language that was drafted by the City Attorney. She clarified that this zoning and land use restriction applies to property on which someone built a house, and implements the City's goal of preventing the property owner from trying to maximize their profit and increase density across the board by tearing down their house and putting up two houses in its place.

There was some discussion of building site and the proposed language of 1. 03.05 (A), (B), and (C).

Chairman Bennett suggested including this language with land use and then it is quite clear. He commented that the intent of the board was to allow single buildings, but where lots have been combined and single improvements put on them to keep it that way.

Member Conger noted that without this provision entrepreneurs would purchase an existing building on a lot and then they'll split it up in order to build two houses. He asked if 1.03.05 would effectively put up a barrier to

redevelopment activity like that. Ms. Hartley replied that it would.

This 2006 discussion anticipated the exact situation of the subject proposed replat on S. 4th street. There are currently 3 single family homes, the applicant desires to increase their development potential by tearing down the 3 existing homes and pursuing a replat split in order to build (town)homes on the property. The City Planner assured the board in 2006 that the language drafted by then City Attorney Debra Braga was clear and would 'put up a barrier to activity like that'.

When the current City Attorney (via a records request) was asked to provide examples of the past 20 years, she responded by e-mail on Nov. 10, 2022 and provided examples all involving demolitions prior to annexation by the City. She wrote as follows:

> "There have been many subdivisions in the City that began with a plat application and subdividing land that had existing structures that were demolished prior to platting. Section 1.03.05 was not applied to these other subdivisions in the City. Examples include: 2022 Island View on Bailey Road - 2 existing homesites -on site through annexation, demo in January 2022; 2017 River Bend on Amelia Island Parkway - 1-3 homesites - demo prior to annexation 1940- 1953 timeframe of construction based on historic aerials; and 2017 (Phase II) and 2014 (Phase I) Dunes of Amelia - 1 homesite with ancillary structures -demo prior to annexation."

All of the examples given by the City Attorney were involved annexations, which are not comparable to the current request to increase the density of long established city property within the City's boundaries and adjacent to historic homes and districts. These examples are not applicable to the current situation and thus raise no equal protection concerns.

We respectfully ask that the Commission make a motion, second and vote to deny this application as inconsistent with the Comprehensive Plan[i] not in compliance with the Land Development Code or, in the alternative, send this request to the Board of Adjustment for a vote in accordance with LDC 1.03.05(c).

Sincerely

/s/ Ralf Brookes Esq.

Ralf Brookes Attorney

TABLE OF CONTENTS

CHAPTER 1 GENERAL PROVISIONS
Chapter 1 includes applicability, role of the city manager, interpretations, documents incorporated by reference and acronyms and definitions of the LDC.

CHAPTER 2 ZONING DISTRICTS AND USES
Chapter 2 includes the establishment of zoning districts and overlays and land uses permitted in each district.

CHAPTER 3 ENVIRONMENTAL AND RESOUCE PROTECTION
Chapter 3 includes standards for floodplain management, environmental lands protection, wetland protection, well field protection and outdoor lighting.

CHAPTER 4 SITE DESIGN REQUIREMENTS
Chapter 4 includes density and housing standards, design standards for base zoning districts, design standards for overlay districts, standards for subdivisions, and standards for landscaping, buffers, and tree protection

CHAPTER 5 ACCESSORY AND TEMPORARY USES AND STRUCTURES
Chapter 5 includes standards for accessory uses and structures, temporary uses and structures, and sign requirements.

CHAPTER 6 SUPPLEMENTAL STANDARDS AND SPECIAL SITUATIONS
Chapter 6 includes standards for telecommunication facilities, supplemental standards for specific uses, standards for commerce parks and standards for commercial development.

CHAPTER 7 INFRASTRUCTURE AND CONCURRENCY REQUIREMENTS
Chapter 7 includes standards for transportation and parking facilities, requirements for potable water, sanitary sewer, drainage, and stormwater management and requirements regarding concurrency.

CHAPTER 8 HISTORIC DISTRICTS AND THE CRA
Chapter 8 includes standards for development in the historic districts and the Community Redevelopment Area (CRA), discusses the establishment and role of the Historic District Council (HDC), and provides for procedures and process for review of projects.

CHAPTER 9 BOARDS AND COMMISSIONS
Chapter 9 includes requirements for all boards and commissions including the Planning Advisory Board, Historic District Council, Board of Adjustment, and Technical Review Committee.

CHAPTER 10 VARIATIONS FROM CODE REQUIREMENTS
Chapter 10 discusses the treatment of nonconforming situations and establishes criteria and procedures for the review of variances and administrative waivers.

CHAPTER 11 ADMINISTRATIVE AND DECISION-MAKING PROCEDURES
Chapter 11 discusses local development orders, application requirements, notice requirements, procedures for review and decision making, quasi-judicial hearings, construction and improvements, amendments to local development orders, appeals of administrative actions, and violations.

1.00.00 GENERALLY

1.00.01 Purpose and Intent

This land development code (LDC) is adopted for the purpose of implementing, in part, the comprehensive plan, and is intended to:

A. Establish comprehensive regulations, procedures, and standards for review and approval of the development of land based on the comprehensive plan;
B. Foster and preserve public health, safety, comfort, and welfare, and aid in the harmonious, orderly, aesthetically pleasing, and socially beneficial development of the City in accordance with the comprehensive plan;
C. Conserve the value of land, buildings, and resources, and protect landowners from adverse impacts of adjoining developments;
D. Protect the character and maintain the stability of residential, business, industrial, recreation, and public areas, and enhance property values, stabilize older neighborhoods and business centers, and increase the economic benefits to the City arising out of its cultural resources;
E. Control and regulate growth of the City;
F. Provide specific procedures to ensure that local development orders and permits are conditioned on the availability of public facilities and services that meet level of service requirements (concurrency);
G. Balance the interest of the general public with that of individual property owners; and
H. Protect and, where necessary, preserve valuable natural resources including, but not limited to: environmentally sensitive land, water resources, wildlife habitats, and threatened or endangered species.

1.00.02 Relationship to the Comprehensive Plan

The Local Government Comprehensive Planning and Land Development Regulation Act, Chapter 163, Part II, *F.S.*, provides that local governments adopt a comprehensive plan and land development regulations which implement the adopted comprehensive plan. The standards and provisions in this LDC have been designed to implement the comprehensive plan, as may be amended from time to time.

1.00.03 Effect on Easements, Covenants, and Other Agreements

This LDC shall not interfere with, abrogate, or annul any easements, covenants, or other agreements between parties, provided, however, that the provisions of this LDC shall control where this land development code imposes a greater restriction upon the use of buildings or premises or upon the height of buildings, or requires larger open spaces than are imposed or required by such easements, covenants, or agreements.

1.01.00 TITLE

This land development code shall be known as and entitled the "Fernandina Beach Land Development Code" and may be referred to herein as the "LDC." Sections of the LDC shall be cited as "Fernandina Beach LDC, Section_____.

1.02.00 AUTHORITY

This LDC is enacted pursuant to the requirements and authority of Chapter 163, Part II, *F.S.*, and Chapter 166, *F.S.*

1.03.00 APPLICABILITY

1.03.01 Generally

A. Except as specifically provided, the provisions of this LDC shall apply to all development in the City.
B. The use of any parcel of land, or any structure, or any combination thereof, within the corporate limits of the City shall be in conformance with the requirements of the LDC.
C. Principal uses, accessory uses, buildings, and structures that are not identified as permissible are prohibited. To be identified as permissible, such uses, buildings, and structures shall be included in this LDC or interpreted as included as provided for in Section 1.05.00 and Chapter 2.
D. A change of use shall conform to the standards, criteria, requirements, and procedures of this LDC.
E. Where a local development order or permit that was lawfully issued prior to the effective date of this LDC expires or is otherwise invalidated any further development on the site subject to the local development order or permit shall conform to the standards, criteria, requirements, and procedures of this LDC.

1.03.02 Exemptions

The situations described in (A) and (B) below are exempt from the provisions of this LDC.

A. The provisions of this LDC and any amendments thereto shall not affect the validity of any valid and effective local development order or permit that was issued prior to the effective date of this LDC under the following situations:
    1. The development activity authorized by the local development order or permit was commenced prior to the effective date of this LDC, and such activity continues without interruption (except because of war or natural disaster) until the development is complete;
    2. The development activity authorized by the local development order or permit will be commenced after the effective date of this LDC but within six (6) months of the issuance of a valid building permit which was issued prior to the effective date of this LDC; or
    3. The development activity authorized by the local development order is proceeding in accordance with the time limits contained in the local development order.
B. The provisions of this LDC and any amendments thereto shall not affect work required for public facilities and services within the public right-of-way, as further described below:
    1. Work required for the installation of facilities for the distribution or transmission of gas, water, sewer, electricity, cable, telephone, or telecommunications services;
    2. Work required for the purpose of inspecting, repairing, or replacing any existing water or sewer lines, mains, or pipes; and
    3. Work required for the purpose of inspecting, repairing, or replacing cables, power lines, utility poles, utility tunnels, or the like.

1.03.03 Lots of Record

A. One dwelling unit may be constructed on a substandard, platted lot of record in a residential or mixed-use zoning district.

1.03.04 Demolition of Structures on Substandard Lots

A. Applicability. Except as may be provided hereinafter to the contrary, in connection with replats, subdivisions, specific regulations, and specifically described lots or parcels of land, all buildings or structures located in the R-1, R-2, RLM, and R-3 zoning districts shall be constructed or erected upon a building site containing at least one (1) platted lot. Such building site shall have a minimum street frontage of fifty (50) feet.

B. Building site requirements. Wherever there may exist a single-family residence(s), duplex building(s), or any lawful accessory building(s) or structure(s) which was heretofore constructed on property containing one (1) or more substandard platted lots or portions thereof, such substandard lot or lots shall thereafter constitute only one (1) building site. No permit shall be issued for the construction of more than one (1) single-family residence. Such structures shall include, but not be limited to, swimming pools, tennis courts, walls, fences, or other at-grade or aboveground improvements.

C. Removal of buildings. If a single-family residence or duplex building which exists on more than one (1) substandard lot is voluntarily demolished or removed, no permit shall be issued for the construction of more than one (1) building on the building site.

1.03.05 Construction or Demolition of Structures on Combined Lots

A. In order to maintain open space, visual corridors, neighborhood character, property values and visual attractiveness of residential areas, wherever there may exist a single-family detached residential unit or, a duplex structure or any auxiliary building or structure, including but not limited to, swimming pools, or any other improvement which was heretofore constructed on property containing one or more platted lots or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the "lot of record", and no permit will be issued for the construction of more than one residential dwelling unit on the site. All construction on the building site must comply with all existing zoning and density requirements.

B. The demolition or removal of any residence or structure, whether voluntary or involuntary, does not have the effect of changing the establishment of the building site.

C. A change from the foregoing provisions for the purpose of establishing building sites, or separation of building sites requires supermajority approval by the Board of Adjustment in accordance with the variance approval process contained in Section 10.02.00 in a quasi-judicial hearing at which all interested persons will be afforded an opportunity to be heard.

1.04.00 CITY MANAGER

The City Manager is the chief administrative official of the City. For the purposes of this LDC, the City Manager administers, interprets, and implements the standards, criteria, and procedures of this LDC. The City Manager may delegate such responsibilities to City staff. Throughout this LDC, the term "City Manager" is used to indicate the person responsible for specified actions, except where specified actions are reserved or specifically delegated to another position. In all instances, "City Manager" means the "City Manager or designee."

1.05.00 INTERPRETATIONS

1.05.01 Generally

A. In the interpretation and application of this LDC, all provisions shall be liberally construed in favor of the objectives and purposes of the City and deemed to neither limit nor repeal any other powers granted to the City under State Statutes.
B. In interpreting and applying the provisions of this LDC, the provisions shall be held be the minimum requirements for the promotion of the public health, safety, morals, and general welfare of the City.
C. Specific provisions of this LDC shall be followed in lieu of general provisions that may be in conflict with the specific provision.
D. Where any provisions of this LDC conflict with any other provisions of this LDC or with other regulations, the more stringent restrictions shall be applied.
E. If a specific regulation, standard, definition, development criteria, or provision is not included in this Land Development Code, the regulation, standard, definition, development criteria, or provision, shall not be permitted.

1.05.02 Responsibility for Interpretations

A. In the event that any question arises concerning the application of regulations, standards, definitions, development criteria, or any other provision of this LDC, the City Manager shall be responsible for interpretation. In the interpretation of this LDC, the City Manager shall seek guidance from the comprehensive plan.
B. Responsibility for interpretation by the City Manager shall be limited to standards, regulations, and requirements of this LDC, and shall not be construed to include interpretation of any technical codes adopted by reference in this LDC. Interpretation shall not be construed to override the responsibilities given to any commission, board, or official named in other sections or chapters of this LDC.

1.05.03 Rules for Interpretation of Boundaries

Where uncertainty exists as to boundaries of any district shown on the zoning map, the following rules shall apply:

A. Boundaries shown as following or approximately following any street shall be construed as following the centerline of the street.
B. Boundaries shown as following or approximately following any platted lot line or other property line shall be construed as following such line.
C. Boundaries shown as following or approximately following section lines, half-section lines, or quarter-section lines shall be construed as following such lines.
D. Boundaries shown as following or approximately following the shoreline of a water body shall be construed as following such shoreline.
E. Where any public street or alley is hereafter officially vacated or abandoned, the regulations applicable to each parcel of abutting property shall apply to that portion of that street or alley added thereto by virtue of vacation or abandonment.

1.05.04 Rules of Construction

The following rules of construction shall be applied in the interpretation of the provisions of this LDC:

A. The word "shall" is mandatory and the word "may" is discretionary.

1. Words used in the present tense shall include other tenses.
2. Words in the singular shall include the plural, and words in the plural shall include the singular.
3. Words denoting the masculine gender shall be construed to include the feminine and neuter.
4. The word "person" means an individual, corporation, governmental agency, business trust, estate, trust, partnership, or association, two (2) or more persons having a joint or common interest, or any other legal entity.
5. The word "owner," applied to a building or land, shall include any part owner, joint owner, tenant in common, tenant in partnership, joint tenant, or tenant by the entirety, of the whole or of a part of such building or land.
6. The words “written” and “in writing” mean any representation of words, letters, or figures, whether by printing or otherwise.

1.05.05 Computation of Time

A. In computing any period of time prescribed or allowed, the day of the act, event, or default from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, Sunday, or legal holiday, in which event the period shall run until the end of the next day which is neither a Saturday, a Sunday, nor a legal holiday. When the period of time prescribed or allowed is less than seven (7) days, intermediate Saturdays, Sundays and legal holidays shall be excluded in the computation.
B. The term “day” means a calendar day.
   1. The term “month” means a calendar month.
   2. The term “year” means a calendar year unless otherwise indicated.

1.05.06 Computation of Required or Permitted Units

When the determination of required or permitted units as required by this LDC results in a fractional unit, a fraction in excess of ½ shall not be counted as one (1) unit.

1.06.00 DOCUMENTS ADOPTED BY REFERENCE

A. The map identified by the title, “Zoning Map, Fernandina Beach, Florida,” which shows the boundaries and designations of the zoning districts is hereby adopted into and made part of this LDC.
B. The Flood Insurance Rate Map identified in Section 3.01.02(A) is hereby adopted into and made part of this LDC.
C. Technical codes which have been adopted by reference are identified in Sections 22-26 through 22-34 of the *Code of Ordinances of the City of Fernandina Beach, Florida*.
D. Chapter 333, *Florida Statutes*.
E. Historic Preservation Guidelines, Downtown Historic District.
F. Old Town Preservation and Design Guidelines.
G. CRA Design Guidelines.
H. Design and engineering standards manuals under current usage by FDOT, SJRWMD, FDEP, USACOE and other agencies, as applicable.

1.07.00 ACRONYMS AND DEFINITIONS

A. Acronyms

ADA	Americans with Disabilities Act
ATM	Automated Teller Machine
CCCL	Coastal Construction Control Line
CRA	Community Redevelopment Area
CUPZ	Coastal Upland Protection Zone
DBH	Diameter at Breast Height
ERU	Equivalent Residential Unit
FAA	Federal Aviation Administration
FAC	Florida Administrative Code
FCC	Federal Communications Commission
FDEP	Florida Department of Environmental Protection
FDOT	Florida Department of Transportation
FEMA	Federal Emergency Management Agency
FIRM	Flood Insurance Rate Map
FLUM	Future Land Use Map
HDC	Historic District Council
HOAA	Home Ownership Affordability Agreement
ISA	International Society of Arboriculture
LDC	Land Development Code
LOMR	Letter of Map Revision
LURA	Land Use Restriction Agreement
OFW	Outstanding Florida Waters
SJRWMD	St. Johns River Water Management District
SHPO	State Historic Preservation Officer
USACOE	United States Army Corps of Engineers
USDA	United States Department of Agriculture

B. Glossary of terms

Abut means to physically touch or border upon, or to share a common property line.

Accessory use or building means any building, use, structure, or dwelling unit that is a subordinate use or building customarily incident to and located upon the same lot occupied by the main use or building.

Accessory Dwelling Unit (ADU) means a *dwelling unit* that is subordinate to an existing principal structure.

Adaptive reuse means the renovation and reuse of pre-existing structures for new purposes.

Affected Party for purposes of quasi-judicial hearings an affected party is any property owner, resident, or local government.

Affordable housing means housing for which monthly rents or monthly mortgage payments, including taxes, insurance, and utilities, do not exceed 30 percent of that amount which represents the percentage of the median adjusted gross annual income for the households or persons indicated in Section 420.0004, F.S.

Affordable unit is any housing unit constructed as an affordable housing unit for a very low, low, or moderate-income household as defined herein, and which is the subject of an active land use restriction agreement (LURA) or home ownership affordability agreement (HOAA) as defined herein.

Aggrieved or adversely affected party/person means any person or local government that will suffer an adverse effect to an interest protected or furthered by the City's Comprehensive Plan and Land Development Code, including interests related to health and safety, police and fire protection service systems, densities or intensities of development, transportation facilities, health care facilities, equipment or services, and environmental or natural resources. The alleged adverse interest may be shared in common with other members of the community at large but must exceed in degree the general interest in community good shared by all persons. The term includes the owner, developer, or applicant for a development order.

Airport means Fernandina Beach Municipal Airport.

- ***Accident Potential Zone (APZ)*** means an area within 5,000 feet of the approach or departure end of a runway or in proximity to an airport in which area aircraft may maneuver after takeoff or before landing and are subject to the greatest potential to crash into a structure or the ground.

- ***Aircraft Over-flight Zone*** means a specified area underlying the fixed, recurring flight paths for aircraft taking off or landing at a civil airport. Aircraft routinely must operate at low altitude, climb from or descend to the runway along these paths. Should an aircraft accident occur, it is statistically most likely to be located in this area.

- ***Airport Noise Zones or Airport Noise Impact Zones*** means areas within specific airport generated noise impact day/night average sound level (DNL) contour lines in which land use should be limited to activities that are not noise sensitive.

- ***Airport Obstruction*** means any structure or object of natural growth or use of land which would exceed the federal obstruction standards as contained in 14 Code of Federal Regulations (CFR) Part 77 or which obstruct the airspace required for the flight of aircraft in taking-off, maneuvering or landing at an airport or may otherwise interfere with the taking-off, maneuvering or landing of aircraft.

- ***Airspace Obstruction or Obstruction to Navigable Airspace*** means any structure, existing or planned, or any object of natural growth which would exceed federal obstruction standards as contained in 14 CFR Part 77, ss77.21, 77.23, 77.25, 77.28 or 77.29.

- ***Decision Height*** means the height at which a pilot must decide, during an Instrument Landing System (ILS) approach, to either continue the approach or to execute a missed approach.

- ***Minimum Descent Altitude (MDA)*** means the lowest altitude, expressed in feet above mean sea level, to which descent is authorized on a final approach or during circling-to-

land maneuvering in execution of a standard instrument approach procedure where no electronic glide slope is provided.

- ***Minimum Obstruction Clearance Altitude (MOCA)*** means the specified altitude in effect between radio fixes or VHF omnidirectional navigational bearing (VOR) airways, off-airway routes, or route segments which meets obstruction clearance requirements for the entire route segment and which ensures acceptable navigational signal coverage only within twenty-two (22) miles of a VOR.

- ***Minimum Vectoring Altitude (MVA)*** means the lowest Above Mean Sea Level (AMSL) altitude at which aircraft operating on Instrument Flight Rules (IFR) will be vectored by a radar controller, except when otherwise authorized for radar approaches, departures or missed approaches.
- ***Non-precision Instrument Runway*** means a runway having an instrument approach procedure utilizing air navigation facilities with only horizontal guidance, or area type navigation equipment, for which a non-precision instrument approach procedure has been approved or planned, and for which non-precision instrument approach facilities are planned or indicated on an appropriate civil or military airport planning document.

- ***Other than Utility Runway*** means a runway designed for and intended to be used by all types of aircraft including those having gross weights greater than 12,500 pounds.

- ***Precision Instrument Runway*** means a runway having an instrument approach procedure utilizing an Instrument Landing System (ILS), Microwave Landing System (MLS), or a Precision Approach Radar (PAR) including a runway for which such a system is planned and is so indicated on an approved civil or military airport layout plan; other FAA planning documents, or comparable military service planning documents.

- ***Runway*** means a defined area on an airport prepared for landing and takeoff of aircraft along its length.

- ***Runway Protection Zone (RPZ)*** means a trapezoidal two-dimensional area off the runway end intended to enhance the protection of people and property on the ground.

- ***Utility Runway*** means a runway that is constructed for and intended to be used only by aircraft 12,500 pounds maximum gross weight and less.

- ***Visual Runway*** means a runway intended solely for the operation of aircraft using visual approach procedures with no instrument approach procedure planned or indicated on an approved civil or military airport layout plan, or by any other planning document submitted to the FAA by competent authority.

Alteration means any change to the exterior of the property, including the replacement of existing building materials.

Alternative site is one (1) or more separate locations within a telecommunications tower service area at which a provider could place its antenna to serve substantially all of the area intended to be served.

Antenna means an apparatus designed for the transmitting and/or receiving of electromagnetic waves which includes but is not limited to telephonic, radio or television communications. Types of antennas include, but are not limited to, whip antennas, panel antennas, and dish antennas. As used herein the term "antenna" includes all antennas integrated and used as a complete unit, such as an antenna array. For purposes of this LDC, the following shall not be considered antennas and shall not be regulated by this article: Ham/CB/TV antennas; and, antennas that are designed to receive direct broadcast satellite service, including direct-to-home satellite service, that are one (1) meter or less in diameter, or, antennas that are designed to receive video programming services via multipoint distribution services, instructional television fixed services, and local multipoint distribution services, and that are one (1) meter or less in diameter or diagonal measurement; and, satellite earth station antennas in commercial or industrial areas.

- ***Accessory equipment building*** is any building, cabinet, or equipment enclosure constructed for the primary purpose of housing the electronics, backup power, power generators and other freestanding equipment associated with the operation of antennas.

- ***Antenna support structure***. A facility that is constructed and designed primarily for the support of antennas, which include the following types:
    1. *Lattice tower*. A tower that consists of vertical and horizontal supports and crossed metal braces, which is usually triangular or square in a cross section;
    2. *Monopole*. A tower of a single pole design;
    2. *Self-supporting tower*. A tower that has no structurally supportive attachments other than at its foundation; and
    3. *Camouflaged structure*. A structure designed to support antenna and designed to blend into the existing surroundings.

- ***Collocation*** is when more than one (1) provider uses an antenna support structure to attach antennas or use of a structure whose primary purpose is other than to support antennas, such as a light or power pole.

- ***Ham/CB/TV antenna*** is a noncommercial amateur radio or citizens band antenna or antennas that are designed to receive television broadcast signals.

Apartment house. See *Dwelling, multi-family*.

Appeal means any request for a review of a decision of an administrative determination of an employee or official of the City.

Arborist means a person who holds a current certification as an arborist by International Society of Arboriculture (ISA).

Assisted Living Facility means any building or buildings, section or distinct part of a building, private home, boarding home, home for the aged, or other residential facility, regardless of whether operated for profit, which through its ownership or management provides housing, meals, and one or more personal services for a period exceeding 24 hours to one or more adults who are not relatives of the owner or administrator.

Automatic Teller Machine (ATM) means an unstaffed, mechanized consumer banking device that is generally available at all hours.

Automobile repair, garage and body shop means any building or land where automotive vehicles are repaired, rebuilt, reconstructed, or painted, or where tires are recapped, and body work is practiced.

Awning means any fixed roof-like structure, cantilevered, or otherwise entirely supported from a building, so constructed and erected as to allow the awning to be:

1. Readily and easily moved to close an opening;
2. Rolled or folded back to a position flat against the building, or cantilevered position thereof; and
3. Detached from its supporting structure.

Balcony means a projecting platform that is open and roofless, and which is suspended or cantilevered from, or supported solely by, the principal structure with no additional independent supports. In instances of multi-level balconies, the floor of one balcony does not qualify as the roof of another.

Balloons, kites and the like means any free-floating tethered device intended to draw attention to premises.

Beach means the zone of unconsolidated material that extends landward from the mean low water line to the place where there is a marked change in material or physiographic form, or to the line of permanent vegetation, usually the effective limit of storm waves. "Beach" is alternatively termed "shore."

Bed and breakfast inn means an owner-occupied residence offering guestrooms and abbreviated breakfast service.

Breakaway wall means a partition independent of supporting structural members that will withstand design wind forces, but will fail under hydrostatic, wave, and run-up forces associated with the design storm surge. Under such conditions, the wall shall fail in a manner such that it breaks up into components that will minimize the potential for damage to life or adjacent property.

Buffer means a landscaped area which may include walls, fences, berms, trees, shrubs, hedges, ground cover, and other plant materials.

Building means any structure having a roof supported by columns or walls for the housing or enclosure of persons, animals, chattels, or property of any kind. The term "building" shall include the word "structure."

Building footprint means the area of the proposed building including the driveway, sidewalk and road, and five feet around the building but excluding patios, pools, and decks.

Building, height of means the vertical distance from the average natural grade to the highest point on the structure unless located within a flood hazard area.

Bulk Storage Yard – Solids means the principal use of a portion or entire parcel or lot for the external storage of un-contained or open solid material stored for the purpose of distribution. No bulk storage yard for solids shall be located in the special flood hazard area.

Bulk Storage Yard – Liquids means the principal use of a portion or entire parcel or lot for the external storage of flammable or combustible liquids stored for the purpose of distributing the liquids solely by tank truck. No bulk storage yard – liquids shall be located in the special flood hazard area.

Caliper means the diameter of a tree measured six (6) inches above the ground level up to and including four (4) inch diameter size and twelve (12) inches above the ground level for larger sizes.

Capital improvement includes purchase, construction of, addition, or improvement to a public facility.

Caretaker Unit means a single family dwelling unit on non-residential premises, occupied by the person who oversees or maintains the non-residential operation 24 hours per day, and their immediate family.

Carport means a roofed space, accessory to, or a portion of, the principal structure, used for the storage of motor vehicles and enclosed on not more than two (2) sides by walls.
Certificate of approval means a certificate issued by the City Manager or Historic District Council that indicates the approval of plans for erection, alteration, addition, repair, construction, removal, or demolition of a historic landmark or site, or property in the historic district.

Certified property appraiser means a person who develops and communicates real estate appraisal and who holds a current, valid certificate or license issued to him or her for real estate appraisal.

Chimney as defined by the Florida Building Code.

City means the City of Fernandina Beach, a municipal corporation organized and existing under the laws of the State of Florida.

City Manager means the City Manager or his authorized deputy, agent or representative.

Clinic, Medical or Dental shall mean an establishment where patients, who may be kept overnight, are admitted for examination and ongoing treatment by one (1) person or a group of persons practicing any form of healing or health services to individuals, whether such persons be medical doctors, chiropractors, osteopaths, chiropodists, naturopaths, optometrists; dentists or any such profession, the practice of which is lawful in the State of Florida and may include surgical centers or outpatient facilities.

Club means buildings and facilities owned and operated by a corporation or association of persons for social or recreational purposes, but not operated primarily for profit or to render a service which is customarily carried on as a business.

Coastal construction is any work or activity which is likely to have a material effect on existing coastal conditions or natural shore and inlet processes.

Coastal construction control line means that portion of the beach-dune system which is subject to severe fluctuations based on a 100-year storm surge, storm waves, or other predictable weather conditions. Such line is determined by FDEP. See *F.S.* 161.053.

Coastal High Hazard Area means that area identified as the Category 1 hurricane evacuation zone as delineated on the Hurricane Evacuation map.

Commercial building footprint means the areas of the proposed commercial building and the elements required under the LDC, including such items as parking, ingress and egress, and drainage.

Community Redevelopment Area means the CRA Overlay which is intended to provide for and identify priority areas for coordinated redevelopment and revitalization activities. The CRA Overlay encourages improvement of infrastructure and commercial development. The CRA Overlay is applicable to those properties which were included in the CRA Plan established by Resolution 2004-105.

Concurrency means a condition where the necessary public facilities and services to maintain the adopted level of service standard occur in accord with the impacts of development.

- ***Capacity, reserved*** means that portion of the design capacity that has been reserved for valid concurrency certificates and for developments that were issued a development permit.

- ***Concurrency certificate*** means a certificate that indicates whether the proposed development is exempt from concurrency requirements or whether the proposed development is approved or approved with conditions.

Condominium means that form of ownership of real property created pursuant to chapter 718, *Florida Statutes*, which is comprised entirely of units that may be owned by one or more persons, and in which there is, appurtenant to each unit, an undivided share in common elements.

Construction means the carrying out of any building, clearing, filling, excavation, or substantial improvement in the size or use of any structure or the appearance of any land. When appropriate to the content, "construction" refers to the act of construction or the result of construction.

Contributing Property means a building, site, structure, or object which adds to the historical architectural qualities, historic associations, or archaeological values for which a district is significant because

a. it was present during the period of significance of the district, and possesses historic integrity reflecting its character at that time,
b. it is capable of yielding important information about the period, or
c. it independently meets the National Register of Historic Places criteria for evaluation.

Commerce Park means a unified development on a City-owned site with a minimum of 10 acres and 3 or more wholesaling, commercial warehousing or industrial business which are directly served only by internal streets and to which access is gained only at designated entrances.

Craft Distillery is a licensed distillery that produces 75,000 or fewer gallons per calendar year of distilled spirits on its premises and has notified the division in writing of its decision to qualify as a craft distillery (pursuant to F.S. 565.03).

Cupola means a small decorative structure on top of a roof and not intended for habitation.

Deck means a structure, without a roof, either freestanding or directly connected to a primary or accessory structure, generally constructed of wood or a composite material.

Dedication means the deliberate appropriation of land by its owner for any general and public use, reserving to himself no other rights than such as are compatible with the full exercise and enjoyment of the public uses to which the property has been devoted.

Demolition means any act or process that destroys in part or in whole a building or structure.

Development* and *development activity has the meaning in 380.04, *F.S.*

Development order. See "Local development order."

Development permit means an official document of the City which authorizes the commencement of construction or land alteration without need for further application and approval. Development permits include all types of construction permits (plumbing, electrical, foundation, mechanical and so forth, in addition to the building permit itself), grading and clearing permits, septic tank permits, tree removal permits, sign permits, etc.

Diameter at breast high (DBH) means the diameter of a tree four and one-half (4½) feet above ground level from the base of the tree, provided however, if the tree trunk forks below four and one-half (4½) feet above ground level diameter measurement shall be taken one (1) inch below the fork of the trunk.

Driveway means an entry to private property from a public right-of-way.

Dripline is an imaginary perpendicular line that extends downward from the outermost tips of the tree branches to the ground.

Drug store or pharmacy means retail establishments that offer primarily medical prescriptions, over-the-counter medications, medical equipment, and related supplies.

Dune means a mound, bluff, or ridge of loose sediment, usually sand-size sediment, lying upland of the beach and deposited by any natural or artificial mechanism, which may be bare or covered with vegetation and is subject to fluctuations in configuration and location.

Dwelling unit means a single housing unit providing complete, independent living facilities, including permanent provisions for living, sleeping, eating, cooking, and sanitation. This definition includes site-built structures and modular structures manufactured under the Florida Manufactured

Building Act (553.35, *F.S.*) and certified by the State of Florida as complying with the structural requirements of the Florida Building Code. Residents of a dwelling unit may be comprised of:

- an individual;
- two (2) or more persons related by blood, adoption, or marriage, together with any number of offspring, foster, step or adopted children;
- a group of not more than four (4) individuals, not related by blood or marriage, or
- groups licensed by the State of Florida as Group Homes, as defined and regulated by Objective 3.05 of the City of Fernandina Beach Comprehensive Plan.

Types of permissible dwelling units include:

- ***Multi-family*** means a building designed for or occupied exclusively by four (4) or more dwelling units, living independently of each other.

- ***Single-family*** means a building designed for or occupied exclusively by one (1) dwelling unit.

- ***Townhouse*** means a single-family dwelling unit which is constructed in a series or group of attached units with property lines separating such units.

- ***Triplex*** means a building, on a single lot or parcel, designed for, or occupied exclusively by three (3) dwelling units, living independently of each other.

- ***Two-family or duplex*** means a building, on a single lot or parcel, designed for, or occupied exclusively by two (2) dwelling units, living independently of each other.

Easement means a grant by a property owner for the use of a specified portion of his land to another party for a specific purpose.

Economic hardship means facts and circumstances which establish that there are no feasible measures that can be taken which will enable the property owner to make a reasonable beneficial use of the property or derive a reasonable economic return from the property.

Emergency means an event which causes sudden damage to one or more buildings or structures within a historic district, and is declared emergent by the Building Official or Fire Marshal, or which results in a condition which renders the building(s) or structure(s) unsafe or dangerous, or involves the safety of the buildings' inhabitants or risk of damage to the architectural elements. Emergencies include situations that result in a condition that is either unsafe or dangerous due to a sudden damage from a declared emergency such as a hurricane, flood, tornado, earthquake, fire, or other unforeseen event.

Emergency Repair Temporary means work necessary to ensure safety and/or prevent the destruction or dilapidation of buildings and or structures that are immediately threatened or have been damaged by fire, flood, earthquake or other unforeseen circumstances. Typical emergency repairs: covering windows/doors/holes in the roof with plywood, putting tarpaulins over breaks in a structure, putting up temporary supports; removing, marking and storing dangling or loose elements.

Endangered species means any flora or fauna that is so designated in the *Florida Administrative Code*.

Environmentally Sensitive Lands (ESL) are defined as estuarine shoreline areas, wetlands, wetland transitional areas, 100-year floodplains, upland wildlife habitats and all lands designated as Conservation on the Future Land Use Map.

Equivalent Residential Unit (ERU). The following shall be considered as a single ERU:

1. Each single-family residence served by the City through a single sewer service connection.
2. Multiunit apartments, condominiums, and similar multiunit residential structures or complexes are defined as consisting of multiple single-family residential units, regardless of whether or not a single sewer connection serves the entire complex.
3. Each residential room or combination of rooms designed to be occupied on a permanent or long-term basis and not otherwise defined as lodging accommodations in this section,
4. Each apartment unit, condominium unit, multifamily unit, or prepared manufactured home space that includes connection points for sewer service and that is owner-occupied, offered separately for rent as a rental or lease unit, or vacant.

Erodible slope shall mean all slopes with inclines in excess of four percent unless modified by the administrative official based on consideration of specific soil conditions.

Fertilizer means any substance or mixture of substances, except pesticide/fertilizer mixtures such as "weed and feed" products, that contains one or more recognized plant nutrients and promotes plant growth, or controls soil acidity or alkalinity, or provides other soil enrichment, or provides other corrective measures to the soil. [Guidance: Regulation of pest control businesses and applicators, and of pesticide use, is preempted to the Florida Department of Agriculture and Consumer Services (FDACS) by Chapters 482.242, and 487.051 (2), F.S. and suspected pesticide misuse should be reported to FDACS. Weed and feed products are registered pesticides. The Limited Commercial Landscape Maintenance Certification Program does not allow landscape maintenance workers to make any kind of pesticide applications (including weed control and/or weed and feed products) to any turf areas. Per 482.165(3) F.S., a civil penalty for unlicensed application of pesticides, including weed and feed products, may not be less than $500 or more than $5,000 for each offense.]

Final plat is the final design drawing showing the boundaries and locations of all lots. The final plat is intended to provide a perpetual record of the subdivision.

Five-year schedule of capital improvements means that schedule adopted as part of the Comprehensive Plan.

Flood is a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland or tidal waters, or the unusual or rapid accumulation of runoff of surface waters from any source.

- ***Area of special flood hazard*** means the land within the City which is subject to a one (1) percent chance of flooding annually, as determined on the flood hazard boundary map, and designated as zone A on the map. Zone A may be further refined into zones A, AO, AH, A1-A30, A99, V, and V1-V30.

- ***Base flood***. The base flood storm event for purposes of this article is the 100-year, twenty-four (24) hour storm event. The rainfall expected for this storm event shall be interpolated or extracted from acceptable hydrological publications from reliable sources such as the St. Johns River Water Management District, Soil Conservation Service, National Oceanic and Atmospheric Administration, etc.

- ***Base flood elevation*** is the minimum flood elevation established by FEMA on the Flood Insurance Rate Map.

- ***Flood hazard boundary map*** means the official map on which the Federal Emergency Management Agency has delineated both flood boundaries and regulatory floodways. (See also "Flood insurance rate map")

- ***Flood insurance rate map (FIRM)*** means an official map of the City, on which the Federal Emergency Management Agency has delineated both the areas of special flood hazard and the risk premium zones applicable to the City.

- ***Floodproofing*** means any combination of structural and nonstructural additions, changes, or adjustments to properties and structures which reduce or eliminate flood damage to land, water and sanitary facilities, structures, and contents of buildings.

- ***Minimum flood elevation*** means the base flood elevation established by the Federal Emergency Management Agency on the Flood Insurance Rate Map.

Floor Area Ratio is calculated by dividing the total of all floor areas on the site by the total site area. Floor areas include the gross floor area on each floor or story of the principal building and the floor area of any accessory building, not including parking area.

Florida-friendly landscaping means quality landscapes that conserve water, protects the environment, and are adaptable to local conditions and which are drought tolerant. The principles of Xeriscape include planning and design, appropriate choice of plants, soil analysis which may include the use of solid waste compost, efficient irrigation, practical use of turf, appropriate use of mulches, and proper maintenance. (Ref. §373.185 F.S.). See also Xeriscape.

Florida registered professional engineer is an engineer registered in the State in good standing with the Florida Board of Engineers as defined by *Florida Statutes*.

Garage apartment means an accessory building, not part of, or attached to, the principal structure, containing living facilities for not more than one (1) family, above a garage or carport. No living accommodations shall occupy ground level space.

Gasoline service station means any building, structure, or land used for the dispensing, sale or offering for sale at retail of any automobile fuels, oils, or accessories. No major repairs such as body building, welding, tire recapping or painting shall be permitted.

Grade, finished means a reference plane representing the average of finished ground level adjoining the building or structure at all exterior walls.

Grade, natural means the elevation of the ground level in its natural state, as measured in feet above mean sea level, before construction, filling, or excavation. The natural grade elevation shall be measured as the average elevation from the four (4) corners of the building site, based on a certified survey.

Gross floor area means the sum of the gross horizontal area of all floors of a building, measured from the exterior faces of the exterior walls.

Gross site area means the total area of a lot or parcel, less any public right-of-way.

Ground cover means plants of species which normally reach an average height of twenty-four (24) inches upon maturity, installed in such a manner as to form a continuous cover over the ground. Sod shall not be considered ground cover.

Group home facility means a residential facility which provides a family living environment including supervision and care necessary to meet the physical, emotional, and social needs of its residents. The capacity of such facility shall be at least four (4) residents but not more than fifteen (15) residents.

Group Residential means a residential facility occupied by five (5) or more unrelated individuals on a monthly or longer basis. Group Residential facilities may be operated by a separate entity (whether for-profit or not-for-profit) or may operate under the control of the individuals who occupy the residence. A Group Residential facility is not a Group Home Facility as defined and regulated in Objective 3.05 of the Comprehensive Plan and does not provide any personal care or supervisory services to its residents.

Habitable means suitable to live in or to occupy.

Hatrack means to severely prune a tree in order to permanently maintain growth at a reduced height or to flat-cut a tree, severing the leader or leaders, or pruning a tree by stubbing off mature wood larger than three (3) inches in diameter; or reducing the total circumference or canopy spread not in conformance with National Arborists' Society standards.

Hazardous Material means any chemical product listed as a hazardous substance, Extremely Hazardous Substance, or any material designated as a hazardous waste according to any of the following Federal or State regulations:

1. Title 40, Code of Federal Regulations, Part 261 (Identification and Listing of Hazardous Wastes).
2. Title 40, Code of Federal Regulations, Part 302.4 (Designation of Hazardous Substances).
3. Title 40, Code of Federal Regulations, Part 355, Appendices A and B (List of Extremely Hazardous Substances).
    a. 62-150, F.A.C.
    b. 62-730, F.A.C.
    c. 27P-14, F.A.C.

Health care facilities means any building or buildings, section or distinct part of a building or private home, used for licensed assisted living facilities, nursing home facilities, respite care or other long-term care facilities that provide care for a period exceeding twenty-four (24) hours.

Health club means a building or portion of a building designed and equipped for the conduct of sports or exercise activities operated for profit or not-for-profit, and that can be open only to bona fide members and guests of the organization or open to the public for a fee.

Hedge means a row of closely planted shrubs or other vegetative screening forming a boundary or restrictive barrier.

Heritage tree means any native tree designated as irreplaceable by the City, due to its size, age, historic, aesthetic, or cultural significance.

Historic district means a geographically definable area meeting the qualifications of this LDC.

Historic landmark or site means a building, structure, object, or other feature, or site, or a site listed in the National Register of Historic Places or listed in the City's inventory of historical sites, deemed to have significance as outlined in this LDC.

Historically or architecturally significant means any structure or area that is listed on the National Register of Historic Places, the Florida Master Site File or a local registry.

Home occupation means an occupation or business activity carried on within a legally established dwelling unit.

Home ownership affordability agreement (HOAA) is an agreement between the City and an owner of an affordable unit including shared equity and appreciation formulae to assure continued funding and replication of home ownership opportunities.

Hotel or motel means any public lodging establishment which offers rental units with daily or weekly rates, off street parking for each unit, a central office on the property with specified hours of operation, and which is recognized as a hotel or motel in the community in which it is situated or by the industry. See also *Lodging Accommodations*.

Hydrozone means a distinct grouping of plants with similar water needs and climatic requirements.

Improvement agreement means a document which indicates that all required infrastructure and other improvements specified on a site plan or subdivision plat shall be satisfactorily constructed within the period stipulated in the local development order.

Impervious surface means a surface that has been compacted or covered with a layer of material so that it is highly resistant to infiltration by water. It includes but is not limited to semi-impervious surfaces such as compacted clay, as well as most conventionally surfaced streets, roofs, sidewalks, parking lots and other similar structures.

Impervious surface ratio is calculated by dividing the total impervious surface by the gross site area.

Industrial waste means the liquid wastes from industrial manufacturing processes, trade, or business, as distinct from sanitary sewage.

Irrigation system means a constructed watering system designed to transport and distribute water to plants.

Irrigated landscape area *means all outdoor areas that require a permanent irrigation system.*

Junkyard means an open area where waste, used or secondhand materials are bought, sold, exchanged, stored, baled, packed, disassembled or handled, including but not limited to scrap iron and other metals, cloth, paper, rags, plumbing fixtures, rubber tires and bottles. The term "junkyard" includes an automobile wrecking yard, salvage yard or a recycle center.

Kitchenette means an area within a building containing limited kitchen facilities such as a bar sink, microwave oven, refrigerator/freezer not exceeding 10 cubic feet. Stoves, ranges, and other cook tops are prohibited.

Land clearing means any development or other activity which alters the land upon which it is located, except for normal sodding and placement of signs.

Landscape means any combination of living plants (such as grass, ground cover, shrubs, vines, hedges, or trees and non-living landscape material such as rocks, pebbles, sand, mulch, walls, fences, or decorative paving materials).

Landscape Design means consultation for and preparation of planting plans drawn for compensation, including specifications and installation details for plant materials, soil amendments, mulches, edging, gravel, and other similar materials. Such plans may include only recommendations for the conceptual placement of tangible objects for landscape design projects. Construction documents, details, and specifications for placement of tangible objects and irrigation systems shall be designed or approved by licensed professionals as required by law.

Land use restriction agreement (LURA) is an agreement between the City and the owner of rental housing units.

Large flat surface area (unpaved) shall mean an area which is flat or whose slope is less than four percent and which consists of more than 1,000 square feet of exposed soil.

Laundry, self-service **and** ***laundromat*** mean a business rendering a retail service by renting to the individual customer equipment for washing, drying and otherwise processing laundry, with that equipment to be serviced and its use and operation supervised by the management.

Liquor store/bar/lounge means a premise where alcoholic beverages are stored or sold by licensee. This does not include a restaurant whose sales exceed 51% of its gross revenue.

Local development order means a written order to approve or approve with conditions, where assigning conditions is permissible, a site plan, subdivision plat, rezoning, variance, administrative waiver, major or minor amendment to a site plan or subdivision plat, or lot line adjustment. A local development order does not include development permits which may be necessary to authorize construction, installation, erection, or modification of buildings and structures or development permits which may be necessary to authorize land clearing, grading and

earthwork, tree removal, temporary use, special events, driveway connections, right-of-way utilization, stormwater facilities, sewer connection, potable water connection, street construction, sidewalk construction, and paving.

Local governing body means the City of Fernandina Beach.

Lodging accommodations means any unit, group of units, dwelling, building or group of buildings within a single complex of buildings, which is rented to guests more than three (3) times in a calendar year for periods of less than thirty (30) days, or one (1) calendar month, whichever is less, or which is advertised or held out to the public as a place regularly rented to guests. Lodging Accommodations may not be homesteaded and shall not contain a kitchen but may have a kitchenette as defined in this section. Lodging Accommodations shall not contain laundry facilities in individual units or rooms but may have a central laundry room accessible to all guests. *See also Hotel/motel.*

Lot means a parcel of land whose boundaries have been established by some legal instrument such as a recorded deed or a recorded map and which is recognized as a separate legal entity for purpose of transfer of title, use, or improvement.

- ***Corner lot*** means a lot abutting upon two (2) or more streets at their intersection.
- ***Double-frontage lot*** means a lot having a frontage on two (2) nonintersecting streets, as distinguished from a corner lot.
- ***Interior lot*** means a lot having street frontage on only one (1) side.
- ***Lot depth*** means the distance measured in a mean direction of the side lines of the lot from the midpoint of the front line to the midpoint of the opposite rear line of the lot.
- ***Lot of record*** means a lot which is a part of a subdivision, the map of which has been recorded in the office of the Clerk of the Circuit Court of the County, as of the effective date of this Land Development Code.
- ***Lot width*** means the mean horizontal distance between the side lot lines, measured at right angles to the depth.

Lowest floor (including basement) means any floor used for living, which includes working, sleeping, eating, cooking or recreation facilities, or any combination thereof, but does not include temporary storage or parking garage areas.

Main shall refer to a pipe, conduit, or other facility installed to convey water service to individual laterals/services or to other mains.

Mansard roof means a sloping structure at or above the roofline of a building and extending beyond the vertical walls of the building.

Manufactured home means a structure, transportable in one (1) or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when connected to the required utilities.

Manufacturing and/or assembly – Artisan means the shared or individual use of hand-tools, mechanical tools, and electronic tools for the manufacture of finished products or parts, including design, processing, fabrication, assembly, treatment, and packaging of products, as well as the incidental storage, sales and distribution of such products. Typical artisan manufacturing includes, but is not limited to, food and bakery products; printmaking; leather products; jewelry and clothing/apparel; metal work; furniture; cabinet making; glass or ceramic production. Such uses shall not produce noise, vibration, air pollution, fire hazard, or noxious emissions that will disturb or endanger neighboring properties.

Manufacturing and/or Assembly – Heavy means uses involving intensive manufacturing and industrial operations, including the manufacturing, assembly, fabrication, compounding, processing and /or treatment of extracted or raw materials or other industrial products; packaging and freight loading/unloading activities; utilization, handling and bulk storage of materials including raw materials, chemicals and hazardous materials associated with manufacturing processes; and all other associated or ancillary activities. Such use does not include heavy metal fabrication, batch plants, salvage yards, chemical or petroleum manufacturing or refining, rubber or plastics manufacturing, or other uses generating potentially harmful environmental or nuisance impacts.

Manufacturing and/or assembly – Light means the indoor or sheltered production, manufacturing and assembly, processing, cleaning, testing and distribution of materials, goods, foodstuffs and/or products that, by the nature of the materials, equipment and process utilized, is to a considerable measure clean, quiet, and free of any nuisance impacts or hazardous element.

Manufacturing and/or assembly – Marine-related means a facility designed for the construction or repair of waterborne vessels and ancillary items for commercial purposes or processing or for packaging of seafood.

Mean high water line means the intersection of the tidal plane with the mean high water with the shore. "Mean high water" is the average height of high waters over a nineteen (19) year period (see 177.27(15), *F.S.*).

Mean sea level means the average height of the sea for all stages of the tide over a nineteen (19) year period.

Mechanical Equipment means equipment which provides heating, venting and air conditioning, water tanks, elevator and elevator shafts, and other mechanical systems as defined in the Florida Building Code.

Media peonia is one-half (½) of a peonia, or lot, within the Old Town Historic District.

Microirrigation (low volume) means the application of small quantities of water directly on or below the soil surface, usually as discrete drops, tiny streams, or miniature sprays through emitters placed along the water delivery pipes (laterals). Microirrigation encompasses a number

of methods or concepts including drip, subsurface, bubbler, and spray irrigation, previously referred to as trickle irrigation, low volume, or low flow irrigation.

Mixed Use Structure means a single building which contains more than one type of land use.

Mobile Food Dispensing Vehicles means any vehicle that is a public food service establishment and that is self-propelled or otherwise movable from place to place and includes self-contained utilities, including but not limited to, gas, water, electricity, or liquid waste disposal.

Mobile Food Dispensing Pad means an area designated within a food truck park that is designed for food truck use with provision for applicable utilities, including water, sewer, electricity, gas, grease interceptors, and solid waste.

Mobile Food Dispensing Park means a parcel(s) of land containing two or more food truck pads where food trucks serve as the principal use of the parcel(s). This definition does not include any parcel(s) where food trucks or vending carts serve as a secondary or accessory use.

Motor home means a vehicular unit which does not exceed 40 feet in length and is a self-propelled motor vehicle primarily designed to provide temporary living quarters.

Motor vehicle means a vehicle or conveyance which is self-propelled and designed to travel along the ground, and includes, but is not limited to, automobiles, buses, mopeds, motorcycles, trucks, tractors, go-carts, golf carts, campers, motor homes, and trailers.

Mulch means Non-living, organic or synthetic materials customarily used in landscape design to retard erosion and retain moisture.

Native plant material means any plant material indigenous to northeast Florida or the City of Fernandina Beach.

Native vegetation means any plant species with a geographic distribution indigenous to the Amelia Island region.

Net Density is determined by multiplying the "maximum allowable units per acre" by the "net buildable land area" expressed in acreage. "Net buildable land area" means those contiguous land areas under common ownership proposed for residential development, minus undevelopable environmentally sensitive areas, wetland and wetlands transitional areas[1], floodplains and waters of the state. Lots adjoining an existing right-of-way may calculate half of the width of that right-of-way as part of the "net buildable land area" definition.

> [1]*Properties with cross jurisdictional wetlands pursuant to 373.414(1)(c), Florida Statutes may calculate wetland and wetland transitional areas as part of the net buildable land area.*

Nonconforming use means any preexisting use of land that was lawfully established and maintained but is inconsistent with the use provisions of this LDC or amendments thereto because of a subsequent change in the zoning designation.

Nonconforming structure means a structure that was legally permitted at the time of its construction prior to subsequent changes in the code which changes would no longer permit the re-establishment of such structure, including nonconformity with current density, floor area ratio, parking, structure setback, impervious surface ratio or lot coverage.

Noncontributing property means a building, site, structure, or object which does not add to the historic architectural qualities, historic associations, or archaeological values for which a district is significant because

a. it was not present during the period of significance of the district,
b. due to alterations, disturbances, additions, or other changes, it no longer possesses historic integrity reflecting its character at that time or is incapable of yielding important information about the period, or
c. it does not independently meet the National Register of Historic Places criteria for evaluation.

No net loss of trees means protected trees removed in excess of those permitted by this LDC.

Non-residential Structure means a building or enclosure which does not include one or more residential dwelling units.

Nursing or convalescent home*,* see "Health care facilities."

Occupancy means taking or keeping possession for purposes of residing in a dwelling unit, or the installation, storage, or use of equipment, merchandise, or machinery in any nonresidential building.

Office, business or professional shall mean an office for such operations as real estate agencies, advertising agencies (not sign manufacturing), insurance agencies, travel agencies and ticket sales, chamber of commerce, credit bureau, abstract and title insurance companies, management consultants, stockbroker, and the like; or an office for the use of a person or persons generally classified as professionals such as architects, engineers, attorneys, accountants, lawyers, dentists, physicians' offices (not including surgical centers or outpatient facilities and whose patients are not kept overnight), veterinarians (not including overnight boarding of animals on the premises), psychiatrists, psychologists, and the like.

Off-site means a location upon some site, lot, tract, or parcel other than the development site.

On-site means located on the same site, lot, tract, or parcel.

Ornamental feature means one (1) or more distinctive elements on or part of a building that is provided purely for decoration or as nonfunctional embellishments, such as medallions, scroll work, or trim.

Parapet means that portion of wall extending above the roofline.

Parking area means all property used for off-street parking vehicular aisles and access ways, loading zones, interior and perimeter landscaping, and other outdoor vehicular use areas.

Parking lot means an area or plot of land used for the storage or parking of motor vehicles.

Pennant means any streamer designed to be hung from poles, on walls, or any other structure outside the building, and which blows with the wind and is designed to attract attention.

Peonia is a lot within the Old Town Historic District, which measures forty-six and one-half (46½) feet by ninety-three (93) feet.

Pervious Paving Materials means porous asphaltic, concrete or other surface (pavers or grass pave) and a high-void aggregate base which allows for rapid infiltration and temporary storage of rain on, or runoff delivered to, paved surfaces.

Planned Unit Development (PUD) consists of land under unified control for development purposes, planned and developed as a whole, in a single development operation or a programmed series of development operations, including lands, buildings, structures, and uses.

Plant Bed means a grouping of trees, shrubs, ground covers, perennials or annuals growing together in a defined area devoid of turfgrass, normally using mulch around the plants.

Plant material means any ground covers, shrubs, turf or vines which are commercially propagated or cultivated for the nursey or landscaping industry.

Porch means a covered or uncovered but unenclosed projection from the main wall of a building that may or may not use columns or posts for structural purposes.

Potable water system shall refer to the City's water distribution systems, and any and all component parts thereof.

Preservation credits means a credit for trees preserved on a site. The credit will be based on the inch for inch DBH of protected trees which are preserved on a site and may be transferred only within unified multiple lot developments.

Principal building or structure means the primary building on a lot or a structure that houses a principal use.

Property shall mean the land, or improvements upon land, of which the person is owner or over which the person has control either by contract or possessory interest sufficient to authorize the person to make any application for the land or site.

Protected tree means any existing, healthy tree having a five (5) inch DBH, or greater and not identified on the most recent Florida Exotic Pest Plant Council Invasive Plant list (Category I or II) and any tree that was planted or preserved in compliance with an approved development order or to mitigate removal of a protected tree.

Protective barrier means a temporary barricade beneath the drip line of a tree to protect its root system during construction on the site.

Public Beach Access shall mean those rights of ways or easements used by members of the public to access the beach. The right of way or easement may be used for vehicle traffic to access available parking, for pedestrian and other non-motorized traffic, and for public parking for

members of the public while using the beach. The City may appropriately sign a beach access to prevent overnight parking or other use except as stated herein.

Public facilities mean major capital improvements and include any or all of the following: government buildings, roads, sidewalks, curbs and gutters, sanitary sewer facilities, potable water facilities, drainage facilities, solid waste facilities, and recreation and open space facilities. The term shall include "public improvements."

Public property means any lands and improvements owned by the federal government, the State, County, or municipality, and includes sovereignty submerged lands located adjacent to the County or municipality, buildings, grounds, parks, playgrounds, streets, sidewalks, parkways, rights-of-way, and other similar property.

Racetrack means a facility consisting of a paved or unpaved surface used for any type of racing or driving. A racetrack may or may not include seating, concession areas, suites, and parking facilities. This definition shall also include any facility used for simulated racing or driving conditions (test tracks, "shakedown" tracks, or other similar facilities). Racetracks are prohibited in all zoning districts except as a permitted special event or through an approved facility use agreement.

Research and development facility means an establishment that conducts research and/or development and/or creates prototypes of high-technology electronic, industrial, or scientific products. It may include laboratories conducting educational or medical research or testing. Such uses shall not produce noise, vibration, air pollution, fire hazard, or noxious emissions that will disturb or endanger neighboring properties.

Remove or removal means actual or effective removal through killing, damaging, or destroying of any trees which are not exempt trees.

Renovation means a development which includes:

(1) Additions to existing buildings or structures totaling thirty (30) percent or more of the total gross floor area of all existing buildings or structures on the site inclusive of any additions made during the previous three (3) years; or

(2) Improvements to existing buildings and site improvements consisting of any combination of repairs, reconstruction and alteration to a building or site the cumulative costs of which equal or exceed twenty-five (25) percent of the current assessed value of the buildings on the site and site improvements, not including the assessed value of the land, prior to improvement.

Replacement tree means a tree from the list of canopy trees contained in this LDC as replacement(s) for any tree(s) removed.

Residential Structure means a building or enclosure which includes one or more dwelling units.

Resort rental residential means structures containing accommodations made available to persons for temporary occupancy. Each unit of housing is a dwelling unit, whether denominated by an apartment, condominium unit, cooperative unit, time-share unit, single-family unit, or otherwise. Motels, hotels, and bed and breakfasts are excluded from this definition.

Right-of-way means land reserved, used or to be used for a street, alley, walkway, drainage facility or other public purpose.

Roofline means the highest line of the roof, the mansard, or the facade wall constituting part of the structural building wall.

Rooftop architectural features means any space which is unhabitable and non-conditioned part, portion, projection, or any characteristic which contributes to the beauty or elegance of a building or structure, exclusive of signs. Example features may include, but are not limited to, cupolas, parapet walls, railings, weathervanes, or other similar minor ornamental elements.

Runoff means the water that results from and occurs following a rain event, or following an irrigation event, because the water is not absorbed by the soil or landscape and flows from the area.

Salvage Yard/ Junkyard means a facility or area for storing, keeping, selling, dismantling, shredding, compressing, or salvaging scrap or discarded material or equipment. Scrap or discarded material includes, but is not limited to, metal, paper, rags, tires, bottles, motor vehicle parts, machinery, structural steel, equipment, and appliances.

Sanitary sewer means a sewer which carries sewage and to which stormwaters, groundwaters and surface waters are not intentionally admitted.

- ***Sanitary sewer facilities***. A sanitary sewer system includes primary and secondary systems which are necessary to provide service to any given residential and nonresidential unit. This definition will only deal with the primary system and represents an established capacity and an established capital value. The primary systems are:
  1. Effluent disposal facilities;
  2. Treatment plants;
  3. Pump stations;
  4. Force mains; and
  5. Interceptors.

- ***Sewage*** means a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with those groundwaters and stormwaters and surface waters as may be present.

Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings means those standards, codified in 36 CFR 67, and those guidelines developed by the Secretary of the Interior, to guide work undertaken on historic resources.

Sedimentation shall mean any removal and/or loss of soil by the action of water, gravity, or wind. Erosion includes both the detachment and transport of soil particles.

Setback line means the distance between the property line and any structure and may be measured from the front, back or side property line.

Shade Tree means any native self-supporting woody plant of a species that is generally well-shaped, well-branched, and well-foliated which normally grows to an overall minimum height of

thirty-five (35) feet with a minimum average mature crown spread of thirty (30) feet, and which is commonly accepted by the local horticultural and arboricultural professionals as a species which can be expected to survive for at least fifteen (15) years in a healthy and vigorous growing condition over a wide range of environmental conditions.

Shopping center means a group of retail stores, including strip stores, service establishments and other businesses planned to serve a community or neighborhood, which are adjacent to and utilize a common parking area. The area is usually under single ownership or unified control.

Shoreline. See also "Mean high water line."

Shrub means a multi-stemmed plant with a spread and height characteristic of its species and with a minimum of two (2) feet when planted.

Sign means any device or display consisting of letters, numbers, symbols, pictures, illustrations, announcements, cutouts, insignia, trademarks or demonstrations, including all trim and borders, designed to advertise, inform or attract the attention of persons not on the premises on which the device or display is located, and visible from the public way. A sign shall be construed to be a single display surface or device containing elements organized, related, and composed to form a single unit.

- ***Awning sign*** means a sign that is painted on or applied to an awning or canopy. An awning is a metal and/or cloth structure projecting from a wall.

- ***Banner sign*** means any sign having characters, letters, or illustrations applied to cloth, paper, or fabric of any kind, with only such material as backing, which is mounted to a pole or building by one (1) or more edges. National, state, or municipal flags or the official flag of a business or institution shall not be considered a banner.

- ***Barber pole sign*** means any traditional cylindrical, striped revolving sign identifying barbers.

- ***Bracket sign*** means any sign, single- or double-faced, mounted on brackets, poles or beams, projecting at an angle from the front or side of any building and supported solely by brackets or beams attached to the building.

- ***Changeable copy sign*** means a static, non-electronic sign which allows characters, letters, or illustrations to be manually changed without altering the sign structure.

- ***Construction sign*** means any sign advertising the construction actually being done on the premises where the sign is located. The sign may also include the contractor's name, the owner's name, the architect's name and the name of the institution providing financial services.

- ***Detached sign.*** See "Freestanding/ground sign" and "Pole sign."

- ***Directional sign, private*** means any sign located on the premises to direct the public to any parking areas, facility, or service located on the premises, or to direct traffic on the

premises. In the Historic District, this shall also include any sign that is provided for and controlled by the City on City property but paid for by the merchant or business owner and used to direct the public to a place of business.

- ***Directional sign, public*** means any sign permanently or temporarily erected by or with approval of the City or authorized government agency to denote the route to any city, town, village, recreational area, park, historic place, shrine or hospital; signs directing and regulating traffic; notices of any public transportation agency necessary for the direction or safety of the public; and notices or symbols as to the time and place of activities or meetings of civic organizations.

- ***Easel sign*** means a freestanding sign is mounted on a tripod, often single-sided, is portable and may readily be moved from place to place.

- ***Exempt sign*** means any sign for which a permit is not required.

- ***Freestanding or ground sign*** means any detached sign, including any signs supported by uprights or braces placed upon or in or supported by the ground and not attached to any building. Includes the term "monument sign."

- ***Garage sale sign*** means any sign pertaining to the sale of personal property in, at, or upon any residentially zoned property. Garage sales shall include but are not limited to all such sales and shall include the advertising of the holding of any such sale, whether made under any other name, such as lawn sale, backyard sale, home sale, attic sale, rummage sale, patio sale, flea market sale, marriage sale or any similar designation.

- ***Ground sign*** means any sign which is supported by structures in or on the ground and independent of support from any building.

- ***Identification sign*** means any sign which indicates the name, owner or address of a residence, office or business, but bearing no advertising.

- ***Illuminated sign*** means any sign having characters, letters, figures, design or outlines illuminated by electric lights or luminous tubes designed for that purpose, whether or not the lights or tubes are physically attached to the sign.

- ***Incidental sign*** means any generally informational sign which has a purpose secondary to the use of the site on which it is located, such as "Open", "Closed", "Welcome", "No Parking", "Entrance", "Loading Only", "Telephone", and similar information and directives. No sign with a commercial message legible from a position off the site on which the sign is located shall be considered incidental.

- ***Internally lit sign*** means any sign where light shines through a transparent or semi-transparent sign face to illuminate the sign's message.

- ***Legacy sign*** refers to any signage which has gained historic significance in its own right. The signs do not have to relate to the present occupancy or use. Legacy signage includes extant signage, portions of which may or not be visible but can be documented by

historic photographs and may also include accurately reconstructed or entirely repainted signage based upon such documentation. Legacy signage may be painted or constructed, as in a blade, pylon, or rooftop sign. Painted wall graphics, including accurately replicated/repainted wall graphics related to on or off-site content, are treated as Legacy Signage provided, they exactly duplicate an earlier sign on the subject property.

- ***Off-site sign*** means any sign which advertises the services or products of a business not on the premises where the sign is erected.

- ***Pixelated LED sign*** means any sign in which individual light-emitting diode (LED) pixels are individually visible to the naked eye.

- ***Pole sign*** means any sign erected on a pole which is wholly independent of any building for support. See also ground signs, freestanding signs, and monument signs.

- ***Political signs*** are those concerning candidacy for public office or urging action on any ballot issue in a forthcoming public election or pertaining to or advocating political views or policies.

- ***Portable sign*** means any sign, whether on its own trailer, wheels, chassis, or otherwise movable support, which is manifestly designed to be transported from one (1) place to another.

- ***Projecting sign*** means any sign which is affixed to any building, wall, or structure and which extends beyond the building, wall, and structure, building line or property line (see "bracket sign").

- ***Real estate sign*** means any on-premises structure showing that the premises upon which it is located is either for sale, for lease or for rent, or open for inspection.

- ***Sandwich or sidewalk sign*** means any sign, double- or single-faced, which is portable and may readily be moved from place to place.

- ***Snipe sign*** means any sign which is tacked, nailed, posted, pasted, glued or otherwise attached to trees, poles, stakes, fences or other objects.

- ***Street number sign*** means any sign displaying a street number on a structure, wherever located.

- ***Time and temperature sign*** means any sign displaying time and temperature or date information in a variable manner.

- ***Trailer/mobile sign*** is defined under “Portable signs.”

- ***Wall graphic*** means material painted directly on a building exterior. Wall graphics include all types of painted materials including signs, murals, artwork, commercial and non-commercial speech.

- ***Wall sign.*** Any sign that shall be affixed parallel to the wall or painted on the wall of any building in such a manner as to read parallel to the wall on which it is mounted, in such a way that the wall becomes the supporting structure for, or forms the background surface of the sign; provided, however, said wall sign shall not project more than 12 inches from the face of the building; shall not project above the top of the wall or beyond the end of the building.

- ***Yard sale sign.*** See "Garage sale sign."

Site plan is the development plan for one (1) or more lots or parcels on which is shown the existing and proposed conditions of the lot(s) or parcel(s) including all of the requirements set forth in this LDC.

Small-Scale Winery or Brewery is a licensed vendor engaged in brewing malt beverages at a single location which does not exceed 10,000 kegs (15.5 gallons) per year (pursuant to F.S. 561.221).

Species of special concern means any flora or fauna designated as such by the State.

Soil erosion shall mean any removal and/or loss of soil by the action of water, gravity, or wind. Erosion includes both the detachment and transport of soil particles.

Street means a public way for vehicular and pedestrian traffic, whether designated as a street, highway, thoroughfare, parkway, throughway, road, boulevard, lane, or place, or however otherwise designated.

- ***Alley*** means a roadway dedicated to public use which affords only a secondary means of access to abutting property and is not intended for general traffic circulation.

- ***Arbor street*** means tree-lined streets created through the process outlined herein under the Section "Requirements for street trees."

- ***Arterial streets and highways*** mean those which are used primarily for fast or heavy traffic.

- ***Collector streets*** mean those which carry traffic from minor streets to the major system of arterial streets or highways, including the principal entrance streets of residential development and streets for circulation within such a development.

- ***Cul-de-sac*** means a street having one (1) open end and being permanently terminated by a vehicular turnaround.

- ***Local streets*** mean those which are used primarily for access to abutting property.

Structural alterations mean any change, except for repair or replacement, in the supporting members of a building, such as bearing walls, columns, beams or girders, floor joists or roof joists.

Structure means anything constructed, installed or portable, the use of which requires a location on a parcel of land. It includes a movable structure while it is located on land which can be used for housing, business, commercial, agricultural or office purposes either temporarily or permanently. It also includes fences, billboards, swimming pools, poles, pipelines, transmission lines, tracks, and signs.

Subdivision means the division of a parcel of land into three (3) or more lots or parcels either by plat into lots and blocks or by metes and bounds description for the purpose of transfer of ownership or development or use.

Threatened species means any flora or fauna that is so designated in the *Florida Administrative Code*.

Telecommunications is the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received.

- ***Provider*** means an individual or entity, licensed to do business in the City, who offers commercial mobile services, unlicensed wireless services, common carrier wireless exchange access services, as defined in Title *47*, *United States Code*, Section 332(c)(*7*)(C), or the holder of a valid FCC broadcast license.

- ***Wireless communications facility*** means facilities for the provision of a provider's services.

Tree means any self-supporting woody plant having at least one well-defined stem and a minimum of two and a half (2.5) in DBH, and which normally grows to a minimum height of 25 feet in an urban area.

Tree Hazard means any potential tree failure due to a structural defect that may result in property damage or personal injury.

Trimming (or Pruning) means to selectively remove branches without irreversibly altering the natural shape or form of a tree and without irreversibly damaging or destroying the tree.

Used and occupied include the words "arranged, designed or intended to be used," and the word "occupied" shall be deemed to include the words "arranged, designed or intended to be occupied."

Utility building means a building intended for storage of household equipment, tools, and other items; also called “storage building” or “shed.”

Utilities system, as used herein, refers to the City's water distribution and wastewater collection systems, and any component parts thereof, which systems are distinguished herein as the context determines.

Variance means a grant of relief authorized by the Board of Adjustment or Historic District Council, by an affirmative vote of four (4) members of the HDC or the Board of Adjustment, that relaxes specific provisions of this LDC relating to land use and that will not be contrary to the public interest, when such provisions, if enforced, would result in undue hardship.

Visibility triangle means the area of land described as either of the following:

(1) The triangular area of property on each side of a driveway formed by the intersection of the driveway and the public right-of-way line and the third side being a line connecting the ends of the two (2) other sides; or

(2) The triangular area of property located at a corner formed by the intersection of two (2) or more public rights-of-way with two (2) sides of the triangular area along the abutting public right-of-way lines, measured from their point of intersection, and the third side being a line connecting the ends of the two (2) other sides.

Warehouse means the principal use of an entire parcel or lot for a structure used for the storage of goods and commodities prior to their use, distribution, or sale. A warehouse use specifically excludes bulk storage of materials generating potentially harmful environmental or nuisance impacts. Hazardous materials or hazardous waste shall not be stored within a special flood hazard area.

Water-dependent Uses - Activities which must be carried out in or adjacent to water areas because the use requires access to the water body for: waterborne transportation, recreation access, electrical generating facilities, or water supply. These include, but are not limited to, commercial marinas, boat ramps/docks, electrical generation plants, and fishing piers.

Water-enhanced Uses – Activities that benefit economically from being located on or near the water but are neither dependent on direct access to water nor provides goods or services directly related to water-depend uses. Water-enhanced uses are specifically excluded from definitions of both water-dependent and water-related uses.

Water-related Uses –Activities which are not directly dependent upon access to a water body, but which provide goods and services that are directly associated with water-dependent or waterway uses. These include, but are not limited to, commercial resorts, campgrounds, fish camps, seafood processing operations, dive shops, and bait and tackle stores.

Wellfield protection zone means all land within a 500-foot radius of a public potable water well.

Wetland and wetland transition area shall have the meaning set forth in the Fernandina Beach Comprehensive Plan.

Wetland protection zone means the jurisdictional wetland and the land area within twenty-five (25) feet of the wetland boundary.

Wholesale Establishment means an establishment or place of business primarily engaged in selling and/or distributing merchandise to retailers, to industrial, commercial, institutional, or professional business users, or to others acting as wholesalers or acting as agents or brokers and buying merchandize for, or selling merchandise to, such individuals or companies.

Wrecked or abandoned motor vehicle means any motor vehicle the condition of which is wrecked, dismantled, partially dismantled, incapable of operation by its own power on a public street, or from which the wheels, engine, transmission or any substantial part thereof has been removed.

Xeriscape landscaping means a set of design and maintenance principles which promote good horticultural practice and the economic and efficient use of water. See also Florida-Friendly Landscaping.

Yard means an open space on the same lot with a building, unoccupied and unobstructed from the ground upward, except by trees or shrubbery or as otherwise provided in this LDC.

- ***Front yard*** means a yard across the full width of the lot, extending from the front line of the building to the front line of the lot.

- ***Side yard*** means an open unoccupied space on the same lot with the main building, situated between the side line of the building and the adjacent side line of the lot and extending from the rear line of the front yard to the front line of the rear yard.

- ***Rear yard*** means a yard extending across the full width of the lot and measured between the rear line of the lot and rear line of the main building.

2.00.00 GENERALLY

2.00.01 Purpose and Intent

A. It is the purpose of this chapter to establish and adopt zoning districts to govern the use of land, water, and structures in the City.

B. It is the intent of the City Commission that the regulations set forth in this chapter governing the use of land, water, and buildings apply to all land, water, and buildings included within the boundaries of each district shown on the Zoning Map.

2.00.02 Official Zoning Map

A. Zoning districts are hereby established for all land and water areas included within the boundaries of each district as shown on the "Zoning Map, Fernandina Beach, Florida."

B. The Zoning Map and all notations, references, and other information shown on the Zoning Map are as much a part of this LDC as if the information set forth thereon were fully described and set out in this LDC.

C. Table 2.00.02(C) shows the relationship between zoning districts and the land use categories on the Future Land Use Map (FLUM). An "X" indicates that the zoning district is permissible within the indicated category on the FLUM.

2.00.03 Establishment of District Boundary

Where a district boundary divides the area of a lot unequally, the district classification and regulations of the larger portion shall apply to the remaining smaller portion of the lot.

2.01.00 ESTABLISHMENT AND PURPOSE OF ZONING DISTRICTS

This section describes the purpose of each zoning district. Specific uses permissible within each zoning district are identified in Tables 2.03.02 and 2.03.03. Uses are permissible subject to compliance with standards for the zoning district, applicable overlay districts, and specific uses. Standards are set forth in Chapters 4, 5, 6, and 8.

2.01.01 Residential Estate (R-E)

The R-E District is intended for the development of very low density, single-family residential uses where the keeping of certain livestock is permissible.

2.01.02 Residential Golf (R1-G)

The R-1G district is intended for development of low density single-family residential units surrounding the municipal golf course. The Residential Golf designation is established to protect the quality and character of existing low-density single-family neighborhoods.

2.01.03 Low Density Residential (R-1)

The R-1 District is intended for the development of low-density single-family detached homes on individual lots. Single-family attached homes may be allowed through the PUD process. The low-density residential designation is established to protect the quality and character of existing low-density single-family neighborhoods.

2.01.04 Low-medium Density Residential (RLM)

The RLM District is intended for the development of low- to medium-density single-family homes on individual lots. This designation is intended to provide for a more urban neighborhood with a higher density than the R-1 District and a lower density than the R-2 District.

2.01.05 Medium Density Residential (R-2)

The R-2 District is intended for the development, redevelopment, or maintenance of stable medium-density residential neighborhoods. The medium-density residential designation includes a mixture of single- and multi-family structure types.

2.01.06 High Density Residential (R-3)

The R-3 District is intended for the development of high-density residential uses allowing both single- and multi-family dwellings. Bed and breakfast inns and resort rental dwellings may be allowed, subject to additional design standards. Limited neighborhood commercial uses may be allowed through the PUD process.

2.01.07 Old Town Historic District One (OT-1)

The OT-1 District is intended to protect the unique historic features and uses in the single-family residential area of the Old Town Historic District. The OT-1 District is intended for the development and maintenance of single-family residential dwellings, along with their customary accessory uses on the same lot.

2.01.08 Old Town Historic District Two (OT-2)

The OT-2 District is intended to protect the unique historic features and uses in the mixed-use area of the Old Town Historic District. The OT-2 District is intended for the development and maintenance of single-family residential dwellings, along with their customary accessory uses on the same lot. Limited neighborhood commercial may be permissible.

2.01.09 Mixed Use (MU-1)

The MU-1 District is intended for the development of a combination of residential, office, and limited neighborhood commercial uses. The Mixed-Use District encourages well-planned development and redevelopment of areas that feature compatible, interrelated uses including single-family and multi-family residential units; medical, business, and professional offices; personal service establishments with limited inventory of goods; and limited neighborhood commercial uses.

2.01.10 8th Street Small Area Mixed Use (MU-8)

The MU-8 district is intended for redevelopment of the City's 8th Street commercial corridor to allow for a combination of residential, office, housing, and general commercial activities in a vibrant urban setting. The MU-8 district is intended to promote the 8th Street corridor as a thriving gateway to the historic downtown of Fernandina Beach through economical and efficient land use, an improved level of amenities, residential density through a variety of housing types, and a better compact, urban environment. Properties within the MU-8 district shall provide for a unified pedestrian and landscape area along the 8th Street frontage to serve as an extension of the downtown Fernandina Beach character and design. The allowable density in the MU-8 zoning district is a maximum of 18.0 dwelling units per acre.

2.01.11 Community Commercial (C-1)

The C-1 District is intended for the development of land uses to accommodate commercial businesses and offices providing goods and services to more than a few neighborhoods, and land uses that are complimentary to low- and medium-density residential areas. The Community Commercial District recognizes the desire for convenience goods and services in close proximity to residential neighborhoods, provided that such uses are limited in intensity as set forth in the design standards in this LDC.

2.01.12 General Commercial (C-2)

The C-2 District is intended for the development of land uses to accommodate offices; commercial retail; personal services establishments; restaurants; transient accommodations; uses that provide sales and services for several neighborhoods; repair shops; retail sales and services; and other similar commercial uses. The General Commercial District recognizes existing development with locations that have access to arterial roads.

2.01.13 Central Business District (C-3)

The C-3 District is intended for the development of land uses within the central business district as the City's center for residential, financial, commercial, governmental, professional, and cultural activities. The Central Business District category is designed to accommodate as permissible uses single-family or duplex dwelling units and uses permissible subject to supplemental standards triplex and multi-family dwelling units. These uses may be either freestanding or in mixed use structures; offices; commercial retail; personal services establishments; restaurants; transient accommodations; commercial parking facilities; civic uses; and cultural uses.

2.01.14 Light Industrial (I-1)

The I-1 District is intended for the development of light industrial manufacturing, fabrication, processing, or warehousing, storage, research facilities, commercial activities and services, including lodging accommodations, and community facilities or government buildings, such as, animal services, emergency services or administrative offices, recreational facilities, such as golf courses, or other activities compatible with light industrial operations which are in close proximity to transportation facilities. The district is not intended to accommodate heavy industrial operations or to accommodate commercial that would restrict the principal light industrial operations. Residential development, with exception of a caretaker's unit, is not permissible within the zoning district. The designation of land for the I-1 District shall be based on compatibility with surrounding land uses, considering environmental sensitivity, intensity of use, hours of operation, heat, glare, fumes, noise, and visual impacts.

2.01.15 Industrial Airport (I-A)

The Industrial Airport District is intended for the development of airport regulated property. The Industrial Airport District recognizes the need for consistency with permissible uses on airport property as regulated by the Federal Aviation Administration (FAA) and for consistency with height limitations to prevent interference with the safe and efficient operations of the airport. The district disallows use which would impact aircraft operational capabilities, electronic or procedural requirements and/or create an airport hazard as determined by the FAA. Uses within the district are subject to height limitations as imposed by the FAA.

2.01.16 Waterfront Industrial (I-W)

The I-W District is intended for the development of water dependent and water-related manufacturing, assembling, storage, distribution, sales, and port operations that are generally high intensity. The Waterfront Industrial District recognizes existing industrial development with locations that have access to transportation facilities by air, rail, ship, or highway. The designation of land for the I-W District shall be based on compatibility with surrounding land uses, considering environmental sensitivity, intensity of use, hours of operation, heat, glare, fumes, noise, and visual impacts.

2.01.17 Heavy Industrial (I-2)

The I-2 District is intended for the development of warehousing, fabrication, storage, and commercial services which are likely to produce adverse physical and environmental impacts such as noise, land, air, and water pollution and transportation conflicts. The Heavy industrial District recognizes existing heavy manufacturing development with locations that have access to major highways. Residential development, with exception of a caretaker's unit, is not permissible within the zoning district. The designation of land for the I-2 District shall be based on compatibility with surrounding land uses, considering environmental sensitivity, intensity of use, hours of operation, heat, glare, fumes, noise, and visual impacts.

2.01.18 Waterfront Mixed Use (W-1)

The W-1 District is intended for the development and/or re-development of waterfront land fronting the Amelia River within the CRA only. The Waterfront Mixed Use District recognizes the desire to maintain existing water related uses while providing a wider range of uses to encourage developments which enhance the public's use of and access to the waterfront.

2.01.19 Public and Institutional (PI-1)

The PI-1 District is intended for the development and maintenance of publicly owned lands and structures, parks and recreation areas, public schools, and buildings used principally for government functions. Federal, State, regional, and local government land uses are permissible.

2.01.20 Conservation (CON)

The CON District is intended to provide for the long-term protection and preservation of environmentally sensitive natural resource systems. Development within the Conservation District is limited to buildings that are supportive of and accessory to the conservation land uses, such as interpretative centers, rest rooms, or covered picnic pavilions. Other uses may include docks, boardwalks, hiking trails, and picnic areas. These uses shall be limited in location and extent and shall avoid adverse impacts on the hydrologic functions of wetlands, natural systems, habitats, water quality, shorelines, marine life, and coastal resources.

2.01.21 Recreation (REC)

The REC District is intended to provide a location for land devoted to public or private parks and recreation facilities. The types of parks and facilities include passive parks and open spaces, activity-based parks and recreation areas, and publicly owned recreation facilities.

2.02.00 ESTABLISHMENT AND PURPOSE OF OVERLAY DISTRICTS

2.02.01 Generally

The purpose of overlay districts is to provide a means of modifying the site design requirements that are otherwise applicable to the underlying zoning district(s). The site design standards and other development criteria applicable within an overlay district shall supersede the standards and criteria applicable within the underlying zoning district but shall not supersede any applicable supplemental standards.

2.02.02 Planned Unit Development Overlay

The Planned Unit Development (PUD) Overlay is intended to provide for more than one (1) land use within a mixed use development; allow more than one (1) housing type within a residential PUD; allow innovative arrangement of streets, lots, uses, and buildings; and to improve the efficient use of infrastructure by the clustering of homes, businesses, and other uses in a coordinated, planned development.

2.02.03 Historic District Overlays

The Historic District Overlays are intended to preserve the form, function, image, residential balance, and ambiance of the historic Centre Street and surrounding area as the ceremonial, civic, and cultural center of the City. The Overlays also cover the Old Town Historic District as well as the Amelia Island Lighthouse, Oxley-Heard Funeral Home, and Peck Center. The Historic District Overlay Boundaries are incorporated by reference through City of Fernandina Beach Ordinance numbers 526, 749, 846, 1995-12, 1997-24, and 2010-24. Areas within the Historic District Overlays shall be planned and managed following the guidelines established for the construction and renovation of buildings and use of land within the Historic Districts. (See Chapter 8 regarding guidelines for development in Historic Districts.)

2.02.04 Community Redevelopment Area Overlay

The Community Redevelopment Area (CRA) Overlay is intended to provide for and identify priority areas for coordinated redevelopment and revitalization activities. The CRA Overlay encourages improvement of infrastructure and commercial development. The CRA Overlay Boundaries are incorporated by reference through City of Fernandina Beach Resolution 2006-28. (See Chapter 8 regarding guidelines for development in the CRA.)

2.02.05 Airport Area Overlay

The Airport Area Overlay is intended to provide for appropriate land use on and adjacent to the Fernandina Beach Municipal Airport lands through protection of the operational areas, reduction of noise impacts, and preservation of ecologically unique areas. The Airport Area Overlay encourages light, clean industry that is consistent with and supportive of airport operations.

2.02.06 Urban Core Overlay

(Reserved)

2.03.00 LAND USES PERMITTED IN EACH ZONING DISTRICT

2.03.01 How to Read the Table of Uses

A. Table 2.03.02 sets for the permissible uses within zoning districts. The letter "P" indicates that the land use is permissible, subject to compliance with the standards of the zoning district. Additional standards for Commerce Parks, Large Scale Commercial Development, and Telecommunications Facilities are applicable and are located in Chapter 6.

B. The letter "S" indicates that the land use is permissible, subject to compliance with the standards of the zoning district, and the supplemental standards specified for the use. Supplemental standards are contained in Section 6.02.00.

C. An empty cell indicates the land use is prohibited.

D. Any land use that is not identified in Table 2.03.02 is prohibited. A property owner may request an interpretation to determine if a use that is not identified is permissible, based on substantial similarity of the requested use to permissible uses within the zoning district in which the property is located. A requested use shall be considered substantially similar when the characteristics of the requested use are equivalent in type, intensity, degree, or impact when compared to a use named in Table 2.03.02. Such characteristics include, but are not limited to:

1. Typical hours of operation;
2. Use of outdoor storage;
3. Trip generation rates;
4. Generation of noise, light pollution, odor, smoke, electromagnetic interference, or vibration; and
5. Customary functions of the use.

(Section 2.03.02 Table of Land Uses footnotes are contained on following page.)

SECTION 2.03.02 Table of Land Uses Footnotes

Notes:

1. Resort rentals in R-1 or R-2 zoning districts that existed prior to the effective date of Ordinance 2000-28 (October 3, 2000) may continue a legal non-conforming status as long as the resort rental permit has not expired for a period of greater than 180 days.

2. Properties that have obtained the WMU Future Land Use category are subject to the permitted uses in the W-1 column. Residential units are permitted above non-residential uses. Stand alone residential uses are prohibited.

3. Group Residential uses in existence prior to the adoption of Ordinance 2007-22 may continue a legal non-conforming status as long as a Group Residential Permit is applied for and maintained in accordance with the terms of the Ordinance. Existing uses shall not be subject to the Supplemental Standards in Section 6.02.24.

4. Seasonal Sales are subject to the provisions of LDC Section 5.02.02 and a temporary use permit is required according to the procedures set forth in Chapter 11.

5. Drive-thru entry and exit may not be located on 8th street.

2.03.03 Table of Accessory Uses

Table 2.03.03 lists permissible accessory uses in each zoning district. The letter "P" indicates that the identified use is permissible as an accessory use, but not as a principal use. Principal uses are identified in Table 2.03.02. See Section 5.01.00 for supplemental standards pertaining to accessory uses.

Notes:

1. Permitted yard storage within the Heavy Industrial (I-2) zoning category shall include process by-products and new or used process parts for use in or sale of the Manufacturing and/or Assembly - Heavy uses.

2. Cremation Facilities shall be subject to the supplemental standards provided in Section 6.02.26.
3. Conditional on conformity with 5.01.04.

3.00.00 GENERALLY

3.00.01 Purpose and Intent

The purpose of this chapter is to safeguard the public health, safety, and welfare by ensuring the long-term protection and preservation of natural resource systems. Application of the provisions of this chapter shall result in development that reduces the potential for adverse impacts on the functions of wetlands, natural systems, habitats, water quality, shorelines, marine life, and coastal resources.

3.00.02 Applicability

All new development and redevelopment shall be designed to ensure protection of areas such as dunes, floodplains, environmentally sensitive lands, wetlands, or wellfields. No permit for development shall be issued by the City that is not in full compliance with the provisions of this chapter and the technical manuals listed in 1.06.00 (C).

3.01.00 COASTAL RESOURCE PROTECTION

3.01.01 Aquatic Preserve Protection

A. All new development and redevelopment within the boundaries of the Fort Clinch State Park Aquatic Preserve or abutting the boundaries of the Fort Clinch State Park shall be required to conform to the provisions of the Nassau River-St. Johns River Marshes and Fort Clinch State Park Aquatic Preserves Management Plan.
B. All new development, redevelopment, construction, dredging, or filling requires all applicable permits from State, federal, and regional agencies with jurisdiction over the Fort Clinch State Park Aquatic Preserve.

3.01.02 Coastal Areas and Shorelines

A. There is hereby established a Coastal Upland Protection Zone (CUPZ) which is an area extending 1,000 feet landward from the Coastal Construction Control Line (CCCL).
   1. All uses permitted by the underlying zoning classification and which have obtained all necessary and valid permits from State, Federal and Local government agencies having permitting jurisdiction within the CUPZ are allowable within the CUPZ;
   2. Development shall not adversely affect contours and topography within the CUPZ. Adversely affect is herein defined as any activity which:
      a. Causes a measurable interference with the natural functioning of the dune structure;
      b. Results in removal or destruction of native vegetation which will either destabilize a significant dune or cause a significant deleterious impact to the dune system due to increased erosion by wind or water;
      c. Results in removal or disturbance of existing sandy soils of the dune system to such a degree that a significant deleterious impact to the dune system would result from either reducing the existing ability of the system to resist erosion during a storm or lowering existing levels of storm protection to upland properties and structures;
      d. Disturbs topography or vegetation such that the system becomes unstable, or suffers catastrophic failure; or

e. Causes a significant impact to endangered species, species of special concern, or threatened species, or their habitats.

3. All development activity seaward of the coastal construction control line (CCCL) shall comply with all requirements of Section 3.01.02 above and only where a Florida DEP permit has been issued for the specific activity.

3.01.03 Waterfront Planning

A. Purpose and Intent: Protection of shorelines and waterfront lands ensures adequate and appropriate locations for water-dependent, water-related and water-enhanced uses.

B. The following priority list shall be used in reviewing applications for shoreline uses, to provide increased priority for water-dependent uses. Uses listed first shall generally be given the highest priority of all uses that may be proposed along the shoreline, with other, uses listed in the order of declining priority. Uses listed under (6) shall be given the least preference for location along the shoreline.
    1. Water-dependent uses such as fish, and shellfish production;
    2. Water-dependent recreation and commercial uses such as ports, marina-type uses, and navigation, particularly those that provide public access;
    3. Water-related uses such as certain utilities and commercial;
    4. Water-enhanced uses such as certain recreational and commercial uses;
    5. Non-water dependent or related activities such as residential uses; and
    6. Non-water dependent and non-water enhanced uses which result in an irretrievable commitment of coastal resources, or in a proposed alteration to the FLUM series that would prohibit or remove the permitted use of water-dependent, water-related or water-enhanced uses.

C. The City shall guide and direct the location of all future water-dependent and water-related uses according to the following criteria:
    1. Directing marinas to preferred locations, such as those adjacent to existing channels and passes, and in areas where little dredging and maintenance would be required;
    2. Directing the development of dry dock facilities to locations that are upland of marina sites;
    3. Requiring sewage pump-out facilities at all marinas and adequate fuel spill containment facilities measures at those facilities which sell petroleum products;
    4. Protecting shoreline and waterfront areas in order to provide locations for marine/estuarine related uses, such as commercial and recreational fishing, boating, and other water-dependent uses and activities;
    5. Prohibiting the construction of causeways within estuaries and requiring bridges with pilings instead, and
    6. Ensuring minimal environmental resource impacts or disruption

D. Marina development standards are found in Chapter 6: Supplemental Standards.

E. Special water dependent activities.
    1. *Examples*. Special water-dependent activities include, but are not limited to, the following uses:
        a. Construction of docks or marinas.
        b. Installation of new riprap or similar structures that protect the shoreline from erosion (not including seawalls, bulkheads, or the like).
        c. Installation of buoys, aids to navigation, and signs.

d. Installation of subaqueous transmission and distribution lines for water, wastewater, electricity, communication cables, oil or gas.
e. Restoration or repair of foot bridges and vehicular bridges.

2. *Minimization of impacts.* The water dependent activity shall be designed, constructed, maintained and undertaken in a way that minimizes the adverse impacts on the beneficial functions of the adjacent areas.
3. *Design standards:*
    a. The development shall be designed to:
        1. Allow the movement of aquatic life requiring shall water;
        2. Maintain existing flood channel capacity;
        3. Ensure stable shoreline embankments; and
        4. Avoid impact to wildlife habitat
    b. Residential, multifamily and commercial development
        1. Construction of docks shall be compliant with the standards of all permitting authorities. Docks shall be constructed within the limits of the principal structure side yard setback lines; the terminal platform shall not exceed 50 percent of the shoreline and comply with the standards required by the appropriate permitting authority.
        2. Installation of new riprap or similar structures that protect the shoreline from erosion (not including seawalls, bulkheads, or the like) along the shoreline and to stabilize vegetation shall be compliant with the standards of all permitting authorities. The structures shall comply with standards regarding wetlands found in Section 3.02.00 and shall be placed in a manner which will preserve existing trees and shrubs.
        3. Multifamily developments or condominiums shall be limited to one dock, unless approved and developed as a marina under supplemental standards found in Chapter 6.
        4. Outdoor lighting shall comply with standards for piers in 3.06.01.
4. *Development standards for special water dependent uses on environmentally sensitive lands.* In addition to the standards listed in Section 3.01.03(F) and 3.05.04, the following standards apply to special uses allowed in the protected environmentally sensitive lands:
    a. Where permissible, access roads, parking lots, and similar structures shall be located on upland sites.
    b. Any permitted impacts to the site shall be restored consistent with permitting agency approvals.

3.01.04 SOIL EROSION AND SEDIMENTATION CONTROL

A. Applicability

1. In order to prevent both soil erosion and sedimentation, a soil erosion and sedimentation control plan shall be required as a part of an application for site plan review whenever a development will involve any clearing, grading, or other form of land disturbance by the movement of earth.
2. Soil erosion and sediment control strategies must be utilized during residential, multifamily and commercial new construction projects and substantial renovation/rehabilitation/addition projects.

B. Erosion control measures.

All measures necessary to minimize soil erosion and to control sedimentation in the disturbed land area shall be implemented, following Florida DEP Best Management Practices for Erosion and Sediment Control. The following protection shall be provided for all disturbed areas: minimize velocities of water runoff, maximize protection of disturbed areas from stormwater runoff, and retain sedimentation within the development site as early as possible following disturbances. A list of major problem areas for erosion and sedimentation control follows. For each one, the purpose(s) of requiring control is described. Soil erosion and sedimentation control measures for all such areas shall be provided with a view toward achieving the specific purpose listed below for which a control plan is required.

1. Erodible slopes. Prevent detachment and transportation of soil particles from slope.
2. Streams, stream beds, stream banks, bodies of water, lake shorelines. Prevent detachment and transportation of soil particles.
3. Drainageways. Prevent detachment and transportation of soil particles (which would otherwise deposit in streams, bodies of water, or wetlands); promote deposit or sediment loads (traversing these areas) before these reach bodies of water.
4. Land adjacent to streams, ponds, lakes, and wetlands. Prevent detachment and transportation of soil particles. The applicant shall not adversely impact aquatic vegetation within the sensitive transition zone separating wetlands and uplands.
5. Enclosed drainage structure. Prevent sedimentation in structure, erosion at outfall of system, and deposit of sediment loads within system or beyond it.
6. Large flat surface areas (unpaved). Prevent detachment of soil particles and their off-site transportation.
7. Impervious surfaces. Prevent the detachment and transportation of soil (in response to an increase in the rate and/or volume of runoff of the site or its concentration caused by impervious surfaces).
8. Borrow and stockpile areas. Divert runoff from face of slopes which are exposed in the excavation process; convey runoff in stabilized channels to stable disposal points; leave borrow areas and stockpiles in stable condition and plant native groundcover to assist such stabilization.
9. Adjacent properties. Prevent their erosion and/or being deposited with sediment.

C. Landscape, Buffer and Tree Requirements as outlined in Chapter 4 shall be applicable to all clearing and grading activities and shall include specifications for management principles guiding the removal or placement of vegetation and landscaping design. All development activities must be implemented in conjunction with precautionary measures, where necessary, to avert destruction or damage to native vegetation.

3.02.00 ENVIRONMENTALLY SENSITIVE LANDS

3.02.01 Purpose

The purpose of this section is to protect land and water areas of the City that contain naturally occurring and relatively unaltered flora, fauna, or geologic conditions. Beneficial functions of these lands include:

a. Maintaining water and storage capacity of watersheds.
b. Maintaining recharge capacity of groundwater aquifers.
c. Preserving fish and wildlife habitat, unique vegetation, and sites needed for education, scientific research and recreation.
d. Protecting aesthetic and property values.
e. Preventing and minimizing erosion.
f. Minimizing flood and storm losses.
g. Protecting shorelings.
h. Preventing pollution

3.02.02 General Provisions

A. In addition to meeting the requirements for environmentally sensitive lands included within this section, development plans shall comply with applicable federal, state and water management district regulations relating to environmentally sensitive lands.
B. The Conservation and Coastal Management Element of the City's Comprehensive Plan as amended from time to time shall be used as a reference source to guide decisions regarding future development.
C. A development footprint located in a Special Flood Hazard Area is not considered to be an Environmentally Sensitive Land unless, it also contains one or more of the characteristics described in Section 3.02.03.

3.02.03 Identification of Environmentally Sensitive Lands

A. Environmentally sensitive lands are:
    1. Lands included within Conservation Zoning and Future Land Use categories as designated on the most recent City zoning and land use maps.
    2. Properties within wetlands protection zones or wetlands transition areas.
    3. Habitat of federally or state-listed threatened or endangered species.
    4. All undisturbed properties within 150 feet of Fort Clinch State Park Aquatic Preserve, Fort Clinch State Park, and all navigable tributaries.
    5. As identified during development review process through wetland delineation requirements, biological surveys, etc.

3.02.04 Special Requirements for Environmentally Sensitive Lands

A. Lands within the wetlands protection zones and habitat of federally or state-listed threatened or endangered species shall also follow requirements as outlined in Sections 3.03.00 and 3.06.00 of this chapter.
B. Development proposals shall support the conservation and protection of Environmentally Sensitive Lands and minimize the impacts on terrestrial, wetland and marine ecological communities and associated wildlife habitat.

C. Applications for development approval shall use innovative approaches to protect sensitive resources, such as clustering, conservation easements, and maximization of open space to protect identified Environmentally Sensitive Lands.
D. Protective measures to prevent adverse effects on Environmentally Sensitive Lands shall be required. Protective measures include:
   1. Maintaining natural drainage patterns.
   2. Limiting removal of vegetation to minimum necessary to carry out development activity.
   3. Replanting areas denuded by human activity.
   4. Siltation, soil erosion and sedimentation control during construction through methods and techniques such as storage of removal of materials, equipment and debris; erosion control measures; measures to ensure revegetation and/or stabilization of disturbed areas; measures to protect existing natural vegetation and habitat and methods to prevent pollution of wetlands and groundwater. Specific requirements for siltation, soil erosion and sedimentation control are found in Section 3.01.04 of this chapter.
   5. Minimizing the amount of fill used in the development activity.
   6. Disposing of dredged spoil at specific locations that cause minimal environmental damage.
   7. Prohibiting construction of channels or ditches.
   8. Prohibiting dredging and filling of wetlands consistent with Section 3.03.00 of this chapter.
   9. Retaining habitat connections with adjacent parcels in order to serve as wildlife corridors.
   10. Using deed restrictions, easements, and/or other legal mechanisms to protect environmentally sensitive lands and maintain the development in compliance with the protective measures.
E. Dedicating conservation easements for natural pedestrian or bicycle pathways between new developments and surrounding development, especially where there is a connection between commercial and activity centers, recreation centers and schools.
F. Archaeological and historic sites on Environmentally Sensitive Lands are protected. Removal, alteration or destruction of archaeological or historic sites shall be addressed under state and local regulations. Any person discovering an archaeological or historic site shall immediately notify the Community Development Department.

3.02.05 Land Uses within Environmentally Sensitive Lands

A. Exempted Uses within Environmentally Sensitive Lands
   1. The following uses and activities are presumed to have no adverse effect on Environmentally Sensitive Lands and are permitted consistent with existing regulations regarding wetlands, habitat protection of federally or state listed threatened or endangered species or floodplain management:
      a. Land uses as allowed in Chapter 2 of the City's Land Development Code for applicable zoning.
      b. Scenic, historic, wildlife, or scientific preserves.
      c. Minor maintenance or emergency repair to existing structures or improved areas.

d. Timber catwalks, docks and trail bridges that are less than or equal to four feet wide, provided that no filling, flooding, dredging, draining, ditching, tilling or excavating is necessary for installation of pilings.
e. Recreational fishing, picnicking, and hiking.
f. Constructing fences where no fill activity is required and where navigational access will not be impaired, nor will access to water, vegetation, or corridors be impaired for wildlife by construction of the fence.
g. Wetlands stormwater discharge facility or treatment in accordance with state permits and all other applicable state and federal regulations.
h. Maintaining existing channels in existence at the time of adoption of this chapter at the minimum depth and width necessary to achieve their intended purposes and designing them to prevent slumping and erosion and all revegetation of banks.

B. Prohibited Primary Uses within Environmentally Sensitive Lands
1. Storage of Hazardous Materials;
2. Commercial animal facilities, including veterinarian clinics;
3. Mines;
4. Wastewater treatment plants;
5. Commercial activities that involve the bulk storage of Hazardous Materials such as, but not limited to, dry cleaning operations, auto repair and servicing, pool supply, gas stations, junkyards, and machine shops;
6. Stormwater treatment facilities, including the use of drainage wells or sinkholes for stormwater disposal; and
7. Human or animal cemeteries

3.02.06 Land Uses within Areas of Special Flood Hazard

A. Exempted Uses within Areas of Special Flood Hazard
1. The following uses and activities are permitted consistent with existing Local, Regional, State and Federal regulations for floodplain management:
a. Land uses as allowed in Chapter 2 of the City's Land Development Code for applicable zoning and accessory uses which are operationally linked to a permissible primary use.

B. Prohibited Primary Uses within Areas of Special Flood Hazard
1. Non-exempt industrial land uses that involve the bulk storage of Hazardous Material, unless the following standards are met:
a. All building and structures shall be subject to compliance with the City's Floodplain Management Ordinance, including the requirement to secure local permitting.
b. Hazardous Materials shall not be stored in the Coastal High Hazard Area (CHHA), except in compliance with the requirements of this Section 3.02.06(B)
c. Fixed tanks or vessels for the bulk storage of Hazardous Materials shall be designed or modified to adequately anchor to prevent, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including buoyancy meeting all requirements of the City's Floodplain Management Ordinance, as amended from time to time and the lowest extremity of such tank or vessel shall be located at least one (1) foot above the applicable 100 year base flood elevation, inclusive of tank inlets, outlets and vents.

2. Hospitals, nursing homes and housing likely to have occupants who may not be sufficiently mobile to avoid injury or death during a flood.
3. Police stations, fire stations, vehicle and equipment storage facilities, and emergency operations centers that are needed for flood response activities before, during and after a flood.
4. Wastewater treatment facilities, unless adequately mitigated through engineered solutions which meet the construction standards associated with the 100-year base flood as well as elevation of any fixed tanks or vessels for bulk storage of Hazardous Materials to one (1) foot above the 100-year base flood elevation.
5. Human or animal cemeteries.
6. Bulk Storage Yards, Solids or Bulk Storage Yards, Liquids of Hazardous Materials.

3.03.00 WETLAND PROTECTION

3.03.01 Applicability

The requirements of this section shall apply to all of the areas under the jurisdiction of the Florida DEP, the USACOE, and the SJRWMD, as well as those lands identified as "Conservation" on the FLUM and on the adopted zoning map. Exemptions to buffering requirements exist for resource-based recreational facilities such as trails, boardwalks, piers and boat ramps, and components of water-dependent commercial uses such as port facilities, marinas, fish camps, and commercial fishing operations.

3.03.02 Agency Coordination Required

All new development and redevelopment adjacent to jurisdictional wetlands shall be required to include coordination with the agencies with regulatory jurisdiction over wetlands, including the County, representatives of the Florida DEP, the USACOE, and the SJRWMD, for assistance and verification in identifying and delineating wetlands.

3.03.03 Development Within Wetlands

Except as expressly provided in this section, no development activity shall be permitted in a wetlands area, as defined in Section 3.03.01.

A. Wetlands shall be preserved in their natural state. No fill shall be placed in a wetland, and the wetland shall not be altered.

B. Buffering requirements for development adjacent to wetlands or natural water bodies:

1. All new development and redevelopment adjacent to jurisdictional wetlands or surface water bodies shall be required to provide a buffer zone of native vegetation at least twenty-five (25) feet wide around wetlands and fifty (50) feet from natural water bodies to prevent erosion, retard runoff, and provide areas for habitat. All new construction that is a water dependent or water related use within the CRA and I-W zoning is exempt from the required buffers established by this Section; and

2. This setback shall be required for any development, except docks or piers which have received a permit from the Florida DEP, SJRWMD, or the USACOE and are compliant with standards found in section 3.01.03

C. Permitted activities within areas designated by the City, FDEP, SJRWMD, or the USACOE as wetlands protection zones or wetland transition areas:

1. Potentially allowable uses adjacent to wetlands protection zones or wetland transition areas are those principal and accessory uses included in the Conservation land use category on the FLUM provided that installation does not involve grading, fill, dredging, or draining, and provided that such structures are constructed on pilings so as to permit the unobstructed flow of water and light and preserve the natural contour of the wetlands. All pilings shall be driven into place; no jetting of pilings shall be allowed.

2. Developing an area that no longer conforms to the determination of the SJRWMD as wetlands, except former wetlands that have been filled or altered in violation of any rule, regulation, statute, or this LDC. The developer shall demonstrate that the water regime has been permanently altered, either legally or naturally, in a manner so as to preclude the area from maintaining surface water or hydroperiodicity necessary to sustain wetlands structure and function. Adequate proof shall include statements from federal or State agencies having jurisdiction as well as technical evidence from registered hydraulics engineers or other certified experts;

3. Development of a wetlands stormwater discharge facility or treatment wetlands in accordance with State permits received under currently relevant sections of the *F.A.C.*; and

3.03.04 Design Requirements

A. All new development and redevelopment adjacent to jurisdictional wetlands, wetland protection zones and wetland transition areas shall be designed, constructed, maintained, and undertaken in a way that minimizes the adverse impacts on the functions of the affected environmentally sensitive zone.

B. In addition to any standards required by federal, State, or local agencies and any other section within this LDC, the following standards shall apply to uses found to be permissible in or adjacent to wetlands:

1. The use shall allow the movement of aquatic life requiring shallow water;
2. Existing flood channel capacity shall be maintained;
3. Stable shoreline embankments shall be ensured on unstable shorelines where water depths are inadequate, to eliminate the need for offshore or foreshore channel construction dredging, maintenance dredging, spoil disposal, filling, beach feeding, and other river, lake, and channel maintenance activities;
4. Uses in areas where there is inadequate water mixing and flushing shall be eliminated or stringently limited as provided in Section 3.03.00;
5. Uses shall be prevented in areas which have been identified as hazardous due to high winds or flooding;
6. Access roads, parking lots, and similar structures shall be limited to locations on properly zoned uplands;
7. Any wetlands shown on the site plan to remain undisturbed that become damaged during construction shall be completely restored. Complete restoration means that the restored area shall function equivalently to the wetland prior to damage;
8. Accessory uses shall be limited to those which are water dependent; and
9. Fill shall not be placed in waters or wetlands to create usable land space.

3.04.00 WATER QUALITY & WELLFIELD PROTECTION

3.04.01 Purpose and Intent

The purpose and intent of this section is to safeguard the public health, safety, and welfare by ensuring the protection of the principal source of water from potential contamination and to control development in and adjacent to designated wellheads and surrounding wellfield areas to protect water supplies from potential contamination.

3.04.02 Wellfield Protection Area

A. A wellfield protection area is hereby established to include all land within a 500-foot radius from a public potable water wellhead.
B. The following uses shall be prohibited within the wellfield protection area:
    1. All regulated industries by the Florida DEP as defined in Rule 62-521, *F.A.C.*;
    2. Activities that require the storage, use, or transportation of restricted substances, agricultural chemicals, hazardous toxic waste, medical waste, and petroleum products;
    3. Commercial animal facilities, including veterinarian clinics;
    4. Mines;
    5. Industrial land uses;
    6. Wastewater treatment plants;
    7. Commercial activities that involve the use of hazardous chemicals such as, but not limited to, dry cleaning operations, auto repair and servicing, pool supply, gas stations, junkyards, and machine shops;
    8. Injection wells, irrigation wells, and domestic and commercial wells less than six (6) inches in diameter;
    9. Stormwater facilities, including the use of drainage wells or sinkholes for stormwater disposal; and
    10. Human or animal cemeteries.

3.05.00 REQUIREMENTS REGARDING DRAINAGE AND STORMWATER MANAGEMENT

3.05.01 Generally

A. The purpose of the stormwater management requirements set forth in this section is to minimize the detrimental effects of stormwater runoff and to provide for mitigation of stormwater impacts from new development and redevelopment.
B. The regulations in this section are intended to:
    1. Provide maximum water quality and habitat benefits;
    2. Provide retention/detention of stormwater runoff to maintain surface water quality, ensure percolation, and reduce contamination to drainage canals, surface water, and groundwater;
    3. Prevent any development activity that would endanger lives and harm property, water quality, or environmental systems;
    4. Preserve natural lakes, creeks, other water courses, and natural drainage features;
    5. Encourage the use of stormwater management systems for urban landscape irrigation; and
    6. 6. Prevent creation of flood hazards due to new development
    The requirements of this LDC do not supersede those of other State, Federal, or Regional agencies.

3.05.02 Applicability and Exemptions

A. All proposed development, except as specifically described in this section, must comply with the standards and criteria set forth in Section 3.05.00.

B. No drainage system, whether natural or manmade, must be altered, designed, constructed, abandoned, restricted, or removed without prior written approval of the City and all appropriate State and federal agencies.

C. The following activities may alter or disrupt existing stormwater runoff patterns, and unless specifically exempted under Section 3.05.02(D) below, must be authorized only through issuance of a site work permit prior to initiation of development:
   1. Clearing and/or drainage of land prior to construction of a project;
   2. Altering the shoreline or bank or any surface water body; or
   3. Altering any ditches, dikes, terraces, berms, swales, or other water management facilities.

D. The following development activities are exempt from the requirements of this section:
   1. Single-family dwellings and associated accessory structures, provided they are within a subdivision having a valid stormwater management permit and properly operating stormwater management systems designed and sealed by an engineer;
   2. Additions, accessory structures, and single-family homes under 625 square feet; and
   3. Emergencies requiring immediate action to prevent material harm or danger to persons, when obtaining a permit is impractical and would cause undue hardship in protection of property from fire, violent storms, hurricanes, or other hazards. A report of the emergency shall be made to the City Manager as soon as practicable

3.05.03 Standards for Stormwater Management

A. All development must comply with the specifications, standards of design, and detailed technical requirements provided in the manuals adopted by reference in Chapter 1.

B. No subdivision must be platted, nor must construction commence for any single-family, multi-family, commercial, industrial, or institutional project, until the drainage design for such project has been approved by the City, and proof of permit from the SJRWMD, and the USACOE, if applicable, has been provided to the City.

C. The drainage design plans for the project must be prepared, signed, and sealed by a Florida registered professional engineer.

D. All drainage facilities and easements must be documented to ensure the City that capacity and right-of-way are adequate from the source, through the development, to the receiving body of water, without adversely affecting upstream or downstream properties. Any improvements or increase in capacity of those facilities required to keep the project in compliance with all applicable regulations must be made at the expense of the applicant.

E. Design Basis
   1. All subdivisions and multi-family, commercial, industrial, and institutional projects must provide for retention or detention of stormwater within the boundaries of the project.

a. For projects within areas designated for zero discharge, storage must accommodate a ten (10) year, twenty-four (24) hour storm event.
b. For all other areas, retention must accommodate the greater of the first one-half (1/2) inch of storm flow from all roofs, sidewalks, paved surfaces, and parking areas (at 100 percent runoff), whether paved or not.
c. The project must also provide detention for all stormwater flows.
d. Detention must prevent peak flows after development from exceeding the peak flow prior to development.
e. Retention or detention areas for multi-family, commercial, industrial, and institutional projects must not be located in public road rights-of-way or within single-family zoning districts.

2. All floor slab elevations must be constructed in accordance with City of Fernandina Beach Floodplain ordinance requirements.
a. Unless the drainage master plan dictates higher levels, in areas where the floodplain has been established under the requirements of the FEMA or the National Flood Insurance Program, the level must comply with such requirements.
b. In all other areas, floor slab levels must be constructed to the elevations specified in the engineer of record's approved drainage plan.
c. If no drainage plan exists, or if the plan predates this chapter, the floor level must be at least eighteen (18) inches above the roadway unless otherwise approved by the City.

3. Where a development includes a retention basin in the drainage system, the basin must be located in such a manner as to minimize damage when the design storm is exceeded.
a. A minimum of twenty (20) feet of drainage right-of-way must be set aside to allow for ingress and egress, and a continuous maintenance berm must be provided around the perimeter of the retention basin.

F. Rainfall and runoff criteria
1. The system or project must be designed for design floods resulting from rainstorms of the following expected frequencies or greater:
a. Ten (10) year, twenty-four (24) hour intervals for all drainage except floodways, street inlets, and cross drains.
b. Floodway and receiving body of water flood conditions as shown for 100 years' duration storm in the FEMA flood insurance study, latest edition.
c. Five (5) year, twenty (20) minute intervals for street inlets and cross drains.

2. Ultimate land usage must be assumed for selection of proper runoff coefficients within the basins involved. Weighted runoff coefficients must be applied where different coefficients apply within the areas comprising the basin.

G. Drainage map for all subdivisions and multi-family, commercial, industrial, and institutional projects:
1. The project engineer must include in the construction plans a master drainage map showing all existing and proposed features. Where projects are located within an Area of Special Flood Hazard, the engineer must prepare plans as consistent with the requirements of the City's Floodplain

Management Ordinance. The map must be prepared on a scale not to exceed one (1) inch equals 200 feet. As a minimum, it must include:

a. The limits of the drainage basin or sub-basin;
b. Topography of the project;
c. Topography between the project and the receiving body of water, or the receiving City-, County- or State-owned drainage facility;
d. Topography of adjacent property as necessary to establish flow patterns;
e. Existing points of entry of water from adjacent property;
f. Points of discharge of water from the project;
g. Limits of fill required to construct facilities;
h. Finished floor slab elevations and minimum elevation of the bottom of floor framing for each structure to accommodate the 100-year flood elevation;
i. Location of National Flood Insurance Program rate map flood zones; and
j. Soil profiles, using the USDA soil classification method, to be performed on sufficient areas throughout the project to provide adequate information on the overall suitability of the proposed drainage plan.

2. With respect sections 3.05.03(F)(1)(a),(c) and (d), if a project fronts on an approved public or private road and the applicant can demonstrate to the satisfaction of the City that no drainage will be discharged from the project onto any adjacent property, these items may be waived. No waiver of any kind will relieve the applicant of responsibility or liability from damage caused by increased runoff from his project.

H. All single-family home projects that are not part of a subdivision with a designed stormwater system must provide for retention or detention of stormwater within the boundaries of the project.
   1. Projects that are located outside of a subdivision, but in an area with an available engineered stormwater system must ensure that stormwater is properly routed to the stormwater structures.
   2. Design options for single-family home new construction and additions over 625 square feet:
      a. Provide engineered solution as completed by an engineer, and/or
      b. Utilize low impact development (LID) techniques such as rainwater harvesting, roof downspout disconnection, rain gardens, green roofs, trenches and chambers, bioretention, vegetated filter strips, permeable pavement, enhanced grass swales, dry swales, and perforated pipe systems.

I. Drainage during construction
   1. All off-site drainage entering the property prior to the commencement of construction must be maintained through the construction period.
   2. Approved silt barriers in compliance with Section 3.01.04 must be placed to prevent silt, erosion, or other pollutants from leaving the site. If off-site siltation occurs, it must be halted immediately, or all work must cease until the silting is stopped.

J. Maintenance of drainage facilities after construction
   1. All private drainage facilities within an approved subdivision, multi-family, commercial, industrial, or institutional project must be continuously and properly maintained by a required homeowners' association, the

developer, or another entity approved by the City in an enforceable development order and designated in the construction permit application.

2. Drainage facilities for private single-family residential properties must be continuously and property maintained by the property owner. Such maintenance must continue for the life of the property as developed under this section even upon transfer of ownership.

K. Where feasible, stormwater management systems must be designed to provide landscape irrigation for the development.

3.06.00 OUTDOOR LIGHTING

3.06.01 Generally

A. It is the policy of the City to minimize the use of artificial light to illuminate the beaches. No artificial public or private light source shall directly illuminate areas seaward of the primary dune (called "beach areas") where it may deter adult female sea turtles from nesting or disorient hatchlings.

B. The following activities involving direct illumination of portions of the beach shall be prohibited on the beach at nighttime during the nesting season (May 1 to October 31 of each year) for the protection of nesting females, nests, and hatchling marine turtles:

1. The operation of all motorized vehicles, except emergency and law enforcement vehicles or those permitted on the beach for marine turtle conservation or research; and
2. The building of campfires or bonfires.

3.06.02 Outdoor Lighting in Beach Areas

A. The following standards shall be applicable to all new construction, reconstruction, or development activities:

1. Controlled use, design, and positioning of lights:
   a. The use of lighting for decorative and accent purposes, such as that emanating from spotlights or floodlights, is prohibited.
   b. The use of lights for safety and security purposes shall be limited to the minimum number required to achieve their functional role. The use of motion detector switches that keep lights off except when approached and that switch lights on for the minimum duration possible is required.
   c. Fixture lights shall be designed and positioned so that they do not cause direct or indirect illumination of areas seaward of the primary dune.
   d. Wall-mounted fixtures, landscape lighting, and other sources of lighting shall be designed and positioned so that such light does not directly illuminate areas seaward of the primary dune, nor is directly visible from the beach.
   e. All lights on balconies shall be shielded from the beach.
   f. Lighting in parking lots within line of sight of the beach shall be positioned and shielded so that only deflected light may be visible from the ground level of the beach.
   g. The use of red, yellow, or orange lights is permitted where security or safety is a concern, shielding is impracticable, or visibility from the beach cannot be prevented.
   h. Exterior artificial light fixtures within direct line-of-sight of the beach shall include completely shielded downlight-only fixtures or recessed fixtures having low wattage (i.e. fifty (50) watts or less) "bug" type bulbs and nonreflective interior surfaces. Other fixtures that have appropriate shields, louvers, or cut-

off features may also be used if they are in compliance with Section 3.05.02(A)(1)(a), (b), and (c) above;

i. Exterior artificial light fixtures within direct line-of-sight of the beach shall be mounted as low in elevation as possible through use of low-mounted wall fixtures, low bollards, and ground-level fixtures.

j. Only low intensity lighting shall be used in parking areas within line-of-sight of the beach. Such lighting shall be set on a base which raises the source of light no higher than forty-eight (48) inches off the ground and shall be positioned or shielded so that the light is cast downward, the source of light or any reflective surface of the light fixture is not visible from the beach, and the light does not directly or indirectly illuminate the beach.

k. Parking areas and roadways, including any paved or unpaved areas upon which motorized vehicles will park or operate, shall be designed and located to prevent vehicular headlights from directly or indirectly illuminating the beach.

l. Vehicular lighting, parking area lighting, and roadway lighting shall be shielded from the beach through the use of ground-level barriers. Ground level barriers shall not interfere with marine turtle nesting or hatchling emergence, or cause short- or long- term damage to the beach/dune system.

m. Tinted glass or film shall be installed on all windows and glass doors of single- or multi-story structures within line-of-sight of the beach. Use of appropriately shielded low-pressure sodium vapor lamps and fixtures shall be preferred for high-intensity lighting applications, such as lighting parking areas and roadways, providing security, and similar applications.

n. Temporary lighting of construction sites during the marine turtle nesting season shall be restricted to the minimal amount necessary and shall incorporate all of the standards of this section.

2. Lighting for pedestrian traffic

a. Beach access points, dune crossovers, beach walkways, piers or any other structure on or seaward of the primary dune designed for pedestrian traffic shall use the minimum amount of light necessary to ensure safety.

b. Pedestrian lighting shall be of low wattage and recessed or shielded so that only deflected light may be directly visible from the beach.

3. Prior to the issuance of a certificate of occupancy, compliance with the beachfront lighting standards as set out in this section shall be demonstrated as follows:

a. Upon completion of the construction activities, a registered Florida architect or Florida registered professional engineer shall conduct a site inspection, which includes a night survey with all the beachfront lighting turned on.

b. The inspector shall provide a written report of the inspection findings, identifying the date and time of the initial inspection, the extent of compliance with this section, all areas of potential and observed noncompliance with this section, any action taken to remedy observed noncompliance, if applicable, and the dates and times of remedial inspections, if applicable.

c. The inspector shall sign and seal the inspection report, which shall include a certification that the beachfront lighting has been constructed in substantial accordance with the terms of this section, the beachfront lighting does not illuminate areas seaward of the primary dune at the time of night inspection, and the beachfront light sources are positioned so that only deflected light may be visible from the beach at the time of the night inspection.

B. All public or private buildings and other improvements existing prior to July 18, 2000 shall comply with the following standards:
   1. Existing artificial light sources that are essential for safety or security shall be repositioned, modified, or replaced with modern alternatives so that only deflected light may be visible at ground level from the beach, and light does not directly illuminate areas seaward of the primary dune.
   2. Existing artificial light fixtures shall be repositioned, modified, or removed so that:
      a. The point source of light or any reflective surface of the light fixture is not directly visible from the beach;
      b. Areas seaward of the frontal dune are not directly or indirectly illuminated; and
      c. Areas seaward of the frontal dune are not cumulatively illuminated.
   3. The following measures shall be taken to reduce or eliminate the negative effects of existing exterior artificial lighting:
      a. Reposition fixtures so that the point source of light or any reflective surface of the light fixture is no longer visible from the beach;
      b. Replace fixtures having an exposed light source with fixtures containing recessed light sources or shields;
      c. Replace traditional light bulbs with yellow "bug" type bulbs not exceeding fifty (50) watts;
      d. Replace non-directional fixtures with directional fixtures that point down and away from the beach;
      e. Replace fixtures having transparent or translucent coverings with fixtures having opaque shields covering an arc of at least 180 degrees and extending an appropriate distance below the bottom edge of the fixture on the seaward side so that the light source or any reflective surface of the light fixture is not visible from the beach;
      f. Replace pole lamps with low-profile, low-level luminaries so that the light source or any reflective surface of the light fixture is not visible from the beach;
      g. Replace incandescent, fluorescent, and high intensity lighting with the lowest wattage low pressure sodium vapor lighting possible for the specific application;
      h. Plant or improve vegetation buffers between the light source and the beach to screen light from the beach; and
      i. Construct a ground level barrier to shield light sources from the beach. Ground-level barriers shall not interfere with marine turtle nesting or hatchling emergence or cause short- or long- term damage to the beach/dune system.
   4. The following measures shall be taken to reduce or eliminate the negative effects of interior light emanating from doors and windows within line-of-sight of the beach:
      a. Apply window tint or film that meets the standards for tinted glass;
      b. Rearrange lamps and other moveable fixtures away from windows;
      c. Use window treatments (e.g., blinds, curtains) to shield interior lights from the beach; or
      d. Turn off unnecessary lights.
   5. Light sources within line of sight of the beach that cannot be repositioned, modified, or replaced, for whatever reason, shall be turned off from sunset each night until sunrise each morning during the nesting season.

3.06.03 Habitat Protection of Federally or State Listed Species

A. A professionally prepared biological survey to document the presence of endangered, threatened, or species of special concern shall be submitted with applications for development when the development is:
    1. In excess of two (2) acres on previously undisturbed properties; or located on environmentally sensitive lands.
B. Environmentally sensitive lands for which a survey is required regardless of acreage are those found in 3.02.03(A)
C. Biological surveys shall:
    1. Follow the standards and criteria adopted by the Florida Fish and Wildlife Conservation Commission and U.S. Fish and Wildlife Service; or
    2. Include a preliminary report consisting of pedestrian surveys of 200-foot transects through a minimum of twenty-five percent (25%) of each habitat on site. Within twenty-one (21) days of the preliminary report, the City Manager shall (1) render a finding of whether a second, more intensive survey is needed, based on the information provided by the Florida Fish and Wildlife Conservation Commission and U.S. Fish and Wildlife Service , and (2) shall describe the parameters it will follow for such an intensive survey, if required.

If the field biological inventory indicates the presence of federally or state listed species:

A. The survey shall be forwarded to the Florida Fish and Wildlife Conservation Commission and U.S. Fish and Wildlife Service; and
B. The applicant shall follow the recommendations of the Florida Fish and Wildlife Conservation Commission and U.S. Fish and Wildlife Service for mitigating loss of habitat; or
C. A habitat plan shall be prepared by a qualified ecologist, biologist, or other related professional and shall include, at a minimum, the following:
    1. An analysis of the likelihood of the species surviving on the proposed development site as a viable population, assuming that the proposed development would not occur and taking into account the quality and quantity of habitat needed to maintain members of the species;
    2. An analysis of existing viable habitat on adjacent property for the species;
    3. The land needs of the species that may be met on the development site; and
    4. 4. Measures that shall be taken to protect the habitat of the species on the property, if the species would likely remain a viable population, in the absence of the proposed project

Prohibited activities:

A. No protected species of wildlife or freshwater fish or their nests, eggs, young, homes, or dens, shall be taken, transported, stored, served bought, sold, or possessed in any manner or quantity at any time, except as specifically permitted by the provisions of State law.
B. No person shall kill, wound, pursue, molest harm, harass, capture, or possesses any protected species or parts thereof or their nests, eggs, young, homes, or dens, except as authorized by specific permit, issued by the Florida DEP, the Florida Fish and Wildlife Conservation Commission, and any other applicable State or Federal agency.
C. Development proposed adjacent to Outstanding Florida Waters, aquatic preserves, wildlife sanctuaries, wildlife refuges, state preserves, forests, parks, gardens, and wildlife management areas shall be environmentally compatible in order to conserve wildlife populations and habitat.

4.00.00 GENERALLY

4.00.01 Purpose and Intent

The intent of this chapter is to provide design standards applicable to all development activity in the City. The purposes are to:

A. Establish reasonable and equitable standards of design;
B. Ensure that public facilities and utilities are available to all developments;
C. Provide for adequate light, air, and privacy;
D. Prevent the overcrowding of the land and undue congestion of the population; and
E. Provide for open spaces and recreational areas through the most efficient design and layout of the land.

4.00.02 Applicability

A. No building shall be constructed, installed, enlarged, reconstructed, or structurally altered, except in compliance with the standards and requirements of this LDC.
B. Where an overlay district applies to a site, the standards for the overlay district shall apply in addition to the standards of the underlying zoning district.
C. In addition to standards for all development within a zoning district, supplemental standards for specific uses are set forth in Section 6.02.00. Such supplemental standards shall apply in addition to the standards of the zoning district and overlay district, if applicable, in which the development is located.
D. Where conflict arises between standards required in a zoning district, in an overlay district, by supplemental standards, or by other legally binding document, the following rules shall be used in the application of standards:
    1. Where a City-approved site plan, City-approved development agreement, court order, or other legally binding document which authorizes development applies to the site, the standards in the legally binding document shall apply.
    2. In all other situations, the stricter standard shall apply.

4.00.03 Design Principles

Development design shall first take into account the protection of environmental and natural resources as set forth in Chapter 3. All development shall be designed to avoid unnecessary impervious surface cover; to provide adequate access to lots and sites; and to avoid adverse effects of shadow, glare, noise, odor, traffic, drainage, and utilities on surrounding properties.

4.01.00 DENSITY AND HOUSING STANDARDS

4.01.01 Density and Housing Types

Table 4.01.01. Density and Housing Types in Base Zoning Districts.

Zoning District	Maximum Gross Density (dwelling units per acre)	Permissible Housing Types
RE	1.0	Single-family detached
R1-G	4.0	Single-family detached
R-1	4.0	Single-family detached
RLM	6.0	Single-family detached
R-2	8.0	Single-family detached Duplex structures Triplex structures Townhouses
R-3	10.0	Single-family detached Duplex structures Triplex structures Townhouses Multi-family structures with 4 or more units
OT-1	10.0	Single-family detached
OT-2	10.0	Single-family detached
MU-1	8.0	Single-family detached Duplex structures Triplex structures Townhouses Mixed Use
MU-8	18.0	Single-family detached Duplex structures Triplex structures Townhouses Multi-family structures with 4 or more units Mixed Use
C-1	Prohibited	
C-2	Prohibited	
C-3	34.0	Single-family detached Duplex structures Triplex structures Townhouses Multi-family structures or mixed use
I-1	Not permitted as a principal use[1]	
I-2	Not permitted as a principal use1	
I-A	Not permitted as a principal use[1]	
I-W	Not permitted as a principal use[1]	
W-1	2.0 with bonus potential to 4.0	Single-family within mixed use

CON	Not permitted as a principal use[1]	
REC	Prohibited	

[1]An accessory dwelling unit is permissible for caretakers or security personnel. See Section 5.01.04.

4.02.00 DESIGN STANDARDS FOR BASE ZONING DISTRICTS

4.02.01 Standards for Lot Design

A. The following types of lots are permissible:
   1. Corner lot, located at the intersection of two (2) streets and abutting such streets on two (2) adjacent sides. Lots abutting a right of way that is used as a beach access is not considered a corner lot, if access is not provided through the beach access.
   2. Double-frontage lot, with frontage on two (2) opposing sides; where one (1) frontage is on an alley, the lot is not considered a double-frontage lot. A double-frontage lot may also be called a through-lot.
   3. Interior lot, which has street frontage on only one (1) side.
   4. Lots that are located in conformity with the established street pattern.

B. Only one (1) principal residential building and its allowable accessory buildings can be erected on any one (1) lot.

C. Except as specifically provided in this LDC, no lot existing at the time of adoption of this LDC can be reduced, divided, or changed so as to produce a lot or tract of land which does not comply with the minimum standards as set forth in this LDC.

D. The impervious surface ratio is calculated by dividing the total of all impervious surfaces on the lot by the total lot area. Water bodies are impervious surfaces.

E. Where cluster development is permissible and proposed under unified development control, the calculation of impervious surface applies to the entire site and does not apply to individual lots within the development site.

F. The floor area ratio is calculated by dividing the total of all floor areas on the site by the total site area. Floor areas include the gross floor area on each floor or story of the principal building and the floor area of any accessory building, not including parking areas.

G. Minimum lot area must be consistent with the density standards set forth in Table 4.01.01. For the purpose of determining consistency of the lot area with density standards, density is as defined in the Comprehensive Plan.

H. The minimum lot area for lots in the RE zoning district is 43,560 square feet.

I. Lots must be designed to comply with the standards set forth in Table 4.02.01(J).

Table 4.02.01(J). Design Standards for Lots

Zoning District	Minimum Lot Width (ft.)	Maximum Impervious Surface Ratio for Lots (%) (Note 7)	Maximum Floor Area Ratio for Lots (%) (Note 1)
RE	100	60	50
R1-G	75	60	50
R-1	50 or 75 Note 2	60	50
RLM	50	60	50
R-2	50 Note 4	60	50
R-3	50	60	50
OT-1	46.5	Note 6	50
OT-2	46.5	Note 6	50
MU-1	50	60	50
MU-8	25	60	200
C-1	50	60	1.50
C-2	50	60	1.50
C-3	25	75 Note 3	200
I-1	75	60	50
I-2	75	60	50
I-A	75	60	50
I-W	75	60	75
W-1	25	60	75
PI-1	50	60 Note 5	50
CON	NA	5	NA
REC	NA	Note 5	NA

Notes:
1. For RE, R-1, R-2, R-3, OT-1, and OT-2, the FAR standard applies to any permissible commercial uses.
2. The minimum lot width for lots platted prior to the effective date of this LDC is fifty (50) feet. The minimum lot width for lots platted on or after the effective date of this LDC is seventy-five (75) feet.
3. The maximum impervious surface ratio within the "Central Business District" land use category, as depicted on the Future Land Use Map, may be 1.00 where the application is for redevelopment of a lot that is developed with 100% impervious surface. Where the application is for new development of a vacant lot, the maximum impervious surface on the lot may be 100% where stormwater facilities are available and have sufficient capacity to accept the runoff from the lot.
4. Development is permissible on lots which were platted before the effective date of this LDC and have a minimum width of twenty-five (25) feet.
5. Proposed development on lots within the "Recreation" land use, as depicted on the Future Land Use Map shall not exceed 0.25 impervious surface ratios.
6. Refer to Chapter 8 Section 8.01.01.02 for maximum lot coverage.
7. Permits required for residentially zoned parcels for concrete or asphalt installation more than 150 sq. ft of horizontal surface area.

4.02.02 Requirements Regarding Combining Lots

A. Applicability
Lots or parcels that abut Ocean Avenue, North Fletcher Avenue, or South Fletcher Avenue are subject to the provisions of this section regarding combining lots.

B. Purpose
The provisions of this section are intended to ensure that development in the beach area on the streets identified in Section 4.02.02(A) above is consistent with the existing pattern of development.

C. Combining two (2) or more lots is prohibited where the resulting lot is not compatible with the surrounding neighborhood as defined by any one of the following characteristics:
1. The proposed lot has a width greater than 100 feet.
2. The proposed lot area is not consistent with the density for the zoning district, as set forth in Table 4.01.01.

4.02.03 Standards for Buildings and Building Placement

A. Encroachment
1. A yard created by the setbacks set forth in this section will not be considered a yard for any other building.
2. Every part of a required yard must be open and unobstructed from its lowest point to the sky, except as set forth in Section 4.02.03(A) (3), (4), (5) and (6) below.
3. Front entry steps may encroach into a minimum front yard up to forty-two (42) inches.
4. The following building features may project into a minimum yard up to twenty-four (24) inches: sills, belt courses, cornices, buttresses, ornamental features, chimneys, and eaves.
5. The following building features may project into a minimum rear yard up to forty-two (42) inches: open or enclosed fire escapes, outside stairwells, and balconies.
    a. Balconies must comply with the front and side yard setbacks.
6. Porches may encroach up to ten (10) feet into the rear yard setback.
    a. Porches must comply with the front and side yard setbacks.
7. Decks with a finished floor of 12" or less from grade are permissible encroachments into the side and rear yards up to five (5) feet from the property line. For installation of a deck on varying topography, the floor level may be allowed to reach a maximum of 36" from grade.
    a. Decks must comply with the front yard setbacks.
8. Mechanical equipment may be located within the side or rear yard setback, but not closer than five (5) feet to side or rear yard lot lines and screened by landscaping or opaque fencing.
9. Specific requirements for fences and signs are outlined in Sections 5.01and 5.03.

B. On double-frontage lots, the designated front yard will be determined by the City.

C. Standards for building height:
1. Building height shall be measured from the average natural grade, to the highest point on the structure unless the property is located within a flood hazard area as provided herein. Properties located within a flood hazard area shall measure building height to the highest point on the structure from:
    a. The higher of the base flood elevation or approved finished grade for buildings and structures in a special flood hazard area and 0.2 percent annual chance of flood hazard area.

b. The approved finished grade for buildings and structures in coastal high hazard areas (Zone V) and Coastal A zones.

2. Building Height Encroachments: the calculation of maximum building height shall not include architectural rooftop features, mechanical equipment, elevator shafts, chimneys or other venting systems as required by the Florida Building Code, except as provided in subsection 4.02.03(C)2(a).
    a. Residentially zoned properties located within 1,000 feet of the Coastal Construction Control Line (CCCL) cannot exceed 35 feet in building height. The only permissible encroachments are chimneys or other venting systems as required by the Florida Building Code.
3. The following structures shall not be subject to height limits: telecommunications towers, flagpoles, and City-owned water towers.

D. Buildings shall comply with the standards in Table 4.02.03(E) set forth below:

Table 4.02.03(E). Standards for Building Heights and Setbacks

Zoning District	Maximum Building Height (ft.)[1]	Minimum Setback			
		Front (ft.)	Side[2]	Rear (ft.)	Corner Lot (side abutting street) (ft.)[3]
RE	35	25	10% of lot width	25	15
R1-G	35	25	10% of lot width	25, 50 feet for fairway lots	15
R-1	35	25	10% of lot width	25	15
RLM	35	25	10% of lot width	25	15
R-2	35	25	10% of lot width	20	15
R-3	45	25	10% of lot width	20	15
OT-1	35	See specific standards in Section 8.01.01.02.			
OT-2	35	See specific standards in Section 8.01.01.02.			
MU-1	35	None	None[4]	10	10
MU-8	45	See specific standards in Section 4.03.03			
C-1	45	None	None[4]	10	10
C-2	45	None	None	None	None
C-3	45	None	None	None	None
I-1	45[5]	None	None	None	None
I-2	45[5]	None	None	None	None
I-A	45	None	None	None	None
I-W	35	None	None	None	None
W-1	See specific standards in Section 8.01.02.				
PI-1	45	25	10	10	10
CON	25	None	None	None	None
REC	25	None	None	None	None

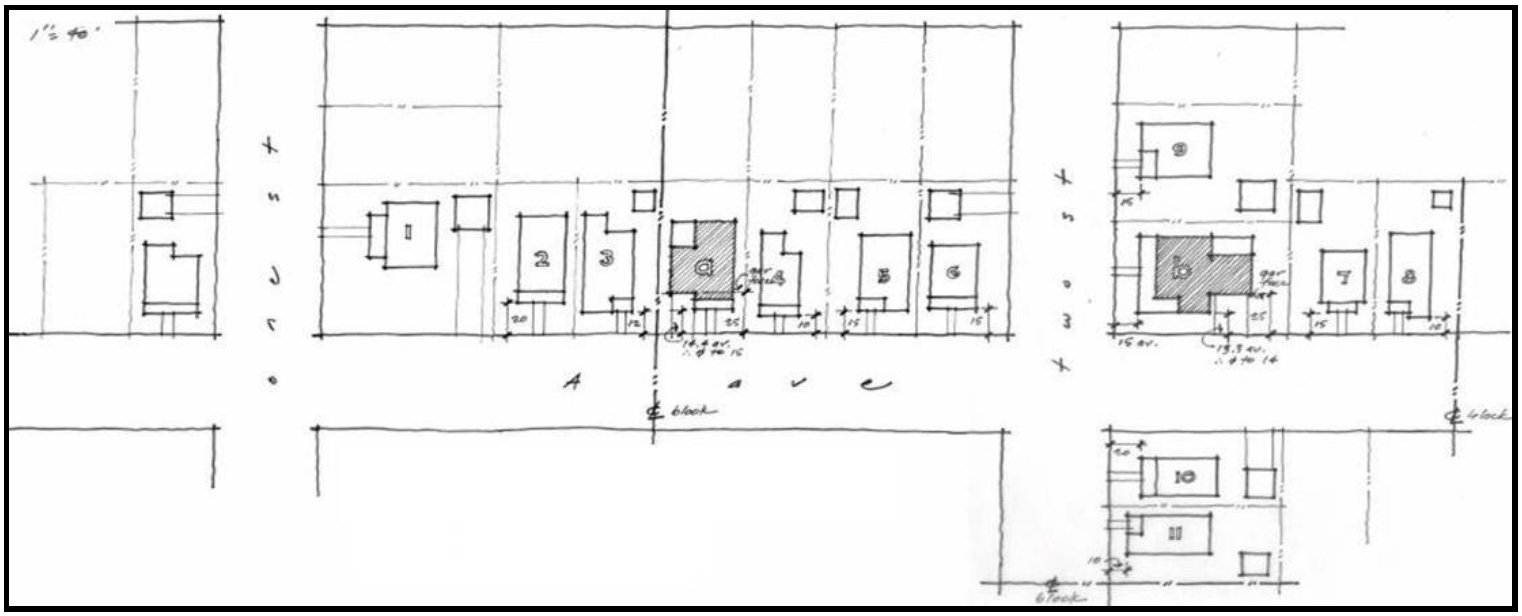
1. A building within 1,000 feet of the Coastal Construction Control Line (CCCL) shall not exceed thirty-five (35) feet in building height.
2. Each side yard setback shall be increased by one-half (½) foot for each one (1) foot, or fraction thereof, of building heights above twenty-five (25) feet.
3. Buildings shall not encroach into the required clear visibility triangle at intersections, as set forth in Section 7.01.08.
4. Where access is provided from an alley or public street to the rear of the principal building, no side yard setback is required. Where such access is not available, one (1) side yard shall be a minimum of ten (10) feet. Any other side yard shall have a minimum side yard setback of zero (0) feet.
5. Manufacturing and/or Assembly – Heavy uses shall be exempt from height regulations.

F. Context Sensitive Setback Determination

1. Authority and Limitation

The City Manager is authorized to alter setback standards in Table 4.02.03(E) of this LDC based on context sensitive review of setbacks in the vicinity of the subject property. Accessory structure setbacks are not eligible for context sensitive setback determinations. The authority to alter setback standards is limited to the following:

a. If at least half of the lots on the same block face are occupied by principal structures and at least 50% of those principal structures do not comply with minimum front yard setbacks, property owners may elect to apply for a context sensitive front yard setback determination.



i. The front setback of other principal structures on the block face must be measured from the property line to the closest vertical element of the roofed portion of the principal structure, such as porch supports or the building face. Block Face shall be defined as one (1) side of a street between two (2) intersecting streets. The orientation of structures on corner lots determines the applicable block face.

ii. On properties seeking a context sensitive setback determination, principal structures must be set back from the front property line a distance equal to the average front setback depth of all principal structures on the same block face, using measurements obtained in 4.02.03(F)(1)(a)(i).

iii. Buildings that front on a different street than the subject lot or that are separated from the subject lot by a street or alley may not be used in computing the average.

iv. In using a context sensitive setback determination, front-loaded garages must be setback at least twenty-five (25) feet in all cases.

Figure 4.02.03(F): Contextual Setback Determination

In this example, lots 2, 3, 4, 5, and 6 represent the block face. Lot 1 is not included in the block face calculations because it fronts on a different street. If this block were classified in a R-2 district, the minimum required front setback would be 25 feet. The block face shown would qualify for use of a contextual front setback determination since more than 50% of the principal structures on the block

face do not comply with the R-2 district's 25-foot front setback requirement. When constructing on lot "a" the property owner would be allowed to use the average setback of all existing principal structures on the block face. In this example, the resulting contextual setback would be 14.4 feet—the average of front setbacks for structures on lots 2, 3, 4, 5 and 6.

Lot "b" may use the setback of lot 9, since the orientation of the structure on lot "b" will be oriented onto two streets and lot 9 is the only other structure on this block. The orientation of structures on corner lots determines the applicable block face.

2. Procedure

a. An application and applicable fees for a context sensitive setback determination shall meet the requirements set forth in Section 11.01.03, and City policies, as amended from time to time.

b. Measurements accompanying an application must be validated by a licensed land surveyor.

c. The City Manager shall evaluate the application for a context sensitive setback determination for compliance with the requirements set forth in Section 4.02.03(F)(1) above.

d. Upon approval, the City Manager shall provide a notice of intent to approve, to be posted on the subject property for a period of ten (10) days. Any appeals of this intent to approve shall follow the process provided in Section 11.07.00.

e. Following the notice period, the City Manager issues a written order stating the approved setbacks for the subject property. A copy of such order shall be submitted with any building permit application for the property.

3. Monthly Reports Required

A monthly report shall be prepared to summarize the number and type of context sensitive setback determinations granted in the previous month.

4.02.04 Specific Requirements for Lots Abutting the Municipal Golf Course Fairway in R1-G

A. For purposes of this subsection, the term "golf fairway residential areas" shall mean all those residential lots of land located adjacent to the municipal golf course.

B. That portion of any golf fairway residential lot or block within 25 feet of the lot or block line bordering the golf course shall be in general conformity with the overall landscaping pattern for the golf course fairway area established by the golf course architect. All individual lot or block landscaping plans must be approved by the community development department.

C. There is reserved to the city a golf course maintenance easement area on each lot adjacent to the fairway. This reserved easement shall permit the city at its election to go onto any fairway lot at any reasonable hour and maintain or landscape the golf course maintenance easement area. The maintenance and landscaping may include regular removal of underbrush, trees less than six inches in diameter, stumps, trash or debris, planting of grass, watering, application of fertilizer, and mowing the easement area. This golf course maintenance easement area shall be limited to the portion of those lots within 25 feet of the lot line bordering on the golf course or that lesser area as may be shown as a golf course maintenance area on the recorded plat of the lot. No fence shall be allowed on any golf course maintenance easement.

4.02.05 Specific Requirements for Resort Rental Residential

A. Resort rental residential units shall be limited to occupancy periods per rental of thirty (30) or fewer days.
B. Dwelling units used as resort rental residential units shall provide one (1) parking space for each two (2) occupants; occupancy shall be the number of occupants according to the fire rating.
C. Parking shall be located in the side or rear yard, except for lots abutting the Atlantic Ocean. Parking shall be located at least ten (10) feet from the front property line where parking is permissible in the front yard. This provision is for new resort rental permits only. For new Resort Rental permits issued after October 1, 2006 parking is prohibited in the front yards of houses on the west side of Fletcher Avenue.

4.02.06 Specific Standards for Townhouse Development

A. Townhouse development shall comply with the density of the zoning district in which it is proposed. The additional standards set forth in this section shall apply to all townhouse development.
B. Side yard setback requirements do not apply to interior lot lines.
C. A townhouse is a single-family attached dwelling unit. It is contiguous to adjacent units by a common wall.
D. There shall be at least two (2) but not more than six (6) units in one (1) building.
E. Each townhouse dwelling unit shall have a direct entrance to the outside, and shall not open to a common lobby, hallway, foyer, or other similar space.
F. Where all lots, parcels, and dwelling units are under common ownership, there shall be a management plan to demonstrate unified control and management of common areas and facilities.
G. Where common open space, recreation facilities, or other accessory structures or facilities are proposed, sidewalks or pedestrian paths shall be provided to connect buildings, parking lots, open space, and common areas.

4.03.00 DESIGN STANDARDS FOR OVERLAY DISTRICTS

4.03.01 Standards for Planned Unit Development (PUD) Overlay

A. Purpose

It is the purpose of the PUD overlay district to provide flexible land use and design and to allow planned diversification and integration of uses and structures, while retaining to the City the authority to establish limitations and regulations thereon for the benefit of the public health, welfare, and safety. A PUD overlay district is intended to promote economical and efficient land use, an improved level of amenities, appropriate and harmonious variety in physical development, creative design, variety of housing types, and a better urban environment.

B. A PUD overlay district shall have the following characteristics:
   1. Unified control for development purposes;
   2. Unified site design, planned and developed as a whole, in a single development operation or a programmed series of development operations, including lands, buildings, structures, and uses;
   3. Civic spaces in residential developments which provide opportunities for resident social interaction;
   4. Commercial land uses, if any, which provide convenient service, employment, and access, and yet remain separated from residential areas by the use of landscaping and natural buffers; and
   5. Conservation of natural resources as set forth in Chapter 3.

C. A PUD shall provide a public benefit. At a minimum, two (2) or more of the following public benefit conditions shall result from the implementation of the proposed PUD:
   1. Replacement of nonconforming development;
   2. Creation of public open space, such as plazas or parks;
   3. Improved waterfront protection and enhancement of views of oceanfront and riverfront areas;
   4. Preservation of designated historically significant structures;
   5. Replacement or rehabilitation of obsolete, blighted, or underutilized buildings; or
   6. Provision of bicycle paths and walkways that provide public access to public open space or water bodies.

D. An application for a PUD shall contain comprehensive and detailed plans for development of the site, including building location, building dimensions, building elevations, location, and dimensions of accessory structures, landscaping, open space, amenities, and detailed plans for infrastructure.

E. An application for approval of a PUD shall include a description of the program for provision, operation, and maintenance of areas, improvements, facilities, and services intended for common use by some or all of the occupants of the PUD, but which will not be provided, operated, or maintained at general public expense.

F. A PUD overlay district is permissible in the following zoning districts: R-1, RLM, R-2, R-3, MU-1, C-1, and C-2.

G. A PUD overlay district is prohibited within the Coastal High Hazard Area as established in the Comprehensive Plan.

H. The following general design standards shall be used in evaluating a PUD:
   1. The preferred access to a PUD is an arterial or major collector street. A PUD shall be located and designed to minimize traffic impacts in established residential neighborhoods.
   2. The natural topography, soils, natural vegetation, and surface water shall be preserved and utilized through the careful location and design recreation areas, open space, and drainage facilities. Open space areas shall utilize wetlands, floodplains, shorelines and other natural features.

I. The following specific design requirements apply to PUD development:
   1. The minimum land area for a PUD is five (5) acres, except as set forth in Section 4.03.01(I)(2) below.
   2. Where a minimum of twenty-five (25) percent of the dwellings in a residential PUD are set aside to meet affordable housing needs, the minimum land area may be reduced to two (2) acres.
   3. A residential PUD shall include two (2) or more housing types. Permissible housing types include: single-family attached, single-family detached, townhouse, duplex, triplex, and multi-family buildings.
   4. Within a residential PUD, five (5) percent of the land area shall be designed and used for civic or recreational purposes. Water bodies and wetlands shall not be included within the calculation of land area set aside for civic or recreational purposes.
   5. Where residential uses are permissible in the underlying zoning district, the maximum residential density shall comply with the density standards set forth in Table 4.01.01.
   6. Where nonresidential uses are permissible in the underlying zoning district, the maximum floor area ratio shall not exceed 0.21.
   7. Within a mixed-use PUD, the following standards apply:

a. A minimum of five (5) percent of the land area shall be designed and used for civic purposes;
b. A maximum of fifty (50) percent of the land area shall be devoted to nonresidential uses;
c. A maximum of eighty (80) percent of the land area shall be devoted to residential uses; and
d. Water bodies and wetlands shall not be included within the calculation of land area set aside for civic or recreational purposes.

J. The following site design standards may deviate from the standards applicable to the underlying zoning district, and, upon approval of a site plan for the PUD, shall become binding upon all development within the PUD:
1. Minimum building setbacks;
2. Maximum building height;
3. Minimum parking ratio;
4. Maximum impervious surface ratio;
5. Minimum lot width; and
6. Landscape design.

4.03.02 Standards for Development in the Airport Overlay

Construction design standards for development on the Airport have been established to apply reasonable criteria to guide the development and improvement of leaseholds at Fernandina Beach Municipal Airport. These design standards are described and depicted in the Architecture and Building Design Standards for Development on the Airport, which is adopted by reference and made a part hereof. Objectives of these design standards are:

1. Facilitate high quality development which seeks to maximize the utilization of property for new buildings and facilities and, when appropriate, renovate existing facilities.
2. Assure that all development is aesthetically attractive and presents a pleasing and reasonably consistent appearance with a reasonable economic life.
3. Promote measures that will assure that airport safety and security issues are properly addressed.
4. Promote the efficient use of land to minimize the impact on wetlands or other environmentally constrained land areas.
5. Assure compatibility of the development proposed by the various airport lessees.
6. Designate and maintain appropriate corridors for utilities, public access to various airport facilities and controlled airside access.
7. Provide adequate separation between buildings and public rights-of-way.
8. Provide ample off-street parking with appropriate landscaping to screen vehicular and equipment storage areas.
9. Maximize the availability and use of aircraft ramp areas.

The purpose of this section is to establish limitations on the height of objects and uses of land to prevent the creation of obstructions hazardous to aeronautical operations or which could increase the risk to the public's health, safety or well-being in the event of an aviation accident or which would otherwise impair the full utility and operating capacity of Fernandina Beach Municipal Airport. This section creates specific surfaces for three separate purposes providing height restrictions conforming to varying obstruction standards: land use limitations based on sensitivity to aviation generated noise; land use based on increased risk of injury; and hazard to health or property damage in the event of an aircraft accident.

1. Obstruction Height Surfaces: Surface sizes and height limitations established in this section conform to the standards for determining obstructions to air navigation of 14 CFR

Part 77, ss77.23. For civil airports there are hereby created and established certain surfaces which include all of the land lying beneath the primary, approach, transition horizontal and conical surfaces as they apply to a particular airport. These surfaces are described and depicted in the Airport Layout Plan Update, 1999 Technical Report, as may be amended, which is adopted by reference and made a part hereof. All provision shall be consistent with Section 333, Florida Statutes. An area located in more than one of the described surfaces is considered to be only in the surface with the more restrictive height limitation. The various surfaces are hereby established and defined as follows:

A. The primary surface is an area longitudinally centered on each runway, extending 200 feet beyond each end of a paved runway. The width of the surface so specified for each runway for the most precise approach existing or planned for either end of the runway. No structure or obstruction shall be permitted within the primary surface that is not part of the landing and takeoff facilities and is of a greater height than the nearest point on the runway centerline. The width of the primary surface of a runway shall be that width for the most precise approach existing or planned for either end of that runway. Therefore, for Fernandina Beach Municipal Airport the width of the primary surface for Runways 4 and 22, 8 and 26, and 13 and 31 is 500 feet for non precision instrument runways having visibility minimums greater than three-fourths (3/4) statute mile.

B. The horizontal surface is the area surrounding the Fernandina Beach Municipal Airport with the outer boundary constructed by swinging arcs of specified radii from the center of each primary surface end for each airport runway then connecting adjacent arcs by tangents. The arc radii for each runway end will have the same arithmetic value and will be the highest value determined for either end of that runway. When a smaller arc is encompassed by the tangent connecting larger arcs, the smaller shall be disregarded in determining the surface boundary. No structure or obstruction will be permitted in the horizontal surface that has a height greater than 150 feet above the airport elevation. For the Runways 4 and 22, 8 and 26, and 13 and 31 the radius of each arc is 10,000 feet for runways designated or planned for other than utility, non precision instrument runway.

C. The conical surface is the area extending outward from the periphery of the horizontal surface for a distance of 4,000 feet. No object or structure will be permitted in the conical surface that has a height greater that 150 feet above the airport elevation at its inner boundary with permitted height increasing one (1) foot vertically for every twenty (20) feet of horizontal distance measured outward from the inner boundary to a height of 200 feet above airport elevation at the outer boundary.

D. The approach surface is an area longitudinally centered on the extended runway centerline and extending outward and upward from each end of the primary surface. An approach surface is designated for each runway based upon the type of approach available or planned for that runway end.
   a. The inner edge of the approach surface is the same width as the primary surface.
   b. The outer width of the approach surface is the most precise approach existing or planned for that runway end expanding uniformly for Runways 4 and 22, 8 and 26, and 13 and 31 to a width of 3,500 feet for that end of a non-precision instrument runway other than utility, having visibility minimums greater than three-fourths (3/4) of a statute mile.

c. The approach surface for Runways 4 and 22, 8 and 26, and 13 and 31extends for a horizontal distance of 10,000 feet for all non precision instrument runways other than utility.

d. No object or structures will be permitted within an approach surface, beginning at its intersection with the end of the primary surface, having a height greater than the runway end elevation, the height above the runway end elevation increasing with the horizontal distance outward and for Runways 4 and 22, 8 and 26, and 13 and 31 the permitted height increases one foot vertically for every 34 feet horizontal distance for all non precision instrument runways other than utility.

E. The transitional surface as the area extending outward from the sides of every primary surface and approach surface connecting them to the horizontal surface and an area outward 5,000 feet horizontally or until intersection with the conical surface from the side of that portion of the approach surface of a precision instrument runway extending through and beyond the conical surface. No object or structure will be permitted within the transitional surface greater in height than the primary surface or approach surface at their adjoining boundary lines increasing at a rate of one (1) foot vertically for every seven (7) feet horizontally, with the horizontal distance measured at right angles to the runway centerline and extended centerline, until the height of the slope matches the height of the horizontal surface or the height of the conical surface and for a horizontal distance of 5,000 feet from each side of that part of the approach surface for a precision instrument runway extending beyond the conical surface.

F. In addition to the height limitations imposed in (A) through (E) above, no structure or obstruction shall be permitted within the City's jurisdiction that would cause a minimum obstruction clearance altitude, a minimum descent altitude, a minimum vectoring altitude, or a decision height to be raised. Nor impose either the establishment of restrictive minimum climb gradients or non-standard take-off weather minimums for any runway at Fernandina Beach Municipal Airport.

G. Applications for land development or improvement will be reviewed by the Fernandina Beach Municipal Airport for their potential impact on the imaginary surfaces designated for existing and planned operating conditions at the Airport as well as those associated with existing and planned instrument approach and instrument departure procedures. The latter instrument procedures are defined by the "United States Standard for Terminal Procedures" as may be amended by the Federal Aviation Administration (FAA). Proposed land development or improvements that penetrate the imaginary surfaces or that may cause an increase to instrument approach and/or instrument departure procedures shall not be permitted.

2. Airport Noise Zones, Boundaries and Requirements

A. No noise specific zones have been identified as part of this section. However, if the City of Fernandina Beach in the future undertakes the development of a FAA Area Equivalent Method (AEM) study and it shows noise impact areas off the airport property, then this section can be amended as needed to reflect the results of the noise impact studies. Such noise studies, consistent with FAR Part 150, or equivalent noise studies map overlay land use noise zones using AEM. The AEM is a mathematical procedure that provides the noise contour area of a specific airport given the types of aircraft and the number of operations for such aircraft. These noise zones are based on projected yearly averaged 24-hour day/night average

noise level (DNL) impact projections arising from aircraft flight operations at the Fernandina Beach Municipal Airport.

B. Where an airport authority or other governing body operating a publicly owned, public-use airport has not conducted a noise study, neither residential construction nor any educational facility as defined in Chapter 1013, with the exception of aviation school facilities, shall be permitted within an area contiguous to the airport measuring one-half the length of the longest runway on either side of and at the end of each runway centerline.

3. Public Safety and Welfare

A. Notwithstanding any other provision of this section, no use may be made of land or water within any surface established by this section in a manner so as to interfere with the operation of an airborne aircraft. The following special requirements shall apply to each permissible use:

1. All lights or illumination used in conjunction with street, parking, signs, or use of land and structures shall be arranged and operated in such a manner that it is not misleading to or obscure pilots vision during critical take-off or landing stages of flight or be otherwise dangerous to aircraft occupants or flight operations at Fernandina Beach Municipal Airport or in the vicinity thereof.
2. No operations of any type shall produce smoke, glare, or other visual obscurations hazards within three (3) statute miles of any usable runway of the Fernandina Beach Municipal Airport.
3. No operations of any type device shall produce electronic interference with navigation signals or radio communication between the airport, aircraft or an air traffic control facility.
4. No use of high energy beam devices is permitted where the energy transmission is not fully contained within a building or some type of absorbing or masking vessel.

B. Aircraft Over-flight and Accident Potential Zones (APZ) are hereby created and established of certain surfaces underlying those recurring, fixed flight paths for aircraft taking-off and landing at Fernandina Beach Municipal Airport. Of necessity, aircraft must routinely operate at low altitude and climb from or descend to the runway along these paths. The potential of an aircraft accident, should one occur, is statistically most significant in these surfaces thus the risk of injury to people or damage to property on the ground that could result from such an accident is greatest. This includes the Runway Protection Zone (RPZ). Civilian airport Aircraft Over-flight Zones include the primary surface, approach surface (limited to the inner 10,000 feet) and the adjoining transitional surface as described in the latest airport layout plan.

C. Incompatible land uses would generally comprise those uses, activities or construction within runway clear zones, which are incompatible with normal airport operations or endanger public health, safety, and welfare that result in congregations of people, emissions of light or smoke, attractions of birds. Such regulations shall prohibit the construction of an educational facility of a public or private school at either end of a runway within an area which extends five miles in a direct line along the centerline of the runway and which has a width measuring one-half the length of the runway.

D. The following uses of land shall be prohibited within the accident potential zone area: high-density residential use, schools, hospitals, storage of explosive material, assemblage of large groups of people, or any other use that could produce a major catastrophe as a result of an aircraft crash.

E. No non-conforming land use shall be allowed within the designated Runway Protection Zones for all runways at the Fernandina Beach Municipal Airport. The FAA considers the following to be non-conforming uses: residences and places of public gathering such as churches, schools, hospitals, office buildings and shopping centers. Additionally, fuel storage facilities are also prohibited. This list shall be updated as necessary based on guidance given in the current version of the Federal Aviation Administration's Advisory Circular 150/5300-13 as amended or other state or federal regulations.

F. No person shall sell, lease, or offer to sell or lease any land within the airport approach surface or horizontal surface, unless the prospective buyer or lessee has been given the following notice in writing: "Noise warning--This land lies beneath the aircraft approach and departure routes for Fernandina Beach Municipal Airport and is subject to noise that may be objectionable."

G. Waste disposal and other facilities are prohibited which store, handle, or process organic material or any other material that fosters or harbors the growth of insects, rodents, amphibians, or other organisms that will result in significant bird population increases above the normal background. These types of facility operations increase the potential for aircraft bird strike resulting in damage to aircraft and injury to occupants. These uses are incompatible if located within the vicinity of any airport described in this section through the application of the following criteria:

1. Facilities located within 10,000 feet of any runway used or planned to be used by turbine powered aircraft
2. Facilities located within 5,000 feet of any runway used only by conventional piston engine powered aircraft
3. Any facility located so that it places the runways and/or approach and departure patterns of an airport between bird feeding, water, or roosting areas.
4. Facilities outside the above perimeters described but still within the lateral limits of any of the surfaces as described in Sections 4.03.03 (A) through (E) will be reviewed on a case-by-case basis.

4. Permits:

A. Height Zone Permits

1. No building or structure, located within the lateral boundaries of the Airport Height and Safety Zones shown in the most recent airport layout plan, may be constructed, erected, moved to or repaired, altered or modified resulting in an increase in height, unless a building permit has been reviewed by the City's Community Development Department and issued by the Building Official. No permit shall be issued unless the FAA has reviewed the proposed construction or alteration and issued a written Determination of the proposal's affect on navigable airspace where prior notification under CFR 14, Part 77 is required.
2. Notification is required for any temporary or permanent building or structure, whose height is proposed to exceed (i.) 200 feet above ground level at its site; or (ii.) a slope increasing one (1) foot vertically for every one hundred (100) feet horizontally for a distance of 20,000 feet from the nearest point of the nearest runway covered by this section.

B. Noise Zone Permit: not required at this time

C. Aircraft Over-flight and Accident Potential Zones: Within the lateral boundaries of any Aircraft Over-flight or Accident Potential Zone shown in the latest Airport Layout Plan, no building, structure, vehicle or vessel may be moved to, parked,

moored, constructed, repaired, altered or modified, either permanently of temporarily, unless a building permit has been issued by the Building Official.

D. The owner of any structure over 200 feet above ground level shall install lighting in accordance with *Federal Aviation Administration Advisory Circular 70-7460,* and amendments thereto, on that structure. Additionally, high intensity white obstruction lights shall be installed on a structure which exceeds 749 feet above mean sea level. The high intensity white obstruction lights must be in accordance with *Federal Aviation Administration Advisory Circular 70-7460* and amendments. Any permit or variance granted under this LDC for structures exceeding 749 feet in height shall require the owner to mark and light the structure in accordance with *FAA Advisory Circular 70-7460* or subsequent revisions. The permit may be conditioned to allow the City, at its own expense, to install, operate, and maintain those markers and lights as may be necessary to indicate to pilots the presence of an airspace hazard if special conditions so warrant.

5. Independent Justification: The purpose of the overlay surfaces adopted through this section is to provide airspace protection and land use compatible with continuation of normal and routine operation of Fernandina Beach Municipal Airport without endangering the public health, safety and welfare. Each of the three zoning aspects requires independent justification in order to promote the public interest in health, safety and general welfare. No structure or use may be permitted in any surface unless it conforms to the specific height, noise impact sensitivity and public safety limitations at its site as set forth in paragraphs 1, 2, and 3 of this section.
6. Future Uses: No change shall be made in the use of land, and no structure shall be altered or otherwise established in any surface created by this section except in conformance with the requirements of this section.

4.03.03 8th Street Small Area Design Standards

General Principles. The 8th Street standards are intended to encourage flexibility and variety in development through creative site and building design. All development shall contribute to making 8th Street a distinct and memorable part of the city, unique in spaces, buildings, and street character. Development shall be oriented and designed to contribute to the street environment and shall place priority on pedestrian comfort, convenience, safety, and access. Pedestrian scale elements refer to buildings and spaces whose dimensions, properties, and components correspond to human occupation and use. Access to all development shall be sited and designed to have a positive visual impact on the street with primary pedestrian access from 8th Street. Driveways and parking shall not take priority over pedestrian areas. Variety in design elements, transparency, color, texture, signs, and materials creates a visually interesting environment and contributes to the establishment of an architectural character for the corridor. Architectural compatibility is not limited to any particular style. The design standards for the 8th Street Small Area are as follows:

1. On the portion of the property fronting 8th Street, there is a required six (6) foot pedestrian/landscaping access area to provide a continuous, unobstructed clear walkway. This is to be measured from the property line going back six (6) feet. Buildings or building components may encroach into this space starting at the second story, with necessary structural components on the first story as long as the 6 foot pedestrian access area is unobstructed, provided an open pedestrian/landscape space is maintained. Required bicycle parking is not permissible within this area.
2. The setbacks for the remaining sides of the property are zero (0) feet.
3. Building Orientation.

a. Primary entrances shall face 8th Street. At least one public entrance of each principal structure shall be oriented toward the front lot line or side lot line. Developments are encouraged to provide as many pedestrian connections to the street as feasible.
b. Commercial and Mixed Use structures that extend across the full block width from S. 8th Street to S. 9th Street and S. 7th Street shall contain a secondary façade which is designed with an architectural style, detail, trim features, and roof treatments as consistent with that of the primary façade.
c. On corner lots, new buildings shall be oriented toward the streets and shall consider and complement the patter of existing adjoining development, with the primary façade(s) of the principal building facing the 8th Street facing lot line. Corner locations shall be considered opportunities for distinctive architecture.
d. Accessory structures, if any, shall be located at the rear of the principal buildings. All detached garages or carports shall be set back from the front façade of the principal building by at least 10 feet, openings shall not face 8th Street. Where feasible, detached garage and carport access shall be from the side streets.
e. All outdoor mechanical equipment shall be located at the rear of the principal buildings and screened. Screening may be structural or vegetative. They shall not be visible from any street. Mechanical equipment placed on the roof shall be screened from abutting streets with parapets or other types of visual screening.
f. Solid waste, recycling, and yard trash containers; grease containers, and loading docks shall be screened and located in parking areas or other locations remote from the sidewalk.

4. Site and Building Access. The City shall encourage shared access to reduce driveway cuts on 8th Street as redevelopment occurs and require cross access design for internal traffic. New driveway cuts which do not serve to reduce the overall number of cuts onto 8th Street shall be located on 7th ,9th Streets, east-west side streets.
   a. Whenever feasible, driveway access to a site shall be shared with adjacent properties and parking shall be located internally to the block or at the rear of the site.
   b. Service areas associated with multi-family dwellings shall be accessed from the rear of the site, where feasible.
   c. Building design or landscaping shall be required at a 3.5 foot tall minimum to obscure the view of vehicles from the ground level.
5. Building Design Standards. Individual building design shall defer to ensemble of buildings on the street rather than call undue attention to itself. New buildings shall contribute to the life of the street.
   a. Building Heights. Properties abutting residentially (R-1/R-2/ R-3) zoned properties shall be limited to thirty-five (35) feet, including the parapet for flat roofed structures.
      i. Facades up to thirty-five (35) feet in height shall be recessed from the first thirty (30) feet of façade a minimum of five (5) feet. Awnings, pergolas, or covered balconies may encroach into this setback.
      ii. Flat roofs are permitted but must provide a parapet up to 42 inches high in order to hide mechanical equipment.
   b. Architectural articulation. A building's exterior walls shall be articulated using material, architectural elements, arrangement of openings, design of horizontal and vertical planes, and changes in height to provide substantial massing variations. Long, monotonous roof planes and uninterrupted expanses of blank wall

are not allowed along street frontages. Articulated roof forms and wall opening shall be used to add visual interest and contribute to a pedestrian scale.

i. Where solid walls are required by building code, the wall shall be articulated and divided into distinct modules, through the use of projections and recesses (i.e. setbacks, reveals, belt courses, awnings, arcades, porches, etc.) within the building envelope or projecting from upper floors.

ii. Commercial buildings and buildings with ground floor commercial uses shall have a ceiling height minimum of twelve (12) feet for the ground floor.

c. Entryways. Doorways, windows, storefronts, and other openings in the facades of buildings shall be placed and proportioned to reflect pedestrian scale and movement and to encourage visual interest at the street level. The use of functional and decorative elements, including weather protection features (i.e. colonnades, arcades, canopies, etc.), signage, and architectural detailing, shall be used to create human scale on a buildings principal façade. Elements shall be integral to the architecture of the building, designed so as not to appear to be "tacked on" to the building façade.

d. Internal passageways are encouraged.

6. Fences. Fences up to 8 foot tall are permissible
   a. Fence Material: Black Wrought Iron or black anodized (SP) Aluminum is required for properties fronting 8th Street.
      i. Fence material for all other properties, not fronting 8th Street, within MU-8 zoning may be constructed of black wrought iron, or black anodized aluminum or wood or vinyl or some combination of these materials.
   b. Where any portion of the fence is visible from 8th Street landscape screening shall be required.
7. Improvement of bicycle and pedestrian paths is required in keeping with the approved streetscape plan.
8. Signs within the MU-8 zoning district shall follow the allowable sign standards set forth in Section 5.03.09.

4.04.00 STANDARDS FOR SUBDIVISIONS

4.04.01 Purpose: Subdivisions shall consider the compatibility of the proposed development with the surrounding neighborhood.

A. Section 4.04.00 regulates the subdivision or re-subdivision of land in order to protect and promote the health, safety, and general welfare of the citizens of Fernandina Beach. The regulations are intended to assure the harmonious, orderly, and progressive development of land by providing for proper legal description, identification, monumentation, and recording of real estate boundaries when parcels are subdivided.

B. This section applies to the subdivision of parcels into three (3) or more lots.

4.04.02 General Requirements

A. All development shall be on a recorded, platted lot that meets all standards set forth in this LDC.

B. A preliminary plat is required for all subdivisions, except as set forth in Section 4.04.02(F). A preliminary plat graphically depicts the proposed development or the location of individual lots. An approved preliminary plat is a necessary prerequisite for final plat approval.

C. A plan of proposed public improvements shall be submitted with the preliminary plat. Requirements regarding infrastructure are set forth in Chapter 7.
D. Submittal and procedural requirements regarding preliminary plats, public improvements plans, and final plats are set forth in Chapter 11.
E. A subdivision shall have at least two (2) vehicular access points to an improved right-of-way.
F. Lot line adjustments are exempt from the requirement to submit a preliminary plat and improvements plan if the proposed lot line adjustment complies with Section 4.02.02 regarding combining lots and if one (1) of following conditions are met:
   1. The division of land into two (2) parcels consists solely of the conveyance of land or granting of easements or rights-of-way to a governmental or public agency; and
   2. The division is a re-plat of two (2) existing lots and is solely for the purpose of re-facing a lot or lot line adjustments without an increase in the number of lots or units otherwise allowed.

4.04.03 Standards for Lots and Blocks

The lengths, widths, and shapes of blocks shall be designed to consider the following:

A. Lot area, width, shape, and orientation shall be suitable to the special needs of the type of use contemplated.
   1. Side lot lines shall be substantially at right angles or radial to the right-of-way line.
   2. Flag lots are prohibited.
   3. Block length shall be consistent with the established street system, but shall not exceed 1,200 feet between intersecting streets.
   4. Lot area shall be consistent with the density requirements set forth in Table 4.01.01.
   5. Lot dimensions shall be consistent with the requirements set forth in Table 4.02.01(J).
   6. Lots for nonresidential purposes shall have sufficient lot area to accommodate all required site features on the lot.
B. Layout of lots and blocks shall be appropriate for the topography.
C. No lot shall be divided by a City boundary line.
D. Lot and block layout shall ensure safe and convenient pedestrian and vehicle access.
   1. Each lot shall have frontage on and access to an existing or proposed public street.
   2. Each lot shall have access to sidewalks and/or pedestrian paths as set forth in Chapter

4.04.04 Requirements for Infrastructure

The following basic utilities shall be provided to each lot within a subdivision:

A. A source of electric power.
B. A telephone service cable.
C. Central potable water. Each lot shall have and maintain central water service meeting City standards and provided at the developer's or property owner's expense. If central potable water is not available, the property owner shall install water lines in compliance with City standards.
D. Central sanitary sewer. Each lot shall have and maintain central sanitary sewer service meeting City standards and provided at the developer's or property owner's expense. If central sanitary sewer is not available, the property owner shall install sewer lines in compliance with City standards.

E. Lines for delivery of reclaimed water to each lot, in compliance with City standards.
F. Fire hydrants or fire protection shall be provided as required by the National Fire Prevention Code. Fire hydrant systems shall be installed and made usable prior to any combustibles being brought onto the construction site.
G. Streets and sidewalks designed and constructed for public use according to the standards and requirements of Chapter 7. Street signs, markers, and traffic signs and signals to control and circulate traffic within the street pattern shall comply with the *Florida Uniform Manual of Traffic Control Devices*, published by the FDOT.
H. Street and common area lighting meeting City standards and provided at the developer's or property owner's expense. Decorative lighting is preferred. Lighting required for safety shall be located to avoid obstruction between the light fixtures and the area to be illuminated.
    1. All street lights installed shall be in accordance with the Illuminating Engineer Society of North America recommended values based on the pavement classification.
I. Drainage and stormwater management facilities designed and constructed according to the standards and requirements of Chapter 7.
J. Subdivision utility placement
    All lines for electricity, telephone, cable television, streetlights, and gas distribution (exclusive of transformers or enclosures containing electrical equipment, including, but not limited to, switches, meters, or capacitors) shall be placed underground within easements or dedicated public rights-of-way.
K. Utility apparatus, such as pumps, valve boxes, switching boxes, and back-flow devices, placed above ground shall be screened according to the standards set forth in Section 4.05.00.
L. Parks and recreation dedication, as specified below:
    1. Land dedicated for parks and recreation facilities shall be of suitable size, dimension, topography, and general character and shall have adequate road or other appropriate access for the proposed use.
    2. The area shall be shown and marked on the plat, "Dedicated for Park and/or Recreational Purposes." The area to be dedicated shall be dedicated either to a neighborhood association, approved by the City Commission, or to the City, in order to ensure maintenance of the area. The area to be dedicated shall be calculated based on the adopted level of service standard in the Comprehensive Plan.
    3. The land area to be dedicated should be at least two (2) acres. When the calculation of land area results in less than two (2) acres, the City may require that the recreational area be located at a suitable place on the perimeter of the subdivision so that additional land may be added at such time as the adjacent land may be subdivided or otherwise utilized.
    4. In those instances where a subdivision will provide recreational facilities or dedicate land for use by the public for recreational purposes, the City Commission shall grant the developer a credit against recreation impact fees in an amount equal to the appraised value of the reserved land or improvements, but the credit shall not exceed fifty (50) percent of the recreation impact fee which would otherwise be required.
    5. Land dedicated for recreation purposes shall be of a character and location suitable for use as a playground, playing field, or for other recreation purposes and shall be relatively level and dry.

6. Developers of projects along navigable waterways will be required to provide easements for boat launching ramps and parking.
   Where appropriate, recreation sites should be established with multiple purposes to provide both recreation facilities and preservation of environmentally sensitive lands. Sidewalks, bicycle paths, or multipurpose trails shall be provided for pedestrian access to recreation sites.

4.05.00 LANDSCAPING, BUFFERS, AND TREE PROTECTION

4.05.01 GENERALLY

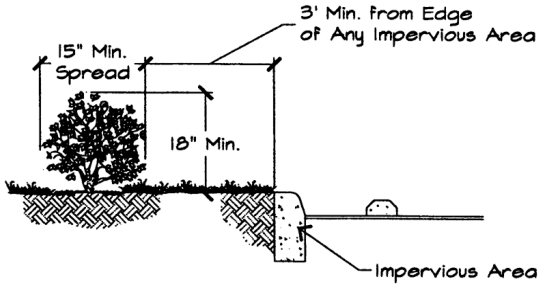
A. It is the intent of the City to provide standards and regulations which: protect and preserve native tree species and the natural landscape; foster and encourage maintenance of natural vegetation; minimize loss of trees to development; reduce disturbance of native soil, improve ground and surface water quality; and promote energy and water conservation through use of native and Florida-Friendly landscaping principles.

B. The intent of Section 4.05.00 is to provide minimum standards for landscaping, buffers, and tree protection within the City. These standards are provided to meet the following specific purposes:
   1. Improving the appearance of the City;
   2. Providing shade for the ground surfaces and reducing heat island effects;
   3. Buffering and protection from wind and storm damage;
   4. Buffering adjacent potentially incompatible land uses;
   5. Screening vehicular movement from pedestrian and public view;
   6. Providing for the protection and preservation of trees and native vegetation;
   7. Ensuring the local stock of native trees and vegetation is replenished;
   8. Improving ground and surface water quality through reduced run-off and decreased use of fertilizers and pesticides; and
   9. Encouraging Florida-Friendly landscaping principles into landscape design.

4.05.02 APPLICABILITY

A. The types of development listed below shall provide a landscaped buffer between uses, provide landscaping for parking lots, submit a tree survey prepared by a licensed Florida surveyor or a tree inventory prepared by a certified arborist with an application for site plan approval, obtain a tree permit prior to receipt of a building permit, and submit a landscape plan with any application for a development order for the situations listed below. The required landscape plan shall demonstrate compliance with the standards of Section 4.05.00.
   1. All new construction;
   2. All development of regional impact;
   3. Any change of use which results in any increase in the required off-street parking, as determined by the standards in Section 7.01.04;
   4. All commercial redevelopment which results in an increased building footprint, reconfiguration of existing parking, parking lot expansions, or development of outparcels within an existing shopping center.
      A. Clearing of any site, including root-rake clearing, shall be subject to the requirements for tree protection, submittal of a tree survey or a tree inventory prepared by a certified arborist, and obtaining a tree removal permit.
      B. An application for a building permit for a single-family or two-family dwelling proposed on an existing platted lot shall include a tree survey or a tree

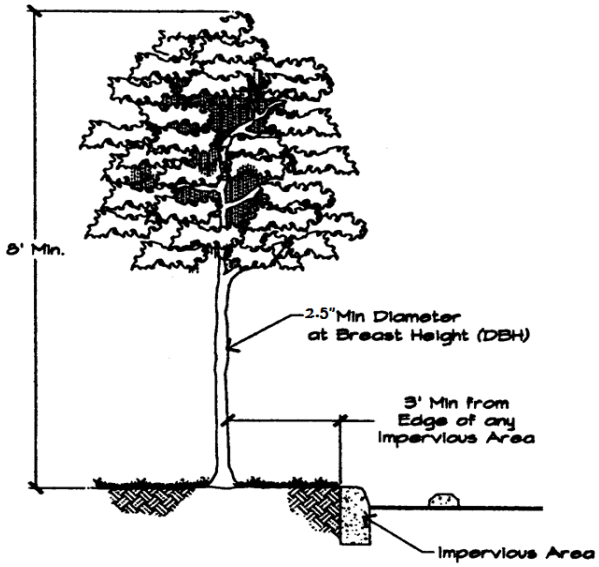
inventory prepared by a certified arborist. The tree survey or a tree inventory prepared by a certified arborist shall comply with the requirements of Section 4.05.04 regarding landscaping, but shall not be required to provide a buffer or landscaping for a parking area.



C. The following situations are exempt from the requirements of Section 4.05.00:
   1. Any interior construction, renovation, or remodeling which does not increase the footprint of the building.
   2. Licensed plant or tree nurseries or botanical gardens with respect to those plants and trees grown for sale to the general public in the ordinary course of the licensed business or for public purposes.
   3. The removal of underbrush and removal of trees which are less than four (4) inches Diameter at Breast Height (DBH).
   4. The removal of prohibited invasive trees identified on the most recent Florida Exotic Pest Plant Council Invasive Plant list.
   5. Heavy Industrial (I-2) zoning district is exempt from the requirements of Section 4.05.00, provided that the new construction, renovation, alteration or remodeling occurs more than 75 feet from an adjoining residentially zoned and/or used property. Within the exemption area, LDC Section 4.05.00 applies only within the project's extent occurring in the 75-foot area. The exemption exists with the intent that Heavy Industrial (I-2) zoned properties would seek to minimize an overall impact on the existing tree canopy.

4.05.03 LANDSCAPE MATERIALS STANDARDS

A. Plant materials
   1. Trees, Shrubs, and groundcovers shall be selected by using the Florida-friendly Plant Database.
   2. Plants identified as "prohibited" or "noxious weeds" species on the most recent Florida Exotic Pest Plant Council Invasive Plant list shall be removed as part of the site development process. Plants identified as "invasive" may be retained on a development site but shall not count toward meeting landscaping and buffering requirements.



B. Minimum specifications for plant materials
   1. All plants used as part of any landscape plan shall be healthy, well proportioned, disease-free, pest-free, and hardy for the North Florida Region. Plant materials shall meet the standards for Florida No. 1 or better, as set out in *Grades and Standards for Nursery Plants*, Department of Agriculture, State of Florida.
   2. Shrubs shall be at least eighteen (18) inches in height and have a minimum spread of at least fifteen (15) inches at the time of installation. Shrubs shall be installed at least thirty-six (36) inches apart, measured on center and may not be placed closer than three feet from the edge of any impervious area.

Example:

3. Hedges shall be planted to create a continuous, unbroken, solid visual screen within one (1) year of planting allowing for full mature height and spread.
4. All landscaped areas shall be sodded or covered with ground cover. Grassed areas shall be consolidated and limited to those areas on the site which receive pedestrian traffic, provide for recreational use, provide cover for required drain fields or retention areas, or provide soil erosion control such as on slopes or in swales; and where grass is used as a design unifier or other similar practical use. Grassed areas shall be planted with warm_season grass species normally grown on permanent lawns in Nassau County. Special care should be taken when selecting turf grasses for shaded sites. A soil sample should be tested specifically for pH to determine which grass species is most suitable for the site. Grassed areas may be sodded, plugged, sprigged, or seeded to provide full coverage shall be achieved within one (1) year after planting. Solid sod shall be used in swales or areas subject to erosion. Grass sod shall be clean and reasonably free of weeds and noxious pests or diseases. Grass seed shall be delivered to the job site in bags with Florida Department of Agriculture tags attached indicating the quality control program.
5. Ground cover used in lieu of grass shall be planted so as to present a finished appearance and reasonably complete coverage within three (3) months of installation.
6. Vines shall be a minimum of thirty (30) inches in height at planting and may be used in conjunction with fences, screens, or walls.
7. Natural mulch shall be designed and installed in all planting areas to a depth of three (3) inches. The type of mulch shall be specified on the landscape plan. Use of artificial mulch shall not be permissible within required planting areas. Cypress mulch is strongly discouraged. Mulches are typically wood bark chips, wood grindings, pine straw, nut shells, small gravel, and shredded landscape clippings. Mulch is not required in identified annual beds. Mulch rings should extend to at least three (3) feet around freestanding trees and shrubs. All mulch should be renewed periodically. Mulches should be kept six (6) inches away from any portion of a building or structure, or trunks of trees. Plastic sheeting and other impervious materials shall not be used under mulched areas.
8. Retention of native and drought tolerant species is preferred. At least fifty (50) percent of the required plants installed in landscaped buffers, landscaped parking areas, and for replacement shall be native species.
9. At least fifty (50) percent of the required trees installed in landscaped buffers, landscaped parking areas, and to meet tree planting requirements shall be shade trees. Existing trees, other than invasive or prohibited species, which are five (5) inches DBH or larger, and shrubs may be counted toward meeting the requirements for landscaped buffers, landscaped parking areas, and tree retention.
10. Trees shall be a minimum of two and a half (2.5) inches DBH and no less than eight (8) feet tall at the time of installation. Trees shall not be planted closer than three (3) feet from the edge of any impervious area. Planted trees must be a species with an average mature spread of at least twenty (20) feet, or they must be grouped so as to create a crown spread of at least twenty (20) feet.

Example:

11. When palm trees are used to satisfy minimum landscape requirements, three (3) palm trees shall count as one (1) shade tree. Palm trees must be a minimum of 8 feet tall at time of installation.
12. Shade trees shall not be installed under any overhead utility line, over any buried utilities, or within a utility easement.
13. Where utilities conflict with proposed plantings, trees shall be selected from a list provided by the City. Where underground utilities conflict with proposed plantings, tree placement shall be a minimum of ten feet from the underground utility and a root barrier of two (2) feet deep shall be installed.

C. Specific requirements for drought tolerant or xeriscape landscape materials
   1. All development for which landscaping is required by Section 4.05.00 shall comply with the xeriscape requirements set forth in Table 4.05.03(C). The selected design options listed below and the accompanying points necessary to meet the following xeriscape requirements shall be clearly tabulated on the landscape plan.
   2. A minimum of fifty (50) points shall be accumulated by choosing from the following table of design options. As used in Table 4.05.03(C), "list" means the list of drought tolerant species set forth in the SJRWMD edition of the *Xeriscape Plant Guide*.

Table 4.05.03(C). Design Options for Xeriscape Landscaping

Design Feature	Standard	Points
Irrigation	Moisture sensing controller other than rain switch	5
	Landscape plan depicts low, moderate, and high water usage zones and grouping of plants into hydrozones	5
Grass	25% to 50% of the grass areas use drought tolerant species	5
	51% or more of the grass areas use drought tolerant species	10
	Less than 75% of the landscaped area contains sod	10
	Compacted mulched planting beds at least 3" deep are used in all planting areas except ground cover	10
Shrubs	25% to 50% of the required shrubs are drought tolerant species	5
	51% or more of the required shrubs are drought tolerant species	10
Trees	25% to 50% of the required trees are drought tolerant species	5
	51% or more of the required trees are drought tolerant species	10
	25% increase over the required number of shade trees in vehicular use areas, provided the planting area is large enough to ensure that the additional trees will thrive	5
	50% increase over the required number of shade trees in vehicular use areas, provided the planting area is large enough to ensure that the additional trees will thrive	10

D. Installation

1. All required landscaping installed pursuant to this section shall be installed according to accepted horticultural practice.
2. Trees may not need to be staked if appropriate canopy to root ratio is achieved. However, trees shall be guyed, braced, and/or staked at the time of planting to ensure establishment of the tree and erect growth, as specified by the landscape designer or architect and compliant with the ISA staking and guying guidelines. Nail staking or other methods that cause cosmetic or biological damage to the tree are prohibited. Trees shall be re-staked within twenty-four (24) hours in the event of a failure in the staking or guying. Stakes shall be removed not later than twelve (12) months after installation. All areas where trees are to be planted shall be excavated to the width and depth of the root ball with the upper twelve (12) inches excavated to at least three (3) times the width of the root ball prior to being backfilled with the required topsoil mix.
3. Shade trees shall be provided with at least 250 square feet of planting area per tree.
4. Understory trees shall be provided with at least 100 square feet of planting area.
5. Landscaped areas shall be protected from vehicular encroachment by car stops, curbs, or other appropriate means.
6. Trees shall be installed a minimum of three (3) feet from a paved area. A root barrier shall be required prior to installation of replacement trees.
7. Landscaped areas shall be provided with an irrigation system of sufficient capacity to maintain the landscaping in a healthy growing condition. All irrigation systems shall be designed, installed, and maintained in such a manner as not to be a nuisance to adjacent properties and uses and to the general public. Irrigation systems shall include moisture sensors.

8. Irrigation systems shall be designed to "*Standards and Specifications for Turf and Landscape Irrigation Systems*", *Fifth Edition, 2005, Florida Irrigation Society, Inc* and as subsequently amended.
9. Xeriscape areas must have a readily available water supply to provide temporary irrigation until plantings are established.
10. Natural areas and native vegetation left undisturbed by development may be excluded from the irrigation system.

E. Maintenance requirements
1. All plantings must be continually maintained in an attractive and healthy condition. Maintenance must include, but not be limited to, watering, tilling, fertilizing and spraying, mowing, weeding, removal of litter and dead plant material, and necessary pruning and trimming.
2. Required plants that become diseased or die must be replaced not later than three (3) months following the loss of the plant.
3. Replacement trees shall be maintained and warranted to survive for a period of three (3) years from installation. Trees which do not survive three (3) year must be replaced with new trees of the same size. Replacement trees must comply with the same maintenance and replacement warranty as the original replacement tree(s) and the warranty period will restart at the date of planting.
4. All trees may be pruned to maintain shape and promote their shade-giving qualities and to remove diseased or dying portions in areas where falling limbs could be a hazard. The property owner is responsible for the maintenance of all required landscaping in a healthy, thriving condition. Trees shall be pruned only as necessary to promote healthy growth or to avoid power lines. Trees shall not be severely pruned or "hatracked," "lionstailed," "topped" in order to permanently maintain growth at a reduced height. Pruning shall comply with current International Society of Arboriculture (ISA) standards. No more than 20% of the crown shall be removed within a one (1)-year period.
5. Fertilizers: It shall be the goal of each landscape plan to select plant materials capable of thriving without regular fertilizer application, with exception of palms which need quarterly fertilizer to avoid nutrient deficiencies.
6. Pesticides: It shall be the goal of each landscape plan to establish an Integrated Pest Management approach and reduce or eliminate the need for pesticide application.

4.05.04 REQUIREMENTS FOR LANDSCAPE PLANS

A. A landscaping plan shall be provided to demonstrate compliance with the standards of this section and prepared in accordance with all applicable Florida Statutes. Landscaping plans shall utilize the principles for creating a Florida Friendly landscape, utilize native drought tolerant plant materials to conserve water, avoid invasive exotic species, reduce need for fertilizers, and establish integrated pest management to reduce or eliminate pesticide use. The use of plant material, site design techniques, and planting design techniques which enhance wildlife habitat benefits is strongly encouraged. The publication "Planting a Refuge for Wildlife," available from the Florida Fish and Wildlife Conservation Commission, may be used as a guide.

B. The landscape plan shall include the following elements:
1. The name, address, and telephone number of the applicant, as well as the registered landscape architect or landscape designer.
2. A plan showing the location, size, description, and specifications of landscaping, grade of plantings, mulch specifications, landscape area protection structures (e.g.,

curbs and planters), number of interior parking spaces, perimeter and interior landscape area plantings, existing trees and planting areas. The plan shall illustrate the proposed irrigation hydrozones. The plan shall also include property boundaries and dimensions, existing and proposed structures, pools, walks, patios, vehicular use areas, lot orientation, utility services, light poles, pad-mounted transformers, fire hydrants, existing and proposed elevations, and any other factors affecting the proposed use of the property (including the land use and zoning of adjacent properties).

3. New landscape plans shall account for plant watering needs and group plants into "hydrozones." Hydrozones and their corresponding irrigation category shall be identified on the landscape plan.

4.05.05 MINIMUM REQUIREMENTS FOR RESIDENTIAL DEVELOPMENT

It is the intent of this section to provide minimum landscaping requirements for residential development. Existing plant materials, other than invasive species, may be counted toward meeting the landscaping requirements set forth in this section.

A. **Single-family Detached and Two-family Duplex Residential Development**

Single-family and two-family development must include, at a minimum, two (2) native, shade trees for every 2,500 square feet of lot area or fraction thereof. At least four (4) native trees may be located in the front, side, or rear yard. Relocation of existing healthy trees on the project site measuring at least 2.5" DBH and at least 8 feet tall may be relocated on the site and utilized as a credit to satisfy minimum landscape requirements. Tree identification and placement must be shown on a site plan but may not be required to meet the requirements of 4.05.04(A) above.

B. **Tri-plex and Multi-family Residential Development**

Multi-family residential development sites must meet the following standards, in addition to the requirements set forth in Section 4.05.04(A) above:

1. There must be at least two (2) native, shade trees for each 1,500 square feet, or fraction thereof, of development site. Relocation of existing healthy trees on the project site measuring at least 2.5" DBH and at least 8 feet tall may be relocated on the site and utilized as a credit to satisfy minimum landscape requirements. There must be a planting area not less than ten (10) feet in width between the building walls and parking areas. Landscape materials must be provided as follows:
   a. One (1) tree for every 200 square feet of planting area or fraction thereof;
   b. At least fifty (50) percent of the trees must be shade trees; and
   c. A continuous hedge must be placed along the building walls.
2. There must be a planting area not less than ten (10) feet in width between an abutting right-of-way and parking areas. Landscape materials must meet the following standards:
   a. One (1) tree must be provided for every 250 square feet of planting area or fraction thereof;
   b. At least seventy-five (75) percent of the trees must be shade trees;
   c. A continuous hedge or a berm with native plantings, at least three (3) feet in height, must be provided; and
   d. The entire site, outside of the planting areas immediately surrounding the trees and shrubs, must contain grass or ground cover.

4.05.06 MINIMUM REQUIREMENTS FOR NON-RESIDENTIAL AND MIXED USE DEVELOPMENT

A. Minimum Landscaped Area

At least twenty (20) percent of the total gross land area of a development site shall be landscaped except within the Central Business District/ C-3 zoned and the 8th street Mixed Use (MU8)/MU-8 zoning properties where a minimum of 10% of the total gross land area shall be landscaped. New construction and landscaped areas shall be located on the site in such manner as to maximize preservation of existing trees with priority given to specimen trees. Minimum landscaped area requirements may be achieved through use planters and rooftop gardens. Planting areas which fulfill landscape design strategies located within public rights-of-way shall count towards the minimum planting area, if installed and paid for by the developer or property owner.

B. Minimum Tree Planting

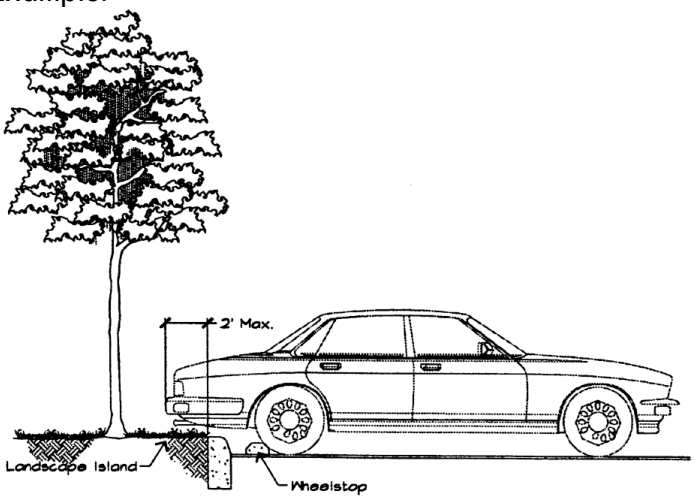
Nonresidential development shall provide one (1) shade tree for each 1,500 square feet of gross site area, or fraction thereof.

4.05.07 PARKING LOT LANDSCAPING

A. Intent: It is the intent of this section to promote vehicular and pedestrian safety; limit physical site access to established points of ingress and egress; delineate and buffer the bounds of abutting vehicular use areas so that distractions of movement, noise and glare from one area do not adversely affect the activity in another area; break up large expanses of pavement; and to reduce heat island effect within the vehicular use areas of a site.

B. Off-Street Parking: All off-street parking lots with six (6) or more required parking spaces and vehicular use areas (access driveways, service drives, and loading areas) are required to include landscaping. Required parking lot landscaping shall be in addition to requirements for protection of existing trees.

C. Perimeter Landscaping:



1. A landscaped area not less than ten (10) feet in width, exclusive of impervious area, using vertical layering of landscape materials shall be located around the perimeter of the parking lot in order to provide visual screening from the right-of-way. Perimeter landscape area requirements shall not apply to shared vehicular access areas or to the portion of the perimeter areas where physical interconnections exist.
2. When perimeter landscape areas are required on adjacent properties, the owners of such adjacent properties may agree to the installation of only one such landscape area on the adjacent boundary, as long as such agreement is binding on both property owners and their successors in the interest and is approved as part of the site plan review process.
3. Where the parking lot is in a side or rear yard and a buffer "C" or "D" is provided pursuant to Section 4.05.05, the buffer shall satisfy the requirement for providing landscaping between the parking lot and the abutting street.
4. Where a buffer "A" or "B" is required pursuant to Section 4.05.05, the landscaped area shall also include a continuous unbroken hedge, planted in a double-staggered row to form a solid visual screen within one (1) year of planting.
5. An access, not exceeding four (4) feet in width, may be provided through the buffer to an adjacent sidewalk public street or sidewalk.
6. Trees within the perimeter landscaped area shall be determined using a ratio of one (1) tree for each 20 linear feet of required landscape perimeter area, or

major portion thereof, with no less than 75% of said trees being shade trees. Creative design and spacing is encouraged

7. A visual screen is required within perimeter landscape areas, running the entire length of such areas excluding areas of ingress and egress. The visual screen may be provided using:
   a. Shrubs or Ornamental Grasses. Shrubs or Ornamental Grasses shall be spaced a minimum of three feet to a maximum of six feet on center dependent on the inherent growth of the species. Creative design and spacing is encouraged.
   b. Contoured berms or embankments. Contoured berms or embankments shall be a minimum of twenty-four (24) inches in height, measured from the adjacent parking surface level, at the time of planting and landscaped appropriately.
   c. Plant material must be non-deciduous for full year-round screening.

D. Interior Parking Lot Landscaping:
   1. Planting areas within parking lots and vehicular use areas shall equal not less than ten (10) percent of the gross area devoted to vehicular use. The perimeter landscaping shall not count toward meeting the required interior landscaping.
   2. Interior planting areas shall be located in tree islands, at the end of parking bays, and between rows of parking spaces. There shall be not more than ten (10) contiguous parking spaces (or twenty (20) parking spaces in a double row) between planting areas.
      a. Planting areas may also be located within driveway medians, provided the median is a minimum of twelve (12) feet wide.
      b. One (1) shade tree shall be installed for each 400 square feet of required planting area. Alternatively, a minimum of two, three-inch or three, two-inch, caliper shade trees together with other landscape material shall be planted within each required planting area. Spacing shall be no closer than fifteen (15) feet on center and no greater than eighteen (18) feet on center.
   3. Interior planting areas shall be located to effectively accommodate stormwater runoff, as well as to provide shade in large expanses of paved areas. Use of swales, vegetated filter strips, and bioretention areas (rain gardens) shall be incorporated into the overall stormwater plan, grading plan, and landscape strategy for the entire parking area. Plant species should be selected based on their ability to tolerate urban stresses such as expected pollutant loadings, highly variable soil moisture conditions, ponding water fluctuations, and Soil pH and texture.
   4. If stabilized grass parking is utilized, the parking spaces shall be delineated with parking stops and the required landscape islands with trees and stubs installed to break up rows of ten (10) consecutive parking spaces.
   5. The design of interior landscaped areas shall comply with the specifications set forth in Section 4.05.03 and 7.01.04(C).
   6. A continuous curb or other means of protection shall be provided to prevent injury to vegetation within the planting areas.
      a. Curbs shall be designed to allow percolation of water to the root systems of the plants. Where existing trees are preserved, tree wells, tree islands, or a continuous curb shall be installed to protect the trunk and root system from damage. A drainage system shall be provided within the area defined by the drip line of the tree(s).
      b. Vehicle stops or other design features shall be used to prevent parked vehicles from overhanging more than two (2) feet into any landscape area.

Example:

E. In order to allow for flexibility and creativity in design standards, hedges may be replaced or interrupted in areas which provide for a decorative wall and berms and other creative landscape features, and landscape materials may be clustered so long as the parking area remains screened from the public right-of-way and adjacent private property, as set forth in Section 4.05.12.

4.05.08 FREESTANDING SIGN LANDSCAPING

A. All monument signs shall have shrubbery or flowers planted around the perimeter of the sign. Signs shall be located so as to provide both adequate visibility from the public rights-of-way and to preserve protected trees.

B. If a freestanding sign cannot be shifted to allow the required room for perimeter plantings between the sign and the parking area without obscuring visibility to the sign, then the City shall allow a five (5) foot radius from the base of the freestanding sign in which lower accent plantings are allowed in lieu of perimeter plantings.

4.05.09 MECHANICAL EQUIPMENT SCREENING PLANTINGS

Structures such as dumpster enclosures, mechanical equipment, backflow preventers, wells, pumps, tanks, buffer walls, HVAC units, transformers, lift stations, utility cabinets, electrical panels, or cable television equipment shall be fully screened with planting beds in areas visible from the public rights-of-way.

A. The height of such screening shall be a minimum of 30 inches at the time of installation.

B. Required access ways to these utilities are exempt from the screening provisions. Other uses which require high visibility and easy access, such as fire hydrants, public and emergency telephones, mailboxes, and school bus shelters/benches, are exempt from these provisions.

4.05.10. RETENTION AND DETENTION PONDS

Stormwater retention/detention ponds are required be naturally shaped (without geometric straight sides) and must meet the following minimum requirements:

A. All wet detention ponds must incorporate a combination of aquatic and non-aquatic native plants to completely surround the perimeter to filter runoff of fertilizers, herbicides, and pesticides.

B. Wet detention ponds must incorporate, at a minimum, a littoral zone or a littoral zone alternative Per Chapter 40C-42, Florida Administrative Code.

C. At a minimum, one water-tolerant native tree per 50 linear feet of pond frontage is required. Trees may be grouped to create clusters to meet minimum requirements. A five (5) foot natural barrier is required around each tree or cluster of trees.

4.05.11. REQUIREMENTS FOR STREET TREES

A. Trees planted near the street curb line or within swales near the curb line of streets are called street trees. Trees planted in a median between traffic lanes are also called street trees. Street trees are intended to provide:
   1. Security to pedestrians crossing wide streets;
   2. A screen for drivers from headlight glare of oncoming traffic;
   3. Blockage of direct sun into the eyes of drivers, especially commuters traveling east and west;
   4. An indication of the course of the roadway in the distance; and
   5. A protective barricade to head-on collisions with out-of-control vehicles which cross into the median.

B. In all subdivisions and any other developments involving the creation of new streets, street trees shall be planted in the rights-of-way or a median, unless it is determined that a conflict exists between trees and utilities located in the rights-of-way or site distances are not incompliance with sound and generally accepted engineering practices and principles. In such cases, the street trees shall be planted outside of the rights-of-way.

C. If street trees are located to be outside of the rights-of-way, trees shall be planted no farther than five feet outside the right-of-way line, and shall be perpetually maintained. Street plantings shall be in accordance with minimum planting standards.

D. Buffer plantings consistent with LDC Section 4.05.12 (E) – (G) shall be established to surround new residential subdivisions.

E. Street trees planted to meet requirements of this section must be shade trees, and shall be planted at a rate of one (1) tree for every 50 feet of site/lot frontage along the right-of-way or every 30 feet on center in medians. If planted medians and/or cul-de-sac islands are provided with trees, street trees along the outside of the roadway are not required. Use of understory trees are permitted in lieu of shade trees as determined to be practical because of overhead utility lines or other infrastructure conflicts, may be permitted at a rate of one (1) tree for every 25 feet of site/lot frontage along the right-of-way. Preserved or retained trees on-site shall count towards satisfying this requirement in newly established residential subdivisions.

F. A root barrier shall be installed for all street trees to avoid future root conflicts.

G. A majority of the property owners abutting any street may request the establishment of an arbor street. An arbor street is one determined by the City to be suitable for extensive planting of street trees. Requests shall be writing and submitted to the City. Required information includes:
   1. Designation of the areas proposed for street trees on a planting plan;
   2. Agreement from property owners for trees to be planted adjacent to or on their properties; and
   3. Commitment from property owners to provide care and maintenance of the street trees.

H. Trimming of street trees by adjacent property owners is permitted, provided that all work adheres to International Society of Arboriculture (ISA) standards and no more than 20% of the tree canopy is removed within a one (1) - year period. No trees authorized pursuant to the arbor street agreement shall be removed without obtaining a tree removal permit, according to the requirements of Chapter 11.

4.05.12. BUFFER REQUIREMENTS

A. The use of properly landscaped and maintained buffer areas can reduce the potential incompatibility of adjacent land uses, maintain open space, protect established residential neighborhoods, and enhance community identity. In order to minimize negative effects between adjacent zoning districts, this section requires a landscaped buffer area to be provided. The separation of land uses and the provision of landscaping along public rights-of-way through a buffer are designed to minimize potential nuisances, and to enhance community beautification.

B. Four (4) types of buffers are provided, as set forth in Table 4.05.12(B).

Table 4.05.12 (B). Types and Plant Requirements for Buffers

Buffer Type	Minimum Width (ft.)	Required Plants per 100 Linear Feet of Property Line
A	10	Two (2) understory trees
B	15	Four (4) understory trees
C	15	Two (2) shade trees Four (4) understory trees Continuous unbroken hedge, planted in a double-staggered row to form a solid visual screen within one (1) year of planting
D	20	Four (4) shade trees Four (4) understory trees A continuous unbroken hedge, planted in a double-staggered row to form a solid visual screen within one (1) year of planting. Retention of native trees and vegetation which meet this requirement shall be considered as part of the buffer.

C. A buffer shall be required between zoning districts according to the standards set forth in Table 4.05.12 (C). The existence of a road along a property boundary shall not be construed as meeting any part of the buffer requirement, nor as relieving the applicant from providing the required buffer.

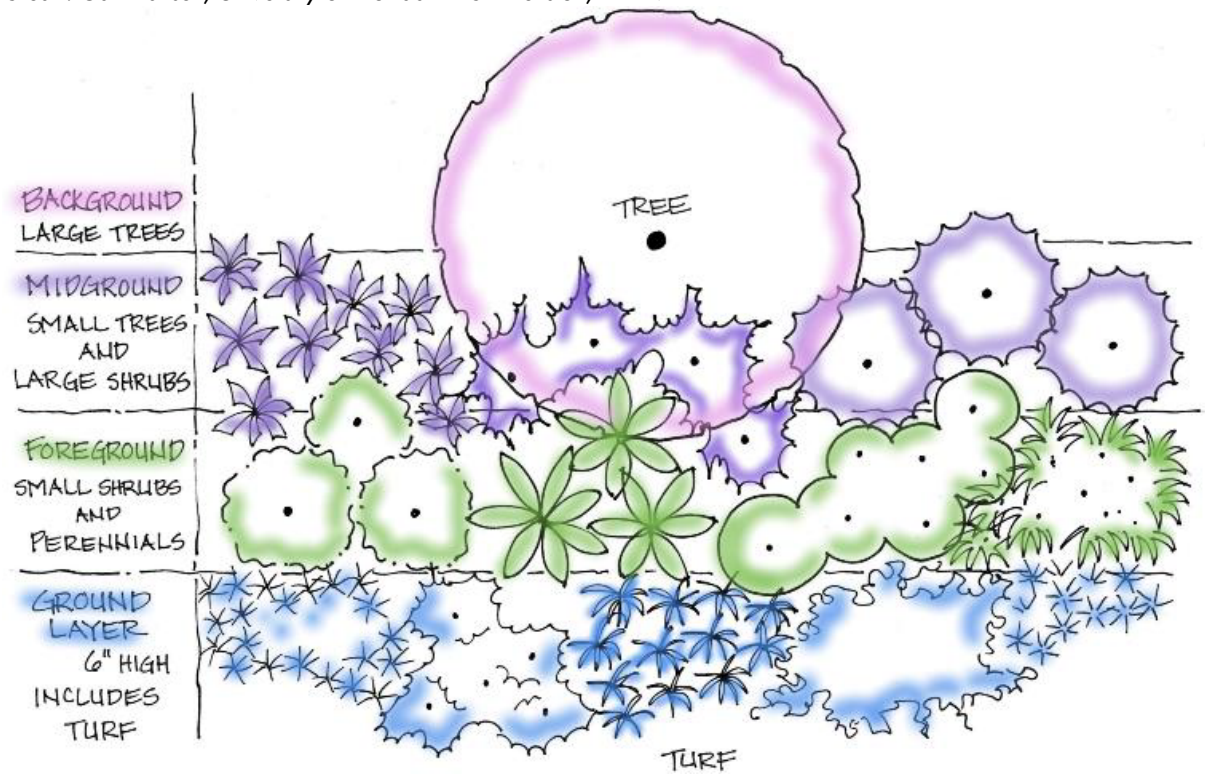
N = No buffer required

D. Properties abutting the Amelia Island Parkway are required to maintain a 15-foot landscaped buffer. The area between preserved and planted trees can be supplemented with native or naturalized shrubs to provide screening adjacent to any parking areas.



E. As subject to Comprehensive plan policy 5P.03.02, the Ocean Highway and Port Authority is required to maintain a 30-foot landscaped buffer between port property lines and the adjoining Downtown Historic District properties.

F. Buffer plantings are required to create vertical layers of plant material in repeating patterns. The examples provided describe vertical layering of plants in the landscape through staggered heights, with low plants in the front interconnecting plant massing layers with taller plants in the back.

Examples:

Credit: Gail Hansen, University of Florida IFAS Extension, EP449

Credit: Gail Hansen, University of Florida IFAS Extension, EP449

G. A fence or wall included in a buffer screen shall be constructed with the side of the fence or wall with the finished appearance facing the use of lesser intensity or rights-of-way.

H. An opening through a buffer area may be provided to facilitate pedestrian or vehicular traffic between developments.

I. Permitted use of buffer area

1. A buffer may be used for passive recreation and picnic facilities. It may contain pedestrian paths or bike trails, provided that the path or trail is not paved. These paths may cross a required continuous hedge provided that openings to allow such crossing points shall be a maximum of six (6) feet in width and shall be spaced not less than 100 feet apart.
2. Except along the Amelia Island Parkway, a buffer may incorporate water resources including stormwater detention/retention facilities. However, a minimum of ten (10) feet width of the buffer shall be preserved as a planting area without stormwater facilities.
3. Ingress and egress to the proposed development and utilities may cross the buffer provided they minimize the amount of buffer devoted to this use. Ingress and egress shall not be subtracted from the linear dimensions used to determine the minimum amount of landscaping required.
4. The buffer area may be included as part of the calculation of any required open space or as part of the required front, side, or rear yard.
5. Identification signs as specifically allowable pursuant to Section 5.03.00.
6. Except along the Amelia Island Parkway, street lighting may be incorporated in to the buffer area.

J. Prohibited use of buffer area.

A buffer area shall not be used for any building, parking, storage, or loading area.

4.05.13 HARDSHIP RELIEF

A. Where a landowner is unduly burdened by the strict application of this chapter, said landowner may apply in writing to the community development department director for hardship relief.

4.05.14 TREE PROTECTION REQUIREMENTS

A. Intent:

The intent of this section is to provide standards and regulations to ensure a minimum number of trees on any lot or parcel, protect and preserve native tree species, protect and preserve the natural landscape, foster and encourage maintenance of natural vegetation, and minimize loss of trees to development. It is the intent of the City that:

1. There shall be no net loss of canopy within the City;
2. Preservation of the City's existing canopy is achieved by managing the impact of development and preventing unreasonable or unnecessary damage to the community's existing native tree canopy and vegetative understory;
3. The diversity of tree species indigenous to Amelia Island shall be maintained;
4. Existing mature growth native trees important to the City's tree canopy are protected and maintained to the fullest extent possible;
5. Structures and all impervious surfaces will be placed in such a way as to protect the survivability and substantial growth of the healthiest shade trees on the property;
6. The natural environment is preserved, enhanced, and restored through the protection and establishment of native trees and existing natural systems for the enjoyment of present and future populations;
7. Achieving greater energy conservation by maximizing the shading and cooling effects of existing native, healthy trees and native replacement trees;

8. The health and well-being of Fernandina Beach residents and visitors is protected by providing shade and otherwise moderating potential dangerous summer temperatures; and
9. The unique aesthetic character of the City is preserved, enhanced, or restored.

B. Permitting Requirements:

Protected Trees are any existing, healthy tree having a five (5) inch DBH, or greater and not identified on the most recent Florida Exotic Pest Plant Council Invasive Plant list (Category I or II). Tree removal permits are required for the removal of any protected tree, except as set forth below. There shall be three categories of exemptions or partial exemptions, as follows:

1. *Exemption from permit, permit fee and replacement requirements*:
   a. Trees and landscaping specifically grown as landscape material for resale by duly approved and licensed plant nurseries and botanical gardens.
   b. Damaged or hazardous trees during and for a one (1) month period following a declared disaster.
   c. Minor maintenance activities such as removal of sucker growth, water sprouts, and overhanging branches on mature trees. All work shall be performed in compliance with the current ISA Arborist standards and best practices.
2. *Exemption from fee and replacement requirements.*

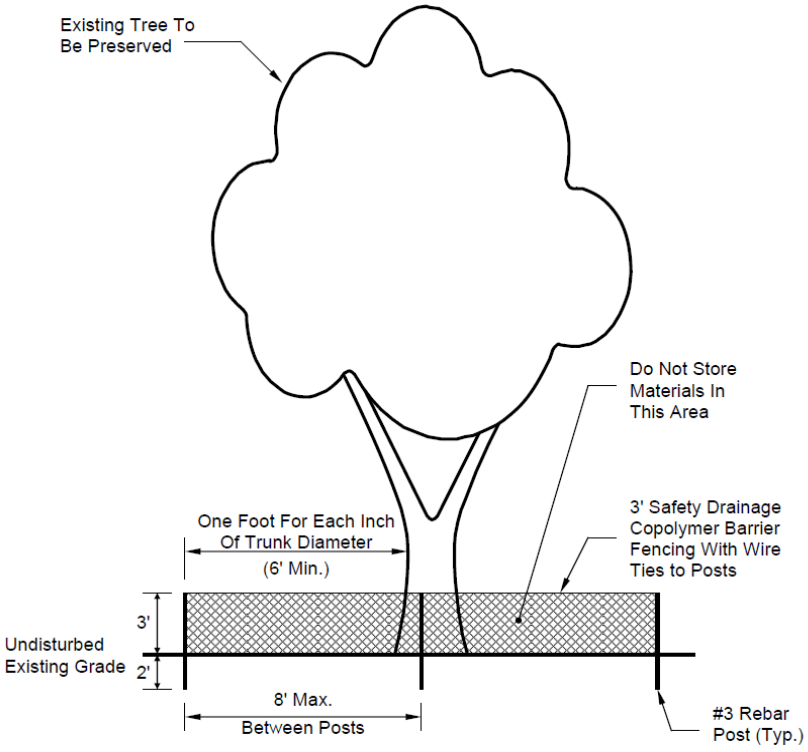
   A permit shall be required for removal of the following trees, however, removal of these shall be exempt from the permit fee and replacement and replacement plan requirements of this article as follows unless the removal of such tree results in the property not achieving the City's minimum landscape standards as specified in LDC Sections 4.05.05:
   a. Any tree other than a protected or heritage tree;
   b. Trees damaged by disease, fire, windstorm, lightning, insect infestation or other acts of nature, which pose an imminent danger to life, property or other protected trees; The administrative official may require a written certification of the need to remove such a tree or trees, at the property owner's expense, from an ISA certified Arborist prior to authorizing such a removal.
   c. Removal of trees (thinning) within a forested area in order to reduce overcrowding and competition and to promote the health, growth, and resistance to stress may be permitted only when accompanied by written certification of the need to remove such tree(s) at the property owner's expense, from an ISA certified Arborist prior to authorizing such removal.
   d. Major and minor maintenance of trees located adjacent to utility lines; and
   e. Removal of trees by the City on City rights of way.
   f. The tree prevents access to a lot and no feasible alternative access points exist.
3. *Partial Exemptions from replacement requirements for site development.*

   A permit and permit fee shall be required for removal of protected trees for purposes of site development provided that mitigation requirements have been met through either on-site retention of existing healthy native trees or through the planting of replacement trees required as follows:
   a. For one- and two-family residential properties:

      Fifty percent (50%) of the total DBH of the protected trees shall be exempt from replacement. Replacement of fifty percent (50%) of the total DBH of the protected trees located within the area of the building footprint, or within five (5) feet thereof, to be constructed on the property, when such improvements have been authorized by a duly approved and issued building permit shall be required.

b. For affordable housing units, the City Manager or designee is authorized to issue an administrative waiver pursuant to the procedures set forth in Chapter 10.
c. For non-residential and mixed use or multi-family residential properties:
Fifty percent (50%) of the total DBH of the protected trees shall be exempt from replacement. Replacement of fifty percent (50%) of the total DBH of protected trees located within the area of the impervious improvements, or within five (5) feet thereof, to be constructed on the property, when such improvements have been authorized by a duly approved and issued building permit shall be required.

C. Tree Survey or Inventory:
All protected trees shall be shown on a tree survey or a tree inventory prepared by a certified arborist, submitted with an application for a tree removal permit or with an application for development approval as set forth in Chapter 11.



D. Replacement trees Requirements:
1. When authorization has been granted to remove protected trees, replacement trees shall be planted. The combined DBH of replacement trees shall equal or exceed the combined DBH of trees authorized for removal subject to any preservation credits available from the retention of protected trees on the site. Preservation credits are set forth in Section 4.05.14 (E)(5).
2. Replacement trees shall meet the standards set forth in Section 4.05.03, and shall be balled and burlapped or container-grown.
3. Protected trees authorized for removal may be relocated to locations compliant with the specifications set forth in Section 4.05.03 and approved by the City Manager or designee.
4. An applicant shall be permitted to pay a fee to the City Tree Replacement Fund for up to fifty (50) percent of the cumulative DBH of protected trees removed, less the credits accumulated from preservation of trees on the site. The fee will be set by resolution of the City Commission and will be based on the average cost for the City to replace the tree with the same species, excluding invasive species, the fiscal year in which the permit is issued.

E. Protection of Trees During Development Activities:
1. Protective measures are required during site development in order to assure the health and survival of protected trees. Storage of construction materials or fill dirt is expressly prohibited within the tree protection area.
Protective measures are required to avoid:
a. Mechanical injuries to roots, trunk, and branches;
b. Injuries by chemical poisoning;
c. Injuries by grade changes;
d. Injuries by excavations; and
e. Injuries by paving.
2. A tree protection zone shall be established around each protected tree(s) as follows:
a. If the drip line is less than six (6) feet from the trunk of the tree, the zone shall be that area within a radius of six (6) feet around the tree.
b. If the drip line is more than six (6) feet from the trunk of the tree, but less than twenty (20) feet, the zone shall be that area within a radius of the full drip line around the tree.
c. If the drip line is twenty (20) feet or more from the trunk of the tree, the zone shall be that area within a radius of twenty (20) feet around the tree.

d. Prior to commencement of construction, the tree protection area shall be enclosed and installed as required in the detail provided and described herein. An approved inspection of the tree protection area by a Certified Arborist, contracted to and selected and managed by the City, must be completed prior to all site clearing activity. For all subdivision projects and non-residential projects, a Certified Arborist is required to be present for clearing activities and must provide an affidavit attesting to compliance of tree removal permits and installation of protective fencing once clearing activities are complete. The tree protection barricade shall be at least three (3) feet tall. The barrier shall consist of either a wood fence with 2x4 posts placed at a maximum of eight (8) feet apart, with a 2x4 minimum top rail, or a temporary wire mesh fence, chain link or other similar barrier which limits access to the protected area. The fence must remain in place through the duration of construction activities. Beyond the dripline of the canopy, a 3" mulch bed shall be established to avoid compaction from heavy machinery. Trenching close to a preserved tree on-site must be done by hand or air spading only. Preserved trees that may have root impacts resulting from the surrounding development shall be handled through hand cut root pruning practices only. Root ripping equipment is not permitted.

e. An exception shall be granted if the required protection zone prohibits access to the site. Consultation with a certified arborist is required to determine a proper access plan and provide measures to ensure protection of the tree during construction activities.

Example:

3. All development activities, except those specifically permitted by Section 4.05.14(E)(4), shall be prohibited within the tree protection zone, including any construction of buildings, structures, paving surfaces, stormwater retention or

detention ponds, and temporary construction activities, including all digging, storage of construction material, and parking of construction vehicles.

4. Permitted activities within the tree protection zone:
   a. Excavating or trenching by utilities service providers for installation of underground utilities. Underground utilities shall be no closer to the tree than ten (10) feet.
   b. Placement of sod or other ground covers, and the preparation of the ground surface for such covers.
5. The root systems of protected trees shall be preserved when installing fences and walls. Postholes and trenches located close to trees shall be dug and adjusted as necessary to avoid damage to major roots. Continuous footers for masonry walls shall be ended at the point larger roots are encountered and the roots bridged.
6. In order to control air and water pollution from dust from traveling across the landscape, a detailed and site specific plan for dust control measures is required. Control measures may include, but are not limited to: sprinkling or irrigation, vegetative cover, mulch, wind breaks, or soil treatments.

F. Abused Trees:

Abused trees shall not be counted toward fulfilling tree replacement or preservation requirements. The City may require the abused trees to be replaced and are subject to penalties provided for in LDC section 11.08.04. A tree shall be considered abused if one (1) or more the following actions have taken place:

1. Significant damage has been inflicted upon any part of a tree, including the root system by machinery, storage of materials, soil compaction, excavation, vehicle accidents, chemical application, or change to the natural grade;
2. Damage inflicted to or cutting upon a tree which causes infection or pest infestation;
3. Pruning any tree to permanently reduce the function of the tree or cause it to go into shock;
4. Pruning a tree to destroy its natural shape;
5. Hatracking;
6. Removal of bark which is detrimental to the tree;
7. Tears and splitting of limb ends or peeling and stripping of bark;
8. Use of climbing spikes, or cutting into the tree for the purposes of climbing on any species of tree for any purpose other than total removal, except as the same may be required to comply with federal, state or local laws and regulations, including, but not limited to, the Occupational Safety and Health Act; and
9. Girdling a tree with the use of wires (e.g., use of weed eater, mower damage, or improper cabling around branches).

4.05.15 HERITAGE TREES

A heritage tree is a tree designated by the City as irreplaceable due to its size, age, and its historic, aesthetic, or cultural significance.

1. Designation Criteria

To be designated a heritage tree; the following criteria must be met:

A. The tree must be indigenous to the region.
B. The tree must be in apparently healthy growing condition
C. The tree must have a DBH of at least 36" and;
D. The tree must possess significance by meeting one or more of the following criteria:
   1. The tree has a documented association with a historical figure, property, or significant historical event.
   2. The tree is associated with a historic landmark or site as defined in this LDC.
   3. The tree was planted as a commemorative, memorial or tribute;
   4. The tree was planted during a particularly significant historical era.
   5. The tree is distinctive due to a functional or aesthetic relationship to a natural resource, such as trees located along stream banks or trees located along dune or ridge lines
   6. The tree is of exceptional or unique architecture.
   7. The tree is identified by the city as having significant arboricultural or horticultural value to the citizens of the city.
   8. The tree is identified as playing a significant role in the landscape or architecture of a specific location.

2. Categories

There shall be 2 categories of heritage trees: Designated Heritage Tree and Protected Heritage Tree

A. *Designated Heritage Tree (Private Property):* The City shall provide the following incentives to encourage private property owners (Owner) to preserve and protect Designated Heritage Trees.
   1. The City may provide to the Owner recommendations regarding the proper care and maintenance of a Designated Heritage Tree.
   2. The City shall provide aid in the evaluation of a Designated Heritage Tree every four years. The evaluation shall be conducted by City staff and an International Society of Arboriculture (ISA) Standards certified arborist for the purposes of determining health and wellness of the tree, evaluating and diagnosing potential biotic or abiotic disorders and recommending appropriate treatments. The City shall pay 25% of the reasonable costs of this evaluation and findings shall be provided to both parties.
   3. A Designated Heritage Tree may be pruned by the Owner. The Owner is encouraged to trim a Designated Heritage Tree in accordance with ISA standards so the pruning does not reduce the tree's height or crown diameter, such that it alters the tree's general appearance, increase the tree's susceptibility to insects or disease, or otherwise increase its risk of mortality. Upon request, the City or a qualified designee will consult with the Owner regarding acceptable pruning methods and techniques.
   4. If considering removal or actions which result in damage of a Designated Heritage Tree, the City will, upon request, consult with the Owner regarding possible alternatives to address the condition(s) necessitating remove or potential damage to the tree.
B. *Protected Heritage Tree:* A Protected Heritage Tree is any Designated Heritage Tree located on public property or one located on private property where the

property owner (Owner) has encumbered his/her property with an instrument provided by the City and recorded by the Owner with the County of Nassau. The purpose of the instrument is to inform future Owners that the property contains a Designated Heritage Tree. The recorded instrument shall reference the City of Fernandina Beach Heritage Tree Program and include a statement that prior approval is required by the Owner from the City of Fernandina Beach for any act that may result in potential damage or removal of the Protected Heritage Tree. Such tree shall be classified as a Protected Heritage Tree. Said instrument cannot be revoked without consent of the Fernandina Beach City Commission. In cases where the proposed Protected Heritage Tree is located on or near the property line, the Owners of both properties must be in agreement as to the designation of the tree as a Protected Heritage Tree.

3. **Incentives or Benefits**

The following are incentives or benefits, in addition to those listed under Designated Heritage Tree (Private Property), above, bestowed upon the Owners of those trees designated as Protected Heritage Trees. The owner of a Protected Heritage Tree is eligible for percent matching funds from the City of Fernandina Beach Tree Trust Fund relating to proper care and maintenance of a Protected Heritage Tree. Matching funds may be applied for the following:

A. Removing diseased or insect-infested wood, removing broken or damaged limbs and by engaging in regular maintenance pruning to promote continued vigor of the tree under advisement by an ISA certified Arborist. Pruning of a Protected Heritage Tree every five years to ISA standards. The City shall pay 25% of the reasonable costs for pruning of a Protected Heritage Tree, as determined by the City Manager or designee.

B. Evaluation of a Protected Heritage Tree every 3-4 years or in emergency situations as deemed by the City Manager. The City shall pay 100% of the reasonable costs for an evaluation by an ISA certified Arborist for the purposes of determining health and wellness of the tree, evaluating and diagnosing potential biotic or abiotic disorders and recommending appropriate treatments.

1. Treatment of a Protected Heritage Tree as necessary. The City shall pay 25% of the reasonable costs of applying treatments or other remedial actions necessary to maintain the health of a Protected Heritage tree, manage pests or complete other Plant Health Care (PHC) relating to the Protected Heritage Tree.
2. A heritage tree shall not be removed except by specific authorization from the City Commission.
3. Any person, who owns, controls, has custody or possession of any real property within the city shall maintain and preserve all heritage trees located thereon in a state of good. Failure to do so shall constitute a violation of this section.
4. No person shall willfully damage, injure, destroy, move or remove a heritage tree except pursuant to the terms and conditions of a permit granted pursuant to this article.

4. **Construction/grading activity**

Any owner or person who conducts any grading or construction activity on property shall do so in such a manner as to not threaten the health or viability or cause the removal of any heritage tree. The City Manager or designee may impose conditions on any development permit to require construction fencing and/or the use of protective grading methods to assure compliance with this section. In addition to said conditions, the following shall apply:

A. Except as otherwise provided in this section, excavation adjacent to any heritage tree shall not be permitted where material damage to the root system may result. When proposed developments encroach into the drip line of any heritage tree, special construction techniques to allow the roots to breathe and obtain water may be required as a condition(s) to the approval of any application for a building, zoning permit or removal permit.
B. The existing ground surface within the drip line of any heritage tree shall not be cut, filled, compacted or pared except for existing, permitted encroachments such as sidewalks or as otherwise expressly approved by the City Manager or designee pursuant to an approved arborist's report. Tree wells may be used where advisable.

5. Nominations

Any citizen, property owner, or City official may nominate a tree to be designated as a heritage tree. Nominations must be accompanied with permission from the property owner where the tree stands. Consideration of the nomination shall follow the procedures set forth in Chapter 11.

6. Recognition

Every designated heritage tree may be permanently marked identifying it as such and advising that unauthorized removal will result in a fine as stated in Section 11.08.04. The requirement to permanently mark each designated heritage tree is advisory only and not a legislated mandate. Failure of the City to mark such tree shall not adversely impact the City in enforcing the provisions of this section.

4.05.16 TREE FUND

In support of the City's commitment to tree protection, the continued health of its mature canopy, and to grow the urban forest, the City Manager must establish within the operating budget of the City a special account that includes all funds derived from donations, Tree Removal penalties or fines, and all fees collected from the issuance of tree removal permits into the special fund. The special account may also include funds derived from violations of landscape requirements. Funds in the special account must only be spent for the following activities:

- Heritage Tree nomination, inspection, and protection measures;
- Relocation of protected trees;
- Monitoring and special treatment (such as cabling or root injections) of protected trees within City Rights-of-way and public lands:
- Up to 1/3 of the salary of a City Employee serving as the Urban Forester/City Arborist;
- The salary of a seasonal intern;
- Purchase of replacement trees and supplies including irrigation to support newly installed trees within the City;
- Education and outreach materials about trees;
- Equipment required to support new or replacement trees; and
- Staff and volunteer training activities.

The special fund will not be used to defer costs of routine maintenance activities (such as pruning or pesticide application) supporting City trees beyond two (2) years following their initial installation.

5.00.00 GENERALLY

It is the purpose of this chapter is to regulate the design, construction, and use of accessory structures, the construction and use of temporary structures, and the design and construction of signs in order to ensure that they are not harmful either aesthetically or physically to residents and surrounding areas.

5.01.00 ACCESSORY USES AND STRUCTURES

5.01.01 Generally

It is the purpose of this section to set forth standards for the design, installation, configuration, and use of accessory structures, and the establishment of accessory uses in existing structures.

5.01.02 Home Occupations

A. It is the purpose of this section to establish regulations to protect the residential areas of the City and ensure that allowable home occupations are conducted in a manner that avoids or minimizes negative impact to neighbors.
B. A home occupation is permissible in a lawfully established dwelling unit in any residential zoning district. Home occupations shall meet the standards set forth in this section.
C. The following and similar uses are permissible as home occupations:
    1. Art studio;
    2. Dressmaking or tailoring;
    3. Personal services, such as barber, beautician, nail technician, massage therapist, and the like, provided that the services are provided to one (1) client at any one (1) time;
    4. Office for the professions or consultants, such as architecture, insurance, engineering, planning, law, accounting, or real estate;
    5. Office for persons involved in businesses conducted at other locations, such as construction trades, sales, or manufacturing representative;
    6. Teaching or tutoring, including musical instruments or dance, when limited to one (1) pupil at a time;
    7. Child care for four (4) or fewer children at any time; and
    8. Home school for family members residing on the premises.
D. Home occupations shall be conducted in accordance with the following standards:
    1. Home occupations shall be limited to immediate family members residing within the dwelling and who make the dwelling their primary place of residence. Nonresident employees shall be prohibited;
    2. The use of the dwelling unit for the home occupation shall be incidental and subordinate to the use for residential purposes by the occupants;
    3. There shall be no outdoor display of business goods, business materials, business supplies, or business equipment visible from any street;
    4. No more than twenty (20) percent of the gross heated and air conditioned floor area of the dwelling unit shall be used in the conduct of the home occupation;
    5. There shall be no structural alterations to the interior of the dwelling to accommodate a home occupation, which would reduce the area for residential use to less than eighty (80) percent of the interior space of the dwelling;
    6. There shall be no structural additions, enlargements, or exterior alterations changing the residential appearance of the dwelling or the lot, or other visible indications of the conduct of the home occupation;
    7. There shall be no additional or separate entrance to the dwelling for the purpose of conducting the home occupation;

8. There shall be no internal or external alterations, construction features, or use of electrical or mechanical equipment, which would change the fire rating of the structure;
9. There shall be no business equipment or process used in the home occupation which creates noise, vibration, glare, smoke, fumes, odors, or electrical interference detectable to the normal senses at any point beyond the lot line;
10. There shall be no business electrical or business mechanical equipment utilized in the home occupation which will create any visual or audible interference with radio or television reception or which will cause fluctuations in line voltage off the premises;
11. The home occupation shall not involve the use of commercial vehicles for delivery of materials to or from the premises other than vehicles normally associated with residential home delivery (i.e., postal or parcel delivery service vehicles);
12. There shall be no overnight parking of commercial vehicles, except as set forth in Section 7.01.05;
13. No signs are permissible, other than an occupant sign permissible as set forth in Table 5.03.06 (A);
14. No work shall be conducted within any attached or detached garage. This prohibition shall not be construed to prevent a home occupation in a lawful accessory dwelling. Limited storage may be allowed in any attached or detached garage provided such storage does not create a nuisance or prevent the utilization of the garage for parking motor vehicles;
15. The home occupation shall not interfere with the delivery of utilities or other services to the neighborhood in which the principal residential dwelling is located;
16. No traffic shall be generated by the home occupation in greater volume than would normally be expected in a residential neighborhood;
17. There shall be no on-street parking space associated with the home occupation;
18. No toxic, explosive, flammable, radioactive, or other hazardous materials in greater quantities than for ordinary household use shall be used, sold, or stored on the site of the home occupation. However, materials common to ordinary household use are permitted, provided the quantity of the material does not exceed that found in an ordinary household;
19. No visitors in conjunction with the home occupation (clients, patrons, pupils, or sales persons) shall be permitted between the hours of 7:00 p.m. and 8:00 a.m.;
20. A home occupation shall be subject to all applicable City occupational licenses and other business taxes; and
21. If any home occupation requires a license or permit from the State or agency thereof, the applicant for a home occupation permit shall provide a current, valid copy of any such permit or license with the application for approval of the home occupation. The license or permit from the State or any agency thereof shall be kept active and current and a duplicate copy shall be filed with the City at the time of all subsequent renewals.

E. Failure to continuously comply will all provisions of this section and all other provisions of the LDC applicable to home occupations generally, and all conditions of any permit or license issued by the State or any agency thereof, shall be grounds for revocation of the occupational license by the City.

5.01.03 All Accessory Structures

A. There must be a permitted principal structure in full compliance with all development standards and requirements of this LDC prior to issuance of a permit for an accessory structure. This provision shall not be construed to prohibit the establishment of an accessory structure simultaneously with the establishment of a permitted principal structure.
B. Permissible accessory uses by zoning district are identified in Table 2.03.03.
C. There must be no more than one (1) detached accessory dwelling unit and not more than a total of two (2) other detached accessory buildings on a lot.
D. An accessory structure must not be located within or partially within any public right-of-way.
E. Accessory structures must be shown on any site plan with full supporting documents as required by this LDC.
F. Accessory structures must be included in all calculations of impervious surface and stormwater runoff requirements.
G. Accessory structures must not be located in any required buffer, landscape area, or stormwater management area.
H. A detached accessory building in a residential zoning district must be set back from the front lot line a minimum of 25 feet, from the side lot line a minimum of three (3) feet, and from the rear lot line a minimum of three (3) feet, except within the C-3 zoning district whereby the building standards set forth in Section 4.02.03(E) shall apply.
I. A detached accessory building must not exceed twenty-five (25) feet in height or exceed a maximum building footprint of 625ft^2.
J. Connection of an accessory structure to a principal structure may be permissible if the connection is non-conditioned, unenclosed, and meets all principal structure setback requirements. A half wall, knee wall, or railings may be permitted as part of the connection.

5.01.04 Accessory Dwellings Units (ADU)

A. Accessory dwelling units (ADU) shall not count towards density. Long-term rental (31 days or more) is permissible when the property upon which the ADU is located receives a homestead exemption from the Nassau County, Florida Property Appraiser. Per the City's Comprehensive Plan policy 1.06.05, detached accessory dwelling units shall be permissible in all residential areas in compliance with the following standards:
    1. The total floor area of the detached accessory dwelling unit shall not exceed 625 square feet;
    2. The maximum height for a detached accessory dwelling unit located as a freestanding building or an apartment over a detached garage shall not exceed twenty-five (25) feet, measured from the approved finished grade to the highest point on the structure;
    3. A detached accessory dwelling unit shall be located only within a rear yard as established by Section 4.02.03; and
    4. An accessory dwelling unit shall comply with all standards set forth in Section 5.01.03.
B. An accessory dwelling is permissible in the I-1 or I-A zoning districts within a building which has as its principal use industrial or commercial uses. The accessory dwelling shall comply with the following standards:
    1. The total floor area shall not exceed 625 square feet, and only one accessory dwelling is permitted per lot of record or business, whichever is more restrictive;
    2. The accessory dwelling shall be provided solely for the occupancy by the owner, the manager, or an employee of the business which is the principal use;

3. The accessory dwelling shall not have a separate water or electric meter from the business it serves;
4. Parking for the accessory dwelling may be shared with the business it serves;
5. The accessory dwelling shall not have a separate exterior entrance from the business entrance.

B. An accessory dwelling is permissible in the OT-1 or OT-2 zoning districts subject to the standards in Section 8.01.01.02(C).

5.01.05 Agricultural Structures

Agricultural structures including barns, stables, corrals, and facilities for farm animals and livestock are permissible in the R-E district as an accessory use.

A. Agricultural structures are subject to the standards shown in the following table:

Table 5.01.05(A). Standards for Barns, Stables, and Facilities for Livestock

Development Feature	Standard
Animals allowed	Farm animals and livestock
Minimum land area	1 acre; the total land area shall be sufficient for the proposed number of animals, based on acceptable Animal Husbandry practices
Minimum setback for accessory buildings or structures	200 feet from lots zoned R-1, RLM, R-2, R-3, OT-1, OT-2, or MU-1
Minimum setback for outdoor tracks and exercise yards	250 feet from lots zoned R-1, RLM, R-2, R-3, OT-1, OT-2, or MU-1
Maximum floor area for a barn	Exempt from the requirements set forth in Section 5.01.03(C), (J) and (K)
Outdoor tracks, exercise yards, and corrals	Odor and pest control required, based on acceptable Animal Husbandry practices
Fences	The lot shall have perimeter fencing, at least 6 feet in height and not more than 8 feet in height. Any outdoor track and each exercise yard shall be separately fenced.

B. No animal having a disease harmful to humans shall be kept on the premises.

5.01.06 Docks and Other Waterfront Structures

The following types of structures are permissible, provided that a permit or exemption from permitting has been granted by the FDEP or the USACOE, as applicable:

A. Docks;
B. Piers;
C. Seawalls;
D. Jetties;
E. Wharves;
F. Boat ramps;
G. Boardwalks; and
H. Boathouses.

5.01.07 Dumpsters

A. Dumpsters must be screened with a solid masonry wall, vinyl or wooden fence. Dumpster enclosures within the historic districts must comply with LDC Section

8.01.01.01. The fence must be a minimum of six (6) feet and a maximum of eight (8) feet in height. I-2 zoned properties are exempt.

B. Double-staggered shrubs must be installed around the perimeter, except for the gate, of the wall or fence to form a continuous hedge. Plant materials must meet the requirements set forth in Section 4.05.03.
C. A gate must be provided for access.
D. Where possible, dumpsters must be sited to not be visible from the public right-of-way.
E. Dumpsters must be located on a paved surface of sufficient size to accommodate the dumpster.
F. The dumpster location must be easily accessible for pick-up.
G. Dumpsters must be located to the rear or side of the principal building. A location in the front of the principal building may be permissible only where side and rear yard locations cannot provide adequate access for pick-up.
H. Dumpsters must not be located within any required buffer area, required landscaped area, required parking lot landscaping, or stormwater management area.

5.01.08 Storage Buildings, Sheds, Utility Buildings, and Greenhouses

A. Storage buildings, sheds, utility buildings, and greenhouses shall not be located within any easement.
B. Storage buildings, sheds, utility buildings, and greenhouses that are used for industrial storage of hazardous, incendiary, noxious, or pernicious materials shall be located a minimum of 200 feet from any property line.

5.01.09 Outside Storage

A. Outside storage involving machinery and equipment, service areas for vehicles in need of major service or repair, materials for construction or distribution is permissible only in the C-2, I-1, and I-A zoning districts. Construction materials permissible in this category are limited to lumber, garden supplies and equipment, plumbing supplies, and similar materials. Machinery and equipment do not include heavy construction machinery, heavy construction vehicles, and heavy construction equipment.
B. Outside storage involving machinery and equipment for agricultural support is permissible only in the RE, I-1, and I-A zoning districts.
C. Outside storage shall be located only within a rear yard.
D. Outside storage shall be fully screened from view from adjacent residentially zoned districts, from adjacent office areas, and from public right-of-way by a fence, wall, or landscaping. Where landscaping is proposed as screening, a buffer "D" shall be required as set forth in Section 4.05.05. Where a fence or wall is proposed, the fence or wall shall be solid, wooden, or masonry; a minimum of six (6) feet in height; and a maximum of eight (8) feet in height.
E. Stored materials shall not exceed the height of the fence.
F. Outside storage of parts and materials and associated service areas or work activity areas shall be maintained in a neat and orderly manner.
G. Outside storage shall be limited to a maximum of twenty-five (25) percent of the building area of the site.

5.01.10 Fences and Walls

A. The maximum height of fences and walls must be as set forth in Table 5.01.10(A), except where otherwise provided in this LDC.

Table 5.01.10(A). Maximum Height of Fences and Walls

Measurement: The height measurement of fences and walls is taken from 2" above the natural topography to the top of the fence panel, picket, or wall. Support posts or columns cannot exceed 6" above the top of the fence panel, picket or wall.

Zoning District	Location	Maximum Height
RE, R1-G R-1, RLM, R-2, R-3, OT-1, OT-2, MU-1	Front yard, measured from the required front yard setback line to the front property line	4 feet
RE, R1-G R-1, RLM, R-2, R-3, OT-1, OT-2, MU-1	Side yard, measured from the required front yard setback line to the required rear yard setback line Rear yard, measured from the required rear yard setback line to the rear property line	6 feet 6 feet
C-1, C-2, C-3, MU-8, PI-1 & W-1	All locations	8 feet
I-1, I-2, I-A, I-W, REC & CON	All locations	12 feet

B. Where walls or fences are proposed to be located on a common property line, the written consent of adjacent property owners is required.

C. Property lines must be established by a survey prepared by a surveyor licensed in Florida not more than two (2) years prior to the date of the application for a permit to install or construct a fence.

D. Horizontal and vertical support posts must be placed facing the inside of the fenced area, except where the fence is designed such that both sides are finished with alternating vertical fence support.

E. Electrified fences are prohibited.

F. The use of barbed wire, razor wire, or the like for fencing is permissible only in the I-1, I-2, I-A, and PI-1 zoning districts.

G. Permissible barbed wire or razor wire must be six (6) feet or more above the ground level an turned inward. No encroachment of outward facing barbed wire or razor wire fence beyond the property line is permissible.

5.01.11 Swimming Pools and Pool Enclosures

A. All pools must provide fencing or enclosures in compliance with the requirements of the Florida Building Code.

B. A screen enclosure may be installed instead of, or in addition to, a fence or wall, provided that the screen enclosure meets all the following requirements:

1. A pool screen enclosure must be set back from the side lot line a minimum of three (3) feet;
2. A pool screen enclosure must not be closer than three (3) feet to the rear lot line and shall not be required to comply with the setback from a rear lot line as set forth in Section 4.02.03(E); and

3. A pool screen enclosure must not exceed twenty-five (25) feet or the height of the principal structure, whichever is lower.

C. No overhead electric power lines can pass over any pool unless enclosed in conduit and rigidly supported, nor can any power line be nearer than ten (10) feet horizontally or vertically from the pool edge.

D. Pool equipment may be located within the side yard setback, but not closer than five (5) feet to side or rear yard lot line.

E. Lights used to illuminate any swimming pool must be shielded and directed to avoid illuminations of adjoining properties.

F. The following setback must be maintained and must be measured from the pool's edge of water to the lot line as follows:
   1. The minimum front setback must be the same as that required for a residence located on the parcel where the pool is to be constructed. However, in no case is the pool to be located closer to a front property line than the principal building is located;
   2. The minimum side setback cannot be less than seven and one half feet (7 and ½ ft) from the side lot line;
   3. The minimum rear setback cannot be less than seven and one half feet (7 and ½ ft) from the rear lot line; and
   4. In the C-2 and PI-1 zoning districts, pools that are an accessory to lodging accommodations may be located within a front yard, provided that the pool is setback at least ten (10) feet. The setback must be measured from the front property line to the outermost feature of the pool, such as the edge of the pool deck or pool enclosure.

5.02.00 TEMPORARY USES AND STRUCTURES

5.02.01 Generally

This section sets forth the regulations regarding temporary uses and structures. Permissible temporary uses and the structures associated with the temporary uses include seasonal sales, special events, temporary structures during construction activities, and model homes and sales centers. Peddlers, food peddlers, and street vendors are prohibited, except as part of an approved special event.

5.02.02 Seasonal Sales

A. Seasonal sales are periodic events for the sale of materials and goods associated with a holiday or calendar season (such as, but not limited to, Christmas trees or pumpkins in the fall.) A temporary use permit is required according to the procedures set forth in Chapter 11.

B. The area devoted to seasonal sales shall not be located on or within any required setbacks, buffers, parking spaces, parking lot aisles, driveways, fire lanes, or other traffic circulation areas.

C. Goods, tents, equipment, or materials used for the seasonal sales activity shall not be located within any right-of-way.

D. The area devoted to seasonal sales together with the goods, tents, equipment, or materials used for the seasonal sales activity shall not obstruct access or the clear visibility area established in Section 7.01.08.

E. Designated parking spaces shall be provided to support the seasonal sales activity. The required number of parking spaces is one (1) space for each 200 square feet of sales area.

F. The applicant shall ensure the provision of adequate garbage and refuse disposal.

G. The applicant shall demonstrate conformance with all applicable building, health, and other federal, State, or local laws.

5.02.03 Special Events

The following standards apply to carnivals, fairs, festivals, and similar events and activities:

A. A permit is required according to the procedures set forth in Chapter 11.
B. Peddling of goods and food by temporary vendors is permissible. The applicant shall provide details regarding the number, type, and proposed location of such temporary vendors.
C. The applicant shall ensure the provision of adequate sanitation facilities, sewage disposal, garbage and refuse disposal, potable water supply, and food service during the special event.
D. The site shall have floodlighting for the special event and parking areas, if any activities are to be offered during darkness. Lighting shall be shielded and directed to avoid direct illumination of adjacent properties. Lighting for special events near the beach shall comply with the requirements set forth in Section 3.05.02.
E. The site shall have adequate parking facilities. Parking may be on-site or off-site. Where off-site parking is provided, there shall be adequate plans for transporting or conducting patrons from the parking facilities to the special event area.
F. The applicant shall provide adequate traffic control and security in and around the special event area.
G. All stages, booths, tents, scaffoldings, or structures of any nature on, under, or within which persons may congregate, shall conform to applicable building, health, and other construction codes.
H. Refer to the City Code of Ordinances Sections 14-1, 26-66, and 26-91 for specific requirements related to the Annual Shrimp Festival.

5.02.04 Temporary Construction and Sales Offices

Certain uses and structures are allowable during construction activities. A temporary permit is required according to procedures set forth in Chapter 11.

A. No temporary buildings shall be permitted until a valid building permit has been issued for the primary construction activity on the site.
B. Temporary offices may be located on a construction site to be used for administrative functions during construction. Temporary construction offices shall have the name of the construction company printed on a sign with a maximum size of four (4) feet by eight (8) feet permanently affixed on the outside of the building.
C. A temporary building may be located on the construction site to be used as an office for sales functions, allowing for the sale, resale, or marketing of dwellings, structures, or property within the development in which it is located, or adjacent developments under the same management control. If restrooms are provided in the temporary building, the applicant shall demonstrate adequate provisions for sewage pump-out or disposal.
D. All temporary buildings, construction equipment, and construction materials shall be removed within thirty (30) days following completion of the permitted construction or expiration of the building permit, whichever occurs first.
E. The temporary sales office shall be separated by a fence from the remainder of the site where general construction is in progress.
F. Parking shall be provided to serve the administrative office, sales office, and home, according to the standards set forth in Section 7.01.04.
G. The building housing the temporary office shall meet tie down requirements for mobile structures. If restrooms are provided in the temporary building, the applicant shall demonstrate adequate provisions for sewage pump-out or disposal.

H. On-site outdoor storage of equipment and construction materials shall be allowed during the period of construction. However, stored materials shall be neatly stacked and maintained at least one (1) foot from all property lines.
I. One (1) on-site manufactured home for the use of security personnel, a caretaker, or for the temporary residence of the owner/builder may be located on the site. The applicant shall demonstrate adequate provisions for sewage pump-out or disposal.
J. Portable toilet facilities shall be provided.
K. Construction and demolition debris dumpsters are permissible. However, dumpsters shall be located at least one (1) foot from all property lines. Such dumpsters are not required to meet screening requirements set forth in Section 5.01.07.

5.02.05 Model Homes and Sales Offices

A. Model homes are permissible only in conjunction with a new residential development during the period of construction of site improvements and new homes.
B. Model homes may be erected or displayed in districts that include residential uses, provided that such models shall not be used for residential purposes, but only for display as a means to sell homes.
C. One (1) or more model homes may be established in a residential development, including planned unit developments and mixed use developments, subject to the following standards:
    1. A model home shall be located on a platted lot meeting all standards of this LDC;
    2. A model home shall be located to meet all site design standards of this LDC;
    3. A model home shall be located only on a collector or arterial street;
    4. A model home may include a sales office. Hours of sales operations shall not extend beyond 8:00 p.m.;
    5. One (1) off-street parking space shall be provided for each employee plus one (1) off-street parking space per model home. In addition, one (1) off-street parking space shall be provided for handicapped parking. These spaces shall be provided on the same lot as the model dwelling unit or on a contiguous lot within the specific project; and
    6. The number of model home units shall not exceed five (5) percent of the number of homes or lots permissible in the residential development. Fractions shall be rounded to the nearest whole number.
D. The model home shall be discontinued as a model unit and sales office when ninety (90) percent of the lots or homes in the residential development have been sold. The site shall be redesigned to comply with all site design requirements applicable to the residential development. Such redesign includes, at a minimum, removal of parking in excess of that associated with a single-family home; removal of any signs; and removal of any exterior lighting associated with the model home and sales office.

5.02.06 Movable Module Storage Units

Movable module storage units (called "storage pod") are permissible temporary structures, provided that such structures are located in compliance with the following standards:

A. A temporary use permit shall be obtained as set forth in Chapter 11.
B. The duration of the temporary use permit shall be limited to fourteen (14) days per lot per year. One (1) renewal of the temporary use permit may be granted for an additional fourteen (14) days.
C. The storage pod may be placed on a paved or unpaved surface. When the temporary use permit authorizes location of the storage pod on an unpaved surface, the permit shall be conditioned upon the requirement that grass, sod, or landscaping shall be restored after removal of the storage pod.
D. The storage pod may be placed on private property, not within the right-of-way.

E. The storage pod shall not be placed within an easement, stormwater area, or required buffer.
F. The storage pod shall be placed at least one (1) foot from any property line.
G. The storage pod shall not obstruct pedestrian access.
H. The storage pod shall not be located within the clear visibility area at street intersections as set forth in Section 7.01.08.

5.03.00 SIGNS

5.03.01 Applicability and Findings of Fact

This article applies to all signs, including advertising devices that are constructed, erected, operated, used, maintained, enlarged, illuminated or substantially altered within the city.
The city commission finds that:

1. The manner of the erection, location and maintenance of signs affects the public health, safety, morals, and welfare of the people of this community.
2. The safety of motorists, cyclists, pedestrians, other users of the public streets is affected by the number, size, location, lighting and movement of signs that divert the attention of drivers.
3. The size and location of signs may, if uncontrolled, constitute an obstacle to effective fire-fighting techniques.
4. The construction, erection and maintenance of large signs suspended from or placed on the tops of buildings, walls or other structures may constitute a direct danger to pedestrian and vehicular traffic below, especially during periods of strong winds.
5. Uncontrolled and unlimited signs may degrade the aesthetic attractiveness of the natural and manmade attributes of the community and thereby undermine the economic value of tourism, visitation and permanent economic growth.

5.03.02 Purpose and Intent

The city commission recognizes that there are persons and entities that have an interest in communicating with the public through the use of signs that serve to identify businesses and services, residences and institutions, and also to provide for expression of opinions. The City commission is also responsible for fulfilling the city's obligation to its residents and tourists to maintain a safe and aesthetically pleasing environment where signs do not create excessive visual clutter and distraction or hazards for pedestrians and vehicles; where signs do not adversely impact the residential, coastal or historic character of the city and where signs do not conflict with the natural and scenic qualities of the city. It is the intent of the city commission that the regulations contained in this article shall provide uniform sign criteria which regulate the size, height, number and placement of signs in a manner that is compatible to the residential, coastal and historic scale and character of the city, and which place the fewest possible restrictions on personal liberties, property rights, commerce, and the free exercise of Constitutional rights while achieving the city's goal of creating a healthy, safe and attractive environment that does not contain excessive clutter and visual distraction in rights-of-way and adjacent properties, the surrounding natural coastal environment, historic district and residential neighborhoods.

5.03.03 Sign Permits Required

A. It shall be unlawful for any person to erect, construct, alter, or relocate any sign within the City without having first obtained a permit as provided in this section:
   1. The work necessary to construct, install, erect, illuminate, paint, or modify signage within the City shall comply with the requirements set forth in this section;
   2. Work which may be performed by a property owner or lessee:
      a. Painting the face of any freestanding or wall sign; and

b. Erection of any temporary sign permissible as set forth in this LDC.

3. Work which shall be performed by a sign contractor, general contractor, or building contractor licensed with the City to perform such work:
   a. Construction, installation, erection, or electrical connection of any sign that is internally illuminated;
   b. Construction, installation, or erection of any freestanding sign over six (6) feet in height, requiring wind load calculations;
   c. Construction, installation, or erection of any sign which is located above a pedestrian walkway or on the front fascia of a canopy over a pedestrian walkway; and
   d. Construction, installation, or erection of any projecting sign as set forth in this LDC.

B. *Application for permit.* All applications for permits under this section shall be filed by either a contractor licensed to erect signs in the city, or the owner of the property where the sign is to be located or his authorized agent. Such application shall include the following:
   1. Name, address and telephone number of owner(s) of property;
   2. Name, address and telephone number of licensed sign company erecting the sign;
   3. The street address or legal description of the property upon which the proposed sign is to be located;
   4. The height, size, shape, style, colors, materials and location of the proposed sign;
   5. Written permission of the owner, his lessee or agent, to erect the proposed sign;
   6. A plan, blueprint, or similar presentation drawn to scale, showing all pertinent structural and electrical details, wind pressure requirements, signable wall area calculations (as applicable) and materials in accordance with the city's adopted building code;
   7. A statement verifying the height, size, shape and location of existing signage on the premises.

C. *Issuance of permit.* The procedure for issuing a sign permit shall be as follows:
   1. Upon receipt of an application for a sign permit, the department shall determine within five (5) business days after receipt of such application whether the information submitted is complete or incomplete and inform the applicant of any deficiencies.
   2. If the department determines that the information is incomplete, the applicant may submit the required information within ten (10) business days, but if more than ten (10) business days elapse, the application shall be deemed withdrawn and all application materials returned to the applicant. The applicant must thereafter initiate a new application.
   3. If the department determines that the information is complete, the department shall review the plans, specifications and other data relating to such sign, and, if considered necessary, inspect the premises upon which the sign is proposed to be erected. If the proposed sign meets all provisions of this LDC and the applicable building codes, the department shall issue the permit stating whether the application is approved, denied or approved with conditions within thirty (30) calendar days of receiving the complete permit application.
   4. No new sign permit shall be issued for a freestanding sign or primary wall sign on property upon which any nonconforming sign is located, until such nonconformity is corrected. On multi-tenant sites, this paragraph shall apply only to the tenant's signage.
   5. If the proposed sign is in compliance with this chapter and all other applicable laws and codes of the City, a sign permit shall be issued upon receipt of the permit fee.

6. The issuance of any sign permit shall be conditioned upon the restoration of any building facade which has been damaged by placement of a previous sign. Such restoration shall include, but not be limited to, patching, repainting, and concealing visible electrical components, when applicable.

D. *Permit fees.* Permit fees under this code shall be set by ordinance of the City Commission

E. *Exemptions.* Exemption from the requirement to obtain a sign permit shall be permitted under the following circumstances:
   1. The erection, construction, installation of any sign described in section 5.03.05 (Prohibited Signs) or 5.03.06 (Exempt Signs) of this chapter; or
   2. The repair, maintenance or repainting of any existing sign which is deemed conforming or allowed to continue as nonconforming under provisions of this chapter.

F. *Expiration of permit.* A sign permit shall expire and become invalid in accordance with the rules set forth in the building code for all permits in general.

5.03.04 Enforcement

A. All signs shall meet the standards for visibility at intersections as set forth in Section 7.01.08.

B. It shall be unlawful for a person to display false or misleading statements upon signs, calculated to mislead the public as to anything sold, any services to be performed, or information disseminated. The fact that any sign or display shall contain words or language sufficient to mislead a reasonable and prudent person in reading same shall be prima facie evidence of a violation of this section by the person displaying the sign or permitting same to be displayed.

C. Inspection of signs: The City Manager may inspect at any time each sign or other advertising structure regulated by this LDC for the purposes of ascertaining whether the structure is safe, in need of repair or maintenance, not in conformance with the approved permit, or otherwise in violation of the provisions of this LDC.

D. Unsafe signs and signs violating this LDC: If it is determined that any sign or other advertising structure regulated herein is unsafe or insecure, or is a menace to the public, the City Manager shall give written notice to the owner of such structure. If the owner fails to remove or alter the structure to comply with the standards set forth herein within the time prescribed in the notice, such sign or other advertising structure may be removed or altered to comply by the City at the expense of the owner of the property upon which it is located. The City Manager may cause any sign or other advertising structure that presents an immediate peril to persons or property to be removed without notice.

E. Nonconforming signs
   1. *Intent.* It is the intent of this chapter to allow nonconforming signs permitted before the adoption of this code to continue under the provisions of this section until they are no longer used, or become hazardous, but not to encourage their survival. Such signs are hereby declared to be incompatible with the overall intent of this chapter.
   2. *Removal of nonconforming signs.* All nonconforming and non-permitted signs, except as provided herein, shall be removed immediately or as otherwise provided under section D of this chapter.
   3. *Continuance of nonconformities.* Use of a nonconforming sign may be continued, subject to the following regulations:
      a. No nonconforming sign shall be enlarged or increased in any way from its lawful size at the time of the adoption of this code, nor shall a nonconforming sign be relocated from its location at the time of adoption of this code.

b. Nonconforming signs or sign structures that are defined as abandoned signs under 5.03.04(G) of this chapter shall not be permitted for reuse.

c. Use of a nonconforming sign shall immediately terminate upon a change of business, business ownership or business name, regardless of whether ownership of the lot on which the nonconforming sign is located has been transferred, devised or conveyed.

d. Signs existing as of the date of this amendment, whose height and/or sign area do not exceed one-hundred and fifteen percent (115%) of that allowed by the design requirements of this chapter, shall be deemed conforming. Installation or construction of all new signs, and any modification or replacement of signs permitted under this paragraph, shall comply with all applicable height, sign area, and other requirements of this chapter.

e. Signs that have substantial rust, missing parts, dents, or other structural or aesthetic deficiencies shall not be considered in good repair, and shall be replaced with a sign that meets the requirements of this section. A sign that is not considered in good repair may not be replaced with a non-conforming sign.

f. Nonconforming real estate or construction signs shall be removed no later than six months after the date of adoption of this amendment. Thereafter, all such nonconforming signs shall be deemed unlawful and prohibited and subject to the enforcement provisions of this chapter.

g. *Repairs, maintenance and improvements.* Normal repairs, maintenance and improvements may be made, however, the cost of such improvements made during any two-year period shall not exceed twenty-five percent (25%) of the replacement cost of the sign at the end of the two-year period.

h. *Reconstruction after catastrophe.* If any nonconforming sign is damaged by fire, flood, explosion, collapse, wind, war, or other catastrophe to such an extent that the cost of repair and reconstruction will exceed fifty percent (50%) of the replacement cost at the time of damage, it shall not be used or reconstructed except in full conformity with the provisions of this code.

i. *Casual, temporary or illegal use.* The casual, temporary, or illegal use of any sign shall not be sufficient to establish the existence of a nonconforming use or to create any rights in the continuance of such use.

F. Maintenance of signs:

The owner of any sign as defined and regulated by this LDC shall be required to properly maintain such sign. For a sign to be properly maintained, the sign, together with its framework, braces, angles or other supports, shall be in a safe condition, properly secured, supported and braced, and shall be able to withstand weather conditions and loads required by the regulatory codes in effect within the municipal limits. Maintenance shall include painting and parts replacement.

1. All signs allowed by this article, including their supports, braces, guys and anchors, electrical parts and lighting fixtures, and all painted and display areas, shall be maintained in accordance with all building and electrical codes that may be adopted by the city.
2. The vegetation around, in front of, behind, and underneath the base of freestanding signs for a distance of ten (10) feet shall be kept neatly trimmed and free of unsightly weeds, and no rubbish or debris that constitutes a fire or health hazard shall be permitted under or near the sign.
3. Signs and sign structures shall maintain a neat and clean appearance.

G. Abandoned Signs:

1. Any sign face now or hereafter existing which no longer identifies or advertises a bona fide operating business conducted or a product sold shall be deemed

abandoned and shall be removed by the owner of the building or structure upon which such sign face may be found. The sign structure may remain, provided that the sign structure conforms to the requirements of this LDC. A sign structure which supported an abandoned sign and which complies with all applicable building and construction codes and the requirements of this LDC shall be allowed to remain in place.

2. Any sign that is located on property that becomes vacant and unoccupied pertaining to a business which does not maintain a current and valid City Local Business Tax Receipt unless exempt by Florida Statute 205.192 and Municipal Code Section 74-92, or pertains to a time, event, or purpose which no longer applies shall be deemed to have been abandoned.
3. Any sign damaged or destroyed to the extent of fifty percent (50%) or more of the replacement cost is considered an abandoned sign.
4. An abandoned sign shall be removed not later than ten (10) days after the abandonment occurs as described in Sections 5.03.04 (G) (1), (2), and (3) above. Where the structure supporting the abandoned sign does not comply with the requirements of all applicable building and construction codes and the requirements of this LDC, the entire structure shall be removed.
5. An abandoned sign shall be subject to code enforcement action, including removal by the City at the owner's expense.

5.03.05 Prohibited Signs

The signs identified in this section are expressly prohibited unless otherwise exempted or expressly authorized:

A. Any sign which constitutes a traffic hazard or a detriment to traffic safety by reason of its size, location, movement, content, coloring, or method of illumination.
B. Any sign that obstructs the vision between pedestrians and vehicles using the public right-of-way, including, but not restricted to, those not meeting intersection visibility requirements set forth in Section 7.01.08.
C. Signs with lights, lighted screens or illuminations that flash, move, rotate, scintillate, blink, flicker, or vary in intensity or color.
D. Non-governmental signs that resemble any official sign or marker erected by any governmental agency, or that by reason of position, shape or color, would conflict with the proper functioning of any traffic sign or signal, or be of a size, location, movement, content, color, or illumination that may be reasonably confused with or construed as, or conceal, a traffic-control device; and non governmental signs that use the words "stop", "look", "danger", or any similar word, phrase, or symbol, or which is a copy or imitation of an official sign that may be reasonably confused with or construed as, or conceal, a traffic-control device.
E. Signs attached to trees.
F. Snipe signs, except as permitted for campaign advertising or other Temporary Signs under Section 5.04.00.
G. Signs with visible moving, revolving, or rotating parts, or visible mechanical movement of any description or other apparent visible movement achieved by electrical, electronic, or mechanical means, except for traditional barber poles.
H. Signs with the optical illusion of movement by means of a design that presents a pattern capable of giving the illusion of motion or changing of copy.
I. Signs that emit audible sound, odor, or visible matter such as smoke or steam.
J. Signs or sign structures that interfere in any way with free use of any fire escape, emergency exit, or standpipe.

K. Signs made of combustible materials that are attached to or in close proximity to fire escapes or fire fighting equipment.
L. Signs that are of such intensity or brilliance as to cause glare or impair the vision of any motorist, cyclist, or pedestrian using or entering a public right- of- way, or that are a hazard or a nuisance to occupants of any property because of glare or other characteristics.
M. Signs that are painted, pasted, or printed on any curbstone, flagstone, pavement, or any portion of any sidewalk or street, except house numbers and traffic control signs.
N. Off-site advertising signs, with the exception of sandwich boards as set forth in Section 5.03.09 (E) and Temporary Signs as permitted in 5.04.00.
O. Signs mounted on any portion of a roof.
P. Abandoned signs.
Q. Signs erected on public property including public rights-of-way, with the exception of signs erected by public authority for public purposes, sandwich boards as set forth in Section 5.03.10 (E) and Temporary Signs as permitted in 5.04.00.
R. Signs erected within any navigable waterway within the City to be located beyond any established bulkhead line, and oriented to be visible to those traveling the waterway.
S. Portable or trailer signs.
T. Internally lit signs within or adjacent to residential zoning districts.
U. Signs attached to or painted on vehicles which are not regularly used as part of the advertised business and are obviously parked or advertise in such a way so as to advertise to the passing motorist or pedestrian.
V. Wind Signs defined as any device, including but not limited to, one (1) or more banners, flags, pennants, ribbons, spinners, streamers or captive balloons, or other objects or material fastened in such a manner as to move upon being subjected to pressure by wind not specifically exempted by section 5.03.06.
W. Any other signs that are not specifically permitted or exempted by this LDC.

5.03.06 Exempt Signs

A. Within all non-residential zoning districts, the following signs shall be considered as permitted signs and shall be exempt from the requirement to obtain a sign permit if they are not in conflict with section 5.03.05 (Prohibited Signs):
   1. Decals, limited to those as required by law, which are affixed to or painted upon store windows, store equipment, fuel pumps or other types of vending equipment used for dispensing retail products.
   2. Lettering only, for the purpose of providing ownership, licensing and emergency contact information, when placed upon doors and windows of lawfully licensed businesses, with letters not exceeding three (3) inches in height and limited to a maximum area of two (2) square feet.
   3. Signs within a building that are not visible from the exterior of the building. This shall not include window signs affixed to the interior of windows, which are visible from the exterior.
   4. Building signs, historical markers, memorial signs, tablets or plaques, or the name of a building and the date of erection, when the same are cut into any masonry surface or when constructed of bronze or other similar noncombustible material.
   5. Professional nameplates for physicians, surgeons, dentists, lawyers, architects, teachers and other like professional persons placed on the premises occupied by the person(s), not exceeding one (1) square foot in sign face area, provided such professional has a valid local business tax receipt as may be required for the particular profession to operate on those premises.

6. Signs denoting only the name and profession of an occupant of a building, placed flat against the exterior surface of the building and not exceeding three (3) square feet in sign face area, and provided such occupant has a valid local business tax receipt as may be required to operate on those premises.
7. Menus mounted to the entrance of a restaurant are limited to one menu location and may not exceed two (2) square feet in area.

B. Within all zoning districts, the following signs shall be considered as permitted signs and shall be exempt from the requirement to obtain a sign permit:
1. Not more than one (1) real estate sign advertising the sale, rental or lease of only the premises on which the sign is located. Such signs shall not exceed six (6) square feet in area, and five (5) feet in height. One sign sixteen (16) square feet or less is permitted for parcels of five (5) acres or larger and for each commercial or industrial property, unless said property is located in the Historic District. Signs advertising the sale, rental or lease of property exceeding this size and height shall not be considered as exempt signs.
2. Signs noting the architect, engineer or contractor for a permitted development project when placed upon work under construction, provided the sign shall be removed within fifteen (15) days of completion of construction. Such signs shall not exceed six (6) square feet in size or eight (8) feet in height.
3. Signs as required by law to display building permits or other similar required public notices.
4. Traffic signs, street name signs, legal notices of public meetings, danger signs and temporary emergency, when erected by city, county, state or federal authorities.
5. No trespassing and private property signs not exceeding two (2) square feet in area. Such signs shall not be displayed from or attached to trees, utility poles or any type of utility structure or equipment, including lift stations, fire hydrants and the like.
6. Vacancy or no vacancy signs not exceeding two (2) square feet in area
7. Resort Rental Signs must be located on the property for rent with a valid resort rental license and valid local business tax receipt. Resort rental signage is limited to one (1) sign per property and must be setback at least ten (10) feet from the front property line. Signage may not exceed to 2.25 square feet in area.
8. Yard or Garage Sale Signs must be located on the property which a sale is being conducted and are limited to two (2) days per sale, not to exceed one (1) sale every three (3) months. Yard or garage sale signs may not exceed one (1) sign per property and may not exceed two (2) square feet in area.
9. Temporary political campaign signs announcing the candidacy of a candidate for public office not exceeding four (4) square feet in area in residential zoning districts and thirty-two (32) square feet in all other zoning districts may be placed wholly within the boundaries of any property, at the discretion or consent of the legal owner and/or occupant of the property, provided such signs conform with all traffic, electrical, maintenance, fire and safety regulations of the city.
   a. The placing of political campaign signs on city property, other public property or on public rights-of-way shall be prohibited. Political campaign signs displayed within motor vehicles conducting routine business activities on city or other public property shall not be prohibited, provided that no such vehicle shall be parked on city property, other public property or on public right-of-ways for the sole purpose of displaying political campaign signs.
   b. Illegally placed political campaign signs shall be removed by the code enforcement officer without notice to the candidate or abutting property owner or occupant.

c. Political campaign signs shall be removed within seventy-two (72) hours after the last election. If such signs are not removed within this period of time, the city may remove such signs and may charge the candidate the actual cost for such removal. Collected funds shall be deposited into the city's general revenue. Failure to remove signs is a violation of this Code and is enforceable pursuant to F.S. Chapter 162, Code Enforcement.

10. Personal expression signs limited to one (1) per lot or parcel, or in the case of multi-family uses, one (1) per dwelling unit, expressing personal views or opinions not exceeding four (4) square feet in area, providing such signs are otherwise in compliance with applicable local, state and federal laws. A personal expression sign can include a pole flag no larger than twenty (20) square feet on a pole no taller than twenty-five (25) feet.
11. Holiday lights and seasonal decorations displayed at times when such lights and decorations are generally considered appropriate.
12. Barber poles at barbershops.
13. Works of art that do not constitute as advertising.
14. Non-advertising signs carried by a person.

5.03.07 Measurement Determinations

A. Sign area
   1. Where a sign is composed of letters or pictures attached directly to a facade, wall, window, door, awning, monument sign, or freestanding sign, and the letters or pictures are not enclosed by a border or trimming, the sign area shall be the area within the smallest rectangle, parallelogram, triangle, circle, semicircle, or a combination of any of these geometric shapes, the sides of which touch the extreme points of the letters or pictures as a whole.
   2. Where a sign is composed of letters or pictures enclosed by a border or trimming, the sign area shall be the area within the border or trim.
   3. In cases where material is displayed in a random or unconnected manner without organized relationship of the components, each such component shall be considered a single sign.
   4. The area of a freestanding sign shall include the area of the outside frame, but not of the supporting structure.

B. Number of signs
   1. A supporting structure with a sign face shall be counted as one (1) sign.
   2. A double-faced projecting or freestanding sign shall be construed as having the area of a single face, provided that the sign faces are placed back to back and are at no point more than two (2) feet apart.

C. Wall signs: The allowable area of a wall sign shall be calculated as a percentage of the signable area. The signable area is the area of the facade of the building up to the roofline, not including windows, doors, or major architectural features.

D. Sign height
   1. The height of a sign is the vertical distance from the finished grade to the highest point of the sign.
   2. Where a sign is placed on a berm, the height shall be measured from the grade at the base of the berm to the highest point of the sign.

5.03.08 Design Standards for All Signs

A. Every sign and sign structure shall be compatible in scale with the scale of the building to which it relates and the neighborhood in which it is located.

B. Every sign and sign structure shall be designed as a compatible architectural element relative to the building and site to which it principally relates. To be a compatible

architectural element means that the sign is consistent in color, materials, texture, and style with the building(s) on the site.

C. The number and size of graphic elements shall be proportional to the sign face.

D. Freestanding signs shall be landscaped to achieve compatibility with the design of the site. Landscaping materials shall be consistent with the specifications set forth in Section 4.05.08 and the standards for protection of visibility at intersections set forth in Section 7.01.08.

E. External lighting may be used only if directed solely to the sign face.

5.03.09 Permissible Permanent On-Site Signs

A. Permanent on-site signs shall be limited to the following sign types:

1. Freestanding signs, which may be either ground or monument signs, but shall not include a pole sign;
2. Wall Signs;
3. Awning Signs;
4. Projecting Signs; and
5. Sandwich Board/ Sidewalk Signs

B. Permanent on-site signs shall be permissible in the following non-residential or mixed use zoning districts: MU-1, C-1, C-2, C-3, I-1, I-A, and PI-1.

C. The number and types of permanent on-site signs shall comply with the standards in Table 5.03.09.(C).

Table 5.03.09 (C). Number and Types of Permanent On-Site Signs in Specified Non-Residential Zoning Districts

Zoning District	Sign Type				
	Freestanding	**Wall**	**Awning**	**Projecting**	**Sandwich Board or Sidewalk Sign**
MU-1	1	1			1 per business
C-1	1	1			1 per business
C-2	1 per street frontage	1	1	1	1 per business
C-3, MU-8	1 per street frontage, except within the Historic District; see Section 8.01.03	1 except within the Historic District; see Section 8.01.03	1	1	1 per business except within the Historic District; see Section 8.01.03
I-1	2	1	1	1	1 per business
I-A	2	1	1	1	1 per business
PI-1	1 per street frontage	1	1	1	1 per business

D. Permanent on-site signs shall comply with the design standards set forth in Table 5.03.09. (D).

Table 5.03.09. (D). Design Standards for Permanent On-Site Signs

Standard	Sign Type				
	Freestanding	**Wall**	**Awning**	**Projecting**	**Sandwich Board or Sidewalk Sign**
Maximum Sign Face Area	1 ft² per linear foot of frontage, to a maximum of 50 ft²	30% of the signable area of the wall	20% of awning face Or 20% signable area of the wall	12 ft²	6 ft²
Sign Location	Set back 5 ft. from the property line	Front or side façade	Front façade	Front façade Projecting sign shall not extend more than 4 ft. from the building face Projecting sign shall not extend closer than 2 ft. to a vertical line extending upward from the curb	On site; to be determined by the City Manager
Sign Structure Height	8 ft.	NA	Lowest part of sign shall be a minimum of 8 ft. above surface directly below	Bottom of the projecting sign structure shall be a minimum of 7.5 ft. above the surface directly below the sign	4 ft.

E. Sandwich Board/ Sidewalk Signs

1. The sign shall only be displayed during regular business hours;
2. The sign shall be placed within the lot lines of the business it is advertising;
3. The sign shall not cause any obstruction or detriment to the public and must comply with all ADA requirements.
4. The sign shall require a permit and the proposed sign location must be indicated on the permit application.
5. The sign must not exceed forty-eight (48) inches in height or twenty-four (24) inches in width.

5.03.10 Specific Provisions for Shopping Centers

A. In shopping centers incorporating three (3) or more establishments, the center may be identified by a freestanding ground sign meeting the standards set forth in this section.

B. The area of the sign may be increased above the standard set forth for freestanding signs in Table 5.03.09(D) an additional five square feet (5 ft²) for each independently operated establishment in the center, to a maximum sign face area of 100 square feet (100 ft²).

C. Shopping centers with street frontage of 400 feet or more may have an additional freestanding sign for each 400 feet of frontage. Any additional freestanding signs shall not exceed 100 square feet (100 ft²) in sign face area.

D. Two (2) signs are permissible for each establishment in a shopping center. Permissible signs for each establishment shall include: wall, projecting, awning. The total area of

all wall signs in the center shall not exceed thirty percent (30%) of the total wall area as described in Section 5.03.07(C). Allocation of that total area to the individual establishments shall be the responsibility of the owner/operator of the center.

E. One Sandwich Board sign is permissible for each establishment within a Shopping Center. Sandwich Board/ Sidewalk Signs shall conform to the standards outlined in Section 5.03.09.(E).

5.03.11 Specific Provisions for Residential Districts

Signage for residential districts shall be permitted under the provisions of this section. One freestanding sign for each street frontage shall be permitted as follows:

A. *Multifamily development*
   1. Uses of 12 units or less: 16 ft² per sign face.
   2. Uses of 13 units or more: 32 ft² per sign face.
   3. The sign may be a single sign with two (2) faces of equal size or two (2) single-face structures of equal size located on each side of the entrance.
   4. Height, Setbacks and design
      a. Maximum height shall be eight (8) feet.
      b. Minimum setback shall be five (5) feet from front property line and ten feet from side lot lines.
      c. Freestanding signs shall be ground signs in accordance with section 5.03.09(A)(1).

B. *Subdivision signs.* Permanent subdivision signs may be permitted by the administrative official as part of the subdivision review process, or upon request of property owners after development has occurred. In determining signage, the administrative official shall consider size of the sign, color, materials, location, provision for maintenance, size of the subdivision, functional classification of the adjoining roadway(s) and land use in the area.

C. *Nonresidential uses.* The following freestanding sign areas shall be permitted for nonresidential uses in residential zones. Height, setback and design requirements shall be according to 5.03.09(D) of this section.
   1. Child care, schools: 32 ft².
   2. Home occupation: 1 ft², affixed on the wall adjacent to the front entrance of the building.
   3. All other nonresidential uses, including cemeteries: 16 ft²
   4. All other residential uses: 16 ft² for uses consisting of 12 units or 24 beds or less; 32 ft² for uses consisting of thirteen (13) units or twenty-five (25) beds or more.

D. *Houses of worship.* Houses of worship may be permitted signage under this section in accordance with the following criteria:

   Specific provisions listed herein shall take precedence over all provisions in 5.03.09.

   1. *Freestanding signs*
      a. Freestanding sign shall be ground signs in accordance with section 5.03.09(A)(1).
      b. Sign area, height and setback
         1. The maximum area shall be one square foot (1 ft²) per linear foot of frontage, to a maximum of fifty square feet (50 ft²)
         2. The maximum height shall be eight (8) feet
         3. The minimum setback shall be five (5) feet from the front property line and ten feet from side lot lines
   2. *Wall signs*
      a. Maximum area shall be thirty percent (30%) of the signable area of the wall
      b. Shall primarily be made of wood or metal, or other materials simulating wood or metal. Solid plastic sign faces shall be prohibited.

c. One wall sign per street frontage is allowed

3. One Sandwich Board sign is permissible
   a. Sandwich Board/ Sidewalk Signs shall conform to the standards outlined in Section 5.03.09(E)

5.03.12 Specific Provisions Regarding Murals

A. Murals are permissible on buildings in non-residential zoning districts, subject to the standards in this section.
B. A mural shall be considered a wall sign and included in the wall sign limitations of the appropriate zoning district as provided in section 5.03.09 when the theme and contents of the mural depict the goods or services available at businesses operating within the building on which the mural is painted.
C. A mural shall be considered a decorative element when the theme and contents of the mural are not related to the goods or services available at businesses operating within the building on which the mural is painted.
D. Murals on buildings in residential zoning districts are considered decorative elements and are permissible.
E. A mural shall be considered an off-site sign when the theme and contents of the mural depict the goods or services available at businesses operating within a building other than the building on which the mural is painted.

5.03.13 Violation Constitutes Nuisance; Abatement

Any advertisement, advertising sign or advertising structure which is constructed, erected, operated, used, maintained, posted or displayed in violation of this LDC is hereby declared to be a public and private nuisance and shall be forthwith removed, obliterated or abated. Any portable sign such as snipe signs or real estate signs may be removed without notification of the property owner, if such sign is placed in the public rights-of-way.

5.03.14 Right of Entry for Inspection

Appropriate city employees in the performance of their functions and duties and under the provisions of this article may enter into and upon any land upon which advertising signs or advertisements are displayed and make such examinations and surveys as may be relevant subject to constitutional limitations and state law.

5.03.15 Procedure for Appeal

Any administrative decision that is made by any city official in the administration or enforcement of this article may be appealed within thirty (30) calendar days to the Board of Adjustment (BOA) following the appeal procedures as set forth in Section 11.07.00. The decision of the BOA may be appealed within thirty (30) calendar days to the circuit court.

5.03.16 Severability

The provisions of these sections regarding signage are declared to be severable and if any section sentence clause or phrase of these sections regarding signage shall for any reason be held to be invalid or unconstitutional such decision shall not affect the validity of the remaining sections sentences clauses and phrases of these sections but they shall remain in effect it being the legislative intent that these sections regarding signage shall stand notwithstanding the invalidity of any part.

5.04.00. TEMPORARY SIGNS

5.04.01 Scope

Notwithstanding anything to the contrary in the City's Land Development Code or in any other ordinance or code provision of the City, the provisions of this subchapter 5.04 shall govern the regulation of temporary signs, and take precedence over any other provisions that pertain to temporary signs unless specifically exempted or excepted herein.

5.04.02 Findings of Fact

The City Commission finds that the location and maintenance of temporary signs affects the public health, safety, and general welfare of the people of this community, and that in order to preserve and enhance the city as a desirable community in which to live and do business, a pleasing, visually attractive environment is of foremost importance. The city commission further finds that the regulation of temporary signs within the city is a highly contributive means by which to achieve this desired end, and that uncontrolled and unlimited temporary signs would degrade the aesthetic attractiveness of the natural and manmade attributes of the community and thereby undermine the economic value of tourism, visitation and permanent economic growth.

5.04.03 Purpose and Intent

It is the purpose of this section to promote the public health, safety and general welfare through reasonable, consistent and non-discriminatory standards for temporary signs. The temporary sign regulations in this subchapter are not intended to censor speech or to regulate viewpoints, but instead are intended to regulate the secondary effects of speech, and especially insofar as those secondary effects may adversely affect aesthetics and traffic and pedestrian safety. It is the intent of the city commission that the temporary sign regulations shall provide uniform sign criteria which regulate the size, height, number and placement of signs in a manner that is compatible to the residential, coastal and historic scale and character of the city, and which place the fewest possible restrictions on personal liberties, property rights, commerce, and the free exercise of Constitutional rights while achieving the city's goal of creating a healthy, safe and attractive environment that does not contain excessive clutter and visual distraction in rights-of-way and adjacent properties, the surrounding natural coastal environment, historic district and residential neighborhoods. These sign regulations have been prepared with the intent of enhancing the visual environment of the city and promoting its continued well-being, consistent with the most recent pronouncements by the United States Supreme Court regarding the regulation of temporary signage, and are further intended to:

A. Encourage the effective use of signs as a means of communication in the city;
B. Maintain and enhance the aesthetic environment and the city's ability to attract sources of economic development and growth;
C. Improve pedestrian and traffic safety;
D. Minimize the possible adverse impact of temporary signs on nearby public and private property;
E. Lessen the visual clutter that may otherwise be caused by the proliferation, improper placement, illumination, animation, excessive height, and excessive size (area) of temporary signs which compete for the attention of pedestrian and vehicular traffic;
F. Allow temporary signs that are compatible with their surroundings, while precluding the placement of temporary signs that contribute to sign clutter or that conceal or obstruct adjacent land uses or signs;
G. Encourage and allow temporary signs that are appropriate to the zoning district in which they are located;

H. Regulate temporary signs in a manner so as to not interfere with, obstruct the vision of or distract motorists, bicyclists or pedestrians;
I. Preserve, conserve, protect, and enhance the aesthetic quality and scenic beauty of all zoning districts of the city;
J. Protect property values by precluding to the maximum extent possible temporary signs that create a nuisance to the occupancy or use of other properties as a result of their size, height, illumination, brightness, or movement; and
K. Enable the fair and consistent enforcement of these temporary sign regulations.

5.04.04 Definitions

The following definitions are applicable to section 5.04.00.

A. *Sign*. The term "sign" shall mean any surface, fabric, device or display which bears lettered, pictorial or sculptured matter, including forms shaped to resemble any human, animal or product designed to convey information to the public and is visible from an abutting property, from a public street, sidewalk or right-of-way, or from a body of water. The term "sign" shall include all structural members. A sign shall be construed to form a single unit. In cases where matter is displayed in a random or unconnected manner without organized relationship of the components, each such component shall be considered a single sign. The term "sign" shall not include: artwork, holiday or seasonal decorations, cemetery markers, or machinery or equipment signs.

B. *Temporary sign*. The term "temporary sign" shall mean any sign that is not a permanent sign, and shall include a sign formerly or commonly known as a temporary election sign, a temporary political sign, a temporary free expression sign, a temporary real estate sign, a temporary directional sign, a temporary construction sign, a temporary grand opening sign, or any other temporary sign unless otherwise provided herein. The term "temporary sign" shall not include any substitution of message on an existing lawful sign or sign structure.

5.04.05 Criteria Required for Temporary Signs

The criteria for temporary signs are set forth in **Table 5.04.05** below. A temporary sign is unlawful if it does not meet the criteria established for the zoning district in which the sign is located.

Table 5.04.05 Temporary Signs Design Standards and Limitations

ZONING DISTRICTS	R-E, R1-G, R-1, RLM, R-2, R-3, OT-1, OT-2	MU-1, C-1, C-2, I-1, I-A, I-W, W-1, PI-1	MU-8, C-3, CON, REC
Maximum Number of Signs Per Parcel [1]	8	4	4
Maximum Sign Area [2]	6 sf.	32 sf.	16 sf.
Sign Height Maximum for a Freestanding Sign[3]	5 ft.	5 ft.	5 ft.
Sign Height Maximum for a Wall Sign (inclusive of a Window Sign)	15 ft.	15 ft.	15 ft.
Minimum Sign Setback for Ground Signs[4]	3 ft.	3 ft.	3 ft.
Minimum Spacing from any Other Sign (Temporary Sign or a Permanent Sign [5])	15 ft.	15 ft.	15 ft.
Aggregate Maximum of Surface Area Allocated for All Sign Messages [6]	96 sf.	256 sf.	128 sf.

[1] The number of temporary commercial signs per parcel shall be no more than two.

[2] The square footage limitation is per side for a back-to-back sign. For example, a 6 square foot limitation means that there is a limit of 6 square feet of surface area per side of a back-to-back sign, and an aggregate limit of 12 square feet is allowed if the sign is a back-to-back temporary sign.

[3] Not applicable to signs displayed on flagpoles.

[4] Minimum sign setbacks are measured from the edge of the property line. Setbacks do not apply to wall signs. And, as set forth in Section 5.04.06 all temporary signs are prohibited on public property.

[5] Not applicable to signs displayed on flagpoles.

[6] There is no limit to the number of separate messages that may appear on the allowable surface(s) of any temporary sign. The aggregate maximum of surface area allowed is subject to the other limitations or circumstances that may reduce the aggregate maximum of surface area that can be allocated.

5.04.06 Prohibition of Temporary Signs on Public Property

Other than government signs displaying government speech, temporary signs on public property are prohibited unless otherwise allowed within the LDC or the Code of Ordinances.

5.04.07 Duration for Display of Temporary Sign

If a temporary sign pertains to an event, the temporary sign shall be removed within and by no later than three days after the event is concluded. If a temporary sign does not pertain to an event, the temporary sign shall be removed within and by no later than thirty (30) days after being erected.

5.04.08 Display of Temporary Sign Requires Permission of Real Property Owner

A temporary sign on any parcel shall not be maintained if the placement of the same does not have the permission of the owner of the real property.

5.04.09 A Temporary Sign May Not Display Any Lighting and Must Remain Static

A temporary sign may not display any lighting or illuminations that flash, move, rotate, scintillate, blink, flicker, or vary in intensity or color.

5.04.10 A Temporary Sign May Not Incorporate Fluorescent Color or Exhibit Fluorescence

A temporary sign may not incorporate fluorescent color or exhibit fluorescence.

5.04.11 A Temporary Sign May Not Obstruct A Permanent Sign or The Vision Between Pedestrians and Vehicles

A temporary sign may not obstruct the view of a permanent sign as viewed from any public road, street or highway or any public sidewalk, and may not obstruct the vision between pedestrians and vehicles using the public right-of-way, including but not restricted to, those meeting intersection visibility requirements set forth in Section 7.01.08.

5.04.12 A Temporary Sign May Display Multiple Messages

A temporary sign may display multiple independent messages on any portion of the sign surface of a temporary sign.

5.04.13 A Temporary Sign is not Subject to Permitting

A temporary sign does not require a permit from the City.

5.04.14 Chapter 5 5.04.00 Not Intended to Regulate Interior Facing Signage

The City does not intend that Chapter 5 Section 5.04.00 regulate or be applicable to signage located in the interior of school yards, ball/play fields or similar uses where such signage is designed to face the interior of such location and is not designed to be viewed or seen from adjacent roadways.

6.00.00 GENERALLY

A. This chapter sets forth standards for special situations, including standards for telecommunications facilities, commerce parks, and large scale commercial development, as well as specific uses that are only permissible subject to supplemental standards.

B. Where there is a conflict between a standard applicable to the zoning district in which the use is located or an applicable overlay district and the supplemental standards set forth below, the more restrictive standard shall apply.

6.01.00 WIRELESS TELECOMMUNICATIONS FACILITIES NOT LOCATED IN CITY RIGHTS OF WAY.

It is the intent of the City to allow telecommunications towers or antennas in compliance with state and federal regulations. It is further the intent of the City to protect the public health, safety, and welfare through regulating the placement and design of permissible telecommunications towers and antennas. The City has adopted a Wireless Master Plan {MP) to provide long-term planning for an efficient and capable wireless telecommunications network throughout the city that promotes collocation and optimal new tower and base station locations to meet the current and future wireless telecommunications needs of the City's residents. businesses. industry and visitors. The MP minimizes negative visual impacts to preserve the character and viewsheds of the City and its natural surroundings. Together the MP and Ordinance promote responsible wireless network planning.

6.01.01 Purpose and Intent. The regulations and requirements of this section are intended to:

A. Promote the health, safety and general welfare of the citizens by regulating the siting of wireless facilities;
B. Accommodate the growth and demand for wireless communication services;
C. Provide for the appropriate location and development of wireless facilities within the City;
D. Recognize that the provision of wireless services may be an essential service within such land use categories as may be provided for under the Comprehensive Plan, subject to the limitations set forth in this ordinance;
E. Minimize adverse visual effects of wireless facilities through careful design, siting, landscape screening and innovative camouflaging techniques;
F. Encourage the location and collection of antennas on existing structures thereby minimizing new visual impacts and reducing the need for additional antenna support structures; and
G. Further the balance between the need to provide for certainty to the communications industry in the placement of wireless facilities and the need to provide certainty to the residents and citizens of Nassau City that the aesthetic integrity of the City will be protected from the proliferation of unnecessary antenna support structures.
H. Accommodate and facilitate the growing need and demand for wireless services while adopting and administering reasonable rules and regulations not inconsistent with state and federal law, including Section 337.401, *Fla. Stat.,* as it may be amended, the provisions of the Federal Telecommunications Act of 1996 and other federal and state law(s).

I. Protect the character of the City while meeting the needs of its citizens to enjoy the benefits of wireless facilities.
J. Prevent interference with the use of streets, sidewalks, alleys, parkways, public utilities, public views, and other public ways and places.
K. Protect against environmental damage, including damage to trees. Minimize the placement, frequency, and density of new wireless facilities in ROW for public safety purposes, including vehicular and non-vehicular access and circulation, sight lines, as well as aesthetics. Therefore, the City strongly encourages the siting of new wireless facilities on existing base stations and towers or on new base stations and towers outside the ROW wherever possible.
L. Preserve the unique character of City neighborhoods by promoting use of City property for new wireless facility placement and managing design and location through contractual lease provisions in addition to regulatory authority.
M. Utilize underground utilities wherever possible to maintain viewshed throughout the City.

6.01.02 Definitions For Communication Facilities NOT located in a City ROW

The following definitions apply EXCLUSIVELY to communication facilities NOT located within a City ROW and are applicable in connection with all subsections of this Section 6.01.00. The following words, terms and phrases, when used in the subsections below shall have the meanings ascribed to them in this subsection (6.01.02), except where the context clearly indicates a different meaning. Words not otherwise defined in this subsection shall be given the meaning as defined in Section 7.01.02(D), and if not defined therein, shall be given the meaning as defined in the Communications Act of 1934, 47 USC 151 et seq., as amended by the Telecommunications Act of 1996 (collectively, the "Communications Act"), and, if not defined therein, as defined by Section 365.172, *Fla. Stat*. or another applicable state statute; and, if not defined therein, be construed to mean the common and ordinary meaning.

Abandoned. Any wireless communication facility not in continued use for a period of one hundred eighty (180) consecutive days.

Amateur radio tower. Any tower used for amateur radio transmissions consistent with the Complete FCC U.S. Amateur Part 97 Rules and Regulations" for amateur radio towers.

Antenna structure registration (ASR) number. The registration number as required or listed by the FAA and FCC.

Applicable codes. Uniform building, fire, electrical, plumbing, or mechanical codes adopted by the International Code Council (ICC) or local amendments to those codes enacted solely to address threats of destruction of property or injury to persons, or local codes or ordinances adopted to implement this subsection. The term includes objective design standards adopted by ordinance or that may require reasonable spacing requirements concerning the location of ground-mounted equipment. The term includes objective design standards adopted by ordinance that may require a wireless facility to meet reasonable location context, color and concealment requirements; however, such design standards may be waived by the City upon a showing that the design standards are not reasonably compatible for the particular location of a wireless facility or that the design standards

impose an excessive expense. A waiver shall be considered by the Board of Adjustment within 60 days from the date of application.

Application. **A request submitted by an applicant to the City for a permit to install a new wireless facility or collocate a wireless facility.**

Base station. **A structure or equipment at a fixed location that enables Commission-licensed or authorized wireless communications between user equipment and a communications network. The term does not encompass a tower as defined in this subsection or any equipment associated with a tower.**

- **A. Equipment associated with wireless communications services such as private, broadcast and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul; and**
- **B. Radio transceivers. antennas. coaxial or fiber optic cable, regular and backup power supplies. and comparable equipment, regardless of technological configuration (including Distributed Antenna Systems and small-wireless networks); and**
- **C. Any structure other than a tower that, at the time the application is filed under this section, supports or houses equipment described in this definition that has been reviewed and approved under the applicable zoning or siting process, or under another City regulatory review process, even if the structure was not built for the sole or primary purpose of providing such support; and**
- **D. The term does not include any structure that, at the time the relevant application is filed with the State or local government under this section that does not support or house any equipment described in these definitions.**

Breakpoint technology**. The engineering design of a monopole wherein a specified point on the monopole is designed to have stresses concentrated so that the point is at least five percent (5%) more susceptible to failure than any other point along the monopole so that in the event of a structural failure of the monopole, the failure will occur at the breakpoint rather than at the base plate, anchor bolts, or any other point on the monopole.**

Broadcast facility**. A communications facility licensed by the Federal Communications Commission Media Bureau to transmit information on the AM, FM or Television spectrum to the public.**

Cellular on wheels (COW). **A temporary wireless facility, typically located on a trailer that can be erected/extended to provide short term, high volume communications services to a specific location.**

Collocate or collocation. **To install, mount, maintain, modify, operate, or replace one or more wireless facilities on, under, within, or adjacent to a tower, base station, wireless support structure or utility pole. The term does not include the installation of an initial wireless facility on a tower, base station, utility pole or wireless support structure.**

Concealed. **A tower, base station, ancillary structure, or equipment compound that is not readily identifiable as a wireless facility and that is designed to be aesthetically compatible with existing and proposed building(s) and uses on a site or in the neighborhood or area. There are two types of concealed facilities, a base station (defined above), or a concealed tower.**

***Concealed tower*. A tower which looks like something else that is common in the geographic region such light standard or flagpole with a flag that is proportional in size to the height and girth of existing structures in the area.**

***Distributed antenna system (DAS)*. A DAS system consists of: (1) a number of remote communications nodes deployed throughout the desired coverage area, each including at least one antenna for transmission and reception; (2) a high capacity signal transport medium (typically fiber optic cable) connecting each node to a central communications hub site; and (3) radio transceivers located at the hub site (rather than at each individual node as is the case for small cells) to process or control the communications signals transmitted and received through the antennas, DAS systems can be either outdoor or indoor.**

***Distributed antenna system (DAS) hub*. Ancillary equipment usually contained in a shelter or other enclosure which does not have any wireless transmission or receive equipment contained therein but is utilized in the deployment and operation of wireless DAS receive/transmit infrastructure that is located elsewhere.**

***Development area*. The area occupied by a communications facility including areas inside or under an antenna-support structure's framework, equipment cabinets, ancillary structures, and/or access ways.**

***Dual purpose facility*. A structure that is built or an existing structure that is modified to serve two primary purposes one of which is a wireless facility. Examples include but are not limited to decorative light poles, banner poles, church steeples, clock towers and public art.**

***Discontinued*. Any tower without any mounted transmitting and /or receiving antennas in continued use for a period of 180 consecutive days.**

***Eligible facilities request*. A request for a modification of an existing wireless tower or base station that involves collocation of new transmission equipment or replacement of transmission equipment but does not include a substantial modification.**

***Eligible support structure*. Any tower or base station as defined in this section, provided that is existing at the time the relevant application is filed under this section.**

***Equipment compound*. The area surrounding the ground-based wireless facility including the areas inside or under a tower's framework and ancillary structures such as equipment necessary to operate the antenna on the structure that is above the base flood elevation including cabinets, shelters, pedestals, and other similar structures.**

***Equipment cabinet*. Any structure above the base flood elevation including cabinets, pedestals, and other similar structures and used exclusively to contain radio or other equipment necessary for the transmission or reception of wireless communication signals.**

***Equipment shelter*. A self-contained building, made of permanent materials such as steel or concrete, which contains all electronic ancillary equipment and normally including a generator.**

***Existing*. A constructed tower or base station is existing for purposes of this section if it has been reviewed and approved under the applicable zoning or siting process, or under another State or local regulatory review process, provided that a tower has not been reviewed and approved because it was not in a zoned area when it was built, but was lawfully constructed, is existing for purposes of this definition.**

***Feed lines*. Cables or fiber optic lines used as the interconnecting media between the transmission/receiving base station and the antenna.**

***Federal Aviation Administration (FAA)*. The division of Department of Transportation of the United States government that inspects and rates civilian aircraft and pilots, enforces the rules and air safety, and installs and maintains air-navigation and air traffic-control facilities.**

***Federal Communications Commission (FCC)*. An independent United States government regulatory agency that oversees all interstate and international communication and maintains standards and consistency among ever-growing types of media and methods of communication while protecting the interests of both consumers and businesses.**

***Lattice tower*. A non-concealed self-supporting tapered style of tower that consists of vertical and horizontal supports with multiple legs and cross bracing, and metal crossed strips or bars to support antennas.**

***Macrocell*. A wireless communications facility that exceeds the defined standards of a small wireless facility.**

***Monopole tower*. A non-concealed style of freestanding tower consisting of a single shaft usually composed of two (2) or more hollow sections that are in turn attached to a foundation. This type of tower is designed to support itself without the use of guy wires or other stabilization devices. These facilities are mounted to a foundation that rests on or in the ground or on a building's roof. All feed lines shall be installed within the shaft of the structure.**

***Neutral host antenna*. An antenna or an antenna array designed and utilized to provide services for more than one (1) wireless provider, or a single wireless provider utilizing more than one (1) frequency band or spectrum, for the same or similar type of services.**

***Node*. A single location as part of a larger antenna array which can consist of one or multiple antennas, such as part of a DAS network antenna array.**

***Non-concealed*. A wireless communication tower or base station that is readily identifiable as such type of equipment and structure.**

***Over the air reception devices (OTARD)*. Devices which are limited to either a "dish" antenna one meter (39.37 inches) or less in diameter designed to receive direct broadcast satellite service, including direct-to-home satellite service, or to receive or transmit fixed wireless signals via satellite, or an antenna that is one meter or less in diameter and is designed to receive video programming services via broadband radio service (wireless cable), or to receive or transmit fixed wireless signals other than via satellite or an antenna that is designed to receive local television broadcast signals.**

***Public safety communications equipment*. All communications equipment utilized by a public entity for the purpose of ensuring the safety of the citizens of the City and operating within the frequency range of 145 MHz through 155 MHz, 445 MHz through 475 MHz and 700 MHz through 1,000 MHz and any future spectrum allocations at the direction of the FCC.**

***Radio frequency emissions*. Any electromagnetic radiation or other communications signal emitted from an antenna or antenna-related equipment.**

***Radio frequency interference (RFI)*. Any electromagnetic radiation or other communications signal that causes reception or transmission interference with another electromagnetic radiation or communications signal.**

***Radio frequency propagation analysis*. Computer modeling to show the level of signal saturation in a given geographical area.**

***Replacement*. A modification of an existing tower to increase the height, or to improve its integrity, by replacing or removing one (1) or several tower(s) located in proximity to a proposed new tower in order to encourage compliance with this section or improve aesthetics or functionality of the overall wireless network.**

***Satellite earth station*. A single or group of parabolic or dish antennas mounted to a support device that may be a pole or truss assembly attached to a foundation in the ground, or in some other configuration, including the associated separate equipment cabinets necessary for the transmission or reception of wireless communications signals with satellites.**

***Search ring*. An area designated by a wireless infrastructure provider or wireless services provider for a new base station or tower, produced in accordance with accepted principles of wireless engineering. The area identifies where a base station or tower must be located in order to meet service objectives of the wireless service provider using the base station or tower.**

***Site*. For towers other than towers in the public ROW, the current boundaries of the leased or owned property surrounding the tower and any access or utility easements currently related to the site, and, for other eligible support structures (base stations), further restricted to that area in proximity to the structure and to other transmission equipment already deployed on the ground.**

***Stanchion*. A vertical support structure generally utilized to support exterior lighting elements.**

***Streamlined processing*. Expedited review process for collocations required by the federal government (Congress and/or the FCC) for wireless communication facilities.**

***Structure*. Anything constructed or erected, the use of which required permanent location on the ground, or attachment to something having a permanent location on the ground, including advertising signs.**

Substantial change pursuant to 47 USC §1455. **Means a modification or collocation to an eligible support structure if it meets any of the following criteria:**

- **A. For towers other than towers in the public ROW, it increases the height of the tower by more than ten percent (10%) or by the height of one additional antenna array with separation from the nearest existing antenna not to exceed twenty (20) feet, whichever is greater; for all other eligible support structures (including towers within a ROW and base stations), it increases the height of the structure by more than ten percent (10%) or ten (10) feet, whichever is greater; or**
- **B. Changes in height should be measured from the original support structure in cases where deployments are or will be separated horizontally, such as on buildings' rooftops; in other circumstances, changes in height should be measured from the dimensions of the tower or base station, inclusive of originally approved appurtenances and any modifications that were approved prior to the passage of the 47 USC §1455; or**
- **C. For towers other than towers in the public ROW, it involves adding an appurtenance to the body of the tower that would protrude from the edge of the tower more than twenty (20) feet of the width of the tower structure at the elevation of the appurtenance, whichever is greater; for other eligible support structures (including towers within a ROW and base stations) it involves adding an appurtenance to the body of the structure that would protrude from the edge of the structure by more than six (6) feet; or**
- **D. For any eligible support structure (tower or base station), it involves installation of more than the standard number of new equipment cabinets for the technology involved, but not to exceed four (4) cabinets; or for towers in the public ROW and base stations, it involves installation of any new equipment cabinets on the ground if there are no pre-existing ground cabinets associated with the structure, or else involves installation of ground cabinets that are more than ten (10) percent larger in height or overall volume than any other ground cabinets associate with the structure; or**
- **E. It entails any excavation or deployment outside the current site; or**
- **F. It would defeat the concealment elements of the eligible support structure; or**
- **G. It does not comply with conditions associated with the siting approval of the construction or modification of the eligible support structure or base station equipment, provide however that this limitation does not apply to any modification that is non-compliant only in a manner that would not exceed the thresholds identified in A-F above.**

Substantial Change pursuant to F.S. Section 365.172(13). **Means a modification or collocation to a tower or base station where:**

- **A. The collocation does not increase the height of the existing structure to which the antennas are to be attached, measured to the highest point of any part of the structure or any existing antenna attached to the structure;**
- **B. The collocation does not increase the ground space area, otherwise known as the compound, if any, approved in the site plan for equipment enclosures and ancillary facilities;**
- **C. The collocation consists of antenna, equipment enclosures, and ancillary facilities that are of a design and configuration consistent with any applicable structural or aesthetic design requirements and any requirements for location on the structure, but not prohibitions, or**

D. restrictions on the placement of additional collocations on the existing structure or procedural requirements, other than those authorized by the City's land development regulations in effect at the time of the collocation application; and

E. The collocation consists of antenna, equipment enclosures, and ancillary facilities that are of a design and configuration consistent with all applicable restrictions or conditions, if any, that do not conflict with sub-paragraph (3) and were applied to the initial antenna placed on the structure and to its accompanying equipment enclosures and ancillary facilities and, if applicable, applied to the structure supporting the antenna.

***Temporary wireless facility*. A temporary tower or other structure typically located on a trailer that provides interim short-term communications when permanent WF equipment is unavailable or offline. A Temporary wireless facility meets an immediate demand for service in the event of emergencies and/or public events where the permanent wireless network is unavailable or insufficient to satisfy demand.**

***Toll*. The time for review and processing an application is effectively stopped pending the resolution of some condition{s).**

***Tower*. Any structure build for the sole or primary purpose of supporting any "FCC licensed: {Can this be a defined term?) It is already defined or authorized antennas and their associated facilities. including structures that are constructed for wireless communications services including. but not limited to. private. broadcast. and public safety services. as well as unlicensed wireless services and fixed wireless services such as microwave backhaul. and the associated site. The tower can be concealed or non-concealed.**

***Tower base*. The foundation, usually concrete, on which the tower and other support equipment are situated. For measurement calculations. the tower base is that point on the foundation reached by dropping a perpendicular from the geometric center of the tower.**

***Tower height*. The vertical distance measured from the grade line to the highest point of the tower, including any antenna, lighting or other equipment affixed thereto.**

***Transmission equipment*. Equipment that facilitates transmission of any Commission-licensed or authorized wireless communication service including, but not limited to, radio transceivers, coaxial or fiber-optic cable. and regular and backup power supply. The term includes equipment associated with wireless communications services including but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul.**

***Variance*. A modification of the terms of this Section where a literal enforcement of this Section would result in an unnecessary site-specific hardship and shall be reviewed and may be granted by the Board of Adjustment.**

***Wireless facility (WF)*. Equipment at a fixed location which enables wireless communications between user equipment and a communications network, including radio transceivers, antennas, wires, coaxial or fiber-optic cable or other cables, regular and backup power supplies, and comparable equipment, regardless of technological**

configuration and equipment associated with wireless communications. The term includes small wireless facilities. The term shall not include:

A. The structure or improvements on, under, within or adjacent to the structure on which the equipment is collocated; or

B. Wireline backhaul facilities; or

C. Coaxial or fiber-optic cable that is between wireless structures or utility poles or that is otherwise not immediately adjacent to or directly associated with a particular antenna.

6.01.03 Exemptions.

The following wireless facilities are exempt from the development standards of this Section and subject only to the completion of a Wireless Facility Application and issuance of a building permit for applicable codes; notwithstanding any other provisions:

- **A. A government-owned communications facility, upon the declaration of a state of emergency by federal, state, or local government, and a written determination of public necessity by the City designee; except that such facility must comply with all federal and state requirements. No communications facility shall be exempt from the provisions of this division beyond the duration of the state of emergency.**
- **B. A government-owned communications facility erected for the purposes of installing antenna(s) and ancillary equipment necessary to provide communications for public health and safety.**
- **C. A temporary wireless facility, upon the declaration of a state of emergency by federal, state, or local government, or determination of public necessity by the City and approved by the City; except that such facility must comply with all federal and state requirements. The WF may be exempt from the provisions of this division up to sixty (60) calendar days after the duration of the state of emergency.**
- **D. Over the air reception devices ("OTARD") as that term is defined by the Federal Communications Commission, including satellite earth stations that are one (1) meter (39.37 inches) or less in diameter in all residential zoning districts and two (2) meters or less in all other zoning districts. OTARD devices are exempt provided that same do NOT require the construction of a tower or other structure, which height exceeds 12 feet above the residential structure of the consumer who desires to receive fixed wireless services, satellite transmissions, or over the air reception of television signals.**
- **E. Routine maintenance of small wireless facilities.**
- **F. Replacement of small wireless facilities with small wireless facilities that are the same size or smaller.**
- **G. An Amateur Radio Tower that is used exclusively for non-commercial purposes that is less than 65 feet in height.**

6.01.04 Applicability for All Non-Exempt WF.

- **A. Towers and base stations existing prior to the enactment of this Section or permitted prior to the enactment of this Section shall be allowed to continue to operate provided they met the requirements set forth by the City at the time of final inspection; not including any towers that are currently in violation of this Section and any pre-existing Tower Ordinance of the City.**
- **B. This Section its subparts and the related terms in Tables 6.01.00(1) and 6.01.00(2) shall apply to the development activities of communications service, wireless**

infrastructure and wireless services providers for equipment including the installation, construction, or modification of all macrocell, small wireless and micro wireless facilities and related ancillary equipment on concealed and non-concealed existing and new wireless communication facilities on public and private land and in the City's and other ROW (except small wireless facilities located in a City ROW, which are regulated pursuant to Section 7.01.02 below, and micro wireless facilities which are attached to a wire between two utility poles within a ROW, which are exempt from regulation) including but not limited to:

1. **Non-commercial. amateur radio station antennas and towers greater than 65 feet in height.**
2. **Temporary wireless facility a/k/a Cell on Wheels (COW).**
3. **Existing towers and base stations.**
4. **Collocation on existing towers and base stations.**
5. **Expansion of existing towers and base stations.**
6. **Replacement towers and base stations.**
7. **Proposed new towers and base stations.**
8. **Broadcast towers and antenna.**

6.01.05 Building Code Requirements. Permits and Fees.

A. **Building Code Requirements. All wireless facility infrastructure(s) shall be constructed and maintained in conformance with all applicable code requirements.**
B. **Permits and Fees Required. All wireless facility infrastructure(s) shall be subject to completion of a wireless facility application. the development standards described on the WF application and in this Section and all legally permissible permit and review fees.**
   1. **The City uses fees set by the City Commission (which shall not be considered a license. franchise or privilege tax) payable to City of Fernandina Beach to cover the necessary processing cost of all wireless facility applications.**
   2. **The City reserves the right to conduct a supplemental third-party review on all wireless facility applications subject to the same timeframe for initial reviews and approvals for any Permit subject to the following. Based on the results of the supplemental technical review. the approving authority may require changes to the applicant's application or submittals.**
   3. **The supplemental technical review may address any or all of the following:**
      a. **The accuracy and completeness of the application and any accompanying documentation.**
      b. **The applicability of analysis techniques and methodologies.**
      c. **The validity of conclusions reached.**
      d. **Whether the proposed communications facility complies with the applicable approval criteria set forth in these codes.**
      e. **Other engineering or technical items deemed by the City to be relevant to determining whether a proposed communications facility complies with the provisions of these codes and not within the knowledge of City staff.**

6.01.06 WF Siting Preferences, Zoning Matrix, Review Types and Approvals Required.

A. **Siting Preference. As a result of citizen participation during the Wireless Facility Master Planning Process the siting of new wireless facilities of any type shall be in accordance with the siting preferences in the WF Use Table 6.01.00(1) below. The**

most preferred option is listed first as number one (1) and the least preferred option last as number five. Where a lower-ranked alternative is proposed. the applicant must demonstrate through relevant information why the higher ranked options are not technically feasible, practical, or justified given the location of the proposed facilities. The applicant must provide this information in its application for the application to be considered complete.

B. Zoning Matrix. Applications and Review Matrix for Approvals. No new wireless facility shall be constructed in the City unless all the applicable approvals listed in the table below are secured.

C. Types of Reviews/Approvals Required. No new wireless facility shall be constructed in the City unless all of the applicable approvals listed in the Table below are secured.

Table 6.01.06(A): Wireless Facility Sitting Preferences

	Wireless facility Type	Macrocell Tower Examples	Macrocell Base Station Example	Small Wireless Facility Tower Examples	Small Wireless Facility Base Station Examples	Standards
1	Collocation on existing tower or base station, located on: a. City owned land b. Other publicly owned land c. Private property*			No examples at this time of the new infrastructure		Outside ROW: 6.01.00(H), (P) and additionally (Q) for small wireless facilities
2	New concealed base station, located on: a. City owned land b. Other publicly owned land c. Private property*	Not Applicable		Not Applicable		Outside ROW: 6.01.00(H), (S) and additionally (Q) for small wireless facilities
3	New non-concealed base station, located on: a. City owned land b. Other publicly owned land c. Private property*	Not Applicable		Not Applicable		Outside ROW: 6.01.00(H) and (G)
4	New concealed dual purpose tower or utility pole or replacement of a non-concealed tower or utility pole with a new concealed dual purpose tower or utility pole a. On City owned land b. On other publicly owned land c. On private property* d. In public ROW		Not Applicable		Not Applicable	Inside ROW: 7.01.02(d), (e and (f) Outside ROW: 6.01.00(H) and (U) and in (R) if in a single-family residential zoning district
5	New non-concealed replacement monopole with another non-concealed monopole tower or utility pole, located on: a. City owned land b. Other publicly owned land c. Private property* d. In public ROW		Not Applicable		Not Applicable	Inside ROW: 67.01.02(d), (e) and (f) Outside ROW: 6.01.00(H) and (S) and (U)

***The sub preferences for private property shall be:**

1. Non-residential Districts

2. Multi-family residential districts (where permitted),

3. Single-family residential districts (where permitted) shall only be on lots not used for single family homes. Examples include, but are not limited to parks, open space, schools, religious institutions, and public safety facilities.

6.01.07 Provisions for All Wireless Facilities.

A. Abandonment (Discontinued Use).
   1. The owner of a wireless facility must notify the City when an approved facility is decommissioned and no longer in use.
   2. Wireless facility towers, antennas, and the equipment compound shall be removed, at the tower or base station owners' expense, within 180 days of cessation of use, unless the abandonment is associated with a replacement as provided in the 'Replacement" section of this Ordinance, in which case the removal shall occur within ninety (90) days of cessation of use.
   3. A tower or base station owner wishing to extend the time for removal or reactivation shall submit an application stating the reason for such extension. The City may extend the time for removal or reactivation up to sixty (60) additional days upon a showing of good and unique cause. If the tower or antenna is not removed within this time, the City may give notice that it will contract for removal within thirty (30) days following written notice to the tower or base station owner. Thereafter, the City may cause removal of the tower with costs being borne by the tower or base station owner.
   4. Upon removal of the wireless facility tower, antenna, and equipment compound, the development area shall be returned to its natural state and topography and vegetated consistent with the natural surroundings or consistent with the current uses of the surrounding or adjacent land at the time of removal, excluding the foundation, which does not have to be removed.

B. Interference with Public Safety Communications. In order to facilitate the regulation, placement, and construction of antenna, and to ensure that all parties are complying to the fullest extent possible with the rules, regulations, and/or guidelines of the FCC, each wireless provider shall agree in a written statement (as part of the application process) to the following:
   1. Compliance with "Good Engineering Practices" as defined by the FCC in its rules and regulations.
   2. Compliance with FCC regulations regarding susceptibility to radio frequency interference, frequency coordination requirements, general technical standards for power, antenna, bandwidth limitations, frequency stability, transmitter measurements, operating requirements, and any and all other federal statutory and regulatory requirements relating to radio frequency interference (RFI).
   3. In the case of an application for collocated wireless facility, the applicant, together with the wireless provider, must use their best efforts to provide a composite analysis of all users of the site to ensure that the applicant's proposed facilities will not cause radio frequency interference with the City's public safety communications equipment and will implement appropriate technical measures, as described in antenna element replacements, to ensure prevention of such interference.
   4. Whenever the City has encountered radio frequency interference with its public safety communications equipment, and has reasonable cause to believe that such interference has been or is being caused by one or more wireless facility antenna arrays, the following steps shall be taken:
      a. The City will provide written notification to all wireless service providers operating in the City of possible interference with the public safety communications equipment and upon receipt of such notifications, the wireless providers shall use their best efforts to cooperate and coordinate

with the City and among themselves to investigate and mitigate the interference, if any, utilizing the procedures set forth in the joint wireless industry-public safety "Enhanced Best Practices Guide", released by the FCC in Appendix D of FCC 04-168 (released August 6, 2004), including the "Good Engineering Practices", as may be amended or revised by the FCC from time to time in any successor regulations.

b. If any wireless provider fails to cooperate with the City in complying with the owner's obligations under this section or if there is a determination of radio frequency interference with the City's public safety communications equipment, the wireless provider who failed to cooperate and/or the wireless provider which caused the interference shall be responsible for reimbursing the City for all costs associated with ascertaining and resolving the interference, including but not limited to any engineering studies obtained by the City to determine the source of the interference. For the purposes of this subsection, failure to cooperate shall include failure to initiate any response or action as described in the "Enhanced Best Practices Guide" within twenty-four (24) hours of City's notification.

C. Signage. All wireless facilities shall be clearly identified with the following information:
   1. Name plate signage shall be provided in an easily visible location to include: FCC ASR registration number (if applicable); site owner's name, site identification number and/or name, phone number of contact to reach in event of an emergency or equipment malfunction, any additional security and safety signs.
   2. If more than 220 voltage is necessary for the operation of the facility and is present in a ground grid or in the tower, signs located every twenty (20) feet and attached to the fence or wall shall display in large, bold, high contrast letters, minimum height of each letter four (4) inches, the following: "HIGH VOLTAGE - DANGER."
   3. No outdoor advertising signage is permitted at the wireless facility.

D. Lighting. Lighting on wireless facility towers and base stations shall not exceed the Federal Aviation Administration (FAA) minimum standards. All other lighting shall be subject to the following:
   1. Any lighting required by the FAA must be of the minimum intensity and number of flashes per minute {i.e., the longest duration between flashes) allowable by the FAA. Dual lighting standards are required with strobe during daytime and red flashing lights at night unless prohibited by the FAA.
   2. Lights shall be filtered or oriented so as not to project directly onto surrounding property or ROW, consistent with FAA requirements.

E. Structural Integrity: The entire tower or base station and all appurtenances shall be designed pursuant to the design requirements of ASCE 7, including wind speed design requirements, and tower loading/wind design requirements of Electronic Industries Association/Telecommunications Industry Association (EIA/TIA) 222-G, Series II or Series III (as applicable), including any subsequent modification to those specifications.
   1. Grading shall be minimized and limited only to the area necessary for the new tower and equipment.
   2. A signed statement from the wireless facility owner or owner's agent stating that the radio frequency emissions comply with FCC standards for such emissions as set forth in 47 CFR 1.1 307, 1.310, 2.091 or 2.093, as applicable

(Report and Order. ET Docket 93-62 (Guidelines for Evaluating the Environmental Effects of Radiofrequency Radiation), 11 FCC Red 15123 (1996); Second Memorandum Opinion and Order and Notice of Proposed Rule Making, ET Docket 93-62 (WT Docket 97- 192), 1 2 FCC Red 13494 (1997). In addition, any collocation, modification or upgrade application shall contain an analytical report that confirms that following installation, the composite facility will remain in compliance with FCC standards as stated in OET-65.

3. All communications towers and antennas shall be maintained in good condition and in accordance with all standards in this section. No additions, changes or modifications shall be made except in conformity with the standards of Section 6.06.00.
4. At all times, each wireless facility not located in a City right of way shall be insured for liability in the amount of not less than $5,000,000.00.

F. Certificate of Insurance.

At all times during the use or occupancy of the public rights-of-way, including any time during placement or maintenance of communications facilities, the Permittee shall obtain, pay all premiums for, and maintain satisfactory to the City, insurance coverage insuring the Permittee and naming the City, its officers, boards, council. Council members, agents and employees as additional insureds: workers' compensation and employer liability insurance to meet all requirements of Florida law and commercial general liability insurance with respect to the construction, operation and maintenance of the communications facilities, and the conduct of registrant's business in the City, in the minimum amounts of:

1. $1,000,000.00 in any one accident for bodily injury, personal injury or death, property damage;
2. $500,000.00 for personal injury to any one person;
3. $250,000.00 for property damage in any one accident;
4. Business automobile liability insurance valid in the State of Florida which policy limit shall be in an amount not less than $1,000,000.00 combined single limit, including bodily injury and property damage covering owned, leased, hired and non-owner vehicles.
5. Workers' Compensation valid in the State of Florida which policy limit shall be in an amount not less than the statutory limit for Workers' Compensation.
6. Employer's liability insurance valid in the State of Florida which policy limit shall be in an amount not less than $1,000,000.00 each accident for employer's liability.
7. All insurance providers used shall be admitted and duly authorized to do business in the State of Florida and shall have been assigned by A. M. Best Company a minimum Financial Strength Rating of "A" and a minimum Financial Size Category of "IX" (i.e., a size of $250,000,000.00 to $500,000,000.00 based on capital, surplus, and conditional reserve funds). Insurance policies and certificates issued by non-admitted insurance companies are not acceptable. All liability policies shall name the City, its council members, officers, boards, agents and employees as additional insureds with respect to any covered liability arising out of the placement or maintenance of communications facilities in the public rights-of-way or other activities under this Chapter. Each communications services provider shall furnish annually to the City certificates showing proof of all required insurance coverage. All liability coverage must be in occurrence form and in accordance with the limits specified. Claims made policies are not acceptable. No

insurance policy shall be canceled, nor shall the occurrence or aggregate limits set forth herein be reduced, until the City has received at least 30 days' advance written notice by registered, certified or regular mail of any cancellation, intent not to renew or reduction in policy coverage. Each communications services provider shall be responsible for notifying the City of such cancellation, intent not to renew or reduction in coverage. All certificate(s) of insurance, including all endorsements and riders, evidencing insurance coverage shall be submitted to the City within 30 days after the date of registration with the City in order for a communications services provider to obtain a permit required for construction in the public rights-of-way. Each communications services provider shall, in the event of any such notice described above, obtain, pay all premiums for, and file with the City, written evidence of the issuance of replacement policies within 30 days following receipt by the City or the communications services provider of such notice.

8. **Nothing contained in this Chapter shall limit a communications service provider's liability to the City to the limits of insurance certified or carried.**
9. **A communications services provider may satisfy the insurance requirements of this Chapter by providing documentation of self-insurance that, in the sole discretion of the City Manager, demonstrates incontrovertibly the adequacy to defend and cover claims of any nature that might arise from the placement and maintenance of facilities in the public ROW. The communications services provider must be authorized as a self-insurer by the Department of Insurance under the laws of the State of Florida.**

G. **Towers shall be located and designed to ensure minimal aesthetic impact. Aesthetic impact shall take into consideration, but not be limited to, the amount of the tower structure that can be viewed from surrounding residential zoning districts, designated scenic roadways, and historic districted in eligible or to be listed in the Nation Register of Historic Places. Consideration shall also include the distance to any residential zoning district, any design factors that mitigate negative aesthetic impact, landscaping or intervening visual buffers, existing character of surrounding area, or other visual options proposed by the applicant.**
H. **Towers shall be located and designed to ensure compatibility. Compatibility determinations shall take into consideration the degree to which the tower structure is designed and located to be compatible with the nature and character of the other land uses and /or with the environment of the surrounding neighborhood.**

6.01.08 Additional Provisions for all Wireless Facilities Outside City ROW

A. **Parking. One parking space is required for each tower development area located outside of the ROW. The space shall be provided within the leased area, or equipment compound or the development area as defined on the site plan.**
B. **Buffers and landscaping shall be per City Land Development Code Chapter 4.**

6.01.09 Additional Provisions for Non-Exempt Temporary Wireless Facilities and Cellular on Wheels.

A. **Development Standards.**
   1. **Proof of notification of installation or construction from the FAA, if applicable.**

2. Height shall be less than 120'.
3. It does not involve any excavation (or excavation where prior disturbance exceeds proposed excavation by at least 2 feet).
4. Description of proposed location, including type of temporary structure, type of electrical service to be utilized, description of temporary necessity requiring Temporary WF.
5. Duration of proposed cellular on wheel facility shall not exceed 14 calendar days.

B. Approval Process. Administrative approval by the City will be considered through the application of a temporary use permit.

6.01.10 Additional Provisions for Collocation on any Existing Tower or Base Station

A. Development Standards. For collocation on any tower or base stations (concealed or non-concealed) outside the City ROW, additions or modifications may not exceed the definition of substantial change under federal or state definitions set forth above.
B. Application review timeframes.
   1. A collocation application entitled to expedited streamlined processing pursuant to Section 6409 of the Middle-Class Tax Relief and Job Creation Act of 2012 (47 USC §1455(a)) shall be deemed complete unless the City provides written notice to the applicant that the submission is incomplete (a "notice of incompleteness") within 30 calendar days of application submission (or within some other mutually agreed upon timeframe). Notice of incompleteness will be in writing and will identify specifically the deficiencies in the application which, if cured, would make the application complete. Upon notice of incompleteness, the timeline for a decision will be tolled until the applicant re-submits to correct such deficiency. The City will, within ten (10) calendar days of re-submission, notify the applicant of continuing deficiencies or the application will be deemed complete. The timeline for a decision will be likewise tolled during the additional re-submission deficiency period until the second resubmission.
   2. Other collocation applications entitled to expedited streamlined process review pursuant to F.S. 365.172(13) will be deemed complete unless the City provides a written notice of incompleteness to the applicant within 20 business days of submission (or within some other mutually agreed upon timeframe). Notice of incompleteness will identify specifically the deficiencies in the application which, if cured, would make the application complete. Upon notice of incompleteness, the timeline for a decision will be tolled until the applicant re-submits to correct such deficiency. The City will, within twenty (20) business days of re-submission, notify the applicant of continuing deficiencies or the application will be deemed complete. The timeline for a decision will be likewise tolled during the additional re-submission deficiency period until the second resubmission.
C. Approval Process. Administrative approval by the City will be considered through the application of a building permit.

6.01.11 Additional Provisions for New Small Wireless Facilities Outside City ROWs.

A. Development Standards:
   1. Concealed and Non-concealed New Base Stations.
      a. Small wireless facilities shall be no larger in size than specified in the definition for these facilities in Section 7.01.02.
      b. Concealed new base station antenna and concealed wireless equipment associated with the facility is preferred over new non-concealed base stations.
      c. The top of the attached wireless facility antenna shall not be more than ten (10) feet above the existing or proposed building or structure.
      d. Concealed WF antennas, feed lines and ground related equipment shelters/cabinets shall be designed to architecturally match the façade, roof, wall, and/or structure on which they are affixed so that they blend with the existing structural design, color, and texture.
      e. A photo rendering shall be provided of the WF that depicts aesthetic features including, but not limited to, the use of colors, concealment, screening, and buffering, with a before and after installation exhibit.
      f. When a new base station is located on a nonconforming building or structure, the existing permitted nonconforming setback shall prevail.
      g. To the extent possible, base stations should be located outside of the floodplain. Where it is not possible, placement shall comply with Fernandina Beach's floodplain management ordinance and Land Development Code regarding floodplain and wetlands.
      h. Base Stations cannot be located within wetlands, wetland transitional areas, or wetland buffers.
   2. New Concealed Dual-Purpose Tower
      a. Small wireless facilities will be no larger in size than specified in the definition for these facilities in Section 7.01.02.
      b. Concealment design is required to minimize the visual impact of wireless communication facilities. For this reason, all new towers must be a concealed dual-purpose wireless facility.
      c. All new small wireless towers must be designed with considerations of height, scale, color, texture and architectural design of the buildings where the new facility is proposed. All cables, conduits, electronics and wires must be enclosed within the structure. A photo rendering must be provided of the proposed antenna that depicts a before and after installation exhibit.
      d. Neutral host antenna, smart poles and prefabricated multi-tenant dual-purpose type facilities are preferred. Applicants may seek a waiver of this requirement if they can demonstrate that there is no commercially available single antenna system, smart pole or multi-tenant dual purpose tower that can accommodate multiple wireless service providers.
      e. Height: The total height including antenna must not exceed thirty-five (35) feet.
      f. Wireless equipment (other than the antenna) associated with the facility to be located in accordance with the descending order of preference:
         i. Concealed on the ground away from the tower;
         ii. Concealed at the base of the tower;
         iii. Non-concealed on the tower;

iv. Non-concealed on the ground next to the tower or away from tower to be determined on a case-by-case basis depending on sidewalk and ROW width.

B. Approval Process.

1. The City's staff designee will review and provide comment on any deficiencies in wireless facility applications in writing within thirty (30) days of submission or within some other mutually agreed upon time frame. The comment notice will identify the deficiencies in the WF application, which, if cured, would make the application complete. The WF application will be deemed complete on resubmission if the resubmitted materials cure the original deficiencies indicated by the City.
2. If the City does not approve or deny the application following resubmission then the application will be deemed approved within ninety (90) business days from the time the application is deemed complete or a mutually agreed upon time frame between the City and the applicant.
3. The City may deny an application on the basis that it does not meet any of requirements below:
   a. The City's applicable codes;
   b. Local code provisions or regulations that concern public safety, reasonable and nondiscriminatory concealment requirements;
   c. Historic preservation requirements.
4. If the City denies an application. then the City will:
   a. Document the basis for a denial, including the specific code provisions on which the denial was based;
   b. Send the documentation to the applicant on or before the day the City denies an application. The applicant may cure the deficiencies identified by the City and resubmit the application within thirty (30) days of the denial without paying an additional application fee. The City will approve or deny the revised application within thirty (30) days of the date on which the application was resubmitted. Any subsequent review shall be limited to the deficiencies cited in the prior denial.

6.01.12 Additional Provisions for New Macrocell Base Station Facilities

A. Development Standards.

1. Concealed new base stations are preferred over new non-concealed base stations per the siting preference matrix in Table 6.01.06(A).
2. The top of the attached wireless facility antenna must not be more than ten (10) feet above the existing or proposed building or structure.
3. Concealed WF antennas, feed lines and ground related equipment shelters/cabinets must be designed to architecturally match the façade, roof, wall, and/or structure on which they are affixed so that they blend with the existing structural design, color, and texture.
4. A photo rendering must be provided of the WF that depicts aesthetic features including, but not limited to, the use of colors, concealment, screening and buffering, with a before and after installation exhibit.
5. When a new wireless facility base station is located on a nonconforming building or structure. the existing permitted nonconforming setback will prevail.

B. Application Review Timelines.

1. City planning staff designee will review and provide comment on any deficiencies in new base station WF applications in writing which shall be postmarked to the applicant within twenty (20) business days of submission or within some other mutually agreed upon time frame. The notice shall identify the deficiencies in the wireless facility application, which if cured, would make the application complete. The WF will be deemed complete on resubmission if the resubmitted materials cure the original deficiencies indicated by City.
2. If the City does not respond in writing to the applicant of an eligible facility collocation request within the specified timeframe, the application shall be deemed complete.
3. The City will issue a written decision approving or denying an application request within ninety (90) business days of such application being deemed complete.
4. Approval Process. Administrative approval by the City.

6.01.13 Additional Provisions for Outdoor Distributed Antenna System Hub

A. Development Standards.
   1. Setbacks for outdoor distributed antenna system hub shelters/buildings must meet the setback standards of the underlying zoning district.
   2. Equipment shelters/building must be architecturally compatible with the general character of the neighborhood and historic character, if applicable.
   3. Equipment shelters/buildings/cabinets must be screened with materials and colors consistent with the surrounding backdrop and/or textured to match the existing structure. The use of foliage and vegetation around ground equipment may be required based on conditions of the specific area where the ground equipment is to be located.

B. Application Review Timelines.
   1. The City will review and provide comment on any deficiencies in new outdoor DAS hub applications in writing which will be postmarked to the applicant within twenty (20) business days of submission or within some other mutually agreed upon time frame. The notice will identify the deficiencies in the wireless facility application, which if cured, would make the application complete. The WF will be deemed complete on resubmission if the resubmitted materials cure the original deficiencies indicated by City.
   2. If the City does not respond in writing to the applicant of an eligible facility collocation request within the specified timeframe, the application will be deemed complete.
   3. The City will issue a written decision approving or denying an application request within ninety (90) business days of such application being deemed complete.

C. Approval Process. Administrative approval by the City

6.01.14 Additional Provisions for New Concealed Dual-purpose Towers and New Nonconcealed Replacement Monopoles.

A. Macroce/1 Facility Development Standards
   1. Visibility Concealed
      a. New concealed wireless facility towers must be designed to match adjacent structures and landscapes with specific design considerations such as

architectural designs, height, scale, color, and texture with existing structures and landscapes on the property.

b. New antenna mounts must be concealed and match the concealed WF tower.

c. In residential zoning districts. new concealed wireless facility towers will only be permitted on lots whose principal use is not single-family residential, such as schools, churches, synagogues, fire stations, parks, and other public property.

2. Visibility Non-concealed - Replacement monopoles only will be allowed in the City.
3. Replacement - any replacement tower must achieve either the same level of visibility or less than the tower that it is replacing. A replacement for a concealed wireless facility must be concealed. A replacement of a non-concealed tower must be either concealed or a monopole type tower.
4. Height.
   a. Where permitted new concealed towers in non-single-family districts shall be limited to 120'.
5. Setbacks. New towers will be subject to the setbacks described below:
   a. A concealed wireless facility may be constructed using breakpoint design technology (see 'Definitions'), in which case the minimum setback distance will be equal to 110 percent (110%) of the distance from the top of the structure to the breakpoint level of the structure, or the minimum side and rear yard requirements, whichever is greater. Certification by a registered professional engineer licensed by the State of Florida of the breakpoint design and the design's fall radius must be provided together with the other information required herein from an applicant. (For example, on a 100-foottall monopole with a breakpoint at eighty (80) feet, the minimum setback distance would be twenty-two (22) feet (110 percent of twenty (20) feet, the distance from the top of the monopole to the breakpoint) in addition to the minimum side or rear yard setback requirements for that zoning district.
   b. For a concealed wireless facility tower not constructed using breakpoint design technology, the minimum setback distance will be equal to the height of the proposed WF.
   c. Replacement monopole towers will be subject to the minimum setback distance imposed upon the tower being replaced.
6. Equipment cabinets and Equipment Shelters. Electronic equipment must be contained in either (a) equipment cabinets or (b) equipment shelters. Equipment cabinets must not be visible from pedestrian and ROW views. Equipment cabinets may be provided within the principal building on the lot, behind a screen on a rooftop, or on the ground within the fenced-in and screened equipment compound.
7. Fencing. All equipment compounds must be enclosed with an opaque fence or masonry wall in residential zoning districts and in any zoning district when the equipment compound adjoins a public ROW. Alternative equivalent screening may be approved through the site plan approval process.
8. Equipment Compound. The fenced-in compounds must not be used for the storage of any excess equipment or hazardous materials. No outdoor storage yards will be allowed in a tower equipment compound. The compound must not be used as habitable space.

9. Balloon Test.
   a. New concealed and non-concealed wireless facility towers must be configured and located in a manner that will minimize adverse effects including visual impacts on the landscape and adjacent properties.
   b. A balloon test will be required subsequent to the receipt of the photo simulations in order to demonstrate the proposed height and concealment solution of the WF. The applicant must arrange to raise a colored balloon no less than three (3) feet in diameter at the maximum height of the proposed tower, and within twenty-five (25) horizontal feet of the center of the proposed tower. The applicant must meet the following for the balloon test:
   c. Applicant must inform the City and abutting property owners in writing of the date and times, including alternative date and times, of the test at least fourteen (14) days in advance.
   d. A 3' by 5' sign with lettering no less than 3 inches high stating the purpose of the balloon test must be placed at closest major intersection of proposed site.
   e. The date, time, and location, including alternative date, time and location, of the balloon test must be advertised in a locally distributed paper by the applicant at least seven (7) but no more than fourteen (14) days in advance of the test date.
   f. The balloon must be flown for at least four (4) consecutive hours during daylight hours on the date chosen. The applicant must record the weather, including wind speed during the balloon test.
   g. Re-advertisement will not be required if inclement weather occurs.
10. WFs must be engineered and constructed for collocation as follows: 2 tenants between 80 and 100 feet, for 3 tenants between 101 and 120 feet in height, and for 4 tenants above 120 feet in height.
11. Grading must be minimized and limited only to the area necessary for the new WF and equipment compound.
12. All landscaping will be subject to Chapter 4 of the Land Development Code.

6.01.15 Additional Submittal Requirements for Applications

A. Development Standards.
   1. Simulated photographic evidence of the proposed tower and antenna appearance from any and all residential areas within 1.500 feet and vantage points approved by the City including the facility types the applicant has considered and the impact on adjacent properties including:
      a. Overall height.
      b. Configuration.
      c. Physical location.
      d. Mass and scale.
      e. Materials and color.
      f. Illumination.
      g. Architectural design.
   2. Applicant must provide a written statement of proposed facility compliance with all applicable FCC rules and regulations.
   3. A map of the same search ring submitted and used by the applicant's site locator with a statement confirming the same.

4. A map indicating applicant's existing RF signal propagation. a map indicating applicant's proposed new radio frequency (RF) signal propagation. and a map indicating the proposed facility's coverage area. which provides sufficient justification for the requested support structure height.
5. A map indicating applicant's existing RF signal propagation and a map indicating applications proposed new RF signal propagation.
6. A statement from the applicant providing information regarding justification for the proposed new WF facility.
7. An affidavit by a radio frequency engineer demonstrating compliance with the Permitted Use List (Table 6.01.06(A)) of this Section and providing the qualifications of affiant. If a lower ranking alternative is proposed the affidavit must address why higher ranked options are not technically feasible, practical, and/or justified given the location of the proposed communications facility.
8. Statement as to the potential visual and aesthetic impacts of the proposed tower and equipment on all adjacent residential zoning districts.
9. Written statement by a registered professional engineer licensed by the State of Florida specifying the design structural failure modes of the proposed facility. if applicable.
10. A radio frequency propagation plot indicating the coverage of existing antenna sites. coverage prediction. and design radius, together with a certification from the applicant's radio frequency engineer that the proposed facility's coverage or capacity potential cannot be achieved by any higher ranked alternative such as a concealed facility, attached facility, replacement facility, collocation, or new tower and reasons why such alternative structures are unacceptable.
11. All other documentation. evidence. or materials necessary to demonstrate compliance with the applicable approval criteria set forth in this Ordinance.
12. Prior to issuance of a building permit, proof of FAA compliance with Subpart C of the Federal Aviation Regulations, Part 77, and "Objects Affecting Navigable Airspace", if applicable.
13. Proof of compliance with National Environmental Policy Act and National Historic Preservation Act.

B. Application Review Timelines:
   1. City planning staff designee will review and provide comment on any deficiencies in new conditional use permit applications in writing which will be postmarked to the applicant within twenty (20) business days of submission or within some other mutually agreed upon time frame.
   2. The City will issue a written decision approving or denying a conditional use permit application request within ninety (90) business days of such application being deemed complete.

C. Approval Process: A new conditional use permit application for a new macrocell facility in this section will be reviewed and a decision rendered by the Board of Adjustment within ninety (90) business days of receipt of the application, subject to any applicable tolling for application deficiencies and resubmissions, so long as the applicant demonstrates that the facilities will be used, immediately upon completion of construction, to provide wireless communication services. or within such other mutually agreed upon time.

6.01.16 Additional provisions for Broadcast towers outside the City ROWs (subject to definitions in Sec. 6.01.00(C)).

A. Development Standards.

1. **Broadcast Tower Determination of Need. No new broadcast towers will be permitted unless the applicant demonstrates that no existing broadcast tower can accommodate the applicant's proposed use.**
2. **The zoning lot on which a broadcast facility is located must have a minimum gross land area of one hundred fifty thousand (150,000) square feet.**
3. **Height. Height for broadcast towers will be evaluated on a case-by-case basis; the determination of height contained in the applicant's FCC Form 351/352 construction permit or application for construction permit and an FAA determination of no hazard (FAA Form 7460 /2) will be considered prima facie evidence of the tower height required for such broadcast facilities.**
4. **Setbacks. New broadcast towers and anchors must be setback a minimum of five hundred (500) feet from any single-family dwelling unit on same zone lot; and a minimum of 1 foot for every 1 foot of tower height from all adjacent lots of record.**
5. **Equipment Cabinets. Except for AM broadcast towers. cabinets must not be visible from pedestrian views.**
6. **All landscaping will be subject to Chapter 4 of the Land Development Code.**
7. **Fencing. All broadcast facility towers, AM antenna(s) towers, and guy anchors must each be surrounded with an anti-climbing fence compliant with applicable FCC regulations.**
8. **Equipment Compound. The fenced in compounds must not be used for the storage of any excess equipment or hazardous materials. No outdoor storage yards will be allowed in a tower equipment compound. The compound must not be used as habitable space.**

B. Application Review Timelines.

1. **City planning staff designee will review and provide comment on any deficiencies in new broadcast tower applications in writing which will be postmarked to the applicant within thirty (30) calendar days of submission or within some other mutually agreed upon time frame.**
2. **The City will issue a written decision approving or denying an application request within one hundred fifty (150) calendar days of such application being deemed complete.**

C. Approval Process. A new broadcast tower application will be reviewed, and a decision rendered by the Board of Adjustment as applicable within one hundred and fifty (150) days of receipt of the application. subject to any applicable tolling for application deficiencies and resubmissions. so long as the applicant demonstrates that the facilities will be used, immediately upon completion of construction, to provide AM/FM/TV Broadcast services, or within such other mutually agreed upon time.

6.01.17 Appeals

A. Appeals from Administrative Review Process Denials. Appeals from the Administrative Review Process will be heard by the Board of Adjustment and subject to provisions in Chapter 11 of the City Land Development Code.

B. Appeals from Board of Adjustment. Appeals of BOA decisions will go directly to circuit court.

6.01.18 Severability.

If any section, subsection, paragraph, sentence, clause or phrase of Section 6.01.00 of this Land Development Code

6.02.00 SUPPLEMENTAL STANDARDS FOR SPECIFIC USES

6.02.01 Generally

Specific uses permissible in each zoning district are identified in Table 2.03.02. Uses permissible subject to supplemental standards are identified by the letter "S." These uses are permissible only in compliance with the standards applicable to the zoning district and any applicable overlay district, as set forth in Chapter 4, and the additional standards set forth in Section 6.02.00.

6.02.02 Adult Entertainment Establishments

A. Adult entertainment businesses are allowable in the I-1 zoning district, subject to the standards set for the district and the supplemental standards set forth in this section.
B. The separation requirements set forth herein shall apply to the named uses whether located within or outside of City boundaries. Measurement shall be from the closest property line of the adult entertainment business to the nearest point of the parcel on which the named use is located.
C. No adult entertainment business shall be located within 750 feet of the following existing uses and establishments:
    1. Any other adult entertainment business;
    2. A residential use;
    3. A lot zoned for residential use;
    4. A lot with a land use designation of residential on the Future Land Use Map in the Comprehensive Plan;
    5. A religious use or facility;
    6. An educational institution; or
    7. A park or recreation facility.
D. No adult entertainment business shall be located within 200 feet of a commercial establishment that sells or dispenses alcohol for consumption on the premises.
E. An existing adult entertainment business shall not be permitted to expand its operation or enlarge the establishment when such expansion or enlargement results in a location that does not comply with Sections 6.02.02(C) and (D).
F. Advertisements, displays, or other promotional materials visible to the public from the exterior of adult entertainment business shall be considered signs subject to the regulations set forth in Section 5.03.00.
G. All building openings, entries, windows, doors, or other apertures for adult bookstores, adult motion picture theaters, and adult mini-motion picture theaters shall be located, covered, or screened in such a manner as to prevent a view into the interior from any public area; however, such openings shall not be painted out, blacked out, or otherwise obscured in a garish manner.
H. The entire interior of an adult bookstore, or an adult mini-motion picture theater which has separate projection or viewing booths or areas, shall have a minimum illumination of at least two (2) watts per square foot of floor area while open, and every portion of the interior shall be readily visible at all times to the clerk or other supervisory personnel from the counter or other regular station.
I. If separate booths, rooms, cubicles, or other similar areas are provided for use by clients of the adult entertainment business, such areas shall not have doors or other solid

enclosures, but shall only have a thin, opaque cloth curtain which may be opened from the exterior at all times and which does not extend any closer than three (3) feet to the surface of the floor.

6.02.03 Asphalt or Concrete Plants

A. Asphalt or concrete plants are allowable in the I-1 and I-A zoning district, subject to the standards of the zoning district and the standards of this section.

B. The site design standards for an asphalt or concrete plant are as set forth in Table 6.02.03(B).

Table 6.02.03(B). Standards for Asphalt or Concrete Plants

Development Feature	Standard
Minimum setback ▪ **From property zoned or used for commercial, office, or industrial purposes** ▪ **From property zoned or used for residential, conservation, recreation, or public purposes**	 **100 feet** **200 feet**
Fence required ▪ **Type** ▪ **Minimum height** ▪ **Maximum height** ▪ **Orientation**	 **Masonry or other solid fence, other than wood** **6 feet** **8 feet** **Finished side outward**
Buffer requirements	**Double the number of plants required in the buffer as set forth in Section 4.05.00**
Access requirements	**Arterial or collector street**
Noise, smoke, and odor abatement	**Sufficient to ensure compatibility with residential, conservation, recreation, or public properties within 500 feet**

6.02.04 Auto Motorized Vehicle Sales, New or Used

A. A motorized vehicle agency is a permissible use in the MU-8 zoning category as subject to the following supplemental standards.
   1. Motorized vehicle agencies must be located within a totally enclosed building.
   2. Exterior lighting may be used only to illuminate a building and its grounds for safety purposes. Lighting is not to be used as a form of advertising. Lighting must be directed and shielded to avoid direct illumination of a lot zoned or used for residential purposes.
   3. Except fronting S. 8th Street, no motorized vehicle will be displayed or stored outdoors.
   4. Motorized vehicle preparation, mechanical or automobile body or other support services may be offered onsite and are permissible when located in a completely enclosed building.

6.02.05 Automobile Repair, Garage, or Body Shop

A. An Automobile Repair, Garage or Body Shop is a permissible in the MU-8 zoning category as subject to the following supplemental standards.
   1. 1. All services performed by an automobile repair establishment, including repair, painting, and body work activities, shall be performed within a completely enclosed building which may contain overhead doors.
   2. No inoperative vehicles or used vehicle parts shall be stored outside of a fully enclosed building.
      a. Inoperative vehicles may be parked for a period of no greater than 30 days.

3. Outdoor storage of materials and equipment shall be prohibited.
4. No merchandise shall be stored or displayed outside a building except those on moveable display racks that must be stored inside after hours of operation.
5. Vehicle service bays shall be oriented away from 8th street.

6.02.06 Bed and Breakfast Inns

A. A bed and breakfast inn is allowable in R-3, OT-2, MU-1, MU-8, and C-3 zoning districts, subject to the standards of the zoning district and the supplemental standards set forth below.

B. The owner of the bed and breakfast inn shall reside in the inn. However, where an individual owns two (2) or more such facilities, owner-occupancy shall be required in one (1) inn.

C. Density shall not exceed the permissible residential density as set forth in Table 4.01.01. Each two (2) bedrooms or lodging rooms shall be the equivalent of one (1) residential dwelling unit. Where the equivalent number of residential dwellings contains a fraction, the number shall be rounded up to the next whole number. All bedrooms shall be counted in the determination of density, whether occupied by the owner, the owner's family in residence in the bed and breakfast inn, or guests.

D. A private bath shall be provided for each guest room.

E. The building in which the bed and breakfast inn is located shall be substantially similar in design, appearance, and character to residential dwellings located within a 200-foot radius. Distance shall be measured from all property lines of the lot on which the bed and breakfast inn is located.

F. A bed and breakfast inn located within the Historic District shall comply with the standards for the Historic District Overlay.

G. Parking shall meet the following standards:
   1. One (1) space per bedroom shall be provided off-street; and
   2. All required parking spaces shall be located to the side or rear of the principal structure.

H. One (1) sign identifying the bed and breakfast inn is permissible, subject to the following standards:
   1. The maximum sign area shall not exceed eight (8) square feet;
   2. The sign shall have color, design, and materials consistent with the color, design, and materials of the bed and breakfast inn;
   3. The sign shall not be illuminated; and
   4. The sign shall be only a monument sign or a building mounted sign.

6.02.07 Business Services

A. Business Services such as printing, copying, and mailing are allowable in the C-2, I-1 and I-A zoning districts, subject to the standards of the zoning district.

B. Business Services such as printing, copying, and mailing are allowable in the C-1 and C-3, and MU-8 zoning districts, subject to the following standard:
   1. Lithography is prohibited.

6.02.08 Cemeteries

A. New cemeteries are allowable in the PI-1 zoning district, subject to the site design standards of the district.

B. Cemeteries are allowable as an accessory use to a religious facility, subject to the site design standards of the zoning district in which the facility is located and the specific supplemental standards in this section.

C. Site design requirements are set forth in Table 6.02.08(C)

Table 6.02.08(C). Standards for Cemeteries

Development Feature	Standard
Minimum land area	
▪ **When located on the same site as a religious facility**	**½ acre**
▪ **Freestanding**	**1 acre**
Minimum setback for burial plots and columbaria	**30 feet from any property line**
Maximum height for columbaria	**8 feet**
Minimum setbacks for structures, storage, materials, equipment, or interment lots	**Same setback as principal structure**
▪ **When located on the same site as a religious facility**	**20 feet**
Minimum buffer requirements	
▪ **When located on the same site as a religious facility**	**No additional buffer**
▪ **Freestanding**	**As set forth in Section 4.05.05(B), but not less than a buffer "B"**

D. Location requirements
   1. A cemetery shall not be located in a wetland, 100-year floodplain, floodway, or flood hazard area.
   2. All new cemeteries shall be located at least 150 feet from a potable water well or 500 feet from a public potable water wellhead.
   3. Adequate off-street waiting space shall be provided for funeral processions such that no vehicle stands or waits in a public right-of-way.

6.02.09 Clubs, Lodges, Community Centers, and Public Recreation Buildings

A. Clubs, lodges, community centers, and public recreation buildings are allowable in the C-1, C-2, C-3, MU-8, I-1, I-A, PI-1 and W-1 zoning districts, subject to the standards of the zoning district.

B. Clubs, lodges, community centers, and public recreation buildings are allowable in the R-1, RLM, R-2, R-3, and MU-1 zoning districts subject to the standards of the zoning district and the supplemental standards set forth below.

C. Site design standards for clubs, lodges, community centers, and public recreation buildings are set forth in Table 6.02.09(C).

Table 6.02.09(C). Standards for Clubs, Lodges, Community Centers, and Public Recreation Buildings in R-1, RLM, R-2, R-3, and MU-1

Development Feature	Standard
Lot size	
▪ **Minimum area**	**10,000 square feet**
▪ **Maximum area**	**40,000 square feet**
Access	**Arterial or collector street**
Parking requirements	
▪ **Location**	**Side or rear of the principal structure**
▪ **On-street parking**	**Shall not count toward meeting parking requirements**
Outdoor recreation facilities associated with the club, lodge, community center, or public recreation building	
▪ **Buffer requirements**	**Double the buffer otherwise required**
▪ **Outside lighting**	**Prohibited**
▪ **Loudspeakers or paging**	**Prohibited**

Development Feature	Standard
systems	

6.02.10 Craft Distillery or Small-scale Wineries and Breweries

A. A Craft Distillery or Small-scale Wineries or Breweries are allowable in the MU-1, C-1, C-2 and C-3 zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.

A. Except otherwise provided for in Chapter 565 of the Florida Statues, a Craft Distillery must comply with the current statue as stated: A craft distillery may only ship, arrange to ship, or deliver any of its distilled spirits to consumers within the state in a face-to-face transaction at the distillery property. However, a craft distiller licensed under this section may ship, arrange to ship, or deliver such spirits to manufacturers of distilled spirits, wholesale distributors of distilled spirits, state or federal bonded warehouses, and exporters.

B. The site design standards for a Craft Distillery, Small-Scale Winery, or Small-Scale Brewery are set forth in Table 6.02.10(B).

Table 6.02.10(B). Standards for Craft Distillery, Small-Scale Wineries or Breweries in MU-1, C-1, C-2, and C-3 Zoning Districts

Development Feature	Standard
Access	**Access from a collector or arterial street is required and an appropriate and adequate access for distributor's vehicles must be contained on premise or on a premise under control of the business.**
Buffer	**As set forth in Section 4.05.05, but not less than buffer "B" from any residentially zoned or used property**
Exterior lighting	**Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses**
Parking lots	**Designed to avoid glare from vehicle lights onto property that is zoned or used for residential uses**
Distribution Activity	• **Distribution is limited per Florida Statute 565.03(c)** • **Distribution is limited to reasonable business hours**

6.02.11 Cremation Facilities

A. Cremation facilities for human remains are allowed as an accessory use to a Funeral Home in districts where Funeral Homes are permitted.

B. The cremation facility and funeral home shall be in compliance with all state and local licensing requirements and shall comply with all state and federal regulations including but not limited to air quality standards, testing and reporting (Reference FAC 62-210.310(5)(c) and 62-296.401(5)).

C. Cremation facilities shall comply with yard requirements for the principal structure. Additionally, buffers of no less than type 'C' as set forth in 4.05.05(B) shall be provided where a cremation facility is visible from a residential use or zoning district.

D. Cremation services shall only be operated under that same ownership and in conjunction with the Funeral Home business to which it is an accessory use.

6.02.12 Day Care Centers

A. Day care centers are allowable in the C-2, C-3 and PI-1 zoning districts, subject to the standards of the zoning district.

B. Day care centers are allowable in the MU-1 and C-1 zoning districts subject to the standards of the zoning district and the supplemental standards set forth below.
C. Playgrounds shall be provided in a size and type required by State standards. The following additional standards shall apply:
    1. The playground shall be located in the rear yard. Where site characteristics prevent location of a playground in the rear yard, and adequate space is available in the side yard, a playground may be located in the side yard. Location of a playground in the front yard is prohibited.
    2. The playground shall be fully fenced. The fence shall meet the standards set forth in Section 5.01.10.
    3. The playground shall be located not closer than twenty-five (25) feet to any adjacent property zoned for residential use.
D. The site design standards for day care centers are set forth in Table 6.02.10(D).

Table 6.02.12(D). Standards for Day Care Centers in MU-1 and C-1

Development Feature	Standard
Minimum lot area	**21,780 square feet**
Buffer requirements	**As set forth in Section 4.05.05, but not less than a buffer "B"**
Parking requirements ▪ **Location** ▪ **On-street parking**	 **Side or rear of the principal structure** **Shall not count toward meeting parking requirements**
Access requirements	**Separate off-street drop off area required**

6.02.13 Dining with Dogs – Outdoors Only

A. Dining with dogs in outdoor spaces is authorized pursuant to Florida Statute §509.233 and is allowable in outdoor spaces of public food service establishments in the OT-2, MU-1, C-1, C-2, C-3, MU-8, I-1, I-A, I-W, and W-1 zoning districts, subject to the standards of the zoning district. Public food service establishments and patron are defined by Florida Statute §509.013.
B. In order to protect the health, safety, and general welfare of the public, a public food service establishment is prohibited from having any dog on its premises unless it possesses a valid permit issued in accordance with this section. Service animals are excluded from the permitting requirement.
C. The permit application shall have an associated application fee of Forty Dollars ($40.00) as may be amended from time to time by the City's fee schedule.
D. Applications for a permit under this section shall be made to the Community Development Department on a form provided for such purpose. The application shall include the following information, in addition to any other information deemed reasonably necessary by the Community Development Department in order to implement and enforce the provisions of this section:
    1. The name, location, and mailing address of the public food service establishment.
    2. The name, mailing address, and telephone contact information of the permit applicant.
    3. A diagram and description of the outdoor area to be designated as available to patrons' dogs, including dimensions of the designated area; a depiction of the number and placement of tables, chairs, and restaurant equipment, if any; the entryways and exists to the designated outdoor area; the boundaries of the designated area and of other areas of outdoor dining not available for patrons' dogs; any fences or other barriers; surrounding property lines and public right-of-way, including sidewalks and common pathways; and such other information

reasonably required by the Community Development Department. The diagram or plan shall be accurate and to scale but need not be prepared by a licensed design professional.

4. A description of the days of the week and hours of operation that patrons' dogs will be permitted in the designated outdoor area.
5. Permission from the property owner if the public food service establishment is a tenant.
6. A copy of the public food service establishment's commercial general liability insurance.

E. The following requirements for dog dining at public food service establishments as defined by the state are:

1. All public food service establishment employees shall wash their hands promptly after touching, petting, or otherwise handling dogs. Employees shall be prohibited from touching, petting, or otherwise handling dogs while serving food or beverages or handling tableware or before entering other parts of the public food service establishment.
2. Patrons in a designated outdoor area shall be advised that they should wash their hands before eating. Waterless hand sanitizer shall be provided at all tables in the designated outdoor area.
3. Employees and patrons shall be instructed that they shall not allow dogs to come into contact with serving dishes, utensils, tableware, linens, paper products, or any other items involved in food service operations.
4. Patrons shall keep their dogs on a leash at all times and shall keep their dogs under reasonable control.
5. Dogs shall not be allowed on chairs, tables or other furnishings.
6. All table and chair surfaces shall be cleaned and sanitized with an approved product between seating of patrons. Spilled food and drink shall be removed from the floor or ground between seating of patrons.
7. Accidents involving dog waste shall be cleaned immediately and the area sanitized with an approved product. A kit with the appropriate materials for this purpose shall be kept near the designated outdoor area.
8. A sign or signs reminding employees of the applicable rules shall be posted on premises in a manner and place as determined by the Community Development Department.
9. A sign or signs reminding patrons of the applicable rules shall be posted on premises in a manner and place as determined by the Community Development Department.
10. A sign or signs shall be posted in a manner and place as determined by the Community Development Department that places the public on notice that the designated outdoor area is available for the use of patrons and patrons' dogs.
11. Dogs shall not be permitted to travel through the indoor or non-designated outdoor portions of the public food service establishment, and ingress and egress to the designated outdoor portions of the public food service establishment must not require entrance into or passage through any indoor area of the food establishment.
12. Additional policies as may be deemed necessary by the Community Development Department in order to protect the health, safety, and general welfare of the public.

F. A permit issued pursuant to this section shall not be transferred to a subsequent owner upon the sale of a public food service establishment but shall expire automatically upon the sale of the establishment. The subsequent owner shall be required to reapply for a permit pursuant to this section if the subsequent owner wishes to continue to accommodate patrons' dogs.

G. The applicant must submit a right-of-way permit application in addition to the dog dining permit application if the outdoor area designated for dogs includes City right-of-way.
H. The Community Development Department shall provide the Department of Business and Professional Regulation a copy of all approved applications and permits issued, as well as notice of any complaints received and subsequent response by the City.
I. All applications, permits, and other related materials must contain the Department of Business and Professional Regulation issued license number for each public food service establishment.
J. Signage required under this section is exempt from sign permitting requirements and may not be illuminated, limited to eight (8) feet tall, and may not exceed four (4) square feet.

6.02.14 Drug Store or Pharmacy

A. Drug stores and pharmacies are allowable in the C-1, C-2, I-1, I-A, MU-1 and W-1 zoning districts, subject to the standards of the zoning district.
B. Drug stores and pharmacies are allowable in the C-3 zoning district subject to the standards of the zoning district and the supplemental standards set forth below.
C. The maximum gross floor area for the ground floor is 5,000 square feet, except where the drug store or pharmacy is proposed to occupy an existing structure.

There shall be no drive-through windows associated with the establishment.

6.02.15 Gasoline Stations

A. A gasoline station is a permissible use in the MU-8 zoning category as subject to the following supplemental standards.
    1. Gasoline pumps and pump islands shall not be located so that any part of a vehicle being served will extend into any public right-of-way or private drive used for access or egress.
    2. Gasoline pumps and pump islands shall not be built within 20 feet of a property line.
    3. Landscape strip of at least 2 feet shall be required beside the 6 foot pedestrian access easement.
    4. Storage tanks shall be located below grade.
    5. Outdoor lighting shall be directed and shielded to avoid direct illumination of any street or any lot zoned or used for residential uses.
    6. No inoperative vehicles or used vehicle parts shall be stored outside of a fully enclosed building.
        I. Inoperative vehicles may be parked for a period of no greater than 30 days.
    7. Outdoor storage of materials and equipment shall be prohibited.
    8. No merchandise shall be stored or displayed outside a building except those on moveable display racks that must be stored inside after hours of operation.

6.02.16 Group Homes

A. Group homes are allowable in the following zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section: RE, R-1, R1-G, RLM, R-2, R-3, MU-1, MU-8, and C-3.
B. Group homes shall obtain an occupational license. All group homes shall comply with applicable local, State, or federal, physical plant and fire safety standards, and shall furnish proof of appropriate County, State, or federal licensure, as applicable, before issuance of a City occupational license.

C. Group homes shall be used only for the purpose of providing assistance or specialized care and may not be used for administrative or related office-type activities other than in support of the facility.
D. No counseling or other client service for non-residents is permissible.
E. A group home shall adhere to the following requirements as provided by Policy 3.05.06 of the City's Comprehensive Plan:
    1. Group homes of six (6) or fewer residents licensed as community residential homes by the Department of Children and Family Services (DCFS) shall be deemed a single-family unit, and shall be allowed in single-family or multi-family zoning districts, provided that such homes shall not be located within a radius of 1,000 feet of another existing duly licensed group home of six (6) or fewer residents.
    2. Group homes duly licensed by the DCFS as community residential care facilities which have from seven (7) to fourteen (14) unrelated residents operating as the functional equivalent of a family, including supportive staff as referenced in section 419.001, *F. S.*, shall be allowed in multi-family residential districts, unless the City finds that the proposed group home siting as proposed:
        a. Does not otherwise conform to existing zoning regulations applicable to other multi-family uses in the City;
        b. Does not meet applicable licensing criteria established and determined by the DCFS, including requirements that the group home be located to assure the safe care and supervision of all clients in the home; or
        c. Would result in an excessive concentration of community residential homes. A group home that is located within a radius of 1,200 feet of another existing community residential home in a multi-family zone shall be an over-concentration of such homes that substantially alters that nature and character of the area. A group home that is located within a radius of 500 feet of an area of single-family zoning substantially alters the nature and character of the area.
    3. All distance requirements cited in this subsection shall be measured from the nearest point of the existing group home or area of single-family zoning to the nearest point of the proposed group home.
    4. All sites for group homes shall contain requisite infrastructure including: potable water, adequate surface water management, an approved system of wastewater disposal, and an adequate system for solid waste collection and disposal. The sites shall also be free of safety hazards and all structures shall comply with the City's ordinances and applicable State laws, including applicable State licensing and program requirements.
F. Group homes shall provide a buffer "A," as set forth in Section 4.05.05.
G. On-site management shall be provided twenty-four (24) hours per day, seven (7) days per week.

6.02.17 Group Residential

A. Group Residential facilities are allowable in the following zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section: R-3, MU-1, MU-8, and C-3.
B. Group Residential facilities shall be used only for the purpose of providing housing to its residents and shall not be used to provide any personal care services or supervision to its residents.
C. Group Residential facilities shall be used only for the purpose of providing housing to its residents and shall not be used to provide any personal care services of supervision to its residents.

D. Group Residential facilities shall provide a buffer "A," as set forth in Section 4.05.05.
E. Group Residential facilities shall have a maximum occupancy restriction based on the findings of Fire Marshal's inspection.
F. Group Residential facilities shall provide one (1) off-street parking space for each two (2) occupants, based on maximum occupancy.

6.02.18 Hospitals

A. Hospitals are allowable in the PI-1 zoning district, subject to the standards of the zoning district and the supplemental standards set forth in this section.
B. The site design standards for hospitals are set forth in Table 6.02.18(B).

Table 6.02.18(B). Standards for Hospitals

Development Feature	Standard
Lots **Minimum area** **Minimum street frontage**	 **5 acres** **100 feet**
Height	**Maximum 60 feet**
Setback	**At least 500 feet from the property line of residentially zoned lots**
Access	**Collector or arterial street**
Buffer	**As set forth in Section 4.05.05, but not less than buffer "C"**
Exterior lighting	**Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses**
Parking lots	**Designed to avoid glare from vehicle lights onto property that is zoned or used for residential uses**
Signage	**Off-site signage is permissible**

C. Up to two (2) off-site signs are permissible, subject to the dimensional standards for free-standing signage. Such signage shall be limited to locations on arterial or collector streets at intersections which provide direct access to the hospital site. Signs may be located within the public right-of-way or on non-residentially zoned property with authorization from the property owner.

6.02.19 Liquor Stores, Lounges, and Bars

A. Liquor stores, lounges, and bars are allowable in the MU-1, C-1, and C-3 zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.
B. The site design standards for liquor stores, lounges, and bars are set forth in Table 6.02.19(B).

Table 6.02.19(B). Standards for Liquor Stores, Lounges, and Bars in MU-1, C-1, and C-3 Zoning Districts

Development Feature	Standard
Access	**Collector or arterial street**
Buffer	**As set forth in Section 4.05.05, but not less than buffer "B"**
Exterior lighting	**Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses**
Parking lots	**Designed to avoid glare from vehicle lights onto property that is zoned or used for residential uses**

6.02.20 Lodging Accommodations

A. Lodging accommodations are allowable in the C-2 and C-3 zoning districts, subject to the standards of the zoning district.
B. Lodging accommodations are allowable in the C-1 and I-A zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.
C. All exterior lighting shall be directed and shielded to avoid direct illumination of a lot zoned or used for residential, public, recreation, or conservation purposes.
D. Parking lots shall be designed to avoid glare from vehicle lights onto property that is zoned or used for residential, public, or conservation purposes as vehicles enter the parking lot and individual parking spaces.

6.02.21 Lumber and Building Supply

A. Lumber and building supply establishments are allowable in the I-1 and I-W zoning districts, subject to the standards of the zoning district.
B. Lumber and building supply establishments are allowable in the C-2 and I-A zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.
C. Outdoor storage of materials and supplies is permissible, subject to the following standards:
    1. Storage areas shall be fully enclosed;
    2. Storage areas shall not be used for retail sales; and
    3. Storage areas within fifty (50) feet of property zoned or used for residential purposes shall provide a masonry or solid non-wooden fence not less than six (6) feet and not more than eight (8) feet in height. The decorative, or finished, side of the fence shall face outward.
D. A minimum buffer "D" shall be provided, as set forth in Section 4.05.05.
E. The primary access to the lumber and building supply establishment shall be from an arterial street. Where the property has frontage on two (2) streets, one (1) secondary access may be allowed on a collector street. Access on any local street is prohibited.
F. All outside areas used for display, storage, or sale shall contain a dust-free surface.
G. All exterior lighting shall be directed or shielded to avoid illumination of adjacent properties.
H. Audio amplification systems, including, but not limited to, telephone loudspeakers or paging systems, shall be located to ensure that they cannot be heard on adjacent properties.
I. Required parking shall not be used for storage, seasonal sales, promotional sales, or other retail or wholesale activities. Required parking shall be used for parking purposes only.
J. Stored materials shall not be used for signage.

6.02.22 Marinas

A. Marinas are allowable in the PI-1, W-1 and I-W zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.
B. Marinas shall be located adjacent to existing channels and passes.
C. A marina shall provide parking for boat trailers and/or vehicle-trailer combinations. Fifty (50) percent of the required off-street parking vehicles may be replaced with parking for vehicle-trailer combinations. In addition to the required parking set forth in Section 7.01.04, parking may be provided for boat trailers.
D. Stacked dry storage shall only be permissible within an enclosed building.
E. Facilities for engine repair shall be within an enclosed building.

F. All proposed activities adjacent to or within the Nassau River/St. Johns River Marshes and Fort Clinch State Park Aquatic Preserves shall obtain and comply with all required permits and approvals as required of the Nassau River/St. Johns River Marshes and Fort Clinch State Park Aquatic Preserves Management Plan.
G. Marinas shall not be located in or adjacent to any FDEP designated manatee sanctuaries, known areas of essential manatee habitat, or manatee foraging areas.
H. Marinas shall be required to provide sewage pump-out facilities approved by the FDEP, and shall be required to connect to any approved central wastewater treatment facility available within 2,640 feet of the marina property.
I. Marinas shall be required to utilize FDEP approved fuel spill containment facilities where petroleum products are sold, stored, or utilized.
J. Placement of pilings, docks, ramps, and other structures shall avoid wetlands and grass beds.
K. Construction materials and processes shall minimize environmental impacts and shall be the best technology available.
L. All marinas are encouraged to utilize dry storage, instead of wet docking, to the fullest extent possible, in order to limit impacts to water circulation patterns within estuaries and other waterways.
M. All drainage, wastewater, and wash-down facilities shall be designed and maintained in strict conformance with this LDC and any additional requirements of the FDEP, the SJRWMD, the USACOE, or other State or federal agency with jurisdictional powers over marinas.
N. Seawalls and other shoreline modifications shall be set at or landward of the mean high water line, except as otherwise provided by law.
O. Activities involving dredging and filling shall be required to obtain any applicable permits from federal and State agencies with jurisdiction, including the FDEP, the USACOE, and the SJRWMD, as well as any permits required by the City or County.
P. Parking, dry storage and non-water-dependent facilities must be built on existing uplands.
Q. Marinas must prepare disaster preparedness plans and provide copies to the City Manager, Fire Department and Planning Department.
R. Marina siting or expansion shall not have an impact on ongoing commercial shrimping or fishing activities.
S. Marinas shall seek Clean Marina designation from FDEP.

6.02.23 Mini-storage or Self-storage Facilities

A. Mini-storage or self-storage facilities are allowable in the C-2, MU-8, I-1 and I-A zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.
B. The following activities or uses are prohibited on the grounds or within the buildings of mini-storage or self-storage facilities:
    1. Wholesale sales;
    2. Retail sales, including garage sales, or other commercial activities;
    3. Manufacturing, fabrication, processing, or other industrial activity;
    4. Service or repair of vehicles, engines, electronic equipment, or similar activities;
    5. Rehearsal or practice of musical instruments; and
    6. Residential use.
C. Notwithstanding the limitations described in Section 6.02.17(B) above, the following activities may be conducted:
    1. Rental of storage bays;

2. Truck rental business, limited to a maximum of twenty-five (25) percent of the gross site area;
3. Sales of boxes or goods related directly to the operation of a self-service storage facility; and
4. Sales by the owner or manager of the facility of abandoned items for reclamation of rental costs.

D. Except as specifically provided in Section 6.02.20(G), all property stored on the site shall be entirely within enclosed buildings.

E. Storage of flammable liquids, highly combustible or explosive materials, or hazardous chemicals is prohibited.

F. The mini-storage or self-storage facility buildings shall comply with the standards set forth in Table 6.02.23(F).

Table 6.02.23(F). Standards for Self-storage or Mini-storage Facilities

Development Feature	Standard
Building separation (2 or more buildings on the site)	**12 feet**
Overhead access doors	**Shall not be visible from residentially zoned property, commercially zoned property, or the public right-of-way**
Storage bays **Minimum size** **Maximum size**	 **4 feet by 4 feet (16 s.f.)** **20 feet by 80 feet (1,600 s.f.)**
Exterior façade	**Fully consistent with color, materials, and design of buildings in the surrounding area** **Metal exterior walls are prohibited**
Roof design	**Type of roof, roof line, and roofing materials shall be fully consistent with buildings in the surrounding area**
Fence required	**Minimum of 6 feet** **Maximum of 8 feet**

G. Outdoor storage may be permissible on the same lot as the mini-storage or self-storage facility buildings. Outdoor storage shall comply with the standards in Table 6.02.20(G).

Table 6.02.23(G). Standards for Outdoor Storage with Mini-storage Facilities

Development Feature	Standard
Types of goods to be stored	**Limited to boats on trailers and recreational vehicles** **Dry stacking of boats when covered to provide screening from view** **Abandoned, wrecked, or junked vehicles are prohibited**
Maximum area devoted to outdoor storage	**25 percent of buildable area of the site**
Screening	**Fully screened from view from adjacent residentially zoned districts, from adjacent office areas, and from public right-of-way** **Screening may be a solid fence, solid wall, other similar structure, or landscaping**
Fencing **Minimum height** **Maximum height** **Type**	 **6 feet** **8 feet** **Decorative wall or fence required, with brick, stone, masonry, wood, or similar material**
Security	**Gate, equipped with alarm and keyless opening required**

H. Traffic circulation standards are set forth in Table 6.02.23(H).

Table 6.02.23(H). Traffic Circulation Standards for Mini-storage Facilities

Travel Aisles	Standard
Serving individual storage units	
One-way	**1 10-foot wide lane for parking and loading and 1 12-foot wide travel lane**
Two-way	**1 10-foot wide lane for parking and loading and 2 10-foot wide travel lanes**
Other travel aisles	**12 feet wide**

6.02.24 Mobile Food Vending "Food Truck" Parks

A. Mobile Food Vending "Food Truck" Parks are permissible, outside of the Downtown Historic District, in zoning districts MU-1, MU-8, C-1, C-2, C-3, I-1, I-2, I-A, I-W, OT-2 and W-1 as subject to the following supplemental standards.

1. Food trucks must comply with all provision of applicable Florida Statutes and the Florida Administrative Code. (Reference: FS 509.102 and Chapter 5K-4, F.A.C.)
2. Food trucks located within a Food Truck Park must be connected to the electric utility service and may only operate with a generator in the case of an emergency.
3. Food trucks must be connected to City water and sewer service with the appropriately sized grease interceptor unless they are self-sufficient and exempt as provided by FS 509.221.
4. Restroom facilities must be provided on site or within 600 walking feet. Where shared restroom facilities are utilized, the City must be a party identified in the agreement requiring a signature from the City Manager, and the agreement must be in a form acceptable to the City Attorney and recorded with the Nassau County Clerk of Courts.
5. Minimum off-street parking requirements are 2 spaces per food truck pad.
6. Accessory activity areas must clearly designate all areas that will be used as accessory activity areas. The operation of such areas must comply with all applicable regulations, such as noise regulations.

6.02.25 Outside Sales Facilities

A. An outside sales facility is allowable in the C-1, C-2, MU-8, W-1, I-1, and I-A zoning districts, subject to the site design standards of the district, and the supplemental standards of this section.

B. Outside sales may include the sale of vegetables, fruit, produce, eggs, or other agricultural products, and arts and crafts objects or supplies, and prepared, processed, or baked goods, jams, jellies, coffee drinks, cakes, cookies, kettle corn, and the alike. Agricultural products shall not include poultry or livestock. Outside sales facilities as regulated herein does not include other vendors regulated by the City Code.

C. Outside sales facilities may include temporary shelters, such as canopies, tents, or other similar temporary structures.

1. All such canopies, tents, or other structures shall comply with the Florida Building Code.
2. Tents shall be located at least five (5) feet from any curb, sidewalk, crosswalk, or fire hydrant.
3. Tents shall be positioned so as to keep entrances, exits, and emergency exits clear at all times.
4. Temporary structures shall be maintained in a safe and good condition and shall be disassembled and removed from the property if the structure deteriorates to an

unsafe and/or unsightly appearance. Failure to comply will result in Code Enforcement action.

5. The property owner shall, at all times, be responsible for the maintenance of any temporary structure and its surrounding grounds. The property, including any temporary structure, must be maintained so as to present a healthy, neat, clean and orderly appearance free of unsightly weeds, rubbish or debris.

D. Tables, chairs, displays, display stands, and other similar equipment shall be located at least five (5) feet from any curb, sidewalk, crosswalk, fire hydrant, entrance, or emergency exit and shall maintain a neat and clean appearance at all times.

E. Permanent signs for an Outside Sales Facility shall comply with all requirements set forth in section 5.03.10.

F. Outside sales facilities shall comply with the standards set forth in Table 6.02.21(F).

Table 6.02.25(F). Standards for Outside Sales Facilities

Development Feature	Standard
Parking	**One parking space for every 200 square feet of sales area shall be provided** **Parking spaces shall be separate from the sales area** **Parking shall be provided out of the right-of-way** **Parking areas shall be paved, gravel, or other dust-free surface** **Accessible parking shall be provided according to ADA requirements**
Outside storage of boxes, crates, pallets	**Fully screened from visibility from the right-of-way**
Exterior lighting	**Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses**
Sanitary facilities	**All outside sales facilities shall provide sanitary facilities consistent with State law**

6.02.26 Parks and Picnic Areas

A. Public parks are allowable in the R1-G, W-1, I-W, PI-1 and REC zoning districts subject to the standards of the zoning district.

B. Private parks are allowable in the IW, PI-1, MU-8, and REC zoning districts subject to the standards of the zoning district and the supplemental standards set forth in this section.

C. Picnic areas, trails and nature areas are permissible in all zoning districts, subject to the standards of the zoning district and the standards of this section.

D. The standards for private parks and picnic areas are set forth in Table 6.02.26(D).

Table 6.02.26(D). Standards for Private Parks and Picnic Areas

Development Feature	Standard
Parking lots	**Designed to avoid glare from vehicle lights onto property that is zoned or used for residential uses**
Exterior lighting	**Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses**
Hours of operation	**Limited to daylight hours**
Sanitary facilities	**Required setback** **Minimum of 50 feet from any property line**
Buffer	**As set forth in Section 4.05.05, but not less than buffer "B"**
Outside storage	**Fully enclosed with a solid fence or wall**

6.02.27 Recreation, Indoor Facilities

A. Indoor amusements are allowable in the C-2, C-3, MU-8, I-1, I-A, and PI-1 zoning districts subject to the standards of the zoning district and the supplemental standards set forth in this section.

B. Design standards for indoor amusement establishments are set forth in Table 6.02.27(B).

Table 6.02.27(B). Standards for Indoor Facilities

Development Feature	Standard
Setback	Minimum of 200 feet from any property zoned for residential use
Access	Arterial or collector street
Outside storage	Prohibited
Exterior lighting	Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses
Buffer	As set forth in Section 4.05.05, but not less than a buffer "C"

6.02.28 Recreation, Outdoor Amusements

A. Outdoor amusements are allowable in the C-2, C-3, W-1, I-W, PI-1, and REC zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.
B. Outdoor amusements may include miniature golf, archery ranges, pony rides, climbing walls, batting cages, and similar activities.
C. Snack shops, ice cream shops, or food stands may be permissible in association with outdoor amusements.
D. Outdoor amusements may be freestanding, or two (2) or more amusements may be combined in a unified development site.
E. The site design standards for outdoor amusements are shown in Table 6.02.28(E):

Table 6.02.28(E). Standards for Outdoor Amusements

Development Feature	Standard
Minimum land area	2 acres
Minimum setback for buildings Abutting residential zoning districts Abutting nonresidential zoning districts	 200 feet 100 feet
Minimum setback for parking lots and access drives, when abutting residential zoning districts	200 feet
Access requirements	Arterial street
Minimum buffer	2 times the buffer specified in Section 4.05.05, plus a solid fence or wall
Lighting	Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses
Loudspeakers or paging systems	Designed, installed, and used such that they are not heard at the property line of adjacent properties
Outside storage and loading areas	Screened from view from adjacent properties and from the public right-of-way Setback a minimum of 200 feet from any residentially zoned property
Refuse and solid waste containers	Screened from view from adjacent properties and from the public right-of-way Setback a minimum of 100 feet from all property lines
Sanitation facilities, temporary or permanent	Screened from view from adjacent properties and from the public right-of-way Setback a minimum of 100 feet from all property lines

6.02.29 Religious Uses and Facilities

A. Religious uses and facilities are allowable in the RE, R-1, RLM, R-2, R-3, OT-1, OT-2, and MU-1 zoning districts, subject to the standards of the zoning district and the supplemental standards set forth in this section.

B. The primary use for a site developed for religious uses is worship. Worship is a form of religious practice with its creed and ritual.
C. Uses and activities other than worship shall be considered accessory uses and shall be clearly ancillary to the primary use. Such uses and activities shall be limited to religious instruction (such as "Sunday School," Bible school, or similar instruction or study typically associated with the religion); offices to support the religious facility; child or adult day care, subject to the standards of Section 6.02.25(F); private academic school, subject to the standards of Section 6.02.25(G); fellowship hall, with or without a kitchen, subject to the standards of Section 6.02.25(H), (which may be known as a community center, activity hall, or life center); cemeteries regulated as set forth in Section 6.02.06; and individual meeting spaces.
D. All accessory uses are subject to the following requirements:
    1. The accessory use shall be owned and operated only by the owner of the primary use.
    2. The facility housing the accessory use shall meet all local, State, or federal standards.
    3. The owner of the primary use shall obtain any licenses required to conduct the accessory use. Any approval of the accessory use shall be contingent upon receipt of all licenses.
    4. Audio amplification systems, including, but not limited to, telephone loudspeakers or paging systems, shall be located to ensure that they cannot be heard on adjacent properties.
    5. All outdoor activities shall occur no earlier than 8:00 a.m. and no later than 10:00 p.m.
    6. All exterior lighting shall be directed or shielded to avoid illumination of adjacent properties.
    7. Outdoor play or activity areas shall be no closer than fifty (50) feet from property zoned for residential use, as measured to the nearest residential property line.
E. The following activities shall be prohibited in association with religious uses: retreat centers; overnight lodging facilities or other temporary sleeping quarters; and any use not specifically identified as a permissible accessory use. Notwithstanding the prohibition of overnight lodging, one (1) residential dwelling unit may be provided as a parsonage, subject to the standards of Section 6.02.25(I).
F. Child day care, adult day care, preschool, or child nursery uses are permissible accessory uses subject to the following standards:
    1. The total floor area allocated to the child day care, adult day care, preschool, or nursery uses shall not exceed ten (10) percent of the total gross floor area on the site. The calculation of total floor area allocated to the uses shall be cumulative and shall include all child day care, adult day care, preschool, nursery facilities, and related mechanical and support facilities.
    2. An off-street drop-off area for persons served by the facility shall be provided.
G. Private academic schools are permissible accessory uses subject to the following standards:
    1. The total floor area allocated to the school shall not exceed twenty (20) percent of the total gross floor area on the site. The calculation of total floor area allocated to the school shall include all components of the school: classrooms, school library, school offices, teacher work areas, and the like, including related mechanical and support facilities.
    2. An off-street drop-off area for persons served by the facility shall be provided.

H. A fellowship hall is a permissible accessory use, provided that the total floor area allocated to the fellowship hall, including related mechanical and support facilities, shall not exceed twenty (20) percent of the total floor area on the site.

I. One (1) residential dwelling unit is permissible to serve as a parsonage, subject to the following standards:
   1. The minimum lot area for the dwelling unit ("parsonage lot") shall be 7,500 square feet. The parsonage lot shall be used exclusively for the dwelling unit, and shall not include any primary or other accessory use permissible on the site. The parsonage lot shall not be used for any support activity to the primary or accessory uses, such as outdoor play areas, storage, or parking, other than as specifically provided in Section 7.01.04.
   2. The maximum lot coverage for the parsonage lot shall be thirty-five (35) percent.
   3. Two (2) parking spaces shall be provided within the parsonage lot.
      The maximum building height on the parsonage lot shall be thirty-five (35) feet.
   4. The parsonage lot may contain children's outdoor play equipment, in a size and quantity typical of a single-family residential use.
   5. The parsonage lot may contain a residential swimming pool, fully enclosed, and attached to the dwelling.

J. A specific parking plan shall be provided. This plan shall identify the primary use and each accessory use proposed on the site. The parking plan shall indicate the hours of operation and peak times of use (parking demand) for the primary use and each accessory use on the site. The parking standards for the primary use and each accessory use shall be identified based upon Section 7.01.04. The parking plan may include reduced or shared parking. If reduced or shared parking is proposed, the parking plan and supporting data shall clearly indicate that differing peak use and associated parking requirements shall not result in a parking deficiency on the site. The parking plan shall indicate areas designated for overflow parking during times of extraordinary use (such as festival or holiday periods).

K. For religious uses that exceed 10,000 square feet in total floor area, excluding the parsonage, if any, the minimum setback from any residential property line that is otherwise required shall increase five (5) feet for each 2,000 square feet, or portion thereof, over 10,000 square feet.

6.02.30 Schools

A. Public or private academic schools are allowable in the following zoning districts, subject to the standards of the zoning district, and the supplemental standards of this section: RE, R-1, R1-G, RLM, R-2, R-3, and MU-1.

B. The site design standards for public and private academic schools are set forth in Table 6.02.30(C).

Table 6.02.30(C). Standards for Public and Private Academic Schools in RE, R-1, R1-G, RLM, R-2, R-3, and MU-1

Development Feature	Standard
Minimum site area	**3 acres, or as otherwise required by law**
Minimum lot width	**200 feet**
Access requirements	**Arterial**
Outdoor recreation areas	**Setback a minimum of 75 feet from any property zoned or used for residential purposes** **Fully enclosed by a solid decorative fence, a minimum of four (4) feet in height**
Outdoor lighting	**Directed and shielded to avoid direct illumination of a lot**

	zoned or used for residential uses
Drop-off and pick-up areas	**Designed and located away from residential areas** **Separated from parking areas**

6.02.31 Scooter and Moped Rentals

A. Scooter and Moped Rentals is allowable in the C-2 zoning district subject to the standards of the zoning district.
B. Scooter and Moped Rental are allowable in the C-1 and C-3 zoning districts subject to the standards of the zoning district and the supplemental standards set forth in this section.
C. Allowable rentals may include scooters, mopeds and other motor driven vehicles provided they meet the following criteria:
   1. Must retain the factory equipped drive train.
   2. If an internal combustion engine is used, the displacement may not exceed 50 cubic centimeters and must comply with current applicable state and/or federal motor vehicle safety and emission standards.
   3. The maximum manufacturer rate of speed of the vehicle shall not exceed a speed of 35 mph on level ground.
D. Scooter and Moped rentals shall not be permissible as a stand-alone use and must be secondary to a principal commercial use allowable in the zoning district.
E. Outdoor display is limited to 2 vehicles at any one time and the display area shall not consume any required parking for the principal use nor, occupy any required buffer yards.

6.02.32 Trades and Repair Services

A. Establishments for trades and repair services are permissible in the C-1, C-2, and MU-8 zoning district, subject to the standards for the district and the supplemental standards set forth in this section.
B. Design standards for trades and repair services are set forth in Table 6.02.32(C).

Table 6.02.32(C). Standards for Trades and Repair Services in C-1, C-2, and MU-8

Development Feature	Standard
Commercial vehicles associated with the trades or repair service establishment	**Overnight parking shall be located in the rear yard only** **C-1 zoned properties are limited to no more than 5 overnight parked service vehicles and may not store heavy equipment such as forklifts, bobcats, tractors, or any class 4 – 8 sized vehicles on the premises.**
Buffer	**As set forth in Section 4.05.05, but not less than a buffer "C"**
Lighting	**Directed and shielded to avoid direct illumination of a lot zoned or used for residential uses**
Loudspeakers or paging systems	**Designed, installed, and used such that they are not heard at the property line of adjacent properties**
Outside storage and loading areas	**Screened from view from adjacent properties and from the public right-of-way** **Located in the rear yard only**

Development Feature	Standard
	Outside storage of equipment, machinery, or parts is disallowed in the C-1 zoning district.
Refuse and solid waste containers	**Screened from view from adjacent properties and from the public right-of-way** **C-1 zoned properties are limited to either residential roll out carts or a single container equaling no greater than 3 cubic yards.**
Delivery Services	**Routine delivery of materials, equipment or parts from trucks sized larger than a class 3 are disallowed in C-1 zoned properties.**

6.02.33 Triplex and Multifamily Uses

A. Triplex and Multi-Family Dwellings are allowable in the C-3 and MU-8 zoning districts subject to the standards of the C-3 and MU-8 zoning districts and additional standards defined herein.

B. Triplex and Multi-Family Dwellings located within the Historic District or the CRA shall comply with the standards of those District Overlays.

C. Off-street parking shall be provided as follows and located to the side, ~~or~~ rear, center, or under of the principal structure(s):

1. Two (2) spaces per dwelling unit over 1,250 sq. ft.
2. One and one half (1.5) spaces for dwelling units 1001 -1250 sq. ft.
3. One (1) space per dwelling unit 1,000 sq. ft. or under.

D. Off Street Parking Required: Off-street parking requirements are subject to the following additional standards:

1. For adaptive reuse and new construction of Triplex or Multi-family dwellings off-street parking may be met in off-site parking areas.
2. The off-site parking area must be located within 600 feet walking distance of the structures' nearest dwelling entrance. A pedestrian connection providing a safe, well lighted walking environment shall be required.
3. No more than two (2) off-site non-illuminated signs shall be allowed in order to designate or direct use of off-site parking spaces. Signs are exempt from permitting requirements and are limited to four (4) square feet and no taller than eight (8) feet.
4. Off-site parking must be located on property under the same ownership as the principal property [or the association of common owners], or if not under the same ownership, the off-site property for parking must be encumbered by an agreement to which the City must be a party, supplying the off-site parking for so long as it is satisfying the parking requirement of the principal use. The agreement must require the signature of the City Manager, and it may not be terminated or amended except in writing, meeting these same requirements, to which the City must be a party and the City Manager must be a signatory. Any agreement must be in a form acceptable to the City Attorney and recorded with the Nassau County Clerk of Courts. A copy of the recorded agreement shall be submitted to the City Attorney and City Manager within ten (10) days of its recording.
5. Fee In Lieu: Triplex or Multi-Family dwellings in the Central Business District, exclusive of the Amelia River Waterfront Community Redevelopment Area, may satisfy the requirements of off-street parking in the manner established in

subsection (D) 1-4. Alternatively, it may satisfy the requirement in whole or in part by paying a fee in lieu of providing the required parking.

a. The fee shall be set annually by the City commission and shall be based on the average cost of acquiring land for and constructing a parking space in a parking structure in the City plus the present value of the cost of maintaining the space for so long as it is satisfying the parking requirement of the principal use. The fee shall be a one-time payment, to be placed in a trust fund for downtown parking improvements which serve the Central Business District, not in the Amelia River Waterfront CRA.

6. Where possible, parking lots shall be designed to utilize existing curb cuts.

E. Exterior lighting: All exterior lighting on the development site shall be directed and shielded to avoid direct illumination of a lot zoned or used for residential purposes.

F. Street Lights: Street and common area lighting meeting City standards and provided at the developer's or property owner's expense. Decorative lighting is preferred. Lighting required for safety shall be located to avoid obstruction between the light fixtures and the area to be illuminated. All street lights installed shall be in accordance with the Illuminating Engineer Society of North America recommended values based on the pavement classification.

G. Dumpsters or other Sanitary Facilities: All triplex and multi-family residential development must provide sanitary facilities that are either fully incorporated inside the multi-family structure or, if located outside, screened from the public rights-of-way and adjacent residentially used or zoned properties as consistent with LDC Section 5.01.07 requirements.

H. Buffers: Triplex and multi-family development shall comply with buffer requirements set forth in LDC Section 4.05.12.

I. Accessory Uses: Accessory uses are permissible in compliance with LDC Section 2.03.03 and subject to development standards in LDC Section 5.01.00.

J. Signage: All permanent signage must comply with standards set forth in LDC Section 5.03.00 for the C-3 and MU-8 zoning districts and may be further regulated by design requirements set by the historic district overlay LDC Section 8.01.03.

K. Architectural Articulation for New Construction in the C-3 and MU-8 zoning districts: A building's exterior walls shall be articulated using material, architectural elements, arrangement of openings, design of horizontal and vertical planes, and changes in height to provide substantial massing variations. Long, monotonous roof planes and uninterrupted expanses of blank wall are not allowed along street frontages. Articulated roof forms and wall opening shall be used to add visual interest and contribute to a pedestrian scale.

1. Where solid walls are required by building code, the wall shall be articulated and divided into distinct modules, through the use of projections and recesses (i.e. setbacks, reveals, belt courses, awnings, arcades, porches, etc.) within the building envelope or projecting from upper floors.
2. Commercial buildings and buildings with ground floor commercial uses shall have a ceiling height minimum of twelve (12) feet for the ground floor.
3. Entryways. Doorways, windows, storefronts, and other openings in the facades of buildings shall be placed and proportioned to reflect pedestrian scale and movement and to encourage visual interest at the street level. The use of functional and decorative elements, including weather protection features (i.e. colonnades, arcades, canopies, etc.), signage, and architectural detailing, shall be used to create human scale on a building's principal façade. Elements shall be integral to the architecture of the building, designed so as not to appear to be "tacked on" to the building façade.

6.03.00 COMMERCE PARKS

6.03.01 Generally

A. A commerce park may also be called an industrial park or business park. The standards provided in this section for commerce parks are intended to ensure that such parks are unified in design, compatible with the surrounding neighborhood, consistent with the scale and character of the City, and avoid interference with airport operations.
B. Commerce parks are allowable within the airport overlay district and the I-A zoning district.

6.03.02 Permissible and Prohibited Uses within Commerce Parks

A. The following uses are permissible within a commerce park:
    1. Wholesale or warehouse establishments, including distribution centers;
    2. Aircraft hangars and related aviation uses and activities;
    3. Research facilities, including experimental laboratories, and industrial engineering and analysis facilities;
    4. Printing, publishing, lithographic, and similar facilities;
    5. Light manufacturing, such as processing, packaging, and light assembly of products from previously manufactured materials;
    6. Business service establishments, such as linen supply, freight movers, communication services, and business machine services; and
    7. Accessory services to support the commerce park, such as express shipping, telephone exchange, branch bank or automated teller machines, and employee cafeteria or dining hall.
B. The following uses are prohibited within a commerce park:
    1. Heavy industrial activities, such as metal fabrication, dry cleaning, and furniture stripping and refinishing;
    2. Activities which use, store, process, or produce hazardous wastes; and
    3. Industrial, office, or business uses which interfere in the operation of the Fernandina Beach Municipal Airport.

6.03.03 Design Standards

A. A commerce park shall have a uniform site design plan supported by covenants, conditions, and restrictions to ensure a uniform identity through the use of landscaping, architectural character of buildings, signage, parking lot design and layout, lot layout, and other design elements.
B. Building designs shall conform to a unified format. At a minimum, the covenants, codes, and restrictions shall create a unified design format specifying the types of building materials and color, roof type and pitch, exterior lighting, building massing, and window and entryway treatment which shall apply to each occupant within the commerce park. The unified architectural format may also contain common design elements, such as placement, massing, proportion, scale, color, shape, texture, or style of building materials, which lend a unified appearance to the buildings within the park.
C. Site design and building design shall in all respects be consistent with safe airport operations. Building and structure heights, exterior lighting, and requirements regarding electronic or magnetic interference shall all be consistent with the requirements of the airport overlay district and operating requirements for the Fernandina Beach Municipal Airport, as set forth in the Airport Master Plan.
D. Lot design and building placement shall conform to the following standards:
    1. The minimum area for a commerce park is ten (10) acres.

2. Setbacks shall meet the standards set forth in Table 6.03.03(D).

Table 6.03.03(D). Setbacks and Yard Standards for Commerce Parks

Yard	From Internal Streets (ft.)	From Public Streets (ft.)
Front	**50**	**75**
Rear	**25**	**25**
Side, interior	**25**	**25**
Side, street	**50**	**75**

E. Not more than twenty-five (25) percent of the required front yard shall be used for parking.
F. One side yard may be used for driveways or required parking.
G. Rear yards shall be used for parking to the maximum extent feasible in order to create a campus-like appearance throughout the commerce park.
H. Internal pedestrian circulation shall be provided with sidewalks and crosswalks, connecting individual uses with supporting services.
I. Internal streets shall conform to City design standards for streets.
J. Parking may be provided in central lots or in parking structures. Parking structures shall be consistent with the unified design and the building materials and colors of adjacent principal buildings. If parking is to be allowed on the roof, a solid wall, designed to appear as a logical extension of the structure facade, at least five (5) feet in height shall be used to screen the roof-top parking. Roof top parking shall be designed to ensure that vehicle lights do not interfere with airport operations.

6.03.04 Performance Standards

A. All uses in commerce parks shall comply with the performance standards set forth in this section regulating the emission or existence of dangerous, detrimental, and objectionable elements.
B. Measurement shall be at the point of emission.
C. All activities and all storage of flammable and explosive materials at any point shall be provided with adequate safety devices against the hazards of fire and explosion, including adequate firefighting and suppression equipment.
D. There shall be no radiation emitted from radioactive materials or by-products exceeding a dangerous level of radioactive emission at any point. Radiation limitations shall not exceed quantities established as safe by the United States Bureau of Standards.
E. For the purpose of these regulations, electromagnetic interference shall be defined as disturbances of an electromagnetic nature which are generated by the use of electrical equipment, other than planned and intentional sources of electromagnetic energy, which would interfere with the proper operation of electromagnetic radiation for such purposes as communication, broadcasting, heating, navigation, vehicle velocity measurement, weather survey, aircraft detection, topographical survey, personal pleasure, or any other use directly or indirectly associated with these purposes which does not comply with the current regulations of the FCC regarding such sources of electromagnetic radiation.
F. There shall be no emission of visible smoke, dust, dirt, fly ash, or any particulate matter from any pipes, vents, or other openings, or from any other source, into the air. All fuel shall be either smokeless in nature or shall be used so as to prevent any emission of visible smoke, fly ash, or cinders into the air.

G. There shall be no emission of any fumes, vapors, or gases of a noxious, toxic, or corrosive nature which can cause any damage or irritation to health, animals, vegetation, or to any form of property.
H. There shall be no discharge at any point of liquid or solid wastes into any public sewage disposal system which will overload such system or create detrimental effects in the flow and treatment of public sewage. There shall be no discharge of any industrial wastes into any private sewage disposal system, stream, or into the ground. There shall be no accumulation of solid wastes conducive to the breeding of rodents or insects.
I. There shall be no emission of odorous gases or other odorous matter in such quantities as to be offensive at the points of measurement. Any process which may involve the creation or emission of any such odors shall be provided with both a primary and a secondary safeguard system so that control may be maintained in the event of failure of the primary safeguard system.
J. There shall be no direct or sky-reflected glare, whether from floodlights, high temperature processing, combustion, welding, or otherwise, to be visible at the specified points of measurement.

6.04.00 COMMERCIAL DEVELOPMENT

6.04.01 Standards for Large Scale Commercial Development

Large scale commercial development is commercial development with 20,000 or more square feet of gross floor area in all buildings on the site. The design standards set forth below apply to large scale commercial development.

A. Commercial development includes a single, freestanding building or a group of buildings. Commercial development shall have a unified design and a management plan to ensure continual compliance with an approved site plan.
B. Commercial buildings may be occupied by one (1) or more tenants.
C. Commercial buildings shall be designed to ensure adaptability for reuse. The building design shall include specific elements for adaptation for multi-tenant reuse. Such elements may include compartmentalized construction, including plumbing, electrical service, heating, ventilation, and air conditions. The building design shall also allow for interior subdivision into separate tenancies.
D. Development may be proposed on a single parcel, or two (2) or more parcels. Where a single development is proposed that includes two (2) or more parcels, the development shall be under unified control and management. Proof of unified control and management shall be provided to the City.
E. The maximum gross floor area for all buildings within a commercial development shall not exceed 80,000 square feet, except for lodging accommodations in the C-1, C-2 and I-A zoning districts. Lodging Accommodations in the C-1, C-2, and I-A zoning districts shall not exceed 150,000 square feet.
F. The standards for buffers in Section 4.05.05 shall apply on the perimeter of the development parcel. Buffers shall not be required between uses on the interior of the development parcel. This does not relieve the applicant from meeting all landscaping requirements that may apply to the total site or parking areas within the site.
G. Where two (2) or more buildings are proposed within the development site, such buildings shall be connected by sidewalks or pedestrian pathways. Pedestrian facilities shall meet the following standards:
    1. Decorative pavers, bricks, scored concrete, or paving patterns shall be used to identify pedestrian areas.

2. At least one (1) internal continuous sidewalk shall be provided from an adjacent public street to the primary entrance in the commercial development.
3. Sidewalks or walkways shall connect focal points of pedestrian activity, such as street crossings, building entrances, plazas, or courtyards.
4. Landscaping shall be located adjacent to pedestrian areas to provide separation.
5. All internal pedestrian walkways shall be physically separated from parking lot aisles, driveways, and other vehicular areas.

H. Each building on a commercial development site shall have clearly defined, highly visible customer entrances, featuring no less than two (2) of the following features:
1. Arcades;
2. Arches;
3. Canopies or porticos;
4. Cupolas;
5. Overhangs;
6. Recesses or projections;
7. Architectural details, such as tile work or molding, which is integrated into the building structure and design; or
8. Integral planters or wing walls that incorporate landscaped areas and/or places for sitting.

I. Mechanical equipment, electrical meter and service components, and similar utility devices, whether ground level, wall mounted, or roof mounted, shall be screened from view from public rights-of-way through one (1) of the following methods:
1. Where equipment is at ground level, screening may be provided through landscaping sufficient to block the view from public rights-of-way; or
2. Where brick, wood, or masonry materials are used to screen the equipment or devices, the materials shall be the same as the predominant exterior building materials for the principal building on the site.

J. Street level retail uses with sidewalk frontage shall provide an entrance to the building from the sidewalk in addition to any other access that may be provided to the building.

K. The following accessory uses and structures shall be integrated into the overall design of the site to ensure that visual and other impacts of these uses are fully contained or enclosed and out of view from adjacent properties and public streets. These uses and structures shall be designed to blend with the principal building through the use of color, building materials, and architectural features, to ensure that no attention is attracted to the functions by the use of screening materials that are different from or inferior to the principal material of the building and landscape:
1. Loading docks;
2. Truck parking;
3. Outdoor storage;
4. Outdoor shopping cart storage areas;
5. Utility meters;
6. HVAC equipment;
7. Dumpsters (See Section 5.01.07); and
8. Other similar service facilities and functions.

L. Building design requirements:
1. Facades that are 100 or more feet in length shall provide wall projections or recesses a minimum of three (3) feet in depth and a minimum of twenty (20) contiguous feet long within each 100 feet of facade length.
2. Arcades, display windows, entry areas, or awnings shall be provided along at least sixty (60) percent of the façade.

3. A repeating pattern of color, texture, or materials is required.
4. Brick, wood, or masonry materials shall be used.
5. The roofline shall have a change in height every 100 feet of building length.
6. Parapets, mansard roofs, gable roofs, hip roofs, or dormers shall be used to conceal flat roofs and roof top equipment from public view.

M. All exterior lighting shall be shielded and directed such that there is no direct illumination of adjacent properties.

N. Gasoline canopies and automotive service facilities that are accessory to the principal building shall be compatible with the design of the principal building:
   1. Materials, colors, building designs, architectural features, and roof design shall conform with and compliment the predominant materials, colors, and design of the principal building.
   2. Lighting shall be flush mount, flat lens fixtures for all under canopy fueling areas.

O. Parking shall not exceed 110 percent of the parking standard set forth in Section 7.01.04. At least twenty (20) percent of the required parking shall be provided in pervious pavement, grass, gravel, turf block, or similar material.

P. Loading docks shall be screened from view from adjacent properties and from the public right-of-way. Loading docks shall be setback a minimum of 100 feet from any lots zoned for residential use.

Q. Outside storage and displays shall be screened from view from adjacent properties, from the public right-of-way, and from pedestrian walkways. Outside storage shall be setback a minimum of 100 feet from any lots zoned for residential use.

6.04.02 Standards for Vacant Commercial Buildings

A. A reuse and renewal plan shall be provided for commercial buildings which become vacant as a result of relocation of the business to another building. The reuse and renewal plan for the existing building shall be submitted with the application for approval of the new commercial building to house the same business. The reuse and renewal plan shall include proposed reuse consistent with the zoning district and the provisions of this LDC. During any period of vacancy following relocation of the business and prior to reuse, the vacant building shall meet the standards for vacant buildings set forth in Section 6.04.02(B) below.

B. Vacant commercial buildings shall meet the following standards:
   1. All exterior surfaces shall be maintained in good repair. Wood surfaces shall be protected from decay by painting or protective covering and treatment. Surfaces with peeling, flaking, or chipped paint shall be repaired and repainted. Siding and masonry joints shall be maintained weather resistant and watertight.
   2. Exterior walls shall be maintained free from holes, rotting materials, and graffiti.
   3. Roofs of buildings shall be maintained in a structurally sound, safe, and weather tight condition.
   4. Window glass shall be in place and maintained in a safe and weather tight condition.

C. The grounds shall be maintained and free of trash, stored materials, inoperative or unlicensed vehicles, and equipment, as required by the City Code of Ordinances.

D. Accessory structures, such as fences, walls, outside lighting, signs, accessory buildings, or other physical improvements shall be maintained in safe condition and free of graffiti.

E. No outdoor sales shall be permissible on the site.

7

7.00.00 GENERALLY

This chapter sets forth the requirements regarding the provision of public facilities and requirements to ensure that public facilities are available when needed to provide service to development.

7.01.00 TRANSPORTATION AND PARKING FACILITIES

7.01.01 Access and Driveway Design Requirements

Table 7.01.01(A). Maximum number of access points per lot.

Functional Classification of Frontage Street	Maximum Number of Access Points
Arterial	1 per 500 feet of frontage
Collector, City responsibility	1 per 200 feet of frontage
Local	1 per 100 feet of frontage

The following standards apply to all driveways or access points from a lot or parcel onto a public street:

A. The maximum number of access points for a lot is set forth in Table 7.01.01(A).

B. Platted lots of record on the effective date of this LDC which have fewer frontages than required in Table 7.01.01(A) are allowed one (1) access point.

C. No point of access are allowed within 100 feet of the intersection of the centerlines of any public street, except for single-family dwellings located on local streets intersecting with a local street, where the minimum separation is fifty (50) feet.

D. Access ways or driveways for corner lots must be located on the street with the lower functional classification.

E. Driveways must comply with the following standards:
   a. Residential driveways must be a minimum of ten (10) feet in width and a maximum of twenty (20) feet in width, exclusive of flare connection to the right-of-way. Flare connections cannot exceed three (3) feet in width on each side. Circular driveways may be permissible not to exceed 10 feet in total width for each section.
   b. Non-residential driveways must be twenty-five (25) feet in width; when two (2) or more uses share a driveway, the width may be increased to thirty-five (35) feet. When a landscaped median is provided, the total width cannot exceed fifty (50) feet.
   c. The minimum inside turning radius is fifteen (15) feet. No part of the turning radius can extend over the property line.

F. Concrete must be 3,500 PSI with fiber and six (6) inches in depth in all rights-of-way or architectural pavers (including brick, stone and other paver materials) furnished and installed according to the American Society for Testing and Materials (ASTM) standards and as approved by the City's Streets Facilities Department. Driveway connections located within Old Town will be designed to confirm to the standard of the adjoining right-of-way with use of alternative materials.
   a. If in the event the City of Fernandina Beach or authorized utility company must make repairs in the City right-of-way which requires removal or results in damage to architectural paver driveways, the property owner is solely responsible for the repair and replacement of said pavers at their own expense.

G. The alley and driveway easements are to the property line of structures served and are not required inside the property line.

a. For residential subdivisions on any local roadway, a secondary access may be provided through an easement for emergency vehicles.
b. For residential subdivisions on a cul-de-sac;
c. The maximum number of lots shall be limited to twenty (20); and
d. The maximum length of the cul-de-sac shall be limited to 800 feet.

H. No curbs shall be cut or altered, and no points of access or openings for vehicles onto a public street shall be established, without a permit issued by the City.

I. All driveways shall be designed and constructed to comply with all drainage standards of the City and shall be improved with a permanent paving material.

J. Approval from FDOT or the County is required for any accessway or driveway onto a road under their jurisdiction. Driveway connections are required to meet the standards and requirements for compliance under guidance of FDOT or the County.

7.01.02 Streets and Rights-of-Way

A. Table 7.01.02(A) provides the minimum right-of-way widths for streets within the City. Where the minimum right-of-way width is not available for all streets abutting a parcel proposed for development, the applicant shall dedicate sufficient land to meet the right-of-way requirement. Dedication shall be based on one-half (1/2) of the right-of-way requirement.

Table 7.01.02(A). Minimum right-of-way widths.

Functional Classification	Minimum Right-of-way (ft.)
Minor Arterial	100
Collector, City responsibility	60
Local Streets shown on 1857 City plat	60
Centre Street	80
Local Streets in Old Town	46
Local Streets, all other	60
Alley	30

B. Right-of-way provisions
1. Additional right-of-way may be required by the City:
   a. In areas where drainage needs dictate swale cross sections larger than those that can be accommodated within the designated rights-of-way; or
   b. To promote public safety and convenience and ensure adequate access, circulation, and parking in high density residential, commercial, or industrial areas. Where a development abuts or contains an existing street of inadequate right-of-way width, additional right-of-way in conformance with the standards set out in this subsection shall be required.
2. City Roadway Standards are adopted by reference and made part hereof. Standards have been developed to guide the development of all new roadway construction. These standards apply to existing unimproved rights of way and newly created streets. Development cost are at the expense of the applicant. Deviations from these standards must be approved by the City Commission.

3. If pavement within a roadway is divided to allow for preservation of a tree within the right-of-way, the applicant shall demonstrate that adequate width remains for utilities and drainage between the shoulder and the right-of-way line.
4. Acceleration, deceleration, and turn lanes may be required when an entrance to a development is on an arterial or collector road.

C. Street number signs must be installed consistent with the design standards specified in the Florida Building Code or Fire Prevention Code, whichever is stricter.
   1. Numerals shall be attached to the front of the structure or shall be on both sides of the post supporting a mailbox at the street side of the property, shall be at least three (3) inches high, and shall be either of reflective material or in such color as to provide maximum contrast to the background.
   2. Structures that are set back more than sixty (60) feet from the right-of-way or structures that are blocked from visual sight from the right-of-way by high or heavy vegetation, walls, or other structures shall display street numbers at the street entrance on a double-faced sign, which shall not be more than three (3) feet high and shall not be more than one (1) square foot in area.

D. Small Wireless Facility
   1. Definitions

      The following definitions apply exclusively to communication facilities located within a Public ROW and are applicable in connection with all subsections contained in 7.01.00. The following words, terms and phrases, when used in this subsection below will have the meanings ascribed to them in this subsection. Words not otherwise defined in this section will be given the meaning set forth in LDC Section 1.07.00, and if not defined therein, as defined in the Communications Act of 1 934, 47 USC 151 et seg., as amended by the Telecommunications Act of 1996 (collectively, the "Communications Act"), and, if not defined therein, as defined by Section 337.401, Fla. Stat. or another applicable state statute; and, if not defined therein, be construed to mean the common and ordinary meaning.

      Abandoned. Any wireless communication facility not in continued use for a period of one hundred eighty (180) consecutive days.

      Ancillary structure. Equipment, devices and structures associated with a wireless communication facility in the right of way, including but not limited to: concrete slabs on grade, guy anchors, generators or other power sources, feed lines, mounting hardware, pedestals, and transmission cable supports; however, specifically excluding equipment cabinets, towers, alternative structures and antenna elements.

      Antenna. Communications equipment that transmits or receives electromagnetic radio frequency signals used in providing wireless communication services.

      Antenna array. A group of antennas and associated mounting hardware, transmission lines, or other appurtenances which share a common attachment device such as a mounting frame or common mounting support structure for a unified purpose of transmitting or receiving electromagnetic waves for a single wireless services provider, or if combined antennas, for the combined providers.

Antenna element. Any antenna or antenna array.

Applicable codes. Such codes must include this Code of Ordinances; uniform building, fire, electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to those codes enacted solely to address threats of destruction of property or injury to persons and includes the National Electric Safety code and the 2017 edition of the Florida Department of Transportation Utility Accommodation Manual.

Applicant. A person who submits an application and is a wireless provider.

Application. A request that is submitted by an applicant to the City for a permit to collocate small wireless facilities or to place a new utility pole used to support a small wireless facility.

Authority. A county or municipality having jurisdiction of the rights-of-way of any public road. The term does not include the Department of Transportation. Rights-of-way under jurisdiction and control of the department are excluded from this subsection.

Collocation. To install, mount, maintain, modify, operate, or replace one or more wireless facilities on, under, within, or adjacent to a wireless support structure or utility pole. The term does not include the installation of a new utility pole or wireless support structure in the public ROW.

Combined antenna. An antenna or an antenna array designed and utilized to provide wireless communications services for more than one wireless provider, or a single wireless provider utilizing more than one frequency band or spectrum, for the same or similar type of services.

Communications Services. A cable service as defined in 47 U.S.C. § 522(6), information service as defined in 47 U.S.C. § 153(24), telecommunications service as defined in 47 U.S.C. § 153(53), or wireless services.

Communications Service Facilities. A structure or structures used to provide communication services. The term shall include wireless facilities.

Communications Services Facility Provider. An entity who provides communications services. The term shall include wireless infrastructure providers and wireless service providers.

Concealed. A pole, antenna element or ancillary structure, or equipment box that is not readily identifiable as such, and is camouflaged and designed to be aesthetically compatible with the area so as to reduce or mitigate the facility's potential adverse visual impacts on the surrounding areas. Concealed poles are designed to conceal the equipment internally.

Equipment cabinet. Any structure, including: cabinets, shelters, pedestals, and other similar structures that are used exclusively or in combination with

ancillary facilities, to contain radio or other equipment necessary for the transmission or reception of wireless communication signals.

FAA. The Federal Aviation Administration.

FCC. The Federal Communications Commission.

FDOT. The Florida Department of Transportation.

In public ROW or in the public ROW shall mean in, on, over, under or across the public ROW.

Law means any local, state or federal legislative, judicial or administrative order, certificate, decision, statute, constitution, ordinance, resolution, regulation, rule, tariff, guideline or other requirement, as amended, now in effect or subsequently enacted or issued, including, but not limited to, the Communications Act of I 934, 47 USC 151 et seq., as amended by the Telecommunications Act of 1996. PL 104-104 § 101 (a), 110 Stat. 70, and all orders, rules, tariffs, guidelines, and regulations issued by the Federal Communications Commission or the governing state authority pursuant thereto.

Micro wireless facility. A small wireless facility having dimensions no larger than 24 inches in length, 15 inches in width, and 12 inches in height and an exterior antenna, if any, no longer than 11 inches.

Pass-through provider. Any person who, upon registering with the City, places or maintains a wireless communications facility in the public ROW and that does not remit communications service taxes as imposed by the City pursuant to F.S. Chapter 202 and F.S. § 337.401.

Place or maintain or placement or maintenance or placing or maintaining. To erect, construct, install, maintain, place, repair, extend, expand, remove, occupy, locate or relocate. A communications services facility provider or pass-through provider that owns or exercises physical control over wireless communications facilities in public ROW, such as the physical control to maintain and repair, is "placing or maintaining" the facilities. A party providing service only through resale or only through use of a third party's unbundled network elements is not "placing or maintaining" the communications facilities through which such service is provided. The transmission and receipt of radio frequency signals through the airspace of the public ROW is not placing or maintaining facilities in the public ROW.

Pole or utility pole. A pole or similar structure that is used in whole or in part to provide communications services or for electric distribution, lighting, traffic control, signage, or a similar function. The term includes the vertical support structure for traffic lights but does not include a horizontal structure to which signal lights or other traffic control devices are attached and does not include a pole or similar structure 15 feet in height or less unless an authority grants a waiver for such pole.

Pole height. The vertical distance measured from the grade line to the highest point of the pole, including any antenna, lighting, lightning protection or other equipment affixed thereto.

PSC means the Florida Public Service Commission.

Public safety communications equipment. All communications equipment utilized by a public entity for the purpose of ensuring the safety of the public.

Registrant or facility owner mean a communications services facility provider or pass-through provider, or other person which seeks to use the public ROW and has registered with the City in accordance with the provisions of this article.

Registration and register mean the process described in this article whereby a communications services facility provider or a pass-through provider provides certain information to the City and the City accepts such information as legally sufficient to be registered.

Replacement. The removal of an existing structure for purposes of erecting a new structure of nearly equal dimensions usually for the purposes of improvement structural integrity.

Rights of Way (ROW). Improved ROW owned, leased, or operated by the City, including any public street or alley that is not part of the FDOT highway system. and includes the surface, the air space over the surface and the area below the surface to the extent the government holds a property interest therein.

Small wireless facility. A wireless facility that meets the following qualifications:

a. Each antenna associated with the facility is located inside an enclosure of no more than 6 cubic feet in volume or, in the case of antennas that have exposed elements, each antenna and all of its exposed elements could fit within an enclosure of no more than 6 cubic feet in volume; and
b. All other wireless equipment associated with the facility is cumulatively no more than 28 cubic feet in volume. The following types of associated ancillary equipment are not included in the calculation of equipment volume: electric meters, concealment elements, telecommunications demarcation boxes, ground-based enclosures, grounding equipment, power transfer switches, cutoff switches, vertical cable runs for the connection of power and other services, and utility poles or other support structures.

Structure. Anything constructed or erected, the use of which required permanent location on the ground, or attachment to something having a permanent location on the ground, including advertising signs.

Transmission. The development of a radio signal from an antenna device for the purpose of communications or communication of data.

Utility Pole. A pole or similar structure that is used in whole or in part to provide communication services or for electrical distribution, lighting, traffic control, signage, or a similar function. The term does not include a horizontal structure to which signal lights or other traffic control devices are attached and does not include a pole or similar structure 15 feet in height or less unless an authority grants a waiver for such pole.

Wireless facility. Equipment at a fixed location which enables wireless communications between user equipment and a communications network, including radio transceivers, antennas, wires, coaxial or fiber-optic cable or other cables, regular and backup power supplies, and comparable equipment, regardless of technological configuration, and equipment associated with wireless communications. The term includes small wireless facilities. The term does not include:

a. The structure or improvements on, under, within, or adjacent to the structure on which the equipment is collocated;
b. Wireline backhaul facilities; or
c. Coaxial or fiber-optic cable that is between wireless structures or utility poles or that is otherwise not immediately adjacent to or directly associated with a particular antenna.

Wireless infrastructure provider. A person or entity who has been certificated under F.S. Chapter 364 to provide telecommunications service or under F.S. Chapter 610 to provide cable or video services in this state, or that person's affiliate, and who builds or installs wireless communication transmission equipment, wireless facilities, or wireless support structures but is not a wireless services provider.

Wireless provider. A wireless infrastructure provider or a wireless services provider.

Wireless services. Any services provided using licensed or unlicensed spectrum, whether at a fixed location or mobile, using wireless facilities, including but not limited to commercial mobile service, private mobile service, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul.

Wireless services provider. A person who provides wireless services.

Wireless support structure. A freestanding structure, such as a monopole or self-supporting tower, or another existing or proposed structure designed to support or capable of supporting wireless facilities. The term does not include a utility pole, pedestal, or other support structure for ground-based equipment not mounted on a utility pole and less than 5 feet in height.

2. Exemptions.
The following wireless facilities are exempt from the development standards of this Ordinance and subject only to the completion of a Wireless Facility Application

and issuance of a building permit for applicable codes; notwithstanding any other provisions:

a. Routine maintenance of small wireless facilities, the performance of service restoration work on existing facilities, or repair work, including, but not limited to, emergency repairs of existing facilities or extensions for such facilities for providing communications services to customers;
b. Replacement of small wireless facilities with small wireless facilities that are the same size or smaller and characteristically the same including but not limited to color and style as the original site.
c. Installation, placement, maintenance, or replacement of micro wireless facilities that are suspended on cables strung between existing utility poles within a ROW in compliance with applicable codes by or for a communications services provider authorized to occupy the ROW and who is remitting taxes under F.S. Chapter 202. The Applicant must provide an initial letter from or on behalf of such provider, which is effective upon filing, attesting that the micro wireless facility dimensions comply with the limits of the definition.
d. New collocations, replacement utility poles or placement of new utility poles in FDOT ROW without receiving a delegation from FDOT for such location(s).

3. Provisions for all wireless facilities inside ROW
   a. Each Applicant must register with the City prior to installing any infrastructure within City ROW. Registration does not establish a right to place or maintain. or priority for the placement or maintenance of. a communications facility in City ROW. The registration must include the following:
      I. Name.
      II. Address.
      III. Telephone number of contact person for the registrant.
      IV. Number of the registrant's current certificate of authorization issued by the Florida Public Service Commission, the FCC, or the Department of State.
      V. A statement of whether the registrant is a pass-through provider.
      VI. The registrant's federal employer identification number.
      VII. Proof of insurance or self-insuring status adequate to defend and cover claims.
      VIII. Registrants must update the registration information within 90 days after any changes in information.
      IX. Registrations must be renewed every 5 years.
   b. Registrants for small cell facilities (excluding microcells) must pay a $100 land use permit fee to cover actual costs of the regulatory activity.
   c. Abandonment (Discontinued Use).
      I. The owner of a wireless facility must notify the City when an approved facility is decommissioned and no longer in use.
      II. Wireless facility towers, utility poles, antennas, and the equipment compound must be removed, at the tower or base station at the owners' expense, within 180 days of cessation of use, unless the abandonment is associated with a replacement as provided in the 'Replacement" section of this Ordinance, in which case the removal must occur within ninety (90) days of cessation of use.
      III. A tower, utility pole or base station owner wishing to extend the time for removal or reactivation must submit an application stating the reason for such extension. The City may extend the time for removal or reactivation

up to sixty (60) additional days upon a showing of good and unique cause. If the tower, utility pole or antenna is not removed within this time, the City may give notice that it will contract for removal within thirty (30) days following written notice to the tower, utility pole or base station owner. Thereafter, the City may cause removal of the tower, utility pole or antenna with costs being borne by the tower, utility pole or base station owner.

IV. Upon removal of the wireless facility tower or utility pole, antenna, and equipment compound, the development area must be returned to its natural state and topography and vegetated consistent with the natural surroundings or consistent with the current uses of the surrounding or adjacent land at the time of removal, excluding the foundation, which does not have to be removed.

d. Interference with Public Safety Communications. In order to facilitate the regulation, placement, and construction of antenna, and to ensure that all parties are complying to the fullest extent possible with the rules, regulations. and /or guidelines of the FCC, each wireless provider must agree in a written statement to the following:

I. Compliance with "Good Engineering Practices" as defined by the FCC in its rules and regulations.

II. Compliance with FCC regulations regarding susceptibility to radio frequency interference, frequency coordination requirements, general technical standards for power, antenna, bandwidth limitations, frequency stability, transmitter measurements, operating requirements, and any and all other federal statutory and regulatory requirements relating to radio frequency interference (RFI).

III. In the case of an application for collocated wireless facility, the applicant, together with the wireless provider, must use their best efforts to provide a composite analysis of all users of the site to ensure that the applicant's proposed facilities will not cause radio frequency interference with the City's public safety communications equipment and will implement appropriate technical measures, as described in antenna element replacements, to ensure prevention of such interference.

IV. Whenever the City has encountered radio frequency interference with its public safety communications equipment, and has reasonable cause to believe that such interference has been or is being caused by one or more wireless facility antenna arrays, the following steps must be taken:

A. The City will provide written notification to all wireless service providers operating in the City of possible interference with the public safety communications equipment, and upon receipt of such notifications, the wireless providers must use their best efforts to cooperate and coordinate with the City and among themselves to investigate and mitigate the interference, if any, utilizing the procedures set forth in the joint wireless industry-public safety "Enhanced Best Practices Guide," released by the FCC in Appendix D of FCC 04-168 (released August 6, 2004), including the "Good Engineering Practices," as may be amended or revised by the FCC from time to time in any successor regulations.

B. If any wireless provider fails to cooperate with the City in complying with the owner's obligations under this section or if there is a

determination of radio frequency interference with the City's public safety communications equipment, the wireless provider who failed to cooperate and/or the wireless provider which caused the interference will be responsible for reimbursing the City for all costs associated with ascertaining and resolving the interference, including but not limited to any engineering studies obtained by the City to determine the source of the interference. For the purposes of this subsection, failure to cooperate must include failure to initiate any response or action as described in the "Enhanced Best Practices Guide" within twenty-four (24) hours of City's notification.

e. Signage. All wireless facilities must be clearly identified with the following information:
   I. Name plate signage must be provided in an easily visible location to include: FCC Antenna Registration System (ASR) registration number (if applicable); site owner's name, site identification number and/or name, phone number of contact to reach in event of an emergency or equipment malfunction, any additional security and safety signs.
   II. If more than 220 voltage is necessary for the operation of the facility and is present in a ground grid or in the tower, signs located every twenty (20) feet and attached to the fence or wall must display in large, bold, high contrast letters, minimum height of each letter four (4) inches, the following: "HIGH VOLTAGE - DANGER."
   III. No outdoor advertising signage is permitted at the wireless facility.
f. Structural integrity: The entire tower or base station and all appurtenances must be designed pursuant to the design requirements of ASCE 7, including wind speed design requirements, and tower loading/wind design requirements of Electronic Industries Association/Telecommunications Industry Association (EIA/TIA) 222-H, Series II, including any subsequent modification to those specifications.
g. Grading must be minimized and limited only to the area necessary for the new tower and equipment.
h. A signed statement from the wireless facility owner or owner's agent stating that the radio frequency emissions comply with FCC standards for such emissions as set forth in 47 CFR 1.1307, 1.310, 2.091 or 2.093, as applicable (Report and Order, ET Docket 93-62 (Guidelines for Evaluating the Environmental Effects of Radiofrequency Radiation), 11 FCC Rcd 15123 (1996); Second Memorandum Opinion and Order and Notice of Proposed Rule Making, ET Docket 93-62 (WT Docket 97-192), 12 FCC Rcd 13494 (1997). In addition, any collocation, modification, or upgrade application must contain an analytical report that confirms that following installation, the composite facility will remain in compliance with FCC standards as stated in OET-65.

4. General Development Standards for new small wireless facilities in City ROW
   a. All work in the City' right-of-way under this section must comply with the 2017 edition of the FDOT Utility Accommodation Manual.
   b. The City may require a ROW permit for work that involves excavation, closure of a sidewalk, or closure of a vehicular lane. Only small wireless facilities will be permitted inside a City ROW. No other type of wireless facilities will be permitted.

c. As a result of citizen participation during the Wireless Facility Master Planning Process the City prefers the siting of new small wireless facilities to be located outside the ROW. If the small wireless facility must be placed in the ROW, the City would like the Applicant to consider the citizenry's preferred options in the following ranking order:
   i. New concealed antenna on an existing utility pole;
   ii. Non-concealed antenna on an existing utility pole;
   iii. Replacement of an existing concealed utility pole with a concealed utility pole;
   iv. Replacement of an existing non-concealed utility pole with a concealed utility pole;
   v. Replacement of an existing non-concealed utility pole with a non-concealed utility pole;
   vi. A new concealed utility pole;
   vii. A new non concealed utility pole.
d. Applicant must provide a site plan of the proposed small wireless facility showing all proposed and existing at-grade and aerial facilities located within 50 feet of the proposed location.
e. In an area where the City has required all public utility lines in the ROW to be placed underground, the Applicant must comply with written, objective, reasonable, and nondiscriminatory undergrounding requirements of the City that prohibit new utility poles used to support small wireless faculties if:
   I. The City, at least 90 days prior to the submission of an application. has required all public utility lines to be placed underground;
   II. Structures that the City allows to remain above ground are reasonably available to wireless providers for the collocation of small wireless facilities and may be replaced by a wireless provider to accommodate the collocation of small wireless facilities, and;
   III. A wireless provider may install a new utility pie in the designated area in the ROW that otherwise complies with this subsection and it is not reasonably able to provide wireless service by collocating on a remaining utility pole or other structure in the ROW.
   IV. These requirements may be waived by the City upon a showing the design standards are not reasonably compatible for the particular location for a small wireless facility or utility pole or are technically infeasible or that the design standards impose an excessive expense. The waiver will be granted or denied within 45 days after the date of the request.
f. For small wireless facilities installed prior to the City adopting requirements that public utility lines be placed underground, the City will:
   I. Allow a wireless provider to maintain the small wireless facilities in place subject to any applicable pole attachment agreement with the pole owner; or
   II. Allow the wireless provider to replace the associated pole within 50 feet of the prior location in accordance with paragraph f.1-10.
g. Ground mounted equipment will be reviewed on a case-by-case basis and may be required to be spaced up to 15 feet from the associated support structure in areas where pedestrian, vehicular or aesthetic concerns are determined by the City.
h. A small wireless facility must meet reasonable location context, color, camouflage, and concealment requirements.

i. Applicants must include an attestation that the small wireless facilities will be activated for use by a wireless services provider to provide service no later than nine (9) months after the date the application is approved.
j. Applicants are subject to any local historic preservation zoning regulations and design criteria.
k. Nothing in this subsection authorizes a person to:
   I. Collocate or attach wireless facilities. including any antenna. micro wireless facility. or small wireless facility. on a privately-owned utility pole. a utility pole owned by an electric cooperative or a municipal electric utility. a privately owned wireless support structure. or other private property without the consent of the property owner.
   II. Collocate small wireless facilities or micro wireless facilities on a City utility pole or erect a wireless support structure in a location subject to covenants. conditions. restrictions. articles of incorporation. and bylaws of a homeowners' association.

5. Provisions for New Small Wireless Facility on Existing Utility Poles Inside City ROW.
   a. Small wireless facilities will be no larger in size than specified in the definition for these facilities.
   b. Height will be limited to 10 feet above the utility pole or structure upon which the small wireless facility is to be collocated.
   c. No portion of a small wireless facility will obstruct pedestrians or vehicular or bicycle access, obstruct sight lines or visibility for traffic, traffic signage or signals, or interfere with access by persons with disabilities.
   d. Within 14 days after the date of filing the application, the City may request that the proposed location of a small wireless facility be moved to another location in the ROW and placed on an alternative City utility pole or support structure or placed on a new utility pole, including any objective design standards and reasonable spacing requirements for ground-based equipment subject to the process described in subsection g. I-7.
   e. The City may reserve space on a City utility pole for future public safety uses. However, a reservation of space may not preclude collocation of a small wireless facility. If replacement of the City utility pole is necessary to accommodate the collocation of the small wireless facility and the future public safety use, the pole replacement is subject to the make-ready provisions of F.S. Sec. 337.401(7) and the replaced pole must accommodate the future public safety use.

6. Provisions for the Placement of a New Utility Pole or Replacement of Existing Utility Pole for Installation of Small Wireless Facility inside City ROW Small wireless facilities must be no larger in size than specified in the definition for these facilities.
   a. Installation of a new utility pole is subject to the City's Roadway Standards.
   b. Within 14 days after the date of filing the application, the City may request that the proposed location of a small wireless facility be moved to another location in the ROW and placed on an alternative City utility pole or support structure or placed on a new utility pole, including any objective design standards and reasonable spacing requirements for ground-based equipment subject to the process described in subsection g.1-7.

c. Height of a replacement pole can be up to 10 feet taller than the existing utility pole but must not exceed 50 feet in height. The City may allow a greater height on a case-by-case basis.
d. Height for a new utility pole will be limited to the tallest existing utility pole as of July 1, 2018, located in the same ROW, other than a utility pole for which a waiver has previously been granted, measured from grade in place within 500 feet of the proposed location of the small wireless facility. If there is no utility pole within 500 feet, the proposed wireless facility must be limited to a height of 50 feet. The City may allow a greater height on a case-by-case basis.
e. A replacement utility pole must be a substantially similar design, material, and color of the utility pole being removed including any lighting element.
f. A new utility pole used to support a small wireless facility to meet reasonable location context. color. and material of the predominant utility pole type at the proposed location of the new utility pole.
g. The City may waive designed standard described in 5 and 6 above upon a showing the design standards are not reasonably compatible for the particular location for a small wireless facility or utility pole or are technically infeasible or that the design standards impose an excessive expense. The waiver will be granted or denied within 45 days after the date of the request.
h. A photo rendering must be provided of the proposed new or replacement utility pole that depicts aesthetic features including, but not limited to, the use of colors and concealment with a before and after installation exhibit.
i. Ground-mounted equipment must be concealed through the use of (a) design wrapping, for the purpose of blending into the surrounding environment or (b) fencing or landscaping, consistent with the requirements of the Land Development Code, must be installed around the entire area of ground-mounted equipment. If fencing is utilized, additional landscaping may be required around the perimeter of the fence or wall and around any or all anchors or supports if deemed necessary to buffer adjacent properties. The City may require landscaping in excess of the requirements of the City code in order to enhance compatibility with adjacent residential and nonresidential land uses. Landscaping must be installed on the outside of the perimeter fence or wall. The City will determine which method of concealment is more appropriate for each set of ground-mounted equipment.

7. Approval Process for Small Wireless Facilities inside City ROWs.
   a. Completed and accepted registration from the Applicant.
   b. A ROW permit is required for small wireless facilities within the City ROW for work that involves excavation, affects traffic patterns or obstructs vehicular traffic within or along the City's ROW as provided in and subject to the City's Roadway Standards.
   c. A completed application and approved Land Use Permit.
   d. An applicant seeking to collocate small wireless facilities may file a consolidated application and receive a single permit for the collocation of up to 30 small wireless facilities. The City may separately address small wireless facility collocations for which incomplete information has been received or which are denied.
   e. Generally, the review timeline for an application is 60 days except as provided in g.v below. Additionally, the City and Applicant may mutually agree to extend the 60-day application review period.

f. Within 14 days after receiving an application, the City will determine and notify the applicant by electronic mail as to whether the application is complete. If an application is deemed incomplete, the City will specifically identify the missing information. An application is deemed complete if the City fails to provide notification to the applicant within 14 days.

g. If within 14 days after receiving an application, the City requests an alternative location of the proposed collocation, replacement utility pole or new utility pole as described in paragraphs 5.d and 6.b then the following process applies:
   i. The City will make a determination if the proposed application is complete or incomplete. If the application is deemed incomplete, the City will specify in writing the basis for denial, including the specific code provisions on which the denial was based, and send the documentation to the applicant by electronic mail on the day the City denies the application within the 14-day time period.
   ii. The request by the City to the applicant for an alternative location will be included in the deemed incomplete notification in writing and provided by electronic mail to the Applicant within 14 days as described in paragraph 7.f above.
   iii. For 30 days or other negotiated time period between the City and the Application after the date of the request, the City and the Applicant may negotiate the alternative location, including any objective design standards and reasonable spacing requirements for ground-based equipment.
   iv. At the conclusion of the 30 days or negotiation time period, if the alternative location is accepted by the Applicant, the Applicant must notify the City of such acceptance and the application will be deemed granted for any new location for which there is agreement and all other locations in the application.
   v. If an agreement is not reached, the Applicant must notify the City of such nonagreement and the City must grant or deny the original application within 90 days after the date the application was filed.

h. If within 14 days after receiving an application the City does not request an alternative location of the proposed collocation, replacement utility pole or new utility pole then the following process applies:
   i. The City will make a determination if the proposed application is complete or incomplete. If the application is deemed incomplete, then the City will provide, in writing, the basis for denial, including the specific code provisions on which the denial was based, and send the documentation to the Applicant by electronic mail on the day the City denies the application within the 14-day time period.
   ii. The Applicant may cure the deficiencies identified by the City and resubmit the application within 30 days after notice of the denial is sent to the applicant. Any subsequent review will be limited to the deficiencies cited.
   iii. The City will approve or deny the revised application within 30 days after receipt. The review of a revised application is limited to the deficiencies cited in the denial. If the revised application is not approved or denied within the 30 days after receipt, then the application is deemed approved.

iv. A complete application is deemed approved if the City fails to approve or deny the application within 60 days after receipt of the application.
v. If the City and Applicant mutually agree to extend the 60-day application review period, the City must grant or deny the application at the end of the extended period.
vi. If the City denies an application, the review will be complete, and a written decision will be issued within 45 days after a written request for review is made. A denial will identify the specific code provisions on which the denial is based. If the administrative review is not complete with 45 days, the City waives any claim regarding failure to exhaust administrative remedies in any judicial review of the denials of an application.
vii. An approved application permit will remain in effect for 1 year unless extended by the City.
viii. The City may deny an application on the basis that it does not meet any of requirements below:
    A. Materially interferes with the safe operation of traffic control equipment.
    B. Materially interferes with sightlines or clear zones for transportation. pedestrians. or public safety purposes.
    C. Materially interferes with compliance with the Americans with Disabilities Act or similar federal or state standards regarding pedestrian access or movement.
    D. Materially fails to comply with the 2017 edition of the FOOT Utility Accommodation Manual.
    E. Fails to comply with applicable codes.
    F. Fails to comply with objective design standards authorized in paragraphs 5.d and 6.b.

8. Appeals
    a. Any person aggrieved by a violation of this section may bring a civil action in a United State District Court or in any other court of competent jurisdiction.
    b. The court may:
        I. Grant temporary or permanent injunctions on terms as it may deem reasonable to prevent or restrain violations of this section; and
        II. Direct the recovery of full costs, including awarding reasonable attorney fees, to the party who prevails.

9. Certificate of Insurance
    At all times during the use or occupancy of the public rights-of-way, including any time during placement or maintenance of communications facilities, the Permittee must obtain, pay all premiums for, and maintain satisfactory to the City, insurance coverage insuring the Permittee and naming the City, its officers, boards, council, council members, agents and employees as additional insureds: workers' compensation and employer liability insurance to meet all requirements of Florida law and commercial general liability insurance with respect to the construction, operation and maintenance of the communications facilities, and the conduct of registrant's business in the City, in the minimum amounts of:
    a. $1,000,000.00 in any one accident for bodily injury, personal injury or death, property damage;

b. $500,000.00 for personal injury to any one person;
c. $250,000.00 for property damage in any one accident;
d. Business automobile liability insurance valid in the State of Florida which policy limit must be in an amount not less than $1,000,000.00 combined single limit, including bodily injury and property damage covering owned, leased, hired and non-owner vehicles.
e. Workers' Compensation valid in the State of Florida which policy limit must be in an amount not less than the statutory limit for Workers' Compensation.
f. Employer's liability insurance valid in the State of Florida which policy limit must be in an amount not less than $1,000,000.00 each accident for employer's liability.
g. All insurance providers used must be admitted and duly authorized to do business in the State of Florida and must have been assigned by A. M. Best Company a minimum Financial Strength Rating of "A" and a minimum Financial Size Category of "IX" {i.e., a size of $250,000,000.00 to $500,000,000.00 based on capital, surplus, and conditional reserve funds). Insurance policies and certificates issued by non-admitted insurance companies are not acceptable. All liability policies must name the City, its council members, officers, boards, agents and employees as additional insureds with respect to any covered liability arising out of the placement or maintenance of communications facilities in the public rights-of-way or other activities under this Chapter. Each communications services provider must furnish annually to the City certificates showing proof of all required insurance coverage. All liability coverage must be in occurrence form and in accordance with the limits specified. Claims made policies are not acceptable. No insurance policy must be canceled, nor must the occurrence or aggregate limits set forth herein be reduced, until the City has received at least 30 days' advance written notice by registered, certified or regular mail of any cancellation, intent not to renew or reduction in policy coverage. Each communications services provider must be responsible for notifying the City of such cancellation, intent not to renew or reduction in coverage. All certificate{s) of insurance, including all endorsements and riders, evidencing insurance coverage must be submitted to the City within 30 days after the date of registration with the City in order for a communications services provider to obtain a permit required for construction in the public rights-of-way. Each communications services provider must, in the event of any such notice described above, obtain, pay all premiums for, and file with the City, written evidence of the issuance of replacement policies within 30 days following receipt by the City or the communications services provider of such notice.
h. Nothing contained in this Chapter will limit a communications service provider's liability to the City to the limits of insurance certified or carried.
i. A communications services provider may satisfy the insurance requirements of this Chapter by providing documentation of self-insurance that, in the sole discretion of the City Manager, demonstrates incontrovertibly the adequacy to defend and cover claims of any nature that might arise from the placement and maintenance of facilities in the public ROW. The communications services provider must be authorized as a self-insurer by the Department of Insurance under the laws of the State of Florida.

7.01.03 Sidewalks and Bicycle Facilities

A. For the safety of pedestrians, all development shall provide sidewalks, except as otherwise provided in Section 7.01.03(B) as follows:

Table 7.01.03(A). Sidewalk Requirements

Functional Classification	Sidewalk Placement
Arterial	Both sides
Collector, City responsibility	Both sides
Local Streets	One side

B. For development in the RE district, sidewalks are not required along local streets.

C. When sidewalks have already been installed or approved on contiguous properties, new sidewalks will be provided consistent in location and width with the existing sidewalk pattern.

D. The required sidewalks shall comply with current standard specifications for City sidewalks and with all ADA requirements. Sidewalks shall be constructed to meet the following requirements:
   1. Sidewalks shall be sixty (60) inches wide, six (6) inches thick, 3,500 pounds per square inch concrete, with an expansion joint installed at a minimum of every twelve (12) feet and an expansion joint at the property line.
   2. If a bicycle path is adjacent to the sidewalk, the combined width of the sidewalk plus the bicycle path shall be no less than eighty-four (84) inches wide. All sidewalks and bicycle paths shall be elevated a minimum of one (1) inch, with a slope adequate for drainage.
   3. At driveway and street intersections, sidewalks and bicycle paths shall be sloped down to the grade of the street or driveway.
   4. All sidewalks and bicycle paths shall be immediately adjacent to the edge of the right-of-way unless otherwise approved by the City.

E. Bicycle parking shall be provided at multi-family developments on two (2) or more acres, parks and recreation facilities, and commercial establishments according to the following standards:
   1. The number of bicycle spaces required is as follows:

Table 7.01.03(E). Required bicycle spaces for specified uses.

Type of Use	Minimum Number of Bicycle Spaces
Parks and recreation facilities	1 space per 10 required vehicle parking spaces
Commercial uses	1 space per 25 required vehicle parking spaces
Multi-family development	1 space per 20 required vehicle parking spaces

   2. Bicycle parking spaces may be provided as either bicycle racks or other storage facilities, provided that the following standards are met:
      a. Facilities shall be designed to allow each bicycle to be secured against theft;
      b. Facilities shall be installed to resist removal;
      c. Facilities shall be installed to resist damage by rust, corrosion, or vandalism;
      d. Facilities shall accommodate a range of bicycle shapes and sizes and allow easy locking without interfering with adjacent bicycles; and
      e. Facilities shall be located not to interfere with pedestrian or vehicular movement.

7.01.04 Parking Standards and Parking Lot Design

A. Parking space requirements

1. Minimum off-street vehicular parking spaces shall be provided at the time of the construction of the principal building or at the time of the conversion of a building having a previously existing use to a more intensive use of the same property.
2. The minimum number of parking spaces shall conform to the standards in Table 7.01.04(A).
3. Due to the nature and character of properties within the central business district (C-3) and the Amelia River Waterfront Community Redevelopment Area waterfront lots containing industrial waterfront (I-W) or waterfront mixed use (W-1), the provision of off-street parking will not be required, except for triplex and multi-family dwelling units, lodging accommodations and bed and breakfast inns. For Triplex and Multi-family dwellings, off-street parking shall meet the Supplemental Standards in Section 6.02.32. Single Family and Duplex dwelling units shall meet the standards of the underlying zoning districts. For lodging accommodations and bed and breakfast inns the off-street parking requirements shall be satisfied within 1,000 feet of the property involved and as otherwise required under this chapter and any applicable Supplemental Standards.
4. Calculation of required parking
   a. Where floor area determines the amount of off-street parking required, the floor area of a building shall be the sum of the gross horizontal areas of every floor of the building, using exterior wall dimensions.
   b. For places of public assembly, the number of seats shall be the maximum occupancy load established for the building by the Fire Marshal.
5. Requirements for off-street parking for uses not specifically mentioned in this chapter shall be the same as required for the use most similar to the one sought.
6. Any development adjacent to a public beach access shall be prohibited from interfering in any manner with the public use of the beach access, including but not limited to blocking the parking, removing parking, or interfering with the normal flow of traffic within the beach access area.
7. Off-street parking may not exceed 10% of the required parking amount on any site.
8. Up to two (2) on-site internal non-illuminated signs per business may be allowed to designate specific on-site parking areas. Signs are exempt from permitting requirements and are limited to four (4) square feet and no tall than eight (8) feet.

Table 7.01.04(A). Parking Space Requirements

Type of Use or Activity	Minimum Number of Spaces
Assembly places (religious facilities, funeral homes, schools, theaters, auditoriums, arenas, civic centers, and facilities with an auditorium, sanctuary, or gathering place, whether fixed seats or open area)	1 space per 4 seats
Business and commercial activities, including retail sales, and business activities not otherwise specified	1 space per 300 ft² of gross floor area
Clubs and lodges (including fraternities, sororities, and	1 space per 4 seats in the largest

other social or civic membership organizations)	assembly area
Day-care and child-care centers	1.5 spaces per employee on the largest shift
Drive-in establishments	1 space per 60 ft² of gross floor area
Duplex dwellings	2 per unit[2]
Gasoline service stations	1 space per 350 ft² of floor area, plus 3 spaces per repair bay
Hospitals, nursing homes, rest homes, convalescent homes, assisted care facilities, other similar facilities, and other medical facilities providing overnight accommodations	0.25 spaces per 1 bed plus, 1 space for each 2 employees on the largest shift
Lodging accommodations, without restaurants or lounges	1space per sleeping room
Lodging accommodations, with restaurants or lounges	1space per sleeping room, plus 50% of the parking required by this section for the restaurant or lounge
Libraries and museums	1 space for each 500 ft² of gross floor area
Manufacturing, warehousing and industrial uses	1 space for each 2 employees on the largest shift, plus 1 space for each company vehicle operating from the premises
Marinas	0.5 space for each boat berth, plus 1 space per each 2 employees on the largest shift[1]
Medical offices and clinics	1 space per 250 ft² of gross floor area
Mortuary and funeral homes	1 space for each 4 seats in the chapel, plus 1 space for each 3 employees
Multi-family dwellings	2 spaces per dwelling unit[3]
Offices (general, professional, or government)	1 space per 300 ft² of gross floor area
Public parks and recreation facilities	1 space per 1,000 ft² feet of active use area
Restaurants, eating, drinking, or entertainment establishments (without drive-in facilities)	1 space per 50 ft² of the customer services area or 1 space per 250 ft² of the gross floor area for those establishments without customer service areas (such as take-out windows only)
Schools and educational uses; Elementary, middle, and junior high schools	2 spaces for each classroom, office, and kitchen
Schools and educational uses; High schools	6 spaces for each classroom, plus 1 space for each staff member
Schools and educational uses; Vocational, trade, and business schools	1 space per 300 ft² of gross floor area
Single-family dwellings	2 per unit[2]
Triplex dwellings	2 per unit[3]

[1]If a marina features a boat-launching ramp; at least fifty percent (50%) of the required parking spaces shall be designed to accommodate both a vehicle and boat trailer.

[2] Consistent with LDC policy 8.01.02(D)(4), Dwellings units within the CRA must provide two (2) spaces per dwelling unit on-site but are permitted the following exceptions: all units 1,000 sq. ft or under are only

required to provide one (1) space per dwelling unit on-site and all units 1,001-1,250 sq. ft are only required to provide one and one-half (1.5) spaces per dwelling unit on-site.

[3]Triplex and Multi-family dwelling units located in the Central Business District/ C-3 zoning and not within the CRA are required to provide parking as consistent with the supplemental standards directed in LDC Section 6.02.32.

B. Parking Flexibility – This section recognizes that minimum parking requirements, in certain circumstances, may result in excess provision of parking. Excess parking supply results in the inefficient use of land at the expense of additional landscaped areas, civic space, enhanced site design or building area and the reduction in subsequent tax revenue and employment opportunities. Therefore, off-street parking requirements may be met through additional and alternative measures provided in this subsection. These measures shall be requested during site plan review.

1. Shared Parking Provisions
   a. Shared parking may be applied when land uses have different parking demand patterns and can use the same parking spaces/areas throughout the day or night. Shared parking may also be applied when an existing development can demonstrate excess parking. Factors evaluated to establish shared parking arrangements shall include operating hours, seasonal/weekly/daily peaks in parking demand, the site's orientation, location of access driveways, accessibility to other nearby parking areas, pedestrian connections, distance to parking area, and availability of parking spaces.
   b. Shared parking is subject to an agreement that addresses the following:
      1. The agreement is valid only as long as the conditions described in the application for the shared parking exist, the City must be a party identified in the agreement requiring a signature from the City Manager, and the agreement must be in a form acceptable to the City Attorney recorded with the Nassau County Clerk of Courts.
      2. A copy of the recorded agreement shall be submitted to the City Attorney and City Manager within ten (10) days of its recording.
2. Off-Site Parking – Up to 50% of the overall required parking may be met in off-site parking areas through a shared parking agreement. The off-site parking area must be located within 600 feet walking distance of the structures' nearest public entrance. A pedestrian connection providing a safe, well lighted walking environment shall be required. No more than two (2) off-site non-illuminated signs per business shall be allowed in order to designate or direct use of off-site parking spaces. Signs are exempt from permitting requirements and are limited to four (4) square feet and no taller than eight (8) feet.
3. Existing Sites – If the parking deficit on an existing site is within 20% of the required additional parking generated by proposed alterations or expansions in use then, those spaces may be provided in unimproved parking areas.
4. Valet Parking – On-site or off-site valet parking is permitted. All off-site locations shall require a recorded parking agreement, meeting the requirements for shared parking arrangements. Motor vehicles may be stacked for valet operations.
5. The City may require, or an applicant may request, the elimination of up to 20% of the required parking spaces in order to preserve specimen trees. The site plan shall show the location of all required parking and the spaces eliminated to preserve the trees.

6. On-Street Parking – The City Manager may grant a parking waiver for use of on-street parking spaces immediately adjacent to the site of a commercial use, not to exceed 10% of the required parking spaces when the following conditions exist:
   a. On-street parking is permitted on both sides of the right-of-way;
   b. Sufficient improved right-of-way width is evidenced and maintained;
   c. A linear length of at least 25 feet along the right-of-way for each alternative space;
   d. On-street spaces shall not be located closer than 30 feet from an intersection or 15 feet from a driveway;
   e. The maximum utilization of other off-street parking alternatives for the commercial site shall be implemented prior to the granting of a parking waiver.

C. Parking lot design requirements

1. All parking areas shall be arranged for convenient access and safety of pedestrians, bicyclists, and vehicles. All new non-residential development parking lots shall be located in the side or rear of buildings. All non-residential redevelopment shall incorporate strategies for masking parking areas and creating a more pedestrian-oriented environment whereby the majority of required parking is screened through landscaping or other design strategies.
2. Parking Material: All new and redeveloping properties shall incorporate the use of pervious parking materials for a minimum of 75% of the required parking. Pervious parking materials that require regular maintenance through activities such as, vacuum sweeping, must demonstrate their ability to perform regular maintenance of the site. Pavement systems must be maintained in a smooth, well-graded, and drained condition. Parking materials may consist of standard paving, pavers and alternate paving systems. Use of grass or alternate lawn surface as parking material may be considered for up to one-third (1/3) of the required off-street parking facilities. All accessible spaces must comply with all requirements set by ADA.
3. All parking areas shall be adequately drained and maintained in a dust-proof condition. All non-residential developments parking lots shall incorporate the use of Low Impact Development (LID) facilities such as use of pervious paving materials or pervious pavers, open section drainage, vegetative swales, and bio retention basins that exhibit unique design characteristics. The design of the parking lot shall be incorporated into the development's stormwater management plan.
4. Parking areas shall be designed with consideration given to future shared parking arrangements. All non-residential site development shall be designed to allow for vehicular cross accesses to adjacent non-residential properties. Where there are existing stub-outs on adjoining properties, the site under review shall complete the connection. The cross access must be designed to the same standards as internal circulation within the parking and circulation area.
5. If the parking area is artificially lighted:
   a. All lighting shall be designed, arranged, and constructed such that no source of such lighting is visible from any adjoining or nearby property used or zoned for residential purposes.
   b. All lighting shall be designed, arranged, and constructed to shield public roadways and all other adjacent properties from direct illumination.
   a. For all areas adjacent to beach areas, the lighting shall be designed, arranged, and constructed consistent with Section 3.05.02 of the LDC regarding outdoor lighting in beach areas.
6. Individual spaces and internal aisles shall be designed according to the standards below;

a. Parking space dimensions shall be a minimum of nine (9) feet by eighteen (18) feet.
b. The number, design, and location of accessible parking spaces shall comply with the ADA standards for accessible design.
c. The minimum width for a one-way internal aisle shall be twelve (12) feet, and the minimum width for a two-way internal aisle shall be twenty-two (22) feet.

7. When drop-off areas are provided, the drop-off area shall be fully separated from driveways and parking areas. The separate drop-off area shall allow a person to enter or exit a vehicle directly to a sidewalk abutting the entrance to an establishment.
8. The atmosphere of parking lots for all non-residential developments is intended to be park like and shall comply with all landscaping provisions for parking areas contained in LDC Section 4.05.06. All parking areas shall be designed with landscaping and buffering which serve to reduce heat-island effect.

D. Pedestrian circulation

1. Large retail development projects shall provide parking areas that enhance pedestrian safety, efficiency, and connectivity with a clear definition between vehicular areas and pedestrian walkways.
2. Pedestrian and vehicular circulation systems are required to be adequately separated for pedestrian safety. Pedestrian connectivity between building entrances and parking areas shall be clearly indicated through the use of landscaped areas; walkways made of materials such as scored concrete, pavers, or bricks; or paint striping.
3. Internal pedestrian walkways, located between two (2) rows of parking spaces and not in the vehicular aisles, shall be provided at focal points of pedestrian activity, such as store entrances. Additionally, such walkways shall be at least five (5) feet wide and shall include landscaping adjacent to the walkways.
4. New and redeveloping non-residential properties shall, where feasible, be required to provide or enhance pedestrian connectivity to adjacent residential neighborhoods.
5. New and redeveloping non-residential properties shall, where feasible, be required to establish pedestrian connections to the transportation network including but, not limited to, sidewalks, bike lanes or trails, or transit systems.

7.01.05 Specific Parking Restrictions for Commercial Vehicles, Recreational Vehicles, Boats, and Trailers

A. Prohibitions

Any commercial motor vehicle which has a gross vehicle weight of 8,000 pounds or more shall not be parked in any residential, commercial, wetland protection, or recreational district or area, except as otherwise provided in Section 7.01.05(B).

B. Exceptions

The prohibition in Section 7.01.05(A) shall not apply to parking of such vehicles in the specified districts or areas:

1. For the time required for normal loading and unloading of such vehicles; or
2. For the time required to perform the legally permitted service provided by such vehicles.

C. Mobile homes, travel trailers, travel campers, recreational vehicles, and similar vehicles regularly or periodically utilized for dwelling purposes shall not be parked overnight in any zoning district except in an area specifically designated by this LDC for that purpose. Mobile homes, travel trailers, travel campers, recreational vehicles, and similar vehicles, when unoccupied, may be parked or stored in a completely enclosed building, a carport attached to a principal building, or in a side or rear yard.

D. Boats, boat trailers, utility trailers, and similar vehicles shall not be parked overnight in any zoning district except in an area specifically designated by this LDC for that

purpose. Such vehicles, when unoccupied, may be parked or stored in a completely enclosed building, a carport attached to a principal building, or in a side or rear yard.

7.01.06 Loading Space Standards and Design

A. Off-street loading spaces shall be provided as follows:
   1. Commercial centers, commercial uses, hotels, hospitals, and institutional uses with less than 10,000 square feet of gross floor area shall provide one (1) off-street loading space.
   2. Commercial centers, commercial uses, hotels, hospitals, and institutional uses with 10,000 square feet or more of gross floor area shall provide one (1) space for the first 10,000 square feet of gross floor area, plus one (1) space for each additional 20,000 square feet, or fraction thereof.
   3. Industrial uses shall provide one (1) space for each 10,000 square feet of gross floor area.
   4. Offices shall provide one (1) space for each 20,000 square feet of gross floor area.

B. Off-street loading spaces shall meet the following design requirements:
   1. Loading spaces shall not block streets, alleys, or sidewalks. Loading spaces shall not impair the movement of vehicles or pedestrians on streets, alleys, or sidewalks.
   2. Every loading space shall meet the following minimum dimensions:

Length	30 feet
Width	12 feet
Height	14 feet

7.01.07 Drive-Through Facilities and Stacking Lanes

A. All uses and facilities providing drive-up or drive-through service shall provide stacking lanes in compliance with the standards of this section.
B. Restaurants with drive-up or drive-through facilities shall provide a minimum stacking space to accommodate eight (8) vehicles. A by-pass lane shall be required.
C. Banks and financial institutions shall provide stacking spaces according to Table 7.01.07(C). A by-pass lane shall be provided.

Table 7.01.07(C). Stacking Lane Requirements for Banks and Financial Institutions.

Number of Drive-Through Lanes	Total Number of Vehicles to be Accommodated
1	8
2	12
3	18
Each additional lane	2 additional vehicles accommodated

D. A solid wall or fence shall be provided along a property line abutting lots or parcels zoned for residential purposes in order to block lights from vehicles in the stacking lanes or drive-through facility.
E. Stacking lanes shall not be located within a designated delivery area or area designated for loading spaces.

7.01.08 Visibility at Intersections

A. In order to provide a clear view of intersecting rights-of-way and/or private driveways, there must be a triangular area of clear visibility formed by the two (2) intersecting rights-of-way, driveways, or combination thereof.
B. The horizontal dimensions of sight areas are defined as consistent with the most recent edition of the Florida Department of Transportation (FDOT) Design Manual for clear sight triangles and as determined by the type of traffic control and design speed of the roadways.
C. The vertical dimensions of sight areas are defined as that vertical space between the heights of eighteen (18) inches and ten (10) feet in elevation above the nearest edge of the street pavement of a paved street or above the nearest edge of the riding surface of an unpaved street.
D. Within the clear visibility triangle area, no fence, wall, sign, structure, slope or embankment, parked vehicle, hedge, foliage or other planting, and other object or structure may be placed, erected, or maintained which will obstruct visibility.
E. All landscaping must comply with the most current edition of the FDOT Roadway and Traffic Design Standard, regarding visibility triangles. Tree trunks, palms, and supporting columns or posts are permitted within the clear area, provided that their location does not itself create a traffic hazard and the area is free of limbs and foliage. Landscaping, except grass or ground cover, cannot be located closer than three (3) feet from the edge of any driveway pavement.
F. The requirements of this section shall not be deemed to prohibit any necessary retaining wall.
G. Streetlights and street name signposts are also permitted, provided that illuminating fixtures or nameplates are not within the prescribed clear space.

7.02.00 REQUIREMENTS REGARDING POTABLE WATER, SANITARY SEWER, AND OTHER UTILITIES

7.02.01 Requirements for All Utilities

A. All utilities required by this LDC shall meet or exceed the minimum standards contained in the City of Fernandina Beach Utility Department "Engineering and Construction Requirements" Standards Volume 2 or the most recent edition.
B. Each development shall contain improvements designed and constructed according to the requirements and specifications of this chapter and applicable policies, rules, regulations, and ordinances of the City and the laws of the State. The following services and facilities are required improvements:
   1. Streets designed and constructed for public use according to the standards and requirements of this chapter;
   2. Sidewalks designed and constructed for public use according to the standards and requirements of this chapter;
   3. Approved street signs, markers, traffic signs, and signals to control and circulate traffic within the street pattern within the subdivision in accordance with the Uniform Manual of Traffic Control Devices, published by USDOT;
   4. Drainage and stormwater management facilities designed and constructed according to the standards and requirements of this chapter;
   5. A sanitary sewerage system based on the standards and requirements contained in the City of Fernandina Beach City of Fernandina Beach Utility Department "Engineering and Construction Requirements" Standards Volume 2 or the most recent edition, except as provided in Section 7.02.02(B) or (C);

6. A potable water system based on the standards and requirements contained in the City of Fernandina Beach Utility Department "Engineering and Construction Requirements" Standards Volume 2 or the most recent edition.
7. Parks and recreation dedication, as specified in Section 4.04.04(L);
8. Electricity, telephone, cable, gas, and other utilities;
9. A fire hydrant system in accordance with Section 7.02.02(D); and
10. Such other improvements as are deemed necessary to comply with the requirements of this chapter and to protect the public health, safety, and welfare because of topography or other conditions of the tract.

C. When water, sewer, electrical power, telephone, or cable television facilities are installed and intended to be owned, operated, or maintained by a public utility or any entity other than the property owner or developer, the ownership of such utility or facility shall be transferred to the service provider.

D. All lines for electricity, telephone, cable television, streetlights, and gas distribution (exclusive of transformers or enclosures containing electrical equipment, including, but not limited to, switches, meters, or capacitors) shall be placed underground within easements or dedicated public rights- of-way.

7.02.02 Standards for Installation of Potable Water and Sanitary Sewer Facilities

A. All development within the City shall be required to connect to a public water system.

B. All infill development shall be required to connect to a public sewer system when the City's sanitary sewer system is within a 1,000 feet radius of the property line of the development.

C. Where the City sanitary sewer system is not within a 1,000 feet radius of the property, private systems may be accepted provided they meet all City, County, and State requirements, including Section 7.02.03.

D. Fire hydrant systems shall be installed and made usable prior to any combustibles being brought onto the construction site, and shall meet the minimum requirements established by the fire chief for residential development:

1. Whenever possible, all water systems shall be looped. Water mains shall not be less than six (6) inches in diameter when used in a looped system. Water mains, when used in a dead-end system, shall not be less than eight (8) inches in diameter. A hydraulic flow analysis by a Florida registered professional engineer, which shall include pressure drop at maximum flow of all hydrants connected to the radial (not less than twenty (20) PSI), shall be furnished. Fire hydrants shall be placed no more than 500 feet apart.
2. Each hydrant shall have one (1) 4.5-inch outlet and two (2) 2.5-inch outlets, and all outlets shall have National Standard Threads (NST). All hydrants shall be installed with 4.5-inch outlets facing the street and shall be placed such that the center of the 4.5-inch outlet is no less than eighteen (18) inches above the finished grade and no more than thirty-six (36) inches above the finished grade. Specifications for hydrants shall meet or exceed the minimum standards contained in the Florida Fire Prevention Code.

7.02.03 Standards Regarding Septic Tanks

A. On-site wastewater treatment systems shall be limited to lots currently using septic tanks, except as provided in Section 7.02.02(C).

1. No septic tank other than those approved and permitted by the State Department of Health § 381.0065, *F.S.,* shall be used in the City.
2. Septic tanks in use at the time of adoption of the LDC may remain in service until

local sanitary sewer service is made available to the residents, consistent with County Health Department requirements.

B. All new development shall be required to connect to the central sewer system, except as provided in Section 7.02.02(C).

7.02.04 Standards Regarding Reclaimed Water Facilities

(RESERVED)

7.03.00 REQUIREMENTS REGARDING DRAINAGE AND STORMWATER MANAGEMENT

7.03.01 Generally

A. The purpose of the stormwater management requirements set forth in this section is to minimize the detrimental effects of stormwater runoff and to provide for mitigation of stormwater impacts from new development and redevelopment.

B. The regulations in this section are intended to:
   1. Provide maximum water quality and habitat benefits;
   2. Provide retention/detention of stormwater runoff to maintain surface water quality, ensure percolation, and reduce contamination to drainage canals, surface water, and groundwater;
   3. Prevent any development activity that would endanger lives and harm property, water quality, or environmental systems;
   4. Preserve natural lakes, creeks, other water courses, and natural drainage features;
   5. Encourage the use of stormwater management systems for urban landscape irrigation; and
   6. Prevent creation of flood hazards due to new development.

C. The requirements of this LDC do not supersede those of other State, federal, or regional agencies. All applications for development shall include proof of a permit or exemption from SJRWMD.

7.03.02 Applicability and Exemptions

A. All proposed development, except as specifically described in this section, shall comply with the standards and criteria set forth in Section 7.03.00.

B. No drainage system, whether natural or manmade, shall be altered, designed, constructed, abandoned, restricted, or removed without prior written approval of the City and all appropriate State and federal agencies.

C. The following activities may alter or disrupt existing stormwater runoff patterns, and unless specifically exempted under Section 7.03.02(D) below, shall be authorized only through issuance of a stormwater management permit prior to initiation of development:
   1. Clearing and/or drainage of land prior to construction of a project;
   2. Altering the shoreline or bank or any surface water body; or
   3. Altering any ditches, dikes, terraces, berms, swales, or other water management facilities.

D. The following development activities are exempt from the requirements of this section:
   1. Single-family dwellings and associated accessory structures, provided they are within a subdivision having a valid stormwater management permit and properly operating stormwater management systems designed and sealed by an engineer;
   2. Maintenance, alteration, or improvement of an existing structure where it has been determined by the City that such maintenance, alteration, or improvement will not

change the peak discharge rate, volume, or pollution load of stormwater runoff from the site on which that structure is located;

3. Activities that are not considered development; and
4. Emergencies requiring immediate action to prevent material harm or danger to persons, when obtaining a permit is impractical and would cause undue hardship in protection of property from fire, violent storms, hurricanes, or other hazards. A report of the emergency shall be made to the City Manager as soon as practicable.

7.03.03 Standards for Stormwater Management

A. All development must comply with the specifications, standards of design, and detailed technical requirements provided in the manuals adopted by reference in Chapter 1.
B. No subdivision must be platted, nor must construction commence for any single-family, multi-family, commercial, industrial, or institutional project, until the drainage design for such project has been approved by the City, and proof of permit from the SJRWMD, the USACOE, if applicable, and the Amelia Island Mosquito Control District, has been provided to the City.
C. The drainage design plans for the project must be prepared, signed, and sealed by a Florida registered professional engineer.
D. All drainage facilities and easements must be documented to ensure the City that capacity and right-of-way are adequate from the source, through the development, to the receiving body of water, without adversely affecting upstream or downstream properties. Any improvements or increase in capacity of those facilities required to keep the project in compliance with all applicable regulations must be made at the expense of the applicant.
E. Stormwater Management systems must be designed in accordance with LDC Section 3.05.03.

7.04.00 REQUIREMENTS REGARDING CONCURRENCY

7.04.01 Generally

The provisions of this section ensure that public facilities and services needed to support proposed developments are available concurrent with the impacts and consistent with the adopted level of service standards. A concurrency certificate shall be required prior to the issuance of any local development order or development permit.

7.04.02 Applicability

A. Unless specifically exempted below, the terms and provisions of this section apply to all lands and to all development within the City.
B. The following proposed development is exempt from a determination of concurrency, except that the developer shall submit a concurrency certificate application as provided for in this section:
    1. Developments that possess a valid, unexpired building permit at the time of adoption of this LDC.
    2. An amendment to a local development order that does not result in increased impacts as stated in the concurrency certificate.
    3. Local development orders and permits that may be needed for:
        a. Accessory structures as defined in Chapter 5.
        b. Additions or changes to approved existing residential structures that will not result in an increase in dwelling units.

c. Changes in use that do not result in greater impervious surface on the lot or trip generation rates for the new use as compared to the existing use.

7.04.03 Facilities Subject to Concurrency

A. The following facilities and services are subject to concurrency requirements: potable water, sanitary sewer, drainage, parks and recreation, solid waste, and roadways.
B. The level of service standards for facilities subject to concurrency are set forth in the Comprehensive Plan.

7.04.04 Requirements for Determinations of Concurrency

A. A concurrency determination shall be made as follows;
   1. As part of the application and review process for a site plan for development subject to supplemental standards, a preliminary subdivision plat, or a PUD site plan;
   2. At the time of application for a building permit when the proposed building has not been the subject of a concurrency determination; or
   3. At the time of the issuance of a local development order.
B. A concurrency determination shall be valid for one (1) year, unless otherwise specified, and renewable for one (1) year.
C. A determination that concurrency standards are satisfied is a requirement for the issuance of a local development order or building permit. (See Chapter 11 for requirements and procedures regarding local development orders.) If an application meets concurrency requirements, a specific finding shall be included in the approval.
D. The burden of proof to demonstrate compliance rests with the applicant. The concurrency determination shall compare the impacts of the proposed development on each public facility or service identified in Section 7.04.03(A) with the available capacity for each facility or service at the adopted level of service standard.
   1. Capacity availability shall be based upon the total capacity of the facility at the adopted level of service standard, minus the capacity required to meet the needs of existing development, and minus the capacity reserved for developments with valid, unexpired building permits or local development orders.
   2. Capacity availability shall be verified with documentation from service providers which indicates that capacity is available and that capacity shall be reserved for the proposed development when a local development order or building permit is issued.
   3. A concurrency determination that is based upon facilities that are under construction or guaranteed in an enforceable development agreement shall be accompanied by documentation from the service provider that the facility or service will be available as described in the conditions of the local development order or building permit.
   4. Where a proposed development cannot meet the concurrency requirements, the project may be approved in stages or phases. A local development order or building permit shall be issued only for the stage or phase that meets the concurrency requirements as set forth herein.

7.04.05 Requirements for Transportation Concurrency

A. For all proposed developments that will generate more than 400 average daily trips, the applicant shall apply for a traffic concurrency determination from the Northeast Florida Regional Council.

B. For concurrency determinations regarding transportation facilities, the local development order or building permit shall only be issued if the necessary facilities and services are in place and available or under construction at the time the development order is issued; or
C. The development order or building permit may be issued subject to a condition that the necessary facilities will be in place prior to issuance of a certificate of occupancy and that the certificate of occupancy will not be issued unless the necessary facilities are in place; or
D. The development order or building permit may be issued when the necessary facilities are specifically identified and guaranteed in an enforceable development agreement, which includes the following conditions:
   1. Commencement of actual construction of the facilities within three (3) years following issuance of the certificate of occupancy; or
   2. Provision of facilities and services within three (3) years following issuance of the certificate of occupancy.
E. In order for an application to be eligible for conditional approval subject to the requirements of Section 7.04.05(B) above, the facilities shall be included in the adopted Five (5) Year Capital Improvements Element of the Comprehensive Plan.
F. For the purpose of issuing a local development order or building permit, a proposed development may be deemed to have a de minimis impact and may not be subject to the concurrency requirements, only if all of the following conditions are met:
   1. The transportation impact of the proposed development alone does not exceed one-tenth (0.1) percent of the maximum service volume at the adopted level of service standard for the peak hour of the affected transportation facility; and
   2. The cumulative total transportation impact from all de minimis exemptions does not exceed three (3) percent of the maximum service volume at the adopted level of service standard of the affected transportation facility if the facility does not meet the minimum level of service standard.

7.04.06 Requirements for Concurrency for Sanitary Sewer, Solid Waste, Drainage, and Potable Water

A. For concurrency determinations regarding sanitary sewer, solid waste, drainage, and potable water facilities, the development order or building permit shall only be issued subject to the condition that at the time of issuance of a certificate of occupancy the facilities and services necessary to meet and maintain the adopted level of services are in place and available for the proposed development; or
B. The necessary sanitary sewer, solid waste, drainage, and potable water facilities are guaranteed in an enforceable development agreement pursuant to 163.3220, *F.S.* or Chapter 380, *F.S.,* such that the facilities and services will be in place and available at the time of issuance of a certificate of occupancy.

7.04.07 Requirements for Concurrency for Parks and Recreation

A. For concurrency determinations regarding parks and recreation, the local development order or building permit shall only be issued if the facilities and services necessary to meet and maintain the adopted level of service are in place and or under construction at the time a local development order is issued; or
B. The necessary facilities are scheduled to be under construction within one (1) year following issuance of the certificate of occupancy is issued; or

C. The local development order or building permit may be issued when the necessary facilities are specifically identified and guaranteed in an enforceable development agreement, which includes the following conditions:
   1. Commencement of actual construction of the facilities within one (1) year following issuance of the local development order or building permit; or
   2. Provision of facilities and services within one (1) year following issuance of the local development order or building permit.

8.00.00 GENERAL PROVISIONS

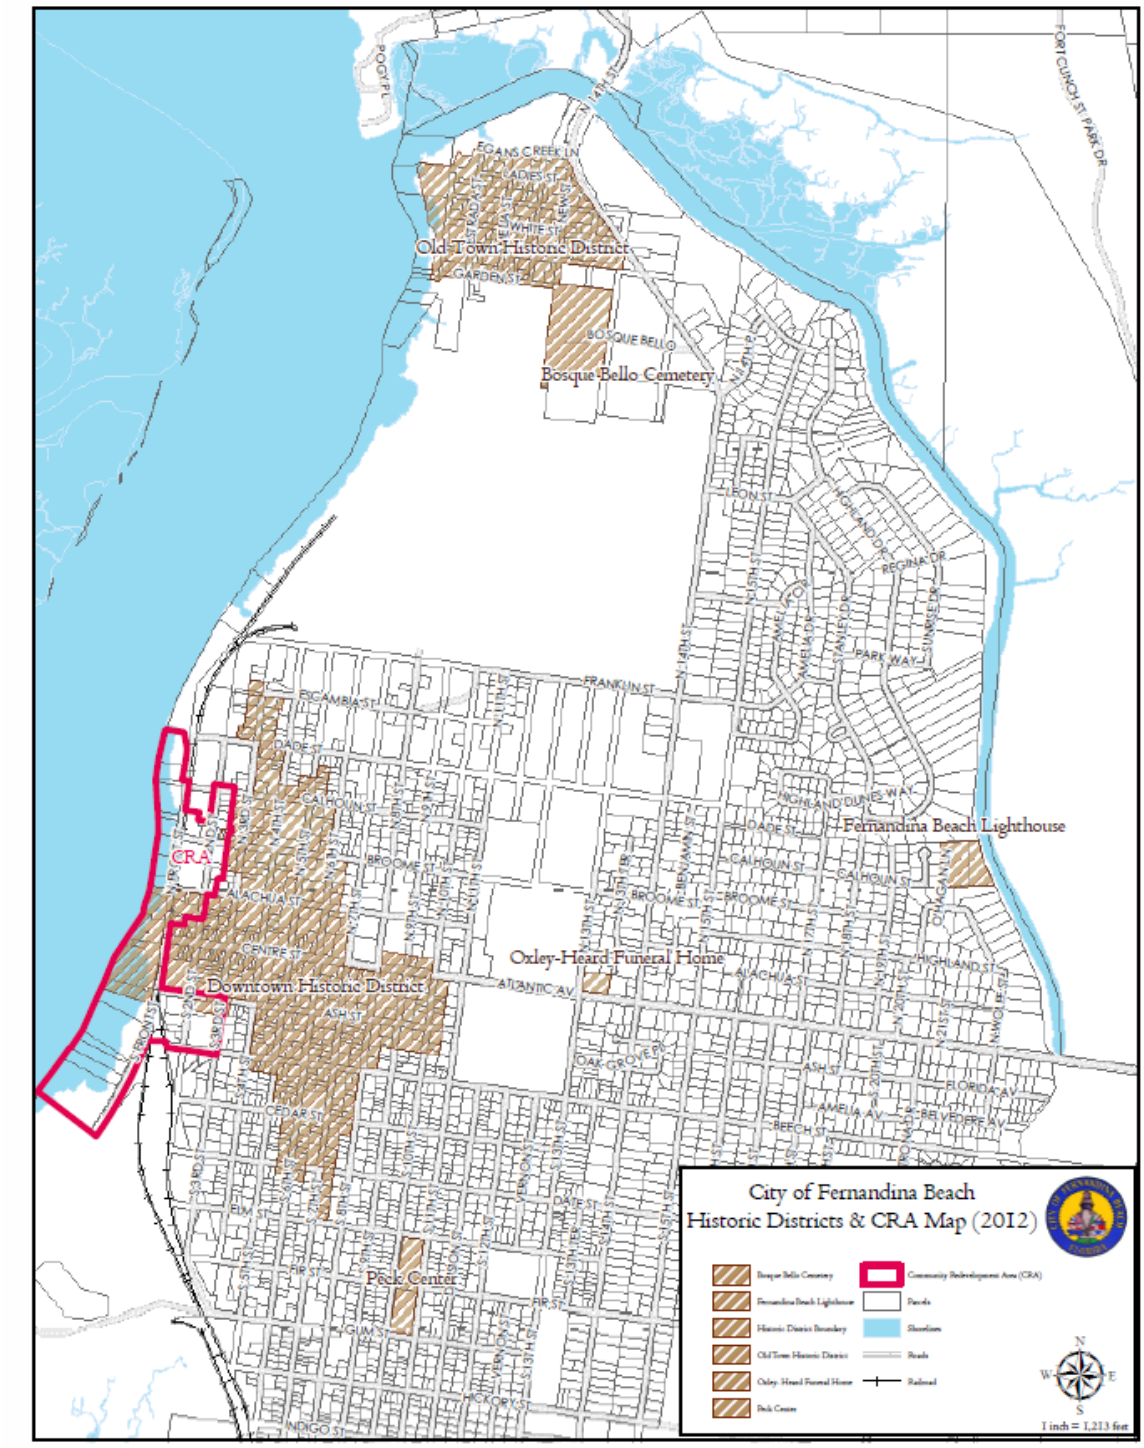
8.00.01 Intent

It is declared as a matter of public policy that protection, enhancement, perpetuation and use of sites of aesthetic, archaeological, architectural, cultural, historical and paleontological merit or value is in the interests of the health, prosperity, safety and welfare of the people of Fernandina Beach. The City Commission finds that the irreplaceable loss of these resources to the community would detrimentally affect the community as a whole. It is therefore the intent of this chapter to:

A. Effect and accomplish the protection, enhancement and perpetuation of buildings, structures, improvements, sites, districts, landscape features, and archaeological and paleontological resources that represent distinctive elements of the City's architectural, cultural, economic, natural, political, prehistoric, religious, scientific, and social history;
B. Safeguard the City's architectural, cultural, economic, natural, political, prehistoric, religious, scientific and social heritage, as embodied and reflected in such structures, sites, and districts;
C. Foster awareness and pride in the accomplishments and events of the City's past;
D. Protect and enhance the City's attraction to residents, tourists, and visitors, and serve as an economic stimulus to business and industry;
E. Stabilize and improve property values and encourage compatible redevelopment;
F. Enhance the visual and aesthetic character of the City; and
G. Promote the use of individual structures, sites, and districts for the education, leisure, and welfare of the people of Fernandina Beach.

8.00.02 Purpose

In addition to protecting and preserving the historic, cultural and archaeological resources of Fernandina Beach, the City Commission declares its intention to maintain the City of Fernandina Beach Certified Local Government status with the Florida Division of Historic Resources. The City shall comply with the rules and regulations of the Division of Historic Resources pursuant to the Certified Local Government program.



8.00.03 Relationship to Comprehensive Plan

The following standards implement Goal 11: Historic Preservation Element of the Fernandina Beach Comprehensive Plan to identify, preserve, and protect historic and cultural resources within the City.

8.00.04 Historic District and Community Redevelopment Area boundaries.

A. Historic district boundaries are established in City of Fernandina Beach ordinances 526, 749, 846, 95-12, 97-24, and 2010-24.
B. Community Redevelopment Area boundaries are established in City of Fernandina Beach ordinances 2004-33, 2004-71, 2004-145, 2005-91, and 2005-113.

Figure 8.00.04. Map of Historic District and CRA Boundaries

8.01.00 Standards for Development in the Historic Districts and Community Redevelopment Area

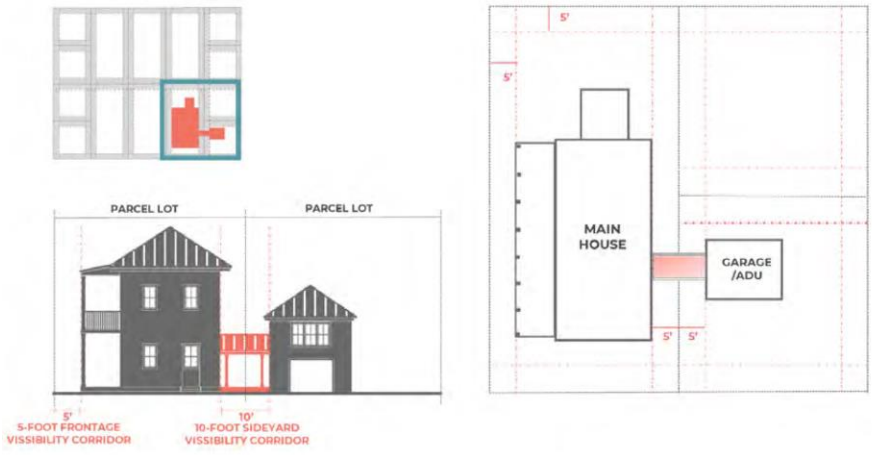
8.01.01 Historic District Overlays

8.01.01.01 Standards for Development in the Historic District Overlays

A. The review of proposed development within the Historic District Overlays must be based upon the latest edition of *Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings* from the U.S. Secretary of Interior.
B. The review of proposed development within the Historic District Overlay must also be based upon compliance with the Downtown Historic District Guidelines, dated December 1999, as amended from time to time. The review of proposed development within Old Town must be based upon compliance with the Old Town Preservation and Development Guidelines, dated June 1999, as amended from time to time.
C. In addition to standards applicable to the underlying zoning district, new construction within the Historic District Overlay must be compatible with the existing character of the landmark or the district. Compatible design means architectural design and construction that will fit harmoniously into the district or the landmark site. New construction must be compatible in scale, materials, and quality of construction with adjacent buildings and structures that have been designated.
D. The following features must be considered by the Historic District Council in the evaluation of proposed new construction, as such features comply with the guidelines referenced in Section 8.01.01.01(A) and (B) above:
    1. Scale, including height and width;
    2. Setbacks;
    3. Orientation and site coverage;
    4. Alignment, rhythm, and spacing of buildings;
    5. Form and detail, considering the link between old and new buildings;
    6. Maintaining materials within the district or on the landmark site;
    7. Maintaining quality within the district or on the landmark site;
    8. Facade proportions and window patterns;
    9. Entrances and porch projections;
    10. Roof forms;
    11. Horizontal, vertical, or non-directional emphasis; and
    12. Electrical or mechanical systems, garbage collection facilities, and exterior mounted modern devices as provided herein.
E. Fences proposed within designated historic districts must be compatible with the historic style and character of the district, must not be vinyl, and must require a certificate of appropriateness, as set forth in Chapter 11.
F. Automatic Teller Machines, or ATMs, are generally incompatible with the character of the Historic District and their placement should be carefully considered prior to undergoing any rehabilitation project. The installation of ATMs can disrupt the streetscape by replacing historic character defining open storefronts with solid panels or by causing irreversible damage to historic materials. For these reasons, every effort should be made to install an ATM on the interior of a building. If an ATM cannot be located on the interior, they should be installed in a manner that is reversible and does not damage or obscure a character-defining feature of the building. ATMs should be installed on the sides and rears of buildings whenever possible. Freestanding ATM enclosures are not permitted.

G. For properties within the boundaries of the Historic District, CRA, and Old Town: All rooftop mechanical equipment must be screened from view to adjacent properties and rights-of-way by utilizing parapets or other screening elements that are integrated into the overall architecture of the structure and constructed using materials and methods that are consistent with those used on the building.
H. Exterior mounted modern devices such as televisions, monitors, or projection screens must be designed and installed to be directed and visibly shielded away from all public rights-of-way and any residentially zoned or used adjoining properties.

8.01.01.02 Specific Requirements within the OT-1 and OT-2 Zoning Districts



A. A peonia is a lot within the Old Town Historic District. The peonia lot is 46.5 feet by 93 feet or 4,324.5 square feet.
B. Construction of a dwelling unit on a media (one-half (½) of a peonia) peonia shall require that such media peonia be joined with an abutting media peonia or peonia in order to comply with the maximum density established in Section 4.01.01.
C. General requirements
   1. Guidelines adopted by reference: The Old Town Preservation and Design Guidelines are hereby adopted by reference and incorporated herein.
   2. Purpose in the Old Town Historic District, the major emphasis is on building placement according to the historic plan and appropriate scale and construction, rather than architectural styles. Building form is discussed in the context of building typology rather than architectural styles. Typological discussions concentrate on the architectural elements that make a building compatible with the context of Old Town. Variances to the guidelines may be granted based on architectural merit. These regulations do not supersede existing codes covering health and safety issues.
   3. Building types
      a. A primary building is defined as the principal unit of occupancy. While this usually refers to a private dwelling unit, it also applies to appropriate commercial buildings allowed in the OT-2 zoning district.
      b. Outbuildings are ancillary to the primary building in size and degree of occupancy. Outbuildings may be attached by connecting elements or remain detached. Outbuildings include, but are not limited to, garages, storage sheds, greenhouses, workshops, gazebos, and playhouses.
      c. Connecting elements are those architectural components that link primary and outbuildings with each other or act as a transition to the landscape. Connecting elements are considered to be open spaces that are not climate controlled. Connecting elements create openness and give human scale to the building elements and allow owners to take advantage of the climate. Connecting elements include, but are not restricted to, porches, pergolas, colonnades, loggias, breezeways, and carports. The design of connecting elements must be compatible with the typology and scale of the building elements; however, these elements can take on many inventive forms to achieve this result. Additions of connecting elements to registered historic structures must comply with required yard corridor dimensions and must be taken on with great care from both an architectural and technical point of view.
D. The total lot coverage of all building elements on one (1) peonia shall not exceed forty-five (45) percent.

E. No more than one (1) primary building shall be placed on one (1) peonia.
F. The number of outbuildings is limited by the total square footage requirements and the dimensions set out for these buildings but not by number.
G. The space between an outbuilding and a primary building shall be a usable space of not less than five (5) feet. The use of connecting elements to link primary and outbuildings with indoor-outdoor space is strongly encouraged. Connecting elements and landscape elements are excluded from building separation requirement to encourage the design of spaces that take advantage of the climate. Thus, enclosed square footage may be easily expanded by the precise use of connecting elements such as porches and breezeways.
H. Garages and outbuildings that house more permanent types of occupancy, such as an accessory dwelling, must not exceed 500 square feet in area, per level, cannot exceed 24 feet in height, must not contain a kitchen, and cannot be rented out. The area of all other outbuildings is limited to 350 square feet and cannot exceed 16 feet in height.
I. Nonresidential structures shall have sites of sufficient area for the structures to meet minimum requirements in this section.
J. Lot visibility corridors

The term "visibility corridor" is used in place of "setbacks" to emphasize the spatial effect of building placement. Careful siting of properly scaled building elements on a lot ensures that the historic lot divisions remain visible regardless of the architectural style or number of buildings that exist within the City at any given time. The visibility corridors are subdivided into frontage corridors, side yard corridors and mid-lot corridors.

1. The frontage corridor is a lot line with minimum setback of five (5) feet. This encourages the use to define the private space of the lot and the public space of the street. Outbuildings shall not be located on the frontage portion of peonias or the corner media peonia lots.
2. For side yard corridors there must be a required minimum setback of five (5) feet separating lots on the north-south orientation. If two (2) or more adjacent properties are owned, then the corridor dimensions are cumulative. Primary and outbuildings may not cross lot lines without the use of an open space or connecting element that maintains the 10-foot dimensional requirement of the side yard corridor and does not exceed 16 feet in height from the finished floor elevation (FFE) to the peak of the roof

Esample:

3. Mid-lot corridors shall have a minimum setback of five (5) feet. This setback makes the historic lot division visible along the east-west orientation. Mid-lot corridors on frontage lots make the media peonia lots visible and are required regardless of ownership. On interior peonia lots, this corridor appears at mid-block. If an aggregate of peonias extends from street to street, a visibility corridor shall be present in the design of the buildings indicating the mid-block dimension. Primary and outbuildings shall not cross lot lines without the use of an open space or connecting element that maintains the dimensions of the mid-lot corridors. For example, if an owner holds an entire row of media peonias along a north-south street and plans to build the maximum allowable percentage of lot coverage, then all building elements shall demonstrate a mid-lot visibility corridor at the lot lines.
4. Reserved
5. In instances where media-peonias are owned in aggregate or assembled to meet the minimum density or area requirements, the visibility corridor may be crossed by an enclosed primary structure or connecting element which clearly indicates the existence of the visibility corridor (i.e., substantial changes in the roof elevation, substantial indentions or breaks in exterior wall elements and similar architectural features) as may be approved by the Historic District Council (HDC).

8.01.02 Amelia River Waterfront Community Redevelopment Area

Purpose

A. It is the purpose of the CRA overlay to provide a broader mix of uses and compatible design with the downtown area in order to promote revitalization of the working waterfront and adjacent areas.
B. The review of proposed development within the CRA Overlay is be based upon compliance with the CRA Design Guidelines. Those properties within the CRA Overlay which are also located within the Downtown Historic District Overlay are reviewed for compliance with the Historic Preservation Design Guidelines, dated December 1999, as amended. All plans for development within the CRA Overlay must be reviewed by the Historic District Council.
C. Site design standards specified in the overlay supersede the requirements for the underlying zoning district. Specific site design requirements that are not covered by the overlay follows the standards of the underlying zoning district.
D. Properties located within the CRA abutting the Amelia River Waterfront are subject to the following standards:
    1. All new construction that is a water dependent, water enhanced, or water related use is exempt from Section 3.03.03(B) 1.
    2. Building height is measured from the Base Flood Elevation (BFE) to the top of the roof, rather than from the finished grade, as established in 4.02.03(C). The maximum height of all structures must not exceed thirty (30) feet in height above the BFE. Permissible roof forms must be in compliance with the adopted CRA Design Guidelines.
    3. Properties that have obtained the Waterfront Mixed Use Future Land Use designation are eligible for land uses in addition to those permitted in the Waterfront Industrial zoning and are specified in Tables 2.03.02 and 2.03.03. Floor area ratio must not exceed 0.75. The floor area ratio will be calculated based on the developable land area and include portions of the site which remain

submerged. Residential units are permitted if the property has a FLUM category of WMU and the units are located above a non-residential use. Stand-alone residential units are prohibited.

4. Residential uses are subject to LDC Section 7.01.04 footnote 2, and are not eligible for the fee in lieu of providing parking.
5. Front and rear yard setbacks are not required. In order to preserve view corridors and pedestrian access to the Amelia River, side yard setbacks and breaks between structures shall be provided as follows:
   A. View Corridors
      1. A 15-foot side yard setback on each side yard is required for water lots located to the north of Centre Street (water lots 1 through 9). These locations provide for alignment with existing east-west rights-of-ways at Alachua, Broome and Calhoun Streets.
      2. Water lots to the south of Centre Street (water lots 25 through 40) shall provide a 30-foot minimum view corridor between buildings.
      3. These view corridors shall remain open to the sky and shall not include any parking areas, accessory structures or mechanical equipment.

   B. Pedestrian Access
      1. Publicly accessible pedestrian access to the water shall be integrated into the project's site design. These accessways shall provide a minimum width of ten (10) feet and shall occur at the view corridor locations. Access ways may vary in size and design as necessary to complement the overall project design. To encourage architectural variety and visual interest, certain encroachments and structural elements may be permitted within the accessways subject to compliance with the adopted CRA Design Guidelines. These accessways may be dedicated to public use through easements or dedication of right-of-way, or they may be retained under private ownership. In either case, these accessways shall remain open to and accessible by the public. If deemed necessary for security purposes, accessway closures may be permitted based on the posted operational hours of City beach access parking (exclusive of Main Beach or Seaside Parks).

E. Properties located within the CRA east of Front Street are subject to the following standards:

1. Facades up to thirty (30) feet in height shall have a front yard setback no more than ten (10) feet.
2. Facades up to forty-five (45) feet in height shall be recessed from the first thirty (30) feet of façade a minimum of ten (10) feet. Awnings, pergolas, or covered balconies may encroach into this setback, but shall not extend beyond the first thirty (30)feet of facade. Elements utilized to cover balconies shall not be a part of the main roof structure. Balcony enclosures (i.e., sun rooms, screened enclosures) shall be prohibited.
3. CRA properties located on the east side of North 2nd Street which share a property line with residentially-zoned, non-CRA properties shall meet the following standards:
   a. Building height shall be limited to thirty-five (35) feet, including the parapet for flat roofed structures.

b. Buildings shall provide a front yard setback of no more than ten (10) feet. Facade elements above thirty (30) feet shall not be required to be recessed as provided in (2) above.
c. Non-residential and mixed-use projects shall provide a buffer along the shared property line which meets the requirements of a Buffer Type C as provided in Table 4.05.12(B).
d. All projects shall maintain a twenty (20) foot rear yard setback for principal structures.

4. Flat roofs are permitted but must provide a parapet up to 42 inches high in order to hide mechanical equipment.
5. Floor area ratio and density are established in the underlying zoning district.
6. Only one primary structure is permitted per lot of record.
7. Accessory structures must comply with the standards of the underlying zoning district as well as Section 5.01.00 of this LDC.
8. Side yard setbacks are not required.
9. Developers of Office, Retail, or other Commercial uses may pay a fee in lieu of providing the required parking, as established in Table 7.01.04(A.) The fee shall be set annually by the City commission and shall be based on the average cost of constructing a parking space in the City. The fee shall be a one-time payment, to be placed in a trust fund for downtown parking improvements which serve the CRA properties. Residential uses must provide one space per dwelling unit on-site, and are not eligible for the fee in lieu of providing parking. Parking is not permitted in the front yard, but is permitted in the side or rear yard. Parking is also permitted beneath structures.

8.01.03 Signage in the Historic Districts and Community Redevelopment Area

In an effort to protect the Historic District designations within the City of Fernandina Beach, the specific provisions in this article shall take precedence where conflicts arise in this sign code.

A. Two (2) permanent on-site signs per business, are permissible, limited to projecting, wall, awning, or freestanding signs, and subject to the following standards:

1. Signs shall not project more than five (5) feet from the face of the building;
2. Projecting signs may project over sidewalk or pedestrian areas only at no less than seven and one half (7 ½) feet above sidewalk level;
3. The top of a projecting sign shall be not more than sixteen (16) feet above the sidewalk level;
4. A projecting sign shall not be closer than two (2) feet to a vertical line extending upward from the curb;
5. A projecting sign shall not exceed twelve (12) square feet (ft^2) in area.
6. A wall sign may be horizontal or vertical and shall not exceed one square foot in area for each linear foot of business frontage, to a maximum of twenty-five (25) square feet . One side of the sign may be no more than two (2) feet in height or width.
7. Awning sign lettering is limited to one square foot per linear foot of the awning or canopy, up to a maximum of ten (10) square feet.
8. Freestanding, ground or pole signs are permissible only for properties with a minimum front or side yard setback of eight (8) feet. Freestanding, ground and pole signs are limited to a maximum of twenty (20) square feet in sign face area and six (6) feet in height.

B. Permanent window lettering is permissible in addition to permanent signage and sandwich boards/easel signs shall not exceed an aggregate area equal to twenty-five percent (25%) of the glass area on which the signage is placed.

C. Sandwich boards or easel signs are permissible in addition to window lettering and permanent signage and are subject to the following standards:

1. Limited to one (1) sandwich board or easel sign per business;
2. The sandwich board sign shall comply with standards set forth in 5.03.10(E), and shall not utilize plastic or vinyl changeable copy.
3. Easels displaying signs may be no more than 4' 6" high and the sign face may not exceed 6 square feet. Top of sign may not project above top of easel or 4'6" above the ground.
4. The sign shall be placed between the store front and the edge of curb with a minimum five (5) feet of sidewalk left for pedestrian travel.
5. The sign shall require a Certificate of Approval and the approval of the Historic District Council.

D. Multi-Tenant Signs (reserved)

E. Downtown Wayfinding Signage (reserved)

F. Signs shall use stone, brick, wood, or metal, or modern materials that have the appearance of these materials. No plastic or vinyl shall be utilized to create the signs, with the exception of plastic or vinyl used for lettering or graphics on permanent, non-changeable copy signs.

G. All permanent signs affixed to private property shall require a Certificate of Approval and the approval of the Historic District Council, except for temporary special event signs, exempt signs, public directional or information signs, street number signs, and temporary signage placed on scaffolding during construction.

H. Wall graphics are prohibited in the Downtown Historic District. Legacy signs are permissible.

I. Signs shall be mounted in such a way to minimize damage to historic materials. On masonry buildings, bolts should extend through mortar joints and not through masonry units. On frame buildings, mounting brackets and bolts should be the minimal amount necessary to assure adherence to the surface and prevent excessive wood penetration. Signs shall not be placed upon a structure in any manner so as to disfigure or conceal any window opening, door or significant architectural feature or detail of any building, or in such a manner that requires changes to building materials.

J. External lighting of signs through gooseneck lamps is permitted.

K. In addition to signs prohibited within City limits as defined in LDC Section 5.03.05, the following signs are not permitted in the historic districts or CRA:

1. Signs with fluorescent or day-glow coloring.
2. Neon signs, or LED signs that mimic neon signs, over two (2) square feet in size.
3. Pixelated LED signs.
4. Internally lit signs.
5. Changeable copy signs with plastic or vinyl lettering or graphics, including sandwich board and easel signs.
6. Signs painted on or attached to trees, shrubbery, lamp posts, hydrants, traffic signs, stairways, benches, refuse containers, landscape planters, or telephone or utility poles.

8.02.00 Historic District Council

8.02.01 Historic District Council Created and Established

A. Establishment

There is hereby established the Historic District Council (HDC). The HDC is intended to be the City's primary agency responsible for furthering historic preservation within the City.

B. Membership

1. There shall be five (5) regular members of the HDC.

2. There shall be two (2) alternate members of the HDC.

3. Where possible, members shall include, to the extent such individuals are available in the community and willing to serve, one (1) registered architect, and professionals from the disciplines of architecture, construction, design, history, architectural history, archaeology, or other historic-related fields such as urban planning, American studies, cultural geography or cultural anthropology. Persons who have demonstrated special interest, experience or knowledge in history, architecture or related disciplines such as law, real estate, land development, or construction shall make up the remainder of the HDC membership. Current resumes of HDC members shall be kept by the City as a public record.

C. Authority to Seek Professional Expertise

1. With City Commission approval, the HDC may obtain the services of qualified persons to direct, advise, and assist it.

2. The HDC may request equipment, supplies, and other materials necessary for its effective operation.

3. When the HDC considers National Register nomination proposals and other actions which are normally evaluated by a professional in a specific discipline, and that discipline is not represented on the HDC, it may seek professional expertise in this area before rendering a decision. City Commission approval is required for any such professional contracts.

8.02.02 Historic District Council Roles and Responsibilities

The HDC shall have the duty and responsibility to:

A. Identify, study, and recommend sites, structures, buildings, improvements, artifacts, and areas for designation as historic landmarks, historic sites, or historic districts.

B. Maintain and update the historic properties survey as an inventory of historic landmarks, historic sites, and properties in historic districts. All inventories shall be compatible with the Florida Master Site File, which exemplifies the format used for statewide comprehensive historic preservation planning, and kept current and regularly provided to the state historic preservation officer for incorporation in the Florida Master Site File.

C. Review and approve or deny applications for a certificate of Approval for construction, alteration, demolition, or removal of historic landmarks, historic sites, archaeological sites, properties in historic districts, or properties in the CRA Overlay.

D. Review and make recommendations on National Register nominations within its jurisdiction.

E. Make recommendations to the City Commission concerning the assignment of development rights or facade easements, or the imposition of other restrictions.

F. Hear applications for variances within the Historic District Overlay or the CRA Overlay.

G. Increase public awareness of the value of historic, architectural, and cultural preservation by developing and participating in public preservation information programs, and by updating such programs and public information documents.

H. Make recommendations to the City Commission concerning the solicitation of grants from federal and State agencies, private groups, and individuals, and promote the preservation of historic or architecturally significant landmarks, sites, or properties in historic districts.

I. Promulgate standards for architectural review.
J. Evaluate and comment upon proposals pending before other public agencies affecting the physical development and land use patterns in or around historic landmarks, sites, or districts.
K. Make recommendations to the City Commission on the purchase of historic landmarks, historic sites, or properties in historic districts where private preservation is not feasible.
L. Perform any other functions which may be designated by resolution or motion by the City Commission.

8.02.03 Historic District Council Policy and Procedure Statements

The HDC may formulate and publish such policy and procedure statements as it deems reasonably necessary and appropriate to:

A. Explain the format of information to be provided in the application for a Certificate of Approval.
B. Explain the criteria and basis for HDC evaluation and ruling upon applications for a Certificate of Approval.
C. Designate items to be subject to final staff approval without need for a hearing before the HDC.

8.02.04 Historic District Council Staff Roles and Responsibilities

A. The City Manager shall provide professional staff in the City Planning Department to support the HDC in carrying out its responsibilities under this Chapter. Where possible, staff should have a background in historic preservation or a related field.
B. Staff shall not sit as officer or board member of local preservation-related organizations, and shall act in an impartial manner in all matters involving the HDC.

8.02.05 Certified Local Government Program

In order to comply with the Department of State, Division of Historic Resources, "certified local government" requirements, the HDC shall take the following actions:

A. A copy of all duplicate inventory materials will be provided to the SHPO. This will include any new or revised resumes of the HDC members or staff.
B. The SHPO shall be provided with thirty (30) days prior notice of all HDC meetings. In the event of a special meeting, reasonable notice shall be given.
C. Minutes of all HDC meetings shall be submitted to the SHPO. These minutes shall include a record of attendance of council members, the public, and any change in council membership.
D. The SHPO shall be notified immediately of all new historic designations or alterations to existing designations.
E. Proposed amendments to the LDC pertaining to the Historic District Overlay shall be sent to the SHPO for review and comment thirty (30) days prior to the scheduled adoption hearing.
F. Objections by property owners that are notarized and filed with the HDC shall be submitted to the SHPO in order to prevent involuntary nomination to the National Register.
G. The HDC shall submit an annual report to the SHPO on or before November 1 of each year covering the previous October 1 through September 30 period. The annual report shall include:
    1. Any changes or amendments to HDC rules of procedure;
    2. The number of proposals and applications reviewed by the HDC;

3. New historic designations or alterations to existing designations;
4. Changes to the HDC;
5. New or revised resumes of HDC members or staff;
6. Changes or requested changes to the Historic District Overlay regulations;
7. Review of the survey and inventory activities with a description of the system used; and
8. A program report on each grant-assisted activity.

8.03.00 Historic District Council Process and Procedure

8.03.01 General Quasi-Judicial Board Requirements

See Section 11.04.00 of the Land Development Code.

8.03.02 Procedure for Designation of Historic Districts

A. No historic district or property proposed for inclusion in a historic district within the city shall be designated by any City agency except as provided in this section.

B. For purposes of this section, the term "property owner" shall mean the record owner or owners of one or more parcels of property within the boundaries of the proposed historic district. Should an individual, individuals or entity own more than one parcel of property within the boundaries of the proposed historic district according to the latest available tax rolls from the county property appraiser's office, then such individual or entity shall be considered one property owner for purposes of calculating the number of property owners in the proposed historic district regardless of the number of parcels that may be owned by the individual, individuals or entity within the boundaries of the proposed historic district. Should a parcel of property be owned by more than one individual for purposes of calculating the number of property owners within the boundaries of the proposed historic district, such co-owners shall be considered cumulatively as one property owner regardless of their number.

C. Upon the recommendation of the City Commission or the Historic District Council an application may be submitted by a property owner within the proposed district, or his authorized agent, to the Planning Department to prepare or assist in preparation of a designation report. The City shall charge a fee for each application that reflects processing costs for the application, except such fee shall be waived for City-initiated applications. An area or property may be identified as being potentially suitable for designation as an historic district or for inclusion in a historic district. The area or property shall be surveyed and studied for the purpose of determining the age and significance of each building, site, structure, or object within the area. A nomination report shall be prepared based on the results of the survey. Once the district boundaries are determined, the property owners shall be surveyed for their agreement with the designation and the results shall be available and considered during public hearings at meetings of the Historic District Council, Planning Advisory Board, and City Commission.

D. The applicant shall complete an application form provided by the City which shall, to the extent possible, include:
    1. A written description of the architectural, historical, or archaeological significance of the structures, sites and building in the proposed historic district specifically addressing and documenting the criteria set forth in subsection (j) of this Section;
    2. An identification of all buildings, structures and sites within the proposed historic district and the proposed classification of each as contributing or noncontributing with an explanation of the criteria utilized for the proposed classification;

3. A physical description of the proposed historic district, accompanied by photographs of buildings, structures or sites within the district indicating examples of contributing and noncontributing structures within the district;
4. A statement of recommended boundaries for the proposed historic district and a justification for those boundaries, along with a map showing the recommended boundaries;
5. The names and addresses of all owners of real property within the boundaries of the land upon which the designation of the historic district is requested and the real estate assessment numbers for the property within the boundaries of the land upon which the designation is requested. Requirements (1), (2), (3) and (4) shall be waived with respect to any historic districts listed on the National Register of Historic Places as of January 1, 1990.

E. The Historic District Council shall hold a public hearing on the proposed designation within 90 days of the filing of a completed application. The Historic District Council shall hold at least one town meeting at which the proposed district will be explained and discussed. A quorum is not necessary to conduct the town meeting. The property owners within the proposed district shall be notified by United States mail at least thirty (30) days in advance of the Historic District Council public hearing date and time. For the purpose of notice requirements to owners, the names and addresses of owners shall be deemed to be those on the current tax records in the Office of the Property Appraiser. All notices required by this section shall state clearly the boundaries of a proposed historic district. The notice required by this section, the cost of which shall be $2 for each notification, shall be paid by the applicant to the City.

F. The notice referred to in paragraph (E) of this section shall include the following information and documents:
    1. The notice shall state that the creation of an historic district will impose design review on certain permitted activities.
    2. The notice shall state that the ordinance creating the historic district will contain requirements which must be met in order to alter, renovate or demolish a structure or building within the district. These requirements may relate to density, siting, building materials and architectural features as well as other matters.
    3. The notice shall state that a list of contributing and noncontributing structures has been compiled and that contributing structures will be identified in the ordinance creating the historic district.
    4. The notice shall state that the owners have the right to vote whether they want the historic district to be created.
    5. The owners shall be provided a ballot which must be signed and witnessed which will permit the owner to vote whether he approves or disapproves the creation of the historic district. In order for the ballot to be valid it must indicate the name of the owner, the residence address of the owner and the address of the property in the proposed historic district. This ballot must be returned to the Historic District Council not less than twenty-one (21) days after the noticed hearing.
    6. The notice shall state that at the hearing, the proposed historic district design guidelines for reviewing certain permitted activities will be discussed and voted on by the Historic District Council.
    7. The notice shall state that if the district is created the owners shall be required to obtain a Certificate of Approval before certain work is done on the property.
    8. The notice shall state that the application for creating the historic district is on file with the Historic District Council and that the Historic District Council shall have on

file all information submitted by the applicant and the Planning Department, including recommendations.

9. The notice shall state the time, date, and place of any town meetings scheduled by the Historic District Council. However, nothing herein shall prohibit the Historic District Council from holding other town meetings with published notice.

G. Notice of a public hearing shall also be published once in a newspaper of general circulation in the City not less than fourteen (14) days in advance of the date of the hearing. The published notice shall be in a form prescribed by the Historic District Council and placed by the applicant at the applicant's expense. The applicant shall file proof of publication with the Historic District Council prior to the public hearing.

H. The applicant for a proposed designation shall post signs within five working days after filing of a completed application, which signs shall be in the form required by the Historic District Council and shall be posted in full view of the public. The sign or signs shall be posted on the boundaries of the proposed historic district at each public right-of-way intersecting the boundary of the proposed historic district, or at such other locations and at such intervals, as determined by the Planning Department, as will ensure that the signs will be seen by as many persons as possible. The signs shall be maintained by the applicant until such time as the advisory recommendation has been made by the Historic District Council. The signs shall be removed by the applicant within ten days after final action by the City Commission.

I. At the close of the public hearing, the Historic District Council shall determine whether, based upon the evidence, the proposed historic district does or does not meet the criteria for designation. Such a determination shall be made by a report stating the findings of the Historic District Council concerning the relationship between the proposed historic district and the National Register of Historic Places criteria for designation set forth below. At least two of the criteria must be met.

1. Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.
2. Its location is the site of a significant local, state or national event.
3. It is identified with a person or persons who significantly contributed to the development of the City, state or nation.
4. It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the City, state or nation.
5. Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.
6. It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.
7. Its character is a geographically definable area or neighborhood possessing a significant concentration, or continuity of sites, buildings, objects or structures united in past events, or united in culture, architectural style, or aesthetically by plan or physical development.
8. Its suitability for preservation or restoration.

J. The Historic District Council shall also determine what proposed historic district design guidelines it would recommend to apply to the historic district and shall identify what actions to be taken on property within the proposed district that would require a certificate of Approval.

K. The Historic District Council shall inform the public that each owner of real property in the proposed historic district had been sent ballots to vote on the proposed district and that

the ballots must be signed, witnessed and delivered to the Historic District Council within 21 days after the hearing.

L. At the first meeting of the Historic District Council held at least seven days after the owners' votes are due, the Historic District Council shall tabulate the votes. If a majority of the owners' votes cast disapprove the creation of the proposed historic district, the Historic District Council shall take no further action on the proposed historic district and the Historic District Council's files on the district shall be closed. If 50 percent or more of the owners' votes cast approve the creation of the proposed historic district, then the Historic District Council shall adopt an advisory recommendation which shall be accompanied by a report stating the findings of the Historic District Council concerning the relationship between the nominated historic district and the National Register criteria for designation. The Historic District Council shall forward the advisory recommendation and report to the Planning Advisory Board.

M. The Planning Advisory Board shall consider the nomination request, the findings of the Historic District Council, and the request's consistency with the comprehensive plan, and make a recommendation to the City Commission. The property owners within the proposed district shall be notified by United States mail at least thirty (30) days in advance of the Planning Advisory Board public hearing date and time. For the purpose of notice requirements to owners, the names and addresses of owners shall be deemed to be those on the current tax records in the Office of the Property Appraiser. All notices required by this Section shall state clearly the boundaries of a proposed historic district. The notice required by this Section, the cost of which shall be $2 for each notification, shall be paid by the applicant to the City.

N. When a majority of the owners' votes disapprove the creation of the proposed historic district, any City Commission member may request that an ordinance designating the proposed historic district be drafted, but approval of the designation of such historic district by the City Commission shall require a vote of two-thirds of the City Commission members unless 85 percent of the proposed historic district acreage is already part of an historic district listed on the National Register.

O. The City Commission shall give notice, follow the publication procedure and sign posting procedure, hold public hearings, and make its determination in the same manner as provided in Section 11.02.00; provided however, there shall be no requirement to notify by United States mail all owners of real property within 350 feet of the boundaries of the proposed historic district. The Commission shall consider the same criteria set forth in paragraph (I) of this section. Any ordinance designating an historic district shall set forth the historic district design guidelines that apply to the historic district, which would then become the Historic District Design Regulations for that historic district, and the actions that would require a Certificate of Approval.

P. The City Clerk shall notify each applicant and each owner of real property within the proposed historic district of the final decision relating to the proposed historic district within seven (7) days of the City Commission's action and shall cause the designation of an historic district to be recorded in the official records of Nassau County, Florida, at the expense of the applicant for the designation. The City Clerk shall also notify the Property Appraiser's office of the designation.

Q. Boundaries for designated historic districts identified in or by this chapter shall be clearly established through legal descriptions.

R. When an historic district designation is made, the Director of Planning or his designee shall enter the designation as an overlay on the Zoning Map and Future Land Use Map.

S. Whenever the City Commission has denied an application for the designation of an historic district no further application shall be filed for the same historic district designation for a period of one year from the date of such City Commission denial.

T. The designation of any historic district may be amended or rescinded through the same procedure utilized for the original designation, by the filing of an application for rescission or amendment of designation utilizing the procedure hereinabove set forth. Any Historic District Council recommendation to amend or rescind a prior designation shall be based upon new evidence and negative evaluation according to the criteria used for historic district designation in existence at the time of such application for rescission or amendment.

U. If an updated report shows that there are additional contributing structures outside of the original boundary of an existing district, then the city may consider the expansion of the boundaries of the district to incorporate those properties. A ratio of 50 percent contributing structures within the proposed district expansion is required for the creation of an expanded district.

V. The expansion of existing historic districts shall be done by ordinance adopted by the City Commission, in accordance with the same procedures required for the creation of new districts, except that the information required shall be applicable to the expansion area only, and not to the entire district.

8.03.03 Application Process for Certificate of Approval

A. A Certificate of Approval is required before a permit is issued for work on a historic landmark or site, any property in a historic district (either contributing or noncontributing), or any property in the CRA Overlay.

1. The City shall maintain an official inventory of resources. The inventory will include a structure's status as either contributing or non-contributing to the Historic District. This list shall be based upon the most recent historic structures survey completed by the City and amended, as appropriate, by the Historic District Council.
2. Properties that are partially within the Historic District Overlay shall only receive HDC approval for projects that fall within the portion of the property in the Historic District Overlay. If the proposed project crosses the History District boundary line, then HDC approval shall be required. Proposed projects on the property wholly outside of the boundary line shall not require HDC approval.
3. For improvements as listed within the Certificate of Approval Matrix ("Matrix") (Table 8.03.03(B)) under staff approval, the City Manager may issue a Certificate of Approval after a review of the application determines the improvement is in compliance with approved guidelines.
4. For improvements as listed within the Matrix (Table 8.03.03(B)) under HDC approval, the HDC may issue a Certificate of Approval after a review of the application and a public hearing determines the improvement is in compliance with approved guidelines.
5. The City reserves the right to refer specific items to the HDC for its review.
6. Decisions of the City Manager regarding Certificate of Approval applications may be appealed to the HDC and applicable fees shall apply.
7. Any applicant may request referral to the HDC rather than staff approval and applicable fees shall apply.

8. Any application referred by the City Manager or by an applicant will be considered in accordance with the application review schedule contained in this section.

B. Improvements to properties are subject to either staff or HDC approval as set forth in Table 8.03.03(B), the Certificate of Approval Matrix:

C. Prior to undertaking an improvement to any property in a historic district, or the CRA, an application shall be submitted to the City for a Certificate of Approval. A Certificate of Approval shall be obtained even when a building permit is not required for the proposed work, unless the work falls under conditions outlined in Section 8.03.03(L). The City Manager shall advise any applicant if the subject property or work will require a Certificate of Approval. If no Certificate of Approval is received prior to beginning of work, after-the-fact application fees shall be required. Fees are adopted annually through the Master Fee Schedule.

D. In addition to the application requirements set forth in Section 11.01.03, the applicant shall provide:
   1. Scale drawings of the proposed work;
   2. Photographs of the existing structure or site and adjacent properties; and
   3. Information about the building materials to be used;
   4. The HDC or City Manager may request additional information to be included with the application.

E. An application for a Certificate of Approval shall not be considered complete until all required data has been submitted. An applicant may bring a preliminary proposal for improvements to the City Manager or the HDC for comments. When an application involves new construction, the applicant may present conceptual plans for review and comment before the preparation of construction drawings. The HDC or City Manager's approval of a preliminary or conceptual plan is a courtesy and such approval is not binding.

F. Posted, mailed, and published notice shall be provided as set forth in Section 11.02.00.

G. A quasi-judicial hearing shall be conducted as set forth in Section 11.04.00.

H. Procedures for HDC action:
   1. If the application is for a Certificate of Approval for improvements requiring HDC review, the HDC shall take action within forty-five (45) days of the submission of a completed application, to approve, modify, or disapprove the application, in whole or in part. The HDC may extend action for a period of up to thirty (30) additional days. In the case of a demolition application, the HDC may suspend action on it for a period not to exceed 180 days.
   2. The decision of the HDC shall be in the form of a written order. Any documents, drawings, plans, or specifications submitted for review by the HDC shall be stamped and signed by the chair, and the same documents shall be submitted to the building department for building permit applications. In cases where the HDC has disapproved the plans, the City shall furnish the applicant with a copy of the HDC written order, including reasons for disapproval, together with a copy of any recommendations the HDC may have for changes necessary to be made before the plans will be reconsidered.
   3. Certificates of Approval shall be issued for a period of twelve (12) months, and are renewable for six (6) months without cause, and for an additional six (6) months, upon a showing of good cause by the applicant. The applicant shall submit a written request for extensions, with appropriate support documentation, if required.

I. All work performed pursuant to the issuance of a Certificate of Approval shall conform to the requirements of the certificate.
   1. It shall be the duty of the City to inspect any work performed pursuant to the certificate, in order to ensure its compliance.

2. If work is not performed in accordance with the Certificate of Approval, the City may issue a stop work order so that all work shall cease, or may take such other action as it deems appropriate. No person shall undertake any work on such project as long as such stop work order shall continue in effect.
3. All work not in compliance may be required to be removed, regardless of hardship to the owner.

J. Any change in the scope of work subsequent to the issuance of a Certificate of Approval shall require a new Certificate of Approval for the changes. Applications for approval of such changes shall be in compliance with all procedures as outlined in this section.

K. If an applicant wishes to move a historic landmark, building, monument, or structure from its site; move a building or structure from a historic district; move a building or structure to a historic site; or move a building or structure to property in a historic district, the HDC shall consider, in addition to the points contained in this section:
1. The contribution the building or structure makes to its present setting;
2. Whether there are definite plans for the use of the site once vacated;
3. Whether the building or structure can be moved without significant damage to its physical integrity; and
4. The compatibility of the building or structure to its proposed site and adjacent properties.

L. A Certificate of Approval is not required for work for which a building permit is not required and where the purpose and effect of such work is to correct deterioration, decay, or damage to a structure or any part of it, and where such work will restore the building to the same condition, as nearly as practicable, as its condition prior to the deterioration, decay or damage. Only repairs that will not change the exterior appearance or composition of the building materials shall be exempted.

8.03.03.01 Requirements for Demolition Applications

A. Application requirements. Application for a Certificate of Approval for any demolition of a primary building or structure (contributing or noncontributing) located within a locally designated historic district or the CRA shall be submitted by the property owner to the HDC. No building or structure in a locally designated historic district or the CRA shall be demolished without approval by the HDC, unless by a superseding order of a government agency or a court of competent jurisdiction.

B. Public hearings and notice requirements. Certificate of Approvals for demolition applications are to be heard in accordance with HDC hearing requirements for Certificate of Approval applications and noticed in accordance with City requirements for public hearings.

C. Review criteria for demolition applications. In evaluating applications for a Certificate of Approval for demolition, the HDC shall consider the following:
1. Whether the structure or site would meet national, state, or local criteria for designation;
2. Whether the structure or site is a contributing structure or site to a locally designated or National Register historic district;
3. Whether loss of the structure or site would deteriorate the quality or continuity of the historic district, or the surrounding neighborhood;
4. Whether the structure or site is of such design, craftsmanship, or material that it could be reproduced only with great difficulty and/or expense;

5. Whether the structure or site is one of the last remaining examples of its kind in the neighborhood, county or region, or is a distinctive example of an architectural or design style which contributes to the character of the district;
6. Whether removal of the structure or site would destroy the historic relationship between structures or open space;
7. Whether retention of the structure or site promotes the general welfare of the City by providing an opportunity for study of local history, architecture, and design, or by developing an understanding of the importance and value of a particular culture and heritage;
8. Whether the applicant has made good faith efforts to pursue alternatives to demolition;
9. Whether the applicant will be denied a reasonable return on his or her investment;
10. Whether there is economic hardship for the applicant as demonstrated by requirements in Section 8.03.06;
11. Whether the Code Enforcement and Appeals Board has recommended demolition of the structure.

D. Written evidence. The HDC may request the following written evidence be submitted as part of an application for a Certificate of Approval for demolition:
   1. A report from a certified property appraiser stating that such structure as it exists will not earn a reasonable economic return for the owner.
   2. A report from a certified property appraiser as to the estimated market value of the property both in its current condition and after completion of the proposed demolition or removal.
   3. A report from a licensed engineer or architect with experience in rehabilitation as to the structural soundness of the structure and its suitability for rehabilitation and/or relocation.
   4. An estimate from an architect, developer, real estate consultant, or appraiser experienced in rehabilitation as to the economic feasibility of rehabilitation or reuse of the existing structure in its current location or in any proposed new location.

E. Demolition delay period. The HDC may grant a Certificate of Approval for demolition as requested by a property owner which may provide for a delayed effective date. The effective date of the certificate will be determined by the HDC based on the relative significance of the structure and the probable time required to arrange a possible alternative to demolition. The HDC may delay the demolition of contributing buildings within locally designated historic districts for up to six months, and for non-contributing buildings within locally designated historic districts for up to three months. During the delay period, the HDC may take such steps as it deems necessary to preserve the structure requested to be demolished and ensure that the structure is secured and stabilized. Such steps may include, but are not limited to, consultation with community groups, public agencies, and interested citizens; recommendations for acquisition of property by public or private bodies or agencies; and exploration of the possibility of moving the structure to a new location.

F. Waiting period for certain demolition permit
   1. Permits to demolish structures which are 50 years of age or older shall not be issued until the expiration of 90 days from the date of the permit application. The purpose of this restriction shall be to enable the Historic District Council to pursue alternatives to demolition and to assemble and document information pertaining to the appearance and history of the structure prior to its demolition. Upon the filing

with the city manager or designee of an application to demolish a structure which is 50 years of age or older, the city manager or designee shall immediately notify the historic preservation planner.

2. A demolition permit for a structure that is 50 years of age or older may not be issued prior to the expiration of 90 days from the date of the demolition permit application unless the city historic preservation planner finds no cause to refer the permit application to the Historic District Council based on the following standards: The structure:
    a. Is not, in the opinion of the historic preservation planner, a "landmark" structure in that it is not designated in an architectural "high style" or a recognized vernacular building pattern, and it does not have historic events or persons associated with it: or
    b. The structure has been substantially burned or damaged by an event not within the landowner's control with more than 50 percent of the structure affected.
    c. If the demolition request does not meet the above standards and the delay is imposed, the application will be referred by the historic preservation planner to the Historic District Council for consideration, and the applicant will be notified by mail of the delay and the date of the next regularly scheduled Historic District Council meeting not less than then days after referral, and the process for appeal due to economic hardship. The Historic District Council and its authorized designees shall be permitted access to the premises and to the subject structure during the 90-day period at reasonable times by appointment with the owner or proprietor for the purpose of photographing, measuring and documenting information concerning the structure or site.
    d. At the next regularly scheduled meeting not less than ten days after the referral is received, the Historic District Council may waive the demolition delay if the applicant can demonstrate economic hardship, as outlined in Section 8.03.06,, with consideration given to the economic impact of the delay on the applicant and the reasonableness of the applicant carrying out the decision of the board.
    e. After invoking a demolition delay, the historic preservation planner shall post the subject property with a sign notifying the public of the owner's intent to demolish the structure in order to allow interested parties to come forward and move the structure upon consent of the owner.

G. Special requests precedent to demolition. The HDC may, with the consent of the property owner and at the property owner's expense, request that the owner salvage and preserve building materials, architectural details and ornamentation, fixtures and the like for reuse in the restoration of other historic properties. At the HDC's discretion, and with the property owner's consent, the HDC, Amelia Island Museum of History, or other local historical organizations at their expense, may salvage and preserve building materials, architectural details and ornamentation, fixtures, and the like. The HDC may, with the consent of the property owner and at the property owner's expense, recommend recording the architectural details for archival purposes prior to demolition. This recording may include, but is not limited to, photographs, videotaping, historical background information, and scaled architectural drawings.

H. Denial of Certificate of Approval for demolition. The HDC's refusal to grant a Certificate of Approval for demolition requested by a property owner shall be supported by a written statement describing the public interest that the HDC seeks to preserve.

I. Requirement of development plans. No contributing building or structure on a property located within a locally designated historic district or the CRA shall be totally demolished without first receiving at the minimum conceptual approval by the HDC for new construction. The requirement of a certificate of Approval for new construction may be waived by the HDC upon a showing of good cause that such requirement would be unduly harsh or would result in a substantial hardship to the property owner. A showing of good cause may include, but is not limited to, evidence that the property owner is unable to comply with the requirement for new construction due to advanced age, infirmity, physical or other handicap, or economic hardship. In the event economic hardship is claimed, the applicant must demonstrate the requirements in Section 8.03.06. Property owners seeking demolition of an unsafe structure based upon recommendation of the Code Enforcement and Appeals Board or the Building Official are exempt from the requirement to first receive conceptual approval for the new construction. In the event an emergency repair or demolition is required, procedures for expedited approval are outlined in Section 8.03.08. Upon approval by the HDC of a Certificate of Approval for demolition, the demolition permit shall not be issued until all demolition and new construction plans for the property have received all other required governmental approvals.

J. Structures not in historic districts or the CRA. Upon receipt of a demolition permit application for properties not in the historic districts or the CRA, the Building Department shall notify the Department of Planning & Conservation. During the permit application review period, the Department of Planning & Conservation shall record the property through photographic documentation for archival purposes. The City may seek permission from the property owner to enter the building to take photographs prior to demolition.

8.03.04 Standards for Review of Certificate Applications

A. In addition to specific criteria referenced in Sections 8.03.03 and 8.03.06 regarding demolition, relocation, and economic hardship, the Historic District Council uses the following criteria for review of projects:

1. The Secretary of the Interior's Standards for Rehabilitation;
2. The applicable Design Guidelines: Historic Preservation Guidelines for the Downtown Historic District, the Old Town Preservation and Development Guidelines, and the Community Redevelopment Area Design Guidelines, all as amended from time to time; and
3. The City Comprehensive Plan; and
4. The City Land Development Code.

B. The City Manager, in considering any application for improvements subject to staff review, shall consider the same criteria in Section 8.03.04(A).

8.03.05 Standards for Archaeological Work; Discovery of Archaeological Sites *(reserved)*

8.03.06 Economic Hardship

A. A property owner may demonstrate economic hardship as to demolition, substitution of alternative building materials, or other cases for primary structures by providing the following information as applicable and as may be required by the HDC.

1. Owner currently receives fixed income benefits;
2. Owner currently receives assistance through income-indexed program which provides for physical improvements to the property;

3. An estimate of the cost of the proposed construction, alteration, demolition, or removal and an estimate of any additional cost that would potentially be incurred if the owner were to comply with the recommendations of the Board for the changes necessary to obtain a Certificate of Approval;
4. Any documentation related to good faith attempts to sell, rehabilitate or reuse the structure or structures within the last three (3) years;
5. Proof of payment of property taxes within the last three (3) years;
6. Owner has tax-exempt status as a (501)(c)(3) organization;
7. A report from a developer, real estate consultant, certified property appraiser or other real estate professional experienced in rehabilitation as to the economic feasibility or viability or rehabilitation or reuse of the existing structure or structures; and/or
8. A report from an engineer, architect or contractor with experience in rehabilitation as to the soundness of any structures on the property and their suitability or feasibility for rehabilitation or reuse.

B. Property owners are not required to prove economic hardship for accessory structures.

8.03.07 Demolition by Neglect

A. The following shall apply to maintenance and repair to structures in the locally designated historic districts, as well as any structure or property in the City that has been listed individually or deemed eligible for individual listing in the National Register:

1. The owner, lessee, or other person in physical control of the structure shall comply with all applicable codes, laws and regulations governing the maintenance and safety of property including but not limited to City Codes, as applicable. It is the intent of this section to preserve from deliberate or inadvertent neglect of the exterior features of a building designated as a contributing structure to a historic district, and the interior portions therefore when such maintenance is necessary to prevent deterioration and decay of the exterior. All such buildings shall be preserved against such decay and deterioration and shall be free from structural defects through prompt correction of any of the following defects:
    a. Facades which may fall and injure members of the public or property;
    b. Deteriorated or inadequate foundation, defective or deteriorated flooring or floor supports, deteriorated walls or other vertical structural supports;
    c. Members of ceilings, roofs, ceiling and roof supports or other horizontal members which sag, split, or buckle due to defective material or deterioration;
    d. Deteriorated or ineffective waterproofing of exterior walls, roofs, foundations or floors, including broken windows or doors;
    e. Defective or insufficient weather protection for exterior wall covering, including lack of paint or weathering due to lack of paint or other protective covering.;
    f. Any fault or defect in the building which renders it not properly watertight or structurally unsafe; and
    g. Any fault or defect in the building rendering such structure an unsafe structure as defined under the provisions of Chapter 22, City Code of Ordinances.
2. Where the property is an archaeological site, the owner shall be required to maintain his property in such a manner so as not to adversely affect the archaeological integrity of the site.
3. It shall be the joint responsibility of the Building Department, Planning Department, and Code Enforcement staff to enforce the provisions of this section, and the divisions may

refer violations to the Code Enforcement and Appeals Board for enforcement proceedings pursuant to Chapter 2, City Code of Ordinances.

8.03.08 Emergency Actions

A. Emergency Repair Procedure
    1. When any property within the historic districts or CRA requires immediate repair to preserve its continued habitability and/or the health and safety of its occupants or others, emergency repairs may be performed in accordance with applicable construction codes immediately upon approval of the Building Official, who shall certify that a bona fide emergency of the type referenced herein exists, without first obtaining a Certificate of Approval from the Historic District Council.
    2. The procedures outlined in this section should be strictly limited to those circumstances which, in the opinion of the Building Official, meet the definition of an emergency as defined in Chapter 1 of the Land Development Code. No work in addition to the emergency repairs shall be performed until an appropriate request for approval has been received by the City Manager or his/her designee and the Historic District Council pursuant to the procedures set forth in this article.
    3. If the Building Official or Fire Marshal determines that a building or structure in a local historic district or the CRA poses an immediate threat to persons or property, such official may order or conduct emergency repairs necessary to make the building or structure safe without the requirement of a Certificate of Approval. Under such circumstances, the repairs performed shall be only such as are necessary to preserve the continued habitability of the building or structure and/or the health and safety of its occupants or others and to prevent further damage. Where feasible, these temporary measures should be reversible without damage to the building or structure. Once such temporary repairs have been completed, no further work may be done on the building or structure until a Certificate of Approval is obtained.
    4. Within 48 hours after the repairs are made, the Building Official making or ordering such authorized temporary repairs shall notify the Historic District Council Chair or staff. If any work intended to be permanent was performed, or is to be performed, the property owner must apply for a Certificate of Approval within 90 days after the emergency work is conducted in accordance with COA procedures, and the Historic District Council action shall supersede the emergency approval.

B. Emergency Demolition Procedures
    1. The Building Official shall immediately notify the Director of the Department of Planning & Conservation of cases where there are emergency conditions dangerous to life, health or property affecting a building or structure in a historic district or a building or structure that has been listed individually or deemed eligible for individual listing in the National Register, or a building over 45 years old. Notification to the Director of the Department of Planning & Conservation shall consist of a written report from a Building or Code Enforcement Inspector describing the dangerous conditions, and any other documentation that the Community Development Director shall require.
    2. The Director of the Department of Planning & Conservation shall consult with Historic District Council staff and the Historic District Council Chair or HDC designee upon receipt of the statement or as soon as is practicably possible. The Director, staff, and the HDC Chair or HDC designee shall determine whether any additional information or documentation is needed. If so, the documentation or information

shall be obtained by the Building Official. If not, or when requested information is received and approved by staff and the HDC Chair or designee, an emergency Certificate of Approval (COA) will be issued by staff and the HDC Chair without approval of the full HDC.

8.03.09 Appeals

A. Any person aggrieved by any decision of the HDC may present to a court of record a petition, duly verified, setting forth that the decision is illegal, in whole or in part, specifying the grounds of the illegality. The petition must be presented to the court within 30 days after the HDC will be final.

B An applicant may appeal a decision of the City Manager, or his/her designee, to the HDC. The applicant must submit the appeal in writing to the City Manager's Office and must state the reasons for the appeal.

8.03.10 Enforcement; Penalties; Injunctive Relief

A. Enforcement

1. The City shall promptly stop any work attempted to be done without or contrary to a Certificate of Approval issued under this chapter.
2. Any sign or exterior illumination of walls, exterior roofs, or appurtenances of buildings displayed contrary to the provisions of this LDC shall be removed.
3. If the owner of the structure or building fails to correct the defects as outlined in this section, after knowledge of the existence of such defects has been brought to his attention, the owner shall be found in violation of this LDC, and shall be subject to a fine.

B. Penalty; restoration of building to former appearance

1. A violation of this LDC shall be a separate offense for each day or portion thereof during which any such violation continues to occur and each offense shall be punishable by a fine.
2. Any person who demolishes, alters, or constructs a building or structure in violation of this chapter shall be required to restore the building or structure and its site to its appearance prior to the violation. This civil remedy shall be in addition to and not in lieu of any civil or criminal prosecution and penalty.

8.03.11 Tax Exemptions for Historic Properties

Tax exemptions on City ad valorem taxes for qualifying projects are explained in the City Code of Ordinances, Chapter 74, Article V.

8.03.12 Severability

The provisions of these sections are declared to be severable and if any section, sentence, clause or phrase of these sections shall for any reason be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses and phrases of these sections, but they shall remain in effect.

9.01.00 REQUIREMENTS FOR ALL BOARDS AND COMMISSIONS

9.01.01 Appointment, Term of Office, and General Membership Requirements

A. All members and alternate members are appointed by the City Commission.
B. All voting members and alternate members must reside within the City Limits.
C. Elected officials and employees of the City are not eligible to serve on City boards, commissions, or committees unless otherwise provided herein.
D. All members serve at the pleasure of the City Commission.
E. The term of office for all voting and alternate members is three (3) years, and vacancy occurs at the end of the three (3) year term.
F. When a term expiration occurs, the member or alternate member must reapply if they wish to serve another term.

9.01.02 Attendance

A member whose term has expired, may continue to serve until they are either re-appointed, or a new member is appointed.

A. Each appointed member and alternate member will attend all regular meeting and called meetings.

9.01.03 Officers and Committees

A. Each board, commission, or committee must have a chairperson, vice-chairperson, and a recording secretary.
B. The chairperson and vice-chairperson serve one (1) year terms. The chair and vice-chair will be elected by the board, commission, committee at its January Meeting. All board, commission, and committee voting members are eligible to serve in these positions.
C. A board, commission, or committee may create any subcommittees it deems necessary to carry out its purposes. The chairperson of the board, commission, or committee will appoint the membership of each subcommittee from the members of that board, commission, or committee.

9.01.04 Removal and Vacancies

A. When a board, commission, or committee seat becomes vacant before its term expires, an alternate member fills the vacancy.
B. When no alternate member is available to fill a vacancy, the City Commission may appoint a member to fill the vacancy for the duration of the unexpired term.
C. When the unexpired term is two (2) months or less, the City Commission may appoint a new member to fill the unexpired term and the following full term.
D. A member who moves outside the City or no longer meets eligibility requirements for membership is considered removed immediately.
E. Any member who has been absent for three (3) regular meetings in one calendar year is subject to removal.
F. Vacancy occurs upon death, resignation, removal, conviction of a felony, or expiration of term.
G. Term limits and reappointment.
    a. Term limits do not apply to appointed board, commission, or committee members.
    b. All terms are effective January 1 of a given calendar year and expire on December 31 of the calendar year ending the term.
    c. The City Clerk's office will provide notice of vacancies upon receipt of member resignation, notice of removal, or, in the case of an expiring term, by September 1 of the calendar year ending the term.

d. All interested persons, including members seeking reappointment, must complete an application and submit it to the City Clerk's office on or before November 15 of the calendar year ending the term. Applications will be considered at the first City Commission regular meeting in December.
e. Newly appointed or reappointed members begin their terms in January.

9.01.05 Public Meetings, Hearings, and Records

A. All meetings and hearings of boards or commissions shall be open to the public.
B. Each board or commission shall keep minutes of its proceedings, indicating the attendance of each member and the decision of each member on every question. The minutes shall be signed by the chairperson and filed with the City Clerk.
C. A record shall be made of all resolutions, transactions, findings, recommendations, and decisions, which record shall be a public record on file in the office of the City Clerk.

9.01.06 Quorum and Voting

A. For the purpose of transacting business at any meeting or hearing, a majority of the board or commission members shall constitute a quorum.
B. Approval of actions, other than variances, before the board or commission requires an affirmative vote of a majority of the members. Approval of a variance requires an affirmative vote of four (4) members of the HDC or the Board of Adjustment.
C. An alternate shall be seated in the following situations:
   1. When a regular member is absent;
   2. When a regular member abstains from a vote; or
   3. When a regular member is disqualified from a vote as provided for in Section 9.01.12.

9.01.07 By-laws

A. Each board or commission shall enact by-laws to govern its operation and procedures.
B. By-laws shall not conflict with the requirements of this LDC. In the event of any conflict between the provisions of this LDC and the by-laws, the provisions of this LDC shall control.
C. The following topics may be included in the by-laws:
   1. The designation of officers;
   2. The specific duties of officers;
   3. The creation of committees;
   4. Code of conduct;
   5. Voting procedures;
   6. Scheduling of meetings;
   7. Order of business; and
   8. Preparation of minutes.

9.01.08 Parliamentary Authority

All meetings shall be conducted in accordance with parliamentary procedure as set forth and explained in the latest revised edition of Robert's Rules of Order, which shall serve as the official rules of procedure.

9.01.09 Legal Representation

The City Commission may appoint legal counsel to represent a board or commission.

9.01.10 Compensation

Members shall serve without compensation, but may be reimbursed for actual expenses incurred in connection with their official duties.

9.01.11 Funding

The City Commission may appropriate funds at its discretion for expenses necessary in the conduct of the duties of appointed boards and commissions.

9.01.12 Conflict of Interest

A. A member shall abstain from voting on a particular issue, or may be disqualified by majority vote of the remaining members present, if any of the following circumstances apply:
   1. The member has a direct financial interest in the outcome of the matter at issue;
   2. The matter at issue involves the member's own official conduct;
   3. Participation in the matter violates the member's code of professional responsibility;
   4. The member has such close personal ties to a person involved with the issue that the member cannot reasonably be expected to exercise sound judgment in the public interest; or
   5. Other applicable law.

B. If a member owns a property within the area entitled to receive mailed notice of the hearing, that board member may voluntarily abstain from voting if the board member believes that the proximity of the project will interfere with his or her ability to be a decision maker in the case.

C. An abstaining or disqualified member of a board or commission shall not be counted for purposes of forming a quorum.

D. A member who takes a position on the issue based upon personal interest may do so only by abstaining from voting on the proposal, vacating the seat on the board or commission, physically joining the audience, and making full disclosure of his status and position at the time of addressing the board or commission.

E. A member who votes on a matter shall not address the City Commission on that matter.

9.01.13 General Powers

A board or commission may request information from any official, staff member, or department of the City, which is necessary in order to carry out specific roles and responsibilities.

9.02.00 PLANNING ADVISORY BOARD

9.02.01 Establishment

There is hereby created a Planning Advisory Board, with the roles and responsibilities as set forth herein.

9.02.02 Membership and Terms of Office

A. There will be seven (7) voting members.

B. Terms will be staggered such that no more than three (3) terms expire simultaneously.

C. All members are at large members and will be confirmed by majority vote of the City Commission.

D. When a member is appointed by the City Commission to fill a vacancy created by the departure of a voting member, the term will be the remaining unexpired term of the voting member.

E. Regular members may be removed without cause by majority vote of the City Commission.

F. The City Commission prefers to appoint members with experience in the fields of planning and zoning, engineering, architecture, real estate, law or historic preservation.

G. In addition to the above members, one (1) nonvoting member will be appointed from the Nassau County School Board. This member will be the person appointed by the School Board to attend those meetings at which the Planning Advisory Board considers rezoning of land or an amendment to the comprehensive plan that, if approved, will increase the residential density on property that is the subject of an application.

9.02.03 Roles and Responsibilities

The Planning Advisory Board shall have the roles and responsibilities described below.

A. To serve as the Local Planning Agency (LPA), pursuant to Chapter 163.3174, *F.S.* As the LPA, the Planning Advisory Board shall:
   1. Make recommendations to the City Commission regarding adoption of a comprehensive plan;
   2. Monitor and oversee the effectiveness and status of the comprehensive plan, including periodic evaluations as required by the *Florida Statutes;*
   3. Make recommendations to the City Commission regarding amendment of its adopted comprehensive plan; and
   4. Carry out such other duties as may be specified in Chapter 163, Part II, *F.S.*

B. To provide advice and recommendations to the City Commission regarding growth, land use, long-range planning, and redevelopment following disasters.

C. To hear, consider, and make recommendations to the City Commission regarding applications to:
   1. Amend the Zoning Map (also called "rezoning");
   2. Amend the text of the LDC;
   3. Create a subdivision (preliminary subdivision plats); and
   4. Amend the comprehensive plan.
   5. To hear and decide applications for a site plan for a Planned Unit Development.

D. In carrying out its duties, the Planning Advisory Board may:
   1. Establish such committees as may be necessary to gather facts, analyze findings, and make recommendations to the Planning Advisory Board as a whole;
   2. Acquire and maintain such information and materials as are necessary for an understanding of past trends, present conditions, and forces at work to cause changes in these conditions;
   3. Make or cause to be made any necessary special studies on the location, conditions, and adequacy of facilities in the City; and
   4. Periodically evaluate the comprehensive plan and LDC and propose amendments to the City Commission.

9.03.00 HISTORIC DISTRICT COUNCIL

9.03.01 Historic District Council created and established

A. Establishment

There is hereby established the Historic District Council (HDC). The HDC is intended to be the City's primary agency responsible for furthering historic preservation within the City.

B. Membership

1. There shall be five (5) regular members of the HDC.

2. There shall be two (2) alternate members of the HDC.

3. Where possible, members shall include, to the extent such individuals are available in the community and willing to serve, one (1) registered architect, and professionals from the disciplines of architecture, construction, design, history, architectural history, archaeology,

or other historic-related fields such as urban planning, American studies, cultural geography or cultural anthropology. Persons who have demonstrated special interest, experience or knowledge in history, architecture or related disciplines such as law, real estate, land development, or construction shall make up the remainder of the HDC membership. Current resumes of HDC members shall be kept by the City as a public record.

C. Authority to Seek Professional Expertise

1. With City Commission approval, the HDC may obtain the services of qualified persons to direct, advise, and assist it.

2. The HDC may request equipment, supplies, and other materials necessary for its effective operation.

3. When the HDC considers National Register nomination proposals and other actions which are normally evaluated by a professional in a specific discipline, and that discipline is not represented on the HDC, it may seek professional expertise in this area before rendering a decision. City Commission approval is required for any such professional contracts.

9.03.02 Historic District Council roles and responsibilities

The HDC shall have the duty and responsibility to:

A. Identify, study, and recommend sites, structures, buildings, improvements, artifacts, and areas for designation as historic landmarks, historic sites, or historic districts.

B. Maintain and update the historic properties survey as an inventory of historic landmarks, historic sites, and properties in historic districts. All inventories shall be compatible with the Florida Master Site File, which exemplifies the format used for statewide comprehensive historic preservation planning, and kept current and regularly provided to the state historic preservation officer for incorporation in the Florida Master Site File.

C. Review and approve or deny applications for a certificate of Approval for construction, alteration, demolition, or removal of historic landmarks, historic sites, archaeological sites, properties in historic districts, or properties in the CRA Overlay.

D. Review and make recommendations on National Register nominations within its jurisdiction.

E. Make recommendations to the City Commission concerning the assignment of development rights or facade easements, or the imposition of other restrictions.

F. Hear applications for variances within the Historic District Overlay or the CRA Overlay.

G. Increase public awareness of the value of historic, architectural, and cultural preservation by developing and participating in public preservation information programs, and by updating such programs and public information documents.

H. Make recommendations to the City Commission concerning the solicitation of grants from federal and State agencies, private groups, and individuals, and promote the preservation of historic or architecturally significant landmarks, sites, or properties in historic districts.

I. Promulgate standards for architectural review.

J. Evaluate and comment upon proposals pending before other public agencies affecting the physical development and land use patterns in or around historic landmarks, sites, or districts.

K. Make recommendations to the City Commission on the purchase of historic landmarks, historic sites, or properties in historic districts where private preservation is not feasible.

L. Perform any other functions which may be designated by resolution or motion by the City Commission.

9.03.03 Historic District Council policy and procedure statements

The HDC may formulate and publish such policy and procedure statements as it deems reasonably necessary and appropriate to:

A. Explain the format of information to be provided in the application for a Certificate of Approval.
B. Explain the criteria and basis for HDC evaluation and ruling upon applications for a Certificate of Approval.
C. Designate items to be subject to final staff approval without need for a hearing before the HDC.

9.03.04 Historic District Council staff roles and responsibilities

A. The City Manager shall provide professional staff in the City Planning Department to support the HDC in carrying out its responsibilities under this Chapter. Where possible, staff should have a background in historic preservation or a related field.
B. Staff shall not sit as officer or board member of local preservation-related organizations and shall act in an impartial manner in all matters involving the HDC.

9.03.05 Certified Local Government program

In order to comply with the Department of State, Division of Historic Resources, "certified local government" requirements, the HDC shall take the following actions:

A. A copy of all duplicate inventory materials will be provided to the SHPO. This will include any new or revised resumes of the HDC members or staff.
B. The SHPO shall be provided with thirty (30) days prior notice of all HDC meetings. In the event of a special meeting, reasonable notice shall be given.
C. Minutes of all HDC meetings shall be submitted to the SHPO. These minutes shall include a record of attendance of council members, the public, and any change in council membership.
D. The SHPO shall be notified immediately of all new historic designations or alterations to existing designations.
E. Proposed amendments to the LDC pertaining to the Historic District Overlay shall be sent to the SHPO for review and comment thirty (30) days prior to the scheduled adoption hearing.
F. Objections by property owners that are notarized and filed with the HDC shall be submitted to the SHPO in order to prevent involuntary nomination to the National Register.
G. The HDC shall submit an annual report to the SHPO on or before November 1 of each year covering the previous October 1 through September 30 period. The annual report shall include:
    1. Any changes or amendments to HDC rules of procedure;
    2. The number of proposals and applications reviewed by the HDC;
    3. New historic designations or alterations to existing designations;
    4. Changes to the HDC;
    5. New or revised resumes of HDC members or staff;
    6. Changes or requested changes to the Historic District Overlay regulations;
    7. Review of the survey and inventory activities with a description of the system used; and
    8. A program report on each grant-assisted activity.

9.04.00 BOARD OF ADJUSTMENT (BOA)

9.04.01 Establishment

There is hereby established a Board of Adjustment for the purpose of hearing and deciding on appeals of administrative decisions and hearing and deciding on applications for variances.

9.04.02 Membership

A. There shall be five (5) regular members of the BOA.
B. There shall be two (2) alternate members of the BOA.

9.04.03 Roles and Responsibilities

The BOA shall have the roles and responsibilities described in this section. The BOA shall conduct public hearings and render decisions in compliance with the requirements of this LDC on the following matters:

A. To hear and decide appeals where it is alleged there is error in any order, interpretation, requirement, decision, or determination made by an administrative official in the enforcement of this LDC (See Section 11.07.00 for procedures regarding appeals); and
B. To authorize a variance from a provision of the LDC, as set forth in Chapter 10.

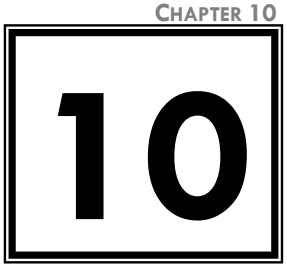
9.05.00 TECHNICAL REVIEW COMMITTEE

9.05.01 Establishment

There is hereby created and established a Technical Review Committee (TRC) for the purpose of receiving, reviewing, and rendering decisions on applications subject to administrative review and decision as set forth in Chapter 11.

9.05.02 Membership

Membership of the TRC shall include, at a minimum, a representative from the following City departments:



A. Planning and Zoning
B. Utility
C. Building
D. Facilities Maintenance
E. Fire Department

9.05.03 Roles and Responsibilities

A. The TRC shall review applications and provide compliance reports for site plans, rezoning, amendments to this LDC, preliminary subdivision plats, final subdivision plats, and amendments to previously issued local development orders.
B. The TRC shall perform such other duties as may be assigned by the City Commission or City Manager.

9.05.04 Rules of Procedure

A. The City Manager shall appoint the chair of the TRC.
B. The TRC shall establish and publish a schedule of deadline dates for applications and regular meetings. Meetings may be called by the TRC chairperson.
C. The TRC may establish such additional rules of procedure as needed to carry out its roles and responsibilities.

10.03.02	Procedure	10-7
10.03.03	Annual Report Required	10-7

10.00.00 GENERALLY

The purpose of this chapter is to provide mechanisms for obtaining relief from the provisions of this LDC where hardship would otherwise occur. There are several ways that potential relief from hardship is addressed: relief through requirements regarding nonconforming development; relief through the grant of a variance from the design standards of this LDC; relief through the grant of an administrative waiver in specific situations; and relief through recognition of vested rights regarding use and/or design.

10.01.00 NONCONFORMING SITUATIONS

10.01.01 Continuation of Nonconforming Uses and Structures

A. Subject to the provisions in Section 10.01.00, the lawful use of land or buildings existing on the date of enactment of this LDC shall be allowed to continue.
B. Nothing in this chapter shall be construed to prevent the ordinary and routine maintenance and repair of nonconforming structures.
C. Nothing in this section shall require any change in plans, construction, or designated use of a building or structure for which a building permit has been issued and the construction of which shall have been commenced within six (6) months of the date of that permit.
D. Dwelling units made available for resort rental housing uses in the R-1 and R-2 districts as of the effective date of Ordinance No. 2000-28 (October 3, 2000), shall be permitted to continue to be used as such, provided that the resort rental permit has not expired.
E. If a structure located within the city receives storm damage or other structural damage in excess of fifty (50%) of the appraised value of the structure, such structure may be replaced in compliance with current laws and ordinances, including those enacted since the construction of the subject structure. If the structure was non-conforming based on density or zoning, it may be re-constructed at no greater non-conformity than prior to when it was damaged. In no instance may any non-conformity be expanded.

10.01.02 Expansion or Modification of Nonconforming Uses or Structures

A. Nonconforming structures shall not be expanded except in compliance with this section.
B. An expansion in square footage shall be permitted where such expansion meets all requirements of this LDC.
C. Nonconforming Historic Structures. Repairs, alterations and additions necessary for the preservation, restoration, rehabilitation or continued use of a nonconforming historic structure may be permissible when authorized by the HDC in the form of a Certificate of Appropriateness, provided:
    1. The structure lies within the Historic District Overlay;
    2. Any unsafe conditions are corrected;
    3. The use(s) therein shall be in conformance with all applicable provisions of this chapter.
D. An expansion of a nonconforming structure is permissible that is otherwise required by law or ordered by the City Manager to secure the safety of the building.
E. A non-conforming structure which was lawfully erected on a lot of record may be reconstructed if it is substantially damaged or destroyed, provided that:
    1. The reconstruction does not result in an increase in the nonconformity of the lot area, yards, setbacks or density;

2. The number of dwelling units in such reconstructed structure does not exceed the number of units in existence at the time of damage or destruction;
3. The repair or reconstruction is substantially completed within twenty-four months of the date of such damage.

F. An expansion may be permitted where such expansion is solely to extend an existing use throughout the building in which the use occurs on the date of enactment of this LDC. Such expansion shall not be extended to occupy any land outside the building, including parking and other impervious surfaces.

G. Any non-conforming use shall be brought into full compliance with all provisions of this Code if any of the following activities occur:
1. When the non-conforming use has been discontinued for a period of 180 days;
2. If a non-conforming structure or portion of any structure containing a non-conforming use becomes physically unsafe or unlawful due to lack of repairs or maintenance and is declared by any duly authorized official of the city to be an unsafe building, it shall not thereafter be repaired or rebuilt except in conformity with this land development code.

10.01.03 Exceptions for Affordable Housing and Historic Homes

In accordance with, and in furtherance of the comprehensive plan, certain lots are exempt from the provision of Section 10.01.00 regarding nonconforming buildings.

A. Development may be permissible when a lot meets the following conditions:
1. The lot complies with the standards set forth in the LDC except that the lot width is less than the standard required for the zoning district in which the lot is located;
2. The lot is located west of Egans Creek; and
3. Evidence is provided that development will provide affordable housing for very-low, low, or moderate-income persons or families, as the same are defined in Section 420.602, *F.S.*

B. Development is permissible where development is necessary for the preservation of historically significant housing, in compliance with the provisions of the comprehensive plan.

10.02.00 VARIANCES

10.02.01 Generally

A. Within the Historic District Overlays and the CRA Overlay, the HDC may authorize a variance from the design and improvement standards of the LDC and may issue exceptions from the CRA design guidelines where the required findings of Section 10.02.00 are met.

B. The BOA may authorize a variance from the design and improvement standards of the LDC, except for areas within the Historic District Overlay, the CRA Overlay, or as limited by Section 10.02.01(D), where the requirements of Section 10.02.00 are met.

C. The City Commission may take action to authorize a variance request from LDC Section 4.02.02 for properties which are contained within the Comprehensive Plan defined "Job Opportunity Areas," but only for properties located on the west side of North or South Fletcher Avenues in the "Job Opportunity Areas." The City Commission shall hear such variance requests in accordance with provisions for variances as set forth in Chapter 10.

D. Limitations on the granting of a variance

1. A variance shall not be granted which authorizes a use that is not permissible in the zoning district in which the property subject to the variance is located.
2. A variance shall not be granted which authorizes any use or standard that is prohibited by the City's Comprehensive Plan.
3. No nonconforming use of adjacent lands, structures, or buildings in the same zoning district, and no permitted use of land, structures, or buildings in other zoning districts, shall be considered grounds for the authorization of a variance.
4. A variance shall not change the requirements for concurrency.
5. A variance shall not be granted to permit the use of a single media peonia for the construction of a dwelling unit.
6. A variance shall not be granted if the evidence submitted by an applicant is solely a demonstration of financial hardship or economic considerations.
7. A variance shall not be granted for procedure or process components of this Land Development Code.
8. A variance shall not be granted to deviate from LDC section 4.02.02 to combine two (2) or more lots which would result in a lot width greater than 100 feet for lots or parcels that abut Ocean Avenue, North Fletcher Avenue, or South Fletcher Avenue except as may be provided in LDC Section 10.02.01 (C) above.
9. A variance shall not be granted which authorizes the filling of wetlands prohibited by LDC Section 3.03.03 (A).
10. No variance will be granted to exceed the maximum building height of 35 feet for a building on any lot within 1,000 feet of the Coastal Construction Control Line (CCCL) under LDC Section 4.02.03(D), Table 4.02.03(E), specifically Note 1.
11. A variance shall not be granted for any residential or residential mixed-use structure to exceed the maximum building height requirements contained in Table 4.02.03(E).
12. A variance shall not be granted to reduce the minimum side yard setbacks for buildings within 1,000 feet of the Coastal Construction Control Line (CCCL).

10.02.02 Required Findings for a Grant of a Variance

A. In order for an application for a variance to be approved or approved with conditions, the BOA or the HDC shall find that all of the following criteria apply:

1. Special Conditions: Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district. Special conditions or circumstances do not result from actions of the applicant and are not based on a desire to reduce development costs.
2. Special Privilege: Granting the variance does not confer upon the applicant a special privilege that is denied by the Land Development Code to other lands, structures, or buildings in the same zoning district.
3. Literal Interpretation: Literal interpretation of the provisions of the Land Development Code would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district.
4. Minimum Variance: The variance requested is the minimum variance needed that will make possible the reasonable use of the land, structure, or building.
5. General Harmony: Granting the variance will be in harmony with the general intent and purpose of the Land Development Code and Comprehensive Plan.
6. Public Interest: Granting the variance is compatible with surrounding properties, will not cause injury to the area involved, or otherwise be detrimental to the public health, safety, welfare or environment.

B. The applicant for a variance has the burden of proof of demonstrating that the application for a variance complies with each of the requirements of Section 10.02.02(A).

10.02.03 Additional Criteria for Findings for a Grant of a Variance in the Historic Districts or Community Redevelopment Area

In acting on variance requests in the Historic District Overlays or the Community Redevelopment Area Overlay, the Historic District Council may be guided by the following in addition to the criteria in Section 10.02.02(A):

A. That a variance is necessary to maintain the historic character of property through demonstrating that:
   1. A variance would not be contrary to the public interest, safety, or welfare.
   2. Special conditions and circumstances exist, because of the historic setting, location, nature, or character of the land, structure, appurtenance, sign, or building involved, which are not applicable to other lands, structures, appurtenances, signs, or buildings in the same zoning district, which have not been designated as historic sites or a historic district nor listed on the Local Register of Historic Places.
   3. Literal interpretation of the provisions of existing ordinances would alter the historic character of the historic district, or historic site to such an extent that it would not be feasible to preserve the historic character, of the historic district or historic site.
   4. The variance requested is the minimum necessary to preserve the historic character of a historic site or of a historic district.
   5. In the case of the alteration of an existing building, the proposed design would incorporate materials, details, or other elements not permitted by the Land Development Code but which can be documented by photographs, architectural or archaeological research or other suitable evidence to have been used on other buildings of a similar vintage and style in the Historic District in which the building is located, provided that the project will not destroy significant architectural features on the building.
   6. In the case of new construction, the proposed design incorporates materials, details, setbacks, massing or other elements that are not permitted by the Land Development Code but which would enhance the quality of the design for the new building or structure, provided that said new building or structure otherwise complies with the criteria for new construction in the Historic District in which the building or structure is proposed to be located and provided further that it would also have a beneficial effect on the historic character of the visually related area.

B. Or, as an alternative to subsection (A), that a variance is necessary to accommodate an appropriate adaptive reuse of a structure within a Historic District or upon a Historic Site through demonstrating that:
   1. A variance would not be contrary to the public interest, safety, or welfare.
   2. The variance would not significantly diminish the historic character of the Historic District or Site.
   3. That the variance requested is the minimum necessary to affect the adaptive reuse of an existing structure or site.
   4. The proposed design would incorporate materials, details, or other elements not permitted by the Land Development Code but which can be documented by photographs, architectural or archaeological research or other suitable evidence to have been used on other buildings of a similar vintage and style in the Historic

District in which the building is located, provided that the project will not destroy significant architectural features on the building.

10.02.04 Procedures for Variances

A. Applications
   1. An application for a variance shall include the information required for all applications, as set forth in Section 11.01.03 and City established policies, as amended from time to time.
   2. An application for a variance shall include a statement explaining how the variance request conforms to all requirements listed in Section 10.02.02 (A).
   3. An application for a variance for development subject to site plan review and approval shall be decided by the BOA or HDC prior to completion of the site plan review process.

B. Review of applications
   1. An application for a variance shall be reviewed by the City Manager for compliance with the requirements set forth in Section 10.02.02(A). The City Manager shall prepare a compliance report to the BOA or HDC.
   2. A public hearing shall be scheduled before the BOA or the HDC.
   3. Notice shall be provided pursuant to the requirements of Section 11.02.00.
   4. The BOA or HDC shall conduct the public hearing in accordance with the procedures set forth in Section 11.04.00.
   5. The BOA or HDC shall approve, deny, or approve with conditions the application for variance, based upon findings regarding conditions set forth in Section 10.02.02(A).
   6. The City Manager shall issue a written order to the applicant when final action is taken by the BOA or HDC.

C. Expiration of variance approval
   Any variance authorized by the BOA or HDC, for which action has not commenced within one (1) year from the date on which the decision of the BOA or HDC is reduced to a written order, or if appealed, the date on which the order becomes final, shall be deemed abandoned and be void and of no further force and effect. See LDC Section 11.00.04(D) for extension allowances.

D. Appeals on a Variance.
   1. Any person aggrieved by any decision of the BOA or HDC regarding a variance may present to a court of record a petition, duly verified, setting forth that the decision is illegal, in whole or in part, specifying the grounds of the illegality. The petition shall be presented to the court within 30 days after the filing of the decision at the office of the board; otherwise the decision of the board will be final.

10.03.00 ADMINISTRATIVE WAIVERS

10.03.01 Authority and Limitations

The City Manager is authorized to reduce specific site design and development standards of this LDC where the intent of the LDC can be achieved and equal performance obtained by granting a waiver. The authority to grant a waiver mustl be limited to the following:

A. A reduction in the parking requirement, provided the following standards are met:
   1. The reduction is necessary in order to implement tree protection standards of this LDC;

2. The reduction is limited to either one (1) space or two (2) percent of the parking requirement, whichever is more; and
3. The reduction does not limit the availability or location of required handicapped parking.

B. A reduction in a dimensional standard, other than a setback as set forth in Section (A) above, provided that all of the following conditions are met:
   1. A property owner inadvertently fails to comply with the dimensional requirements and such failure is identified after the start of construction;
   2. The difference between the required dimensional standard set forth in this LDC and the actual measurement is not more than three (3) inches; and
   3. Failure to comply with the required dimensional standard must not result in an adverse health, safety, or welfare impact.

C. A reduction in the minimum front, side, or rear yard setbacks for a single residential lot for the exclusive purpose of protecting mature, healthy shade trees on a property provided the following standards are met:
   1. The reduction is necessary to protect a healthy native shade tree measuring at least 25 inches DBH; and
   2. The reduction does not result a structure placed less than five (5) feet from the front, side, or rear property lines; and
   3. The protected tree will not require pruning cuts any greater than 20% as recommended by ISA best management practices during construction or within 2 years following construction activities; and
   4. Where the applicant has provided a certified arborist statement attesting to the health of the tree and its worthiness for deviation from typical setback standards, a detailed protection schematic to secure and inspect the tree during construction activities, consideration of designation as heritage tree to extend protection requirements, and recommendations for post development inspections and treatments; and
   5. A recorded agreement between the property owner and the City which binds future owners to tree replacement requirements should the preserved tree fail in the future.

10.03.02 Procedure

A. An application for an administrative waiver shall meet the requirements set forth in Section 11.01.03 and City established policies, as amended from time to time.
B. An application for an administrative waiver shall include a statement explaining how the request conforms to all requirements listed in Section 10.03.02(A), (B), or (C).
C. The City Manager shall evaluate the application for administrative waiver for compliance with the requirements set forth in Section 10.03.02(A), (B), or (C), and shall issue a notice of intent to approve or deny the application. The notice shall meet the requirements of Section 11.02.00.
D. When an application is approved, the City Manager shall issue a written order following the notice period. When the application is denied, the City Manager shall notify the applicant in writing.

10.03.03 Annual Report Required

An annual report shall be prepared to summarize the number and type of administrative waivers granted in the previous year. Such reports shall be prepared in January of each year for the previous calendar year. Annual reports shall be presented to the Planning Commission for review and comment. Annual reports, together with recommendations from the Planning Commission, if any, shall be forwarded to the City Commission.

11.00.00 GENERALLY

11.00.01 Purpose and Intent

This chapter sets forth the procedures for receiving, reviewing, and rendering decisions on applications for development approval, including local development orders, development permits, amendments to this LDC, and amendments to local development orders. Procedures for appealing decisions and seeking variation from the standards of this LDC are set forth in Chapter 10. It is the City's intent that the procedures set forth in Chapter 11 shall be followed in order to seek approval for any development. As used in this section "site plan" means any site plan, whether or not such site plan is for development subject to supplemental standards or a PUD.

11.00.02 Local Development Orders and Development Permits Required

A. A local development order shall be issued to indicate approval of any site plan, subdivision plat, variance, and rezoning.
B. A local development order shall be required prior to the issuance of any development permit to authorize construction, reconstruction, site improvements, installation of improvements, establishment of a temporary or accessory use or structure, or other modifications to the land or water on a site, except that a local development order shall not be required prior to issuance of a permit for installation or construction of a telecommunications tower.
C. A development permit shall be required as set forth in Section 11.03.07.
D. Any person who commences any work on land, or a building, structure, or sign, or an electrical, gas, mechanical, or plumbing system before obtaining the necessary permits, shall be subject to a penalty as described in Section 11.08.00.
E. An amended local development order shall not be required when:
    1. There is no increase in the amount of impervious surface within the development;
    2. The number of dwelling units does not change by five (5) percent or more;
    3. There is no change in the floor area ratio;
    4. There is no modification in the original design concept, such as a change in housing types, building scale, or compatibility factors;
    5. There is no change in the land use categories on the approved site plan;
    6. There is no increase in traffic volume, flow, or points of ingress or egress;
    7. There is no reduction of required setbacks;
    8. There is no reduction in the number of parking spaces;
    9. There is no change in parking lot design; or
    10. There is no reduction in landscaping or buffering.

11.00.03 Exemptions

Exemptions from the provisions of this LDC are identified in Section 1.03.02.

11.00.04 Expiration of Local Development Orders and Development Permits

A. A local development order shall expire twelve (12) months after the date of issuance unless a longer period is specifically provided.
B. A development permit shall expire six (6) months after the date of issuance, unless work has commenced and is continuing in good faith, pursuant to all provisions of the permit.
C. Prior to expiration of a local development order or a development permit, the local development order or development permit may be extended for a period not to exceed six (6) months, subject to the following:
    1. A written request for an extension shall be submitted to the City.

2. Applicable fees for extension shall be paid.
3. No more than two (2) such six (6) month extensions shall be issued.

D. Local Development Orders for which subsequent approvals are required (for example, FDEP approval for coastal construction, TRC site plan approval, or HDC design approval) shall be considered valid beyond the twelve (12) month expiration, provided the applicant can demonstrate proof of due diligence to obtain such approvals during the initial approval period. The applicant must provide a request in writing and any extension, if issued, shall be granted in six (6) month increments.

11.00.05 Local Development Orders for a Change of Use

A. A change of use occurs when an existing use, as listed in Table 2.03.02 is replaced by a different use, as listed in Table 2.03.02. A proposed change of use shall be subject to the pre-application conference as set forth in Section 11.01.02.

B. A change of use shall not require a local development order when all of the following conditions are met:
   1. The existing use conforms to the comprehensive plan and this LDC;
   2. The proposed use conforms to the comprehensive plan and this LDC;
   3. The proposed increase does not increase density;
   4. Any proposed modifications to an existing building are only to the facade or interior of the building;
   5. The proposed use does not require a greater number of parking spaces than the existing use;
   6. The proposed use does not require a greater number of parking spaces than are currently available on the site;
   7. The proposed use does not increase the amount of impervious surface, whether due to expansion of an existing building, proposed construction of additional buildings, or addition to paved areas for any purpose; and
   8. All applicable development permits are obtained.

C. The determination that a proposed use or development constitutes a change of use is an administrative decision subject to appeal as set forth in Section 11.07.00.

D. When a local development order is required due to a proposed change of use, all standards and procedures of the comprehensive plan and this LDC shall apply to the proposed new use.

11.00.06 Effect of This LDC on Lots Combined for Development Purposes

(Reserved)

11.00.07 Fees Required

A fee shall be required for all applications for final local development orders and development permits. Fees are set forth in the schedule of fees. No action shall be taken on an application until all applicable fees are paid.

11.00.08 Fees for Independent Review of Applications

The City is authorized to enter into a contract with persons who have expertise necessary for the review of an application or a specific technical aspect of an application. The costs of such review shall be paid by the applicant, according to the schedule of fees.

11.00.09 Certificate of Occupancy

A certificate of occupancy is the only demonstration that the use and occupancy of land or buildings conform to the requirements of this LDC. A certificate of occupancy shall be received by the property owner prior to the use or occupancy of land or buildings. When

a change of use occurs, as set forth in Section 11.00.05, a new certificate of occupancy shall be required. This section shall not be construed to apply to the transfer of ownership or the change of occupants, except as provided in Section 11.00.05.

11.00.10 Overall Revisions to the Land Development Code

Overall revisions to the Land Development Code shall be conducted as follows:

Stage 1: The City Commission and the consultant, staff, or Planning Advisory Board develops the proposed revisions to the Land Development Code.

Stage 2: After completion of stage 1, the proposed revisions are referred to the Planning Advisory Board for discussion and public hearings.

Stage 3: The Planning Advisory Board sends the revisions and their recommendations back to the City Commission for review, public hearings, and final adoption.

This process shall apply to overall revisions to the Land Development Code only.

11.01.00 APPLICATION REQUIREMENTS

11.01.01 Applications for Local Development Orders

A. Table 11.01.01 contains a list of the types of applications for local development and the entity responsible for reviewing and rendering decisions on each type of application.

Table 11.01.01 Types of Applications and Responsible Entities for Final Review and Decision-Making

Type of Application	Entity Responsible for Final Review and Decision-Making				
	City Manager	Planning Advisory Board	Board of Adjustment	City Commission	HDC
Change of use determination	X				
Minor Subdivision	X				
Minor amendments to local development orders	X				
Administrative waivers	X				
Site plans for all development	X				

Type of Application	Entity Responsible for Final Review and Decision-Making				
	City Manager	Planning Advisory Board	Board of Adjustment	City Commission	HDC
Variance			X		X
Appeal of administrative decisions			X		
Permits for telecommunication towers		X			
Tree removal permits	X			X	
Certificate of appropriateness	X				X
Preliminary and final subdivision plats				X	
Rezoning				X	
Amendment to the LDC				X	
Major amendments to local development orders (Consideration of major amendments to local development orders follows the same procedure as for the initial application.)	X		X	X	X

B. Applications shall not be accepted for a period of twelve (12) months following denial of an application, when the new application is for the same property and submitted by the same applicant as the denied application.

11.01.02 Pre-Application Conference

A. A pre-application conference is a meeting between an applicant and the City Manager for the purposes of:
   1. Exchanging information on the potential development of a site;
   2. Providing information on permissible uses of the site proposed for development;
   3. Providing information to an applicant regarding the design standards set forth in this LDC that are applicable to a potential application;
   4. Providing information to an applicant regarding standards of regional, state, or federal agencies that may be applicable to a potential application;
   5. Determining the need and requirements for supporting plans, documents, and studies;
   6. Providing information to an applicant regarding infrastructure requirements and the construction of required improvements; and
   7. Providing information to an applicant regarding the appropriate procedures and schedules for receiving and reviewing applications and rendering decisions regarding a potential application.

B. It is the City's intent that all requirements be identified during the pre-application conference. However, no person may rely upon any comment concerning a proposed development, or any expression of any nature about the proposal, made by a

participant at the pre-application conference, as a representation or implication that the proposal will be ultimately approved or rejected in any form.

C. Prior to the submission of an application for a local development order, an applicant shall submit a written request for a pre-application conference.
D. A pre-application conference shall be held not more than two (2) weeks following the date of submission of the written request for such conference.
E. A pre-application conference shall be held not more than six (6) months prior to submission of an application.
F. The pre-application conference shall include representatives of City departments responsible for reviewing applications and independent reviewers hired by the City, and may include representatives of regional, State, or federal agencies with authority over specific aspects of the proposed development.

11.01.03 Requirements for All Board Applications

A. Each application is due no later than 30 days prior to the scheduled public hearing dated for which the application will be considered and at a minimum include the following information:
   1. At least one (1) pre-application meeting with Planning Department Staff prior to submittal of an application.
   2. A completed application form available from the City.
   3. The name, address, telephone number, facsimile number, email address, and signature of the property owner.
   4. When the applicant is a representative of the property owner or purchaser under contract, a notarized statement authorizing the representative to act as an agent of the property owner with regard to the application and associated procedures.
   5. A property survey containing the legal description, land area, and existing improvements on the site. The survey shall be signed by a surveyor licensed in the State and shall have been performed not more than two (2) years prior to the date of application. The City is exempt from having to provide a property survey when the City files an application.
   6. Payment of applicable fees.
B. An application regarding development within or affecting environmentally sensitive lands (see Chapter 3) shall include proof of receipt of applicable permits or exemptions from regional, State, or federal agencies with permitting authority for wetlands.
C. All site plans and drawings for an application shall be prepared at the same scale. The sheet size shall not be less than eleven inches by seventeen inches (11 x 17) and shall not be more than by thirty-six inches by forty-eight inches (36 x 48). An electronic version may be required.
D. The number of copies of the application materials shall be as specified by the City Manager.
E. Any development application for development proposed within the Airport Overlay Zone established for the Fernandina Beach Municipal Airport shall provide confirmation of notification to the FAA as required by Title 14, Code of Federal Regulations, Part 77 Subpart C. Comments by the FAA shall be included as part of the submittal.

11.01.04 Requirements for All Site Plans

A. In addition to the information required in Section 11.01.03, all applications for site plan approval shall contain the following information:

1. The names, address, telephone number, facsimile number, and email address of the person preparing the plan.
2. The date of preparation and date(s) of any modifications, a north arrow, and a written and graphic scale.
3. The legal description of the property, consistent with the required survey.
4. A vicinity map showing the location of the property.
5. The location of streams, bodies of water, natural features, roads, rights-of-way, street intersections, and paved areas within the boundaries of the property.
6. The location of streams, bodies of water, dunes and dune systems, and other natural features within 250 feet of the boundaries of the property.
7. The location of the mean high water line, if such line is within the boundaries of the property.
8. A topographic survey, soils report, grading plan, and an erosion control plan.
9. A general floodplain map indicating areas subject to inundation and high groundwater levels up to a 100-year flood classification.
10. A statement indicating the distances to schools and public safety facilities intended to serve the proposed development.
11. The name, plat book, and page number of any recorded subdivision comprising all or part of the site.
12. The location and use of any existing and proposed principal or accessory buildings and structures, showing proposed setbacks, building heights, and other dimensional requirements of the zoning district in which the property is located.
13. Elevations of all proposed structures.
14. The access points, driveway design, on-site parking, including required parking lot landscaping, internal circulation, sidewalks, and bicycle facilities.
15. The location of existing and proposed utilities, utility services, and easements.
16. A tree survey showing protected trees, proposed replacement trees, if required, and landscaping and buffering. (See Section 4.05.00.)
17. A soil erosion and sediment control plan compliant with Section 3.01.04.
18. For a PUD site plan, a detailed, written list and explanation of how the proposed PUD differs from any provision of this LDC applicable to the underlying zoning district.
19. For site plans and PUD site plans where development is proposed in phases, the plans shall include phase lines and the following supporting information:
    a. Timeline for the development; and
    b. Benchmarks for monitoring the progress of construction of each phase regarding land clearing, soil stabilization and erosion control, installation of infrastructure, and installation of landscaping.
20. A summary block containing:
    a. Land use category from the Future Land Use Map in the comprehensive plan;
    b. Zoning district;
    c. Total acreage;
    d. Total square footage for non-residential uses;
    e. Total density and number of units, proposed and permissible, for residential uses;
    f. Impervious surface ratio calculation, proposed and permissible;
    g. Floor area ratio calculation, proposed and permissible;
    h. Total number of parking spaces, required and provided; and
    i. Number of trees required to be protected, number of trees remaining on the site, and number of trees to be planted.

B. Additional plans, documents, or reports that are necessary to support the application shall be submitted. Such plans, documents, or reports may include, but are not limited to, concurrency analysis, traffic analysis reports, parking studies, stormwater management plans, or environmental impact studies.
C. Concurrency analysis reports shall contain the information set forth in Section 7.04.00. Requirements for traffic analysis reports are set forth in Section 11.01.06. Requirements for parking studies are set forth in Section 7.01.04. Requirements for stormwater management plans are set forth in Section 7.03.00. Requirements for environmental impact studies are set forth by regional, State, and federal agencies with jurisdiction and in Chapter 3 of this LDC.

11.01.05 Requirements for Subdivision Plats (Preliminary and Final)

A. A preliminary subdivision plat shall be required when new streets, water lines, and sewer lines are required; when three or more residential lots are created; and where one nonresidential lot is created or proposed for development. Where new streets, water lines, and sewer lines are not required, the preliminary and final plat may be combined into a single submittal. A preliminary plat provides for a complete review of technical data and preliminary engineering drawings prior to completion of the final plat for recording.
B. In addition to the information required in Section 11.01.03, all applications for preliminary subdivision plat approval shall contain the following information:
   1. The name, address, telephone number, facsimile number, and email address of the person preparing the plat.
   2. The date of preparation and date(s) of any modifications, a north arrow, and a written and graphic scale.
   3. The proposed name of the subdivision.
   4. Development specifications for the tract: area, proposed number and layout of lots and blocks, location, names, and widths of proposed roadways, consistent with this LDC and the Future Transportation Circulation Map of the Comprehensive Plan.
   5. All contiguous properties shall be identified by subdivision title, plat book and page, or, if un-platted, the land shall be so designated, and otherwise identified.
   6. Location of land to be dedicated or reserved for public use for rights-of-way, streets, sidewalks, bike trails, pedestrian trails, easements, schools, parks, open spaces, or other public uses. Proposed street names shall be included.
   7. Locations of utilities, utility service, connections to existing utility facilities, and easements necessary to provide access to the utility facilities for maintenance or other activity.
   8. Location of the nearest available public water supply and wastewater disposal system.
   9. A topographic survey, soils report, grading plan, and an erosion control plan.
   10. Existing surface water bodies, wetlands, streams, and canals, including the location of the mean high water line for each feature.
   11. A preliminary surface drainage plan showing direction of flow and methods of stormwater retention.
   12. A floodplain map indicating areas subject to inundation and high groundwater levels up to a 100-year flood classification, and establishing a base flood elevation for all proposed lots within the subdivision.
   13. A tree survey showing protected trees, proposed replacement trees, if required, and landscaping and buffering.

C. An improvements plan shall be submitted with a preliminary plat application. The improvements plan shall include the following information:
   1. A stormwater management plan showing the complete drainage system in compliance with the requirements set forth in Section 7.03.00.
   2. Soils map, soil infiltration test locations, results of test borings, and subsurface conditions, providing at least one (1) test per drainage retention or detention area.
   3. Paving and drainage plans and profiles showing existing and proposed elevations and grades of all paved and open areas, including the size, location, and type of facilities.
   4. Water distribution and wastewater collection plans and proposed profiles.
   5. Proposed locations for electric, telephone, cable lines, and any supporting facilities.
   6. Typical roadway and drainage sections and a summary of quantities to include a driveway apron and culvert schedule with typical sections.
   7. Profile sheet showing special situations such as intersections or waterways.
   8. Plans showing existing and proposed improvements to waterways, lakes, streams, channels, ditches, bridges, culverts, seawalls, bulkheads, and retaining walls.
   9. A street lighting plan, showing approval of the appropriate utility authority.
   10. Landscaping plan, demonstrating compliance with Section 4.05.00.
   11. Construction details for all proposed improvements described on the improvements plan, demonstrating compliance with the requirements set forth in the Public Works Manual.
   12. Written specifications demonstrating compliance with all applicable design standards for site improvements.

D. Additional plans, documents, or reports that are necessary to support the application shall be submitted. Such plans, documents, or reports, identified during the pre-application conference, may include, but are not limited to, concurrency analysis, traffic analysis reports, parking studies, or environmental impact studies. Concurrency analysis reports shall contain the information set forth in Section 7.04.00. Requirements for traffic analysis reports are set forth in Section 11.01.06. Requirements for parking studies are set forth in Section 7.01.04. Requirements for environmental impact studies are set forth by regional, State, and federal agencies with jurisdiction and in Chapter 3 of this LDC.

E. The final plat shall meet the following requirements:
   1. The final plat shall conform to the approved preliminary plat in all respects, except that minor variations in dimensions and alignment resulting from more precise final computations may be accepted.
   2. The final plat shall be drawn at the same scale, using the same sheet size, as for the associated preliminary plat and improvements plan.
   3. The subdivision shall be given a name by which it shall be legally known. The name shall not be the same as any other recorded subdivision name, except where the subdivision is an additional unit or section of an existing subdivision.
      a. Lots and blocks shall be numbered or lettered consecutively.
      b. Excluded parcels shall be clearly indicated and labeled.
   4. Acknowledgements, dedications, notifications, notes, and declarations shall be on the first sheet, and extended to following sheets if necessary.
   5. All areas reserved for use by residents of the subdivision shall be so indicated. All areas reserved for public use, such as parks, rights-of-way, easements, drainage areas, and other public areas, shall be dedicated by the owner of the land at the

time the final plat is recorded. All streets shall be named. Dimensions, purpose, and reservation of easements shall be indicated.

6. The mortgagee's consent and approval of dedications shall be required on all plats where mortgages encumber the land to be platted. The signature(s) of the mortgagee(s) shall be witnessed.
7. Restrictive covenants pertaining to use of improvements, land, and water shall be submitted with the final plat for recording.
8. The final plat shall be prepared by a professional surveyor, licensed in the State, who shall certify on the plat that the plat is a true and correct representation of the lands surveyed, and that the survey data complies with all requirements of Chapter 177, *F.S.,* this LDC, and that permanent reference monuments have been set in compliance with the *Florida Statutes*. The certification shall bear the signature, registration number, and official seal of the surveyor.
9. Signature blocks shall be provided for all appropriate officials, together with the name and title of the officials.
10. A certificate of ownership shall be dated not more than sixty (60) days prior to the recording date of the final plat. The certificate shall be an attorney's opinion of title or a title company certificate.
11. The final plat shall include a legal description of the lands subdivided.
12. When two (2) or more sheets are necessary to accurately portray subdivided lands, an index sheet shall be provided showing the entire subdivision as well as the sheet layout. Sheets shall be numbered.
13. Upon approval by the City Commission, a print on cloth and a photographic copy on mylar shall be provided to the City Clerk for signature. The applicant shall record the final plat with the clerk of the circuit court and provide a copy of the recorded final plat to the City Clerk.

F. Specific requirements for minor subdivisions

1. A minor subdivision is an alteration of a common property boundary between two (2) platted lots (also called a lot line adjustment); the division of a parcel into two (2) lots; or the combining of two (2) or more lots into one (1) lot.
2. A lot line adjustment may increase or decrease the lot areas, but shall not result in a lot that does not comply with the density, dimension, or other design requirements of this LDC.
3. A lot line adjustment shall not create a nonconforming situation with regard to a lot or any structures located on a lot.
4. Lot combinations and creation of two (2) lot subdivision shall comply with density, dimension, and other design requirements of this LDC.
5. A minor subdivision is exempt from the platting requirements set forth for preliminary and final plats in this section.
6. An application for a minor subdivision shall include the following information in addition to the information required in Section 11.01.03:
   a. Existing and proposed legal descriptions, including existing easements and rights-of-way;
   b. Proposed points of ingress and egress to each lot;
   c. Existing and proposed dimensions of the lots; and
   d. Applicable zoning district and site design requirements pursuant to this LDC.

11.01.06 Requirements for Traffic Analysis Reports

A. Traffic analysis reports shall be prepared by a licensed traffic engineer.
B. As part of the pre-application conference, the City and the applicant shall determine the area of impact, including streets, street segments, and intersections, for the traffic analysis, based on accepted traffic planning principles and practices.
C. The analysis shall consider both on-site and off-site traffic impacts, including:
    1. The existing average daily traffic on adjacent streets and streets impacted by the proposed development. Where traffic counts conducted within the previous six (6) months are not available, the applicant shall conduct traffic counts.
    2. The total trips generated by the project and the distribution of the trips onto adjacent streets. Institute of Traffic Engineers (ITE) trip generation rates shall be used as the basis for trip generation calculations. An alternative source of data may be used, where specifically approved by the City in advance.
    3. Level of service calculations at each project access point for both the a.m. and p.m. peak hours, both existing and with the proposed development.
    4. Level of service calculations at impacted intersections for both the a.m. and p.m. peak hours, both existing and with the proposed development.
    5. Analysis of the need for turning lanes or additional lanes on impacted roadways.
    6. Analysis of the need for intersection improvements.
    7. Analysis of the need for traffic signals or other traffic control devices.
    8. Other transportation factors based upon generally accepted traffic engineering practices.
D. The report shall include a statement of the assumptions used in conducting the analysis, including the following:
    1. Type and intensity or density of development.
    2. Projected population of a residential development.
    3. Proposed timing and phases of development.
    4. Proposed design of streets, access points, driveways, alleys, sidewalks, and other components of the transportation system.

11.01.07 Requirements for Amendments to the Zoning Map

A. In addition to the information required in Section 11.01.03, all applications for amendments to the Zoning Map (rezoning) shall include the information set forth in this section.
    1. The application shall include a map of the area indicating the proposed zoning district designation for the subject property. The map shall show the current zoning district designations and land use categories from the Future Land Use Map in the comprehensive plan for the subject property and all adjacent properties.
    2. A detailed statement shall be provided including the following information:
        a. The consistency of the proposed zoning district with the land use category on the Future Land Use Map in the comprehensive plan.
        b. A justification for the proposed zoning district.
B. A site plan shall not be considered simultaneously with the application for rezoning.

11.01.08 Requirements for Amendments to the Land Development Code

In addition to the information required in Section 11.01.03, all applications for amendments to this LDC shall include the information set forth in this section.

A. A description of the proposed amendment, with specific citations to the section(s) proposed for amendment, shall be provided.
B. A detailed statement shall be provided containing the following information:
    1. Consistency of the proposed amendment with the comprehensive plan; and

2. Justification for the proposed amendment.

11.02.00 NOTICE REQUIREMENTS

11.02.01 Generally

A. Notices will comply with the requirements set forth in the Florida Statutes and City established policies, as may be amended from time to time.

B. Notice will be required for the following applications:

Table 11.02.01(B) Application Required Notice

Application Type	Reviewing Entity	Posted Sign	Posted Agenda	Mailed	Published
Administrative Waiver for Tree Protection Setback Adjustment	City Manager	×			
Context Sensitive Setback Determination	City Manager	×			
Lot Line Adjustment/Minor Subdivision	City Manager	×			
Certificate of Appropriateness (COA)	Historic District Council	×	×	×	
Variances	Board of Adjustment or Historic District Council	×	×	×	
Appeals of Administrative Decisions	Board of Adjustment	×	×		
Comprehensive Plan Text Amendments	Planning Advisory Board		×		×
Land Development Code Text Amendments	Planning Advisory Board		×		×
Annexation	Planning Advisory Board	×	×	×	×
Future Land Use Map Amendment (FLUM) Small Scale (less than 10 acres) or Large Scale (greater than 10 acres)	Planning Advisory Board	×	×	×	×
Zoning Map Change or Planned Unit Development (PUD) Request	Planning Advisory Board	×	×	×	×
Preliminary or Final Plat	Planning Advisory Board	×	×	×	
Vacation of Right-of-Way (ROW)	Planning Advisory Board	×	×	×	×

11.02.02 Posted Notice Requirements

A. The City shall post a sign on a property that is the subject of a board reviewed application for a minimum of 10 days prior to a scheduled public hearing. The sign shall be located in a manner to ensure that it is clearly visible on each portion of the subject property that fronts on a roadway. Failure to place, maintain, or replace the sign shall

not affect the jurisdiction of the reviewing board or decision-making entity to consider the application or the validity of any resulting decision.

B. The City shall post an agenda notice of a scheduled public hearing for the property subject to a board application in a conspicuous place at City Hall and on the City's website for a minimum of 5 days prior to a scheduled public hearing.

C. The posted sign and agenda notices shall contain the following information:
   1. The name of the applicant;
   2. The location of property for which approval is sought;
   3. The nature of the approval sought by the applicant; and
   4. The date, time, and place of any and all applicable public hearings on the application.

11.02.03. Mailed Notice Requirements

A. Mailed notice of a required public hearing will be prepared by the City for board reviewed applications.

B. All mailed notices will be sent at least 10 days in advance of a scheduled meeting date by regular mail to all owners of real property located within 500 feet of the exterior lot lines of a property which is subject to the application.

C. The mailed notice will contain the following information:
   1. The name of the applicant;
   2. The location of property for which approval is sought;
   3. The nature of the approval sought by the applicant; and
   4. The date, time, and place of any and all applicable public hearing on the application.

D. The names and addresses of such property owners will be determined by reference to the latest ad valorem tax records for Nassau County, Florida.

11.02.04. Published Notice Requirements

A. notice shall be published in a newspaper of general circulation in Fernandina Beach for applications requiring published notice as directed by Florida Statutes.

B. Applications requiring published notice per applicable State laws shall comply with all statutory requirements pertaining to size and placement in the newspaper.

11.03.00 PROCEDURES FOR REVIEW AND DECISION-MAKING

11.03.01 Determination of Completeness & Sufficiency

A. Determination of Completeness:
   1. All applications are subject to a determination of completeness.
   2. A determination of completeness is a determination that all required documents and plans has been submitted in sufficient number, and whether all fees have been paid. A determination of completeness is not a determination of compliance with substantive standards and criteria.
   3. The City Manager shall issue a determination of completeness to the applicant, within five (5) days of receipt of an application. When the application is not complete, the determination shall specifically identify the missing documents and/or plans.
   4. The applicant shall have thirty (30) days from the date of determination to correct the deficiencies. The application shall not be processed until deficiencies are corrected and the application is determined to be complete. If the applicant fails to correct the deficiencies within the thirty (30) day period, the application shall be deemed withdrawn.

5. A determination of completeness is an administrative decision subject to appeal as set forth in Section 11.07.00.

B. Determination of Sufficiency:
   1. All citizen-initiated Comprehensive Plan Amendments and Amendments to the land development Code are subject to a determination of sufficiency.
   2. A determination of sufficiency shall be made after an application is determined to be complete. The Planning Department and the City Attorney will review the application to determine whether the application is consistent with the Comprehensive Plan. This review is also designed to prevent the application from unnecessary delays in the process.
   3. A sufficiency determination shall be made within thirty (30) days of receipt of the application from the City Manager. If the application is deemed insufficient by either the Planning Department or the City Attorney, the Planning Department will notify the applicant, which notification shall specify any and all laws, rules, codes and/or regulations which the application fails to comply with.
   4. The applicant shall have thirty (30) days from the date the application is deemed insufficient to bring the application into compliance with all applicable laws, rules, codes and regulations. The application shall not be processed until the application is deemed sufficient by the Planning Department. If the applicant fails to correct the application within the thirty (30) day period, the application shall be deemed withdrawn.
   5. The applicant may appeal a determination of insufficiency in accordance with Section 11.07.00 within 30 days of receipt of the written decision by the City Attorney and/or the Planning Department.
   6. When an application is deemed sufficient by the Planning Department, the application shall be assigned a number and processed for review and action in accordance with the procedures set forth below.

C. Material Changes to an Application:
   A determination by the Planning Department or the City Attorney that the Applicant has made material changes to an application, not proposed by and/or approved by the Planning Advisory Board, will require a new Determination of Completeness and Determination of Sufficiency including the assignment of a new number for review and action in accordance with the procedures set forth below.

11.03.02 Review and Compliance Report by the Technical Review Committee

All applications for site plans, preliminary subdivision plats, final subdivision plats, minor subdivisions, and amendments to previously issued local development orders, change of use, and nonresidential building expansions shall be reviewed by the Technical Review Committee (TRC). The City Manager may assign review responsibility for other types of applications to the TRC.

A. Within three (3) days following the determination that an application is complete, the application shall be sent to all TRC members.
B. TRC members shall provide written comments to the TRC chair who shall be responsible for preparing a preliminary compliance report. The preliminary compliance report shall be provided to the applicant at least seven (7) days prior to the scheduled TRC meeting.
C. When an application is for property within the Historic District Overlay, the application shall also be sent to the Historic District Council (HDC) for review and recommendation. The HDC shall hold a properly noticed quasi-judicial hearing as set forth in the published meeting schedule. The HDC shall make findings regarding

compliance of the application with Section 4.03.02 and shall provide a written report regarding such compliance to the City for inclusion in the compliance report prepared by the TRC.

D. When an application is for property within the Airport Overlay, the application shall also be sent to the Airport Advisory Commission for review and recommendation.
E. If the application fails to comply with the standards and criteria of this LDC, the compliance report shall specifically identify the manner in which the application is deficient, including a citation of applicable sections of this LDC.
F. Where the application includes a request for an administrative waiver, as set forth in Section 10.03.00, the compliance report shall include documentation of the compliance of the requested waiver with standards applicable to the requested waiver and the action taken on the requested waiver.
G. The TRC shall hold a public meeting for consideration of the preliminary compliance report and proposed revisions to the application provided by the applicant.
H. The applicant may request extensions of up to thirty (30) days for correction of deficiencies identified in the preliminary compliance report. Such request shall be in writing. The application will be rescheduled for a TRC meeting at the end of the thirty (30) day extension.
I. Within fifteen (15) days following receipt of a revised application, the TRC shall revise the compliance report, as needed, to evaluate additional information from the applicant for correction of deficiencies.
J. For matters to be considered by the BOA, Planning Advisory Board, or City Commission, the compliance report shall contain proposed findings, proposed conclusions, and a recommendation for approval, approval with conditions, or denial. When the recommendation is for approval with conditions, proposed conditions shall be provided.
K. For matters to be decided by the TRC, the compliance report shall contain proposed findings for consideration by the TRC when it renders a decision regarding the application.
L. The compliance report, including a written report from the HDC or Airport Advisory Commission where required, and the application materials shall be forwarded to the City Commission for action as set forth in Section 11.03.04.
M. Applications for minor subdivisions shall be reviewed for compliance with the site design requirements applicable to the zoning district in which the lots are located. Where the application demonstrates compliance with all such requirements, the TRC shall provide a notice of intent as set forth in Section 11.02.01(C) and (F). Following the notice period, the TRC shall issue a written order and approve the proposed boundary survey. The survey shall be recorded by the applicant.

11.03.03 Procedures for Action by the Planning Advisory Board

Consideration of applications by the Planning Advisory Board shall be for the purpose of making a recommendation to the City Commission.

A. When a determination of an application's completeness has been made by the City as set forth in Section 11.03.01, the application shall be scheduled for consideration by the Planning Advisory Board according to the published meeting schedule.
B. Notice shall be provided in compliance with the requirements of Section 11.02.00.
C. The Planning Advisory Board shall recommend to the City Commission that the application be approved, approved with conditions, or denied.

11.03.04 Procedures for Action by the City Commission

A. The City Commission shall consider applications for preliminary subdivision plat approval, final subdivision plat approval, rezoning, and amendments to this LDC at a public hearing.
B. Notice shall be provided in compliance with the requirements of Section 11.02.00.
C. A quasi-judicial hearing shall be held for consideration of applications for preliminary and final plats and, when required, rezoning.
D. The City Commission shall approve, approve with conditions, or deny the application.
E. The City Commission shall issue a written local development order for approval or a written notice of denial.
F. The local development order shall not be final and enforceable until signed by the Mayor.

11.03.05 Requests for Continuation of a Public Hearing

A. An applicant may request, in writing, a continuance of the public hearing regarding a specific application.
B. If the City Manager receives the written request for a continuance at least seven (7) days prior to the public hearing at which the application is scheduled to be heard, the applicant's request for a continuance will be automatically granted. An applicant shall be limited to one (1) such automatic continuance.
C. If the City Manager receives the written request for a continuance less than seven (7) days prior to the public hearing at which the application is scheduled to be heard, the applicant is not entitled to an automatic continuance. The decision-making entity will consider the request for a continuance, and shall only grant such request upon a demonstration by the applicant of good cause for a continuance.
D. If an applicant receives a continuance, the applicant shall reimburse the City for all advertising costs associated with rescheduling the public hearing for the application. The public hearing will not be rescheduled until such payment is received.
E. If a public hearing is continued on the record, at the scheduled public hearing, to a date and time certain, no additional notice shall be required.

11.03.06 Withdrawal of Pending Applications

A. An applicant may withdraw an application at any time prior to issuance of a local development order. The applicant shall provide written notice of the withdrawal to the City Manager.
B. If the City Manager receives an applicant's written notice of withdrawal less than seven (7) days prior to the public hearing at which the application is scheduled to be heard, the applicant shall be precluded from submitting the same or substantially same application for the subject property for a period of twelve (12) months.

11.03.07 Procedures and Requirements for Development Permits

A. Permits are required for new construction of buildings and structures, signs, fences, walls, accessory buildings, temporary buildings, and modifications to existing structures, subject to the administrative procedures of the Florida Building Code. In addition, the following requirements shall be met:
    1. When a permit is issued for construction of a sign, a decal containing the permit number shall be issued. The decal shall be attached to the sign or the sign structure and shall be clearly visible from the public right-of-way or public areas on the site.
    2. A permit for a sign within the Historic District Overlay shall not be issued until a certificate of appropriateness has been issued by the HDC.

3. Within those areas of the City designated as special flood hazard areas, all building permit applications for the construction or substantial improvement of residential and nonresidential structures shall be accompanied by a survey, signed and sealed by a professional surveyor licensed in the State, which specifically designates the elevation of the graded or final building pad of the site and of the proposed first floor of construction of the new structure or substantial improvement to existing structures. The survey shall be attached to the building permit and shall be approved as meeting the requirements of Chapter 3 with regard to floodplain protection prior to the issuance of a building permit.

B. Permits are required for electrical, plumbing, heating and air conditioning, gas, or swimming pool installation, subject to the procedures set forth in the Florida Building Code.

C. Permits required from Nassau County, subject to the requirements established by the County, include: driveway connection permits and right-of-way utilization permits.

D. Permits that may be required from State and regional agencies, subject to the requirements established by each agency, include: driveway connection permits from FDOT and environmental resource permits from SJRWMD or FDEP.

E. The following types of permits are required from the City, subject to the requirements established in the manuals adopted by reference in Chapter 1: stormwater permits, sewer connection permits, potable water connection permits, street construction permits, sidewalk permits, paving permits, and land clearing permits.

F. A permit shall be required for the removal of protected trees. When a site plan or subdivision plat is under consideration for a site, the permit shall be included as part of the application and review for site plan approval or subdivision plat approval. In all other situations, a separate tree removal permit shall be required. The following information is required for tree removal permits:
   1. Applications shall be submitted as set forth in Section 11.01.03;
   2. In addition, a tree survey shall be provided. When the application is for the removal of three (3) or fewer trees, the survey does not need to be certified, but must contain the location and identification of the tress requested to be removed. When the application is for the removal of four (4) or more trees, the survey shall be certified and shall show the following:
      a. Location of all trees, identifying their species;
      b. Location, including footprint, of all proposed and existing structures and other planned improvements which require the removal of protected trees;
      c. Indication of trees to be retained, trees to be removed, diseased trees, trees endangered by motor vehicle ingress and egress to rights-of-way, and the location of protective barriers as provided in Section 4.05.08; and
      d. Proposed grade changes that might adversely affect or endanger the trees, with specifications on how to maintain the trees.
   3. A tree replacement and replanting plan shall be submitted, showing the location and specification of all replacement trees pursuant to and consistent with the tree replacement and relocation standards in Section 4.05.08.
   4. The City Manager shall conduct a field check of the tree removal application. The applicant shall physically mark each tree on the site to be removed with flagging tape or a similar device.
   5. Applications, except applications described in Section 11.03.07(F) (7) shall be reviewed by the City Manager for compliance with the requirements set forth in Section 4.05.08. A decision shall be rendered within thirty (30) days to approve, approve with conditions, or deny the application. Posted notice of the decision to

approve or approve with conditions shall be provided as set forth in Section 11.02.02 for a period of ten (10) days.

6. A decision regarding issuance of a tree permit is an administrative decision subject to appeal as set forth in Section 11.07.00.
7. When an application for a tree removal permit involves the following situations, the findings by the City Manager shall be advisory. The City Commission shall take final action:
   a. Removal of a heritage tree; or
   b. Removal of protected trees on public property, except trees within the right-of-way.
8. A tree removal permit shall be issued only upon agreement in writing by the applicant to comply with the criteria set forth in Section 4.05.08

G. The establishment of a temporary use or structure requires a temporary use permit, subject to the following requirements:
   1. Applications shall be submitted as set forth in Section 11.01.03.
   2. In addition, the application shall include a drawing and drawing notes to show the proposed location and site features for the temporary use or structure, demonstrating compliance with the provisions of this LDC.
   3. Applications shall be reviewed by the City Manager for compliance with the requirements set forth in Section 5.02.00. A decision shall be rendered within thirty (30) days to approve, approve with conditions, or deny the application. Posted notice of the decision to approve or approve with conditions shall be provided as set forth in Section 11.02.02 for a period of ten (10) days.
   4. Temporary use permits shall be valid for thirty (30) days and may be renewed for one (1) thirty (30) day period.
   5. A decision regarding issuance of a temporary use permit is an administrative decision subject to appeal as set forth in Section 11.07.00.

H. A permit shall be required for the construction of a telecommunications tower. The application shall be submitted as set forth in Section 11.01.03.1. The following additional information shall be submitted:
   a. Evidence of proper Federal Communications Commission licensure.
   b. A statement of intent that collocators will be permitted in cases where devices are required or proposed to accommodate more than one (1) provider. The positions of anticipated collocator antennas on the mount and the space provided for collocator equipment shelters shall be shown on all site plans and elevations.
   c. Certification that, as proposed, the device should not cause harmful electrical interference with any City-operated radio frequency devices in existence at the time of the application, and certification that the applicant acknowledges its obligation to take all steps necessary to resolve any interference that actually occurs.
   d. Certification as to compliance with, or exemption from, any federal or State regulations applicable to siting.
   e. Certification that the proposed mount complies with regulations administered by the FAA, FCC, and any State reviewing authority, or that the mount is exempt from those regulations.
   f. Description of liability insurance or binding for the device.
   g. Identification of all existing users (including the applicant) on the support structure to be replaced. This listing shall include existing antennas, types of support structure, and mounting positions for each such user, and shall identify the FCC radio service for each such facility. The applicant shall also identify

the proposed location for each such antenna as well as any additional facilities which such user intends to place upon the proposed replacement structure.

h. For each such existing user, the applicant shall identify any future loading for which it has been requested to reserve capacity for future use. For any such users for which the applicant is not reserving future space, the applicant shall certify that it has contacted each such user and has been advised that such user does not anticipate requiring any additional support structure capacity at that site in the future.

i. The applicant shall identify all prospective users of the support structure, not identified above, for which it has either entered into negotiations or agreed to provide space on the support structure. The applicant shall identify:
   1. The proposed mounting location for each antenna to be utilized by each such prospective user; and
   2. The capacity for which the applicant has been requested to reserve future loading capacity.

j. The applicant shall identify all additional capacity which will be available for future collocation use at the proposed structure beyond the collocation users identified in Section 11.03.07(H)(1)(g) through (i) above.

k. A full set of engineering drawings, which drawings shall be sealed by a professional engineer licensed in the State, specifying the dimensions of all structural members and mounting facilities to be incorporated into the support structure for all loading identified in Sections 11.03.07(H) (1) (g) through (i) and shall expressly identify each such antenna as having been incorporated into the support structure design. These drawings shall also include the foundation design for the proposed structure. In addition, the engineer shall certify compliance with both the then-current EIA/TIA 222 standard as well as the applicable provisions of the Florida Building Code, which includes a 120-mph wind load, as defined by the American Society of Civil Engineers, Publication No. 7 of 1993 (ASCE 7-93).

2. An estimate of the cost to remove all structures in the event that the structure is abandoned or discontinued. The cost estimate shall be signed and certified by a general contractor licensed in the State.

3. The Planning Advisory Board shall evaluate the permit application and render a decision within ninety (90) days after the date on which the application is determined to be complete.

4. If the Planning Advisory Board fails to act within the time-frame mandated by Section 11.03.07(H) (2), the application shall be deemed automatically approved, and the applicant may proceed with placement of the facility without interference or penalty by the City.

5. The applicant may voluntarily waive the time frames set forth in this section.

6. The City may require a one-time waiver in the case of a declared local, State, or federal emergency that directly affects the administration of the City's permitting activities. Other than this one-time waiver, the City may request, but not require, an applicant to waive the time-frames set forth in this section.

l. An application for the collocation of an antenna facility, which increases the height of the existing structure, shall meet the requirements of Section 11.03.07(H) (1) above. However, the Planning Advisory Board shall render its decision within thirty-five (35) working days after the date on which the application is determined to be complete.

J. An applicant who seeks approval to collocate an antenna on an above-ground structure, and any related equipment to service the antenna, is not required to obtain a separate development permit, provided the height of the existing structure is not

increased. Rather, the applicant shall apply for a construction permit in accordance with the requirements of the Florida Building Code.

11.03.08 Specific Procedures Regarding Affordable Housing Agreements

A. This section is provided to ensure and verify affordability and compliance over time for any affordable housing project. All affordable units proposed for development on substandard lots shall be the subject of a land use restriction agreement (LURA) or a home ownership affordability agreement (HOAA).
B. All affordable units proposed for home ownership shall be bound by the terms of a HOAA. The City shall identify specific conditions in the LURA or HOAA that shall ensure that the respective unit becomes an affordable unit. Prior to approving a LURA/HOAA, the city shall render a finding that any units intended to be included in a LURA or HOAA are:
   1. Compliant with applicable building codes and land development regulations; and
   2. Compliant with all associated financial, tax, or other similar public or private obligations.
C. The City shall not approve a LURA or HOAA unless a finding is rendered that any units intended to be included in a LURA/HOAA are compliant with U.S. Housing and Urban Development Housing Quality Standards (HUD-HQS).

11.04.00 QUASI-JUDICIAL HEARINGS

11.04.01 Generally

A. A quasi-judicial hearing shall be scheduled when all required reports and procedures have been completed. A quasi-judicial hearing shall not be scheduled until an applicant has paid all outstanding amounts.
B. A quorum of the decision-making entity shall be present.
C. The hearing shall be conducted in a manner to protect the due process rights of the applicant and affected parties.
D. All testimony presented by the applicant, any affected party; any witness for a party, or the staff (other than legal advice given by the City attorney) shall be given under oath.
E. The applicant, any affected party, and the staff may cross-examine any person presenting information at the hearing.
F. An electronic record shall be made of the hearing.
G. A member of a decision-making entity shall not willfully participate in an ex parte communication regarding a pending application. All ex parte communications are presumed prejudicial, unless the approximate date and general substance of the ex parte communication is disclosed at the beginning of the quasi-judicial hearing at which the decision-making entity considers the pending application. The City may rebut the presumption of prejudice by demonstrating the absence of any actual prejudice to any party challenging the validity of a decision-making entity's decision on the basis of ex parte communications.
H. Members of the general public may provide comment during the hearing. If a member of the general public desires his or her testimony to be considered as potential competent substantial evidence, such person shall be placed under oath and subject to cross-examination.
I. The decision-making entity may question the applicant, other parties, witnesses, and the City staff at any time during the hearing.

J. The decision-making entity may approve, approve with conditions, or deny the matters under consideration. The decision shall be based upon competent substantial evidence presented during the hearing.
K. The decision-making entity shall enter a written order which contains findings of fact and conclusions of law in support of its decision.
L. The decision-making entity's written order shall be transmitted and filed with the City Clerk as part of the official records of the City.

11.04.02 Conduct of Quasi-Judicial Hearings

All quasi-judicial hearings shall be conducted in the following order:

A. The chairperson of the decision-making entity shall call the hearing to order at the time specified on the public notice.
B. The City Manager shall confirm that the notice requirements were met.
C. Each member of the decision-making entity shall disclose the existence and general substance of any conflicts and ex parte contacts.
D. The City Manager shall present the compliance report regarding the pending application.
E. The applicant shall present evidence supporting the application and shall bear the burden of demonstrating that the application should be granted.
F. An affected party is entitled to present evidence opposing the application.
G. Public comment.
H. Rebuttal by the City Manager, any affected party, and the applicant.
I. Conclusion of the evidentiary portion of the hearing.
J. Closing arguments by the City Manager, any affected party, and the applicant.
K. Deliberation by the decision-making entity.

11.05.00 CONSTRUCTION AND IMPROVEMENTS

11.05.01 Compliance with Local Development Orders and Development Permits

A. All construction of buildings, structures, and systems shall comply with the construction or installation permit and the procedures and requirements of the Florida Building Code.
B. Construction of facilities and improvements described in a local development order shall be performed in strict compliance with the approved local development order and any development permits (other than permits issues pursuant to the Florida Building Code).
C. Any deviation from the local development order and subsequent development permits shall require additional review of the change to the plans by the City and shall receive approval prior to commencement of work. (See Section 11.06.00 regarding amendments to approved local development orders.)
D. Upon completion of improvements, the applicant shall provide record drawings sealed by an engineer, licensed in the State, certifying that the actual construction conforms to the approved site plan(s), subdivision plats, or improvements plans.
E. All improvements required by this LDC shall be designed, installed, and paid for by the developer. Such improvements may include, but are not limited to, transportation facilities, potable water facilities, sewer facilities, stormwater and drainage facilities, and recreation facilities. Improvements shall be guaranteed as set forth in Section 11.05.02.
F. All improvements as approved through either a Local Development Order or an official building permit shall be inspected by the City. The applicant shall notify the

City of commencement and completion of the following, for purposes of scheduling and conducting inspections:

1. Clearing and grubbing;
2. All utilities prior to backfilling;
3. All concrete structures when steel is in place, prior to pouring;
4. Stabilized sub-grade;
5. Curb and concrete work;
6. Roadway or parking lot base;
7. Wearing surface during application; and
8. The water and hydrant system.

G. In cases of construction of facilities dedicated to the public, the owner shall be responsible for maintenance for a period of two (2) years following completion of the construction and approval of the construction by the City. Upon completion of the maintenance period, the owner shall advise the City in writing requesting final inspection for perpetual maintenance by the City. Final acceptance shall not be given until all necessary repairs have been completed and an engineer, licensed in the State, provides a final certificate of completion to the City.

H. Acceptance of a final plat shall be deemed acceptance by the City of the public improvements and public areas dedicated to the City. The final plat shall not be accepted by the City Commission until all required performance and maintenance guarantees as set forth herein have been posted by the Developer. The acceptance of dedications for public purpose shall be permanently affixed to the face of the final plat (See Section 11.01.05.)

I. Upon completion of construction of the improvements, the applicant shall provide the following:
   1. A letter stipulating that the construction of the improvements has been completed and requesting final inspection and approval;
   2. The testing reports and certificates of compliance from material suppliers;
   3. As-built construction plans; and
   4. Certification from a professional engineer, licensed in the State, that the improvements have been constructed in conformity with the approved construction plans and specifications.

J. Upon receipt and review of the items listed in Section 11.05.01(I) above, and after satisfactory final inspection, a certificate of completion shall be issued by the City Manager.

K. Grading, fill, or tree removal permits may not be issued prior to the issuance of a Local Development Order or building permit, whichever occurs first.

11.05.02 Performance Agreements, Guarantees, and Sureties

A performance agreement shall meet the following requirements:

A. The term shall not exceed two (2) years from the date of issuance of the local development order.

B. The agreement shall include:
   1. The projected total cost for each improvement determined either by an estimate prepared and provided by the applicant or a copy of an executed construction contract provided by the applicant.
   2. Specification of improvements to be made and dedicated together with a timetable for completing such improvements.
   3. Stipulation that, upon failure of the applicant to make required improvements according to the timetable, the City shall utilize the security provided under the agreement to complete the improvements.

4. Provision of the amount and type of security provided to insure performance as set forth herein.

C. The security specified in the performance agreement shall be approved as sufficient by the City Manager. The amount of security shall be 125 percent of the estimated or contracted improvements costs.

D. Security requirements may be met by:
   1. Bank check;
   2. Certified check;
   3. Irrevocable letter of credit; or
   4. Surety bond executed by an approved surety company, licensed to do business in the State of Florida and otherwise acceptable to the City.

11.05.03 Installation and Maintenance Guarantees for Landscaping, Irrigation, and Replacement Trees

A maintenance guarantee must be provided to ensure that required landscaping, and irrigation system, or protected trees are perpetually maintained in accordance with the provisions of this LDC. For all development projects receiving a Local Development Order, the applicant must provide legal documents, approved by the City, which insure such protection after building construction has occurred on the site. Such documents may include, but are not limited to, conservation easements, dedication of common open space, tree protection easements, deed restrictions, and homeowner association documents. The City requires an assessment provided by a certified arborist at the end of the warranty period before remitting funds or releasing the obligation documents.

11.05.04 Maintenance Guarantees for Stormwater Facilities

The property owner or other entity approved by the City shall be responsible for maintenance of all stormwater facilities installed on private property. Maintenance shall be perpetual or for a time period specified in the local development order. At any time during the maintenance period, or after in cases where adverse impacts to public stormwater facilities are believed to be occurring due to the action of a private property owner, the City reserves the right to enter, following advance notice, upon that property for purposes of visual inspection. Property owners shall be notified in writing of the results of any such inspection and its results.

11.05.05 Installation and Maintenance Guarantees for Water and Sanitary Sewer Facilities, Streets, Sidewalks and other Infrastructure Elements

A maintenance guarantee shall be provided to ensure that all required stormwater facilities, water and sanitary sewer facilities, streets, sidewalks and other infrastructure elements shall be maintained by the developer according to the following requirements:

1. The maintenance period shall be a minimum of two (2) years;
2. The maintenance period shall begin with the acceptance by the city of the construction of the improvements.
3. The security shall be in the amount of fifty (50%) percent of the cost of improvements.

11.05.06 Facilities Not Dedicated to the City

A. Whenever a proposed development provides for the creation of facilities or improvements which are not proposed for dedication to the city, a legal entity shall be created to be responsible for the ownership and maintenance of such facilities and/or improvements.

B. No final development approval or certificate of occupancy shall be issued for a development for which a condominium association or homeowners association is required

until all required documents establishing such association have been approved by the City Manager and proof of recording documents has been provided to the City Manager.

11.06.00 AMENDMENTS TO LOCAL DEVELOPMENT ORDERS

When a local development order has been issued and an applicant wishes to modify a site plan or subdivision plat to which the local development order applies, the procedures of this section shall apply. (Amendments to development permits shall be governed by the applicable building or technical codes, or City permit procedures.)

11.06.01 Minor Amendments

Minor amendments include the following:

A. Changes in the types and locations of landscaping materials, provided that:
   1. Such changes do not reduce total amount of landscaping material;
   2. Any required buffer area complies with the standards of this LDC; and
   3. The proposed landscaping materials comply with the specifications of this LDC.

B. A minor adjustment in the location of dumpsters, sidewalks, bicycle facilities, sheds, or other accessory buildings, provided that:
   1. The adjustment does not deviate from the approved location more than one (1) foot in any direction;
   2. Such adjustment does not encroach into any required buffer or stormwater management area;
   3. Such adjustment does not increase the approved impervious surface ratio for the project; and
   4. The location continues to comply with all standards of this LDC, including, but not limited to, setbacks, landscaping, and buffer requirements.

C. A minor adjustment in the location and design of parking lots and access drives, provided that:
   1. Such adjustment does not encroach into any required buffer or other landscaped area;
   2. Such adjustment does not increase the approved impervious surface ratio for the project;
   3. Such adjustment does not reduce the number of parking spaces; and
   4. Such adjustment continues to comply with all standards of this LDC and the Public Works Manual.

11.06.02 Procedures for Minor Amendments

A. The applicant shall submit one (1) copy of the approved site plan or subdivision plat indicating the proposed minor amendments.

B. The City Manager shall determine that the amendment is consistent with:
   1. The requirements of Section 11.06.01; and
   2. The standards and criteria of the LDC.

C. When an application is proposed to be approved or approved with conditions, a notice of intent shall be provided as set forth in Section 11.02.01(C) and (F).

D. The City Manager shall approve or deny the application for a minor amendment and issue a written order to modify the local development order.

E. A minor amendment for development within the Historic District Overlay shall not be approved until such amendment has been considered by the HDC at a regular meeting and a recommendation of approval provided by the HDC.

11.06.03 Major Amendments

Any proposed change to an approved local development order that is not a minor amendment as described in Section 11.06.01 shall be considered a major amendment. Major amendments are processed in the same manner as the original application.

11.07.00 APPEALS OF ADMINISTRATIVE ACTIONS

11.07.01 Applicability

A. A person adversely affected by the administrative decisions listed below in subsection (B) may appeal such decision to the BOA. Statements, proposed findings, evaluations, and conclusions contained in a compliance report or other report issued by the City Manager for consideration by a board or commission, or the City Commission will not be construed as an administrative decision and will not be subject to appeal.

B. Only the following administrative decisions are subject to appeal as set forth herein:
   1. Tree permits;
   2. Temporary use permits;
   3. Lot line adjustments;
   4. Minor amendments to local development orders;
   5. Administrative waivers;
   6. Context Sensitive Setback Determination;
   7. Decisions of the Building Official
   8. Decisions of the Fire Marshal
   9. Determination regarding change of use;
   10. Written interpretations regarding use or zoning district boundaries when such interpretations are not contained within a compliance report; and
   11. Determination of Sufficiency and Completeness as required by LDC Section 11.03.01 (B).

11.07.02 Time for Filing Administrative Appeal

An application for consideration of an appeal of an administration decisions shall be filed with the City Manager within thirty (30) days of such decision.

11.07.03 Stay of Proceedings

An appeal to the BOA stays all work on the premises and all proceedings in furtherance of the action appealed from, unless the City Manager certifies to the BOA that, by reason of facts stated in the certificate, a stay would cause imminent peril to life or property.

11.07.04 Hearing before the Board of Adjustment

A. A public hearing before the BOA shall be scheduled according to the published schedule for hearings.

B. The City Manager shall prepare a report containing an evaluation of the appeal, including consistency of the administrative decision with the requirements of this LDC and the comprehensive plan.

C. Notice shall be provided as set forth in Section 11.02.00.

D. The BOA shall conduct a quasi-judicial hearing, pursuant to the requirements of Section 11.04.00.

E. Any party may appear in person or be represented by an agent or attorney.

F. The BOA shall hear the appeal and shall determine whether to:
   1. Reverse, wholly or partly, the administrative decision that is the subject of the administrative appeal;

2. Affirm, wholly or partly, the administrative decision that is the subject of the administrative appeal; or
3. Modify the administrative decision that is the subject of the administrative appeal.

G. The concurring vote of five (5) members of the BOA shall be necessary to reverse any administrative decision.

H. The decision shall be in writing and shall contain findings of fact and conclusions of law.

11.08.00 VIOLATIONS

11.08.01 Generally

It shall be a violation of this LDC to:

A. Use or develop property without a local development order or development permit required by this LDC for such use or development;

B. Use or develop any property for use that is not permissible in the applicable zoning district;

C. Use or develop property in violation of the conditions and limitations for such use or development set forth in this LDC;

D. Use or develop property in violation of the conditions set forth in the applicable local development order;

E. Violate the terms or conditions of any development permit issued under or pursuant to this LDC; or

F. Construct or move any structure in violation of the applicable provisions of this LDC.

11.08.02 Enforcement

A. The City Manager shall be responsible for enforcement of the provisions of this LDC.

B. The City Manager shall provide a written notice of an alleged violation of this LDC to the property owner. The written notice shall indicate the nature of the violation and the necessary action to correct or abate the violation.

C. The City Manager, or where required by the Florida Building Code, the Building Official, may order discontinuance of the use of land or buildings; removal of trees; removal of buildings, building additions, or building alterations; removal of structures; discontinuance of work in progress; application to any court for injunctive relief; filing liens against assets of a violator; revocation of any building permit or certificate of occupancy; or any or all other action necessary to correct violations and obtain compliance with all the provisions of this LDC.

11.08.03 Penalties

A. Except as otherwise specifically provided herein, any person, property owner, or any agency or representative thereof who violates the provisions of this LDC shall be punished by a penalty not exceeding $500.00 per violation, imprisonment for a term not to exceed sixty (60) days, or both fine and imprisonment.

B. Each day that a violation shall continue to exist shall be considered a separate violation and may be prosecuted as such.

C. No further City permits shall be issued or inspections provided until all violations of this LDC are corrected and accepted by the City Manager.

D. No certificate of occupancy shall be granted unless and until the all corrective actions have been completed or a performance bond satisfactory to the City is submitted and approved.

11.08.04 Specific Penalties for Violation of Tree Permit Requirements

A. When unauthorized removal of trees has occurred, the owner shall submit a fines and restoration plan within thirty (30) days after being cited for the violation.

Individual residential property owner(s) of a single lot of record will be fined $1,000 for the first unauthorized tree removal violation and subject to additional fines as provided in Table 11.08.04 and required to comply with restoration planting criteria. Multi-family, subdivisions, mixed use, and non-residential landowner(s) will be fined $5,000 for the first unauthorized tree removal violation and subject to additional fines as provided in Table 11.08.04 and required to comply with restoration planting criteria.

Table 11.08.04 Fines for Unauthorized Tree Removal (2 or More)

Size of Tree Removed (DBH)	*Fine Amount Per Tree*
6-17"	*$1,000*
18-25"	*$5,000*
26-35"	*$15,000*
36" DBH and above	*$20,000*

B. In addition to fines, an approved restoration plan is required for all unauthorized tree removal which replaces "one for one" (one (1) inch for every inch of DBH), any and all trees that are removed without authorization. No preservations credits shall be applicable for the unauthorized removal of trees. Failure to submit a restoration plan within thirty (30) days shall result in a double fine. In the event that an insufficient trunk of the removed tree exists to determine replacement requirements, including the size and number of required replacement trees, these facts shall be determined by the City Manager based upon any available information, including photographs or a survey of trees of the same species existing within the City. In making such determinations, the opinion of the City Manager shall control. If the City Manager cannot determine with reasonable certainty the number of protected trees removed, the violation shall be corrected by paying a civil fine of up to one dollar ($1.00) per square foot of land cleared. All amounts received by the City pursuant to this section shall be deposited in the Tree Replacement Fund.
   1. In evaluating a proposed restoration plan, the City shall consider the following:
      a. The cross-sectional area of trunk(s) removed;
      b. The specific aesthetic character of the tree removed;
      c. Any special function the tree carried out as a screen or buffer;
      d. Amount of other trees preserved on the site, and the opportunities for planting additional trees;
      e. Any short-term or long-term negative environmental impacts from the unauthorized tree removal, including, but not limited to, erosion, siltation, impacts on listed plant and/or animal species, water circulation patterns, water quality standards, and floodplain capacity or conveyance (including, but not limited to, swales or overland sheet flow, where pertinent).
   2. The City Manager shall review the proposed restoration plan. The City Manager may require any bonding or other guarantees deemed necessary to insure the performance and completion of the restoration plan, and/or the maintenance and survival of the implemented restoration plan. If a bond is required, the bond amount shall be one dollar ($1.00) for every square foot of land cleared in violation of this section, or $50,000 if a heritage tree has been removed.

C. The City Manager shall, within 30 days of submission of a restoration plan, either:
   1. Approve the restoration plan after rendering a finding that implementation of the restoration plan, will ensure restoration of the quality and screening functions

previously provided on site, according to the criteria set forth herein by the removed or otherwise destroyed trees; or

2. Deny the restoration plan and levy appropriate fines based on a finding that said restoration plan, upon implementation, cannot restore the quality and screening functions previously provided by the removed or otherwise destroyed trees; or
3. Deny said plan and inform the owner or developer of what the City requires in order to approve said restoration plan. Such plans shall be resubmitted within thirty (30) days of the denial. Failure to resubmit or appeal within this time period shall subject the property owner to a fine of $100.00 per day.

D. If the City Manager determines that implementation of a restoration plan cannot replace the quality and screening functions of the trees removed or otherwise destroyed then the City Manager may assess the following fines for the unauthorized removal of trees in addition to any other fines required pursuant to other City ordinances or by state or federal rules and laws:
   1. $500.00 per inch DBH for each tree removed that was not located in a designated wetland, coastal upland protection zone, approved upland landscaped buffer areas or conservation easement, tract or similarly designated area; and
   2. $1,000.00 per inch DBH for each tree removed that was located within a designated wetlands, coastal upland protection zone, approved landscape buffer areas or conservation easement, tract or similarly designated area. This shall include landscape buffer areas previously required as part of an approved landscape plan or other development plan or order, upland buffers around wetlands and habitat or riparian protection zones; and
   3. $50,000.00 for each heritage tree removed.

E. No further City permits for the subject property or project shall be issued or inspections provided until all violations of this article are corrected or a restoration plan has been accepted by the City Manager. The building official or designee, may issue a stop work order to any person, firm, owner, contractor, or agent performing construction who violates or fails to comply with any provision of the City's tree protection ordinance. No certificate of occupancy shall be granted unless and until the restoration plan is implemented or a performance bond satisfactory to the City and its attorney is submitted and approved by the City.

1.03.00 APPLICABILITY

1.03.01 Generally

A. Except as specifically provided, the provisions of this LDC shall apply to all development in the City.
B. The use of any parcel of land, or any structure, or any combination thereof, within the corporate limits of the City shall be in conformance with the requirements of the LDC.
C. Principal uses, accessory uses, buildings, and structures that are not identified as permissible are prohibited. To be identified as permissible, such uses, buildings, and structures shall be included in this LDC or interpreted as included as provided for in Section 1.05.00 and Chapter 2.
D. A change of use shall conform to the standards, criteria, requirements, and procedures of this LDC.
E. Where a local development order or permit that was lawfully issued prior to the effective date of this LDC expires or is otherwise invalidated any further development on the site subject to the local development order or permit shall conform to the standards, criteria, requirements, and procedures of this LDC.

1.03.02 Exemptions

The situations described in (A) and (B) below are exempt from the provisions of this LDC.

A. The provisions of this LDC and any amendments thereto shall not affect the validity of any valid and effective local development order or permit that was issued prior to the effective date of this LDC under the following situations:
    1. The development activity authorized by the local development order or permit was commenced prior to the effective date of this LDC, and such activity continues without interruption (except because of war or natural disaster) until the development is complete;
    2. The development activity authorized by the local development order or permit will be commenced after the effective date of this LDC but within six (6) months of the issuance of a valid building permit which was issued prior to the effective date of this LDC; or
    3. The development activity authorized by the local development order is proceeding in accordance with the time limits contained in the local development order.
B. The provisions of this LDC and any amendments thereto shall not affect work required for public facilities and services within the public right-of-way, as further described below:
    1. Work required for the installation of facilities for the distribution or transmission of gas, water, sewer, electricity, cable, telephone, or telecommunications services;
    2. Work required for the purpose of inspecting, repairing, or replacing any existing water or sewer lines, mains, or pipes; and
    3. Work required for the purpose of inspecting, repairing, or replacing cables, power lines, utility poles, utility tunnels, or the like.

1.03.03 Lots of Record

A. One dwelling unit may be constructed on a substandard, platted lot of record in a residential or mixed-use zoning district.

1.03.04 Demolition of Structures on Substandard Lots

A. Applicability. Except as may be provided hereinafter to the contrary, in connection with replats, subdivisions, specific regulations, and specifically described lots or parcels of land, all buildings or structures located in the R-1, R-2, RLM, and R-3 zoning districts shall be constructed or erected upon a building site containing at least one (1) platted lot. Such building site shall have a minimum street frontage of fifty (50) feet.

B. Building site requirements. Wherever there may exist a single-family residence(s), duplex building(s), or any lawful accessory building(s) or structure(s) which was heretofore constructed on property containing one (1) or more substandard platted lots or portions thereof, such substandard lot or lots shall thereafter constitute only one (1) building site. No permit shall be issued for the construction of more than one (1) single-family residence. Such structures shall include, but not be limited to, swimming pools, tennis courts, walls, fences, or other at-grade or aboveground improvements.

C. Removal of buildings. If a single-family residence or duplex building which exists on more than one (1) substandard lot is voluntarily demolished or removed, no permit shall be issued for the construction of more than one (1) building on the building site.

1.03.05 Construction or Demolition of Structures on Combined Lots

A. In order to maintain open space, visual corridors, neighborhood character, property values and visual attractiveness of residential areas, wherever there may exist a single-family detached residential unit or, a duplex structure or any auxiliary building or structure, including but not limited to, swimming pools, or any other improvement which was heretofore constructed on property containing one or more platted lots or portions thereof (excluding walls or fences), such lots thereafter constitute one building site and must be considered the "lot of record", and no permit will be issued for the construction of more than one residential dwelling unit on the site. All construction on the building site must comply with all existing zoning and density requirements.

B. The demolition or removal of any residence or structure, whether voluntary or involuntary, does not have the effect of changing the establishment of the building site.

C. A change from the foregoing provisions for the purpose of establishing building sites, or separation of building sites requires supermajority approval by the Board of Adjustment in accordance with the variance approval process contained in Section 10.02.00 in a quasi-judicial hearing at which all interested persons will be afforded an opportunity to be heard.

1.04.00 CITY MANAGER

The City Manager is the chief administrative official of the City. For the purposes of this LDC, the City Manager administers, interprets, and implements the standards, criteria, and procedures of this LDC. The City Manager may delegate such responsibilities to City staff. Throughout this LDC, the term "City Manager" is used to indicate the person responsible for specified actions, except where specified actions are reserved or specifically delegated to another position. In all instances, "City Manager" means the "City Manager or designee."

Subject: RE: LDC Question PAB case #9821 (Tringali Property)

The staff report for this application on the 11/09 PAB agenda has an explanation, please see link below to PAB agenda. In addition, the City Planning Dept. has interpreted applications for subdividing and platting the same way as the Tringali plat application since before 2006. The past practices of the City provide a type of precedence under the 14th Amendment of the US Constitution (Equal Protection) requiring the City to be consistent in applying the LDC. Therefore, without changes to the LDC, staff cannot just begin now to apply Section 1.03.05 of the LDC to every property where a structure exists. When an applicant wishes to create a subdivision of land and a plat, they are not seeking to restore the historical underlying lots of record for purposes of creating building sites; therefore, Section 1.03.05 of the LDC does not apply.

If the City interprets the LDC to mean that anytime a structure exists on property, regardless of property size in acreage (i.e. remember, net density allowances must be considered, too), that the one existing structure becomes the sole allowable building site for that property for all time into the future, the City would be applying the LDC in a manner inconsistent with the Comprehensive Plan (i.e. FLUM, net density allowances). We cannot, without code changes to the LDC and the Comp Plan, begin now to apply this strict interpretation of Section 1.03.05 of the LDC to all properties with existing structures. City staff does apply Section 1.03.05 of the LDC to all applications requesting to restore the historical underlying lots of record for the purpose of building on those historical underlying lots of record which follows the variance process. There have been many subdivisions in the City that began with a plat application and subdividing land that had existing structures that were demolished prior to platting. Section 1.03.05 was not applied to these other subdivisions in the City. Examples include: 2022 Island View on Bailey Road - 2 existing homesites -on site through annexation, demo in January 2022; 2017 River Bend on Amelia Island Parkway - 1-3 homesites - demo prior to annexation 1940- 1953 timeframe of construction based on historic aerials; and 2017 (Phase II) and 2014 (Phase I) Dunes of Amelia - 1 homesite with ancillary structures -demo prior to annexation. If the City Commission wishes to move in the policy direction of restricting growth and property development by strictly applying Section 1.03.05 of the LDC, there will have to be changes to the LDC and Comp Plan before the City staff can interpret and apply Section 1.03.05 to apply to ANY residential property with existing structure(s). Without codified policy changes, the City will face legal challenges, including but not limited to, Bert Harris Act claims, 14th Amendment violation claims, administrative challenges and appeals. Development in the City, as you know, is governed by the Comprehensive Plan which includes the Future Land Use Element and the Property Rights Element that cannot be ignored by staff.

Let me know if you have questions.

November 9, 2022 PAB Agenda:

INTERNAL USE ONLY

MINUTES

APPROVED

I. Call to Order

Chairman Bennett called the meeting to order at 5:42 pm.

II. Roll Call/Determination of Quorum

Board Members Present

Mark Bennett, Chair
David Beal
William A. Conger
Lupita McClenning (was detained)
Paul Condit, Vice-Chair
Richard Bradford
J. Peter Wilking

Board Members Absent

Marilyn Williamson
Shaun Woleshin

Others Present

Debra Braga, City Attorney
Jeffrey Salter, Community Development Department Director
Catherine Hartley, City Planner
Kevin Sullivan, City Planner
Jessica Williams, Recording Secretary

III. Discussion on Land Development Code

Final review of the Land Development Code

Ms. Julie Ferreira, 501 Date Street, inquired how the board would handle things that were already talked about but people may have questions about what was already decided upon. Chairman Bennett explained that some of this stuff has been discussed for almost a year and a half. He stated that to now open it all up again was not productive. There was a brief discussion about this.

Ms. Hartley explained that City staff and the City Attorney went through the final draft and their notes and made changes that had come out of all the public meetings. She stated that they drafted some new language and clarified that the underlined things are suggested changes that Ms. Easley did not do. She explained that the things that were stricken were things that staff thought should be taken out. She suggested going through each policy and coming to some consensus to send to the City Commission. There was some discussion about how to proceed.

Ms. Hartley read from the matrix 1.03.03 and explained that staff suggested this because the City was about to adopt a Comprehensive Plan amendment that says you can put a single-family house on an existing lot of record. Member Conger questioned where the Comprehensive Plan amendment came from. Ms. Hartley replied the board voted on that in September and it went to the Department of Community Affairs (DCA). She stated that it was now back from DCA and was going to the City Commission for second reading on February 7th. *The consensus of the board was to accept this change.*

Ms. Hartley read from the matrix 1.03.04 and pointed out that the new zoning district (RLM) was added per the board's request. *The consensus of the board was to accept this change.*

Ms. Hartley read the proposed 1.03.05 language that was drafted by the City Attorney. She clarified that this zoning and land use restriction is on the property and someone built a house, and now the City doesn't want the property owner to try to maximize their profit and increase density across the board by tearing down their house and putting up two houses. There was some discussion of building site and the proposed language of 1.03.05 (A), (B), and (C). Chairman Bennett suggested including this language with land use and then it is quite clear. He commented that the intent of the board was to allow single buildings, but where lots have been combined and single improvements put on them to keep it that way. Member Conger noted that entrepreneurs would purchase existing building on a lot and then they'll split it in order to build two houses. He questioned if this effectively puts up a barrier to activity like that. Ms. Hartley replied correct. She pointed out that "vacant" could be added to the text amendment. She explained that the purpose of the Comprehensive Plan amendment was to provide a band-aid solution to the density that doesn't make any sense. She stated that it reserves the property owner's right to build a single-family house on their vacant lot even though the land use control was imposed on them. After some discussion about this, Member Conger inquired about people splitting lots. Ms. Hartley replied later in the draft it talks about lot splits and lot line adjustments. She stated that it could be done administratively if they meet certain criteria. She explained that once this was done staff can send a letter to the County tax office to tell them what the City's policy is. There was some discussion about this and the proposed 1.03.05.

Mr. Jeffrey Tomassetti, 406 Ash Street, explained that when he read the language it wasn't limited to a house that is built in the middle of the two lots. He presented an example of two 50 by 100 lots and one is vacant and the other one has a house on it. He explained that if he had a fence around the perimeter and reading the language merely putting a fence around the perimeter of the two lots combines them into one building site. He stated that he thought this was a very dangerous precedence, because there could be two vacant 50 by 100 lots that someone has put a fence around the perimeter. He commented that this would be affecting people that think that they have a land bank of a house site. He explained that he thought the intent was when the primary structure is over the lot line. He stated that he would like to see this rewritten. City Attorney Braga explained that the case that went to court was exactly the situation where there was a fence over the lot line and it was upheld that it was still the building site. She stated that it was considered part of the building site and therefore it was deemed to be one building site. She pointed out that (C) allows that if it is deemed that there is a hardship they can come before the City Commission for an Ordinance and the City Commission can undo it. After some discussion about the proposed language, Member Conger inquired if it had to be done by Ordinance. City Attorney Braga replied that it could go to the Board of Adjustment (BOA), because that is still a quasi-judicial public hearing. Member Conger suggested that it should require application to the BOA. Chairman Bennett inquired about enforcement on this. Ms. Hartley replied most cases are when people are demolishing a structure and wanting to build two. She stated that it would be regulated with the demolition permit. Member Beal explained that he didn't think a fence should be included. *The consensus of the board was to accept the proposed 1.03.05, but to remove fences and remove ordinance from (C) and replace it with the Board of Adjustment.*

Ms. Hartley read 1.05.01(E) from the City Attorney's memo and clarified that if it is not permitted then it is prohibited. Member Beal inquired if there needed to be a provision for remedy. City Attorney Braga stated that the remedy would be to draft an amendment to the Land Development Code that would deal whatever it was that they were suggesting. Ms. Hartley commented that it would be a text amendment to the code. After some discussion about the proposed language,

Member Wilking suggested wording that if a particular application is not addressed a text amendment can be administered through the Planning Department. City Attorney Braga stated that it could be "modification to this code may be requested to address the specific item." Ms. Hartley pointed out that the Planning Department has an application and a fee set for text amendments to the Comprehensive Plan and the Land Development Code. Chairman Bennett inquired if this would be one of the things for the City Manager to ok. Ms. Hartley replied no and explained that it would be just like doing a text amendment to the Comprehensive Plan.

Mr. Jeffrey Tomassetti commented that the land use and development of the City operates under Federal laws, State laws, the Comprehensive Plan, and the Land Development Code and things mentioned in these are also permitted things. City Attorney Braga noted that the Florida Department of Transportation (FDOT) green book was going to be incorporated, the Florida Department of Environmental Protection (FDEP) manual, etc. would be incorporated so that kind of specific things would not be disallowed. She suggested the addition of "or incorporated references". *The consensus of the board was to accept the proposed language with the addition.*

Ms. Hartley read the revised definition of Certificate of Appropriateness from the City Attorney's memo. After a brief discussion about this definition, Mr. Mike Harrison, 820 Someruelus Street, commented that the language appears to allow the City Manager to issue a Certificate of Appropriateness without reference to the Historic District Council (HDC). City Attorney Braga clarified that is staff approval, which was what the City has now. She explained that there are certain items that staff approves. *The consensus of the board was to accept this change.*

Ms. Hartley referred to the matrix and pointed out that she added a new definition for kitchenette. She noted that people still want to have some kind of garage apartment or guesthouse so by having a limited kitchen facility takes away some of the possibility of it being used as a rental unit, but still allows a relative or helper of the household to have some independence on site. Chairman Bennett stated that he thought for hotel/motel the board suggested language reflecting no kitchens. Member Bradford commented that he thought it was limited to microwaves. Chairman Bennett stated that he thought the definition of kitchenette was fine. *The consensus of the board was to accept this definition.*

Ms. Hartley read "building height is the vertical distance from finished grade to the highest point on the structure." Chairman Bennett referred to the minimum floor elevation and commented that going down to the beach where they are 14 feet above the ground on stilts then all of a sudden the City was going to start measuring there up 35 feet, which is not the way it is done today. Mr. Sullivan explained that staff was going to put the wording directly from the Ordinance #2005-15. He referred to page 115 grade, finished and read this definition to the board. Member Conger commented that grade, finished still allows fill to be put in on a lot. He expressed his concern with this. Ms. Hartley explained that in a flood plain they can't do that. Member Conger stated that he didn't think this was prohibitive enough about a builder being able to do anything that he wants. Mr. Sullivan pointed out that the permitting process has tightened up since then. He explained that his note and the Building Official's consensus was that they'll keep an eye on the amount fill. Member Conger questioned if that was part of Technical Review. Mr. Sullivan replied Technical Review, Site Plan Review, and keeping a better eye on clear and fill permits. Ms. Hartley explained that fill is part of the building permit and they would not be able to get a grade and fill permit without a building permit. After some further discussion about this, City Attorney Braga noted a "finished grade" definition and there was also "grade, finished". Ms. Hartley stated that it should be "grade, finished". She pointed out that "finished grade" would be removed. Member Conger questioned if there were restrictions in place on how much you can fill. Ms. Hartley replied there is no Ordinance that says you can only put

one truckload of dirt on your lot, because it depends for every lot site. She explained that for flood prone areas they have to elevate their structure and that is addressed. There was some discussion to clarify this.

Member Conger questioned where 35 feet begins (ground level or at the first level above the pilings). Ms. Hartley replied if they are elevating the house it begins at the ground level. There was some further discussion about the definition of building height and what constitutes an exterior wall to include verbiage about load bearing. Chairman Bennett explained that he had a note that there would be additional language added. He commented that the PAB has the responsibility to get this right. He pointed out that this draft does not incorporate all the changes that the PAB spent months going over. Ms. Hartley explained that not everything the PAB agreed to was a consensus of the City Commission. *The majority of the board agreed to add language for load bearing or pilings to the definition.*

Ms. Hartley read the definition of public beach access as shown on the matrix. After a brief discussion, *the consensus of the board was to accept this definition.*

Ms. Hartley read from the matrix that for table 2.00.00 to remove X from RLM under LDR and clarified that you can't have a zoning with a density higher than the land use. After a brief discussion, *the consensus of the board was to accept this change.*

Ms. Hartley read the proposed change to 2.01.03 as shown on the matrix. She clarified that staff recommended removing "single-family attached homes may be allowed through the PUD process", because if they meet the density on a unified development site why do they have to have a PUD to have two family structures. After a review of this change, *the consensus of the board was to accept removing the sentence.*

Ms. Hartley referred to revised table 2.03.02 and pointed out the changes. She explained that some were things that were talked about at the last hearing as things that weren't added in from the old code. She stated that some things were things that were consistent with the land use. Chairman Bennett inquired which were not in the old code. Ms. Hartley explained that automotive rental agency and bakery plant were stricken out in I-2 because they are inconsistent with the Comprehensive Plan. Chairman Bennett pointed out that bed and breakfast used to be in R-3 was permissible subject to supplemental standards, but was now out. Ms. Hartley corrected this to be a scratch out for R-2 and an "S" under R-3. Ms. Joan Cory questioned where I-1 and I-2 were. Ms. Hartley pointed out on the map where I-1 and I-2 would be and explained that I-1 would include Smurfit-Stone Container Corporation, Rayonier, and the Airport. There was a review and discussion about what was shown on the map.

Ms. Joan Cory noted that the definitions of I-1 and I-2 are going to have to be changed and the intent of the district is going to have to be changed from what it currently says. She commented that it is an all purpose district with I-1 and when it comes to IW waterfront there is no place that says I-2 uses on the waterfront shall be water dependent and water related. She explained that was what the old IW said in the Comprehensive Plan. She stated that it wasn't demonstrated to her that changing the waterfront to I-2 was in compliance with the Comprehensive Plan. Ms. Hartley explained that the way the code currently reads is that anything that is adjacent to the water is water related. Ms. Cory pointed out that the Comprehensive Plan says industrial waterfront provides industrial activities that require waterfront locations. She stated that it allows other uses if they are directly related to the port functions. She explained that the intent of the Comprehensive Plan and Land Development Code is to reserve the waterfront for water dependent and water related uses. She commented that the new I-2 is

really throwing away the chance of maintaining a working waterfront. There was some discussion about the issues raised about the waterfront.

Ms. Hartley clarified that she attempted to amend the table under I-2 to reflect the uses that would be Port or Marina related. Member Wilking inquired if the City loses a category in the whole mix of things. Ms. Hartley replied yes. She noted Ms. Cory's point of mixing together heavy industrial with heavy commercial, but that does make it consistent with the Comprehensive Plan. She explained that if you recognize that across the United States industrial is a declining economic base then you at least have some kind of commercial option for the industrial land. Member Wilking expressed his concern that with I-1 there is a lot of gray area (Smurfit, Rayonier, and the Airport) and one thing that sticks out is the adding of the lodging accommodations. He explained that this basically tells all the City's heavy industry that if they want to make another Hilton or Ritz that could be stamped approved. He questioned if that was what the PAB wanted to do. Chairman Bennett stated that he didn't know that the City needed that third designation just for those two areas. He noted that industrial is a declining use. He inquired about have a zoning category for those two very large industrial use properties.

Mr. Lovick Sudduth, 9 Marsh Hawk, pointed out that the Gillman Paper site in St. Marys had been sold and that property would be made primarily into residential, marinas, etc. He stated that under the City's light industrial they would not be able to do anything that would make sense on that large of a site. He commented that they would have to rezone that property for a multitude of uses.

Member Conger commented that looking at the color map and I-2 and reading the definition of I-2 it doesn't seem to be equitable to the vision of the Waterfront Committee. Ms. Hartley explained that the PAB would be hearing a series of land use and zoning changes next month to address exactly what Member Conger was referring to. She stated that right now there are three separate industrial zoning districts and they were compressed into two districts.

Mr. Shannon O'Conner, 2440 Lynndale Road, explained that their property is one of the largest ILW zonings now in the City. He stated that this came to issue back in the late 1970's where their property was zoned IM and then down zoned to ILW. He commented that he thought the waterfront was going to have to be separate with possibly the mills separate and then the other ILW now would have to be separate as well. He stated that this is trying to lump a multitude of different uses into smaller areas, which may not be applicable. He agreed that the mills do not need to be in ILW. He commented that one of his big tenants is leaving to go to Gurney Illinois. He explained that this is going in another circle back to where they were in the late 1970's. Ms. Hartley pointed out that the way the Comprehensive Plan is worded one land use industrial designation is waterfront type stuff for the Port and Marina and everything else is industrial. She stated that she had to rework this to fit the Comprehensive Plan. There was some further discussion about this table and whether to stay with three districts and do a Comprehensive Plan amendment or to condense down to two districts to be consistent with the Comprehensive Plan.

Mr. Steve Colwell, 1708 Ruskin Lane, explained that he sat on the Waterfront Taskforce for a year and he believed that their recommendation was I-2/C-3 for the waterfront. Ms. Hartley stated that the City is constrained by the Comprehensive Plan in adding residential there. She explained that she worked something out with the State to allow for density transfer, but the board would hear that next month.

Ms. Cory inquired if the City has been out of compliance all these years by having M-1, ILW, and IW as industrial zones. Ms. Hartley replied the City has had non-conforming uses across the board, but that was true for every land use. She commented that basically 60% of island was non-conforming to

the Comprehensive Plan. Ms. Cory questioned if the waterfront was left IW, change ILW to I-1, and change M-1 to I-2 relating to the same Comprehensive Plan why would that be a problem. Ms. Hartley explained that when the City adopts new Land Development Regulations they have to be consistent with the Comprehensive Plan. After a brief discussion about the process that has been followed, Member Wilking noted that nothing is perfect in every zone. He inquired in terms of what has to be done to fit the Comprehensive Plan was I-1 and I-2 a good solution right now or would it cause bigger problems down the road. Ms. Hartley explained that the text in the table provided to the board fits the text of the Comprehensive Plan. She stated that she was not saying it was going to match what is on the ground. Member Wilking inquired if this was the best that could be done now given all the variables. Ms. Hartley replied yes. She explained that this could be adopted now and do a land use study to fix the land use to match what is on the ground later. She stated that at least there would be two consistent policies and that may be the best that can be done. Member Wilking expressed his concern about the time it has taken to get to this point and noted that there is a point that if it can't be done then it has to go back to the drawing board.

Mr. Chuck Hall, 315 Calhoun Street, explained that in his mind I-2 was the light gray area along the waterfront. He stated that looking through the matrix for I-2 everything seems to be fairly acceptable. He commented that he assumed that the big issue was with I-1, because it seems to include almost everything. Member Conger expressed his opinion that I-2 doesn't fit the area on the map whatsoever other than a couple of shrimp boats. He commented that looking forward to waterfront development that would have recreational, shops, and restaurants to make it into a viable waterfront for the people. Chairman Bennett pointed out that the other thing is there are a number of items that have been added and deleted in this table. Ms. Hartley read that industrial uses include manufacturing, assembling and distribution activities, warehousing and storage, general commercial, and other similar land uses (from Comprehensive Plan). She explained that she had to fix the table to match this language. There was some further discussion about I-1 and I-2 zoning districts.

Member Conger pointed out that the definition of I-2 does not match up with what is down there and what he thought people want to be down there. Ms. Hartley noted that the plan said C-3 and pointed out that someone would have to apply to have it changed to C-3. She explained that C-3 allows for mixed-use residential/commercial/marina. Chairman Bennett inquired about the CRA area. Ms. Hartley replied not all of it. Chairman Bennett suggested looking at this subject at a later date. There was an extensive deliberation about how to proceed noting that the draft LDC has to be in compliance with the Comprehensive Plan.

Ms. Julie Ferreira commented that the Planning Department and the PAB needs to be thinking about what is going to happen in the future. She stated that this is the moment to think ahead and not just rubber stamp something because it is going to meet the Comprehensive Plan. Member Condit agreed with Ms. Ferreira and expressed his concern about lodging. He commented that there are also other issues. Member Beal inquired about proper procedure. He questioned if this is adopted in compliance with the Comprehensive Plan and then change the Comprehensive Plan and this or make a statement now by not accepting this. Chairman Bennett noted that some of these uses would be compatible with the items the board talked about for the Airport and lodging facility, but they are certainly not compatible with some of these other areas. Member Bradford inquired about the criteria to change the Comprehensive Plan. Ms. Hartley explained that the City would have to show if we are going to change the uses in each land use that it meets what is on the ground. She stated that the City would have to do a land use study. Member Bradford questioned if there are certain windows of opportunity to do this. Ms. Hartley replied twice per calendar year to do a large-scale amendment to the Comprehensive Plan. She pointed out that the City has one more chance in 2006. Member Wilking explained that he saw I-1 and I-2 as a whole separate issue. He agreed with Ms. Ferreira that

these are huge areas and if we permit just about anything in the Smurfit and Rayonier zones that the City has to be extremely careful, because once it is given to them you can't take it away. Ms. Hartley clarified that this should be a two step process, because she didn't want to throw away all the work that has been done just because Smurfit might close their doors in 5-years and the City would get a hotel. She stated that this draft could be adopted as is, recognize that there is a problem, do a text amendment to the Comprehensive Plan, and then go back and amend the code. Chairman Bennett disagreed and commented that the City rushed through to get the land use done and now the City still has not solved the problems and has created more problems. He questioned why adopt something that doesn't work. He agreed that the Land Development Regulations that the City has now may not work, but they have been working for a long time. He expressed his opinion that they can work until some of these issues are worked through. He stated that the City needed to control these two properties for future planning. There was some further discussion about how to proceed.

Mr. Bill Moore, 5457 Marsh View Lane, noted that the staff made a recommendation regarding how to make the zoning consistent with the Comprehensive Plan. He stated that ought to have great weight. He noted the concerns about the two large tracts of land with the mills that might be redeveloped sometime in the future. He commented that those sites are not suitable for the fear that has been expressed of a big resort, because it allows commercial uses and some lodging, but it doesn't allow for any housing or a lot of mixed uses. He explained that he didn't think what staff recommended would allow any huge door to open for people to take advantage of what you've created.

Mr. Mike Spicer, 1505 Lake Park Drive, stated that the course to change the Comprehensive Plan first makes the most sense to him and seems to be in line with what the citizens feel too.

The board took a brief recess at this time.

A motion was made by Member Conger, seconded by Member Beal, to seat alternate Member McClenning. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.

Ms. Hartley explained that the ILW uses under the current code and allowable uses under Industrial Manufacturing (IM). She pointed out basically the City already has a light industrial and heavy industrial manufacturing mixed use anyway. She suggested that the board figure out whether or not to allow for lodging under I-1 and then move on. After some discussion about this, Chairman Bennett requested direction from the City Attorney. City Attorney Braga stated that if the industrial areas are the ones that everyone is uncomfortable with then just table that section and move onto the rest. She explained that then it could be readdressed at a different meeting. **A motion was made by Member Conger, seconded by Member Bradford, to table industrial until another meeting. Vote upon passage of the motion was taken by ayes and nays and being all ayes, carried.**

Ms. Hartley referred to the City Attorney's memorandum #4 and read this into the record. City Attorney Braga explained that this addresses the issue that was brought up earlier. She stated that it would name the specific manuals that would be referenced. *The consensus of the board was to accept this revision.*

Ms. Ferreira commented that she looked at some houses along the beach and it seemed to her that at a certain minimum grade above sea level shouldn't houses and dwellings be required to be built on stilts with knock away walls. Ms. Hartley explained that the Coastal High Hazard Area is not defined by a flood zone, but defined by A1A (a transportation route). She stated that it doesn't make sense to

require structures that are at 65 feet elevation to elevate on stilts. She explained that staff was proposing that it just be in special flood areas. City Attorney Braga noted that Ms. Ferreira was referring to the next page of the memorandum #5. She questioned if the reference to the coastal high hazard should be removed. Ms. Hartley replies yes and explained that it should say "special flood zone". City Attorney Braga noted that "special flood hazard" was defined on page 1-14. Chairman Bennett requested clarification because at one point the Coastal High Hazard had nothing to do with the flood map, but now it was back. Ms. Hartley clarified that staff wanted to delete all of the section that talks about Coastal High Hazard area, except for policy 3.01.05(A) (1) and that would be moved under "Special Flood Zone". Ms. Ferreira inquired what it does to planning if the City removes all references to Coastal High Hazard Zones and the City is concerned about the density in the Coastal High Hazard Zones in the future. Ms. Hartley explained that this language talks about elevating structures not density. She stated that what Ms. Ferreira was talking about is a Comprehensive Planning issue not a structural building issue. She stated that she wanted to delete this entire section of Coastal High Hazard area in the code, but it was staying in the Comprehensive Plan and that is what is going to control density. She explained that this section that talks about Coastal High Hazard area talks about elevating structures and it doesn't make any sense, because one doesn't have anything to do with the other. Chairman Bennett inquired if there was language in other areas about breakaway walls. Ms. Hartley replied yes and explained that it was already in the Special Flood. Chairman Bennett questioned about for no fill permitted for structural support. Member McClenning replied that was in 3.01.04. Ms. Hartley pointed out that (C) talks about breakaway walls and elevated buildings. Chairman Bennett commented that he was apprehensive about deleting a whole section without knowing where these items may be found in other areas. Mr. Sullivan referred to page 3-4 and read that in the 100 year flood plain solid foundation perimeter walls be used to elevate a structure opening sufficient to facilitate the unimpeded movements of flood water shall be provided. Ms. Hartley explained that the fill policy was in 3.03.01(A). There was some further discussion about removing this section. *The consensus of the board was to accept items #4 and #5 as presented in the City Attorney's memo.*

Ms. Hartley referred to 3.02.02 in the matrix and read the proposed changes. Chairman Bennett inquired if there was discussion at the last meeting to include their language for the list. Ms. Hartley replied that was basically what she did. Chairman Bennett commented that the original language talks about the County Construction Control Line. Ms. Hartley replied that was a typo and explained that the Coastal Construction Control Line (CCCL) is established by the Department of Environmental Protection (DEP). Member Conger questioned why remove the 1,000 feet. Ms. Hartley replied because the line is already set. She stated that anything seaward of the CCCL is Coastal Protection Zone (CPZ). Member Conger commented that there were problems with people building 45-foot buildings near the beaches and it was a good deterrent for that. Ms. Hartley pointed out that 800-feet from the high waterline you are still only allowed to be 35 feet. After some discussion about this, Mr. Sullivan suggested changing the 800-feet from the high water mark to the CCCL for no building higher than 35 feet. Mr. Jeffrey Tomassetti stated that the mean high water mark is definable. He explained that surveyors do it all the time and the applicant has to get it. He expressed his opinion that it should be kept as it is. There was some discussion about the mean high water line.

Mr. John Proctor, 731 Tarpon Avenue, explained that he owns a property that there was a question about the 800 feet from the mean high water mark and within the last few weeks the surveyor determined the distance from the mean high water mark. He commented that it cost him a little more money, but the mark was no mystery to the surveyor. He noted that the mark was an average over a period. He expressed his opinion that there is nothing wrong with the reference to the mean high water mark.

Ms. Joan Cory, 408 Beech Street, questioned if the proposal was to get rid of the Coastal Upland Protection Zone (CUPZ). Ms. Hartley replied correct. Ms. Cory commented that the CUPZ appears to be in the Comprehensive Plan. She explained that if this 1,000 feet is thrown out landward from the CCCL it is taking away a lot of protection for the secondary dunes and its vegetation. She stated that it appeared to be in conflict with the Comprehensive Plan. Ms. Hartley explained that the problem was that the way the code was worded it exempted everybody from that provision, because if they had any kind of utility or infrastructure they were exempt. She pointed out that the beach is 95% built out. She stated that the language could be put back in, but everyone would be exempt all over again. There was some further discussion about this.

Ms. Patricia Borns, 314 New Street, commented that it in the history of Daytona Beach its beachfront started out mostly with homes like Fernandina Beach, but now hotels have replaced them all. She stated that it might not be bad to leave it in because there is going to be another wave of development eventually on the waterfront. Ms. Hartley stated that it is not on the waterfront or oceanfront. She explained that the three hotels that the board talked about last week the one that would be affected by this policy is the piece of property that already has a building on it. She stated that the Kuitems case was beyond the CCCL and the other one on Sadler was beyond that area. Member Wilking suggesting going with staff's recommendation. Member Condit agreed. Member Beal agreed.

Ms. Ferreira noted that staff's proposal concedes jurisdiction to proper permitting agencies. She explained that she had a hard time giving away home rule and going to St. Johns River Water Management District, DEP, etc. that are becoming more politicized. She stated that she would like to see some concession given to home rule that the City could make decisions for itself without turning it over to permitting agencies. Member McClenning pointed out that it is required. She provided clarification of what staff's recommendation was. There was some discussion about this proposed change. *The consensus of the board was to accept this revision to 3.02.02.* Member Conger pointed out a lettering correction on the matrix.

Ms. Hartley read 3.03.03 from the matrix and clarified that this is what the City currently practices. Chairman Bennett inquired if the City didn't want someone to mitigate a property, but the permitting agency approved the mitigation where would that put the City. Ms. Hartley pointed out that the board voted on one a month ago and allowed it to be altered. She explained that there are some properties out there that are entirely wetlands. She stated that to not allow them to build anything on their property means the City needs to pay them fair market value for that property. City Attorney Braga clarified that it would be a taking issue if they can get a permit from another agency and the City won't allow them to build anything. After some discussion about this, Ms. Joan Altman, 212 Estrada Street, suggested putting a clause in if it could have an affect on a neighborhood. She related an example of an area that each had ¼ acre of wetland in an undeveloped area and each individual was allowed to fill the area. She commented that you are losing something environmentally sound that is very important to the rest of the area. She questioned how to determine what is large enough to be allowed to be filled and what isn't. Ms. Hartley replied the Army Corps determines that. Ms. Altman stated that the Army Corps, St. Johns, and the other agencies allow a certain amount of these decisions to be made by the City. She explained that small wetlands are very important to the survival of the community. She provided some further comments about having a stronger home rule to not allow them to fill wetlands. There was some deliberation about 3.03.03 regarding filling wetlands.

Member Wilking questioned if all the other agencies approves a permit, but the City disapproves it what ground does the City have to defend that disapproval. City Attorney Braga stated that she

thought the City would have legal issues. She explained that the City doesn't have the staff to make those kinds of determinations. Ms. Altman stated that she thought there should be a limit to the size or the amount in a certain area. She commented that there is a lot of undeveloped land like that because it is wet. Chairman Bennett stated that he thought the City should have some input to that. Ms. Hartley stated that if the board goes that route then it should say no fill and then it would have to be fought out in court. City Attorney Braga pointed out that there are situations where it could be an isolated wetland that doesn't contribute to the overall, because it is not draining anywhere. She commented that she was sure there were some areas like Ms. Altman mentioned that are very valuable, but the City does not have the expertise in-house to look at this and make an intelligent determination. There was some further deliberation about 3.03.03 regarding filling wetlands noting that there needs to be a defensible standard for this.

Member Conger suggested language that: "unless the following three conditions are met: 1) concurrency with surrounding neighborhood 2) approval by the City 3) DEP, Corps of Engineers, and/or St. Johns River Water Management District". Ms. Hartley questioned what the City's standards for approval were. Member Conger stated that staff would have to come up with that. There was some further discussion about wetlands and a suggestion was made to reinstate an Environmental Advisory Board for cases like this. There was a brief discussion about where to stop this meeting and the consensus was to stop before going into Chapter 4.

Member Wilking commented that the City can set up all the boards it wants, but if a property owner has permits to fill or do some construction on a wetland from St. Johns, DEP, Corps of Engineers and then the City says no it seems like a futile effort. He stated that the property owner would file a case against the City for taking property. He explained that it doesn't seem like the City would have a whole lot of defensible position in that realm. Member Condit agreed with Member Wilking and noted that the City was not in a position with expertise to make a decision on this. He commented that he hated to defer the whole thing and would like to have an opportunity to have a look at them. Chairman Bennett explained that if there were an Environmental Board and before they turn it down there would be some justifiable data or evidence that would go along with the application.

Mr. Tomassetti questioned if there was a way to send the City's recommendation to these other bodies and then still let them decide. Member Bradford commented that a lot of times it is subject to approval by the agency. Mr. Tomassetti suggested that the board could request the agency consider their concerns. There was some discussion about this suggestion.

City Attorney Braga referred to language in (C) (3) on page 3-13 and explained that this is a requirement that the developer submit this information. She stated that the City would have to get its own consultant to review it and then it could be brought here for a permit that would be passed on. There was some further discussion about this subject noting that the City doesn't have the expertise for this. There was also discussion about the City having a consultant to review the information submitted by the applicant.

City Attorney Braga questioned the difference between someone having to go to St. Johns versus DEP. Mr. Sullivan replied that it depends on where it is. Ms. Altman stated that she thought the agencies would cooperate with the City and could copy the City on every permit that is asked for. Ms. Hartley pointed out that it is available online. She stated that staff could come back to the board with some criteria.

There was some discussion about the next meeting to review Chapters 4, 5, and 6 noting that the members were to review all the materials presented by the staff prior to the meeting.

Mr. Harrison inquired if the changes recommended at the December meeting were incorporated into the revised draft. Ms. Hartley replied that they are either in the draft or the matrix. There was a brief discussion about this. Member Conger requested staff to notify members when information is available for review prior to the next meeting.

Ms. Hartley referred to the February meeting and explained that staff decided because of the size of the agenda to split it up into two meetings in February. She clarified that the first meeting would be February 8th and the second would be February 22nd. There was a brief discussion about the upcoming meetings.

IV. Adjournment

There being no further business to come before the Planning Advisory Board, the meeting was adjourned at 9:21 p.m.

Mark Bennett, Chairman

Paul Condit, Vice Chair

d. Subdivision of land: Land development regulations shall provide for the division of land and the design of platted development projects.
e. Buffering/Screening: Site design and compatibility standards shall require that land uses which are potentially incompatible, either due to type of use or intensity of use, be buffered from one another through the provision of open space, landscaping, berms, site design techniques, or other suitable means.
f. Regulation of the development of flood-prone areas: Standards shall limit the use and development of land in flood-prone areas and shall be incorporated as part of the Municipal Code.
g. Coastal Upland Protection Zone (CUPZ): Standards shall limit the type, location, and intensity of use in order to protect the integrity of the coastal upland area.
h. Building Height: The height of new structures shall be consistent with the heights of existing development. In all zoning districts, the maximum height of any building located within 800 feet of the mean high water line of the Atlantic Ocean shall not exceed thirty-five (35) feet.
i. Maximum Building Size: Standards shall limit the gross square feet of a single building in order to ensure compatibility with development throughout the City.
j. Maximum Impervious Surface Area: Standards shall limit and mitigate the amount of impervious surface area on any lot in order to protect environmentally sensitive lands, preserve the existing topography, and reduce strain on the stormwater management system.
k. Parking Standards and Design: Maximum parking spaces requirements shall be incorporated in the code in order to reduce unnecessary use of land for parking requirements, to reduce the amount of impervious surface area on any lot and to minimize the amount of stormwater drainage required. Parking shall be designed utilizing Low Impact Development (LID) strategies and reduce the amount of impervious surface area necessary for parking.
l. Historic Preservation: The City shall continue to preserve and enhance its existing Historic District areas through regulations which promote on-going maintenance of public infrastructure and civic, governmental, commercial and residential structures.
m. Landscaping Requirements: The City shall direct minimum landscaping percentages and promote use of native, drought- tolerant, Florida-friendly plant materials.
n. Tree Preservation Requirements: In an effort to maintain and enhance its existing tree canopy, the City shall adopt a no-net loss policy for tree removal. All trees removed should be replaced or mitigated in order to prevent loss of the City's existing canopy. The City shall replace street trees and parks/open space trees that may need to be removed due to their deteriorating or hazardous condition.

POLICY 1.02.06.

The City shall assure that specific density assigned to new development and redevelopment is compatible and consistent with established residential development patterns and provides equitable use of the land. Criteria to be considered in allocating density shall include, but not be limited to, the following:

a. Protecting the integrity and stability of established residential areas;
b. Assuring smooth transition in residential densities;

c. Encouraging commercial and residential mixed use development patterns;
d. Recognizing and being sensitive to the character and form of the surrounding neighborhoods; and
e. Requiring application of low impact development (LID) principles, native and drought tolerant landscaping and urban design principles and practices; and
f. Encouraging connectivity of pedestrian walkways and bicycle paths on and off site.

POLICY 1.02.07.

The City shall implement the Fernandina Beach Comprehensive Plan in a manner that acknowledges private property rights.

POLICY 1.02.08.

Stable or established residential areas shall be protected from encroachment by incompatible development by establishing and increasing the amount of mixed use transitional areas. This policy does not preclude necessary community facilities from locating within residential areas when such activities satisfy the criteria established in the City's comprehensive plan and land development regulations.

POLICY 1.02.09.

The City shall provide for the orderly transition of incompatible uses. Where infeasible to separate incompatible uses then, buffering and mixed use transition areas shall be required to promote a smooth land use transition. Any potential adverse impacts caused by incompatible land uses located adjacent to each other shall be minimized by drought tolerant and native landscaping, low impact development strategies and buffer requirements.

POLICY 1.02.10.

The City shall protect privacy and access to light, air, and open space. The City shall consider regulations such as building placement on a site, building design, and building orientation as one means to achieve this policy.

POLICY 1.02.11.

The City shall implement the PUD as an overlay zoning district.
The purpose of a PUD overlay zoning district shall be to:

a. Improve the use of land where topography does not permit the application of the standard grid pattern subdivision of land; or
b. Introduce more than one (1) land use within a mixed use development, for example, recreation and commercial activities within a residential development; or
c. Allow more than one (1) housing type within a residential PUD; or
d. Allow innovative arrangements of uses and buildings that are not permissible in the underlying zoning district; or
e. Cluster homes, businesses, and other uses within a development to improve the efficiency of supporting infrastructure; and
f. Incorporate energy efficiency and other conservation measures that meet recognized green building standards into the design and construction or rehabilitation of structures.
g. A PUD overlay zoning district shall be allowable in the following FLUM categories: LDR, MDR, HDR, ORMU, and GC. The land uses within any

City of Fernandina Beach

204 Ash Street, Fernandina Beach, Florida 32034

DEMOLITION - RESIDENTIAL PERMIT

Permit Number: **DEMR-2022-0092** Issue Date: **05/17/2022**

Job Address: **2754 BAILEY RD, FERNANDINA BEACH, FL 32034**

Parcel: **00-00-30-044B-0076-0010**

Owner: **SCOTT ROAD PARTNERS LLC**

Contractor: **Terry Dennis**
904-429-4800

Final to be made after all demolition, debris removal and grading is complete.

Special Inspection: Initial inspection to be made after ALL utility connections have been disconnected and secured in such manr no unsafe or unsanitary conditions shall exist during or remain after demolition operations.

PER BUILDING OFFICIAL - STATE DOCUMENTS AND ASBESTOS SURVEY MUST BE RECEIVED BEFORE DEMOLITION STARTS. PERMIT VOID SIX MONTHS AFTER DATE OF ISSUE. ALL PERMITS SUBJECT TO INSPECTIONS.

Contact Debris Site 24 hours prior to delivery for Site preparation.

TO OWNER: YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. IF YOU INTENT TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT.

Notice: In addition to the requirements of this permit, there may be additional restrictions applicable to this property that may be found in the public records of the County, and there may be additional permits required from other government entities.

: MUST BE POSTED IN A CONSPICOUS PLACE - (See sec. 108.2 Building Code)

ORDINANCE 2021-30

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, ANNEXING APPROXIMATELY 4.85 ACRES OF LAND LOCATED AT 2754 & 2766 BAILEY ROAD CONTIGUOUS TO THE CITY LIMITS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the owners of approximately 4.85 acres of land located at 2754 & 2766 Bailey Road, contiguous to the City limits and identified in Exhibit "A", have requested annexation into the City of Fernandina Beach in exchange for water and sewer services; and

WHEREAS, the Planning Advisory Board reviewed the request for voluntary annexation application numbered PAB 2020-0003 at its July 14, 2021, meeting and recommended approval of the annexation; and

WHEREAS, notice of public hearing on such application was published in the News Leader, a newspaper of general circulation in Fernandina Beach, Nassau County, Florida, on June 30, 2021; and

WHEREAS, City staff has reviewed the petition for voluntary annexation and has found that the petition bears the signatures of all the owners of the subject property or their authorized agent at such time that the petition was signed, the parcel is contiguous to the City boundary, is reasonably compact, does not create an enclave, will be used for urban services, and the City will be able to deliver urban services such as water, sewer, garbage, police and fire without decreasing the level of service currently provided to City residents; and

WHEREAS, the City Attorney has rendered a legal opinion that upon review, the annexation petition meets the requirements of Chapter 171 Florida Statutes; and

WHEREAS, after consideration of the application and evidence presented on such application thereon, the City Commission made the following findings:

a. That the Commission is empowered under Chapter 171, Florida Statutes to approve a request for voluntary annexation.

b. That the proposed annexation meets the requirements for voluntary annexation as required by Chapter 171.044 F.S., is contiguous to the municipal boundary, is reasonably compact, and does not create an enclave.

c. That the petitioner agrees to file for a Future Land Use Map (FLUM) amendment and a change in zoning district designation within six months of the date the City Commission approves the annexation.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The following parcel of real property totaling approximately 4.85 acres of land located at 2754 & 2766 Bailey Road contiguous to the City limits and by map provided in Exhibit "A" are hereby annexed into the corporate limits of the City of Fernandina Beach, to wit.

SECTION 2. It is hereby deemed to be in the best interest of the City of Fernandina Beach that the land, above described, be annexed into and become a part of the City of Fernandina Beach. That upon adoption of this Ordinance, the boundary lines for the corporate limits of the City of Fernandina Beach shall be redefined so as to include the real property described above.

SECTION 3. This Ordinance shall be published in the Fernandina Beach News Leader once each week for two consecutive weeks, and that proof of publication of this Ordinance shall be filed herein prior to the final reading of this Ordinance.

ADOPTED this 7th day of December, 2021.

CITY OF FERNANDINA BEACH

MICHAEL A. LEDNOVICH
Mayor - Commissioner

ATTEST:

CAROLINE BEST
City Clerk

APPROVED AS TO FORM AND LEGALITY:

TAMMI E. BACH
City Attorney

ORDINANCE 2021-30

EXHIBIT A

PROPERTY LOCATED AT 2754 & 2766 BAILEY ROAD TOTALING 4.85 ACRES OF LAND ASSIGNMENT OF THE FUTURE LAND USE CATEGORY OF LOW DENSITY RESIDENTIAL (LDR) AND ZONING DISTRICT OF LOW DENSITY RESIDENTIAL (R-1)

MAP SHOWING SURVEY OF

BOUNDARY, TOPOGRAPHIC AND TREE SURVEY OF

Legal Description obtained from Quit Claim Deed recorded in Official Records Book 2255, page 1821

All of Lot 76 of OCEAN BREEZE FARMS, a subdivision of a portion of Sections 3 and 5, Township 2 North, Range 28 East, Nassau County, Florida, according to plat of said Subdivision recorded in Plat Book 2 page(s) public records of said Nassau County, Florida, less the Westerly 10 feet of said Lot 76 which was taken for Miller Bailey Road, and also except that portion thereof conveyed to Nassau County under O.R. Book 78, page 525, public records of Nassau County, Florida.

Surveyor's Note regarding the Legal Description contained in Official Records Book 2255, page 1821

The Legal Descriptions contained within this deed as Parcel 1 and Parcel 2, are the same lands as described as a LESS AND EXCEPT in Parcel 3, (Tone also less the Easterly 100 feet of the Westerly 110 feet of the Southerly 209 of said Lot 76).

SURVEYOR'S NOTE:
THE TITLES AND EXCEPT PARCELS REFERED TO HEREIN, VESTED IN OFFICIAL RECORDS BOOK 77, PAGE 508, (AS TO PARCEL 2); OFFICIAL RECORDS BOOK 78, PAGE 525, (AS TO PARCEL 3); AND OFFICIAL RECORDS BOOK 78, PAGE 527, (AS TO PARCEL 1), ARE NOT AVAILABLE ONLINE AT THE NASSAU COUNTY CLERK OF THE CIRCUIT COURTS OFFICE. THEREFORE WITHOUT A TITLE COMMITMENT, AND A COPY OF THESE INSTRUMENTS, THIS FIRM CAN NOT PLOT THESE TITLES AND EXCEPTS.

GENERAL NOTES:

1) BEARINGS SHOWN HEREON ARE BASED ON THE EASTERLY RIGHT-OF-WAY LINE OF "MILEY ROAD" AS A BEARING OF N 00°00'20" E, AS MONUMENTED AND AS SHOWN ON THE RECORD PLAT OF "PINE MEADOW" (PLAT BOOK 3, PAGE 56). ALL BEARINGS ARE REFERENCED TO THE NORTH AMERICAN DATUM OF 1983 (1990 ADJUSTMENT) (NAD83 (1990)) AND THE STATE OF FLORIDA STATE PLANE COORDINATE SYSTEM FOR ZONE EAST.

2) THE SURVEY IS PROTECTED BY COPYRIGHT AND IS DEFENDED UNDER THE UNITED STATES COPYRIGHT ACT OF 1976. ANY UNAUTHORIZED REPRODUCTION AND DISTRIBUTION OF THIS SURVEY MAP, OR ANY PORTION OF THE SURVEY WITHOUT THE EXPRESS WRITTEN PERMISSION OF THE SURVEYOR AND OR FIRM IS STRICTLY PROHIBITED. USE OF THIS SURVEY IN ANY SUBSEQUENT TRANSACTIONS OF EXISTING, DERIVATIVE, AND EVENT AGREEMENTS IN THE SPACE OR AREAS FROM THE SURVEYOR AND/OR FIRM EXPRESSLY DISCLAIMS ANY LIABILITY OR RESPONSIBILITY FOR ANY SUCH USE. ANY ALTERATIONS TO OUTPUT COPY OF THESE LISTED ON THIS SURVEY SHALL RELIEVE THIS SURVEYOR AND/OR FIRM EXPRESSLY DISCLAIMS ANY LIABILITY OR RESPONSIBILITY FOR ANY SUCH USE. ANY ALTERATIONS TO OUTPUT COPY OF THESE LISTED ON THIS SURVEY SHALL RELIEVE THIS SURVEYOR AND/OR FIRM OF ANY RESPONSIBILITY FOR THE SURVEY FOR ANY PURPOSE.

3) UNLESS A TITLE COMMITMENT'S REFERENCED GRAPHICALLY ON THE FACE OF THE SURVEY HEREON, THERE MAY BE ADDITIONAL EASEMENTS AND RESTRICTIONS AFFECTING THE PROPERTY SHOWN HEREON THAT MAY NOT BE SHOWN, INCLUDING BUT NOT LIMITED TO, SETBACK LINES, RESTRICTIVE AREA, AND USE MATTERS. EVIDENCE OF TITLE EXAMINATION BY A TITLE COMPANY THAT HAS NOT BEEN SHOWN HEREON, THESE ITEMS WERE NOT REQUIRED, OR APPARENT TO SURVEYOR AT THE TIME OF FIELD WORK. (MINIMUM STANDARDS DETAIL REQUIREMENTS FOR SURVEYS IN THE STATE OF FLORIDA, ADMINISTRATIVE CODE 5J-17.052)

4) NOTICE: NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL RAISED SEAL OF A FLORIDA LICENSED SURVEYOR AND MAPPER. ADDITIONS OR DELETIONS TO SURVEY MAPS OR REPORTS BY OTHERS THAN THE SIGNING PARTY OR PARTIES IS PROHIBITED WITHOUT THE WRITTEN CONSENT OF THE SIGNING PARTY OR PARTIES.

5) NOTICE OF LIABILITY: THIS SURVEY IS DEDICATED TO THOSE PERSONS AND/OR ENTITIES AND/OR FIRMS AS SHOWN ON THE FACE OF THIS SURVEY AND TO NO OTHER. THE BENEFIT OF RELIANCE BY ANY OTHER PARTY IS SPECIFICALLY REJECTED AND DISCLAIMED. THIS SURVEYING FIRM AND THE SIGNING PARTY OR PARTIES HEREBY DISCLAIM THAT IN THE EVENT ANYONE OR ANY ENTITY OTHER THAN THE ENTITIES LISTED ON THE FACE OF THIS SURVEY MAKES ANY USE OF THIS SURVEY, OR RELIES UPON THIS SURVEY IN ANY WAY, SUCH USE AND RELIANCE WILL BE DEEMED TO BE AT THE SOLE RISK OF SUCH PERSON, ENTITY OR ENTITIES AND WITHOUT THE EXPRESS WRITTEN CONSENT OF THIS FIRM AND/OR SIGNATORY.

6) ELEVATIONS SHOWN HEREON ARE BASED ON THE U.S. DEPARTMENT OF COMMERCE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, NATIONAL GEODETIC SURVEY, (NGS) TIDAL DATUM, NORTH AMERICAN VERTICAL DATUM OF 1988, (NAVD 88). THE NORTH AMERICAN VERTICAL DATUM OF 1988 IS THE CURRENT VERTICAL CONTROL DATUM OF GEOMETRIC HEIGHTS ESTABLISHED FOR VERTICAL CONTROL SURVEYING IN THE UNITED STATES BASED UPON THE GENERAL ADJUSTMENT OF THE NORTH AMERICAN DATUM OF 1983, AND USES THE HEIGHTS OF GEOMETRIC HEIGHT WHICH CALCULATES THE LOCATION OF THE GEOID (MEAN SEA LEVEL) IN RELATION TO THE ELLIPSOID.

7) THE GRAPHIC MAP HAS BEEN ENLARGED OR REDUCED FROM THE ORIGINAL DRAWING THEREFORE THE GRAPHIC SCALE SHOWN IS CORRECT BY ELECTRONIC MEANS AND IS TO THE ORIGINAL SIZE AND SCALE.

8) UNLESS OTHERWISE NOTED, ANY PORTION OF THE SUBJECT PROPERTY GRAPHICALLY SHOWN HEREON, MAY BE LOCATED AS BEING IN LOCAL, STATE OR FEDERAL FLOOD HAZARD AREAS AND ENVIRONMENTALLY SENSITIVE AREAS. ADDITIONAL DETERMINATION SERVICES MAY BE PERFORMED BY THIS FIRM AT THE TIME THE DETERMINATION OF THE ENVIRONMENTAL RELEASE, AGRICULTURAL, WETLAND, LAND USE APPROVAL BY THE HOMEOWNERS ASSOCIATION, ASSOCIATION OF THE REGULATORY OF THE OWNERS OF THE OFFICE WORKS AND ANY SUCH PURPOSE THAT USE OF THIS SURVEY WITHOUT CERTIFICATE OF ENVIRONMENTAL RELEASE, AGRICULTURAL LAND DETERMINATION AND APPROVAL BY THE APPROPRIATE ENVIRONMENTAL AGENCIES, OR TO A THIRD PARTY.

9) EVERY ATTEMPT HAS BEEN MADE BY THIS FIRM TO CORRECTLY DEPICT THE LINES SHOWN HEREON BY SIZE AND SPECIES TYPE, HOWEVER, DUE TO THE SCALE OF THIS DRAWING, IT IS NOT POSSIBLE TO DEPICT EVERY TREE ON THE SURVEY. THE LOCATION OF TREES SHOWN HEREON ARE APPROXIMATE AND ARE NOT INTENDED TO BE USED FOR CONSTRUCTION PURPOSES. THE SURVEYOR DOES NOT GUARANTEE THE ACCURACY OF THE TREE LOCATIONS, SIZE OR SPECIES. THERE MAY BE ADDITIONAL TREES NOT SHOWN ON THIS SURVEY.

RE: NOTICE OF ANNEXATION OF 4.85 ACRES OF LAND LOCATED AT 2754 AND 2766 BAILEY ROAD CONTIGUOUS TO THE CITY LIMITS

Honorable Commissioners:

In accordance with FS 171.044, please see the Notice of Public Hearing (attached) scheduled for Tuesday, December 7, 2021, at 6:00pm of an Ordinance of the City Commission of the City of Fernandina Beach annexing 0.61 acres of land as follows:

ORDINANCE 2021-30

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, ANNEXING APPROXIMATELY 4.85 ACRES OF LAND LOCATED AT 2754 & 2766 BAILEY ROAD CONTIGUOUS TO THE CITY LIMITS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

If you have any questions regarding this annexation, please do not hesitate to let us know.

Sincerely,
City of Fernandina Beach

Caroline Best

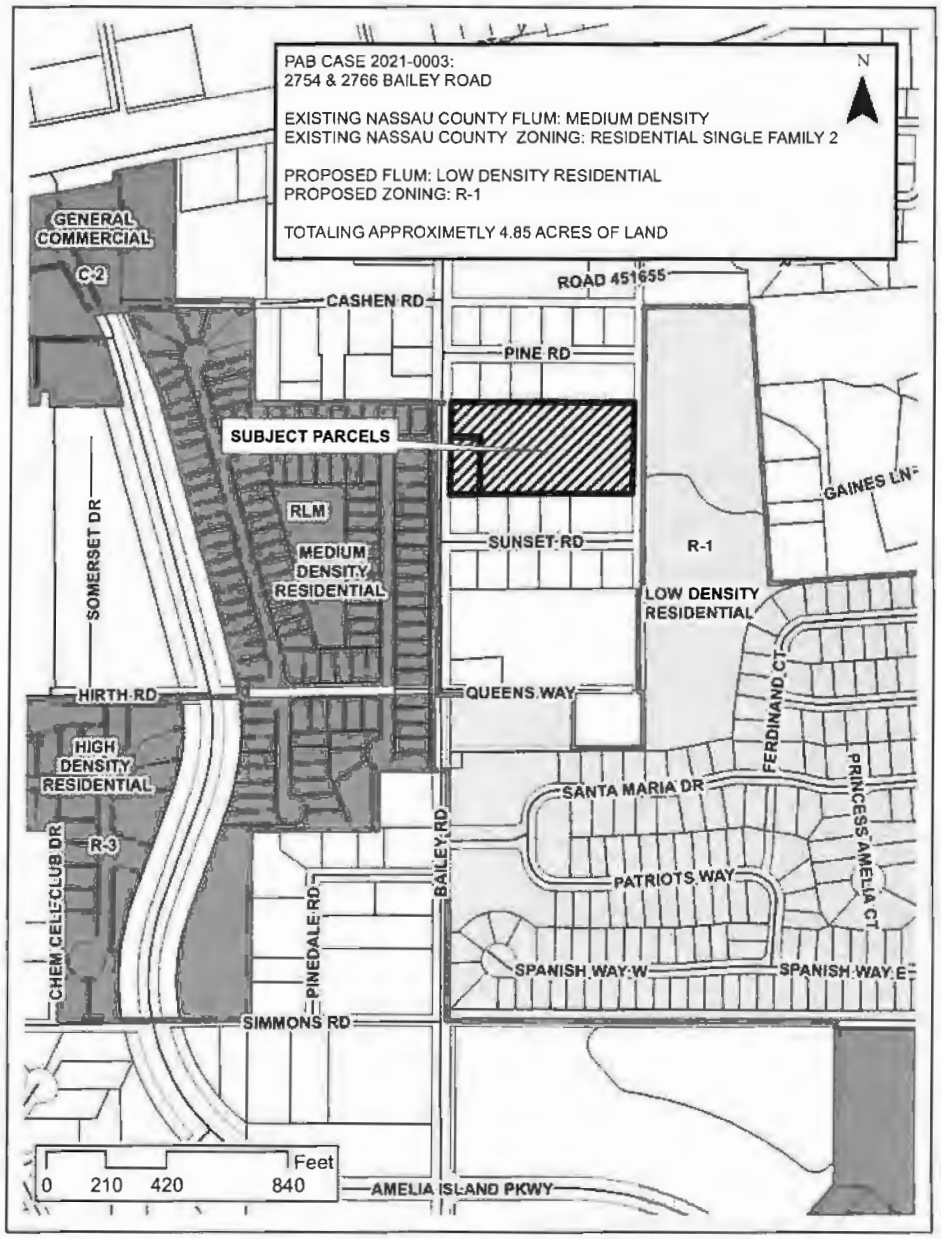
NOTICE OF PUBLIC HEARING
CITY COMMISSION
CITY OF FERNANDINA BEACH

NOTICE IS HEREBY GIVEN that a Public Hearing is scheduled for **Tuesday, December 7, 2021, at 6:00 PM** in the City Commission Chambers, 204 Ash Street Fernandina Beach, Florida to consider the following application:

ORDINANCE 2021-30



AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, ANNEXING APPROXIMATELY 4.85 ACRES OF LAND LOCATED AT 2754 & 2766 BAILEY ROAD CONTIGUOUS TO THE CITY LIMITS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

ORDINANCE 2021-31

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, ASSIGNING A FUTURE LAND USE MAP CATEGORY OF LOW DENSITY RESIDENTIAL (LDR) FOR 4.85 ACRES OF LAND LOCATED AT 2754 & 2766 BAILEY ROAD; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

ORDINANCE 2021-32

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, ASSIGNING A ZONING CATEGORY OF LOW DENSITY RESIDENTIAL (R-1) FOR 4.85 ACRES OF LAND LOCATED AT 2754 & 2766 BAILEY ROAD; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

Interested parties may appear at said hearing and be heard as to the advisability of any action, which may be considered. Any persons with disabilities requiring accommodations in order to participate in this program or activity should contact 310-3115, TTY/TDD 711 or through the Florida Relay Service at 1-800-955-8771 at least 24 hours in advance to request such accommodation.

IF ANY PERSON DECIDES TO APPEAL ANY DECISION MADE BY THE BOARD/COMMISSION WITH RESPECT TO ANY MATTER CONSIDERED AT SUCH HEARING, S/HE WILL NEED TO ENSURE THAT A VERBATIM RECORD OF THE PROCEEDINGS IS MADE, WHICH RECORD INCLUDES THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

Copies of the applications with description by metes and bounds and the ordinance can be obtained in the office of the City Clerk, City Hall, 204 Ash Street, between the hours of 8:00 AM – 5:00 PM, Monday through Friday. For information on the application, please contact the Staff of the City Clerk's Office at 310-3115.

Note:

Please run as a <u>DISPLAY</u> in the November 24, 2021 and December 1, 2021 editions of the News Leader.

Please send proof of publication to:

Subject: Tringali Preliminary Plat Hearing

I have copied all parties I know of that plan to present evidence and testimony at the quasi-judicial hearing on May 17, 2023. All materials, presentations, photographs and other documentation must be submitted to the City Clerk, Caroline Best (cbest@fbfl.org) no later than Friday, May 12, 2023, via email is fine. I have attached the City Commission adopted Rules of Procedure for quasi-judicial hearings. It is my understanding from reading the Rules of Procedure that the Applicant, City and Affected Parties wishing to testify without time limitations provide a witness list and all presentations and documentation by May 12.

I will have a witness list and a few more documents to submit on Friday, May 12th on behalf of the City.

City Commission

**** All required application materials have been received. All fees have been paid. All required notices have been made. All copies of required materials are part of the official record and have been made available on the City's website and at the Community Development Department Office. ****

- MU-1 and R-2 zoning districts allow for a range of housing types including townhome development.
- Common amenities included shared driveway, stormwater management system, mail kiosk, & landscaping.
- Site will contain vehicular access through shared driveway entering and exiting onto Beech Street and pedestrian ingress/egress on S. 3rd and 4th Streets with on-street parking made available.

PAB 2022-0026

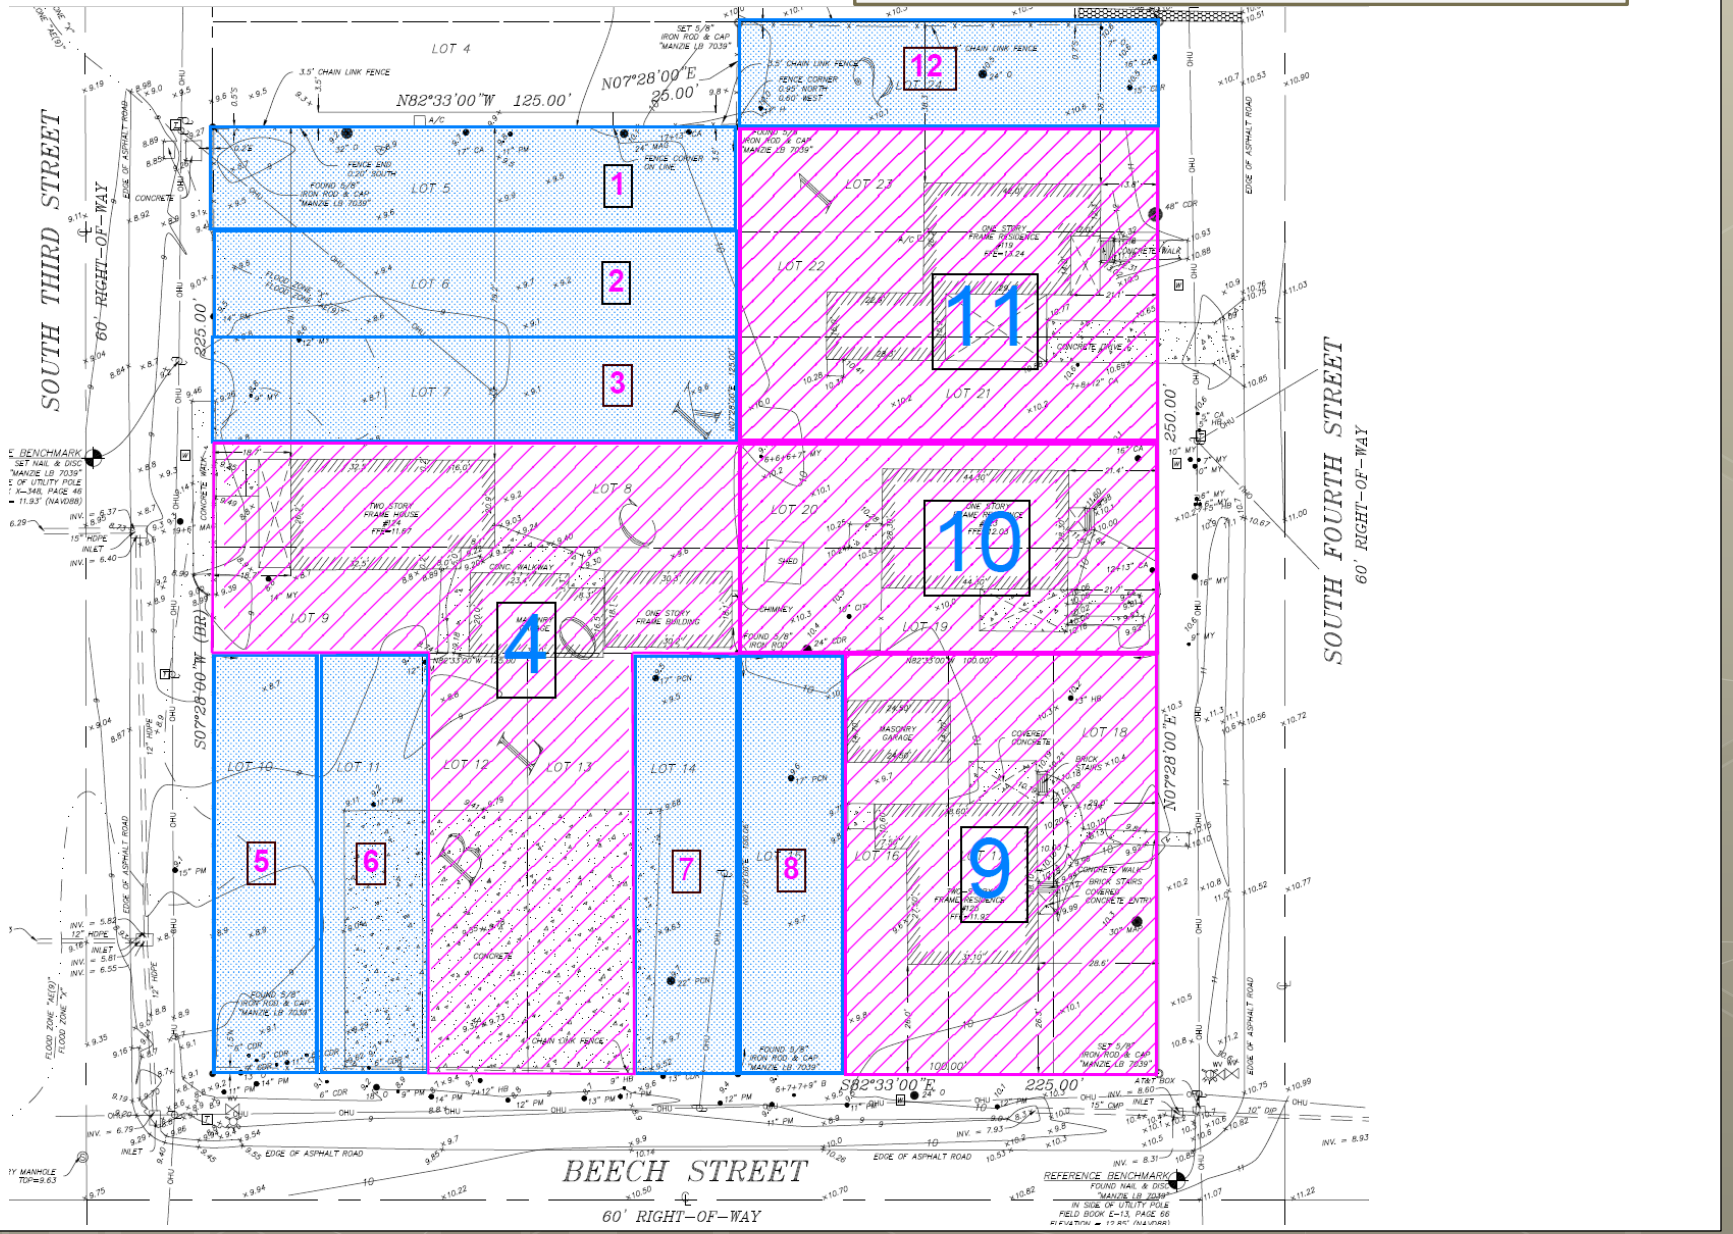
LAND USE AND ZONING MAP

FUTURE LAND USE: MIXED USE AND MEDIUM DENSITY RESIDENTIAL

ZONING: MU-1 AND R-2

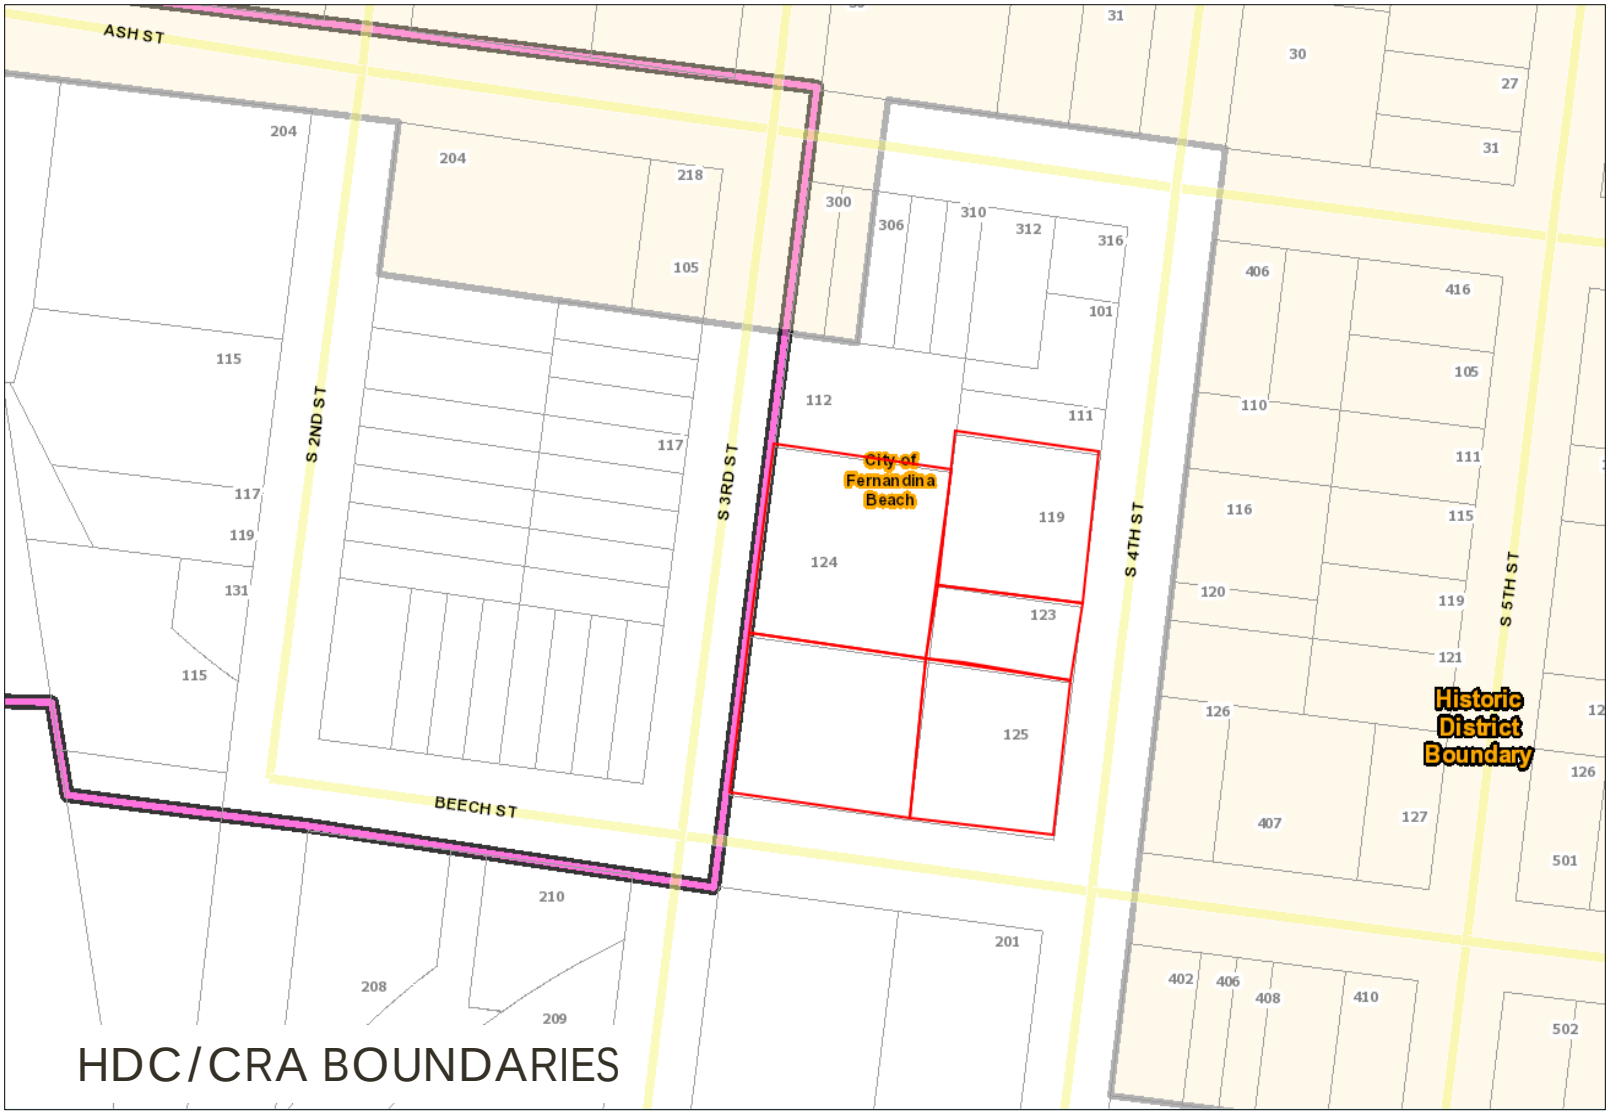
PAB 2022-0026

BACKGROUND INFORMATION:



UNDERLYING LOTS OF RECORD

- Site contains 20 originally platted lots of record.
- 8 lots of record remain open and available for development under existing conditions
- 4 development sites exist with structures straddling 12 original platted lots of record.
- Existing conditions permit redevelopment of the properties of 12 homesites on varied lot widths.



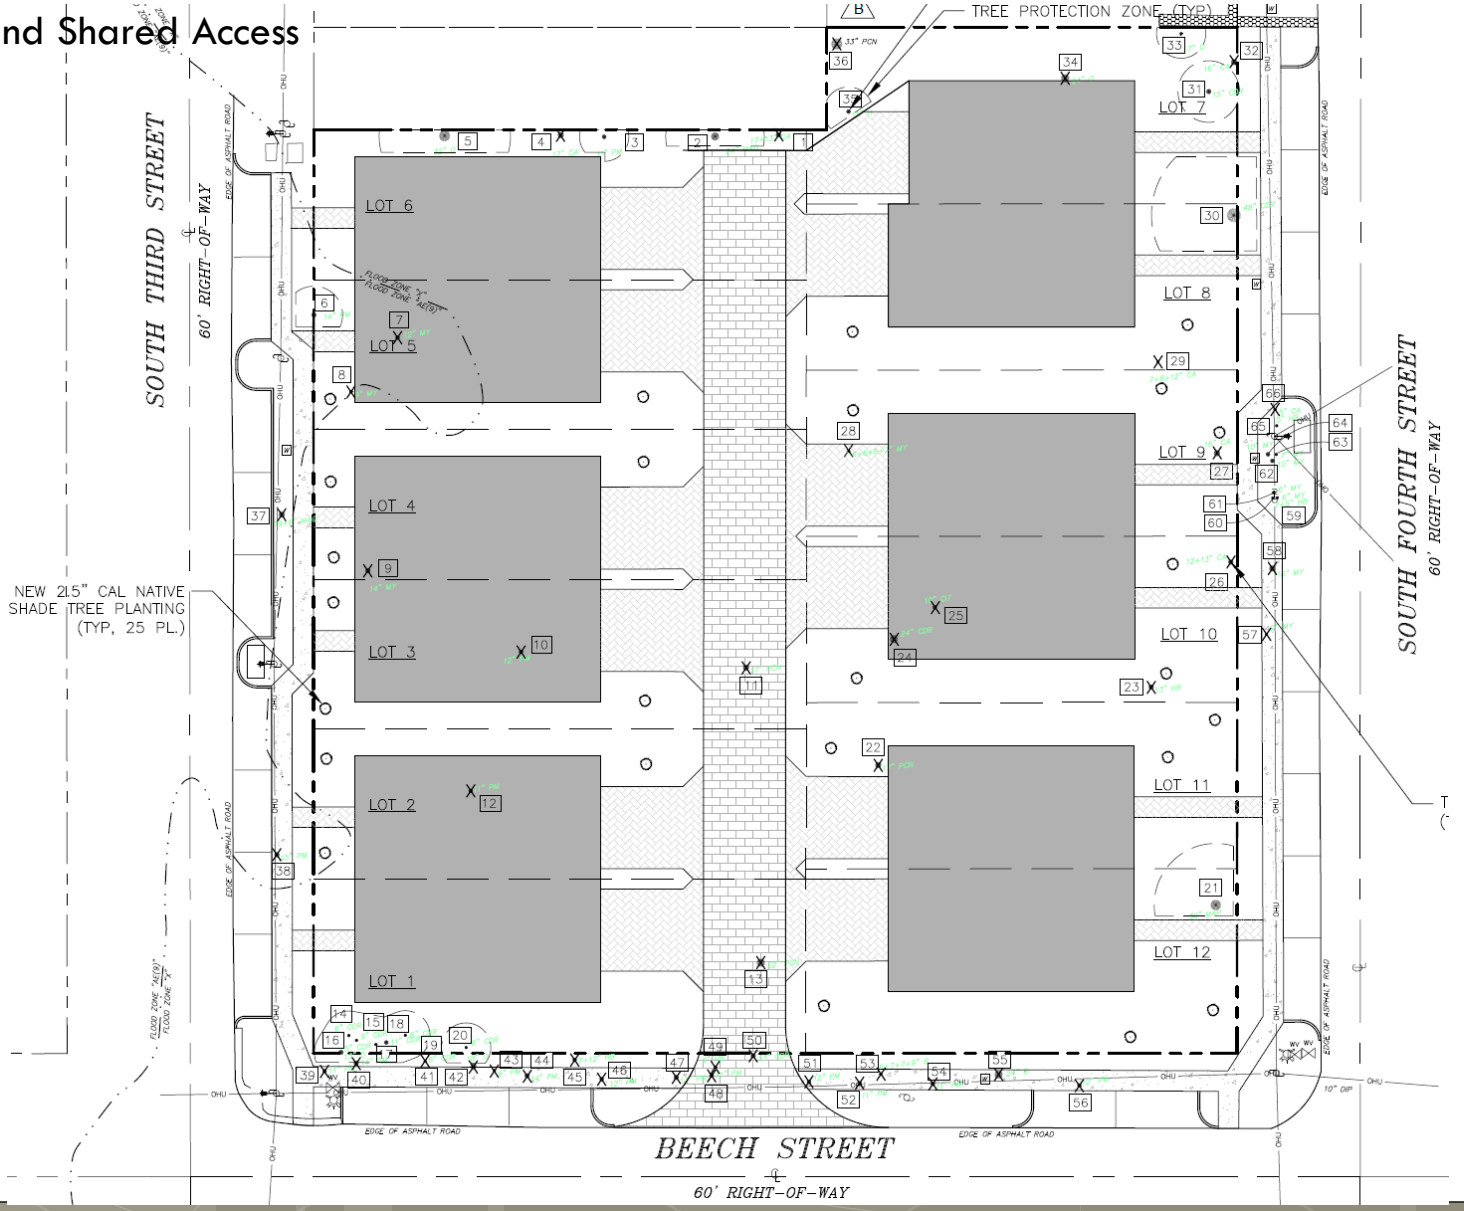
PAB 2022-0026

EXISTING CONDITIONS:

PAB 2022-0026

The properties are not in the Downtown Historic District or Community Redevelopment Area (CRA).

PAB 2022-0026



124 S. 3rd St. could qualify for designation into City's local register of historic places, if requested.

- The remaining structures do not fall into the City's Downtown Historic District's period of significance.
- In 2020, staff placed the property on its "list of concern" and requested action to purchase. The property owner declined discussions and Commission took no further action.

PAB 2022-0026

PROPOSED DEVELOPMENT: Tree and Stormwater Retention, Landscape Plan, On-street Parking, Mail Kiosk, and Shared Access

PAB 2022-0026

The site acreage calculated based on the City's definition of net density can only accommodate a maximum of **12 dwelling units.** The net density calculation of the project site breaks down as follows:

3RD STREET AND BEECH STREET TOWNHOMES PROJECT	CALCULATED NET DENSITY	
53,143.20 sq. ft. (1.22 acres of land)	53,143.20	sq. ft.
Minus 1,256 sq. ft. lands within the Special Flood Hazard Area (SFHA)	- 1,256	sq. ft.
PRIVATE PROPERTY AREA TOTALS:	51,887	sq. ft.
Plus half of the adjoining rights-of-way (ROW)		
+ S. 4th Street side 30 ft. x 250 ft. =	7,500	sq. ft.
+ Corner of S. 4th Street and Beech Street is 30 ft. x 30 ft. =	1,500	sq. ft.
+ Corner of S. 3rd Street and Beech Street is 30 ft. x 30 ft. =	1,500	sq. ft.
+ S. 3rd Street side 30 ft. x 225 ft. =	+ 6,750	sq. ft.
ROW AREA TOTALS:	17,250	sq. ft.
Total Net Buildable Land Area (excluding SFHA plus ½ the ROW)	69,137	sq. ft.
8 dwelling units per acres	/5,445	sq. ft.
TOTAL DWELLING UNITS:	12.7	units (rounded down)

CONCLUSION:

The requested Preliminary Plat is **consistent** with the applicable Florida Statutes, the City's Comprehensive Plan and the Land Development Code.

- The Preliminary Plat and site engineering was submitted for review to the Technical Review Committee (TRC) in August of 2022 (SPR 2022-0022) and is pending issuance of a Local Development Order.

Based on the findings of the Technical Review Committee and planning staff's review of the application, **staff recommends approval** of the Preliminary Plat.

PAB 2022-0026

An Alternative Development Scenario:
The applicant could request to restore 20 originally platted lots of record on Block 12 through the Board of Adjustment (BOA) to development consistent with the original 1857 plat though a variance from LDC Section 1.03.05.

IF APPROVED – Resulting development of 20 restored lots of record.

BOA Scenario:

- Allows for mixed use, detached single family or townhome development (20 units)
- No Technical Review Committee (TRC) review unless there are common amenities.
- No unified vehicle access
- No stormwater permitting required through SJRWMD only onsite retention
- No sidewalks
- No on-street parking
- No underground utilities
- No streetlights

IF DENIED - The BOA action could be appealed in circuit court.
2021 court action overturned BOA decision for LDC Section 1.03.05. to grant approval of the subdivision of lands.

Recent Subdivision Plats

approved with known prior residential structures

- Island View (2022)
  - 12 Lots Subdivision
  - Annexation December 2021 (Ordinance 2021-30)
  - Demolition of 4 home sites in May 2022 (DEMR-2022-0092)
  - Final Plat Approved on April 17, 2023
- Crane Island PUD (2017)
- Riverbend (2016)
- Dunes of Amelia (2015)

CITY COMMISSION AGENDA ITEM
City of Fernandina Beach

SUBJECT: Resolution 2023-78
Award of RFP 23-03 - Employee Benefits Consulting Services

ITEM TYPE: Resolution (w/ fiscal impact)

REQUESTED ACTION: Consider Resolution 2023-78.

SYNOPSIS: The City has maintained an excellent long-term relationship with the Gallagher Benefit Services (formerly Harden & Associates) to provide consulting/broker services in the marketing of employee benefit insurance but had not openly solicited for such services for many years.

As a result, the City issued Request for Proposal 23-03 to consider the selection of an Employee Benefits Consultant/Broker to assist the Human Resources Department and represent the City in the marketing of employee benefit insurance and provide service and consultation regarding each of the City's benefit programs, including health, dental, vision, life, and long term disability insurance.

Five proposals were received and considered by the Evaluation Committee. Risk Management Associates, Inc., a wholly-owned subsidiary of Brown & Brown was ranked number one on the evaluation form and unanimously selected by the Evaluation Committee.

FISCAL IMPACT: This Agreement is for a period of three years, beginning October 1, 2023 through September 30, 2026, with the option of two additional one year renewals. The annual fee is $65,000 and will be budgeted through Employee Benefits.

CITY ATTORNEY COMMENTS: No additional comments.

CITY MANAGER RECOMMENDATION(S): I recommend that the City Commission adopt proposed Resolution 2023-78.

Denise Matson, Human Resources Director	4/21/2023
Katie Newton, Legal Assistant	4/24/2023
Agnes White, Administrative Services Manager	5/1/2023
Pauline Testagrose, Comptroller	5/2/2023
Charles George, Interim City Manager	5/9/2023
Tammi E. Bach, City Attorney	5/9/2023

Date: March 30, 2023

Submitted By: Denise Matson, Human Resources Director

COMMISSION ACTION: Adopt

RESOLUTION 2023-78

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, AWARDING RFP 23-03 TO RISK MANAGEMENT ASSOCIATES, INC., A WHOLLY OWNED SUBSIDIARY OF BROWN & BROWN INC., TO PROVIDE CONSULTING SERVICES FOR EMPLOYEE BENEFITS IN THE AMOUNT OF $65,000 ANNUALLY; AUTHORIZING EXECUTION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, in accordance with the City Purchasing Policies and Procedures, the City solicited a Request for Proposals (RFP) 23-03 for Employee Benefits Consulting and Brokerage Services; and

WHEREAS, the City received proposals from five firms – Risk Management Associates, Inc. (Brown & Brown), Gallagher Benefit Services, Inc., Gehring Group, Mark III Brokers, and US Employees Services Group; and

WHEREAS, an evaluation committee was convened on March 31, 2023, to discuss and rank the proposals based on experience, qualifications, and proposed cost for the scope of work specified. The committee recommends entering into an agreement with Risk Management Associates, Inc., a wholly owned subsidiary of Brown & Brown Inc.; and

WHEREAS, funding will be included in the budget each year under employee benefits for all departments.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FERNANDINA BEACH, FLORIDA, THAT:

SECTION 1. The City Commission accepts the recommendation of the Evaluation Committee and awards RFP 23-03, Employee Benefit Consulting Services, to Risk Management Associates, a wholly owned subsidiary of Brown & Brown Inc.

SECTION 2. The Interim City Manager and City Clerk, upon review by the City Attorney, are hereby authorized to execute an agreement, attached hereto as Exhibit A, with Risk Management Associates, Inc. for a period of three years beginning October 1, 2023, through September 30, 2026, at an annual fee of $65,000, with the option of two additional one-year renewals.

SECTION 3. This Resolution shall become effective immediately upon passage.

ADOPTED this 16th day of May, 2023.

Resolution 2023-78
Exhibit "A"

AGREEMENT TO FURNISH SERVICES TO THE

CITY OF FERNANDINA BEACH, FLORIDA

This AGREEMENT made on the 16th day of May, 2023 between the **City of Fernandina Beach**, a municipal corporation whose address at 204 Ash Street, Fernandina Beach, Florida 32034 ("CITY") and the vendor, Risk Management Associates, Inc. whose address is 300 North Beach Street, Daytona Beach, FL, 32114 ("VENDOR").

Risk Management Associates, Inc.

For the consideration hereinafter set forth, _____, hereinafter referred to as the VENDOR, agrees to provide professional services to the City of Fernandina Beach, as follows:

1. **SCOPE OF SERVICES -** The parties hereto agree that under this Agreement, the vendor will provide professional services of a specified nature as described in Exhibit "A" - Scope of Services, attached hereto and incorporated as if fully set forth herein, when and if the CITY requests the VENDOR to provide such services.

2. **TERM OF AGREEMENT -** This Agreement will commence on October 1, 2023, and be for a period of three (3) years.

3. **ENTIRE AGREEMENT** - The terms, specifications and drawings included in this Agreement when duly executed constitute the entire agreement between the parties, unless otherwise stated on the face of the order. Acceptance of this Agreement will be unqualified, unconditional, and subject to and expressly limited by the Terms and Conditions hereon. CITY and the VENDOR will not be bound by additional provisions or provisions at variance herewith that may appear in the VENDOR's quotation, acknowledgment in force, or any other communication from VENDOR to CITY unless such provision is expressly agreed to and confirmed in writing. No modification or waiver of terms of the agreement is binding unless in writing, signed by the City Manager and confirmed by a representative of the VENDOR. This agreement will be interpreted in accordance with the laws of the State of Florida.

4. **DELIVERIES/INPECTIONS** - In the event of failure to deliver material of the quality or within the time specified, CITY may cancel the order and buy elsewhere. Failure of CITY to exercise this option with respect to any installment will not be deemed a waiver with respect to future installments, if any. Materials will be received subject to CITY's right to inspect and test all materials at destination before acceptance. VENDOR must pay transportation costs and the cost of inspecting and testing of materials which are rejected by City.

5. **CONTINGENCIES** - Neither party will be liable for delays or defaults due to acts of God, government authority or public enemy, war, fires, floods, epidemics, strikes, labor troubles, freight embargoes or contingencies reasonably beyond its control The party so affected, upon prompt written notice to the other party, will be excused from making or taking deliveries or goods and/or services hereunder to the extent of such prevention or restriction. At City's option, deliveries so omitted will be made on notice thereof to the VENDOR, upon cessation of such contingency, even though such might have been operative at the date of this order.

6. **GOVERNMENT REGULATIONS** - VENDOR warrants that all applicable laws and regulations of government authority, covering the production, sale and delivery of the materials and performance of services specified herein, have been complied with and will indemnify and save CITY harmless from and against any liability or loss resulting from VENDOR's failure to do so.

7. **WARRANTIES** - In addition to all warranties, established by statute or common law, or set forth elsewhere in this order, VENDOR expressly warrants that all material or services conform to all specifications, drawings, samples, and descriptions furnished or adopted by CITY and will be of best quality and fit and sufficient for the purpose for which purchased. If specified hereon, merchantable, of good material and workmanship and free from all patent and latent defects. CITY's failure to give notice to VENDOR of any breach or warranty does not discharge VENDOR of any breach of warranty and will not discharge Vendor's liability therefor. Without limiting the generality of any of the foregoing, VENDOR agrees to be responsible for all defects in design, workmanship and materials which may become apparent within twelve months of receipt by CITY.

8. **INSTALLATION** - If the scope of services requires the services of experts or employees on CITY's premises, such experts or employees are not deemed to be the agents or employees of CITY. Such parties are subject to CITY's safety rules and fire regulations. VENDOR assumes full responsibility for their acts and omissions and agrees to save CITY harmless from any claims arising therefrom and to accept exclusive liability for payroll and other taxes imposed upon the employer by law. VENDOR will undertake to keep the materials and premises involved free from any lien whatsoever for materials and labor incident to the performance of personality for a lump sum amount. VENDOR agrees to furnish an analysis thereof as CITY may reasonably require for accounting purposes. VENDOR will be solely responsible for materials furnished by CITY on other than a charge basis in connection with this agreement.

9. **NON-DISCLOSURE** - Without prior written consent of the CITY in each instance, VENDOR may not reveal to a third party the details, characteristics or any information on materials made to the special order of CITY or use reproductions thereof in any promotional media or reveal that CITY is purchasing the materials ordered hereunder.

10. **OCCUPATION SAFETY AND HEALTH ACT** - VENDOR certifies that all material, equipment, etc. supplied under terms of this Agreement meets all O.S.H.A. requirements. VENDOR further certifies that, if the material, equipment, etc. delivered is subsequently found to be deficient in accordance with any O.S.H.A. requirement in effect on date of delivery, all costs necessary to bring the material, equipment, etc. into compliance with the O.S.H.A. requirements will be borne by the VENDOR.

11. **PERMITS** - VENDOR is responsible for obtaining any permits necessary to complete the work covered by this order, at its own expense, prior to starting any work under this order.

12. **INDEMNIFICATION** -The parties recognize that VENDOR is an independent contractor. VENDOR agrees to assume liability for and indemnify, hold harmless, and defend the CITY, its Commissioners, Mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature arising directly or indirectly out of or in connection with any negligent and/or deliberate act or omission of VENDOR, its officers, employees, subcontractors, agents, and representatives. VENDOR's liability hereunder includes all attorney's fees and costs incurred by the CITY in the enforcement of this indemnification provision. This includes claims made by the employees of VENDOR against the CITY and VENDOR hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. The obligations contained in this provision are not limited by the amount of any insurance required to be obtained or maintained by VENDOR. In addition, VENDOR agrees to assume liability for and indemnify, hold harmless and defend the CITY, its Mayor, Commissioners, officers, employees, attorneys, agents and representatives of, from, and against all liability and expense, including reasonable attorneys' fees, in connection with any and all claims, including claims for injunctive or equitable relief, and damages whatsoever for personal injuries or property damage, including loss of use, arising out of VENDOR's violation or alleged violation of any third party's trade secrets, proprietary information, trademark, copyright, or patent rights in connection with VENDOR's licensing of any software, hardware, uploads or downloads delivered to the CITY pursuant to this Agreement and/or arising out of the negligent or deliberate act or omission of VENDOR, its officers, employees, volunteers, representatives or agents. Nothing contained in the foregoing indemnification will be construed to be a waiver of any immunity or limitation of liability the CITY may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

13. **INSURANCE** – VENDOR must procure and maintain worker's compensation insurance and commercial general liability insurance satisfactory to the CITY, with liability limits of not less than One Million Dollars ($1,000,000) combined single limit per occurrence for bodily injury and property damage liability, with a certificate of insurance to be furnished to the CITY naming the CITY OF FERNANDINA BEACH as an additional insured. It is understood and agreed that the coverage afforded by VENDOR's commercial general liability insurance also applies to CITY as an additional insured. Such policy must provide that cancellation or changes to such insurance will not occur without at least thirty (30) days prior written notice to the CITY. This requirement for proof of insurance may be modified only through approval of the City Manager and City Attorney.

14. **PAYMENT & TAXES** – Invoices must be submitted to the CITY's billing address. Payment due hereunder will be made by the CITY to VENDOR in accordance with the Florida Local Government Prompt Payment Act. The CITY is exempt from Federal Taxes on transportation charges and any Federal Excise Tax. If you prepay transportation charges, do not pay tax as the CITY will not reimburse you for the taxes paid. The CITY also is exempt from State Sales Tax.

15. **ASSIGNMENT** - VENDOR may not assign this Agreement or any part thereof without written consent of the CITY. Such consent will not relieve VENDOR from its obligations and liabilities hereunder.

16. **TERMINATION -** The CITY or the VENDOR may terminate, suspend, or delay this agreement for any reason by giving at least thirty (30) days written notice to the other party of their intent to terminate, suspend, or delay. In the event the agreement is terminated, suspended or delayed by the CITY for reasons unrelated to the quality of work provided by the VENDOR, the CITY will pay the VENDOR in full for all work previously authorized and actually performed prior to the Notice of Termination, Suspension or Delay. This payment will be the sole financial obligation or responsibility of the CITY for compensation in the event of termination, suspension or delay in accordance with the provisions of this paragraph. This Agreement will continue in effect until a Notice of Termination, Suspension or Delay is given by either party as set forth above. Upon termination, suspension or delay, at the CITY's request, the VENDOR must turn over to the CITY all work products and deliverables completed or partially completed up to the date of termination, suspension or delay, including but not limited to, subcontractor work products, reports, surveys, drawings, model results, and specifications. The CITY will have full rights to use all such work products and deliverables for any project, and in any manner, in the sole discretion of the CITY. The CITY accepts sole responsibility for the use of the above-referenced

work products and deliverables unless prior written approval is obtained from the VENDOR.

17. **SEVERABILITY** - If any section, subsection, sentence, clause, phrase, or portion of this contract is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion will be deemed separate, distinct, and independent provision, and such holding will not effect the validity of the remaining portion thereof.

18. **PUBLIC RECORDS LAW REQUIREMENTS** – Pursuant to Section 119.0701, Florida Statutes, a VENDOR performing services for the CITY must: (a) keep and maintain all public records as that term is defined in Chapter 119, Florida Statutes ("Public Records"), that ordinarily and necessarily would be required by the CITY in order to perform the work contemplated by this Agreement; (b) provide the public with access to Public Records, on the same terms and conditions that the CITY would provide the records and at a cost that does not exceed the costs provided in Chapter 119, Florida Statute, or as otherwise provided by law; (c) ensure that Public Records that are exempt and confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law; (d) meet all the requirements for retaining Public Records and transfer, at no cost to the CITY, all public records in possession of Vendor within thirty (30) days after termination of this Agreement. All Public Records stored electronically must be provided to the City in a format that is compatible with the information technology of the CITY. If Vendor does not comply with a public records request, the CITY may pursue any and all remedies available in law or equity, including but not limited to specific performance. **If the Vendor has questions regarding the application of Chapter 119, Florida Statutes, to the Vendor's duty to provide Public Records relating to this contract, contact the Custodian of Public Records at 904-310-3115, cbest@fbfl.org, 204 Ash Street, Fernandina Beach, FL.**

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the day and date first above written:

CITY OF FERNANDINA BEACH FLORIDA
RFP 23-03 EMPLOYEE BENEFITS CONSULTING AND BROKERAGE SERVICES

INTRODUCTION

The City of Fernandina Beach Human Resources office is accepting competitive sealed proposals for a qualified Employee Benefits Consultant/Broker to assist the Human Resources Department and represent the City in the marketing of employee benefit insurance and will provide service and consultation regarding each of the City's benefit programs.

The City will receive sealed proposals at the location stated below not later than **2:00pm, March 21, 2023.**

Any submittal received after the above stated time and date will not be considered. It will be the sole responsibility of the Respondent to have its submittal delivered to the City of Fernandina Beach, by U.S. Mail, hand delivery or any other method available to him/her; however, facsimile, or electronic submittals will not be accepted. Delay in delivery will be the sole responsibility of the Respondent. Submittals received after the deadline will not be considered.

This invitation to submit qualifications is not an authorization to approach the insurance marketplace on behalf of the City of Fernandina Beach. Prospective consultants failing to comply with this condition will be subject to disqualification.

RESPONDENTS ARE REFERRED TO THE ATTACHED GENERAL CONDITIONS FOR OTHER IMPORTANT INFORMATION REGARDING THE REQUEST FOR PROPOSAL PROCESS, REQUIREMENTS AND EXHIBITS.

CITY OF FERNANDINA BEACH FLORIDA
RFP 23-03 EMPLOYEE BENEFITS CONSULTING AND BROKERAGE SERVICES

GENERAL INFORMATION

The City of Fernandina Beach regularly reviews the structure, scope, competitiveness and economic efficiency of its employee benefit insurance coverages. The City of Fernandina Beach will consider creative and innovative approaches that will help the City maintain quality employee benefits without sacrificing fiscal soundness.

The following insurance coverages are included in the City's overall employee benefit insurance program:

- ✓ Health Insurance
- ✓ Prescription Insurance
- ✓ Dental Insurance
- ✓ Vision Insurance
- ✓ Basic Life Insurance
- ✓ Supplemental Life Insurance
- ✓ AD&D Insurance

Included as separate document, please find the Employee Benefit Highlights Booklet that includes a summary of the City's current coverages.

BACKGROUND INFORMATION

The City of Fernandina Beach, a municipality in Nassau County, Northeast Florida, has a staff of 230 full-time equivalent employees, with a projected population for 2023 of 14,500 permanent residents. The City encompasses approximately 15 square miles. The City functions as a Commission/Manager form of government.

The City of Fernandina Beach offers a comprehensive group benefits program to its employees and their dependents. The core benefit program consists of employer paid or partially paid group health, life and AD&D insurance. Employees may purchase ancillary benefits that include supplemental life insurance, dental and vision insurance. The City's group health, prescription, dental, vision and life insurance are fully-insured.

The City of Fernandina Beach is seeking an integrated approach to benefits consultation which includes the marketing of the City's benefits insurance program and also a periodic review of the benefit program performance and the offering of recommendations to improve such performance, as necessary.

MINIMUM QUALIFICATIONS

The successful Broker/Consultant will have the capability to access insurance markets on a regional or national basis to maximize the availability of coverages for the City's consideration. The successful Broker/Consultant shall demonstrate the resources at its disposal as are necessary to fulfill the requirements of the scope of services.

The successful firm shall demonstrate a proven record of providing services of this type to clients of the same size, nature, and complexity as the City.

The successful firm must possess all necessary licenses to perform the above- mentioned services as may be required by the State of Florida.

The City seeks to enter into a contract that will commence no earlier than October 1, 2023, and will be in-place for a three-year term with an optional two one-year renewals, if mutually agreed upon by the CITY and BROKER/CONSULTANT.

The City shall have the right to establish services and their associated fees by contract and to determine which services it may wish to utilize.

The City encourages proposals from all insurance BROKER/CONSULTANT meeting the following minimum qualifications:

1. Licensed in the State of Florida.
2. Ten years' experience as a licensed insurance broker or brokerage firm.
3. Experience working with at least three municipal accounts with 200 or more employees providing services of the same size, nature, and complexity as the City of Fernandina Beach.
4. Experience working with at least three government accounts utilizing a fully insured health plan.
5. Evidence of insurance agents' and brokers' errors and omissions insurance with a minimum limit as required in item #13 General Term and Conditions of Proposal.

LICENSES

At a minimum, vendors must submit the following:

1. An active certified Florida Department of Financial Services Agency license; and be certified and or qualified to complete the project per project specifications.
2. Respondent, whether residents or nonresidents of Florida, must provide evidence of proper licensure with their submittal. Such evidence must be in the form of copies of their Florida license which authorizes Respondent to perform the work.
3. Respondent must hold the required license for the type of work to be performed at the time of their submittal and for the duration of the contract.

SUBMITTAL REQUIREMENTS

Interested firms shall include the following information in their submittal responses to this solicitation. The following format and sequence should be followed in order to provide consistency in the firm's responses and to ensure each submittal receives full consideration. Use 8 ½ x 11 sheet pages only with minimum font size of 10 points and with tabs or section dividers to separate sections as defined in this Request for Proposal. More than one section is permitted on one page unless otherwise indicated below. Undesignated information shall be inserted at the rear of each package. Place page numbers at the bottom of every page, excluding dividers. Submittal documents should not contain links to other web pages; such links will not be reviewed for evaluation purposes. **PLEASE INCLUDE PAGE TABS/SECTION DIVIDERS** so that those evaluating your submittal can easily compare each section with others that are submitted. If any of the information provided by the Respondent is found to be substantially unreliable, in the sole opinion of the Evaluation Committee their proposal may be rejected.

COVER LETTER AND FORMS – TAB 1

1. Maximum two pages outlining why the City should select your firm/team. Identify who will be the point of contact including their email address. Identify who will be the point of contact including their email address. Identify the Project Manager and in which office they are located.
2. City Exhibits A-I. Include any applicable licenses/certifications.

PROJECT SCOPE OF WORK – Tab 2

The successful BROKER/CONSULTANT shall be able to perform or provide the following services. These services shall include but not be limited to:

General Services

1. Provide dedicated personnel to be the main contact for managing account relationship. The contact will be readily accessible to City Human Resources personnel.
2. Provide general and technical guidance on employee benefit issues to include market analysis, trends, contract and statute interpretation and cost containment methods.
3. Assist in the development and review of communication materials written by the City's benefit administrators and other participating organizations for content, appearance, compliance and accuracy.
4. Assist the City on a regular basis and in a timely manner to provide information, analysis and guidance on any and all aspects of City benefit program policy and administration.
5. Provide a qualified representative to attend meetings with City staff, Management Team, and employees as requested or needed.
6. Review all plan documents for accuracy and compliance with appropriate laws and regulations, appropriateness of items to be included in a Section 125 Plan and review of annual required filings.
7. Advise and assist the City in negotiating renewal rates and plan provisions.
8. Assist the City in annual enrollment meetings or health fairs as needed.
9. Respondents are required to be HIPAA compliant.
10. Apprise the City of current issues in the areas of benefits law and administration.
11. Act as liaison with insurance/contract issues.
12. Presentations to elected officials as needed.

Technical Services

1. Health Plan Comparison/Utilization Analysis – The BROKER/CONSULTANT is expected to work with the City in securing and analyzing financial and claims data from each of the carriers on a quarterly basis, and/or as requested by the City in order to monitor City benefit plans. Once analyzed, the BROKER/CONSULTANT is expected to provide a summary explanation of the data emphasizing any important trends, emerging problems, etc. It is preferred that the BROKER/CONSULTANT have in-house utilization analysis of all City medical relationships, including managed-care alternatives.
2. Compliance – The BROKER/CONSULTANT will advise the City on any federally mandated compliance requirements relevant to City plans and providing guidance, when requested, in developing compliance strategies.
3. Actuarial Report Services – The BROKER/CONSULTANT will assist in the preparation of materials required for an annual actuarial review of the City's Health Benefit program. This currently entails the City's annual actuarial filing pursuant to FS112.08 and GASB 75 OPEB valuation.
4. Section 125 Plan – The BROKER/CONSULTANT will participate in the review of all plan documents for accuracy and compliance with appropriate laws and regulations, and appropriateness of items to be included in the plan. This includes a review of IRS Form 5500 annually submitted by the City for accuracy and compliance.
5. Wellness/Disease Management Programs- The BROKER/CONSULTANT will assist the City in evaluation, implementing and measuring the effectiveness of wellness and disease management programs.
6. Litigation – On rare occasions, the City may be involved in litigation arising from requests for proposals, contracting, or employee grievances. If such a situation should occur, the BROKER/CONSULTANT may be expected to assist the City in providing necessary materials and testify if needed.
7. Automated benefits administration and enrollment services and programs. The BROKER/CONSULTANT shall provide secure, automated benefits administration and enrollment services.

Request for Proposal Services

1. Develop RFP's for various City Benefits programs.
    a. In conjunction with the Human Resources department, prepare Requests for Proposals in compliance with the City's purchasing requirements, exploring all feasible plan designs, for employee benefit programs as needed.
    b. Develop evaluation criteria.
    c. Address any questions from vendors in the RFP process.
    d. Be present and participate in oral interviews as needed.
    e. Prepare a report analyzing the proposals using the evaluation criteria.
    f. If requested, prepare recommendations and defense of said recommendations.
2. Appeals – Prepare response to any administrative RFP appeals.
    a. Assist City Attorney in preparation of defense in the event litigation should result from the RFP process.
    b. Testify in court at the request of the City attorney if litigation should result from the RFP process.
3. Contracts
    a. Assist with the development of contracts with vendors.
    b. Work with the City attorney to ensure contract legality.
    c. Conduct negotiations of benefits; plan design, premiums rates and performance guarantees.
4. Implementation
    a. Serve as an intermediary (ombudsman) between the vendors and City during the implementation of new programs.
    b. Prepare rate-deduction spreadsheets.
    c. Review new program announcement material for content, appearance, compliance and accuracy.
5. Ongoing Contract Services – It is expected that the BROKER/CONSULTANT will:
    a. Participate in negotiations with vendors on proposed rates and benefits changes to existing contracts.
    b. Audit existing contracts on an annual basis for satisfactory performance and contract compliance.
    c. Provide quarterly written analysis of the medical plan's claims experience.
    d. Periodically provide market analysis of current renewal actions for similar sized employers in southwest Florida and analysis of quality of services and value provided by various managed care vendors.

INDIVIDUAL QUALIFICATIONS – Tab 3

1. Provide a resume for each individual that will be assigned to work on the City of Fernandina Beach account. Include account executives, account managers, marketing personnel, and other specialists that would actively work with the City of Fernandina Beach. Include an estimate of each key person's allocated time to the City of Fernandina Beach account. Include an organizational chart identifying the team and reporting structures.
2. Provide a profile of the proposed account executive's current client assignments. Your submittal should include the number of accounts, their complexity, and some reference to time allotments for each.

FIRM QUALIFICATIONS AND REFERENCES – Tab 4

1. Provide a brief history and description of your firm. Include a description of resources or services that may be utilized that are not housed in your local office. Separately, provide a description of services and resources that may be introduced to the City of Fernandina Beach over time that may add value to its employee benefits program or other business objectives.
2. Describe any special expertise your firm has in providing employee benefits and insurance services to clients with similar or related business activities, specifically include experience with self-insured health plans offered by government employers. Include a list of current client relationships (local or otherwise), if not included in your references.
3. Describe your firm's efforts to remain current on business and employee benefit issues relating to the City of Fernandina Beach business profile, including industry or association memberships, if applicable.
4. Provide five current client references of similar size, complexity, or with similar needs. Limit your response to those clients that are principally serviced from your local office.

IDENTIFIED SERVICE AREAS – Tab 5

1. **Employee Benefits Assessment and Analysis** – Provide a summary of your firm's process in conducting risk assessment and analysis for firms similar to the City of Fernandina Beach. Identify resources to be used, if not already part of the proposed service team. Provide samples of internal or external reports that are a product of such assessment and analysis. Based upon the information currently available, identify areas of emerging risk relative to the City of Fernandina Beach operations, or risk warrants greater attention.
2. **Marketing** – Describe your firm's proposed marketing processes and strategies. Provide comment on current program structure and pricing (to the extent possible) with particular emphasis on your firm's assessment of the insurance market. Include identification of resources that are not part of the proposed service team. Provide a suggested listing of markets that may be considered for each major line of coverage, including your rationale for such a course of action. Include any intermediaries to be used and your relationship with those companies. (Note: The City is requesting a sample only of the markets that your company would use for an account of the size of Fernandina Beach).
3. **Data Management** – Provide commentary on the projected needs for the City of Fernandina Beach relative to data management and your firm's approach to meeting those needs. Include resources or systems that might be utilized to enhance this area of benefits management.
4. **Program Design** – Provide a brief summary of potential program designs that may be appropriate for the City of Fernandina Beach for the major lines of coverage. Include the rationale for your suggestions. Given the information provided, identify your firm's key strategies in evaluating the optimum alternatives for the City of Fernandina Beach in the major lines of coverage.
5. **Communications** – Describe formal and informal communication processes for the City of Fernandina Beach. Include proposed schedules of key meetings, timelines, and other process mileposts for the proposed client service. Include any proprietary client communications that may be appropriate and available to the City of Fernandina Beach to facilitate communications. Describe your firm's capability of producing annual benefit statements and open enrollment communications for employees.
6. **Other Services (Optional)** – Provide a brief summary of other services available from your firm that may be appropriate to the City of Fernandina Beach consideration.
7. **Broker/Consultant Compensation** – Identify your firm's preference on the means of compensation for services. Provide a detailed analysis of the fee build-up, including allocated time and rates for the service providers. Identify any proposed services that may be outside an agreed-upon fee and an estimate for

those services, if applicable. Include the details of any proposed incentive plan, if recommended.

LOCATION IN PROXIMITY TO FERNANDA BEACH – Tab 6

Include information on staff availability, office locations and issues of accessibility.

COMPENSATION / COST OF SERVICE – Tab 7

Submittals shall include an annual service fee as part of their response to this RFP. The successful firm shall be compensated on an annual fee basis. Fees will be payable quarterly at the end of each quarter. All program premiums and charges are to be written net of commission and the acceptance of a commission shall be grounds for immediate termination of the contract. If a carrier does not or cannot work on a net of commission arrangement, the firm shall disclose this fact and the commission shall be deducted from the annual fee. The successful firm shall provide an annual statement from each carrier confirming that the insurance carrier has paid no commissions. Full disclosure of all compensation earned, either directly or indirectly, is required. Use of intermediaries, wholesalers, subsidiary companies, etc. is expected and encouraged if advantageous to the City of Fernandina Beach. However, all fees and or commissions earned as a result of their use must be disclosed and will be deducted from the annual fee. Additionally, the City reserves the right to seek additional relevant records as a means of enforcing this provision.

SOLICITATION SCHEDULE

Listed below are the important dates and times related to this solicitation. The Procurement Division may find it necessary to change any of these dates or times. All dates are subject to change.

Request For Proposal	Date/Time
RFP Publication	February 17, 2023
RFP Submittal Due Date	March 21, 2023
Evaluation Committee Meeting	March 30, 2023

SUBMITTAL OPENING

The submittal opening is public on the date and at the time specified on the submittal form. It is the Respondent's responsibility to assure their submittal is delivered at the proper time and place of the submittal opening. Submittals which for any reason are not so delivered will not be considered.

SELECTION CRITERIA

Any proposal that does not meet the minimum qualifications as stated will be rejected. The criteria below are not necessarily listed in order of importance. Submittals will be evaluated on the following criteria:

CRITERIA	MAXIMUM POINTS
Scope and quality of services proposed	**20**
Qualifications and experience of the staff assigned to City to perform services	**20**
References provided by other clients with comparable services	**10**
Demonstrated ability of firm to provide all identified services	**15**
Location in proximity to Fernandina Beach	**10**
Cost of Services	**25**
MAXIMUM TOTAL	**100**

SELECTION PROCEDURE

The submittals received will be evaluated by qualified personnel of the City. The Evaluation Committee shall be responsible for evaluating the qualifications and capabilities of Respondents who have submitted proposals in response to the Request for Proposals. Committee evaluations shall be conducted in accordance with applicable Florida Public Records Laws, including F.S. 119. Evaluation may include such activity as is deemed appropriated by the Committee to verify the qualifications and capabilities of the proposers and their ability to furnish the required goods or services.

The Evaluation Committee shall review the Submittals and prepare by consensus a recommendation of award to the firm or firms it deems to be most qualified and capable to perform the required services.

The Evaluation Committee, at its discretion, may request oral, written or visual presentations from; conduct interviews with; or conduct visits to the office, facilities or projects of the Proposers it selects from among those submitting Proposals.

If the Evaluation Committee decides to entertain presentations or conducts interviews at a subsequent meeting, it shall set the date, place and time for that meeting, then establish the order of presentations of interview before adjourning. The Purchasing Department shall be responsible for notifying all firms of the meeting and order of presentations or interviews.

If no oral presentations or interviews are requested, the Evaluation Committee selection shall be based on its review and evaluation of qualified firms at its initial Committee meeting.

The evaluation of Respondent qualifications and capabilities shall include but not be limited to such factors as: experience; capabilities; past record; past performance; adequacy of personnel; ability of professional personnel; willingness and ability to meet time and budget requirements; recent, current and projected workload; location; approach to the project; ability to furnish the required services; volume of work previously awarded to each firm submitting qualifications; and such other factors as may be determined by the Evaluation Committee to be applicable to the particular requirements of the project for which the professional services have been requested.

At the conclusion of its evaluation, the Evaluation Committee shall report its recommendations and order of preference (final ranking) to the Board of Commissioners.

PROPOSAL EVALUATION

The City of Fernandina Beach shall be the judge of its own best interests, the submittals, and the resulting Contract. An award may be made to the most responsive and responsible firm whose submittal is determined to be the most advantageous to the City.

The governmental entities will consider as an important factor in the award, in addition to price, a demonstrated history of reliable and dependable service to similar users or demonstration of a long history of reliability and dependability for users with critical municipal needs similar to the governmental entities.

The City reserves the right to consider historic information and fact, whether gained from the Repondent's proposal, question and answer conferences, references, and/or other sources in the evaluation process.

The City reserves the right to conduct investigations as deemed necessary by the City to assist in the evaluation of any submittal and to establish the responsibility, qualifications and financial ability of Respondents, subcontractors, suppliers and other persons and organizations to preform and furnish the work in accordance with the submittal documents.

It is the Respondent's sole responsibility to submit information related to the evaluation categories. The City is under no obligation to solicit such information if the Respondent fails to include it within their submittal. Failure to provide requested information may result in the rejection of the submittal, or a deduction in evaluation points at the sole discretion of the Evaluation Committee.

AWARD

Award recommendation will be awarded to the most responsive and responsible Respondent offering the best value. The City reserves the right, based upon its deliberations and in its opinion, to accept or reject any or all submittals. The City also reserves the right to waive minor irregularities or variations to the specifications and in the award process.

Successful Respondent is required to have a Business License in the city where their home office is located. If Respondent's business office is located in the City of Fernandina Beach a business tax license is required.

RFP PACKAGE

Request for Proposal Documents and Specifications can be downloaded online at www.fbfl.us/bids. Any questions regarding the RFP package can be directed in writing to Wanda Weaks, Purchasing Agent, at wweaks@fbfl.org.

CONTACT

Specification questions during the submittal period must be submitted in writing to Wanda Weaks, Purchasing Agent, at wweaks@fbfl.org.

Respondents are hereby put on notice that no contact will be made with any of the City Commission members, other City staff, or others that may be involved in the selection process to discuss this request or to influence the outcome of the selection.

ADDENDA

A written response to Respondent questions will be issued via Addendum and posted on the City's website at www.fbfl.us/bids and DemandStar at www.demandstar.com. It is the Respondent's responsibility to check the City's website for Addenda prior to submitting their proposal. The deadline for questions is ten days before proposal opening.

If there is an Addendum it becomes part of the original RFP and must be acknowledged by attaching a copy of the Addendum, signed by an authorized representative of the person or company submitting the proposal. Failure to do so may disqualify the proposal.

GENERAL CONDITIONS OF REQUEST FOR PROPOSAL

1. **PREPARATION OF PROPOSAL –** REQUEST FOR PROPOSAL will be prepared in accordance with the following:
   a. The enclosed Contact Sheet/Proposal Form, attached hereto as "Exhibit A", must be used when submitting your REQUEST FOR PROPOSAL.
   b. All information required by the Contact Sheet/Proposal Form must be furnished. The Proposer must print or type his/her name and manually sign the Form and any continuation sheet on which an entry is made.
   c. Unit prices must be shown and where there is an error in extension of price, the unit price will govern.
   d. Alternate Proposals will not be considered unless authorized by the Request for Proposal.
   e. Proposers will **not** include federal taxes nor State of Florida sales, excise, and use taxes in prices, as the City is exempt from payment of such taxes. An exemption certificate will be signed where applicable upon request.
   f. Proposers must make all investigations necessary to thoroughly inform themselves about any and all conditions related to the performance of the contract. Plea of ignorance by the Proposer of conditions that exists or may hereafter exist as a result of failure or omission on the part of the Proposer to make the necessary examinations and investigations, or failure to fulfill in every detail the requirements provided for in the Purchasing Policy, Purchasing Ordinance and/or State and Federal Statutes. The City's Purchasing Ordinance is set forth in Chapter 2-420, *et seq*.
   g. Prices quoted must be FOB City of Fernandina Beach, Florida with all transportation charges prepaid unless otherwise specified in the Request for Proposal.
   h. Deliveries are to be FOB Destination unless otherwise specified in the Request for Proposal.
   i. Deliveries are to be made during regular business hours.
   j. Proposals and Proposal prices must be valid for a minimum of ninety (90) days, unless otherwise stated on the REQUEST FOR PROPOSAL.

2. **SUBMISSION OF PROPOSAL**
   a. Submittals and changes thereto must be enclosed in sealed envelopes and addressed as instructed. The name and address of the respondent, the date and hour of the Request for Proposal opening and the material or service must be placed on the outside of the envelope.
   b. REQUEST FOR PROPOSAL must be submitted on the forms furnished. Electronic Proposals will not be considered.

3. **REJECTION OF PROPOSAL**
   a. The City reserves the right to accept or reject any or all Proposals, to waive irregularities and technicalities, and to request resubmission or to re-advertise for the services. The City will be the sole judge of the submittals. The City's decision will be final.

4. **WITHDRAWAL OF PROPOSAL**
   a. Proposals may not be withdrawn after the time set for the opening for a period of time as specified.
   b. Proposals may be withdrawn prior to the time set for the opening. Such request must be in writing.

5. LATE PROPOSAL

a. REQUEST FOR PROPOSAL and modifications received after the time set for the opening will not be considered.
b. Modifications in writing received prior to the time set for the opening will be accepted.

LOCAL, STATE, AND FEDERAL COMPLIANCE

a. Proposers must comply with all local, state, and federal directives, orders and laws as applicable to the REQUEST FOR PROPOSAL and subsequent contract(s) in accordance with the requirements as stated in CFR 200.321, including but not limited to Equal Employment Opportunity (EEO), Minority Business Enterprise (MBE), and Occupational Safety and Health Administration (OSHA) as applicable to this contract.
b. A "Public Entity Crimes Statement", in accordance with Florida Statutes, Section 287.133 (3) (a), on Public Entity Crimes, attached hereto as "Exhibit B", must be received at the time of the proposal.
c. A "Drug Free Workplace Certification" attached hereto as "Exhibit C", must be received at the time of the proposal.
d. The City of Fernandina Beach requires that the Proposer selected will not discriminate under the contract against any person, in accordance with federal, state and local government regulations.
e. An "E-Verify Statement" attached hereto as "Exhibit D" must be received at the time of the proposal.

7. AWARD OF REQUEST FOR PROPOSAL

a. The REQUEST FOR PROPOSAL will be awarded to the most responsive and responsible proposer offering the best value to the City of Fernandina Beach.
b. The City reserves the right to accept and award item by item, and/or by group, or in the aggregate.
